For Applicant: Leonard Lazarus.
For Opposition: None.
For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 1, 1955, at 10 A. M. for applicant to file large scale plans (one set) showing all buildings, roads and grades at each building and at street in front; hearing closed; no further argument.

MINUTES

815-54-A

APPLICANT—Leonard Lazarus, for Lindenwood Realty Corp., owner.

SUBJECT—Application October 27, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 33, subdivision 4 of the Multiple Dwelling Law re height and required open spaces also under section 36, General City Law re buildings not fronting on legal streets.

PREMISES AFFECTED—152-02 to 152-04 Cross Bay boulevard, 150-17 to 150-39 89th street, 89-25 to 89-49 151st avenue and 90-01 to 92-03 153rd avenue, Block 11421, Lot 13, Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Leonard Lazarus.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 1st, 1955, at 10 A. M. in conjunction with Cal. 814-54-BZ.

990-54-BZ

APPLICANT—Simeon Heller, for Walter Daniels, owner.

SUBJECT—Application December 30, 1954—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, the relocation of a dwelling without the required setback from street line and without the required side yards.

PREMISES AFFECTED—53-31 Marathon parkway, northeast corner of Horace Harding boulevard, Block 8240, Lot 6, Little Neck, Borough of Queens.

APPEARANCES—

For Applicant: Simeon Heller.

For Opposition: Joseph F. Deuber.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 15, 1955, at 10 A. M. for inspection, if necessary, and decision; hearing closed.

677 54-BZ

APPLICANT—Angelo S. Mongiello, for Hyman and Morris Glassgall, owners.

SUBJECT—Application August 3, 1954—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use district, the change in occupancy from dead storage for autos, garage and one apartment to roofing and sheet metal factory and apartment (one family).

PREMISES AFFECTED—413-415 West 150th street, north side, 112 ft. 11½ in. west of St. Nicholas avenue, Block 2065, Lot 22, Borough of Manhattan.

APPEARANCES—

For Applicant: A. S. Mongiello.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was laid over for inspection by a committee of the Board, and after hearing, the committee was ready to report; at that time the applicant requested permission to withdraw.

Resolved, that this application be, and it hereby is withdrawn.

364-36-BZ—Vol. II

APPLICANT—Alberico Pompa, for Rocco Tricarico, owner.

SUBJECT—Application May 25, 1954 (decision of the borough superintendent), under sections 7f and 7i of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs, storage and sale of accessories and office (previously granted for a term of years, the parking and storage of motor vehicles, extended from time to time until legalized by amendment of the zoning resolution.)

PREMISES AFFECTED—31-70 31st street, west side, 103 ft. north of Broadway, Block 589, Lot 67, Astoria, Borough of Queens.

APPEARANCES—

For Applicant: Alberico Pompa and Rocco Tricarico.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACT OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 15, 1954 subject to regular procedure, to consider a new proposal; and

WHEREAS, a public hearing was held on this application on January 25, 1955 after due notice by publication in the Bulletin; laid over to February 23, 1955, for inspection and decision, hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 31st street and Broadway are in a business use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated May 6, 1954 acting on N. B. Applic. 540-54, reads:

"1. Proposed use of premises located in a business use district as a gasoline service station, lubritorium, office, storage, salesroom, auto repairs and car washing is contrary to Article II Sec. 4-29 & 46 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 197 ft. frontage by 80 ft. in depth, now used as a parking lot; that on the northeast corner, fronting the street, there is an old wooden two car garage and close to it an old shed used as an office; that the entire area is surfaced with cinders and is enclosed by a concrete block wall, 4 ft. high with a wire fence extending 2 ft. above it on the building line, except for the driveway section and in front of the two car garage; that there is a 5 ft. 6 in. chain link fence on the north lot line a concrete block wall 5 ft. 6 in. in height, except for a few short sections of wood, and chain link fences on the rear lot line and by the walls of the adjoining buildings on the south lot line; that it is proposed to erect a modern one story building of face brick masonry designed to provide lubrication facilities with two hydraulic lifts of approved type, car wash, minor auto repairs with hand tools only, office and storage and sale of miscellaneous auto accessories and modern rest rooms for patrons; that it is also proposed to install twelve 550 gallon storage tanks, six dispensing pumps and to provide two curb cuts on 31st street; that it is also desired that the present permit for the parking and storage of more than five motor vehicles be extended because of the availability of parking space on each of the sides of the plot; that this limited parking would not cause any congestion because of the large width of the plot; that the proposed building, 64 ft. by 41 ft., will be located 8 ft. from the rear lot line and near the center of the plot so that it will be well away from the adjacent lots; that the office portion of the building will be faced with plate glass and the rest of the front of the building and the two sides will be finished with face brick with cast stone sills and copings; that the rear wall will be of concrete blocks; and

WHEREAS, the applicant further states that except for the 8 ft. strip in back of the building, which will be planted, the entire area within the lot and building lines will be surfaced

MINUTES

with asphaltic paving and the sidewalk area with concrete paving; that the existing concrete block wall on the building line will be removed and the short sections of wood and chain link fences on the rear lot will be removed and replaced with a concrete block wall to match the existing one, 5 ft. 6 in. in height and properly coped; that the existing chain link fence on the north lot line being in good condition will not be removed and no fence will be necessary on the south lot line because of the occurrence of walls of the adjoining buildings; that there will be no conspicuous signs and the electric lighting installation will be so designed as to provide maximum lighting to the area without causing any glare to the dwellings on the adjoining lots; and

WHEREAS, the applicant contends that the premises fronts on 31st street and is located 103 ft. from its intersection with Broadway; that this intersection is a very busy one because of the heavy motor traffic on Broadway and on 31st street, especially the latter one, with traffic leading to and from the Triboro bridge; that this plot and other similar vacant plots in the vicinity fronting on 31st street are not desirable locations for any residential developments because of the heavy motor traffic and because of various non-conforming uses such as storage buildings, warehouses, parking lots, etc., that have been already established; that because of this industrial trend the proposed project will not be detrimental to nor affect any adjoining properties; and

WHEREAS, the applicant states that the present owner has held title to the property since January 1, 1948 and that the assessed valuation of land is \$20,000, and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten (10 years to permit the premises to be used and occupied as a gasoline service station substantially as proposed and as indicated on plans filed with this application marked, "received, May 25, 1954, (6 sheets), *on condition* that all existing buildings and uses on the premises shall be removed and the premises shall be levelled substantially to the grade of 31st Street, and the premises shall be arranged and constructed as indicated on plans cited above; that the accessory building shall have no cellar below and shall be constructed and arranged as indicated on such plans; that it shall be faced with face brick; that the pumps shall be of a low approved type and erected not nearer than fifteen (15) feet to the street building line; that along the interior lot line where walls of adjoining buildings do not occur there shall be erected a masonry wall not less than five feet six inches in height; that the balance of the premises shall be paved with asphalt or concrete; that curb cuts shall be restricted to two curb cuts each 30 feet in width located as shown with no portion of any curb cut nearer than five feet to a side lot line as prolonged; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor repairing for adjustment with hand tools only and maintained solely within the accessory building; that planted area as shown shall be so maintained at all times, properly protected with curbing not less than six inches in height and six inches in width; that the number of gasoline storage tanks shall be limited to twelve 550 gallon approved tanks; that sidewalks and curbing in front of the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and all temporary signs but permitting the erection of one post standard for supporting a sign which may be illuminated advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four feet; that such sign may be either to the

north or south except that it shall be not nearer than fifteen feet to a side lot line so as not to be objectionable to the adjoining owners; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

908-52-BZ

APPLICANT—Lama, Proskauer and Prober for Merrick Westbury Corp., owner.

SUBJECT—Application December 30, 1952 (decision of the borough superintendent), under sections 7e and 7h of the zoning resolution, to permit in a local retail use district the erection and maintenance of a gasoline service station, lubritorium, car washing, motor vehicle repairs, storage and sale of accessories and office, and the parking and storage of motor vehicles on unbuilt portion of lot, for a term of fifteen years.

PREMISES AFFECTED—203-20 Rocky Hill road, 47-52 to 47-58 204th street, southwest corner and 203-17 to 203-27 48th avenue, Block 7355, Lot 61, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Kleinert 1

Negative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 16, 1954 after due notice by publication in the Bulletin; laid over to December 14, 1954, for inspection and decision; hearing closed; then to January 4, 1955, for applicant to file revised plans giving data with reference to grade conditions; then to January 18, 1955, for applicant to file revised plans as to grade conditions; then to January 25, 1955, for consideration of revised plans; then to February 23, 1955, for further inspection and decision; hearing previously closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Rocky Hill road and 204th street are in a local retail use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated December 4, 1952 acting on N.B. Applic. 6695-52, reads:

"1. Proposed use of premises located in a local retail district as a gasoline service station, lubritorium, minor auto repairs, car washing, office and sales, storage and parking of motor vehicles is contrary to Sec. 4-c of zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 107.02 ft. 81.49 ft. and 80 ft. frontage by 132.03 ft. in depth, irregular, presently vacant; that a portion of the site is in the bed of Rocky Hill road; that this property is presently owned by the same owner as the site; that no proceedings are pending by the City to acquire title to the property and it is not proposed to build upon or use this portion of site under this application; that the use district maps accompanying the building zone resolution show that the premises are in a local retail district and class 1 height district and class D are a district; that as of July 25, 1916 the premises was in a business use district and received its present use designation on July 24, 1947; and

WHEREAS, the applicant states that it is proposed to erect and maintain a modern gasoline service station, to consist of ten 550 gallon gas tanks and six dispensing pumps; that the accessory building as contemplated will have a frontage of 40 ft., a depth of 28 ft., of class 3 construction and

MINUTES

contain the conjunctive uses of lubritorium, minor auto repairs, car wash, office and sales and storage; that part of the site will be reserved for parking and storage of motor vehicles; that the entire site will be concrete or tarvia paved and a 5 ft. high wire woven fence on a 6 in. concrete curb will be erected on the westerly lot line; that the accessory building will have a peaked roof and as the facades will be colonial in design, the building will be in accord with the entire area as it has developed; and

WHEREAS, the applicant contends that there are no other gas stations within the affected area and the proposed service is highly required by the community; that 204th street and Rocky Hill road are highly traversed auto lanes and therefore the gas station is entirely in keeping at this point; that the off street parking and storage of motor vehicles on the site will do much to relieve the parking situation; that there are sufficient stores in the area for public requirements and the high assessed value of the land makes it mandatory that the owner develop the site as proposed in order that he may receive an equitable return on his investment and be able to continue paying city taxes; that the present one story brick factories in block 7319, lots 1 and 5 are non-conforming uses and as they are directly opposite the site, it would be impossible to develop the site with a conforming use; and

WHEREAS, the applicant states that the present owner has held title to the property since May 3, 1951 and that the assessed valuation of land is \$3,500; and

WHEREAS, the premises and area have been inspected on several occasions by the committee and members of the Board and careful consideration has been given to any need for the station and the effect on the development of the area, and revised plans, giving consideration to grades have been studied as to the effect as stated including type of fencing proposed and the extent of the servicing proposed; that while there are no gasoline stations in the notification area there are available stations within short distances.

Resolved, that the decision of the borough superintendent acting on N.B. Applic. 6695-52, be and it hereby is *affirmed* that the application be and it hereby is *denied*.

909-52-BZ

APPLICANT—Ingram S. Carner, for Sam Rosenberg, owner.

SUBJECT—Application December 31, 1952 (decision of the borough superintendent), under sections 7f and 7h of the zoning resolution, to permit in a retail use district the erection and maintenance of a gasoline service station, lubritorium, auto washing, storage and sale of accessories and office, and the parking of more than five motor vehicles waiting to be serviced.

PREMISES AFFECTED—198-30 Jamaica avenue and 94-04 199th street, southwest corner, Block 10829, Lot 56, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 23, 1954 after due notice by publication in the Bulletin; laid over to December 14, 1954, for inspection and decision without further argument; hearing closed; then to January 18, 1955, for applicant to file revised plans; then to January 25, 1955, for applicant to file revised plans; then to February 23, 1955, for further inspection and decision; hearing previously closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Jamaica avenue are in a retail

use, D area, class ½ height district; 199th street is in residence and retail use, area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated December 8, 1952 acting on N. B. Applic. 5259-52, reads:

"1. Use of premises located within a Retail Use District as gasoline service station, lubritorium, auto washing, office, storage and sales of auto accessories and parking of more than five cars waiting to be serviced is contrary to Article II, Section 4A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 51.15 ft. and 75.84 ft. frontage by 84.41 ft. depth, irregular, presently vacant; that the property in question is presently zoned as a retail use district, a class ½ height district and a D area district; that as of July 25, 1916 the property referred to was zoned as a business use district, a class 1 height district and a C area district; that on January 21, 1947 the present use zoning was established and on June 30, 1952, the present height and area district were established; that no zoning amendment relating to this property is pending at the present time; that it is proposed to erect a parkway type gasoline service station consisting of a one story masonry building for the proposed gasoline station, having a frontage of 61 ft. and a depth of 29 ft.; that this proposed accessory building will house the office, storage and sales of auto accessories, lubritorium with two hydraulic lifts of approved type and car washing; that the gas station area will be paved with concrete or tarvia and an area has been provided for the parking of more than five cars awaiting service; that two pump islands with two dispensing pumps each will be installed as well as six 550-gallon gas storage tanks and one 550-gallon refuse oil tank; that three 30 ft. curb cuts are proposed for Jamaica avenue and only one 20 ft. curb cut is proposed on 199th street; that at both the southeasterly and southwesterly corners of the property to either side of the accessory building there is provided seeded and landscaped areas; that it is also proposed to erect along the interior lot lines as well as along the building line of 199th street for a distance of 15 ft., a brick and steel picket fence wall to a height of 4 ft. so as to provide a permanent buffer and proper protection to adjoining property owners; and

WHEREAS, the applicant contends that lot 78 in block 10466 is presently used as a beverage depot; lot 29 in block 10473 is occupied by a lumber yard; lot 60 in block 10473 is improved with a factory building; lot 67 in the same block is improved with a water tower and water pumping station; lot 312 in block 10474 is improved with a factory building; that Jamaica avenue is a heavily travelled thoroughfare and the proposed parkway type gas station would be entirely in keeping at this location; and

WHEREAS, the applicant states that the present owner has held title to the property since August 7, 1952 and that the assessed valuation of land is \$12,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten (10) years to permit the premises to be occupied as a gasoline service station as proposed and as indicated on plans filed with this application marked, "Received, December 31, 1952" (3 sheets), as amended by plans marked, "Received, January 21, 1955" (2 sheets), *on condition* that the premises shall be levelled substantially to the grade of Jamaica Avenue; that there shall be constructed by this owner and arranged substantially as indicated on such revised plans marked, "Received, January 21, 1955" (2 sheets) retaining walls where shown and where necessary to protect and support the adjoining premises; that the accessory building shall be of the construction and arrangement as indicated; that it shall be faced with face brick; that there shall be no cellar

MINUTES

under such building; that on the rear lot line and on the lot line to the west there shall be constructed above the retaining walls, or above grade as the case may be, a masonry fence to a total height of not less than five feet six inches; that the top portion of such fence may be of steel pickets above a masonry wall not less than three feet in height above the retaining wall; that a similar wall and fence of the same height shall be erected along the building line of 199th street where proposed; that the balance of the premises shall be paved with concrete or asphaltic pavement; that pumps shall be erected not nearer than fifteen (15) feet to the street building line of Jamaica Avenue; that pumps shall be of an approved low type; that the number of gasoline storage tanks shall not be in excess of six 550 gallon approved tanks; that curb cuts shall be limited to three each thirty feet in width along Jamaica Avenue, and one 20 feet in width within the first 25 feet from the intersection of Jamaica Avenue along 199th Street; that sidewalks and curbing abutting the premises shall be repaired or reconstructed to the satisfaction of the Borough President; that under Section 7h there may be parking and storage of motor vehicles provided such parking is located in spaces as shown and placed so as not to interfere with the servicing of the station; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting the erection within the intersection of Jamaica Avenue and 199th Street of one post standard for supporting the sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line a distance of not more than four feet; that planted areas shall be maintained in places as indicated with suitable planting material and properly protected by concrete curbing not less than six inches in width and in height above grade; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall require and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

673-53-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Simone V. Shaw and Sylvia Lubash, owners.

SUBJECT—Application August 26, 1954 (decision of the borough superintendent), under sections 7e, 7h and 21 of the zoning resolution, to permit in a residence use district, for a term of twenty years, the erection and maintenance of a gasoline service station, lubritorium, car washing, motor vehicle repairs, storage and sale of accessories and office, and to permit the erection of a two story dwelling, constituting the erection of two buildings on one lot, and to permit the parking and storage of motor vehicles on unbuilt upon portion of lot.

PREMISES AFFECTED—196-23 to 196-43 (196-25 official) Hillside avenue and 87-88 to 87-98 197th street, northwest corner and 196-38 to 196-46 (196-40 official) Foothill avenue, Block 10509, Lot 265, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Max Gladstone and Lillian Nielsen.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and Deputy Chief Connolly 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 28, 1954 subject to regular procedure, to consider proposal under changed arrangement from that previously denied; and

WHEREAS, a public hearing was held on this application on January 4, 1955 after due notice by publication in the Bulletin; laid over to February 8, 1955, for inspection and decision without further argument; applicant to file revised plans; then to February 23, 1955, for further inspection; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Foothill avenue, 197th street and Hillside avenue are in a residence use, E-1 and G-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated August 9, 1954 acting on N.B. Applic. 2153-54, reads

"1. The use of the premises as a gasoline service station, lubritorium, car washing, minor auto repairs, office and sales, storage, parking and storage of motor vehicles in a Residence Use District is contrary to Art. II, Sec. 3 of Zoning Resolution.

2. The erection of two buildings on one lot is contrary to Art. I, Sec. 1(v) of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 179.83 ft. frontage by 150 ft. in depth, irregular, presently vacant; that the use district maps accompanying the building zone resolution show that the premises are in a residence use district and a class ½ height district; that the portion of the premises within 100 ft. of Hillside avenue is in an E-1 area district and the balance is in a G-1 area district; that as of July 25, 1916 that part of the premises within 100 ft. of Hillside avenue was in a D area district and the balance was in an E area district and the entire site was in class 1 height district; that the present height and area designation became effective June 30, 1952; that it is proposed to erect a modern gasoline service station to consist of twelve 550-gallon gasoline tanks and four dispensing pumps; that the proposed accessory building will be one story in height, of class 3 construction, having a frontage of 62 ft. and a depth of 35 ft. and will contain the conjunctive uses of lubritorium, car washing, minor auto repairs, office and sales and storage; that it is also proposed to have four 30 ft. curb cuts on Hillside avenue; that a part of the site will be reserved for the parking and storage of motor vehicles; that the building as contemplated is colonial in design and in keeping with surrounding architecture; that the erection of a two story dwelling facing Foothill avenue, to be built conjunctively with the gas station, will secure the residential aspect of Foothill avenue; that curb cuts and entrances to the gas station will be confined to Hillside avenue; that the erection of a 2 ft. high brick wall with a 3 ft. 6 in. high iron railing along 197th street and the omission of curb cuts on the radius will provide protection for pedestrians traveling through 197th street; and

WHEREAS, the applicant contends that the steep grade of 197th street and the maintenance of the large trees along 197th street will buffer the gas station from the few surrounding dwellings; that the surrounding parking lots together with the heavy traffic on Hillside avenue, which is a main auto lane, renders the site unsuitable for residence purposes; that there are no gas stations within the affected area which makes this proposal a vital necessity to the community; that the irregular shape of the site renders it unsuitable for residence development and its high assessed value makes it mandatory to be developed at this time in the only feasible manner as proposed, so that the owner may receive a just return on his investment and continue to pay city taxes; that although it is proposed to erect both the dwelling and the gas station on the one tax lot, each use will have the necessary courts and yards and fully comply with the zoning regulations as to area and height requirements; that each use will face on a legal street; that the gas station will be in complete harmony with the affected area; and

WHEREAS, the applicant states that the present owner has held title to lot A since February 26, 1949; lot B, January 17, 1951 and to lot C since August 15, 1947; that the assessed valuation of land is \$14,500; and

WHEREAS, there are at present no other gasoline stations in the limited area of notification; and

MINUTES

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of fifteen years as to the gasoline station portion, to permit the premises to be constructed substantially as proposed and as indicated on plans filed with this application marked, "Received, August 26, 1954," (2 sheets) and "January 19, 1955 (2 sheets) on condition that on the rear portion of the premises there shall be erected as proposed and as shown on such plans a single family dwelling facing Foothill avenue, and occupying the space as proposed and as shown on such plans marked, "Received, January 19, 1955"; that such dwelling and the proposed gasoline service station shall be constructed simultaneously and the gasoline station shall not be occupied until the residential building is constructed and a Certificate of Occupancy issued therefor; that the portion proposed for the service station shall be levelled substantially to the grade of Hillside avenue; that a retaining wall shall be constructed of sufficient height from east to west as shown; that on such retaining wall there shall be erected a masonry wall not less than two feet in height and a steel picket fence above to a total height of not less than five feet six inches above the grade at the rear; that along the westerly lot line there shall be a masonry wall with retaining wall as may be required, with a similar fence to a total height of five feet six inches; that a similar fence was to be erected along 197th Street; that curb cuts shall be restricted to three curb cuts to Hillside avenue, each 30 feet in width, located where shown; that no curb cut shall be nearer than five feet to a lot line as prolonged; that there shall be no curb cut to 197th street, or at the radial corner; that pumps shall be of a low approved type erected not nearer than fifteen feet to the street building line; that gasoline storage tanks shall not exceed twelve 550 gallon approved tanks; that the accessory building shall have no cellar below and shall be of a design and arrangement as indicated on such revised plans marked, "Received, January 19, 1955"; that the accessory building shall be faced with face brick; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7h there may be for a similar term parking and storage of motor vehicles on the gasoline station portion of the area where shown, and so parked as not to interfere with the servicing of the station; that sidewalks and curbing abutting the entire premises on Hillside avenue, 197th street and Foothill avenue, shall be constructed or repaired to the satisfaction of the Borough President; that the residential building shall be of a design and arrangement as indicated on such plans; that the two buildings proposed may be erected on one lot but such lot may be divided into two lots with lot numbers assigned thereto; that all permits shall be obtained, including a certificate of occupancy and work completed within the requirements of Section 22A of the Zoning Resolution.

682-53-BZ

APPLICANT—Ferdinand Savignano, for Ro Mag Inc., owner.

SUBJECT—Application August 19, 1953—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence and local retail use district, the change in use of cellar and first floor from spraying establishment, to spraying establishment and assembly of costume jewelry.

PREMISES AFFECTED—1414-1420 (1416 displayed) 67th street, south side, 95 ft. east of 14th avenue, Block 5769, Lot 13, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph Luca.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 14, 1954 after due notice by publication in the Bulletin; laid over to February 23, 1955, for inspection and decision, hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 67th street are in residence and local retail use, C area, class 1 height districts; 14th avenue is in a local retail use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 17, 1953 acting on amendment to Alt. Applic. 3111-52, reads:

"1. Proposed change of use of one story and cellar class 3 structure, located partly within a residence and partly within a local retail district, from spraying establishment to spraying establishment and assembly of costume jewelry, violates Art. II Sec. 3 and Sec. 4-c Zoning resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 65 ft. frontage by 100 ft. in depth, irregular, on which is located a building 30 ft. front by 53 ft. 8½ in. deep, irregular one story, 11 ft. 6 in. in height, of class 3 construction, for which certificate of occupancy No. 114930-46 has been filed, for spraying room on 1st floor, dressing room and boiler room in cellar; that it is proposed to change the occupancy of cellar to assembly of costume jewelry and dressing rooms and on 1st floor to assembling department and spraying; and

WHEREAS, the applicant further states that the premises consists of an irregular lot 65 ft. by 100 ft. with a class 3 structure, 30 ft. by 53 ft. 8½ in.; that this structure was erected in 1926 under N.B. No. 150057-26 and was used as a church; that in 1945 the building was purchased for a proposed industrial occupancy; that the occupancy was changed from church use under Alt. No. 3846-45 which was approved for spraying establishment on the 1st floor for 30 persons, and boiler room and dressing rooms in cellar and certificate of occupancy No. 114930-46 was issued for this use; that in 1949 the business made it necessary to have an assembling department in addition to spraying on the 1st floor; that the assembling of costume jewelry is done in the cellar and the spraying is done on the 1st floor; that the combination of these two operations is necessary so as to enable the business to function at a profit; and

WHEREAS, the applicant contends that this use in the cellar had existed prior to the change of zoning, which was originally a business use, premitting such occupancy in the cellar, providing that plans would have been filed for this use; that this step was not taken by the owner at that time because he did not realize that he was violating the law; that on May 20, 1952 the zone was changed from business to local retail 100 ft. east of 14th avenue, and residence use on the remainder of the block on 67th street; that the re-zoning placed the subject location 5 ft. in local retail use and the balance of 60 ft., in residential use; that violations were recorded against the premises in the latter part of 1952 and when the owner was notified he immediately retained and architect to file necessary plans and applications to rectify this condition; that the assembling is intended to be carried on in the same area of the existing building; that it is not a noisy or odor producing manufacturing; that there will be no changes to mar or disturb adjacent owners, property or neighborhood; and

WHEREAS, the applicant states that the present owner has held title to the property since February 12, 1945; that the assessed valuation of land is \$6,000 and of the building

MINUTES

\$6,000 making a total of \$12,000; that the building was erected 1926; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, applicant has changed the basis of his application from Section 7c to Section 7 subdivision e; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of ten (10) years to permit the premises to be occupied substantially as proposed and as indicated on plans filed with this application marked, "Received, August 19, 1953" (2 sheets), and "November 8, 1954" (2 sheets), *on condition* that the building shall not be increased in height or area and shall be used under this variance only for the existing manufacturing use and for no other use; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, other than as modified this date under Cal. No. 683-53-A; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

683-53-A

APPLICANT—Ferdinand Savignano, for Ro Mag Inc., owner.

SUBJECT—Application August 19, 1953—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1414-1420 (1416 displayed) 67th street, south side, 95 ft. east of 14th avenue, Block 5769, Lot 13, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph Luca.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-

ert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the borough superintendent, dated April 9, 1953, on Alt. App. 3111/52 reads:

"2. Cellar stairs less than 3'8" wide violates Sec. 270 Labor Law."

and

WHEREAS, the applicant states that the building is one story, 11 ft. 6 in. in height, 30 ft. by 53 ft. 8½ in. in area, Class 3 construction, erected in 1926 on a lot 65 ft. front by 100 ft. irregular in depth, in a local retail and residence use, C area, Class 1½ height district; used and occupied since 1945: cellar—storage; 1st floor—spraying establishment, 30 persons; postponed to be used and occupied: cellar—assembling costume jewelry, 10 persons; 1st floor—spraying establishment, 30 persons; and

WHEREAS, the applicant states a new stairs will be installed to the cellar, complying with Section 270 of the Labor Law; and

WHEREAS, the applicant contends that in addition to the proposed stair there are two side stairs leading to the yard from whence egress can be had direct to street; that one of these existing stairs is 3' 6" wide; that it is proposed to remove the column in the stair area so as to have a 3' 6" clear width in the line of travel; that the other stairs is 3' 6" wide, but has a column, which diminishes it at column location to 2' 6" width; that it is requested the Board accept this stairs as it exists as it would constitute a hardship and expense to comply and especially in view of the fact there will be three exits from the cellar area; and

WHEREAS, the applicant states that the present owner acquired the building in 1950 and after some alterations established a machine shop under Certificate of Occupancy #132623; and

WHEREAS, the premises were inspected by a committee of the Board in connection with Cal. No. 682-53-BZ, which recommended that the appeal be granted under certain conditions:

Resolved, that the decision of the borough superintendent acting on Alt. App. 3111/52, Objection 2, be and it hereby is *modified*, and that the appeal be and it hereby is *granted on condition* that the existing stairs from the cellar, including the stair recently erected to the rear, shall be maintained as constructed and as shown on plans filed with application under Cal. No. 682-53-BZ; that the lift in the rear part of the building from the cellar to first floor shall be protected substantially as proposed, and to the satisfaction of the Borough Superintendent; that any permits as to the spraying, requiring approval, from the Fire Commissioner shall be obtained; that in all other respects the building and occupancy shall comply with the requirements of the resolution adopted this day under Cal. No. 682-53-BZ.

472-54-BZ

APPLICANT—Moritz Simon, for Beatrice L. Goldman, owner, Santa Fe Packing Corp., lessee.

SUBJECT—Application June 2, 1954 decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence and business use district, the change in occupancy from public garage and office, to warehouse and office.

PREMISES AFFECTED—201-203 St. Marks avenue, north side, 125 ft. west of Vanderbilt avenue, Block 1144, Lot 64, Borough of Brooklyn.

APPEARANCES—

For Applicant: Moritz Simon, Louis M. Block and Beatrice L. Goldman.

For Opposition: William R. Grace, Jr. and Alvah L. Meyer.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-

ert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 25, 1955 after due notice by publication in the Bulletin; laid over to February 23, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and St. Marks avenue are in residence and business use, B area, class 1½ height districts; Vanderbilt avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated April 27, 1954 acting on Alt. Applic. 4250-53, reads:

"3. On a lot located partly in a residence use district and the proposed change in occupancy from Public Garage & Office to Warehouse and Office is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 131 ft. in depth, on which is located a public garage, covering entire lot, two stories in height, of class 3 construction, for which certificate of occupancy No. 112987-45 has been filed; that it is proposed to change the use to warehouse and office; and

WHEREAS, the applicant contends that the permitted use of the premises as a public garage in a residence district has in past years greatly disturbed many of the adjacent owners and tenants of dwellings and has not improved the character of this area; that the change in the use of premises from

MINUTES

garage, to storage and warehouse will safeguard the character of this restricted area more harmoniously than a garage with all the nuisances of traffic noise and smoke; that on February 16, 1951 the present owner purchased the subject building; that prior to the purchase she had a search made by the Title Guaranty & Trust company; that the report of the title company discloses that this building was leased to one tenant, the American Red Cross, with a lease beginning June 1, 1948 and ending May 31, 1953, to be used as a warehouse for the storage of merchandise records, supplies and trucks used in the activities of the Red Cross; that subsequent to the expiration of this lease, the owner leased the same premises to the present tenant, The Santa Fe packing corporation for the term of five years from June 1, 1953 to May 31, 1958 for the same use; that the title company further reported that "search made by the department of housing and buildings dated August 9, 1951 shows no violations"; that on June 30, 1953 a zoning violation was sent to the owner and the tenant; that the building is now assessed for the sum of \$47,000 and the owner at present receives a return of \$600 per month; that if the relief requested is not granted, the only use to which this building can be put is for the storage of 6 private automobiles; and

WHEREAS, the applicant states that the present owner has held title to the property since August 26, 1951; that the assessed valuation of land is \$8,100 and of the building \$38,900 making a total of \$47,000; that the building was erected in October, 1912; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee finds that the use as proposed to be installed is there; and the Board has taken note of the fact that the building was erected and has been used in the past as a garage and, in its opinion, the proposed use particularly in view of the fact that previously it was used for a similar use by the Red Cross, is not particularly objectionable; the committee recommended that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the proposed use as a warehouse and office superseding the previous use as a public garage, substantially as proposed and as indicated on plans filed with this application marked, "Received, May 27, 1954" (4 sheets), *on condition* that there shall be not more than one truck entering or leaving the building, as stated by the operator, and at intervals totalling not more than five times a day; that the building shall not be in operation more than five days a week and at hours from 8:00 A.M. to 5:00 P.M.; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto other than as modified this day under Cal. No. 473-54-A; that the merchandise stored in the premises shall be removed from the show windows of the building and such show windows shall have curtains or venetian blinds maintained therein; that signs shall be restricted to the existing sign in one of the show windows, excluding all other signs; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that all permits shall be obtained and all work completed and a new Certificate of Occupancy obtained within six months from the date of this resolution.

473-54-A

APPLICANT—Moritz Simon, for Beatrice L. Goldman, owner (Santa Fe Packing Corp., lessee).

SUBJECT—Application May 27, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—201-203 St. Marks avenue, north side, 125 ft. west of Vanderbilt avenue, Block 1144, Lot 64, Borough of Brooklyn.

APPEARANCES—

For Applicant: Moritz Simon, Louis M. Block and Beatrice L. Goldman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated April 27, 1954, on Alt. App. 4250/53, reads:

"2. Provide two remote means of egress from all floors complying with C26-292.0 of Adm. Code."

and
WHEREAS, the applicant states the building is 2 stories and mezzanine, 29 ft. 9 in. in height, 50 ft. by 131 ft. in area, Class 3 construction, erected in 1912 on a lot 50 feet front by 131 feet in depth, in a residence and business use, B area, Class 1½ height district; used and occupied since 1912 as follows: cellar—boilerroom, 0 persons; 1st floor, storage and warehouse, 2 persons; mezzanine—office, 1 person; 2nd floor—storage and warehouse, 1 persons; and

WHEREAS, the applicant states the legal use of the building is as follows: cellar—boilerroom, 0 persons; 1st floor—public garage, 3 persons; mezzanine, office, 1 person; 2nd floor—public garage, 1 person; and

WHEREAS, the applicant states it is proposed occupy the building as follows: cellar—boilerroom, 0 persons; 1st floor—storage and warehouse, 2 persons; mezzanine—office, 1 person; 2nd floor—storage and warehouse, 1 person; and

WHEREAS, the applicant states the building is provided with one 2 ft. 6 in. wide interior wood stairs, enclosed in partitions of 4 in. concrete blocks equipped with wood, self-closing door; stairhall leads direct to street and is provided with ladder and scuttle to roof; in addition there is one fire escape on the side of the building extending to yard by fixed stair with egress from lower termination through adjacent premises; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy 112987 issued August 27, 1945, on App. 668/45 permits the following use and occupancy: cellar—boilerroom; 1st floor—garage, 3 persons; 2nd floor—garage, 2 persons and contains the note the garage is to be used for pleasure cars only, private passenger cars and that Fire Dept. letter of approval was issued August 21, 1945; and

WHEREAS, Violation #109 issued August 30, 1953, was for using the premises for crating and shipping merchandise on the 1st story and for storage of wooden crates and boxes on the 2nd floor and for storage of motor trucks on the 1st floor contrary to Certificate of Occupancy 112987, which calls for a public garage; and

WHEREAS, the owner was fined in Magistrate's Court on December 16, 1953 on charge of violating the Administrative Code and the Zoning Resolution; and

WHEREAS, the applicant states the 2nd floor is used for storage of light merchandise, namely household refrigerators, washing machines and packing and crating material; that the floor will not be loaded beyond 75 lbs. per square foot and therefore the present floor capacity of 75 lbs. p.s.f. will safely sustain the load; and

WHEREAS, the applicant contends that the use of the premises for storage and warehousing comprises an occupancy of not more than one person on the mezzanine and one person on the 2nd floor; that in view of the small number of occupants two large stairhalls cannot be considered an improved factor of safety in case of fire since the present stair in the front of the building and the outside steel stair which are remote from each other will only be used by one person from each floor; that the cost of construction of two new stairhalls complying with Chapter 26-292.0 of the Code is estimated at approximately \$10,000; that compliance with the strict letter of the Code would create unnecessary hardship for the owner; and

MINUTES

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions;

Resolved, that the decision of the borough superintendent acting on Alt. App. 4250/53, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the exits as proposed and as shown on plans filed with Cal. No. 472-54-BZ shall be maintained as indicated on such plans and also on plans filed with this appeal marked, "Received, November 24, 1954" (3 sheets); that permission to cross the adjoining premises from the rear exit shall be filed with the Borough Superintendent; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and to the requirements of the resolution adopted this day under Cal. No. 472-54-BZ.

780-54-BZ

APPLICANT—Arthur E. DePhillips, for Fred Stark, owner.

SUBJECT—Application October 14, 1954—re (decision of the borough superintendent) under section 7e and 7h of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station, auto laundry, motor vehicle repair shop; and to permit the parking and storage of motor vehicles on unbuilt upon portion of lot.

PREMISES AFFECTED—201-06 Hillside avenue, southeast corner of 201st street, Block 10495, Lot 52, Hollis, Borough of Queens.

APPEARANCES—

For Applicant: George Bergen.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and Deputy Chief Connolly 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 21, 1954 after due notice by publication in the Bulletin; laid over to January 25, 1955, for inspection and decision without further argument; hearing closed; then to February 23, 1955, for further inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 201st street is in a residence use, E-1 area, class ½ height district; Hillside avenue is in residence and restricted retail use, E-1 area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated September 17, 1954 acting on N.B. Applic. 3239-54, reads:

"1. The proposed gasoline service sta., auto laundry, motor vehicle repair shop & parking & storage of motor vehicles waiting to be serviced, in a res. use district is contrary to Art. 2 Sec. 3 of Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 103.8 ft. in depth, presently vacant; that it is proposed to erect a gasoline service station, lubritorium, non-automatic auto laundry, motor vehicle repair shop with space for parking and storage of motor vehicles waiting to be serviced; and

WHEREAS, the applicant contends that the owner has held this property since February 16, 1950; that he has been unable to develop this property in conformity with the existing use, although he has made a diligent effort to do so and efforts to sell this property at a fair market price have proved

fruitless; that in view of this a variance is requested to permit the development of this property with a gas station, lubritorium, non-automatic auto laundry, motor vehicle repair shop together with parking and storage of automobiles waiting to be serviced, for a term of 15 years, while awaiting the development of the area in general to determine if the premises can later be developed in conformity with existing use; that if this application is granted, it will help carry the property until that time; that the building to be erected on this plot will be designed so as not to permit any adverse effect on adjoining residential property by reason of the fact that the rear wall of the building will be unpierced; that the proposed development will be in harmony with the general purpose and intent of the zoning resolution; and

WHEREAS, the applicant states that the owner has held title to the property since February 16, 1950 and that the assessed valuation of land is \$10,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7 subdivision f, for a term of ten (10) years to permit the premises to be occupied as a gasoline service station, substantially as proposed and as indicated on plans filed with this application marked, "Received, October 14, 1954 (4 sheets), *on condition* that all uses on the premises shall be removed and that the premises shall be levelled substantially to the grade of Hillside avenue; that the accessory building shall be of a design and arrangement without cellar and of location as shown on such plans as above cited and shall be faced with face brick; that curb cuts shall be restricted to one curb cut on Hillside avenue not over thirty (30) feet in width and one curb cut to 201st Street of similar width where shown; that no part of either curb cut shall be nearer than five (5) feet to a lot line as prolonged; that at the intersection of Hillside avenue there shall be erected a block of concrete not less than twelve (12) inches in height and extending for a distance of not less than five (5) feet along either building line; that pumps shall be of a low approved type and shall be erected not nearer than fifteen (15) feet to the street building line; that sidewalks and curbing abutting the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that on the interior lot lines to the south and east there shall be erected a masonry wall of brick not less than five feet six inches in height except that such wall may be reduced to a height of four feet six inches within ten feet of either building line; that signs shall comprise a flat sign on the accessory building and the illuminated globes of the pumps excluding all roof signs and temporary signs but permitting one post standard erected within the intersection of Hillside avenue and 201st street for supporting a sign which may be illuminated advertising only the brand of gasoline sold and permitting such sign to extend over the building line for a distance of not more than four feet; that such portable fire fighting appliances shall be maintained as such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that under Section 7i there may be minor repairs with hand tools only for adjustment maintained solely within the accessory building; that under Section 7h there may be parking of cars awaiting service and parked so as not to interfere with the servicing of the station; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 750-38-SA

Subject: Amendment to resolution to include additional model number vacuum breaker.

Crane Company, New York requested by letter dated October 21, 1954 that the resolution adopted January 24, 1939 under Cal. No. 750-38-SA be amended so as to include the Model 8H-550.

Description

The model 8H-550 is the same as the model C-7830, approved by the Board January 24, 1939 under Cal. No. 750-38-SA except for the markings and with the addition of a thin vacuum seal disc mounted on the under side of the disc holder, this disc is intended to provide added protection against backflow.

The applicant has submitted an affidavit which describes the changes herein described.

Recommendation

The Committee on Test recommends that the resolution adopted January 24, 1939 under Cal. No. 750-38-SA be amended so as to include the model 8H-550 vacuum breaker on condition that the requirements of the resolution adopted January 24, 1939 under Cal. No. 750-38-SA be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of January 24, 1939 in accordance with the above report.

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 371-53-SM—Vol. II

Subject: Amendment to resolution as to "Heavy-Duty Metal Suspension Ceiling".

W. L. Gates for the Celotex Corporation requested by filing an application dated July 23, 1954, that the resolution adopted September 22, 1953 under Cal. No. 371-53-SM be amended so as to include the Heavy-Duty Metal Suspension Ceiling. The application was reopened under Cal. No. 371-53-SM—Vol. II, by a vote of the Board on September 14, 1954.

Purpose

The system is a suspended incombustible ceiling.

Description

The system consists of hangers and channels spaced and installed in accordance with the requirements of C26-461.0 Administrative Building Code. At right angles to the channels and spaced 54 inches on centers, steel panels, $6\frac{3}{4}$ inches wide by $1\frac{3}{8}$ inches high by 108 inches, of 24 gauge, are clipped to the channels by means of 12 gauge steel wire clips, the clips going over the channel and hooking into the panel. The acoustical tile 12 inches by 24 inches is then set in pairs, end to end between panels, so that the outer 12 inch edge of each pair of tiles is supported by the lower flange of the steel panel. A metal tee spline $47\frac{7}{8}$ inches long is then placed in the kerfs of the 24 inch sides of the tile between the steel panels. The lower flange of the steel panel is so designed as to support the ends of 48 inch long recessed light troffers.

Inspection and Test

A sample ceiling was inspected and tested at Elizabeth, New Jersey in the presence of Asst. Engr. J. A. Darts, Committee on Test and V. Jacobson and W. L. Gates representing the applicant. The system was loaded so that on the pan itself carried a load of 88 lbs., to simulate a light troffer, four feet long, weighing approximately 10 to 12 lbs. per foot of length of troffer; at this load there was a deflection of 0.08 inches.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted September 22, 1953 under Cal. No. 371-53-SM—Vol. I, be amended so as to include the Heavy Duty Metal Suspension System, when constructed and installed as herein described, on condition that the requirements of the resolution adopted September 22, 1953 under Cal. No. 371-53-SM—Vol. I be complied with.

The Committee further recommends that recessed light troffers weight between 10 and 12 lbs. per foot may be supported on the panel.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of September 22, 1953 in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Cal. 848-53-SM

Subject: Sanford Brick and Tile Company, Inc., Face Brick,
approval of.

Tomkins Brothers, New York for Sanford Brick and Tile
Company, North Carolina, filed November 30, 1953 an appli-
cation with the Board of Standards and Appeals for approval
of the material known as Sanford Brick and Tile Company
Face Brick under the provisions of C26-26.0; C26-137.0 and
C26-370.a and b Administrative Building Code.

Purpose

The material is a structural clay unit, used as a brick or as
a solid structural clay unit.

Description

The units are formed by the stiff mud extrusion process
from a clay obtained in the vicinity of the plant at Colon,
North Carolina.

The units after forming are set, fired and cooled in an
automatic tunnel type kiln.

The units are available in various shades and face textures.

Inspection and Test

The plant of the applicant at Colon, North Carolina, was
inspected by Asst. Engr. J. A. Darts, Committee on Test.
Process of manufacture and availability of raw materials
were investigated and sample units were identified and marked.
Tests on the identified samples were conducted at the Pitts-
burg Testing Laboratory in accordance with the requirements
of C26-307.a.b Administrative Building Code.

Results were as follows:

1. $3\frac{1}{2}" \times 2\frac{1}{4}" \times 8"$
Compressive Strength=13749 psi (average of 5 units).
Modulus of Rupture=1195 psi (average of 5 units).
Percentage of voids=8%.
2. $3\frac{1}{2}" \times 2\frac{3}{4}" \times 8"$
Compressive Strength=13149 psi (average of 5 units).
Modulus of Rupture=713 psi (average of 5 units).
Percentage of voids=14.4%.
3. $3\frac{1}{2}" \times 3\frac{1}{2}" \times 12"$
Compressive Strength=7823 psi (average of 5 units).
Modulus of Rupture=808 psi (average of 5 units).
Percentage of voids=5.7%.

The applicant has also submitted test reports showing 24
hour immersion percent of 5.21%; 5 hour boil percent of
8.05% and saturation coefficient of 0.646.

Recommendation

On the basis of the inspection and test and the data filed by
the applicant, the Committee on Test recommends the approval
of the Sanford Brick and Tile Company, Inc., Face Brick of
sizes as herein described, namely $3\frac{1}{2}" \times 2\frac{1}{4}" \times 8"$; $3\frac{1}{2}" \times$
 $2\frac{3}{4}" \times 8"$ and $3\frac{1}{2}" \times 3\frac{1}{2}" \times 12"$ as having met the require-
ments of C26-26.0; C26-137.0 and C26-307.a and b Adminis-
trative Building Code on condition that each invoice, bill of
lading or bill of material shall be stamped, "Approved by the

Board of Standards and Appeals for use in New York City
under Cal. No. 848-53-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does
hereby *approve* this material in accordance with the above
report.

408-54-SM

APPLICANT—United States Gypsum Co., owner.

SUBJECT—Application May 20, 1954—USG Corrutone
Acoustical System (acoustical treatment), approval of.

APPEARANCES—

For Applicant: William W. Bainbridge.

ACTION OF BOARD—Material approved in accordance
with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 408-54-SM

Subject: U.S.G. Corrutone Acoustical System, approval of.

William W. Bainbridge for U. S. Gypsum Company, New
York, filed May 20, 1954 an application with the Board of
Standards and Appeals for approval of the material known
as USG Corrutone Acoustical System under the provisions
of C26-88-0 and C26-461.0 Administrative Building Code.

Purpose

The material is a suspended acoustical ceiling.

Description

The system consists of standard hangers and carrier chan-
nels spaced 4'-0" on centers. To these $1\frac{1}{2}$ inch channels are
clipped, by means of a No. 85 or 82 clip, the $1\frac{1}{2}$ inch "Z"
spline (approved under Cal. No. 696-52-SM) on 4'-0" centers.
On the flanges of the "Z" spline are placed the Corrutone
panels consisting of perforated galvanized bonderized steel
sheets 26 gauge. Resting on the upper surface are incom-
bustible batts approximately 2 inches thick approximately 0.5
lbs. per cu. ft. density, and either 2'-0" x 2'-0" or 2'-0" x
4'-0" in dimension.

Inspection and Test

Sample systems were load tested at 432 East 162nd Street,
New York City in the presence of Asst. Engr. J. A. Darts,
Committee on Test. W. W. Bainbridge, J. Crumbaugh and
others representing the applicant.

The tests were conducted on systems wherein the "Z"
splines were spaced 2'-0" and 4'-0" on centers respectively.

The load at a deflection of $\frac{1}{360}$ of the span for the 4'-0"
span was 2 lbs. per sq. ft. and the load for the 2'-0" span
was 3 lbs. per sq. ft. The loading was discontinued at 10
lbs. per sq. ft. in each case as that gave a factor of safety
of 10 since the weight of the ceiling is 1 lb. per sq. ft. There
was no signs of failure either in the pan, clips or splines at
that loading.

Recommendation

On the basis of the inspection and test and the data filed by
the applicant, the Committee on Test recommends that the
USG Corrutone Acoustical System when assembled as herein
described using an incombustible pad, similar to fiberglass or
rockwool and weighing not more than 1 lb. per sq. ft., be
approved as incombustible mechanically supported Acoustical

MINUTES

System under C26-88.0 Administrative Building Code providing all packages, cartons, bill of lading or invoices are marked or tagged, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 408-54-SM," and further that the hanger and carrier channels shall be limited to 4'-0" center.

Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

501-54-SA

APPLICANT—Kewanee-Ross Corp., Ross Heater Division, owner.

SUBJECT—Application June 7, 1954—Ross Fuel Oil Preheaters, Type EF, approval of.

APPEARANCES—

For Applicant: George Van Tuyl.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 501-54-SA

Subject: Ross Fuel Oil Preheater, Type EF, approval of.

Kewanee-Ross Corp., Ross Heater Division, Buffalo, New York, filed June 7, 1954, an application with the Board of Standards and Appeals for approval of the device known as Ross Fuel Oil Preheater, Type EF, under the provisions of the Oil Burner Rules of the Board.

Purpose

The appliance is used to preheat oil to reduce the viscosity of the oil.

Description

The preheater is of the shell and tube type. The shell is made of seamless steel pipe for preheaters up to 24 inches O.D. and of rolled steel plate for shells in excess of 24 inches O.D.

The tube sheets are welded to the shell. The tubes of seamless steel are roller expanded into the tube sheets. The tube bundle is supported by support plates, spaced 60 tube diameters apart. A steel impingement plate is located under the steam inlet nozzle to protect the tubes from erosion.

The preheaters are constructed in accordance with the A.S.M.E. for Unfired Pressure Vessels.

Inspection and Test

Details of construction were examined by Asst. Engr. J. A. Darts, Committee on Test. The applicant has submitted photostatic copies of inspection reports and hydrostatic test wherein shells and heads were tested to 300 psi and 520 psi respectively.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the Ross Fuel Oil Heater, Type EF for use in New York City on the following conditions:

The steam line to the heater is provided with a pressure gauge, a temperature regulating valve protected with a strainer and around both of which is a by-pass line con-

taining the necessary number of shut-off valves to permit by-pass of the steam around the temperature regulating valve in case of failure of this valve. The steam line shall also be provided with a check valve opening toward the heater and closing towards the boiler to prevent passage of any oil back to the boiler through the steam line. The condensate line carrying the condensed steam from the heater shell shall contain a steam trap with by-pass provided with necessary shut-off valves to permit by-passing of the condensate around the trap in case the trap fails to function properly. After passage through the trap, the condensate shall be discharged to waste. (With this arrangement of the condensate line it will be impossible for the line to carry any oil back to the boiler in case of tube failure since this line is not connected to the boiler in any manner and the condensate is discharged to waste.) The oil channel shall be provided with two connectors, one for oil inlet lines from the pump discharge and one for the oil outlet line to the oil burner. In the oil outlet line shall be installed an oil relief valve as required under Par. 7.2.2. of the Oil Burner Rules and the bulb of the temperature regulating valve which actuates the temperature regulating valve and controls the oil temperature leaving the heater. The oil inlet and outlet lines shall also be provided with a stop valve and further that the connection of the condensate discharge line to a sewer shall be according to law and that each appliance shall bear a label permanently affixed reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 501-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report and *on condition* that the condensate is drained to a sewer in all installations.

616-54-SA

APPLICANT—Warren Connolly Co., Inc., agent for Norge Division of Borg-Warner Corp., owner.

SUBJECT—Application June 22, 1954—Norge Automatic and Norge Semi-Automatic Washers, Models AW-405, AW-410, AW-422, AW-425, AW-450 and AW-420, approval of.

APPEARANCES—

For Applicant: Nelson G. Summerfield.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 616-54-SA.

Subject: Norge Automatic and Norge Semi-Automatic Washers, Models AW-405, AW-410, AW-422, AW-425, AW-450 and AW-420, approval of.

Norge Division of Borg-Warner Corporation, owner, filed June 22, 1954 an application with the Board of Standards and Appeals for approval of the Norge Automatic and Norge Semi-Automatic Washers, Models AW-450, AW-405, AW-410, AW-422, AW-425 and AW-420 approval under the provisions of C26-1277.0.h Administrative Building Code and the Submerged Inlet Rules of the Board of Standards and Appeals.

Purpose

Automatic and semi-automatic clothes washers.

Description

These Norge Washer Models have the same mechanical construction and the same vacuum breaker. The difference in Models is as follows: AW-405 is a manually operated push button model without inlet valves (Dole Valve) filling the tub is accomplished by supplying warm water through single hose into the air gap type vacuum breaker. A push button must be pushed for each operation (wash spin). AW-410 has a manually operated Dole Valve without automatic thermostat for mixing water and the temperature of water desired must be selected manually (cold, warm, hot) and turned off manually. Water enters the machine through an air gap type (1") vacuum breaker. It has wash and spin timer. Model AW-420 is the same as model AW-410 except no cold water selection and hot water or 100° water controlled by a thermostat can be used.

Model AW-422 "Time Line" control handles water fill, temperature of water is controlled automatically and all the washing cycle is automatic. This is an undecorated, fully automatic washer added parts to previously described washers are the Time Line and Thermostatically controlled Dole inlet water valves. Model AW-423 is same as 422 and AW-450 same as 422 and 425 except that maximum decoration is applied and all controls are lighted with signal bulbs and there is a stop switch on clothes loading door. The mechanical details of the Norge push button washer are the same as the "Time Line," Automatic Washer except that the Push Button Washer does not have a water mixer valve, automatic cycle control, water temperature selector switch, vibration limit switch or motor protector plug. The washer is operated manually by pushing the buttons located at the right hand end of the backguard.

The cabinet of the washer has a width of 25½ inches, a depth of 26¾ inches, a height to top of 36 inches and a height to backguard top of 39½ inches. The finish of main top, outer tub and basket is Porcelain, other cabinet parts are baked white synthetic enamel. The motor is a special ⅓ HP high torque, reversible, capacitor type, single phase 110V 60 cycle AC. The transmission is a linkage type incorporating reduction gears and reciprocating levers. The agitator speed is 520 oscillations per minute at 200 degrees. The extraction speed is 600 RPM (approx.). The capacity is 8 to 9 lbs. dry weight.

Inspection and Test

The washer was inspected and tested at the office of the applicant and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test and Nelson G. Summerfield representing the applicant. The washer has been approved by the Underwriters Laboratories Inc. file E10860.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends

MINUTES

the approval of the Norge Automatic and Semi-Automatic Washers, Models AW405, AW410, AW422, AW425, AW450 and AW420 for use in New York City when constructed and installed in accordance with this report and the provisions of the submerged inlet rules provided each washer bear a label reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 616-54-SA."

617-54-SA

APPLICANT—Bradley T. Sheridan, for Iron Fireman Manufacturing Co., owner.

SUBJECT—Application July 12, 1954—Iron Fireman Oil Burner, Type RF, approval of.

APPEARANCES—

For Applicant: Bradley T. Sheridan.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 617-54-SA.

Subject: Iron Fireman Oil Burner, Type RF, approval of.

The Iron Fireman Manufacturing Company of Cleveland, Ohio, filed July 12, 1954 an application with the Board of Standards and Appeals for approval of the Iron Fireman Type RF Oil Burner, under the provisions of C19-57.0 Administrative Code and Oil Burner Rules of the Board of Standards and Appeals.

Purpose

Oil fired forced draft commercial and industrial boilers and furnaces to provide heat and generate steam.

Description

The Iron Fireman Type RF forced draft industrial oil burners are completely packaged firing units for firing industrial fuel oils of the Commercial Standard No. 6 or lighter grades. They consist essentially of an Iron Fireman Type R horizontal rotary cup oil burner assembled with a forced draft fan, burner windbox, refractory combustion throat, structural support frame and front plate with all wiring, piping and valves assembled and tested. Each burner includes electronic safety combustion controls, air flow safety control, separate high limit and operating controls, draft gauge and motor controllers.

Proper air-fuel ratio is maintained at all firing rates by positive displacement metering pump linked to primary and secondary air volume regulators. Burner modulates through range of five to one input ratio and always starts at lowest firing rate.

These burners are made in eight sizes with normal hourly burner capacity of 25, 35, 50, 76, 100, 125 and 165 gallons per hour. Two types of automatic control are used: RFM models have "Manual Start" Controls and RFA models have "Automatic Start" controls. Both RFM and RFA have complete automatic control systems but the RFM system requires manual closing of the switch to start as for example, when shut down by any condition where heat is not required, while the RFA model starts up automatically upon demand for

heat by a thermostat or similar control. RFM models are used principally for process steam plants while RFA models are used principally for heating plants.

RFMH and RFAH Models are equipped with electric oil heaters and oil temperature thermostats for use with heavy fuel oils. RFM and RFA models do not have electric oil heaters and thermostats are used with No. 5 or lighter fuel.

RFMH and RFAH Models are equipped with electric oil heaters and oil temperature thermostats for use with heavy fuel oils. RFM and RFA models do not have electric oil heaters and thermostats and are used with No. 5 or lighter fuel.

Inspection and Test

The burner was inspected and tested at 550 Bergen Avenue, The Bronx, N. Y. C. and found to operate as designed with no flare backs or undue carbon deposits. Present at the inspection and test were Chief Engr. L. V. Huber of the Committee on Test and Bradley T. Sheridan representing the applicant. This burner has been approved by the Underwriters Laboratories for use with No. 6 oil or lighter reference #MP810 Application #53C1343 and Application #53C13344.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Iron Fireman Oil Burner, Type RF for use in New York City in commercial and industrial installation with Fuel Oil not heavier than #6 when preheated and #5 when not preheated on condition that the burner be installed in accordance with this report and the Oil Burner Rules of the Board of Standards and Appeals provided that each burner bear a label permanently affixed reading:—"Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 617-54-SA."

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 793-54-SM

Subject: Cordoglas (drapery fabric), approval of.

Cordo Chemical Corporation, New York filed October 14, 1954 an application with the Board of Standards and Appeals for approval of the material known as Cordoglas (drapery fabric) under the provisions of the Flameproofing Rules of the Board and C19-161.1 Administrative Code.

Purpose

The material is to be used for draperies, curtains, etc., in places of public assembly.

Description

The fabric consists of a woven glass-fibered fabric coated on both sides with a vinyl plastic. The unit weight of the

MINUTES

material is 15½ ozs. per sq. yard and the average thickness is 0.015 inches.

Inspection and Test

Samples of the material identified as Cordoglas Pattern 801 and Pattern CC were tested at the Better Fabrics Testing Bureau in the presence of Asst. Engr. J. A. Darts Committee on Test and W. H. Masterson of the Laboratory.

The test was conducted in accordance with the requirements of the Flameproofing Rules of the Board and the results were as follows:

Pattern 801—There was no flashing or flaming and the average time of glow within the charred area was ½ second.

Pattern CC-303—There was no flashing or flaming and the average time of glow within the charred area was 2½ seconds.

The complete report is on file and is part of the record.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test concludes that the material Cordoglas possesses inherent flameproofing properties and accordingly recommends its approval.

Tests for each specific installation or any retests thereof shall be made by the Fire Commissioner or in a Laboratory approved by him in accordance with the requirements of the Flameproofing Rules.

The Committee further recommends that each wrapper or container in which the material Cordoglas is marketed shall be stamped or labeled: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 793-54-SM."

Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

548-52-A

APPLICANT—Frederick A. Ketcher, for Ambrose O'Brien, owner (Edward B. McDermott, lessee).

SUBJECT—Appeal reopened November 23, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—297 Warren street, north side, 200 ft. west of Smith street, Block 390, Lot 55, Borough of Brooklyn.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated October 25, 1954, on Alt. App. 311 of 1952, reads:

"Proposed passage to street from the rear door by crossing the roof of the adjoining building is contrary to the Board's resolution."

and

WHEREAS, the applicant states that all work was completed in accordance with resolution adopted by the Board September 23, 1952, amended June 30, 1953; and

WHEREAS, the applicant states that the Community Center located at 305-7 Warren street is the only premises that can provide passage to the street by way of the west court; that however the rear extension of this community house blocks off the yard level exit; and

WHEREAS, the applicant states that in order to obtain free passage to this outer court, it will be necessary to cross the

roof of the adjoining one-story brick building to the east at 299 Warren street; and

WHEREAS, the applicant states it is now proposed to erect a flat tread ladder in the rear yard of building in the premises, leading to roof of adjoining building at 299 Warren street, which is a one-story building and to cross over said roof and to provide another flat tread ladder leading from the roof of 299 Warren street to the west outer court of Community House at 305-7 Warren street; that this will provide free passageway to the street; that both flat tread ladders will be stationary, have iron rails on both sides and be set at an angle to the wall; and

WHEREAS, the applicant therefore requests the Board to amend the resolution previously amended June 30, 1953, so as to accept the proposed egress to the street from rear of building in question; and

WHEREAS, the applicant has filed with this appeal a consent to the lessee of 297 Warren street for use of premises at 299 Warren street as an egress in event of emergency; and

WHEREAS, the applicant has filed with this appeal a consent of the Brooklyn and Long Island Church Society of the Methodist Church, owner of 307 Warren street, permitting the lessee of 297 Warren street to use the society's premises as an exit in case of fire or emergency; and

WHEREAS, the applicant has filed with this appeal a revised plan marked "Received January 31, 1955" showing the proposed egress from the rear of 297 Warren street by means of stationery iron ladder to roof of 299 Warren street and stationery iron ladder from roof thereof to roof of side court at 297 Warren street, and in addition such plan shows horizontal egress from the rear of 297 Warren street through the easterly wall to the rear portion of first floor of 299 Warren street which is occupied by the same tenant and a door opening from the easterly wall of the rear portion of 299 Warren street to the westerly court of the Community House at 305-7 Warren street.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on September 23, 1952, to consider additional objection and to add thereto:

"that the proposed second means of exit may be as now proposed and as indicated on plans filed with this request for amendment marked 'Received October 27, 1954' (1 sheet), 'January 28, 1955' (1 sheet), and 'January 31, 1955' (1 sheet), *on condition* that such means of exit through adjoining buildings and courts shall be subject to consents of the owners, which have been filed, copies of which shall be filed with the Borough Superintendent; and that in all other respects the requirements of the resolution above cited shall be complied with."

126-52-A

APPLICANT—Windsor Oaks Corporation, owner.

SUBJECT—Application February 6, 1952—re Appeal from a decision of the fire commissioner.

PREMISES AFFECTED—217-08 to 217-26 and 220-22 to 220-28 73rd avenue, 74-23 to 74-45 220th street, 73-76 to 73-96 and 75-08 to 75-34 Springfield boulevard, 219-12 to 219-18 and 219-33 to 219-55 74th avenue, 219-16 to 219-38 and 219-80 to 219-96 75th avenue, Block 7742, Lot 3; Block 7754, Lot 3; Block 7755, Lot 3 and Block 7739, Lot 3, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: James Pasta and Arthur Ahrens.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION

WHEREAS, the decision of the Fire Commissioner dated January 28, 1952, folder No. 1 C 1065.03, reads:

"Receipt of your letter of Dec. 12, 1951, is hereby acknowledged."

MINUTES

Please be advised that this office is without power to modify Rule 15.2 of the Oil Burner Rules.

In view of the above facts, your request for a modification of Rule 15.2, Oil Burner Rules, which will enable you to have three employees holding certificates of fitness in lieu of nine, is hereby denied."

and

WHEREAS, the applicant states that the premises consist of a series of two family dwellings, erected in 1951 pursuant to a variance granted by the Board under Cal. No. 418-50-BZ and Cal. No. 419-50-A; and

WHEREAS, the applicant contends that the heating for the apartments in the development is furnished by low pressure oil fired burners located in the nine boiler rooms as indicated on plans filed with this appeal; that No. 6 oil is used; that the burners are equipped with preheaters, each provided with an accepted and approved directional control valve; that the automatic controls on each system preclude any danger of furnace explosions or other accidental conditions that might shut down the blowers; that the boilers are insured by The Travelers Indemnity Company who has accepted the coverage without recommendation; that the boiler rooms have been constructed in accordance with approved plans; that boiler room ceilings are insulated by packing the spaces between the floor beams with two layers of rock wool batts and attaching 2 in. thick Ban Roc blanket by nailing to the underside of the wood beams and finishing with two coats of asbestos cement reinforced with wire lath, troweled hard and smooth; that the boiler room walls consist of a minimum of 12 in. of concrete; that floors are 4 in. stone concrete; that the boiler rooms are entered from the exterior of the buildings by a fireproof door, each entrance being served by a concrete walk intergrated into the circulation walk system of the development; that the 10,000 to 15,000 gallon fuel oil storage tanks are located in the cellars adjoining the boiler room and are coated with two coats of asphaltum and provided with standard manhole openings; that certificates of fitness have been issued to four employees who live on the premises, and a schedule filed with this appeal April 24, 1952 has been arranged to insure their attendance at the boiler rooms at frequent intervals during the day, and these employees are also available on call at night; that it is therefore requested that rule 15.2 of the Oil Burner Rules be modified to permit three employees holding certificates of fitness on the premises in lieu of the full requirements with the provisions of such rule, and one additional certificated employee for relief; and

WHEREAS, the applicant states that each of the boilers is fired by an Enterprise Oil Burner, Model H2P, as approved by the Board under Cal. No. 1149-27-SA, for gas and electric ignition, equipped with line starters with overload protection and the following controls: Minneapolis Honeywell Relay, Stack Switch and Aquastats; that Wells Electric Preheaters have been installed and in addition each boiler is provided with a Yula, No. P6C-240 submerged heater with a capacity of 70 gallons per hour at 180 deg. F. and a Yulatrol Detector, all as approved by the Board of Standards and Appeals under Cal. No. 376-50-SA; and

WHEREAS, the applicant has filed with this appeal a schedule of boiler room inspections marked "Rec'd. Apr. 24, 1952" (1 sheet), indicating that each boiler room in the development will be inspected at two-hour intervals using three engineers and one relief engineer.

Resolved, that the decision of the Fire Commissioner, dated January 28, 1952, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the number, location and arrangement of boiler rooms shall be as proposed and as indicated on plans filed with this appeal, marked "Received February 6, 1952" (1 sheet); that there shall be no padlocks on the doors to the boiler rooms; that any locks installed shall be of the cylinder type, installed near the top of each door to the boiler room; that such door shall be readily openable by the engineer and the Fire Department inspector; that there shall be a time clock station installed at each boiler room for inspection record; that such inspection shall be made of each boiler room and report of such inspection filed in the business office of the company on the premises for Fire Department inspection; that the oil burners, preheaters and controls shall be of types approved by the Board and maintained to the satisfaction of the Fire Commissioner and properly labeled to show Board's approval; that prior to the issuance of any permit hereunder, fees shall be paid to the Fire Commissioner for previous use; that inspection of boiler rooms shall be in accordance with the daily boiler room inspection schedule as submitted, marked "Received April 24, 1952", as *amended* through February 15, 1955; that such schedule shall be published as a part of this resolution; and that in all other respects all requirements of law applicable to the boiler rooms and the heating systems shall be complied with, including the requirements of the Oil Burner Rules of the Board; that at least one employee of each inspection period shall hold a certificate of fitness.

APPLICANT—Frederick A. Ketcher, for Plasterers Helpers Local No. 30, owner (Lucian Walters, lessee).

SUBJECT—Application February 26, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—301 East 94th street, north side, 79.9 ft. east of 2nd avenue, Block 1557, Lot 104, Borough of Manhattan.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated February 23, 1954, on amendment to Alt. App. 2264 of 1953, reads:

"A motor vehicle repair shop in a non fire proof building over one story in height is contrary to section 4.2.1 B.C.)"

and

WHEREAS, the applicant states the building is two stories, 22 ft. in height, 20 ft. front by 95 ft. in area, Class 3 construction, erected in 1903, on a lot 20 ft. front by 100 ft. in depth in an unrestricted use, B area, Class 1½ height district, used and occupied since 1950 as follows: 1st floor—storage, 10 persons; 2nd floor—offices and call room, 60 persons; and proposed to be used and occupied as follows: 1st floor—motor vehicle repair shop, 2 persons; 2nd floor—offices and call room, 60 persons; the building is provided with one three foot wide steel stairs enclosed in partitions of studs, rock lath and portland cement plaster, equipped with fireproof self closing doors and leading direct to street and provided with a ladder and scuttle to roof; and

WHEREAS, Certificate of Occupancy #37093 issued on Alt. App. 1990 of 1949, permits the present use and occupancy; and

WHEREAS, the applicant states that it is proposed to fire retard the ceiling with wire lath and one inch portland cement plaster, that the two front doors to the shop will be replaced by three doors, one of which will be an exit door and the other door will be provided with a wicket; that the door to the stair vestibule will be removed and the opening will be fire retarded; that the first floor will be

entirely sealed from the balance of the building; that the lot line windows on the first floor will be bricked up; and

WHEREAS, the applicant states that the owner is unable to rent the storage space on the first floor and it has been vacant for years; that the building is in an unrestricted use district and the proposed use will be appropriate; that the limited use requested will enable the owner to make a fair and reasonable return on his investment; and

WHEREAS, the applicant contends that inasmuch as the first floor is concrete, the walls are of solid brick and the ceiling will be fire retarded, and that less than 20 gallons of inflammables will be stored on the premises, and not more than two quarts will be used for spraying and as the stairs as sealed, and the first floor area is less than 1700 square feet, and as only five cars will be stored, and the occupancy of the first floor limited to two persons, the hazard will be at an absolute minimum, and it is therefore requested that this appeal be granted so as to permit the first floor to be used as a motor vehicle repair shop for five cars; and

WHEREAS, the premises was inspected by a committee of the Board; and

WHEREAS, the applicant has filed with the Board the following communication, granting permission to use adjoining premises as an exit in the event of emergency;

"February 4th, 1955

This letter hereby gives permission to Lucian Walters, of 301 East 94th St., to use my premises as an exit in case of emergency.

Very truly yours,

Mannie Eimbinder

owner

307 East 94th Street."

Resolved, that the decision of the Borough Superintendent, acting on amendment to Alt. App. 2264/53, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, for a term of five years to permit the use of the first floor for motor vehicle repairing and storage and to permit the use of the second means of exit on the rear only so long as permission is given to use the adjoining premises as an exit in case of emergency, as has been granted by adjoining owner in above letter filed with this Board and copy of which has been filed with the Borough Superintendent, *on condition* that the building shall not be increased in height or occupancy and in all other respects shall comply with all laws, rules and regulations applicable thereto and that the fire protection as proposed shall be carried out and such portable fire-fighting equipment shall be maintained as the Fire

MINUTES

Commissioner shall request; that the storage of inflammables for spraying shall be subject to a permit from the Fire Commissioner and the spraying equipment shall comply with the requirements therefor and be maintained to the satisfaction of the Fire Commissioner.

371-54-A

APPLICANT—Sidney Daub, for Piankay Realities, Inc., owner.

SUBJECT—Application May 5, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—218-220 East 28th street, south side, 247.8 ft. east of 3rd avenue, Block 908, Lot 45, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated May 4, 1954, on Alt. App. 2013 of 1953, reads:

"1. Provide two (2) means of egress from all floors including the cellar.

A fire escape is not acceptable as a second means of egress in a factory building over 5 stories in height—Sect 271 Labor Law."

and

WHEREAS, the applicant states the building is six stories, 70 ft. in height, 44 ft. front by 88 ft. in depth, Class 3 construction, erected prior to 1892, on a lot 44 ft. front by 98.9 ft. in depth, in a Business use, B area Class 2 height district, used and occupied since 1892 as follows: Cellar—storage of hardwood, one person; 1st floor—manufacturing metal frames, 30 persons; 2nd floor—manufacturing billiard cues, 10 persons; 3rd floor—storage of hardwood, one person; 4th floor—manufacturing wood furniture, 10 persons; 5th floor—manufacturing wood furniture, 10 persons; 6th floor—hardwood, one person; no change in use or occupancy is now proposed; building is provided with a two-source sprinkler system throughout; there is one 3 ft. 8 in. wide interior steel stairs enclosed in partitions of wood stud, metal lath and portland cement plaster, equipped with fireproof self closing doors and leading from roof bulkhead direct to street and one fire escape at the front of the building extending to roof by stair and to street by stair, window and door openings on the course of the fire escape are fireproof selfclosing; and

WHEREAS, violation No. 5654 was issued August 4, 1953, by the Borough Superintendent for maintaining a six story factory building with outside fire escapes as a secondary means of egress contrary to Section 271 of the Labor Law, and without the required secondary means of egress from the cellar as required by Section 271 of the Labor Law; and

WHEREAS, the applicant states that Alt. App. 793 of 1892 specified the use of the building as light manufacturing, and Alt. App. 262 of 1892 specified the use of the building as a car factory, that the building was altered under Alt. App. 482 of 1926 and the exits were improved to comply with the then Labor Law requirements, that the fire escapes are at the front of the building, have four foot wide balconies, 45 degree stairs, from second story to roof and 45 degree counterbalanced stair from the second story to street grade; that fire escape balconies and stairways have five foot high railings; that the openings on the course of the fire escape are provided with fireproof wire glass, automatic closing windows, and fire proof self closing doors, and are provided with steel steps leading to the balcony, that in addition to the fire escape the building contains a 3 ft. 8 in. wide steel stairway from first story to roof enclosed in partitions of wood studs, covered both sides with metal lath and

cement plaster, equipped with fireproof self closing doors and provided with a fire retarded hallway at the first floor leading direct to the street; that there is a 3 ft. wide steel stairway from the cellar to the first story entrance hall which leads direct to the street; that this stairway is enclosed at the first story with fire retarded enclosure equipped with fireproof self closing door; that in addition there is an iron ladder at the front of the cellar leading to a 3 ft. by 4 ft. iron trap door at the street; that there will be no manufacturing in the cellar; that the building is provided with an automatic two-source sprinkler system supplied by a 10,000 gallon wood gravity tank and 7,500 steel pressure tank above the roof, and provided with ADT central office alarm; and

WHEREAS, the applicant contends that in view of the fact that the building exceeds by only one story the height for which fire escapes are acceptable, and in view of the small occupancy, and the two-source automatic sprinkler system, that it would constitute a practical difficulty and an unnecessary hardship for the owner to be required to comply with the strict requirements of the Labor Law; and

WHEREAS, the applicant has filed with this appeal a diagram indicating that it is proposed to equip the sidewalk trap door, serving as a means of egress from the engineer's ladder in the areaway, with an easily openable device of the spring lift type actuated by a spring lift bolt with pull chain to within four feet of cellar floor, the top door to be raised by torsion springs on the releasing of the spring lift bolt; and

WHEREAS, the applicant states that the areaway is heated by steam so that there is no possibility of the accumulation of snow and ice to prevent the operation of the trap door; and

WHEREAS, the premises was inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the Borough Superintendent, acting on Alt. App. 2013/53, Objection 1, and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that a two-source sprinkler system shall be maintained in accordance with the requirements therefor and to the satisfaction of the Fire Commissioner; that the existing steel stairs to cellar shall be enclosed from cellar to first floor; that the number of occupants per floor shall be limited to the capacity of the primary means of exit; that the fire escape shall be equipped as proposed with a counterbalanced stair to street and a gooseneck ladder to roof; that the primary means of exit shall be carried to the roof as shown; that the engineer's ladder shall be equipped with an easy opening device opening from the underside as proposed and shown on plans filed with this appeal, marked "Received May 5, 1954" (4 sheets) and "December 30, 1954" (1 sheet); that the occupancy of the cellar shall be as proposed, for storage only and no manufacturing; and that a new certificate of occupancy shall be obtained.

THE RESOLUTION—

WHEREAS, Order No. 48205 LC, issued by the Fire Commissioner March 13, 1953, and referred to in a decision of the Fire Commissioner dated August 13, 1954, reads:

"Before a permit for the purpose indicated above may be issued to you, the following order must be complied with. Kindly notify this department when such order has been complied with.

"1. Provide a sprinkler system for the entire building, in accordance with C126-1375.0, and C19-11.0, Administrative Code."

and

WHEREAS, the applicant states the building is 12 stories, 166 ft. in height, 200 ft. by 125 ft. in area, of fireproof construction, erected 1916, located on a lot 200 ft. 4 in. by 700 ft. in area, in an unrestricted use, A area, Class 2 height district, and used and occupied since 1918 as follows: Basement—Winery, 15 persons; 1st floor—Winery, 15 persons; 2nd floor—Winery, 30 persons, and mfg. of flavor extracts, 25 persons; 3rd floor—Winery, 40 persons; 4th floor—mfg. of flavoring extracts, 40 persons; 5th floor—mfg. of food products, 20 persons, and mfg. of flavoring extracts, 50 persons; 6th floor—mfg. of food products, 20 persons; and mfg. of flavoring extracts, 50 persons; 7th floor—mfg. food products, 50 persons; 8th floor—mfg. of coats and dresses, 75 persons, and mfg. pharmaceuticals, 7 persons; 9th floor—food products warehouse, 10 persons; 10th floor—warehouse for extracts, 5 persons, and print shop, 50 persons; 11th floor—warehouse food products, 15 persons; 12th floor, mfg. wood heels, 68 persons, and glove mfg., 75 persons; no change in use or occupancy is now proposed; the building is provided with a standpipe system, a two-source sprinkler system throughout; and interior fire alarm system. There are five interior stairs of fireproof construction and one fire tower; stairhalls lead from roof bulkhead direct to street; and

WHEREAS, Certificate of Occupancy #3684 was issued upon NB App. 2630 of 1916 permitting the use of the building throughout as a factory, number of occupants not stated; and

WHEREAS, the applicant states that the building is provided with a 100 per cent sprinkler system equipped with an approved standpipe system and an ADT connected fire alarm system; that the sprinkler system is fed from a 30,000 gallon storage tank on the roof of the building in question and is tied in with the Bush Central Sprinkler and Standpipe System consisting of a total of 372,000 gallons of water tankage contained in 10 roof tanks and distributed to any point in the Bush Building system by means of two 1500 gallon per minute pumps, one electric and one steam driven located in the power house at 32nd St. and 2nd Avenue; that a constant pressure of 85 lbs. per sq. in. is maintained on the sprinkler system; and

WHEREAS, this sprinkler system was accepted by the Board under Cal. No. 782-42-A; and

WHEREAS, the applicant states that the Gabriel Century Wood Heel Corp. occupies approximately 17,000 sq. ft. of the 12th story and is engaged in the manufacture of wood heels; that less than 900 sq. ft. of this space is used for the storage and handling of celluloid and paints, softeners, etc., and that approximately 500 sq. ft. is assigned for the storage and handling of celluloid that a total of 300 lbs. of celluloid is stored in a separate storage closet 10 ft. 6 in. by 3 ft. 3 in. in area constructed of 4 in. cinder blocks covered both sides with $\frac{3}{4}$ in portland cement mortar and equipped with an Underwriter's approved fireproof self-closing door at the opening; that this closet is ventilated by a 10 in. by 16 in. galvanized metal duct running to the outside of the building; that the sprinkler system has been extended into the celluloid storage closet and two approved heads are provided therein; that all stock is stored on steel shelving; that a rigid stem vapor proof light is provided inside the closet with an explosion proof switch on the outside; that the celluloid used is received pre-cut to size for covering wood heels manufactured in this plant; that only enough material for a day's

work is removed from the celluloid storage closet and placed in metal pans equipped with self-closing covers containing a softener; that the only tool used by the workers in handling the celluloid is a pair of scissors with which to finish shaping the softened celluloid to the heel on which it is fitted; that a maximum of four workers handle the celluloid and all operations are under the supervision of a person holding a Certificate of Fitness from the Fire Department; that all spraying operations are performed in an approved type metal spray booth by a person holding a Certificate of Fitness from the Fire Commissioner; that the spray gun storage container for paints holds one half pint and less than two quarts a day are sprayed; that the spraying installation complies with the Board's Paint Spray Rules; that all lights in the celluloid work room are of the explosion proof type; that all celluloid scrap is kept under water in a metal pan with a self-closing cover and removed as required by the Fire Department; that two 15 pound CO₂ extinguishers are maintained in the celluloid work room and in the store room for paints and other flammables; that water pails, as required by the Fire Department, are provided at each celluloid work room bench; and

WHEREAS, the applicant states that it is proposed to provide a six inch high sill at doors leading to celluloid storage closet and paint storeroom, and that a double thickness of 20 mesh copper or bronze screening will be installed at duct opening in celluloid closet and a one-quarter inch mesh screen at duct termination; that all steel shelves in the celluloid closet will be slotted to permit dispersion of water should the sprinkler system operate; that a one-quarter inch mesh copper or bronze screen will be installed at the termination of the spray booth vent duct; that a 12 in. by 12 in. fixed louvre will be installed in the celluloid work room and in the paint storeroom to provide adequate air intake; and

WHEREAS, the applicant states that the Board permitted the same lessee to occupy a portion of the fourth floor of the adjoining Bush Building No. 9, under Cal. No. 181-47-A, for the same operation substantially as conducted on the premises now in question; and

WHEREAS, the applicant therefore requests that the Board permit the applicant to use 300 lbs. of celluloid, 200 gallons of lacquer, 50 gallons of lacquer thinner, 50 gallons of celluloid cement; 50 gallons heel cement and 10 gallons of rubber cement under the conditions shown in this appeal and whatever additional safeguards the Board may deem necessary in the interest of public safety.

Resolved, that the decision of the Fire Commissioner, as expressed in Objection 1 of Order #48205 LC, dated August 13, 1954, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the sprinkler system in the entire building #10 shall comply with the requirements of the resolution adopted by the Board on November 21, 1944, under Cal. Nos. 782-42-A in which Building #10 is included and 806-42-A; that the connection to fire headquarters through approved central station as proposed shall be maintained; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto.

491-54-A

APPLICANT—Sidney Daub, for Samuel Elkind, owner.

SUBJECT—Application June 17, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—3 and 5 Waverly place, north side, 100 ft. west of Broadway, Block 548, Lot 68, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 8, 1955, at 2 P. M. for further consideration after applicant has filed revised plans providing some other means of exit; hearing previously closed.

568-54-A

APPLICANT—Melvin E. Kessler, for Paul Tishman, trustee (Gene Tishman Harrison and Ellen Tishman Rosenthal, owners).

SUBJECT—Application July 7, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—21 East 70th street, north side, 21 ft. west of Madison avenue, 5th floor, Block 1385, Lot 16, Borough of Manhattan.

APPEARANCES—

For Applicant: Melvin E. Kessler.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 22, 1955, at 2 P. M. for inspection and decision; hearing closed.

866-54-A

APPLICANT—John T. Kelleher, Borough Superintendent, Department of Housing and Buildings, Borough of Queens.

OWNER OF PREMISES—Bernard Isacowitz.

SUBJECT—Application November 16, 1954—re Revocation of Certificate of Occupancy Q-49684-48, issued re N.B. 6744-47.

PREMISES AFFECTED—138 Beach 149th street, east side, 596 ft. south of Rockaway Beach boulevard, Block 788, Lot 43, Neponsit, Borough of Queens.

APPEARANCES—

For Applicant: A. Halpern.

For Owner: Louis Lieberman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 15, 1955, at 2 P. M. at request of owner's representative, to file a zoning application according to the regular procedure.

867-54-A

APPLICANT—John T. Kelleher, Borough Superintendent, Department of Housing and Buildings, Borough of Queens.

OWNERS OF PREMISES—Harry and Shirley Fuchs.

SUBJECT—Application November 16, 1954—re Revocation of Certificate of Occupancy Q-49685-48 issued re N.B. 6745-47.

PREMISES AFFECTED—144 Beach 149th street, east side, 551 ft. south of Rockaway Beach boulevard, Block 788, Lot 45, Neponsit, Borough of Queens.

APPEARANCES—

For Applicant: A. Halpern.

For Owner: Louis Lieberman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 15, 1955, at 2 P. M. at request of owner's representative, for filing of zoning application according to the regular procedure.

453-20-BZ—Vol. III

APPLICANT—Herman Kron, for Philip Tarter and Leon Igel, owners (Stratford Garage Inc., lessee).

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the change in penthouse and extension of same as new 4th story to be used as storage garage for more than five cars, which proposed extension is within 200 ft. of Riverside parkway and within 200 ft. of a school.

PREMISES AFFECTED—323-325 West 96th street, north side, 50 ft. 6 in. east of Riverside drive, Block 1887, Lot 3, Borough of Manhattan.

APPEARANCES—

For Applicant: George G. Kron.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was amended by the Board as Vol. III, on April 24, 1951, on certain conditions; and

WHEREAS, the resolution was amended on March 18, 1952 and December 2, 1952; and

WHEREAS, time to obtain permits and complete the work was extended on February 3, 1953 and February 24, 1954; and

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 24, 1951, and thereafter *amended* through February 24, 1954 only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that plans have been approved by the Department of Housing and Buildings and a portion of the alteration work has been completed and the balance is to be completed this spring, that all permits required shall be obtained and all work completed within six months of the date of this amended resolution." (Alt. App. 1299/50)

MINUTES

660-23-BZ—Vol. II

APPLICANT—Frederick A. Ketcher, for Kesbec, Inc., owner.

SUBJECT—Application for consideration—reopening and extension of term of variance for parking—re Application (decision of the borough superintendent), previously granted on condition, under sections 7c, 7e, 7h and 7i of the zoning resolution, permitting in a residence use district, the reconstruction of existing gasoline service station to include the lubritorium, car washing, repairs to motor vehicles and the parking and storage of motor vehicles on unbuilt upon portion of lot.

PREMISES AFFECTED—150-154 Van Cortlandt avenue and 190-202 St. George's Crescent, southeast corner, Block 3313, Lot 18, Borough of the Bronx.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was amended by the Board as Vol. II, on March 21, 1950, on certain conditions; and

WHEREAS, the applicant requested an extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 17, 1923, and thereafter *amended* by resolutions adopted through March 21, 1950 only so far as it has reference to the term of the variance, so that as *amended* this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision h for a term of five (5) years from the date of this *amended* resolution, to permit the parking and storage of motor vehicles on the balance of the premises to the east; that other than as herein *amended* the resolution above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained and all work completed within six months from the date of this *amended* resolution." (N.B. Applic. 633/49)

1357-27-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Marvel I. Hory, owner.

SUBJECT—Application for consideration—reopening and amendment as to rearrangement of premises—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f, 7i and 7h of the zoning resolution, permitting in a business use district, the creation and maintenance of a gasoline service station, lubritorium, car washing, motor vehicle repairs, store and office and permitting the parking and storage of motor vehicles on unbuilt upon portion of plot.

PREMISES AFFECTED—4467-4479 Broadway and 700-706 West 192nd street, southwest corner, Block 2180, Lot 513, Borough of Manhattan.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on November 30, 1954, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on November 30, 1954, by adding thereto:

"that in the event the owner desires to change the location of the accessory building, as now shown on revised plans marked, "Received, February 3, 1955 (one sheet), such change in location may be made *on condition* that in all other respects the above cited resolution shall be complied with and that the wall of the rear lot line and side lot line previously interrupted by the walls of the accessory building, as then located, shall now be continuous in view of the relocation of the accessory building; that the subdivision of the space and location of the partitions may be as indicated on such revised plans marked, "Received, February 3, 1955"; that the relocation of the partitions and the insertion of a door may be permitted; and that all permits shall be obtained and all work completed and a new Certificate of Occupancy obtained within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution." (N.B. 62/54)

110-37-BZ—Vol. II

APPLICANT—Schwartzberg and Mozor, for Mary Goldstein, owner, (Ida Burns, doing business as Park Slope Parking Arena, lessee).

SUBJECT—Application for consideration—reopening and extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district, for a temporary term of years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—345-349 9th street, north side, 240 ft. west of 6th avenue and 134-332 8th street, Block 1005, Lots 31 to 36 inclusive, 57, 58, 59, 28 and 29, Borough of Brooklyn.

APPEARANCES—

For Applicant: Benjamin W. Schwartzberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on October 15, 1940, on certain conditions; and

WHEREAS, the term of variance was extended from time to time and last extended on January 13, 1953; and

WHEREAS, the applicant requested a further extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 15, 1940, as thereafter *amended* by resolutions adopted through January 13, 1953, only so far as it has reference to the term of the variance, so that as *amended* this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision h for a term of two years from the date of this *amended* resolution, to permit * * *; that other than as herein *amended* the resolutions above cited, shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained." (Curb Cut App. 1583/40 as last denied Feb. 18/55)

395-46-BZ

APPLICANT—Ingram S. Carner, for Tri-Line Motors Inc. and Eckoff Holding Corp., owners (Tri-Line Motors Inc., lessee).

MINUTES

SUBJECT—Application for consideration—reopening and amendment as to six additional gas tanks—re Application (decision of the borough superintendent), previously granted on condition, under section 7c of the zoning resolution, permitting in a business use district, the change of occupancy from public garage to repairing and servicing of cars, parts department, auto show room, office, wheel alignment, brake testing, gasoline service station, storage of more than five motor vehicles, auto laundry and sale and display of used cars.

PREMISES AFFECTED—155-157 Empire boulevard, 1727-1749 Bedford avenue, northeast corner and 112-122 Sullivan place, Block 1307, Lots 1 and 6, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 10, 1946, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on December 9, 1947; and

WHEREAS, the resolution was amended from time to time and last amended on November 16, 1948; and

WHEREAS, the applicant requested a further amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on December 10, 1946, and as thereafter *amended* by resolutions adopted through November 16, 1948, by adding thereto:

"that the number of gasoline storage tanks shall not exceed ten (10) 550 gallon approved tanks; Alt. App. 3014/54, as passed on by the Borough Superintendent under Objection dated November 4, 1954, and as shown on plans filed with this request for amendment marked, "Received, February 8, 1955" (one sheet).

844-47-BZ

APPLICANT—Ingram S. Carner, for Louis Mintz, owner.

SUBJECT—Application for consideration—reopening and amendment as to two additional gas tanks—re Application (decision of the borough superintendent), previously granted on condition, under section 7f of the zoning resolution, permitting in a business use district, for a term of years, the erection and maintenance of a gasoline service station, lubricatorium and auto laundry.

PREMISES AFFECTED—9701-9715 Ditmas avenue and 731-739 Rockaway parkway, northeast corner, Block 8115, Lots 6 and 8, Borough of Brooklyn.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 16, 1947, on certain conditions; and

WHEREAS, time to submit plans for approval was extended on March 23, 1948; and

WHEREAS, plans and revised working drawings, submitted as being in substantial compliance with the Board's requirements, were approved on October 4, 1949; and

WHEREAS, amended plans, submitted as being in substantial compliance with the Board's requirements, were approved on March 21, 1950; and

WHEREAS, time to obtain permits and complete the work was extended on February 15, 1949 and October 17, 1950; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on December 16, 1947, and as thereafter amended by resolutions adopted through October 17, 1950, by adding thereto:

"that the number of approved gasoline storage tanks may be increased by two tanks, making a total of eight such tanks, as shown on plans filed with this request for amendment marked, 'Received, February 8, 1955' (one sheet); and that in all other respects the above cited resolutions shall be complied with". (Misc. App. 1800 of 1954).

765-49-BZ

APPLICANT—Burke, Green and Groh, for Clarence Knickman and Helen M. Meyer, owners.

SUBJECT—Application for consideration—reopening and extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under sections 7c and 7h of the zoning resolution, permitting partly in a business use and partly in a residence use district, for a term of years, the parking and storage of more than five but less than two hundred motor vehicles, the maintenance of the existing two garages in rear of plot for three cars, and outdoor sale and display of more than five motor vehicles.

PREMISES AFFECTED—164-11 to 164-19 Hillside avenue, north side, 100.28 ft. east of 164th street, Block 9836, Lot 6, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Arthur J. McGee.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and term of variance and time to complete extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on February 28, 1950, on certain conditions; and

WHEREAS, the resolution was amended on May 16, 1950; and

WHEREAS, the applicant requested an extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on February 28, 1950, as *amended* by resolution thereafter adopted on May 16, 1950, only so far as it has reference to the term of the variance, so that as *amended* this portion of the resolution shall read:

"* * * granted under Section 7, Subdivisions e and h for a term of five years from the date of this *amended* resolution, to permit * * *; that other than as herein *amended* the resolutions above cited shall be complied with in all respects and that all permits and a new Certificate of Occupancy shall be obtained and all work completed within six months from the date of this *amended* resolution." (Alt. 2331/49)

319-23-BZ—Vol. III

APPLICANT—Goldwater and Flynn, for Robert P. Marshall, owner.

SUBJECT—Application for consideration—reopening and consider proposed revised plans for gasoline station, subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition,

MINUTES

under section 7f of the zoning resolution, permitting in a residence and business use district, for a term of years, the erection and maintenance of a gasoline service station, car washing and lubritorium.

PREMISES AFFECTED—Northwest corner of East Tremont and Dewey Avenues, Block 5561, Lot 95, Borough of the Bronx.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. III, subject to the regular procedure, to consider revised proposal for a gasoline station previously granted but which expired by limitation.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

66-38-BZ—Vol. I

APPLICANT—Unger and Unger, for Federal Savings and Loan Association, new owner (Village Parking Station, lessee).

SUBJECT—Application for consideration—reopening and consider curb cut on redeemed area of lot previously permitted for entire block front and extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a business use district, for a term of years, the parking and storage of motor vehicles.

PREMISES AFFECTED—340-354 6th avenue, east side, from West 4th street to Washington place, 151 West 4th street and 88-90 Washington place, Block 552, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: Paul Feldman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and set for hearing March 15, 1955, at 10 A. M., to consider extension of term of variance, waiving all requirements except new decision of the borough superintendent and two publications in the Bulletin.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

802-41-BZ

APPLICANT—Nathaniel C. Saxe, for David Koss, owner.

SUBJECT—Application for consideration—reopening and restore to docket and consider revised plans and extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a residence use district, for a term of years, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—219 Beach 26th street, west side, 100 ft. south of Edgemere avenue and 220 Beach 27th street, Block 280, Lot 10, Edgemere, Borough of Queens.

APPEARANCES—

For Applicant: Nathaniel C. Saxe.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and restored to the docket for consideration of revised plans and extension of term of variance; previously dismissed.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

160-52-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Enlaw Corporation, owner.

SUBJECT—Application for consideration—reopening as Vol. II and consider additional use subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under sections 7A and 7h of the zoning resolution, permitting in the residence use portion of the plot, the parking of customer's motor vehicles, the continuance of parking of patrons' cars in the business use district and permitting the removal of glass blocks and the substitution of plate glass, creating a show window more than the permitted distance from the intersection, in proposed restaurant and amusement center.

PREMISES AFFECTED—760-778 East 189th street, east side, from Southern boulevard to Prospect avenue, 2455-2479 Southern boulevard and 2450-2480 Prospect avenue, block 3115, Lots 21, 25, 29, 30 and 31, Borough of the Bronx.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. III, subject to the regular procedure to consider additional use.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

209-46-BZ—Vol. IV

APPLICANT—Edmund T. Mallory, for Northern Chevrolet, Inc., former owner, H. M. Williams Company, Inc., new owner.

SUBJECT—Application for consideration—reopening as Vol. IV to consider extension of use subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under sections 7e, 7i and 7h of the zoning resolution, permitting in the business district portion of a lot located in a residence and business use district, the extension of existing building and used to be used as an auto showroom, offices, parts department, greasing, washing, minor repairs, welding, spray booth, wheel alignment, and one gasoline pump; and permitting the existing used car portion of lot to remain, and permitting the parking of more than five motor vehicles waiting to be serviced.

PREMISES AFFECTED—93-01 to 94-05 Northern boulevard and 32-36 to 32-62 Junction boulevard, northwest corner and 32-57 to 32-63 93rd street, Block 1432, Lot 45, Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. IV and set for hearing March 13, 1955, at 10 A. M., waiving all requirements except a new decision of the Borough Superintendent and to permit legal publication in the Bulletin.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

Adjourned: 3:35 P. M.

JOSEPH J. DOYLE, Chief Clerk.

PUBLIC HEARING

PROPOSED RULES FOR APPROVAL AND USE OF AIR ENTRAINING PORTLAND CEMENTS CAL. NO. 64-55-SR

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, March 11, 1955*, at 10 A. M., in room 1013, Municipal Building, Manhattan, on the Proposed Rules for Approval and Use of Air Entraining Portland Cements.

Statement.

Since 1946 the Board has received several applications for approval of air entraining cements but has not acted on such applications as it was felt that the use of such cements should not be permitted as Portland Cements under Sec. C26-312.0(a)1 of the Administrative Code.

The Engineering Division was assigned the task of examining the question whether air entraining cements should be approved under Sec. C26-312.0(a)2 of the Administrative Code, and determining what rules were necessary to govern their use.

ASTM Designation C175-53, as adopted by the American Society for Testing Materials, 1953, have been promulgated relating to types 1A, 2A and 3A cements when manufactured with air entraining additions interground with the clinker at the mill. Such additions are required to comply with ASTM Designation C226-51T.

Committee 613 of the American Concrete Institute met at Boston in February of 1953 and adopted "Recommended Practice for Selecting Proportions for Concrete", which include recommendations for the use of air entraining cements and the use of admixtures at the point of concrete mixing.

Studies of the effect entrained air on the strength and durability of concrete have been made by the Research and Development Division of the Portland Cement Association.

Federal Specification SS-C-192a, approved and promulgated April 22, 1952, covering Portland Cement, includes Types 1, 2, 3, 4, and 5 air-entraining cements for use by all Federal Agencies and limits the use of air-entraining agents to an amount less than 1 percent.

The use of air-entraining cements in concrete will result in an increase in workability and cohesiveness, a reduction in segregation and bleeding, increased resistance to the action of sulfate waters and will produce a more homogeneous and more durable concrete.

Air-entraining agents introduce into the concrete a larger amount of air than is usually found in concrete. Unlike the air usually found in concrete, intentionally entrained air exists in minute disconnected bubbles well distributed throughout the mass. These bubbles serve as reservoirs to accommodate expansion resulting from freezing of water within the concrete.

Thus, air-entrained concrete contains a larger amount of air and requires less water than normal concrete, and since each of these factors affect the yield and cement content of the mix, generally air-entrained concrete mixes should be designed by decreasing the sand volume by an amount equal to the net change in the volume of air plus water, as compared to a normal concrete mix designed to provide the same yield and cement content.

Although entrained air increases workability and durability, it tends to reduce strength of concrete except in very lean mixes. Bond strength ratios are influenced essentially in the same manner as compressive strength when the air content of the concrete is increased.

The reduction in compressive and bond strengths with increased air content is less for air-entrained concretes made with aggregates having a maximum size of $\frac{3}{8}$ " than for air-entrained concretes made with aggregates of $1\frac{1}{2}$ " to 2" maximum sizes.

Mixing time has a significant effect on the air content of concrete made with air-entraining cement. After ten minutes mixing there is a gradual decrease in air content of the mix.

As a result of studies made by H. W. Russell, Engineer of Materials, Illinois State Highway Division, and Eivind Fognestad of the University of Illinois, it was found that bond was reduced about 10 percent on vertically cast bars when 4.5 percent air was entrained and 5 to 15 percent on horizontally cast bars when the amount of air entrained

exceeded 4 percent.

Report of W. A. Gordon, published in the proceedings of the American Concrete Institute, June 1946, Vol. 42, page 605, contains test data to show that entrained air in concrete has an effect on the modulus of elasticity similar to its effect on compressive strength. Moduli of elasticity are reduced from 2 to 3 percent for each percent of air entrained.

Test results reported by H. F. Gunnerson in the June 1944 proceedings of the American Concrete Institute (Vol. 40, page 477) indicate a reduction of modulus of rupture of up to 13 percent when up to 6 percent of air is entrained.

Report of R. F. Blanks and W. A. Gordon published in the Feb. 1949 proceedings of the American Concrete Institute (Vol. 45, page 469), describes test results that show that air-entrained concrete is more resistant to the passage of moisture and segregation than non-air entrained concrete.

Authority.

Pursuant to the powers vested in the Board by Section 666, Subdivision 2 of the New York City Charter, to adopt rules to carry into effect the provisions of Section C26-312.0(c)2 of the Administrative Building Code, which permits the use of cements of "other types" when approved by the Board and used in accordance with rules of the Board governing their use.

Definitions.

- 1.0 "Air Entraining Cement," shall mean Portland Cements Types IA, IIA, and IIIA, meeting the requirements of ASTM Designation C-175-53.
- 1.1 "Approved," for the purposes of these rules, shall mean approved by the Board of Standards and Appeals as "cements of other types" for use in New York City, pursuant to Section C26-312.0(c)2 of the Administrative Building Code.
- 2.0 "Air Entraining Cements," when approved may be used in New York City wherever the use of Portland Cement is permitted by the Administrative Code, under the following conditions:
- 2.1 Concrete containing air-entraining cement shall have a minimum air content of 3 percent and a maximum air content of 9 percent.
- 2.2 Mixing of concrete containing air-entraining cement shall conform to the provisions of Section C26-499.0 of the Administrative Code, except that the percentage of fine to coarse aggregates by weight shall be not less than 40 percent nor more than 100 percent.
- 2.3 When plain concrete containing air-entrained cement is used pursuant to Section C26-311.0 of the Administrative Code, the maximum allowable water cement ratio shall be $7\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.4 When average concrete containing air-entrained cement is used pursuant to Section C26-365.0 b-1 of the Administrative Code, the maximum allowable water cement ratio shall be $6\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.5 When average concrete containing air-entraining cement is used pursuant to Section C26-365.0 b-2 of the Administrative Code, the maximum allowable water cement ratio shall be 6 U. S. gallons per sack of cement.

The adoption of Rule 2.1 is necessary as resistance to freezing and thawing is not materially improved when air contents are below 3 percent and air contents above 9 percent cause excessive strength losses without materially increasing durability.

The adoption of Rule 2.2 is necessary as the use of high percentages of fine to coarse aggregates as permitted by Section C26-499.0 of the Administrative Code could lead to excessive strength losses due to high air content in general usage without considerable reduction in water cement ratios and rigid control of consistencies.

The adoption of Rules 2., 2.4 and 2.5 is recommended based on the report of Committee 613 of the American Concrete Institute as presented by the Committee to the American Concrete Institute convention held at Boston February of 1953, as published in the October 1953 issues of the Journal of the American Concrete Institute.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES FOR ARC AND GAS WELDING AND OXYGEN CUTTING, COVERING THE SPECIFICATIONS FOR DESIGN, FABRICATION AND INSPECTION OF ARC AND GAS WELDED STRUCTURES AND THE QUALIFICATIONS OF WELDERS AND SUPERVISORS (CAL. NO. 1-38-SR—VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday morning, March 18, 1955*, at 10 A. M. in Room 1013, Municipal Building, Manhattan, on the following Proposed amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, Covering the Specifications for Design, Fabrication and Inspection of Arc and Gas Welded Structures and the Qualifications of Welders and Supervisors.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 25, 1938.

EFFECTIVE MARCH 21, 1938. AMENDED MAY 17, 1940, EFFECTIVE JUNE 10, 1940; AND SEPTEMBER 17, 1954, EFFECTIVE OCTOBER 18, 1954.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, of the Charter of the City of New York and C26-514.0 of the Administrative Code (8.6.2.2).

These Proposed Amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, as printed herein in *italics*, are as suggested by the Allied Building Metal Industries as to welding of light structural steel such as fire-escapes, railings, gratings, door-bucks, etc., which are generally shop welded.

Old matter, in brackets [], to be deleted; new matter, in *italics*, to be substituted therefor.

Rule 1. Application for Permits.

- 1.2 [The commencement of any structural welding work is forbidden until an application for a permit to perform such work is filed with and approved by the

Borough Superintendent. The Borough Superintendent shall be notified in writing at least 48 hours prior to the date when the structural welding work is to commence.]

Structural welding work shall be performed only by approved contractors employing certified welders.

Rule 9. Supervision and Inspection.

- 9.1 [Any welding to be done on a structure or any part thereof shall be performed under the supervision of a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect or licensed engineer. Such agency shall be acceptable to the Borough Superintendent.]

Any welding to be done on a structure or any part thereof, in the field, excluding bar joists, shall be performed under the supervision of a representative of the Department of Housing and Buildings, or a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect, or licensed engineer. Such agency shall be acceptable to the Borough Superintendent. Shop welding on structural steel performed by approved contractors shall be the responsibility of the approved contractor, and shall not require supervision or inspection.

Rule 11. Metal Chimneys, Tanks, Stairs and Fire-Escapes.

- 11.1 [Stairs and fire-escapes shall be considered as light structural steel and where shop welded, shall have attached thereto a tag or label, affixed by the standard Testing Agency, to the effect that these Rules have been complied with.]

Stairs, fire-escapes, railings, gratings, door-bucks and other miscellaneous and ornamental metal, ferrous and non-ferrous work, shall not be considered as structural steel and therefore when welded need not be inspected by a standard testing agency.

PROPOSED RULES COVERING DRY CLEANING ESTABLISHMENTS PURSUANT TO THE ZONING RESOLUTION OF THE CITY OF NEW YORK (CAL. 958-47-SR VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, March 25, 1955*, at 10 A.M., in Room 1013, Municipal Building, Manhattan, on the Proposed Rules Covering Dry Cleaning Establishments, Pursuant to the Zoning Resolution of The City of New York.

These Rules are proposed to supersede those previously proposed under Calendar No. 958-47-SR, Vol. II on which a hearing was held March 12, 1954.

Authority

Section 666, Subd. 2 of the Charter of the City of New York and Article V, Section 21 and Article II, Section 4(a), Subd. 53 of the Zoning Resolution of the City of New York.

Application of Rules.

These rules shall be deemed to apply only to those existing dry cleaning establishments existing or hereafter established, pursuant to Article II, Sections 4(a), Subd. 53, 4-A, 4-B and 4-C of the Zoning Resolution.

These rules shall not be deemed to modify or repeal Chapter 19 of the Administrative Code of the City of New York.

Zoning Resolution.

ARTICLE I—DEFINITIONS

§1. Definitions. * * *

(cc) For the purpose of this resolution, "dry cleaning" includes cleaning textiles, fabrics, garments or other articles by the use of solvents other than water, extraction of the

PUBLIC HEARING

solvents therefrom, and drying the same. A "dry cleaning unit" is the machinery or equipment in which textiles, fabrics, garments or other articles are carried through a complete cleaning cycle. A "dry cleaning unit" may consist of one or more detached component machines.

ARTICLE II—USE DISTRICTS

§4. Business Districts. (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

(11) Dyeing establishments.

(53) Dry cleaning establishments, except for establishments which conform to the restrictions set forth below:

(a) Not more than two dry cleaning units shall be installed, and such units shall have an aggregate dry load capacity of not more than 60 pounds, as rated by the Board.

(b) The gross floor area of the dry cleaning establishment, including space used for dry cleaning, pressing and incidental operations, and space used for storage, service of customers and convenience of employees, shall not exceed 2,000 square feet. However, additional space may be used on a lower floor which is either a basement or a cellar, provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles.

(c) No solvent having a flash point less than 138.2 degrees Fahrenheit shall be used, except for incidental removal of spots.

To protect the public health, safety and welfare in accordance with the general purpose and intent of this resolution, to safeguard the character of the predominant types of uses located in the districts affected, and to protect the occupants of nearby residences and other premises from traffic congestion, fire, explosion, vibration, noise, heat, smoke, odors, toxic vapors and other forms of air pollution, the Board, after public notice and hearing, may adopt, and from time to time amend, rules and regulations for the operation and maintenance of dry cleaning establishments permitted under subsections (a), (b) and (c) above. Such rules and regulations may cover inter alia location of entrances to and exits from such establishments, installation of equipment and hours of operation of such establishments. Such rules and regulations may also prescribe the conditions under which such establishments may exist in buildings in which residences are located.

Any dry cleaning establishment which was in existence prior to January 1, 1953 in any use district to which the provisions of this section apply, may be continued, but no such establishment shall be enlarged or extended, nor shall the capacity of its dry cleaning units be enlarged, except in conformity with all the provisions of this section. Such existing establishments shall be subject to the aforesaid rules and regulations of the Board.

Section 4-A. Retail Districts. In a retail district the same regulations and restrictions shall apply as are provided for business districts except that no manufacturing or treatment of products shall be carried on other than such as are incidental to the conduct of a retail business conducted on the premises, or such other manufacturing as is now permitted in a business district, provided that in such other manufacturing not more than five per cent (5%) of the total floor space of the building is so used. However, any use or uses specifically authorized under the provisions of §3 (10) shall be permitted in a retail district. In addition, dry cleaning establishments conforming to the provisions of §4(a) (53) shall be permitted in a retail district, provided such establishments are for retail purposes where services are performed directly for consumers or for transient hotels, or as an accessory use in transient hotels and department stores.

Section 4-B. Restricted Retail Districts. In a restricted retail district, the same regulations and restrictions shall apply as are provided for retail districts except, that in a restricted retail district no building or premises shall be used

and no building shall be erected which is arranged, intended or designed to be used for any of the following purposes:

(j) Dry cleaning establishments, other than an establishment conforming to the provisions of §4-A, which is located in a passenger terminal, or as an accessory use in a transient hotel or a department store.

Section 4-C. Local Retail Districts. In a local retail district, the same regulations and restrictions shall apply below the level of that first story ceiling as are provided for restricted retail districts, except that no manufacturing of any kind shall be permitted; and no building shall be erected or structurally altered which is arranged, intended or designed to be used above the level of the first story ceiling for any use not permitted in a residence district. However, the provisions of this section shall not apply to projects authorized pursuant to §3 (10) of this resolution. In addition, the provisions of §4-B(j) shall not apply, and dry cleaning establishments conforming to the provisions of §4-A shall be permitted in local retail districts.

Rule 1. Definitions.

For the purpose of these Rules, the following definitions shall apply.

1.1. The term "dry cleaning establishment" shall mean any room, place or space in which dry cleaning is performed, as defined in the Zoning Resolution.

1.1.1. Dry Cleaning establishments to which these Rules shall apply shall be divided into two classes: Class A and Class B.

1.1.2. Class A dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall be non-inflammable and non-combustible when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.3. Class B dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall have a flashpoint of not lower than 138.2 F. when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.4. For other purposes a dry cleaning establishment shall be as defined in Chapter 19 of the Administrative Code.

1.2. For the purposes of Sections 4-A and 4-C of the Zoning Resolution the terms "retail", "retail purposes" and "retail business" shall refer only to those dry cleaning establishments which perform services on articles conveyed directly by a retail customer to such dry cleaning establishment or collected directly from and delivered to the retail customer by any vehicle or any other means of effecting the same and such dry cleaning establishment directly processes such articles for such customer.

1.3. The term "existing" shall mean those dry cleaning establishments established prior to January 1, 1953.

1.4. The term "heretofore established" shall mean those dry cleaning establishments established on or after January 1, 1953 up until the effective date of these Rules.

1.5. The term "hereafter established" shall mean those dry cleaning establishments established after the effective date of these Rules.

1.6. The term "inflammable liquid solvents" shall mean such as will emit an inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in a tagliabue open cup tester.

PUBLIC HEARING

- 1.7. The term "spotting" or "sponging" shall mean the local application of an "inflammable liquid solvent" to remove spots of dirt, grease, paint or stains from wear-apparel, textiles, fabrics or articles of any other sort.
- 1.8. All other terms used shall be as defined in the Zoning Resolution, Administrative Code, Multiple Dwelling Law, or Labor Law, when not inconsistent with the specific terms defined herein.

Rule 2. Approvals and Affidavits.

- 2.1. It shall be unlawful to use any premises for any hereafter established dry cleaning establishments without filing plans of that portion of the premises to be so used with the Department of Housing and Buildings by either the owner, lessee or agent of such premises on forms customarily furnished by the Department and an approval of the Department of Housing and Buildings obtained thereon.
 - 2.1.1. Before the Department of Housing and Buildings shall approve any plans of such hereafter established dry cleaning establishment which are Class B dry cleaning establishments the Fire Commissioner shall approve the plans submitted to the Department of Housing and Buildings as required by Rule 2.1.
- 2.2. The proprietors or agents of any heretofore established cleaning establishment shall file with the Department of Housing and Buildings statements under oath on forms furnished by the Department of Housing and Buildings as to the aggregate dry load capacity of the dry cleaning unit or units and the gross floor area of said establishment used in accordance with the Zoning Resolution, Sections 4(a), 53(b), and Rules 3.1 and 3.2.
- 2.3. The requirements of Rules 2.1, 2.1.1 and 2.2 shall not apply to existing dry cleaning establishments. The requirements of Rule 2.2 shall not apply to those heretofore established dry cleaning establishments which have previously obtained approvals on plans from the Department of Housing and Buildings where information substantially similar to that required to be furnished under said Rule 2.2. is on file with the said Department of Housing and Buildings.
- 2.4. All premises which contain existing dry cleaning establishments as well as all heretofore established and hereafter established dry cleaning establishments complying with the provisions of Rules 2.1, 2.1.1, 2.2 and 2.3 shall not be required to obtain a special certificate of occupancy relating to the use of the premises for a dry cleaning establishment.
- 2.5. No dry cleaning unit shall be installed six months after the effective date of these Rules unless such unit is approved by the Board of Standards and Appeals or unless an application for approval of the cleaning unit is filed with the Board of Standards and Appeals and a calendar number issued in connection therewith and a statement under oath is filed by the proprietor of the dry cleaning establishment or his agent that the dry load capacity of such dry cleaning unit is not greater than sixty pounds as defined below in Rule 2.6.
- 2.6. The dry load capacity of all dry cleaning units for the purpose of these rules and the Zoning Resolution shall be rated by the Board of Standards and Appeals on the basis of 2.8 pounds per cubic foot of the volume of the washing compartment for each washing cycle.
- 2.7. No dry cleaning solvent shall be used six months after the effective date of these Rules unless such solvent has been tested and rated by the Fire Commissioner or unless an application for such testing

and rating of such dry cleaning solvent is made with the Fire Commissioner.

- 2.7.1. It shall be unlawful to use any dry cleaning solvent in any dry cleaning unit having a flash-point other than that for which the dry cleaning unit is designed.

- 2.8. Except as otherwise expressly required by these Rules, nothing shall require any change in the construction, use of occupancy of any existing dry cleaning establishment or any change in the construction, use or occupancy in any heretofore established dry cleaning establishment which conforms with Sections 4(a), 53(a), (b) and (c), and Sections 4 (A), 4 (B) and 4 (C) of the Zoning Resolution adopted by the City Planning Commission on January 21, 1953.
- 2.9. No non-conforming existing dry cleaning establishment shall be enlarged or extended unless such extension or enlargement be made in a conforming manner.

Rule 3. Restrictions on Locations and Areas.

- 3.1. No dry cleaning establishment which is a heretofore established dry cleaning establishment or a hereafter established dry cleaning establishment shall have a gross floor area exceeding the aggregate of 2,000 square feet to be used for dry cleaning, pressing and incidental operations as well as space used for storage, service of customers and the convenience of employees. The square foot area limitation shall apply to the aggregate of all space so used on all floors and mezzanines of the premises involved above the cellar or basement thereof. Additional space may be used on a lower floor which is either a basement or cellar provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles. The use of such basement or cellar area may include the installation and use of a boiler, dead or cold storage, storage of supplies, storage and filtration of solvents and space utilized for specialized washing equipment.
 - 3.1.1. In calculating the gross floor area pursuant to Rule 3.1, the area restriction shall not include the area used by the non-dry cleaning operations of a multiple use type of service establishment where, in addition to dry cleaning, there may be a laundrette, shirt laundering, shoe repairing, tailoring and alteration of garments, fur cleaning and glazing, and fur storage.
- 3.2. No Class B dry cleaning establishment hereafter established shall be permitted within any building:
 - 3.2.1. which is of wood frame construction;
 - 3.2.2. which is classified as a public building pursuant to Section C-26-235.0 of the Administrative Building Code;
 - 3.2.3. any part of which establishment is within 20 feet of any public building.

Rule 4. Egress.

- 4.1. The means of egress in all dry cleaning establishments shall be in conformity with the applicable provisions of the building laws and regulations governing such establishments. In addition thereto, all establishments shall conform to the following:
 - 4.1.1. A three foot (3 feet 0 inches) wide aisle providing access from the main work area to the required means of egress shall be provided. Such required aisle shall not be obstructed by any fixed obstruction in any manner whatsoever.

PUBLIC HEARING

4.1.2. In all hereafter established dry cleaning establishments all required exit doorways shall be arranged to swing outwardly in the direction of the egress.

Rule 5. Fire Prevention—Class B Establishments.

All hereafter established Class B dry cleaning establishments shall comply with the following:

5.1. No power or heating boiler shall be permitted in the same area or space where dry cleaning units are located, whether on the cleaning floor or floors or cellar or basement level unless either

(a) the boiler or boilers shall be enclosed in a 3-hour unpierced masonry enclosure and entered only from the outer air; or

(b) the boiler or boilers shall be enclosed in a 3-hour masonry enclosure with a one-hour fire proof self-closing door which opens into a ventilated vestibule similarly enclosed and entered by a one-hour fire proof self-closing door opening onto the interior of the premises or establishment.

5.1.2. The ceiling of all such boiler rooms as required in Rule 5.1 and the adjoining entrance vestibule referred to in Rule 5.1.(b) above shall be fire-retarded with one-hour fire resistive material.

5.2. Non-fire proof enclosing partitions and ceilings of any such dry cleaning establishment shall be fire-retarded with one-hour fire resistive materials and doors or in lieu thereof with one approved automatic one-inch wet pipe sprinkler head located over the cleaning unit which shall have its source of supply from the house water system.

5.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a one-hour fire proof self-closing door or fire-proof window assembly.

5.4. Except as provided in Rule 5.1, there shall not be employed in any such dry cleaning establishment any device or apparatus employing flame or fire which is likely to produce an exposed spark except electric apparatus placed at least five feet above the floor, or approved type of "explosion proof electric motors". In such establishments all lighting shall be fitted with keyless sockets and all switches and receptacles shall be placed at least four feet above the floor. Nothing contained in this rule or Rule 5.1 shall prohibit the installation of any gas, oil or electric heating device of a type approved by the Fire Commissioner under such conditions as he shall prescribe.

5.5. All solvent used in the dry cleaning unit shall be either (a) received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system, or (b) received and stored in a tank or tanks in accordance with the rules of the Board of Standards and Appeals relating to the receiving and storing of fuel oils and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 6. Fire Prevention—Class A Establishments.

All hereafter established Class A dry cleaning establishments shall comply with the following:

6.1. No power or heating boiler having a grate area in excess of 3 square feet shall be permitted in the same area or space where dry cleaning units are located

unless such boiler or boilers shall be enclosed in a one-hour fire proof partition and entered by a one-hour fireproof self-closing door whether from the interior of the premises or establishment or to the outer air.

6.2. All ceilings of all such boiler rooms as provided in Rule 6.1 shall be fire-retarded with one-hour fire resistive material.

6.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a fireproof self-closing door or fireproof window assembly.

Rule 7. Fire Prevention—All Dry Cleaning Establishments.

All existing, heretofore established or hereafter established dry cleaning establishments whether Class A or Class B shall comply with the following:

7.1. The provisions of Section C-19.161.0 of Chapter 19 of the Administrative Code.

7.2. No smoking shall be permitted in any such establishment except Class A establishments where fewer than six employees are employed. Approved signs shall be conspicuously posted to that effect as directed by the Fire Commissioner.

7.3. It shall be unlawful to store any inflammable liquids or solvents in quantities aggregating more than five gallons without a permit as provided in Article 9 of Chapter 19 of the Administrative Code.

7.4. All inflammable liquids and solvents used for spotting and sponging shall be contained in approved individual metal containers not exceeding two-quart capacity each.

7.5. All sludge or residue removed from a dry cleaning unit shall be placed in a metal container not exceeding 55 gallons of capacity with a tight fitting cover and shall be removed from the premises and disposed of in a lawful manner.

Rule 8. Ventilation.

8.1. All hereafter established dry cleaning establishments whether Class A or Class B shall be equipped with adequate ventilation to provide four complete changes of air volume an hour of such establishments during the operation of any dry cleaning units.

8.2. All Class A dry cleaning establishments whether existing, heretofore established or hereafter established shall have sufficient ventilation so as to prevent an excessive concentration of solvent vapors in the dry cleaning establishment. An excessive concentration of solvent vapors shall be that which exceeds the average of 200 parts of solvent vapors per one million parts of air during any working day.

8.3. The direct equipment exhausts or vents of any hereafter established dry cleaning establishment whether Class A or Class B shall terminate to the outer air in the following manner:

(1) At least 7 feet above the roof or legal street grade of the premises in which said establishment shall be located, and

(2) the exhaust shall be under static pressure by reason of a mechanical fan and the terminal of the exhaust, shall be at least five feet from any legal ventilating openings if said legal ventilating windows or legal ventilating openings lie on the

Periodical Division
University of Illinois Library
Urbana, Ill.

PUBLIC HEARING

same plane as the said exhaust terminal and when the said legal ventilating windows, or other legal ventilating openings lie on a plane which faces in the direction of the exhaust terminal the said terminal shall be at least 10 feet away from the same.

- 8.4. In all Class A dry cleaning establishments whether existing, heretofore established or hereafter established, all solvent used in the dry cleaning unit shall either (a) be received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system; or (b) be received and stored in a tank or tanks and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 9. Operating Precautions.

- 9.1. A printed notice embodying these Rules shall be posted in a conspicuous place in all dry cleaning establishments whether of Class A or Class B or whether existing, heretofore established or hereafter established.

- 9.2. The proprietor of any Class A establishment whether existing, heretofore established or hereafter established, shall furnish to any person cleaning out a dry cleaning unit containing any chlorinated hydrocarbon solvent an approved type respirator for his use during the process of cleaning out any such unit.

- 9.3. All equipment shall be installed in such manner as to minimize noise, vibration, smoke, and odors, and other forms of nuisances to the occupants of the premises in which such cleaning establishment may be located or to the occupants of any adjacent premises.

Rule 10. Penalties.

Any violation of these Rules shall be subject to the penalties prescribed in the Zoning Resolution therefor, in addition to other penalties prescribed by law.

Rule 11. Date of Rules.

The effective date of these rules is (the date of actual adoption).

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

COURT DECISION

Matter of Conwall Corp'n. vs. Murdock:—On July 14, 1953, the Board denied an application under Sections 7e, 7f and 7i of the Zoning Resolution, to permit in a retail use district the erection and maintenance of a gasoline service station, lubricatorium, auto laundry (non-automatic), storage and sale of accessories, motor vehicle repairs and an office, and to permit the parking and storage of motor vehicles waiting to be serviced; Cal. No. 116-53-BZ; premises 162-11 to 162-29 Union Turnpike and 78-40 to 78-46—164th Street, northwest corner, Flushing, Borough of Queens.

At Special Term, Supreme Court, Mr. Justice Pette reversed the Board in the following decision:

"In this proceeding, brought pursuant to article 78 of the Civil Practice Act, respondents move for an order vacating an order of certiorari to review their determination affirming a decision of the borough superintendent of buildings denying petitioner's application to permit the subject property to be used as 'a factory to manufacture picture frames and kindred items.' The premises are located in a residence district. In 1919 the structure, a garage for more than five vehicles, was erected pursuant to a variance then granted. Further variances for non-conforming use were thereafter granted for limited periods of time, the last of which, in 1951, permitted the premises to be used until May 15, 1956, for the manufacture of venetian blinds. The record discloses that there has been no change in the character of the neighborhood, that is to say, structurally, and that there is no difference between the process employed in the manufacture of picture frames and kindred articles and the manufacture of venetian blinds. Indeed, the record discloses that the process employed in the manufacture of venetian blinds is more dangerous or deleterious than that employed in the manufacture of picture frames, &c. In view of the foregoing and the date upon which the certificate of occupancy last issued is to expire, the court is constrained to find that the respondents' determination is arbitrary and unreasonable. Accordingly the motion to dismiss is denied, the determination of the board is reversed and annulled and the borough superintendent of buildings is directed to issue a certificate of occupancy, as prayed, for a period ending May 15, 1956. Settle order."

(N.Y.L.J., August 4, 1954, p. 4.) (Bulletin October 12, 1954, page 1517).

Upon further court review, the appellate Division reversed the order at special term on the law and the facts with \$50.00 costs and disbursements. Dismissed the proceeding and reinstated and confirmed the determination of the Board of Standards and Appeals. The court stated in part, citing cases, "There was a reasonable basis for the action of the Board in harmony with the general purposes of the zoning resolution"—"Its determination has support in the evidence and is not arbitrary"—"The court may not substitute its judgment for that of the Board's"—"The mere fact that similar permits were granted to others in the same locality affords no valid reason for insisting on the issuance of a permit for a special exception use in this case." (New York Law Journal March 8, 1955).

APPLICANT—A. L. Andujar, for Porter Holding Corp., owner, The Texas Company, lessee.

SUBJECT—Application November 4, 1954 (decision of the borough superintendent), under sections 7c, 7i and 7h of the zoning resolution, to permit in a business use district the reconstruction and extension of existing gasoline service station (previously granted by the Board), to include additional uses of auto laundry (non-automatic), motor vehicle repair shop and the parking of motor vehicles waiting to be serviced.

PREMISES AFFECTED—220-06 Northern boulevard, south side, from 220th street to 220th place, Block 7473, Lot 1, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on November 16, 1954 subject to regular procedure, to consider reconstruction and extension; and

WHEREAS, a public hearing was held on this application on February 1, 1955 after due notice by publication in the Bulletin; laid over to March 1, 1955, for inspection and decision, without further argument, hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Northern boulevard are in a business use, D area, class 1 height district; 220th street and 220th place are in residence and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 11, 1954 acting on N.B. Applic. 1868-54, reads:

"1. The reconstruction and extension in area of an existing gasoline service station and lubritorium previously granted by the Board of Standards and Appeals under Cal. #202-30-BZ and to include the additional uses of auto laundry (non-automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service in a business use district is contrary to Art. II Sec. 4a (Sub. div. 15, 29, 46) of the Zoning Resolution and also contravenes the resolution of the Board of Standards and Appeals under aforementioned Calendar number."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. frontage by 93.24 ft. in depth, irregular, on which is located a gasoline service station and used car lot; that it is proposed to reconstruct and extend in area the gasoline station and lubritorium and to include additional uses of auto laundry (non-automatic), minor auto repair shop with hand tools only and the parking of motor vehicles awaiting service; and

WHEREAS, the applicant states that the present owner has held title to the property since June 8, 1925; that the assessed valuation of land is \$26,000 and of the building \$10,500 making a total of \$36,500; that the building was erected 1934; and

WHEREAS, the applicant has changed the basis of his application from Section 7c to Section 7f of the zoning resolution; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; the committee is aware that part of the site was permitted by the Board under Vol. I of this calendar number and that the whole block front has been and still is in single ownership; the committee recommends that the application be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of fifteen years, to permit the extension of the existing gasoline service station to the area as indicated on plans marked "Received November 4, 1954", 4 sheets, and "December 21, 1954", one sheet, *on condition* that all existing buildings and uses shall be removed and the premises shall be leveled substantially to the grade of Northern boulevard and rearranged and constructed as indicated on such plans showing proposed conditions; that the accessory buildings shall be of the design indicated except that the exterior shall be faced with face brick, masonry or other ashlar material of a type that may be approved by the Board for this site; that there shall be no cellar in such building; that the pumps shall be erected not nearer than 15 feet to the street building line and shall be of a low approved type; that the number of gasoline storage tanks shall be limited to twelve 550 gallon approved tanks; that planting areas shall be maintained where shown with suitable planting and protected with curbs not less than 6 inches in height above grade and 6 inches in width; that along the rear lot line where wall of the accessory building does not occur there shall be erected a masonry fence not less than 5 ft. 6 in. in height; that the balance of the premises shall be paved with concrete or asphaltic paving; that curb cuts shall be restricted to four to Northern boulevard, each not over 30 feet in width, one curb cut 20 feet in width to 220th place and one curb cut 20 feet in width to 220th street; that such 20 ft. curbs cut shall be within the first 25 feet from the intersection of Northern boulevard; that the sidewalks and curbs around the premises shall be reconstructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all temporary signs and roof signs, but permitting the erection at the intersection of Northern Boulevard and 220th street of a post

MINUTES

standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, and permitting such sign to extend beyond the building line for a distance of not over 4 feet; that under section 7i there may be minor repairs carried on within the accessory building only and performed with hand tools only; that under section 7h for a similar term there may be parking and storage of cars on the premises, located so as not to interfere with the service of the station; that along the building line of 220th place and 220th street there shall be constructed a masonry wall similar to the one required for the rear lot line and extending for a distance along either street of approximately 65 feet; that such walls shall have suitable terminating posts; that such portable firefighting appliances shall be maintained as the Commissioner shall require; and that all permits required shall be obtained including a certificate of occupancy and all work completed within the requirements of Section 22A of the zoning resolution.

509-38-BZ—Vol. II

APPLICANT—Alexander H. McPhee, for Tide Water Associated Oil Co., owner, Otto Strebel, lessee.

SUBJECT—Application November 12, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence and local retail use district the extension to accessory building on existing gasoline service station (previously granted by Board) reconstruction of existing gasoline service station, to be used as lubritorium, auto laundry and office.

PREMISES AFFECTED—202-01 Rocky Hill road, northeast corner of 202nd street, Block 5561, Lots 10, 13 and 62, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Joseph Mitchell and Otto Strebel.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly	3
Negative	0
Absent: Commissioner Keating	1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on December 7, 1954 subject to regular procedure, to consider reconstruction and extension; and

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Rocky Hill road and 202nd street are in residence and local retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 26, 1954 acting on Alt. Applic. 2497-54 and superseded by Alt. Applic. 2497-54 dated January 10, 1955, reads:

"1. The extension of the use of the premises as a gasoline service station and lubritorium does not conform with the Board of Standards and Appeals decision under Cal. #509-38-BZ and is referred back to the Board for reconsideration.

2. The use of the premises as a gasoline service station and lubritorium on a lot partly in a Residence Use District and partly in a Local Retail Use District is contrary to Art. II Sec. 3 and Art. II Sec. 4-c of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 62.19 ft. frontage by 81.40 ft. in depth, irregular; that it is improved with one class 3 building with the masonry walls finished on the exterior sides with a smooth stucco;

that the interior is arranged with office, lubritorium, boiler room and washrooms; that the building is 27 ft. 4 in. in depth by 42 ft. 6 in. long and 14 ft. high set at the rear of plot (easterly section); that it is proposed to erect an addition to the north side of the present building of the same height and style, to be used for minor repairs, greasing and washing; that this would allow the station to keep its facilities in a more orderly manner and be able to serve the neighborhood at all times regardless of the weather; and

WHEREAS, the applicant contends that the site has been owned by the Tide Water company since 1937 and has been occupied and used as a gas station since 1923, being operated by consent of the Board under Cal. No. 509-38-BZ and certificate of occupancy No. Q-3566 issued June 21, 1939; and

WHEREAS, the applicant states that the owner has held title to the property since April 14, 1937; that the assessed valuation of land is \$15,500 and of the building \$14,500 making a total of \$30,000; that the building was erected in 1938.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted by the Board on November 1, 1938, by adding thereto:

"that in the event the owner desires to extend the accessory building, as heretofore permitted, and as now proposed and indicated on plans filed with this application marked, 'Received, November 12, 1954' (5 sheets), such extension to the accessory building, for use as a wash bay and additional lubritorium may be constructed provided the design and arrangement and general construction shall be similar to the existing building; that there shall be no cellar under the proposed extension and no opening on the rear wall to the premises in the rear; that in all other respects the resolution adopted by the Board on November 1, 1938, shall be complied with where not inconsistent with the terms of this amended resolution; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

175-45-BZ—Vol. III

APPLICANT—Lama, Proskauer and Prober, for William G. Stroh, owner.

SUBJECT—Application January 22, 1952 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence use district the change in occupancy from business on 1st floor and office on 2nd floor (previously granted by the Board), to storage in cellar, shipping, receiving, packing, cutting and refrigeration of meats on 1st floor, and packing, shipping and refrigeration of meats on 2nd floor.

REMITSES AFFECTED—126-128 Sheriff street and 403-405 East Houston streets, southeast corner, Block 335, Lot 10, Borough of Manhattan.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: C. J. Cammarata for N. Y. C. Housing Authority and H. Appelstein.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly.....	4
Negative	0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on February 13, 1952 subject to regular procedure, as to extension of use; and

WHEREAS, a public hearing was held on this application on February 1, 1955 after due notice by publication in the Bulletin; laid over to March 1, 1955, for inspection and decision without further argument; hearing closed; and

MINUTES

WHEREAS, under Vol. I, on July 24, 1945 the Board granted this application under section 7c to permit in a residence use district the extension of business use existing on 1st story, to the 2nd story, on condition that 2nd story shall be used for office work only in connection with use on 1st floor; that portion of building 4 stories in height shall be reduced to 2 stories; that all extensions beyond line including conveyor track and fire escape shall be removed; that front of building shall be painted or stuccoed on both Sheriff and East Houston streets; that the requirements have been carried out; and

WHEREAS, on September 24, 1946, time to obtain permits and complete the work was extended; and

WHEREAS, on January 20, 1948 application was reopened as Vol. II and time extended to complete and also reopened subject to the usual procedure; and

WHEREAS, on April 13, 1948 the Board denied application under sections 7c and 21; and

WHEREAS, on February 13, 1952 the Board reopened the application as Vol. III subject to regular procedure, to consider as to extension of use; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Sheriff street are in a residence use, D area, class 1 height district; East Houston street is in residence, retail and local retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent acting on Alt. Applie. 1021-51 dated January 17, 1952 and superseded by a decision dated December 15, 1954, reads:

"C1. Storage, meat packing and cutting, refrigeration, shipping, receiving and office use in a building located in a residence use district contrary to Art. II Sec. 3 Z.R.

C2. Proposed refrigeration machinery to be located in existing unoccupied space is an extension to a non-conforming use in a residence use district and is contrary to Art. II Sec. 3, Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. and 76 ft. frontage by 76 ft. in depth, on which is located a two story building known as 126-128 Sheriff street, altered in 1943 under Alt. 505-43, to use the 1st floor as a store and the 2nd floor to be vacant; that the premises are also developed with a two story building known as 403-405 East Houston Street, originally 4 stories in height; that the earliest records disclose Alt. 1988 of 1909 and Alt. 631 of 1930 to use the 1st floor for stores and the upper 3 floors for six families in each building; that all of the buildings were later altered under Alt. 753 of 1944, Alt. 754 of 1944 and a variance by the Board under Cal. No. 175-45-BZ permitted the 1st floor to be used for business use and the second floor for office work; that the 3rd and 4th floors were removed in 1954; that it is proposed to occupy the buildings as follows: cellar—storage; 1st floor—shipping, receiving, packing, cutting and refrigeration of meats; 2nd floor—packing, shipping and refrigeration of meats, and offices; that it is also proposed to alter the building by enclosing the present 3 ft. wide iron stairs leading from the 2nd floor to the street and erect new labor law fire escapes on Sheriff street and East Houston street; and

WHEREAS, the applicant contends that although the site is in a residential zone there are many non-conforming uses in the residential part of the affected area, as follows: block 371, lot 59—store; block 371, lots 20, 19 and 17—stores; block 372, lots 53, 52 and 51—stores; block 335, lots 6, 7, 8 and 9—stores; block 335 lots 17, 18 and 19—stores; that a good portion of the affected area in blocks 335, 356 and 372 is also in a retail district; that the street is not residential in aspect and the proposed extended use is entirely in keeping; that the building has a present legal business use and therefore the area will not be affected; and

WHEREAS, the applicant states that the present owner has held title to the property since December 8, 1950; that the assessed valuation of land is \$18,500 and of the buildings \$28,500 making a total of \$47,000; that the buildings were erected 1909; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, which considered that these premises are likely to be taken in conjunction with adjoining premises for a housing development, and the committee recommended that the application be granted for a temporary term under certain conditions;

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 24, 1945, by adding thereto:

"that for a term of two years or until such time as the premises are acquired for a housing development, the second floor may be occupied as proposed and as indicated on plans filed with this application marked 'Received December 16, 1954', 8 sheets, on condition that the use of the second floor and exits therefrom shall be as indicated on such plans showing proposed conditions and meeting the exit requirements as to which Cal. No. 964-54-A was filed and withdrawn this day; that in all other respects the requirements of the resolution adopted by the Board under Vol. I on July 24, 1945 shall be complied with where not inconsistent with this amendment; and that all permits, including a new certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution."

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 25, 1954 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on January 18, 1955 after due notice by publication in the Bulletin; laid over to March 1, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 17th avenue are in a residence use, A area, class 1½ height district; Cropsey avenue is in residence and business use, A area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated April 8, 1954, acting on Alt. Applic. 36-54, reads:

"1. Changing occupancy from lubritorium, laundry, office & gasoline service station to lubritorium, car washing, minor auto repairs, wheel alignment, brake testing, office, gasoline service station & parking and storage of more than five motor vehicles, and extending building in a residential use district is contrary to Art. II Sect. 3 of Zone Resolution. Refer to Cal. #25-46-BZ."

and

WHEREAS, the applicant states that the premises consist of a plot having a frontage of 108 ft. 11¾ in. on Cropsey avenue, 115 ft. 4¾ in. on 17th avenue, 118 ft. 3 in. on the southerly lot line and 115 ft. on the easterly lot line; that the use district maps accompanying the building zone resolution show that the premises are in a class A area district, a class 1½ height district and a residence use district; that as of July 25, 1916 that part of the premises within 100 ft. of Cropsey avenue was in a business use district and the remainder in a residence use district; that the present use designation became effective on July 29, 1940; and

WHEREAS, the applicant further states that the premises are presently developed with a gasoline service station consisting of four 550 gallon gas tanks, six dispensing pumps and one 550 gallon refuse oil tank; that the premises are also developed with a one story building of class 3 construction having a frontage of 33 ft. and a depth of 65 ft., which is now being used for lubritorium, car washing, minor auto repairs, wheel alignment, brake testing and office; that the open portion of the lot is being used for the parking and storage of motor vehicles; that the premises are also developed with a metal building 12 ft. by 20 ft., illegally erected; that the original gas station, having a frontage of 28 ft. 4¾ in. and a depth of 115 ft. 4¾ in. was erected before 1925; that the gas station was rebuilt under N. B. Applic. 1208-45 and Cal. No. 25-46-BZ, as a gas station, lubritorium, car wash and office, for which certificate of occupancy No. 119234 was issued December 10, 1947; and

WHEREAS, the applicant states that it is proposed to extend the present gas station to a frontage of 108 ft. 11¾ in. on Cropsey avenue with a depth of 115 ft.; that it is further proposed to maintain the present 33 ft. by 65 ft. one story building, to be used as a lubritorium and office, and to erect a new 40 ft. by 65 ft. one story masonry building of class 3 construction, to be used for wheel alignment, brake testing, car washing and minor auto repairs; that it is also proposed to use the easterly portion of the site for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that Cropsey avenue is a highly trafficked auto lane, so that the proposed extension is entirely within keeping at this point; that the entire block on which the gas station is located is vacant, except for a shed, so that the extension would not adversely affect the block; that the pumps will be relocated to 10 ft. back of the 17th avenue building line as well as the Cropsey avenue building line; that a 2 ft. high brick fence with a 3 ft. 6 in. iron railing enclosing the property along the southerly and easterly lot lines will be erected; and

WHEREAS, the applicant states that the present owner has held title to parcel A since August 21, 1947; parcel B, August 30, 1947 and to parcel C since March 18, 1954; that the

assessed valuation of land is \$15,900 and of the building \$22,000 making a total of \$37,900; that the building was erected 1947; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which recommended that the application should be granted on condition.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 9, 1946, by adding thereto:

"that in the event the owner desires to extend the area of the premises, as proposed and as indicated on plans filed with this request for amendment marked 'Received April 30, 1954', 5 sheets, such extension may be permitted under section 7 subdivision c and the premises may be rearranged, as proposed and shown on such plans, *on condition* that the extended portion shall be graded substantially to the grade of Cropsey avenue; that there shall be erected on the interior lot line to the east from Cropsey avenue to the rear lot line, a masonry wall, as proposed, consisting of a two foot high brick wall with steel picket fence above to a total height of 5 feet, 6 inches; that a similar wall shall be erected along the rear lot line, where walls of existing or proposed buildings do not occur; that the proposed building extension shall comply with the requirements of the Building Code; that there shall be no cellar under such extension; that any openings in the rear wall shall be filled with glass blocks as approved for exterior walls; that openings may be constructed to the existing building where shown; that the design of such building shall be as indicated on such plans; that signs may be permitted on such extension as indicated and that in all other respects the requirements of the resolution as adopted on July 9, 1946, shall be complied with where not inconsistent with this resolution and that terms thereof where applicable shall apply to the extended area; that no pumps shall be erected nearer than 15 feet to the street building line, except where pumps in locations previously permitted exist; that curb cuts to Cropsey avenue shall be of the width shown on plans of proposed conditions; that no curb cut shall be nearer than 5 feet to any lot line as prolonged; that the curb cut to 17th avenue may be continued as previously permitted 30 feet in width; that sidewalks and curbing abutting the premises shall be repaired or reconstructed to the satisfaction of the borough president; that repairing may be permitted as now proposed within the extension of the building; provided all such repair work is done entirely within the building and not in the open area; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall require; that parking under the same section may be permitted in areas indicated on plans; that the premises where unbuilt upon shall be paved as proposed; that all buildings and uses not specifically permitted, shall be removed and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

659-50-BZ—Vol. III

APPLICANT—Kitzler and Nurick, for Jericho Sash and Door Co., owner.

SUBJECT—Application reopened February 8, 1955 as Vol. III—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a business use, C area District, the erection of an additional building into part of driveway (previously granted by the Board for 15 years permitting woodworking equipment within the building) using more than the area permitted and with more than one building on the lot.

PREMISES AFFECTED—251-61 to 251-71 Jamaica avenue, north side, 200 ft. 9 in. west of Little Neck parkway, Block 8668, Lot 118, Bellerose, Borough of Queens.

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, on February 6, 1951, this application (Vol. I) was granted by the Board on certain conditions under section 7e of the zoning resolution, to permit in a business use district, for a term of fifteen years, woodworking equipment limited to rip saw and a cross cut saw maintained within the building, for incidental use as proposed; and

WHEREAS, under Vol. II on March 23, 1954, resolution was amended to permit construction of an additional building for the storage of lumber, moldings and trim; and

WHEREAS, on September 21, 1954 resolution was amended to permit width of new building to be increased from 18 ft. to 20 ft.; and

WHEREAS, the applicant requested reopening of this application and a further amendment of the resolution; and

WHEREAS, this application was reopened on February 8, 1955 and set for hearing on March 1, 1955 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin, new photographs and plans; and

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated January 4, 1955 acting on N.B. Applic. 3875-53 reads:

"1. The proposed changes in construction are contrary to the decision of the B.S. & A. as of Sept. 21, 1954. This amendment must be submitted to the B.S. & A. for approval."

and

WHEREAS, the applicant states that amendments for changes in plans affecting these premises were filed in the department of housing and buildings, Queens, and were denied, and it is now requesting that the Board consider the following changes: that on the 1st floor it is proposed to enlarge office to provide toilet, make entrance on street and relocate stairway to 2nd floor; that on the 2nd floor it is proposed to provide doorways at rear for loading directly from railroad cars, and also to provide three sliding doors instead of eight, to reduce hazard from unloading; that it is further proposed to install girder and brickwork to connect this building with existing building, to indicate that both are under one ownership and operation; that the envelope or dimensions of the building have not been altered.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted by the Board under Volume I, on February 6, 1951, and as amended by resolution adopted under Volume II on March 23, 1954, and September 21, 1954, by adding thereto:

"that in the event the owner desires to make changes in the arrangement, as proposed and as indicated on plans filed with this request for amendment marked, 'Received, January 17, 1955' (2 sheets) and 'January 5, 1955 (1 sheet)'; that such changes may be made as therein proposed on condition that the requirements of the resolutions above cited shall be complied with in all other respects where not inconsistent with this amended resolution; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

667-50-BZ—Vol. III

APPLICANT—Charles M. Spindler, for C. R. T. Holding Corporation, owner.

SUBJECT—Application October 25, 1954 (decision of the borough superintendent), under sections 7e and 7i of the zoning resolution, to permit in a residence, retail and business use district, the further extension in use and area of existing auto laundry and gasoline service station (previously granted by the Board for ten years—expires 1961), sale of auto accessories and parking and storage of more than five motor vehicles, and to permit the extension of existing accessory building to include use as safety inspection station, lubritorium, motor vehicle repair shop, brake testing and wheel alignment, storage and sale of accessories, and office, and to permit the parking and storage of motor vehicles.

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. III on November 23, 1954 subject to regular procedure, to consider extension of use; and

WHEREAS, a public hearing was held on this application on January 18, 1955 after due notice by publication in the Bulletin; laid over to January 25, 1955, at request of objector; applicant concurring; then to February 23, 1955, for inspection and decision without further argument; hearing closed; then to March 1, 1955, for applicant to file revised plans and for further consideration by the Board; hearing previously closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Reeder street are in residence, retail and business use, C area, class 1½ height districts; Queens boulevard is in business and retail use, C area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated October 11, 1954 acting on Alt. Applic. 2119-54, reads:

"1. Proposed extension to be used as a safety inspection station, motor vehicle repair shop, lubritorium, office & storage, brake testing & wheel alignment & proposed extension in area of plot now occupied as an auto laundry, gasoline service station, office & sales of auto accessories & parking & storage of more than five (5) motor vehicles, on a plot located in a business, residence & retail use district is contrary to Art. II Sec. 3, 4A & 4(a) (29) of the Zoning Resolution. Alt. to previous application granted by the B. S. & A. under Cal. #667-50-BZ should be referred back to the board for reconsideration."

and

WHEREAS, the applicant states that the premises consist of a plot, 99.71 ft. frontage by 201.97 ft. in depth; that this plot originally contained an auto laundry constructed in 1947, at which time the entire premises was in a business use district, and when auto laundries were a permissible use in a business district; that under Cal. No. 667-50-BZ, Vol. I, the Board permitted the construction of a gasoline station on the unbuilt upon portion of the plot along Queens Boulevard; that under Cal. No. 667-50-BZ, Vol. II, the Board permitted a rear extension to the auto laundry building and also permitted an extension in area of the lot; that all of the above

MINUTES

work has been completed and certificate of occupancy No. Q89730 was issued on June 9, 1953, covering the present plot with a frontage of 161.97 ft. on Reeder street; that it is proposed to construct a one story masonry side extension to the existing auto laundry building; that this extension is designed as a safety inspection station to perform the compulsory motor vehicle inspections and the necessary repairs, to comply with the recently adopted New York State motor vehicle law which becomes effective in 1955; that the dimensions of the proposed extension have been determined by a study of the most efficient method of operation in existing state inspection stations in adjoining states having such a law; that in addition to the inspection facilities, space is being provided for the necessary repairs and adjustments to comply with motor vehicle law requirements, and for lubrication, offices and rest rooms; and

WHEREAS, the applicant contends that in order to provide driveway space for entrance to the auto laundry and safety inspection stations, it is proposed to include in the site an additional lot at the rear with a frontage of 40 ft. on Reeder street; that it is also proposed to extend the present 5 ft. 6 in. high face brick fence wall along the Reeder street frontage of this lot; that the interior lot lines of this plot will be fenced with an 8 ft. high metal fence; that there will be no additional curb cuts on either street under the present proposal; that this additional lot will be paved and will be used as a driveway and parking space for cars awaiting service; that it is also proposed to rearrange the present gas pumps so as to provide ease of access to the proposed extension and driveway space; that the proposed extension will be stuccoed on the exterior to match the present auto laundry building; that the repairing herein proposed will be solely the type of work required for compliance with the state motor vehicle law; that no body or fender work will be done and there will be no painting or spraying, nor will there be any welding or burning; and

WHEREAS, the applicant states that the entire premises was a business use district until April 20, 1953, and on that date that portion of the premises more than 100 ft. from Queens boulevard and within 100 ft. of Reeder street, was changed from business to residence; that on the same date, the small portion of the site more than 100 ft. from Reeder street was changed to a retail use district; that in view of the fact that the proposed extension will provide a servicing facility required by the state motor vehicle law and since the proposed extension will be confined to the plot covered by the present certificate of occupancy with no additional entrances or exits on either street, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to part of lot 41 since June 20, 1947 and to the other part of lot 41 since August 20, 1951; lot 48 since November 7, 1952 and lot 51 since June 3, 1953; that the assessed valuation of land is \$55,300 and of the building \$23,000 making a total of \$78,300; that the building was erected in 1947; and

WHEREAS, this application was laid over for inspection by a committee of the Board; inspection has been made on several occasions; the applicant was asked to file revised plans showing the proposed building against the wall on the Reeder Street building line, for study by the Board, such plans have been submitted and the matter was thoroughly canvassed and the committee recommends that the application should not be granted, as in the opinion of the committee the proposal is unsound for the plot.

Resolved, that the decision of the borough superintendent, acting on Alt. Applic. 2119-54 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

544-52-BZ

APPLICANT—Abram Shlefstein, for Joseph I. Lubin and Joseph Eisner, owners.

SUBJECT—Application reopened February 8, 1955 for consideration as to extension of term of variance—re (de-

cision of the borough superintendent), previously granted on condition, under section 7h of the zoning resolution, permitting in a restricted retail use district, the parking and storage of more than five motor vehicles.

PREMISES AFFECTED—336-452 East 45th street and 797-803 First avenue, southwest corner, Block 1337, Lots 28 to 33, 129 and 130, Borough of Manhattan.

APPEARANCES—

For Applicant: Abram Shlefstein.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-ert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, on December 16, 1952, this application was granted by the Board on certain conditions under section 7h of the zoning resolution, to permit in a restricted retail use district, for a term of two years, the parking and storage of more than five motor vehicles; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation December 16, 1954; and

WHEREAS, this application was reopened on February 8, 1955 and set for hearing on March 1, 1955 at 10 A.M., subject to the regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated February 3, 1955 acting on amendment to Alt. Applic. 734-52, reads:

"1. Storage or parking of more than five motor vehicles in a Restricted Retail Use District is contrary to Art. II, P. 4B of the Zoning Resolution."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on December 16, 1952, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"* * * *granted* under Section 7, subdivision h for a term of five years from the date of this amended resolution to permit * * *; that other than as herein amended the resolution above cited shall be complied with in all respects; and that all permits and a new Certificate of Occupancy shall be obtained within six months from the date of this amended resolution." (Alt. App. 734-52.)

469-54-BZ

APPLICANT—Herman E. Horwood, for Kesbec, Inc., owner, Ernie's Auto Body & Fender Service, lessee.

SUBJECT—Application June 9, 1954 (decision of the borough superintendent), under section 7i of the zoning resolution, to permit in a business use district the change in occupancy from gasoline service station and thirteen one-car non-storage garages, to gasoline service station, seven one-car non-storage garages and motor vehicle repair shop (six one-car non-storage garages).

PREMISES AFFECTED—1035 East 156th street and 756-758 Southern boulevard, northeast corner, Block 2729, Lot 50, Borough of the Bronx.

APPEARANCES—

For Applicant: H. E. Horwood.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on November 30, 1954 after due notice by publication in the Bulletin; laid over to January 11, 1955, for inspection and decision; hearing closed; then to February 1, 1955, for applicant to report to the Board as a possibility of rebuilding the entire station; hearing previously closed; then to March 1, 1955, for applicant to submit revised plans; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Southern boulevard are in a business use, B area, class 1½ height district; East 156th street is in business and unrestricted use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated May 25, 1954 acting on amendment to Alt. Applic. 134-54, reads:

"1. Proposed change in occupancy of present gasoline service station, office and 13 non storage garages for 13 motor vehicles to gasoline service station, office and 7 non storage garages for 7 motor vehicles and motor vehicle repair shop is contrary to Art. II Sec. 4(a) 29 Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 100 ft. in depth on which is located a gasoline service station, office and thirteen one-car non-storage garages, for which certificates of occupancy Nos. 2167-41, 2168-41, 2169-41 and 2170-41 have been filed; that it is proposed to permit the continuance of the motor vehicle repair shop (body and fender repairs) in the space indicated on plan submitted with this application, said space having been formerly used as six of the 1-car garages covered by certificates of occupancy Nos. 2168, 2169 and 2170, these garages being constructed of metal on steel framing; and

WHEREAS, the applicant states that the present occupant has conducted this body and fender repair shop in these premises since he was discharged from the Army in 1946 and he was not aware of the fact that this use was prohibited until he received violations; that in the meantime he has built up a clientele from the surrounding garages, auto salesrooms and private owners and it would be a great hardship if he were compelled to leave this location; that this use can have no adverse effect on the surrounding premises as the adjoining uses to the north, south and east are given over to garages, etc., and while Southern boulevard is zoned for business this east side of Southern boulevard is occupied almost solidly by non-conforming uses as follows: block 2729, lots 9, 12, 19 and 21 extending south from East 156th street and lots 52 and 58 adjoining to the north having apparently been granted by the Board; that permission is requested for the continuance of the body and fender repair shop, with not more than five cars at any time; and

WHEREAS, the applicant states that the present owner has held title to the property since September 8, 1925; that the assessed valuation of land is \$27,000 and of the building \$2,000 making a total of \$29,000; that the buildings were erected 1925; and

WHEREAS, it appears that the owner proposes to rebuild the entire station later and possibly within a year; that the station is now an agency which rents out the motor vehicle repairing privilege; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision i of the Zoning Resolution for a temporary term pending an application to be filed for consideration as to rebuilding the entire station.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district

regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7i for a term of two years, to permit motor vehicle repairing as proposed, to be carried on within the former one-car nonstorage garages, as indicated on plans filed with this application marked "Received June 9, 1954", 3 sheets, *on condition* that no repairing shall be carried on except in such buildings where partitions are to be removed, as shown on plans; that such repairing shall be done with hand tools only; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that no signs shall be erected advertising the repair work except there may be a flat sign not exceeding 25 square feet in area attached to the building, facing East 156th street, excluding all roof signs and temporary signs; and that all permits required, including a new certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

687-54-BZ

APPLICANT—Charles M. Spindler, for Louis and Kathleen Pillari, owners.

SUBJECT—Application August 17, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a retail use district the reconversion of building from factory, office and laboratory, to storage garage for more than five motor vehicles and offices.

PREMISES AFFECTED—11-06 to 11-08 30th avenue and 9-40 Main avenue (street), southwest corner, Block 507, Lot 31, Astoria, Borough of Queens.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Opposition: C. J. Cammarata for N. Y. C. Housing Authority.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klein-
ert and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 15, 1955 after due notice by publication in the Bulletin; laid over to March 1, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Main avenue and 30th avenue are in a retail use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated July 21, 1954 acting on Alt. Applic. 1122-54, reads:

"1. Proposed reconversion of bldg. from a factory office, laboratory to a storage garage for more than 5 motor vehicles & offices in a retail use district is contrary to Art. II Sec. 4A of the Zoning Resolution.

Note: This bldg. was constructed as a garage under N.B. 5906/19 & later converted to a factory under Alt. 2130/46."

and

WHEREAS, the applicant states that the premises consist of a plot, 82.15 ft. frontage by 89.51 ft. in depth, irregular, on which is located a building, partly one story and partly two stories in height, constructed under N.B. 5906-19 and for which certificate of occupancy No. 1903 was issued May 27, 1921; that the legal occupancy under this certificate of occupancy was garage on 1st floor and dwelling on 2nd floor; that the premises were located in an unrestricted use district when the certificate of occupancy was issued; that under Alt. Applic. 2130-46 the use of the premises was changed from garage to factory and offices on the 1st floor; that certificate of occupancy No. Q-46073 was issued on March 22, 1948 for this change in occupancy; that under Alt. Applic. 604-50 the use of the 2nd floor was changed

MINUTES

from dwelling to offices and laboratory, but no certificate of occupancy has been issued for this change; that it is proposed to restore the 1st floor to its original occupancy as a storage garage for more than five motor vehicles and offices and to maintain the office use on the 2nd floor; that no physical change of any kind is proposed in the building with the exception of installing gasoline pumps and re-using present gas tanks, which have remained buried under the floor but were discontinued when the occupancy was changed to a factory; and

WHEREAS, the applicant contends that the entire property was located in an unrestricted use district from 1916 until July 19, 1951 at which time the use zone was changed to retail; that the change in occupancy to factory was a temporary one, for the use of a particular tenant and since the zone was unrestricted at that time, the owner assumed that he could restore the garage use when the factory tenant vacated the premises; that when the present owner acquired the property, he purchased it solely for use as a garage; that he checked the building department records and found the original certificate of occupancy for garage use and relying upon this, he acquired the property before learning of the later certificate of occupancy; that because of the city housing project to the west of the site, there is a demand for garage space in this area and the owner purchased this building to satisfy this demand; that the garage use will be confined entirely to the one story portion of the building; that there are numerous non-conforming uses in the area, including a gas station and repair shop opposite the site in block 513, lot 15; that there is also a live poultry market in block lot 4 and a factory in block 508, lot 20; that immediately adjoining the site to the east is a small dilapidated garage in block 507, lot 36; that in view of the fact that the building was legally constructed as a garage and was occupied under a certificate of occupancy for more than 25 years, it is requested that this application be granted to permit the reconversion of the 1st floor to the original garage use; and

WHEREAS, the applicant states that the present owner has held title to the property since April 30, 1954; that the assessed valuation of the land is \$7,000 and of the building \$13,000 making a total of \$20,000; that the building was erected 1919; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted to restore the building to its former use as a storage garage; and

WHEREAS, the applicant states that the building is owned by the operator of the gasoline station opposite at the intersection of Main avenue and 35th street and this garage will be operated by him in conjunction with such gasoline service station; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7c to permit the reconversion of the existing building to its former classification as a storage garage for more than five motor vehicles and offices in connection therewith, on condition that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that existing gasoline tanks shall be tested by the Fire Commissioner before reusing and that all permits and a new Certificate of Occupancy shall be obtained within six months from the date of this resolution.

703-54-BZ

APPLICANT—Leonard F. Rothkrug, for Crescent Superb Corp., owner, Dominick and Joseph Manno, owners under contract.

SUBJECT—Application August 20, 1954 (decision of the borough superintendent), under sections 7c and 19A(j) of

the zoning resolution, to permit in a residence and business use district, the change in occupancy from moving picture theatre and stores to public assembly, cabaret, catering and kitchen, and without the required size of loading berth.

PREMISES AFFECTED—25-22 Astoria avenue (Astoria boulevard), south side, 117 ft. east of Crescent street, Block 573, Lot 32, Long Island City, Borough of Queens.

APPEARANCES—

For Applicant: Leonard F. Rothkrug, James Manno and Dominick Manno.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 1, 1955 after due notice by publication in the Bulletin; laid over to March 1, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Crescent street are in residence and business use, C area, class 1 height districts; Astoria boulevard is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated July 22, 1954 acting on Alt. Applic. 621-54 and superseded by a decision dated October 8, 1954, reads:

"1. The proposed use of the premises which is partly in a Business Use District and partly in a Residence Use District as a Public Assembly, Cabaret, Catering and Kitchen in the Residence Use portion of the lot is contrary to Art. II, Sec. 3 of the Zoning Resolution.

2. The size of the required loading berth should conform to Art. IV, Sec. 19A(h)(i) of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 116 ft. 6 in. frontage by 175 ft. 9½ in. in depth, on which is located a theatre building, presently vacant, for which certificate of occupancy No. 34344-27 has been filed; that it is proposed to change the use of structure to public assembly, cabaret, catering and kitchen, without required loading berth; and

WHEREAS, the applicant further states that the use district maps show the premises to be located in a business and residence use, C area, class 1 height district; that at the time of the passage of the zoning resolution, the premises were located entirely within a business use district and the rest of the tax block was likewise entirely within a business use district; and

WHEREAS, the applicant contends that the building was erected under N.B. 2282-27, being 103 ft. 9 in. front on Astoria avenue by 156 ft. 4 in. in depth along the westerly lot line, 195 ft. 10 in. in depth along the easterly lot line, one story and mezzanine, 40 ft. in height, class 1 construction, used and occupied at the time of its erection and until last year in accordance with certificate of occupancy No. 34344 issued December 22, 1927, as a moving picture theatre; that the theatre building was erected in 1927 by this owner through another wholly owned corporation to accommodate the community need at a time when moving pictures and talkies were becoming popular; that the present corporation assumed title in 1933 and operated the theatre until the beginning of this year when it was forced to close because of low attendance; that the building can no longer economically be used as a theatre and the community need for a theatre at this location has ended; that the land is assessed at \$30,000 and the building at \$50,000 so that the total assessed valuation is \$80,000; that it is economically unfeasible to operate as a theatre and since Astoria avenue is in a business use district and beyond 100 ft. is in a residence use district, the premises cannot be used

MINUTES

for a conforming use; that when this application was filed the owner was negotiating the sale of the premises to be used as a factory and warehouse and the application was made at that time for the proposed use; that subsequent thereto, a conditional contract of sale was entered into September 9, 1954 with Joseph and Dominick Manno who proposed to use the premises for catering and banquet halls; and

WHEREAS, the applicant states that it is proposed to raise the main floor level to the level of the stage of the theatre and subdivide the large area into four banquet halls, kitchen, bar and other service rooms; that a new fireproof second floor over the auditorium area will be constructed because of the high existing theatre ceiling and the resulting new 2nd floor area will be divided into two banquet halls; that it is also proposed to construct two new enclosed exit stairs to grade level; and

WHEREAS, the applicant states that the existing theatre was erected and owned at a time when the entire premises was located within a business use district; that the present use district designations of the tax block became effective on December 14, 1934; that it would appear that the zoning designations were fixed by the City Planning Commission with a plan which relates the subject premises to the Tri-borough bridge approaches; that the street on which the subject premises fronts and the street on which the abutting premises fronts are both within a business use district, so that the proposed uses would be conforming; that it is only because of the irregular and peculiar shape of this tax block that causes the site to be located partly within a residence use district; that the proposed uses are within the character of the neighborhood; that there are no openings along the side lot lines and there is an existing rear yard, which will be maintained, of an average of about 27 ft. by 106 ft. 10 $\frac{7}{8}$ in.; that there is an existing side yard 10 ft. in width along the entire westerly side lot line formerly the theatre side court; that it is proposed to offer this 10 ft. wide yard for off-street loading and unloading; that there is an existing curb cut at this part of the site; that the building which was erected in 1927 has used this yard for off-treet loading and unloading since its erection, long prior to the adoption of section 19A of the zoning resolution; that the proposed use of the premises is such that there is only a small amount of loading and unloading of food supplies for the kitchen and the delivery trucks are not the large size trailer trucks; that because of existing conditions and the structural features of the existing building, the owner cannot reasonably comply with the provisions of section 19A only as to the width of the loading berth; and

WHEREAS, the applicant states that the present owner has held title to the property since June 22, 1933; that the assessed valuation of land is \$30,000 and of the building \$50,000 making a total of \$80,000; that the building was erected 1927; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the extension of the proposed use lawfully permitted in a business use district into the more restricted district, substantially as proposed and shown on plans filed with this application, marked "Received August 20, 1954", 5 sheets and "November 15, 1954", 3 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area within the residential district; that there shall be no signs erected in the residential district; that the existing side court may be used for loading berth purposes as proposed, *on condition* that there shall be erected on the building line of such court suitable iron gates which shall be kept locked except when premises are open for business; that the exits as shown

to such side yard, leading to Astoria avenue may be permitted with access through such court to the street; that suitable fences shall be maintained on the interior lot lines against adjoining premises where yards or courts occur; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 965-41-SM

Subject: Safway Steel Scaffold (frame type), approval of. Safway Steel Scaffolds New York Inc., of Long Island City, New York, filed November 10, 1941 an application with the Board of Standards and Appeals for approval of the Safway Steel Scaffolds (frame type) under the provisions of C26-178.0 Administrative Building Code and Rule 7.5.18 of the Demolition Rules of the Board adopted under Cal. No. 784-41-SR.

Note: where in this report Rules are referred to as "Demolition Rules of the Board" this shall mean "Rules for Erection, Alteration, Repair, Excavation for and Demolition of Buildings" of the Board.

MINUTES

Purpose

The steel scaffolding is intended to replace the usual form of timber scaffolding in the three classes, light, medium and heavy duty scaffolding, for uses as set forth in the Demolition Rules of the Board.

Description

The assembly consists of steel frames, braces and accessories which are assembled to form a scaffold. The frames are connected to each other on each side by a pair of diagonal cross braces. Conductors call spockets, set into the upper ends of the frame tubes, permit other sections to be added railings, toe boards and the scaffolding planks. Adequate sills at the bottom and suitable tie-ins to the building and for structure are provided.

The frame is the essential basic unit and consists essentially of two end posts, cross tubes and stiffening braces all of butt welded steel tubing. The ends of the cross tubes and stiffening braces are cut out to accommodate the curvature of the tubes to which they are secured by arc welding.

The end posts are 1.69" o.d x 1.095" wall steel tubing. The upper and lower cross braces in each frame are of the same size tubing. The braces, of which there are two, which connect the horizontal braces 0.84" x .076" tubing. The couplers are 1.4375" x .120 SAE 1025 seamless tubing and the sleeves are 1.69" x .095" tubing.

The cross braces, connecting the bents are also of tubing, flattened at the ends so as to form a flat surface for connection to the end posts.

The base plate has incorporated into it a socket for the legs of the bottom frame.

Inspection and Test

Three panels (four frames) were load tested at the applicant's plant in the presence of Asst. Engr. J. A. Darts Committee on Test and J. P. Jones representing the applicant.

The frames were spaced 10'-0" on centers giving a total of 30'-0" length of scaffolding and as each frame has a width of 5'-0" the test scaffold was 150 sq. ft. in area, two tiers high, making a total of 10'-0" in height.

The two end frames were not loaded and the connections between the two end frames and the two inner frames was broken so that there was no physical tie between these frames. The two end frames were left in place in order to protect the workmen test loading the scaffold.

The ultimate load reached was 18370 lbs. at which load there was a settling of the mud sill which caused a bowing in the intermediate frame.

Evaluation of test results:

Imposed load on 2 frames 2 tiers high — 18370 lbs.

Tare (50 sq. ft. 2" plank @ 5 sq. ft. — 250 lbs.

4 Frames @ 50 lbs. each and 4 braces @ 10 lbs. each — 240 lbs.

Total load carried on 2 frames — 18860 lbs.

Load carried on each frame — $18860 \div 2 = 9430$ lbs.

The Committee set the least factor of safety that may be applied in construction of this nature at 2.5 for the live load and 2.0 for the dead load on the heavy duty scaffold and 2.5 for the live load and 1.5 for the dead load on the medium and light duty scaffold.

Since this type of scaffolding is intended to replace timber scaffolding, the Committee is of the opinion that the allowable live loads shall be the same as allowed for timber scaffolding as set forth under the requirements of Rule 7.5.1 of the Demolition Rules of the Board. That is 75 lbs. per sq. ft. under Rule 1.24.3; 50 lbs. per sq. ft. for medium duty scaffold the functions of which are defined under Rule 1.24.10; and 25 lbs. per sq. ft. for light duty scaffold the functions of which are defined under Rule 1.24.7.

In calculating the dead load or weight of each frame for the 5'-0" high frame shall be 40 lbs. the incidental bracing for the same shall be 10 lbs. and the total weight of planking 2" thick shall be 5 lbs. per sq. ft.

Computations for Heavy Scaffold:

1. 7'-0" Bent Spacing;—Area carried by 1 Bent = $7' \times 5' = 35$ sq. ft.

Live Load = 35 sq. ft. $\times$ 75 lbs. per sq. ft. = 2625 lbs.

F of S of 2.5 = $2625 \times 2.5 = 6562$ lbs.

Planking; = 35 sq. ft. $\times$ 5 lbs. per sq. ft. = 175 lbs.

F of S of 2; = $175 \times 2 = 350$ lbs.

1 Frame 5'-0" High = 50 lbs.

F & S of 2; = $50 \times 2 = 100$ lbs.

Total live and dead load (frame and planking) = 7012 lbs.

Useable remaining load to be carried on frame 9432 — $7012 = 2418$ lbs.

Additional frames = $2418 \div 100 = 24.18$.

Theoretical Height = 106 ft.

2. 6'-0" Bent Spacing;—Area carried by 1 Bent = $6' \times 5' = 30$ sq. ft.

Live load = 30 sq. ft. $\times$ 75 lbs. per sq. ft. = 2250 lbs.

F of S of 2.5 = $2250 \times 2.5 = 5625$ lbs.

Planking; = 30 sq. ft. $\times$ 5 lbs. per sq. ft. = 150 lbs.

F of S of 2.0 = $150 \times 2.0 = 300$ lbs.

1 Frame—5'-0" High = 50 lbs.

F of S of 2.0 = $150 \times 2.0 = 300$ lbs.

Total live and dead load (frame and planking) = 6025 lbs.

Usable remaining load to be carried on 1 frame 9430 — $6025 = 3405$ lbs.

Additional Frames = $3405 \div 100 = 34$.

Theoretical Height = $175'-0"$.

3. 5'-0" Bent Spacing—area carried by 1 Bent = $5' \times 5' = 25$ sq. ft.

Live load = 25 sq. ft. $\times$ 75 lbs. per sq. ft. = 1875 lbs.

F of S of 2.5 = $1875 \times 2.5 = 4738$ lbs.

Planking = 25 sq. ft. $\times$ 5 lbs. per sq. ft. = 125 lbs.

F of S 2.0 = $125 \times 2 = 250$ lbs.

1 Frame—5'-0" high = 50 lbs.

F of S of 2.0 = $50 \times 2 = 100$ lbs.

Total live and (*1 frame and planking) = 5088 lbs.

Usable remaining load to be carried on 1 frame 9430 — $5088 = 4342$ lbs.

Additional Frames $4342 \div 100 = 43.4$

Theoretical Height = $220'-0"$.

Computation for Medium Duty Scaffold:

1. 10'-0" Bent Spacing—Area carried by 1 Bent = $10' \times 5' = 50$ sq. ft.

Live Load = 50 sq. ft. $\times$ 50 lbs. per sq. ft. = 2500 lbs.

F of S of 2.5 = $2500 \times 2.5 = 6250$ lbs.

Planking = 50 sq. ft. $\times$ 5 lbs. per sq. ft. = 250 lbs.

F of S of 1.5 = $250 \times 1.5 = 375$ lbs.

1 Frame 5'-0" high = 50 lbs.

F of S of 1.5 = $50 \times 1.5 = 75$ lbs.

Total live and *dead load (*1 frame and planking) = 6700 lbs.

Usable remaining load to be carried on 1 frame

$9430 - 6700 = 2730$.

Additional frames = $2730 \div 75 = 36$ frame.

Theoretical height = 185 ft.

2. 9'-0" Bent Spacing—Area carried by 1 Bent = $9' \times 5' = 45$ sq. ft.

Live Load 45 sq. ft. $\times$ 50 lbs. per sq. ft. = 2250 lbs.

F of S of 2.5 = $2250 \times 2.5 = 5625$ lbs.

Planking = 45 sq. ft. $\times$ 5 lbs. per sq. ft. = 225 .

F of S of 1.5 = $225 \times 1.5 = 338$ lbs.

1 Frame 5'-0" High = 50 lbs.

F of S of 1.5 = $50 \times 1.5 = 75$ lbs.

Total live and *dead load (1 frame and planking) = 6038 lbs.

Usable load to be carried on 1 frame 9430 — $6038 = 3392$ lbs.

Additional frames = $3392 \div 75 = 45$.

Theoretical Height = 230 ft.

3. 8'-0" Bent Spacing—area carried by 1 Bent = $8' \times 5' = 40$ sq. ft.

Live Load = 40 sq. ft. $\times$ 50 lbs. per sq. ft. = 2000 lbs.

F of S of 2.5 = 5000 lbs.

Planking 40 sq. ft. $\times$ 5 lbs. per sq. ft. = 200 lbs.

F of S of 1.5 = $200 \times 1.5 = 300$ lbs.

1 Frame 5'-0" Height = 50 lbs.

F of S of 1.5 = $50 \times 1.5 = 75$ lbs.

MINUTES

Total live and *dead (—1 frame and planking) = 5375 lbs.
Usable load to be carried on 1 frame 9430 — 5375 = 4055 lbs.

Additional frame = $4055 \div 75 = 54$.

Theoretical height = 275 ft.

4. 7'-0" Bent spacing—area carried by 1 Bent = $7' \times 5' = 35$ sq. ft.

Live Loads = 35 sq. ft. $\times$ 50 lbs. per sq. ft. = 1750 lbs.

F of S of 2.5 = $1750 \times 2.5 = 4375$ lbs.

Planking 35 sq. ft. $\times$ 5 lbs. per sq. ft. = 175 lbs.

F of S of 1.5 = $175 \times 1.5 = 263$ lbs.

1 Frame 5'-0" high = 50 lbs.

F of S of 1.5 = $50 \times 1.5 = 75$ lbs.

Total live and *dead load (—1 frame and planking) = 4713.

Usable load to be carried on 1 frame 9430 — 4713 = 4717 lbs.

Additional frames = $4717 \div 75 = 61$.

Theoretical height = 310 ft.

5. 6'-0" Bent spacing—area carried by 1 Bent = $6' \times 5' = 30$ sq. ft.

Live load = 30 sq. ft. $\times$ 50 lbs. per sq. ft. = 1500 lbs.

F of S of 2.5 = $1500 \times 2.5 = 3750$ lbs.

Planking 30 sq. ft. $\times$ 5 lbs. per sq. ft. = 150 lbs.

F of S of 1.5 = $150 \times 1.5 = 225$ lbs.

1 Frame 5'-0" high = 50 lbs.

F of S of 1.5 = $50 \times 1.5 = 75$ lbs.

Total live and *dead load (*1 frame and planking) = 4050 lbs.

Usable load to be carried on 1 frame 9430 — 4050 = 5380 lbs.

Additional frames = $5380 \div 75 = 71$

Theoretical Height = 360 ft.

6. 5'-0" Bent spacing—area carried by 1 Bent = $5' \times 5' = 25$ sq. ft.

Live load = 25 sq. ft. $\times$ 50 lbs. per sq. ft. = 1250 lbs.

F of S of 2.5 = $1250 \times 2.5 = 3125$ lbs.

Planking = 25 sq. ft. $\times$ 5 lbs. per sq. ft. = 125 lbs.

F of S of 1.5 = $125 \times 1.5 = 191$ lbs.

1 Frame 5'-0" high = 50 lbs.

F of S of 1.5 = $50 \times 1.5 = 75$ lbs.

Total live and *dead load (1 frame and planking) = 3391 lbs.

Usable load to be carried on 1 frame 9430 — 3391 = 6039 lbs.

Additional frames = $6039 \div 75 = 80$.

Theoretical Height = 405 ft.

Computation for Light Duty Scaffold:

1. 10'-0" Bent spacing—area carried by 1 Bent = $10' \times 5' = 50$ sq. ft.

Live load = 50 sq. ft. $\times$ 25 lbs. per sq. ft. = 1250 lbs.

F of S of 2.5 = $1250 \times 2.5 = 3125$ lbs.

Planking = 50 sq. ft. $\times$ 5 lbs. per sq. ft. = 250 lbs.

F of S of 1.5 = $250 \times 1.5 = 375$ lbs.

1 Frame—5'-0" high = 50 lbs.

F of S of 1.5 = $50 \times 1.5 = 75$ lbs.

Total live and *dead load (*1 frame and planking) = 3575 lbs.

Usable load to be carried on 1 frame 9430 — 3575 = 5855.

Additional frames = $5855 \div 75 = 78$.

Theoretical Height = 395 ft.

2. 9'-0" Bent spacing—area carried by 1 Bent = $9' \times 5' = 45$ sq. ft.

Live Load = 45 sq. ft. $\times$ 25 lbs. per sq. ft. = 1125 lbs.

F of S of 2.5 = $1125 \times 2.5 = 2912$ lbs.

Planking 45 sq. ft. $\times$ 5 lbs. per sq. ft. = 225 lbs.

F of S of 1.5 = $225 \times 1.5 = 338$ lbs.

1 Frame 5'-0" Height = 50 lbs.

F of S of 1.5 = $50 \times 1.5 = 75$ lbs.

Total live and *dead load (*1 frame and planking) = 3325 lbs.

Usable load to be carried on 1 frame 9430 — 3325 = 6105 lbs.

Additional frames = $6105 \div 75 = 81$.

Theoretical Height = 410 ft.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval, under provisions, of C26-178.0 Administrative Building Code and Rule 7.5.18 of the Demolition Rules of the Board, of the Safway Steel Scaffold as manufactured by the Safway Steel Scaffolding New York Inc., of materials as herein described and constructed in accordance with the description above, for uses as defined in the Demolition Rules of the Board with limitations as to height for definite bent spacing as set forth in the following tables:

1. Heavy Duty Scaffold: as defined by Rule 1.24.3 of the Demolition Rules of the Board:—Maximum live load; 75 lbs. per sq. ft.

Span in ft. between bents

Maximum height above baseplate

7'-0"	6'-0"	5'-0"
60'-0"	80'-0"	100'-0"

2. Medium Duty Scaffold: as defined by Rule 1.24.10 of the Demolition Rules of the Board:—Maximum live load; 50 lbs. per sq. ft.

Span in ft. between bents

Maximum height above baseplate

10'-0"	9'-0"	8'-0"	7'-0"
100'-0"	110'-0"	115'-0"	125'-0"

3. Light Duty Scaffold: as defined by Rule 1.24.7 of the Demolition Rules of the Board:—Maximum live load, 25 lbs. per sq. ft.

Span in ft. between bents

Maximum heights above base plate

10'-0"

125'-0"

The Committee further recommends that additional stages of planking may be used, in accordance with the following condition:

1. Heavy Duty Scaffold: Only one working stage of planking and no additional stages of planking may be used on the Heavy Duty Scaffold.

2. Medium Duty Scaffold:

Bent Spacing

10'-0" 9'-0" 8'-0" 7'-0"

Additional Stages of Planking

0 1 2 4

3. Light Duty Scaffold:

Bent Spacing

10'-0"

Additional Stages of Planking

8

The live load of 50 lbs. per sq. ft. for the Medium Duty Scaffold and the 25 lbs. per sq. ft. for the Light Duty Scaffold may be applied to one tier or may be divided between various tiers, as allowed, in the same bay.

The Committee further recommends that during the course of erection and all time thereafter, of the scaffold hereby recommended for approval under this report the scaffold shall be adequately tied to the building every two stories, but not more than 24'-0" vertically and every 28'-0" horizontally by one of the approved methods shown on Dwg. A to J inclusive, marked, "Received June 24, 1954", which are on file with and are part of the record.

The Committee further recommends that the frames shall set on suitable sills of minimum size 2" $\times$ 12" but in all cases the owner-manufacturer shall submit his erection plans to the Department of Housing and Buildings so that all the methods of construction outlined in the report and the subsurface conditions may be investigated and checked.

The Committee further recommends that signs shall be conspicuously posted every 50 ft. along the planked platform levels showing the allowable live load per sq. ft. permitted on the planking and that all the component parts of the scaffold shall be kept in a perfect state of repair properly painted or otherwise treated to prevent corrosion or decay.

The Committee further recommends that the erection and design of scaffolds, hereby recommended for approval under this report shall be under the responsible supervision of the owner-manufacturer of the scaffold and that all scaffolds

MINUTES

erected under the conditions of this report shall be stamped, marked and labeled as follows:—"Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 965-41-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
EDWIN W. KLEINERT,
Commissioner,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

979-41-SM

APPLICANT—L. O. Koven & Bros., Inc., owner-manufacturer.

SUBJECT—Application reopened January 5, 1954—For amendment of resolution—re Koven 275 Gallon Obround Fuel Oil Tank; previously approved.

APPEARANCES—

For Applicant: Roger N. Blakeney.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly..... 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 979-41-SM.

Subject: Amendment of resolution, Koven 275 Gallon Fuel Oil Tank.

The Board of Standards and Appeals on October 6, 1942 approved the Koven 275 Gallon Obround Fuel Oil Tank for use in fuel oil installations in New York City. The application was reopened January 5, 1954 for report as to revision of design of tank. The tank as originally approved had a 1 inch pressed steel spud at the end of the tank to be used as a drain. It is now proposed to provide a ½ inch steel spud in the bottom of the tank about 2 inches from the connection of sides and head. Inspection of the tank as redesigned was made and the proposed change was found satisfactory. The Committee recommends the amendment of the resolution of October 6, 1942 to approve the Koven 275 Gallon Obround Tank as shown in revised drawings marked received on December 7, 1953.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of October 6, 1942 in accordance with the above report.

781-49-SA

APPLICANT—Ace Cabinet Corporation, owner-manufacturer.

SUBJECT—Application reopened February 17, 1953—for amendment to resolution as to additional size of gas fired drying tumbler—re Ace Telecoin Tumble Dryer (gas heated clothes dryer); previously approved.

APPEARANCES—

For Applicant: Milton Herzer.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 781-49-SA

Subject: Amendment to resolution as to additional size of gas fired drying tumbler.

Ace Cabinet Corp., New Bedford, Mass., requested by letter dated January 30, 1953 that the resolution adopted February 15, 1950 under Cal. No. 781-49-SA be amended so as to include an additional model. The application was reopened by a vote of the Board February 17, 1953.

Purpose

The appliance, a gas heated commercial drying tumbler is to be used for the drying of clothes by forcing hot air through the tumbling clothes.

Description

The requested model is similar to the model approved by the Board February 15, 1950 under Cal. No. 781-49-SA differing only in so far as the depth of the basket, and a change in design of the lint trap. The new model has a basket 24" deep instead of the 18" depth of the approved model and the lint trap is of the pull out type instead of the fixed type. The cabinet has been changed to the extent of having a glass door and chrome trim.

There has been no changes in the heating equipment of safety controls.

Inspection and Test

The requested model was inspected by Asst. Engr. J. A. Darts, Committee on Test and the changes noted as herein described.

Recommendation

On the basis of the inspection and the data filed by the applicant the Committee recommends that the resolution adopted February 15, 1950 under Cal. No. 781-49-SA be amended so as to include the model 24 as herein described on condition that the requirements of the resolution adopted February 15, 1950 under Cal. No. 781-49-SA be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of February 15, 1950 in accordance with the above report.

506-52-SM

APPLICANT—Askania Corporation, owner.

SUBJECT—Application June 23, 1952—Portite (integral admixture for concrete), approval of.

APPEARANCES—

For Applicant: Richard Koch.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

MINUTES

REPORT OF COMMITTEE ON TEST

Re: Cal. 506-52-SM

Subject: Portite Integral Admixture for Concrete, approval of.

The Askania Corporation, owner filed June 23, 1952 an application with the Board of Standards and Appeals for approval of Portite an integral admixture for concrete of which it is sole manufacturer, under the provisions of C26-178.0.b of the Administrative Building Code.

Purpose

The material is an integral mixture to concrete to increase plasticity.

Description

Portite is an aqueous liquid, based on a long-chain organic radical, which is added to concrete mixes to promote better hydration with less water, improve suspension of the solids. These result in greater uniformity of texture, impermeability, durability and plasticity.

The normal use of 4 fl. ozs. per sack of cement produces 3% to 6% of entrained air in the plastic concrete. The Portite is added to the dry mix just before or with the water from graduated measures.

Inspection and Test

To demonstrate that concrete with Portite does not cause undue loss of compressive strength, a comparative series of tests were carried out at Gulick-Henderson Lab., Flushing, in the presence of Chief Engr. L. V. Huber of the Committee on Test and Mr. R. Koch of the Askania Corporation, and L. D. Long of Gulick-Henderson Laboratories, Inc., on May 5, 1954. Ten cylinders each of identical 5.5 bag concrete mixes, with and without Portite added were made and 5 cylinders each were tested for compressive strength at 7 and 28 days. The report submitted in July 9, 1954, showed a slight increase in compressive strength at both stages as below:

COMPRESSIVE STRENGTH

Plain Concrete	7 Days	28 Days
Average	2701 Five Specimens	4147 Five Specimens
Portite Concrete		
Average	2723 Five Specimens	4234 Five Specimens

The product has over the years been tested by recognized laboratories and by other public bodies. In particular it was tested for 12 months by the U. S. Bureau of Public Roads and approved on July 28, 1952 for Federal and Federal Aid Work (report submitted). It has subsequently been approved by the New Jersey State Highway Department and Authority and used in their work. No tests were run to test the durability or increase in strength.

Recommendation

On the basis of the tests made and the data submitted by the applicant, the Committee on Test recommends the approval of Portite for voluntary use as an integral admixture for concrete to be used to increase plasticity, on condition that the container be marked:—"Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 506-52-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

626-52-SM

APPLICANT—Limestone Products Corp., for Larsen Products Corp., owner.

SUBJECT—Application reopened September 14, 1954—for amendment to resolution as to trade name—re Plaster-Weld (bonding agent); previously approved.

APPEARANCES—

For Applicant: Drew Pearsall.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 626-52-SM

Subject: Amendment to resolution as to trade name.

Limestone Products Corp., for Larsen Products Corp., requested by letter dated July 27, 1954 that the resolution adopted by the Board July 20, 1954 under Cal. No. 626-52-SM be amended so as to permit the material approved July 20, 1954 under Cal. No. 626-52-SM to be marketed under the additional trade name of Weld-Crete.

The application was reopened by a vote of the Board September 14, 1954.

Recommendation

The Committee on Test recommends that the resolution adopted July 20, 1954 under Cal. No. 626-52-SM be amended so as to permit the material Plaster-Weld to be marketed under the additional trade name Weld-Crete on condition that the requirements of the resolution adopted July 20, 1954 under Cal. No. 626-52-SM be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution of July 20, 1954 in accordance with the above report.

682-52-SM

APPLICANT—Emanuel M. Glick, for Elof Hanson, Inc., owner.

SUBJECT—Application August 19, 1952—Reynolds Aluminum Acoustical System, approval of.

APPEARANCES—

For Applicant: Charles L. Roberts.

ACTION OF BOARD—Material approved in accordance with report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 682-52-SM

Subject: Reyno Coustic (corrugated and pyramid perforated acoustical panels), approval of.

Reynolds Metal Company, New York, filed August 19, 1952 an application with the Board of Standards and Appeals

MINUTES

for approval of the material known as Reyno Coustic (corrugated and pyramid perforated acoustical panels) under the provisions of C26-461.a Administrative Building Code.

Purpose

The material is an incombustible acoustical suspended ceiling.

Description

The panels are of the corrugated panels, formed to $\frac{7}{8}$ " depth with a 2.67" pitch. The gauge of the panel is 0.24" and the width is $33\frac{3}{4}$ " to give a nominal 32" coverage with a one corrugation overlap.

The pyramid style panels are pyramid ribbed to $\frac{3}{8}$ " depth with $1\frac{1}{2}$ " pitch. The gauge of the panel is 0.024" and the width is $34\frac{1}{2}$ " to give a nominal $33\frac{1}{2}$ " coverage with one rib overlap.

The tee sections are aluminum extrusions $2" \times 2\frac{1}{2}" \times \frac{1}{8}"$ nominal size and weighs .355 lbs. per lineal. The angles are also aluminum extrusion $1" \times 2" \times \frac{1}{8}"$ and weighs .233 lbs. per lineal feet.

In erection a grillage of the standard hangers and channels are erected in accordance with the requirements of C26-461.0 Administrative Building Code. At 5'-0" spacing in one direction and at 6'-0" spacing in a direction perpendicular to the 5'-0" spacing channels are bolted to the main carrying channels. The aluminum tee sections are then bolted to the channels by means of straps and bolts. The panels are then placed on the flanges of the tees and the incombustible pads are placed on top of the panels.

Inspection and Test

Sample ceilings were load tested in the presence of Asst. Engr. J. A. Darts, Committee on Test and C. Harder representing the applicant on November 19, 1954, and as the weight of the system totals 0.36 lbs. per sq. ft. the ceiling was loaded to ten times its own weight, the deflection at the center of the panel was $\frac{1}{2}$ inches.

The angles, tees and panels were also tested in accordance with the requirements of C26-88.0 Administrative Building Code. The angles, tees and corrugated panels successfully met the requirements of C26-88.0 Administrative Building Code but the paint on the pyramid type panel ignited under a temperature of 900°F.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Reyno Coustic Corrugated Perforated Acoustical Panels and the Pyramid Type Panel on condition that the pans of this type shall not be painted, when assembled as herein described using an incombustible pad, similar to fiberglass or rockwool, weighing not more than $\frac{1}{2}$ lbs. per sq. ft. be approved as an incombustible mechanically supported acoustical system under C26-88.0 Administrative Building Code providing all packages, cartons, bills of lading or invoices, are marked or tagged: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 682-52-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

143-54-SM

APPLICANT—United States Plywood Corp., owner (J. A. Fitzpatrick, agent).
SUBJECT—Application reopened July 20, 1954—for amend-

ment to resolution as to one hour rating—re Weldwood $\frac{3}{4}$ hour door (weldrock core); previously approved.

APPEARANCES—

For Applicant: James A. Fitzpatrick.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinst and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 143-54-SM

Subject: Amendment to resolution as to one-hour rating.

United States Plywood Corp., requested by letter dated June 30, 1954, that the resolution adopted June 2, 1954 under Cal. No. 143-54-SM be amended so as to include a one-hour fire resistive opening protective assembly. The application was reopened by a vote of the Board July 20, 1954.

Purpose

The material is a 4'-0" x 7'-0" x 0'-1 $\frac{3}{4}$ " 1-Hour Test fire resistive door.

Description

The door is a flush type single swing composite fire door similar in construction to the door approved June 2, 1954 under Cal. No. 143-54-SM for $\frac{3}{4}$ -Hour Test. The edge banding in the door is $\frac{1}{2}$ inch soft maple, or birch, treated to refusal.

Inspection and Test

Two doors were tested at the Underwriters Laboratory in accordance with the requirements of the fire and hose stream tests. The complete report Underwriters Laboratory R-2876, App-54C2789 is on file with and is part of the record.

Recommendation

On the basis of the tests and the data filed by the applicant, the Committee on Test recommends that the resolution adopted June 2, 1954 under Cal. No. 143-54-SM be amended so as to include the United States Plywood Corp., Weldwood Fire Door when constructed as herein described with $\frac{1}{2}$ inch soft maple or birch, treated to refusal, edge banding as a one-hour fire resistive opening protective assembly on condition that the requirements of the resolution adopted June 2, 1954 under Cal. No. 143-54-SM are complied with.

MINUTES

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 234-54-SA

Subject: Carrier Corporation Conversion Oil Burner, Models 38Ca and 38C4, approval of.

The Carrier Corporation of Syracuse, New York filed March 17, 1954 an application with the Board of Standards and Appeals for approval of the Carrier Corporation Conversion Oil Burner, Models 38C2 and 38C4 under the provisions of C19-57 Administrative Building Code and the Oil Burner Rules of the Board of Standards and Appeals.

Purpose

A mechanical draft conversion oil burner for installation in hot water or steam boiler and warm air furnaces.

Description

Models of this burner 38C2 and 38C4 are identical with the exception of blower sizes, scroll contours and nozzle sizes. Model 38C2 pressure atomizing oil burner is designed to burn Grade #2 fuel oil at 0.5 GPH to 1.0 GPH with oil pressure at 100 psi. Model 38C4 is designed to burn Grade #2 oil 1.0 GPH to 1.50 GPH and 100 psi. The motor is $\frac{1}{8}$ HP, 60 cycle, 1725 RPM with junction box mounted at top. The fuel pump is Sundstrand or Webster single or two stage. The blower wheel is a Lau WW 5 x 3 on 38C2 and a Torrington 508-316 on 38C4. The transformer is 115 volts, 60 cycle primary, 10,000 volts secondary, plunger type secondary leads. The ignition electrodes are dielectric type 3-B or equivalent with spring type bars. The motor pump coupling is Lovejoy DX 2/8. The choke cone is 16 gage stainless steel. The burner housing is 14 gage steel HR PO., 3 piece deep drawn sections spot-welded assembly. The air adjusting band is 26 gage stainless steel. The transformer is mounted on a hinged door at top of burner housing.

The controls consist of a White-Rodgers Type 615-1 primary oil control, White-Rodgers thermostat and White-Rodgers or Penn fan and limit control.

Inspection and Test

A model of this burner was inspected and tested at 630 West 52nd Street, Manhattan and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test and W. J. Linderman representing the applicant. The burner has been approved by the Underwriters Laboratories, Miscellaneous Petroleum 2200 and application No. 53C3152.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Carrier Corporation Conversion Oil Burner, Models 38C2 and 38C4 for use in New York City with fuel oil not heavier than #2 Commercial Standard Grade when installed and operated in accordance with this report and the Oil Burner Rules of the Board of Standards and Appeals, provided each burner bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 234-54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,

Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this appliance in accordance with the above report.

449-54-SM

APPLICANT—Bodde Screen Co., for Hollywood Universal Inc., owner (Imperial Carpet & Furniture Co., Agent).

SUBJECT—Application May 27, 1954—Bodde Seamless Screen, Types A, B and Type C, Projection Screen, approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 449-54-SM

Subject: Bodde Seamless Screen Type A, Type B and Type C, approval of

Bodde Screen Company, Los Angeles, California for Hollywood Universal Inc., Los Angeles, California filed May 27, 1954 an application with the Board of Standards and Appeals for approval of the material known as Bodde Seamless Screen Type A, Type B and Type C under the provisions of C26-721.0.c Administrative Building Code.

Purpose

The material is to be used for theatre projection screen.

Description

The method of manufacture consists of casting one seamless piece of ethyl cellulose. This material is then treated with Monsanto M-140 and 141; Trieresyl, Triphenyl and Araclor top laticize and flameproof the basic sheet. The type refers only to weight of the screen.

Inspection and Test

Samples of Types A and C were tested in accordance with the Flameproofing Rules of the Board at The Better Fabrics Testing Bureau in the presence of Asst. Engr. J. A. Darts, Committee on Test and W. H. Masterson, representing the Laboratory.

The type C showed no flashing, flaming or glow.

The type A showed an average flaming of 1 second a retest on Type A showed 4/7 seconds flaming, a second retest showed 1/3 seconds flaming and a third retest showed no flashing, flaming or glow. The report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Bodde Seamless Screen Type A and Type C (theatre projection screen) for use in New York City under the provisions of C26-721.0.c Administrative Building Code on condition that the following requirements are complied with:

1. Tests for each specific installation or any retests thereof shall be made by the Fire Commissioner or in a laboratory approved by him in accordance with the requirements of Flameproofing Rules of the Board and further that each carton or package in which the material is shipped shall be stamped or labeled, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 449-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

693-54-SM

APPLICANT—Roof Structures, Inc., owner.

SUBJECT—Application August 11, 1954—Roof Structures, Inc., Glued Laminated Timbers (for use as beams, arches, trusses and columns), approval of.

APPEARANCES—

For Applicant: Joseph Burgess.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 693-54-SM

Subject: Roof Structures Inc. Glued Laminated Timbers (for use as beams, arches, trusses and columns), approval of.

Roof Structures Inc., Farmingdale, New York filed August 11, 1954 an application with the Board of Standards and Appeals for approval of the material known as Roof Structure Inc. Glued Laminated Timbers (for use as beams, columns, arches and trusses) under the provisions of C26-370.0 Administrative Building Code.

Purpose

The material is to be used in timber construction.

Description

Structural timbers, not solid as grown by nature, are assembled of laminations, glued up and put under pressure to form structural beams.

In the process of manufacture of the beams, the lumber is examined for defects such as knots, checks, etc. and the soundest pieces are set aside for using in the upper and lower faces of the beam. The lumber having knots etc. are placed at or near the neutral axis of the beam. When necessary to form a long beam, smaller planks are glued together, using a scarf joint (1 to 15) to form a continuous plank of the length desired.

The planks, joined together by means of the scarfed joints, where necessary, are then ready for the laminating process.

The plank which is to be used in the extreme face of the beam is glued on one side only and then placed in the pressure rig. Each succeeding plank is then glued on both faces and placed, one on top of the other, above the first plank. The last plank used, to give the desired depth to the beam is glued on one face only and placed on its proper position. When the planks are correctly positioned, pressure is applied to the beam by means of stay bolts; these bolts are tightened in a certain specified manner, periodically for the first three hours that the beam is in the pressure rig. The beam remains in the rig for twenty-four hours, pressure is then removed and the beam is allowed to cure for 1 week.

The glue used by the manufacturer in the process is known as Bordens Casco Grade A Glue and in the process of laminating, temperature and time are closely related so that it is necessary for the manufacturer to adhere to the time schedule specified for the temperature in the room or space where the beam is being laminated.

Inspection and Test

It was decided to load test a beam of the longest span and greatest depth that the applicant would manufacture. Therefore, a beam 0'-11" wide x 3'-0" deep x 63'-0" long was laminated at the applicant's plant at Farmingdale, New York in the presence of Asst. Engr. J. A. Darts, Committee on Test and J. Burgess and A. Classen representing the applicant. The identified beam was load tested in accordance with the requirements of C26-626.0 Administrative Building Code in the presence of Comm. E. W. Kleinert and Asst. Engr. J. A. Darts, Committee on Test and C. Pantke, J.

Burgess, R. Rieke and A. Classen representing the applicant.

The load was applied so as to develop stresses of four times the stress allowed under the provisions of C26-370.0 Administrative Building Code and the actual deflection, under test, was compared with the computed deflection.

The beam developed a fiber stress of 7250 psi at which time there was a deflection of 10½". When the load was removed the set in the beam was 3/16 inches. The theoretical deflection, under the load required to develop the 7240 psi was computed as 11½ inches so the actual deflection, under test was 7/8 inches less than the computed deflection.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Roof Structures Inc. Glued Laminated Timbers for use as beams under the provisions of C26-370.0 Table 1 under the following condition: 1. That the wood used in the laminated beams shall be Dense Structural Douglas Fir Coast Type or Prime Structural Yellow Pine Long Leaf, 2. That the glue used shall be as herein described and all glueing shall be done in accordance with the glue manufacturers specification, 3. That top and bottom laminations shall not have scarf joints located nearer to the center than ¼ of the beam length from the ends, 4. That the maximum size of the beams recommended for approval shall not exceed 3'-0" in depth by 60'-0" clear span and that the center 50% of the laminations may be scarfed with finger joints.

The Committee further recommends that the beams may be marketed under the trade name Gluwud and further all bills of lading, bills of material or invoices shall be marked, stamped or labeled, "Approved by the Board of Standards and Appeals for use in New York City under Calendar Number 693-54-SM."

APPLICANT—Eastern Machine Products, owner.

SUBJECT—Application September 7, 1954—Eastern Acoustical Fastening System, Rigid Beam Type (for suspended systems), approval of.

APPEARANCES—

For Applicant: William R. Bush.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:
REPORT OF COMMITTEE ON TEST

Re: Cal. 727-54-SM.

Subject: Eastern Acoustical Fastening System; Rigid Beam Type, approval of.

Eastern Machine Products, Baltimore, Md., filed September 7, 1954 an application with the Board of Standards and Appeals for approval of the material known as Eastern Acoustical Fastening System, Rigid Beam Type under the provisions of C26-461.0 Administrative Building Code.

Purpose

The material is used for suspending an accoustical tile ceiling (tile by others).

MINUTES

Description

A standard grillage of hangers and channels as required under C26-461.0 Administrative Building Code is first installed. A clip designated as 6180, electro-galvanized steel .05 inches thick is then placed over the channels to attach the main runner to the carrying channel or purlin.

The main beam designated as 6150, is a modified "Tee" section $1\frac{1}{2}$ high by $15/16$ inch at the base and is 0.30 inches thick, is there hung from the $1\frac{1}{2}$ inch channels by means of the clip herein described at 4'-0" centers in one direction and 5'-0" centers in a direction perpendicular to the 4'-0" center direction. At right angles to the main runner and at 1'-0" centers are placed "Tees"; designated as 6264, $\frac{3}{4}$ inches high by $15/16$ inches at the tee and .019 inches thick. The ceiling tile is then installed by slipping the kerf of the tile on to the flange of either the rigid beam; 6150 or the tee beam, 6264.

Inspection and Test

A sample ceiling of 5'-0" x 4'-0" was load tested at Manhattan College in the presence of Asst. Engr. J. A. Darts, Committee on Test, W. H. Bush representing the applicant and Prof. J. S. McNerney representing the College. The panel successfully carried a load of 10 lbs. per sq. ft. at which load there was a deflection of $\frac{1}{4}$ inch at the edges and $\frac{7}{8}$ inches at the center. The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the material known as Eastern Acoustical Fastening System, Rigid Beam Type be approved for voluntary installation in New York City on condition that the hangers and $1\frac{1}{2}$ inch channels shall be installed in accordance with the requirements of C26-461.0 Administrative Building Code and the balance of the system shall be installed as herein described.

The Committee further recommends that when the tile used in conjunction with this system is of the fiber or combustible type the installation shall comply with the requirements of the Fiber Board Rules as to coverage as provided under Rule 3 and if the tile is of an incombustible nature the system may be considered as an incombustible suspended ceiling.

It is further recommended that all plans submitted to the Department of Housing and Buildings showing the proposed use of this ceiling shall be marked or stamped, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 727-54-SM," and all cartons or packages in which the material is shipped shall be similarly marked.

REPORT OF COMMITTEE ON TEST

Re: Cal. 728-54-SM

Subject: Eastern Acoustical Fastening System, Basic Exposed Type, approval of.

Eastern Machine Products, Baltimore, Md., filed September 7, 1954 an application with the Board of Standards and Appeals for approval of the material known as Eastern Acoustical Fastening System, Basic Exposed Type, under the provisions of C26-461.0 Administrative Code.

Purpose

The material is used for suspending acoustical tile ceilings (tile by others).

Description

A standard grillage of hangers and channels as required under C26-461.0 Administrative Building Code is first installed. A clip designated as 6180 electro galvanized steel .05 inches thick is then attached to the $1\frac{1}{2}$ inch carrying channel to carry the main runner. The main runner designated as 6351 is a "Tee" beam fabricated of 23 gauge (.025 inches) electro galvanized steel with a sleeve wrapped around its bottom flange. This sleeve is also of steel .010 inches thick. These runners are placed 2'-0" on centers and are clipped to the main channels every 4'-0" of their length by means of the clip herein described.

The ceiling tile is then installed by setting the tile on the exposed flange of the runner (6351) between each ceiling tile and at right angles to the runner (6351) as a Tee member (6262) .018 inches thick; this "Tee" is inserted into the kerf of the tile which lends support to the tile.

Inspection and Test

A sample ceiling 4'-0" x 4'-0" was tested at Manhattan College in the presence of Asst. Engr. J. A. Darts, Committee on Test, W. H. Bush representing the applicant and Prof. J. S. McNerney representing the College. The panel successfully carried a load of 10 lbs. per sq. ft. at which load there was a deflection of $\frac{1}{8}$ inches at the center and $\frac{1}{8}$ inches at the edges. Failure occurred at 11 lbs. per sq. ft. when the tees buckled.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends that the material known as Eastern Acoustical Fastening System, Basic Exposed Type, be approved for voluntary installation in New York City on condition that the hangers and $1\frac{1}{2}$ inch channels shall be installed in accordance with the requirements of C26-461.0 Administrative Building Code and the balance of the system shall be installed as herein described.

The committee further recommends that when the tile used in conjunction with this system is of the fiber or combustible type the installation shall comply with the requirements of the Fiber Board Rules as to coverage as provided under Rule 3 and if the tile is of an incombustible nature the system may be considered as an incombustible suspended ceiling.

It is further recommended that all plans submitted to the Department of Housing and Buildings showing the proposed use of this ceiling shall be marked or stamped, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 728-54-SM," and all cartons or packages in which the material is shipped shall be similarly marked.

REPORT OF COMMITTEE ON TEST

Re: Cal. 729-54-SM

Subject: Eastern Acoustical Fastening System, Basic Concealed Type, approval of.

Eastern Machine Products, Baltimore, Md., filed September 7, 1954 an application with the Board of Standards and Appeals for approval of the material known as the Eastern Acoustical Fastening System, Basic Concealed Type under the provisions of C26-461.0 Administrative Building Code.

Purpose

The material is used for suspending an acoustical tile ceiling (tile by others).

Description

A standard grillage of hangers and channels as required under C26-461.0 Administrative Building Code is first installed. A clip designated as 6182 electro galvanized steel is attached to the 1½ inch carrying channel to carry the main runner. The main runner designated as 6160, a ⅞ inch tee .025 inches thick, is hung from the 1½ inch channel on 1'-0" centers.

The ceiling tile is then installed by slipping the kerf on one edge of the tile onto the flange of the tee number. A flat metal spline .01 inches thick is inserted at right angles to the tee member between two adjacent tiles in order to afford greater stability.

Inspection and Test

A sample ceiling 4'-0" x 4'-0" was load tested at Manhattan College in the presence of Asst. Engr. J. A. Darts, Committee on Test, W. H. Bush representing the applicant and Prof. J. S. McInerney representing the College. The panel successfully carried a load of 10 lbs. per sq. ft. at which load there was a deflection of ½ inch. The panel failed at 10½ lbs. per sq. ft. when the tees buckled laterally.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends that the material known as Eastern Acoustical Fastening System, Basic Concealed Type be approved for voluntary installation in New York City on condition that the hangers and 1½ inch channels shall be installed in accordance with the requirements of C26-461.0 Administrative Building Code and the balance of the system shall be installed as herein described.

The Committee further recommends that when the tile used in conjunction with this system is of the fiber or combustible type the installation shall comply with the requirements of the Fiber Board Rules as to coverage as provided under Rule 3 and if the tile is of an incombustible nature the system may be considered as an incombustible suspended ceiling.

It is further recommended that all plans submitted to the Department of Housing and Buildings showing the proposed

use of this ceiling shall be marked or stamped, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 729-54-SM." and all cartons or packages in which the material is shipped shall be similarly marked.

Re: Cal. 730-54-SM

Subject: Eastern Acoustical Fastening System, Exposed Type, approval of.

Eastern Machine Products, Baltimore, Md., filed September 7, 1954 an application with the Board of Standards and Appeals for approval of the material known as Eastern Acoustical Fastening System, Exposed Type under the provisions of C26-461.0 Administrative Building Code.

Purpose

The material is used for suspending an acoustical tile ceiling (tile by others).

Description

A standard grillage of hangers and channels as required under C26-461.0 Administrative Building Code is first installed. A clip, designated as 6180 electro galvanized steel .05 inches thick is then placed over the 1½ inch channels in order to carry the main runner. The main runner, designated as 6350 is made of electro galvanized steel, .035 inches thick with a .01 inch steel sleeve wrapped around the flange; this runner has ¾ inch high by ⅛ inch wide slots provided in the web, every 1'-0" along its length to permit the locking of the cross tees. The cross tees, designated as 7374, 7574, 6664 or 6764, spaced up to 2'-0" on centers are placed at right angles to the main runner and locked into the slots herein described. The main runners are spaced on a maximum of 2'-0" in a direction perpendicular to the main runners.

A sample ceiling 5'-0" x 4'-0" was load tested at Manhattan College in the presence of Asst. Engr. J. A. Darts, Committee on Test, W. H. Bush representing the applicant and Prof. J. S. McInerney representing the College. The ceiling successfully carried a load of 9½ lbs. per sq. ft. but failed due to lateral buckling at 9¾ lbs. per sq. ft. This lateral buckling was caused by the fact that there was no ceiling tile installed on the test panel and under the circumstances the tees had absolutely no lateral support.

MINUTES

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the material known as Eastern Acoustical Fastening System, Exposed Type, be approved for voluntary installation in New York City on condition that the hangers and 1½ inch channels shall be installed in accordance with the requirements of C26-461.0 Administrative Building Code and the balance of the system shall be installed as herein described.

The Committee further recommends that when the tile used in conjunction with this system is of the fiber or combustible type the installation shall comply with the requirements of the Fiber Board Rules as to coverage as provided under Rule 3 and if the tile is of an incombustible nature the system may be considered as an incombustible suspended ceiling.

It is further recommended that all plans submitted to the Department of Housing and Buildings showing the proposed use of this ceiling shall be marked or stamped, "Approved by the Board of Standards and Appeals for use in New York City under Cal. Purpose

The material is to be used for making threadless joints with red brass "iron piped size" pipe or copper tubing "iron piped size."

Description

The Acheson Bronze Silver Brazing Tube Fitting, MS-Spec. MIL-F-1183 fitting is a bronze socket type fitting to be brazed to Copper or Brass pipe intended for installation wherever 150 pound standard weight bronze screw fittings are used; that is for 150 pound working steam pressure at

450°F or 300 pound non shock oil, water or gas lines at 150°F.

The cup of the fittings is reamed to close tolerances to accommodate the outside of standard pipe with the proper clearance between and also to produce a shoulder or stop for the pipe when it is inserted. This type of fitting has a tendency to reduce the turbulence since the internal diameter of the fitting is the same as the internal diameter of the pipe.

A suitable silver brazing alloy shall have the following contents: Copper 80%, Silver 15%, Phosphorus 5%; this alloy shall be used in the making of all joints.

In making a joint the pipe and fitting are thoroughly cleaned and pipe must be cut square, free from burrs and fitted hard against the shoulder of the cup of the fitting. The whole assembly is then supported for alignment and pitch. The pipe is then heated until the flux is "working" or bubbling. The heat is then switched to the fitting and heated until the flux is entirely melted and fully active. The alloy is then applied and both the pipe and fitting are heated, by moving the flame from the pipe to the fitting, until the alloy flows by capillary attraction into the clearance between the cup and the pipe wall. As the alloy flows the flame is moved around the fitting at the bend and additional alloy is added to fill the space and make a small fillet.

In relation to whether this process constitutes welding as defined in C26-1254:

1. Brazing process form one of the three subdivisions of welding in the American Welding Society's master chart if welding process and the Society defines brazing as "a group of welding processes wherein the filler metal is a non-ferrous metal or alloy whose melt point is higher than 1000°F, but lower than that of the metals or alloys to be joined". It is to be noted that only the filler metal melts, not the parts joined. It is also to be noted that the soldering processes are excluded by the 1000°F, minimum melting point of the filler metal, although the improper use of the word "soldering", describing true brazing persists to some extent in the trades.

2. There is no other welding process besides brazing established in the forming of joints in non-ferrous pipe; therefore the term "welding" in Administrative Code C26-1254 refers to brazing when applied to non-ferrous pipe joints.

Inspection and Test

A comprehensive range of tests were conducted at the New York Testing Laboratory in the presence of Asst. Engr. J. A. Darts, Committee on Test and F. Head, Jr., representing the applicant.

The tests included the following: Hydrostatic, Tensile, Compression and Vibration and were a comparative test between the brazed fittings and the screwed fittings.

Results were as follows:

1. Hydrostatic Test: Two 1 inch nipples, 3 inches long were connected by means of a coupling and both ends were capped by a standard pipe cap, being drilled and tapped and connected to a Hydraulic pump.

Result: Two tests on the brazed fittings showed failure at the tube splitting at 3800 lbs. with no failure in the joint. Two tests on the screwed fitting showed failure at the cap bursting at 5800 lbs.

2. Tensile Test:

1" Brazed Broke in tube, joint intact	8530 lbs.
1" Screwed Broke at threads	9820 lbs.
1½" Brazed Broke in tube, joint intact	12940 lbs.
1½" Screwed Broke at threads	19310 lbs.
2" Brazed Broke in tube, joint intact	15530 lbs.
2" Screwed Broke at threads	22340 lbs.

3. Compression Test:

1½"—90° Brazed	Crack in elbow—	Joint intact — 11700 lbs.
1½"—90° Screwed	Crack in elbow—	Joint loose — 8740 lbs.
1½"—45° Brazed	Crack in elbow—	Joint intact — 7780 lbs.
1½"—90° Screwed	Crack in elbow—	joint loose — 8300 lbs.

MINUTES

2"—90° Brazed	Crack in elbow—	
	joint intact —	14250 lbs.
2"—90° Screwed	Crack in elbow—	
	joint loose —	12400 lbs.
2"—45° Brazed	Crack in elbow—	
	joint intact —	9870 lbs.
2"—45° Screwed	Crack in elbow—	
	joint loose —	7450 lbs.

4. Vibration Test: The screwed fitting began leaking at the completion of 75000 cycles of vibration. Brazed fitting showed no leakage at the completion of 120000 cycles of vibration.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data supplied by the applicant, the Committee on Test recommends the approval of the Acheson Bronze Silver Brazing Tube Fittings, MS-Spec. MIL-F-1183 under C26-191.0a for use in New York City for red brass or copper piping IPS sizes $\frac{3}{8}$ " to 2" inclusive conforming to C26-1234 and C26-1235 or any other brass or copper piping as approved by the Board under C26-1222.0 when installed as herein described; under C26-1240.0 as a new plumbing material when used for welded plumbing joints and connections as provided in C26-1254.0 provided that each package of Acheson Bronze Silver Brazing Tube Fittings, MS-Spec. MIL-F-1183 shall have a label reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. 877-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test,

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

944-54-SM

APPLICANT—Ajax Contracting Co., Inc., owner.
SUBJECT—Application December 2, 1954—Ajax Easy Opening Device for Cellar Trap Door, approval of.
APPEARANCES—

For Applicant: H. E. Horwood.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 944-54-SM

Subject: Ajax Easy Opening Device for Cellar Trap Doors, approval of.

The Ajax Contracting Company, Inc., owner, filed December 2, 1954 an application with the Board of Standards and Appeals for approval of the Ajax Easy Opening Device for Cellar Trap Doors under the provisions of C26-273 d and e of the Administrative Building Code.

Purpose

An easy opening device for sidewalk trap doors over cellar exit.

Description

The device consists of a spring bolt with chain also a flat iron push or lifting bar $1\frac{1}{2}$ " x $\frac{3}{8}$ ", which is pivot hinged to the underside of the trap door. At the bottom

of the lifting bar a $\frac{1}{4}$ " steel cable is connected which runs up and over a roller wheel which is connected to the steel frame of the door or other adjoining construction and then down to a counterweight at the bottom. The method of operation is to pull the chain which releases a spring bolt and gives a slight pull on the down cable or the counterweight. This causes the trap door to open and to stay in open position until closed manually.

Inspection and Test

The device was installed at two places in the cellar of 249-253 William Street, N.W. corner of New Chambers Street, New York City and was inspected and tested by Chief Engr. L. V. Huber of the Committee on Test and found to act satisfactorily remaining open until closed manually. Present at the test was H. W. Horwood representing the owner.

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends the approval of the Ajax Easy Opening Device for cellar trap doors when constructed and installed as herein described and as shown in drawing marked, Received December 2, 1954, provided each installation bears a label reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 944-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test,

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

734-29-A

APPLICANT—Wilco Realty Corporation, owner.

SUBJECT—Application for consideration—reopening as to amendment—re Appeal from a decision of the superintendent of buildings; previously granted on condition.
PREMISES AFFECTED—9-11 South William street, 1 Mill lane and 59-61 Stone street, Block 29, Lots 43 and 44, Borough of Manhattan.

APPEARANCES—

For Applicant—Jacob M. Black.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened and resolution adopted by the Board on March 25, 1930 amended.

THE VOTE—

ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on March 25, 1930, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 25, 1930, by omitting the words in the last two lines reading, "in single occupancy and tenancy", *on condition* that the requirements of the resolution cited shall be complied with in all other respects. (Violation order 5816/29)

929-50-A—Vol. II

APPLICANT—Henry George Greene, for Ruthbarb Holding Corp., owner.

MINUTES

SUBJECT—Application reopened November 23, 1954 as Vol. 11—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—241-243 West 23rd street, north side, 375 ft. east of 8th avenue, Block 773, Lot 22, Borough of Manhattan.

APPEARANCES—

For Applicant: Arthur P. McNulty.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated October 6, 1954, on Alt. App. 1540/54, reads:

"1. Provide two lawful means of egress from each floor area, including cellar, as per Sec. 271 of Labor Law.

Note: A fire escape is not accepted as a means of egress in a factory building more than five stories in height under Sec. 271 of L. L. as amended 7-1-47."

and

WHEREAS, the applicant states the building is 7 stories, 85 ft. in height, 40 ft. front by 98 ft. 9 in. in depth on first floor, 40 ft. front by 93 ft. 9 in. in depth at typical floor, Class 3 construction, erected in 1897 located in a retail use, B area, Class 1½ height district; used and occupied since approximately 1930: Cellar—boiler room and part vacant; 1st to 7th floors—Vacant; proposed to be used and occupied as follows: Cellar—boiler room and storage of incombustible materials, 0 persons; 1st to 7th floors, inclusive, factory, 30 persons on the 1st floor and 35 on each of the upper floors. The building is provided with an approved interior fire alarm system and regular monthly fire drills are maintained; there is one 3 ft. wide wood stairs, enclosed with plaster on metal lath equipped with fireproof, self-closing doors and leading from roof bulkhead direct to street, and one fire escape on the front extending to street by ladder; window and doors on course thereof are fireproof, self-closing; and

WHEREAS, the applicant states the occupancy will be limited to the capacity of the stairway at each floor; and

WHEREAS, the applicant requests that the Board consider these facts and grant permission to maintain the existing stairway and fire escape as the means of egress from the building; and

WHEREAS, on May 22, 1951, under Cal. No. 929-50-A, Vol. I the Board granted a variation of the requirements of the Labor Law as cited in Objection 1 issued by the Borough Superintendent on Alt. App. 1423/50, for a period of six months, to permit the owner to dispose of the building and report back to the Board, and permitting the then existing exits to remain, provided the building is occupied temporarily as then proposed and not occupied above the 5th floor except for executives; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. Applic. 1540/54, Objection 1, and that the appeal be and it hereby is granted on condition that the primary means of exit shall be maintained as proposed and as indicated on plans filed with this appeal, marked "Received January 20, 1955" (4 sheets); that as a second means of exit the existing fire escape on the front of the building may be permitted with counterbalanced stair to street and with gooseneck ladder to roof; that the existing door from the first story rear to adjoining yard of apartment building shall be maintained and from the cellar to said door to open yard there shall be a stair so as to permit exit to such adjoining yard; that such stair from cellar shall be enclosed and shall enter into a vestibule on the first floor where such door occurs and into such vestibule there shall also

be a door from the first floor rear; that the interior fire alarm system and monthly fire drills shall be maintained to the satisfaction of the Fire Commissioner; that such portable fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

APPLICANT—H. G. Jacobs Manufacturing, Inc., lessee, for Carl Tradelius, owner.

SUBJECT—Application November 24, 1953—re Appeal from a decision re an order of the Fire Commissioner.

PREMISES AFFECTED—124 East 124th street, south side, 90 ft. west of Lexington avenue, 4th floor; Block 1772, Lot 60, Borough of Manhattan.

APPEARANCES—

For Applicant: H. G. Jacobs.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, Order No. 91309LC issued by the Fire Commissioner June 13, 1952 and repeated in a decision of the Fire Commissioner dated November 19, 1953, reads:

"Dipping: Before a permit for the purpose indicated above may be issued to you, the following order must be complied with. Kindly notify this Department when such order has been complied with.

3. Provide a double walled metal cabinet, or wood cabinet metal covered on all sides, including the door, for the storage of more than 100 gallons, but not exceeding 200 gallons, of spraying material. Paint storage cabinet to be ventilated to the outer air at both top and bottom. Rule 6.1.2, Spray Rules.

6. Discontinue use of electric drying oven which has not been approved by the Board of Standards and Appeals. Rule 4.5.1."

and

WHEREAS, the applicant states the building is 5 stories in height, 50 ft. front by 100.11 ft. in depth, of fireproof construction, erected 1889, located on a lot 50 ft. front by 100.11 ft. in depth, in a business use, B area, class 1½ height district and used and occupied since 1949 as follows: cellar—storage, no persons; 1st floor—assembly and furniture frames, 5 persons; 2nd floor—manufacturing venetian blinds, 8 persons; 3rd floor—manufacturing photographic projection screens, 3 persons; 4th floor—processing solid plastic material, 12 persons; 5th floor—vacant; that no change in use or occupancy is now proposed; that the building is provided with an interior fire alarm system and regular monthly fire drills are maintained; that there is one interior 6 ft. wide steel and concrete stairs enclosed in brick and concrete, equipped with metal self-closing doors and leading from roof bulkhead direct to street and one fire escape on the rear extending to roof by stair and to yard by stair, with egress from its lower termination in yard through yard and adjoining premises to street; that window and door openings on the course of the fire escape are fireproof, self-closing; and

WHEREAS, Certificate of Occupancy #36298 issued October 25, 1949 upon completion of work under Alt. Applic. 1780/46, describes the building as class 1 construction and permits the following use and occupancy: cellar—factory, 5 persons; 1st floor—factory, 10 persons; 2nd floor—factory, 30 persons; 3rd floor—factory, 32 persons; 4th floor—factory, 18 persons; 5th floor—factory, 18 persons; and contains the note that not more than 75% of the total floor space of building is to be used for manufacturing and such manufacturing is to be of such type as permitted in a business district by the zoning resolution; and

MINUTES

WHEREAS, the lessee was convicted and fined in Municipal Term, Magistrates Court, June 24, 1953 on a charge of violation of section C19-84.0 of the Administrative Code; and

WHEREAS, the applicant states that the principal business of the tenant on the 4th floor is the processing of tenite #2 plastic into handles for tools; that the material is turned in a lathe and then dipped into an acetone solution; that the dip-tank is 24 in. by 29 in. by 12 in., within drying enclosure and constructed of 16 gauge metal; that the tank contains a solvent into which plastic handles are dipped by a conveyor and carried to the drying chamber constructed of two layers of metal with 1½" asbestos insulation; that the doors in front of drying chamber are of heavy metal provided with spring hinges, held open by a chain with fusible link, in accordance with rule 4.1.1; that the dip tank is provided with an automatic system which consists of one 15 lb. CO₂ cylinder activated by fusible link and two spray nozzles on the edge of tank; that one sprinkler head, connected to house water supply, is installed in front of the drying equipment; that heater and drying compartments are designed for not more than 120°F. in drying chamber and therefore cannot be classified as a drying oven; that the heating elements, Waage Electric Heater, is approximately 12 in. long, 13 in. high and 12 in. deep enclosed in heavy sheet plates; that air from the outside passes through this unit and leaves same at an average 180°F., that a safety valve at the opening of this unit is set to shut off heater at a maximum temperature of 200°F.; that the hot air is blown into the drying chamber by an explosion proof motor and fan through an insulated duct; that the distance between heater and entrance to chamber is 16 ft. measured in line of duct; that a screen at the outlet of heating unit and between unit and blower prevents sparks from entering drying chamber; that a second safety switch at inlet of the hot air duct and the drying chamber shuts off heater when temperature exceeds 120°F.; that the drying chamber exhausts by a duct with explosion proof motor and blower capable of removing 1400 cfm with 1001 fm; that this exhaust will be to the rear yard and then to the roof; that this exhaust will be kept running and the fan control interconnected with heater to operate simultaneously and will be kept in operation for a sufficient length of time thereafter to exhaust all vapors or residues from the dipping tank; that dipping unit No. 2 which is 2 ft. 1 in. long and 1 ft. 9 in. wide and 3 in. deep, is equipped with hood and exhaust terminating at roof, hinged cover with fusible link, sprinkler head and 4 lbs. CO₂ extinguisher in accordance with the spray rules of the Board; that the materials storage room is approximately 5 ft. by 4 ft. of 4 in. concrete ceiling and floor slabs and brick walls equipped with fireproof self-closing door with a 6 in. concrete sill; that a sprinkler head will be installed in this room; that request is made for approval of a lot line window for the storage room since the building opposite is lower than the storage room; that not more than 50 gallons of acetone and 50 gallons of lacquers will be stored in this room; and whereas, the premises were inspected by a committee of the Board.

Resolved, that the decision of the Fire Commissioner, as expressed in Order #91309 LC, Objection 6, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the drying oven shall be equipped as proposed subject to Fire Department license to use and maintain as now proposed and indicated on revised plans marked "Received February 17, 1955" (4 sheets); that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that such fire-fighting appliances shall be maintained as the Fire Commissioner shall require; that the interior fire alarm system and regular monthly fire drill shall be maintained to his satisfaction; that the enclosed storage room shown on such plans may be approved, as objected to by the Fire Commissioner under Objection 3; that the means of ventilation by a double hung window in rear wall may be accepted as ventilation so long as such window opens on unbuilt upon portion of the premises in the rear of the building; that the door shall be fireproof, self-closing and there shall be a concrete sill at the doorway not less than 6 inches in height

and for the full width of the jamb; that the use of all combustible or inflammable materials shall be subject to permits issued by the Fire Commissioner.

564-54-A

APPLICANT—Daniel Laitin, for 14 Warren Street Corp., owner (Haber and Fink, Inc., lessee).

SUBJECT—Application June 23, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—12-14 Warren street, north side, 190 ft. west of Broadway, Block 135, Lot 5, Borough of Manhattan.

APPEARANCES—

For Applicant: Daniel Laitin.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 10, 1954, on Alt. App. 418/50 reads:

"1. The exits from cellar and subcellar should comply with Sec. 271 Labor Law."

and

WHEREAS, the applicant states the building is 5 stories, 67 feet in height, 49 ft. 11 in. front by 100 ft. in depth at 1st floor, 49.11 ft. front by 90 ft. in depth at typical floor, Class 3 construction, erected in 1905 on a lot 49.11 ft. front by 100 ft. in depth, in a retail use, B area, Class 2½ height district; used and occupied since 1940: Subcellar—storage, 0 persons; cellar—offices and storage, 20 persons; 1st floor—store, 25 persons; 2nd, 3rd and 4th floors—offices, 20 persons per floor; 5th floor—factory, 35 persons. No change in use or occupancy is now proposed. The building is equipped with an approved standpipe system and a perforated pipe system in cellar and subcellar and an ADT connected interior fire alarm system; that there are two 3 ft. 8 in. wide interior stairs of steel with cement treads, enclosed in 4 in. terra cotta block partitions, equipped with fireproof, self-closing doors, leading from roof bulkhead direct to street; and

WHEREAS, Violation #4475 was issued July 10, 1953, for installing the following items contrary to plans approved under Alt. App. 418/50:

"1. stairs at rear building from 1st floor to basement and fireproof enclosures for same not provided.

2. Basement used as offices and storage instead of boiler room and storage as shown on specification sheet."

and

WHEREAS, the owner was fined in Magistrate's Court on June 23, 1954, on charge of violation of Sec. C26-178.0 of the Administrative Code; and

WHEREAS, Certificate of Occupancy #12860 was issued August 16, 1927, upon completion of work under Alt. App. 1290/25, permitting the following use and occupancy: Sub-basement—storage; basement—restaurant, 125 persons; 1st floor—restaurant, 125 persons; 2d to 5th floors, inclusive, factory, 12 persons per floor; and

WHEREAS, the applicant states there are two enclosed steel stairs serving the upper stories, one of these stair enclosures continues to cellar and subcellar; that the cellar and subcellar also have an auxiliary steel stairs, sprinklered, with non-automatic type sprinkler heads connected to Fire Department siamese connections; that the cellar and subcellar floors are completely sprinklered with a non-automatic sprinkler system; that although the existing certificate of occupancy permits factory use on the 2nd, 3rd, 4th and 5th floors, only the 5th floor is used for factory work; that the 2nd, 3rd and 4th floors are used as offices; that the 1st floor is used as a photographic store; that the cellar is used as offices and

MINUTES

storage in connection with the store on the 1st story; that the subcellar is used for dead storage for this store; there is no boiler room, the building being heated by steam from the N. Y. Steam Co.; and

WHEREAS, the applicant requests that the Board modify the decision of the Borough Superintendent and vary the requirements of the Labor Law, in view of the fact the auxiliary stairs from the cellar to the 1st floor lands in the store 8 feet from the street exit doors and as there is no occupancy in the subcellar and as the cellar occupancy is limited to 20 persons; and

WHEREAS, the applicant states the entire building is equipped with a thermostatically operated alarm system with A.D.T. connections; and

WHEREAS, the applicant states that any films stored in the building is of the noninflammable type and is used for resale purposes only; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 418/50, Objection 1, and that the appeal be and it hereby is *granted on condition* that the means of exit from the cellar and subcellar shall comply with arrangement proposed, as indicated on plans filed with this appeal, marked "Received January 10, 1955", (11 sheets); that the cellar and subcellar ceilings shall be fire-retarded; that such portions of the building shall be equipped with a wet sprinkler system of at least one source complying with the requirements therefor; that in the subdividing wall in the cellar and subcellar all door openings from one part to the other shall be fireproof, self-closing with fusible link; that the stairs leading from the front of the building from the first floor to cellar and subcellar shall be enclosed on those stories; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area.

APPLICANT—Reuben Rappaport, for All States Holding Corp., (Parsons School of Design, lessee).

SUBJECT—Application January 6, 1955—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—410-416 East 54th street, south-side, 194 ft. east of 1st avenue and 415-423 East 53rd street, Block 1365, Lot 9, Borough of Manhattan.

APPEARANCES—

For Applicant: Reuben Rappaport.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated January 3, 1955, on amendment to Alt. App. 264/54, reads:

"C6. Wood stud partitions in f.p. building are contrary to 10.9.2.5 B.C."

and

WHEREAS, the applicant states the building is 6 stories, 91 feet in height, 100 ft. by 200.10 feet in area, of Class 1 construction, erected in 1924, located in a residence use, B area, Class 2 height district; used and occupied since 1954: Cellar—garage, 25 persons; 1st floor—garage, 30 persons; 2nd, 3rd, 4th and 5th stories—factory and storage; 6th story—factory and design; proposed to be used and occupied: Cellar, same; 1st floor—same; 2nd floor—factory and storage, 224 persons; 3rd and 4th floors—Parsons School of Design, 250 persons each floor; 5th and 6th floors—fac-

tory and storage, 190 and 300 persons, respectively. The building is provided with an approved standpipe system and an approved two-source sprinkler system throughout; there is an approved interior fire alarm system. There are two interior 44 in. wide reinforced concrete stairs, enclosed in 6 in. terra cotta, equipped with kalamein, self-closing doors; stairs lead to roof bulkhead; the other is provided with ladder and scuttle to roof; both stairs lead direct to street; and

WHEREAS, Certificate of Occupancy #39566 issued May 2, 1949, upon completion of work under Alt. App. 1610/48 permits the following use and occupancy: Cellar—garage for more than 5 motor vehicles, 25 persons; 1st floor—garage for more than 5 motor vehicles and motor vehicle repair shop, 30 persons; 2nd, 3rd, 4th, 5th and 6th stories—factory and storage, 224, 135, 165, 190 and 300 persons respectively; and

WHEREAS, Violation #4778 of 1954 was issued for failure to file plans for partitioning of the 3rd and 4th floors for use as a School of Design; and

WHEREAS, the applicant states the partitions were installed during July and August of 1954; and

WHEREAS, the applicant contends that the interior partitions on the 3rd and 4th floors were constructed of 2 in. by 4 in. wood studs, 16 in. on c., 7 ft. in height and covered both sides with sheetrock; this installation was made in error; and

WHEREAS, the applicant requests the Board grant consideration so as to permit in the existing stud partitions covered with sheetrock to remain in place; and

WHEREAS, the applicant states that the 3rd and 4th floors of this building, which are occupied by The Parsons School of Design, lessee, are mechanically ventilated as per requirements of the Building Code; and

WHEREAS, the premises were inspected by a committee of the Board, which recommended that the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on amendment to Alt. App. 264/54, Objection C6, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit the continuance of the existing stud partitions on the 3rd and 4th floor—as proposed and as indicated on plans marked "Received January 6, 1955" (2 sheets); that this variance may continue only so long as the occupancy of these two floors is by the Parsons School of Design and the partitions are maintained substantially as shown on such plans not continued to the ceiling; that such existing means of exit shall be maintained as shown; that the approved two-source sprinkler system throughout the building shall be maintained in accordance with requirements therefor, as well as the approved fire alarm system and fire drills if required.

Bulletin No. 50, Vol. 39, are hereby corrected to read as follows:

CORRECTED REPORT OF COMMITTEE ON TEST

Re: Cal. 1014-41-SA—Vol. II

Subject: Amendment to resolution as to additional Models—Spot Fire Lowecator, Models 501, 502, 503 and 504.

Fire Devices Inc., New York, requested by filing an application dated on February 15, 1954 that the resolution adopted on April 7, 1942 and amended June 8, 1943 under Cal. No. 1014-41-SA—Vol. I be amended to include the Spot Fire Lowecator, Models 501, 502, 503 and 504. The application was reopened by a vote of the Board on March 9, 1954 under Cal. No. 1014-41-SA—Vol. I.

Purpose

The appliance is a thermostat of the spot type rate principle of operation with an auxiliary fixed temperature release.

Description

The Board approved the Spot Fire Lowecator under Cal. No. 1014-41-SA—Vol. I. The requested Models, namely 501, 502, 503, and 504, differ in the following respects from the Models 101 and 102.

The base section has been re-designed to provide more positive sealing at the junction between base and bronze shell and also between the base and diaphragm. The base, instead of having semi-circular mounting lugs, now incorporates a round $3\frac{1}{8}$ inch diameter bottom section which is provided with two mounting holes.

The copper diaphragm and brass stop plate has been replaced by an aluminum diaphragm and stop plate.

The bronze shell has been increased in size so as to give an extra one cubic inch air capacity inside the shell.

The electrical rating has been changed so as to permit the use of the unit with systems employing less than 24 volts. The new ratings are as follows:

6-125 volts A.C.—1 ampere
6-24 " D.C.—1 "
125 " D.C.—0.3 "

The fixed temperature has been changed as follows:

Model 501—combining rate of rise with fixed temperature set at 136° F. and the Model 502 combining rate of rise with fixed temperature set at 190° F.

The Models 503 and 504 are exactly the same construction as the 501 and 502 with the exception that the vent mechanism is omitted. This opens the interior chamber to the free passage of air and negates the rate of rise, thus leaving only a fixed temperature thermostat. The fixed temperature elements are set as follows: 503 set at 136° F. and 504 set at 190° F.

Inspection and Test

The appliances were inspected and tested at 40 Worth street, New York City, by Asst. Engr. J. A. Darts, Committee on Test and were found to operate as designed. The details of construction were discussed with R. C. Lent, Supervising Electrical Inspector, Fire Department.

The new Models have been approved by the Underwriters Laboratory under Signal 397, Application No. 53C2611 a copy of which is on file with and is part of the record.

Recommendation

On the basis of the inspection and the data filed by the applicant the Committee on Test recommends that the resolution adopted April 7, 1942 under Cal. No. 1014-41-SA—Vol. I be amended so as to include the Models 501, 502, 503 and 504 on condition that the wiring shall be #14 B & S wire gauge rubber insulated single braid, protected as required in the approved system in which this device is used and this device shall be mounted on a junction box cover which is in turn attached to an open metallic outlet box ar-

MINUTES

ranged to receive wiring protection and the Models 503 and 504 shall be rated for coverage of 225 sq. ft. and the Models 501 and 502 shall be rated for coverage of 900 sq. ft. and further that all the requirements of the resolution adopted on April 7, 1942 under Cal. No. 1014-41-SA—Vol. I be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,

CORRECTED REPORT OF COMMITTEE ON TEST

Re: Cal. 314-54-SM

Subject: Gold Bond Corrugated Asbestone Roofing and Siding and Accessories, approval of.

Sheldon H. Cady for National Gypsum Co., Buffalo, New York, filed an application with the Board of Standards and Appeals for approval of the material known as Gold Bond Corrugated Asbestone, Roofing and Siding and Accessories under the provisions of C26-88.0, C26-242, and C26-243.0 Administrative Building Code.

Purpose

The material is to be used as an incombustible covering on Class 4 construction and as siding on Class 5 construction.

Description

The material Asbestone is manufactured in two types, Standard and Economy. The standard weight is 4.0 lbs. per sq. ft.; is 3'-6" wide, pitch is 4.2" center to center and thickness is $\frac{3}{8}$ " at crest and vales and $\frac{1}{8}$ " at flanks. The Economy is 2.5 lbs. per sq. ft.; is 3'-6" wide, pitch is 4.2" center to center and thickness is $\frac{1}{4}$ " at crest and vales.

The material is manufactured by what is called the wet process. Asbestos fibers, cement and water are mixed and blended. This slurry then passes to a machine where the cement fiber and small amount of water are picked up on a revolving wire screen cylinder and transferred to an endless nylon blanket. These accumulated of cement and fiber are built layer upon layer on the steel roll until the desired thickness is reached.

The flat wet sheets are passed from the accumulator roll to an assembly of raised rollers for corrugation and then onto a corrugated metal form. The mass is then placed under a 5,000 ton hydraulic press where the sheet is pressed to obtain strength, uniformity of contour and density. The sheets are then stored for curing.

The accessories consist of fastener assemblies, closure strips, corner roll, ridge roll, turn, blades and compounds.

Inspection and Test

The material was tested at the plant of the applicant at Buffalo, New York, in the presence of Asst. Engr. J. A. Darts, Committee on Test. R. G. Buerger; S. H. Cady and R. H. Slowinski representing the applicant and F. S. Wehner of Pittsburgh Testing Laboratory.

A panel of the $\frac{1}{4}$ " asbestone was tested to withstand an assumed wind pressure of 30 lb. per sq. ft. The test was so arranged as to pull the panel off the girths as C26-349.0 states "Parts of structure—to resist wind pressure from any direction."

The asbestone was attached to the under side of the test frame with fasteners, spaced 18" on centers. The unsupported area under load was 3'-6" x 4'-7" or 16.04 sq. ft. Total load = 899 lbs. — Load in lbs. per sq. ft. = $899 \div 16.04 = 56$ lbs. per sq. ft.

The material may also be rated as incombustible as having met the requirements of C26-88.0 Administrative Building Code.

The complete report of the Pittsburgh Testing Laboratory is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Gold Bond Asbestone Roofing and Siding as an incombustible material under the provisions of C26-88.0 Administrative Building Code for the following uses:

As a siding on metal buildings as provided under C26-243.0 on condition that the 10'-0" x 3'-6" x $\frac{1}{4}$ " and the 12'-0" x 3'-6" x $\frac{3}{8}$ " panels be fastened to girths spaced at a maximum 5'-6" for the $\frac{3}{8}$ " thick material and 3'-6" for the $\frac{1}{4}$ " thick material on centers by means of clips spaced at a maximum of 1'-6" on centers.

As an incombustible covering on wood frame structures as provided in C26-242.0 Administrative Building Code.

As a roof covering as provided under C26-605.0 through C26-608.0 Administrative Building Code.

It is further recommended that each bundle or container in which this material is marketed be marked, stamped or labeled as follows, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 314-54-SM."

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

CORRECTED REPORT OF COMMITTEE ON TEST

Re: Cal. 211-50-SM

Subject: A. Pollera & Sons, Concrete Blocks, approval of.

A. Pollera & Sons, Inwood, Long Island filed March 9, 1950, an application with the Board of Standards and Appeals for approval of the A. Pollera & Sons Concrete Blocks under the provisions of the Masonry Rules of the Board and C26-306.0 Administrative Building Code.

Purpose

The material is concrete masonry units used in building construction.

Description

The blocks are concrete blocks formed on a Seth-O-Bar Block machine of a mix as follows: $\frac{1}{2}$ cu. yds. of sand and grits to one and one-half bags of approved Hi Early cement. The water cement ratio is 5 gallons of water per sack of cement.

The blocks, after being formed on the machine are kiln dried for at least twelve hours then air cured for at least 2 weeks. The kilns have a capacity of 1440 blocks each.

Inspection and Test

The plant of the applicant at 600 Burnside Avenue, Inwood, Long Island, was inspected by Asst. Engr. J. A. Darts, Committee on Test and J. Pollera & T. Fisher representing the applicant. Sample blocks were identified and marked and load tests, in accordance with the requirements of the Masonry Rules were conducted at Sam Tour & Co., Inc.

Results were as follows:

1. 4" x 8" x 16"—75% Solid
Compressive Strength (average of 5 blocks)—1658 psi
Absorption % (average of 5 blocks)—6.86%
2. 4" x 8" x 16"—Solid
Compressive Strength (average of 5 blocks)—2429 psi
Absorption % (average of 5 blocks)—4.97%
3. 8" x 8" x 16"—Hollow
Compressive Strength (average of 5 blocks)—1260 psi
Absorption % (average of 5 blocks)—5.25%
4. 8" x 8" x 16"—Solid
Compressive Strength (average of 5 blocks)—2450 psi
Absorption % (average of 5 blocks)—5.25%
5. 8" x 12" x 16"—Hollow
Compressive Strength (average of 5 blocks)—1805 psi
Absorption % (average of 5 blocks)—5.72%
6. 8" x 12" x 16"—Solid
Compressive Strength (average of 5 blocks)—1884 psi
Absorption %—5.72%

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the A. Pollera & Sons Concrete Blocks in the following sizes:

1. 4" x 8" x 16"—75% Solid
2. 4" x 8" x 16"—Solid
3. 8" x 8" x 16"—Hollow
4. 8" x 8" x 16"—Solid
5. 8" x 12" x 16"—Hollow
6. 8" x 12" x 16"—Solid—for use under the provisions of

the Masonry Rules of the Board on condition that the marking requirements be complied with; that seven copies of drawings showing the manufacturer's distinguishing mark and its method of application with the additional marks required under Rules 8.1 and 8.2 shall be filed with the Board and that all other provisions and requirements of the Masonry Rules of the Board shall be complied with.

* Correction: Item 3 and 5 in *Inspection and Test*—change to hollow. Item 3 and 5 in *Recommendation*—change to hollow.

*CORRECTION

The minutes of the meeting of the Board of Standards and Appeals held on January 18, 1955, as they appeared in Bulletin No. 4, Vol. 40, are hereby corrected to read as follows:

CORRECTED REPORT OF COMMITTEE ON TEST

Re: Cal. 183-54-SM

Subject: Wiremold Flexible Connector, approval of.

The Wiremold Co., Hartford, Connecticut filed March 5, 1954 an application with the Board of Standards and Appeals for approval of the material known as Wiremold Flexible Connector under the provisions of C26-88.0 and C26-191.0 Administrative Building Code.

MINUTES

Purpose

The connector is to be used as a connector between branch lines and air diffusers on air conditioning systems.

Description

The duct is two elements constructed of a fiberglass fabric interlocked with a metal strip. The metal strip is constructed of $\frac{1}{2}$ " x .010" electrogalvanized cold rolled steel $\frac{1}{4}$ hard #3 temper. The fabric is a vinyl coated fiberglass laminated to aluminum foil; the overall thickness of this fabric and foil is .012 inches.

The interlocking of the steel and the fabric is in a continuous spiral. The fabric and steel strip are mechanically bound together by means of the steel strip being so formed as to engage the edge of the fabric with the use of adhesives. This interlocking of the fabric and strip is effected by the edges of the fabric clamped between the surfaces of the metal strip. The lead of the spiral is $\frac{5}{8}$ inches.

Inspection and Test

Samples of the material, the smallest section; 3 inch O.D. and the largest section; 10 inch O.D. were tested in accordance with the requirements of C26-88.0 Administrative Building Code in the presence of Asst. Engr. J. A. Darts, Committee on Test and P. Roedel representing the applicant. There was no melting of either specimens when exposed to temperature of 900°F for five minutes nor was there any ignition of either specimens when exposed to a temperature of 1200°F for five minutes. The material was also subjected to an air test of 5 psi while the specimens were submerged in water; there was no leakage from the connector.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval, for voluntary installation, in New York City, of the material known as Wiremold Flexible Connector, Type 513-SA as having met the requirements of C26-88.0 Administrative Building Code to be used as a connector between branch lines and diffusers on air conditioning systems and between branch ducts and air mixing units on condition that the connector shall not pass through partitions and further that all packages in which this material is marketed shall be marked, labeled or tagged: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 183-54-SM."

* Correction: In *Recommendation*—Added word Type 513-SA.

*CORRECTION

NOTICE

THE BUILDING LAWS AND AMENDMENTS THERETO

THE VARIOUS BUILDING LAWS OF THE CITY OF NEW YORK ARE published in FOUR SEPARATE VOLUMES, consisting of matters affecting or relating to the construction, maintenance, alteration, demolition or removal of structures and buildings in the City of New York; including excerpts from the STATE LABOR LAW, the PLUMBING CODE, ELEVATOR RULES, THE NEW YORK CITY CHARTER, the complete BUILDING CODE OF THE CITY OF NEW YORK; the MULTIPLE DWELLING LAW, the STATE PLASTERING LAW, various local laws, and building and construction rules and regulations adopted by various City and State agencies.

These volumes are now ON SALE at the office of the Supervisor of the City Record, ROOM 2213, MUNICIPAL BUILDING, MANHATTAN, NEW YORK 7, N. Y. The price for the complete set of four volumes is \$4 (\$4.25 by mail), single volumes each containing certain parts of the above described laws, \$1 (by mail \$1.10).

Checks for \$3 or more must be certified.

PUBLIC HEARING

PROPOSED RULES FOR APPROVAL AND USE OF AIR ENTRAINING PORTLAND CEMENTS

CAL. NO. 64-55-SR

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, March 11, 1955*, at 10 A. M., in room 1013, Municipal Building, Manhattan, on the Proposed Rules for Approval and Use of Air Entraining Portland Cements.

Statement.

Since 1946 the Board has received several applications for approval of air entraining cements but has not acted on such applications as it was felt that the use of such cements should not be permitted as Portland Cements under Sec. C26-312.0(a)1 of the Administrative Code.

The Engineering Division was assigned the task of examining the question whether air entraining cements should be approved under Sec. C26-312.0(a)2 of the Administrative Code, and determining what rules were necessary to govern their use.

ASTM Designation C175-53, as adopted by the American Society for Testing Materials, 1953, have been promulgated relating to types 1A, 2A and 3A cements when manufactured with air entraining additions interground with the clinker at the mill. Such additions are required to comply with ASTM Designation C226-51T.

Committee 613 of the American Concrete Institute met at Boston in February of 1953 and adopted "Recommended Practice for Selecting Proportions for Concrete", which include recommendations for the use of air entraining cements and the use of admixtures at the point of concrete mixing.

Studies of the effect entrained air on the strength and durability of concrete have been made by the Research and Development Division of the Portland Cement Association.

Federal Specification SS-C-192a, approved and promulgated April 22, 1952, covering Portland Cement, includes Types 1, 2, 3, 4, and 5 air-entraining cements for use by all Federal Agencies and limits the use of air-entraining agents to an amount less than 1 percent.

The use of air-entraining cements in concrete will result in an increase in workability and cohesiveness, a reduction in segregation and bleeding, increased resistance to the action of sulfate waters and will produce a more homogeneous and more durable concrete.

Air-entraining agents introduce into the concrete a larger amount of air than is usually found in concrete. Unlike the air usually found in concrete, intentionally entrained air exists in minute disconnected bubbles well distributed throughout the mass. These bubbles serve as reservoirs to accommodate expansion resulting from freezing of water within the concrete.

Thus, air-entrained concrete contains a larger amount of air and requires less water than normal concrete, and since each of these factors affect the yield and cement content of the mix, generally air-entrained concrete mixes should be designed by decreasing the sand volume by an amount equal to the net change in the volume of air plus water, as compared to a normal concrete mix designed to provide the same yield and cement content.

Although entrained air increases workability and durability, it tends to reduce strength of concrete except in very lean mixes. Bond strength ratios are influenced essentially in the same manner as compressive strength when the air content of the concrete is increased.

The reduction in compressive and bond strengths with increased air content is less for air-entrained concretes made with aggregates having a maximum size of $\frac{3}{8}$ " than for air-entrained concretes made with aggregates of $1\frac{1}{2}$ " to 2" maximum sizes.

Mixing time has a significant effect on the air content of concrete made with air-entraining cement. After ten minutes mixing there is a gradual decrease in air content of the mix.

As a result of studies made by H. W. Russell, Engineer of Materials, Illinois State Highway Division and Eivind Hognestad of the University of Illinois, it was found that bond was reduced about 10 percent on vertically cast bars when 4.5 percent air was entrained and 5 to 15 percent on horizontally cast bars when the amount of air entrained

exceeded 4 percent.

Report of W. A. Gordon, published in the proceedings of the American Concrete Institute, June 1946, Vol. 42, page 605, contains test data to show that entrained air in concrete has an effect on the modulus of elasticity similar to its effect on compressive strength. Moduli of elasticity are reduced from 2 to 3 percent for each percent of air entrained.

Test results reported by H. F. Gunnerson in the June 1944 proceedings of the American Concrete Institute (Vol. 40, page 477) indicate a reduction of modulus of rupture of up to 13 percent when up to 6 percent of air is entrained.

Report of R. F. Blanks and W. A. Gordon published in the Feb. 1949 proceedings of the American Concrete Institute (Vol. 45, page 469), describes test results that show that air-entrained concrete is more resistant to the passage of moisture and segregation than non-air entrained concrete.

Authority.

Pursuant to the powers vested in the Board by Section 665, Subdivision 2 of the New York City Charter, to adopt rules to carry into effect the provisions of Section C26-312.0(c)2 of the Administrative Building Code, which permits the use of cements of "other types" when approved by the Board and used in accordance with rules of the Board governing their use.

Definitions.

1.0 "Air Entraining Cement," shall mean Portland Cements Types IA, IIA, and IIIA, meeting the requirements of ASTM Designation C-175-53.

1.1 "Approved," for the purposes of these rules, shall mean approved by the Board of Standards and Appeals as "cements of other types" for use in New York City, pursuant to Section C26-312.0(c)2 of the Administrative Building Code.

2.0 "Air Entraining Cements," when approved may be used in New York City wherever the use of Portland Cement is permitted by the Administrative Code, under the following conditions:

2.1 Concrete containing air-entraining cement shall have a minimum air content of 3 percent and a maximum air content of 9 percent.

2.2 Mixing of concrete containing air-entraining cement shall conform to the provisions of Section C26-499.0 of the Administrative Code, except that the percentage of fine to coarse aggregates by weight shall be not less than 40 percent nor more than 100 percent.

2.3 When plain concrete containing air-entrained cement is used pursuant to Section C26-311.0 of the Administrative Code, the maximum allowable water cement ratio shall be $7\frac{1}{2}$ U. S. gallons per sack of cement.

2.4 When average concrete containing air-entrained cement is used pursuant to Section C26-365.0 b-1 of the Administrative Code, the maximum allowable water cement ratio shall be $6\frac{1}{2}$ U. S. gallons per sack of cement.

2.5 When average concrete containing air-entraining cement is used pursuant to Section C26-365.0 b-2 of the Administrative Code, the maximum allowable water cement ratio shall be 6 U. S. gallons per sack of cement.

The adoption of Rule 2.1 is necessary as resistance to freezing and thawing is not materially improved when air contents are below 3 percent and air contents above 9 percent cause excessive strength losses without materially increasing durability.

The adoption of Rule 2.2 is necessary as the use of high percentages of fine to coarse aggregates as permitted by Section C26-499.0 of the Administrative Code could lead to excessive strength losses due to high air content in general usage without considerable reduction in water cement ratios and rigid control of consistencies.

The adoption of Rules 2., 2.4 and 2.5 is recommended based on the report of Committee 613 of the American Concrete Institute as presented by the Committee to the American Concrete Institute convention held at Boston February of 1953, as published in the October 1953 issues of the Journal of the American Concrete Institute.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES FOR ARC AND GAS WELDING AND OXYGEN CUTTING, COVERING THE SPECIFICATIONS FOR DESIGN, FABRICATION AND INSPECTION OF ARC AND GAS WELDED STRUCTURES AND THE QUALIFICATIONS OF WELDERS AND SUPERVISORS (CAL. NO. 1-38-SR—VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday morning, March 18, 1955*, at 10 A. M. in Room 1013, Municipal Building, Manhattan, on the following Proposed amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, Covering the Specifications for Design, Fabrication and Inspection of Arc and Gas Welded Structures and the Qualifications of Welders and Supervisors.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 25, 1938.

EFFECTIVE MARCH 21, 1938. AMENDED MAY 17, 1940. EFFECTIVE JUNE 10, 1940; AND SEPTEMBER 17, 1954, EFFECTIVE OCTOBER 18, 1954.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, of the Charter of the City of New York and C26-514.0 of the Administrative Code (8.6.2.2).

These Proposed Amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, as printed herein in *italics*, are as suggested by the Allied Building Metal Industries as to welding of light structural steel such as fire-escapes, railings, gratings, door-bucks, etc., which are generally shop welded.

Old matter, in brackets [], to be deleted; new matter, in *italics*, to be substituted therefor.

Rule 1. Application for Permits.

- 1.2 [The commencement of any structural welding work is forbidden until an application for a permit to perform such work is filed with and approved by the

Borough Superintendent. The Borough Superintendent shall be notified in writing at least 48 hours prior to the date when the structural welding work is to commence.]

Structural welding work shall be performed only by approved contractors employing certified welders.

Rule 9. Supervision and Inspection.

- 9.1 [Any welding to be done on a structure or any part thereof shall be performed under the supervision of a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect or licensed engineer. Such agency shall be acceptable to the Borough Superintendent.]

Any welding to be done on a structure or any part thereof, in the field, excluding bar joists, shall be performed under the supervision of a representative of the Department of Housing and Buildings, or a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect, or licensed engineer. Such agency shall be acceptable to the Borough Superintendent. Shop welding on structural steel performed by approved contractors shall be the responsibility of the approved contractor, and shall not require supervision or inspection.

Rule 11. Metal Chimneys, Tanks, Stairs and Fire-Escapes.

- 11.1 [Stairs and fire-escapes shall be considered as light structural steel and where shop welded, shall have attached thereto a tag or label, affixed by the standard Testing Agency, to the effect that these Rules have been complied with.]

Stairs, fire-escapes, railings, gratings, door-bucks and other miscellaneous and ornamental metal, ferrous and non-ferrous work, shall not be considered as structural steel and therefore when welded need not be inspected by a standard testing agency.

PROPOSED RULES COVERING DRY CLEANING ESTABLISHMENTS PURSUANT TO THE ZONING RESOLUTION OF THE CITY OF NEW YORK (CAL. 958-47-SR VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, March 25, 1955*, at 10 A.M., in Room 1013, Municipal Building, Manhattan, on the Proposed Rules Covering Dry Cleaning Establishments, Pursuant to the Zoning Resolution of The City of New York.

These Rules are proposed to supersede those previously proposed under Calendar No. 958-47-SR, Vol. II on which a hearing was held March 12, 1954.

Authority

Section 666, Subd. 2 of the Charter of the City of New York and Article V, Section 21 and Article II, Section 4(a), Subd. 53 of the Zoning Resolution of the City of New York.

Application of Rules.

These rules shall be deemed to apply only to those excepted dry cleaning establishments existing or hereafter established, pursuant to Article II, Sections 4(a), Subd. 53, 4-A, 4-B and 4-C of the Zoning Resolution.

These rules shall not be deemed to modify or repeal Chapter 19 of the Administrative Code of the City of New York.

Zoning Resolution.

ARTICLE I—DEFINITIONS

§1. Definitions. * * *

(cc) For the purpose of this resolution, "dry cleaning" includes cleaning textiles, fabrics, garments or other articles by the use of solvents other than water, extraction of the

PUBLIC HEARING

solvents therefrom, and drying the same. A "dry cleaning unit" is the machinery or equipment in which textiles, fabrics, garments or other articles are carried through a complete cleaning cycle. A "dry cleaning unit" may consist of one or more detached component machines.

ARTICLE II—USE DISTRICTS

§4. Business Districts. (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

(11) Dyeing establishments.

(53) Dry cleaning establishments, except for establishments which conform to the restrictions set forth below:

(a) Not more than two dry cleaning units shall be installed, and such units shall have an aggregate dry load capacity of not more than 60 pounds, as rated by the Board.

(b) The gross floor area of the dry cleaning establishment, including space used for dry cleaning, pressing and incidental operations, and space used for storage, service of customers and convenience of employees, shall not exceed 2,000 square feet. However, additional space may be used on a lower floor which is either a basement or a cellar, provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles.

(c) No solvent having a flash point less than 138.2 degrees Fahrenheit shall be used, except for incidental removal of spots.

To protect the public health, safety and welfare in accordance with the general purpose and intent of this resolution, to safeguard the character of the predominant types of uses located in the districts affected, and to protect the occupants of nearby residences and other premises from traffic congestion, fire, explosion, vibration, noise, heat, smoke, odors, toxic vapors and other forms of air pollution, the Board, after public notice and hearing, may adopt, and from time to time amend, rules and regulations for the operation and maintenance of dry cleaning establishments permitted under subsections (a), (b) and (c) above. Such rules and regulations may cover inter alia location of entrances to and exits from such establishments, installation of equipment and hours of operation of such establishments. Such rules and regulations may also prescribe the conditions under which such establishments may exist in buildings in which residences are located.

Any dry cleaning establishment which was in existence prior to January 1, 1953 in any use district to which the provisions of this section apply, may be continued, but no such establishment shall be enlarged or extended, nor shall the capacity of its dry cleaning units be enlarged, except in conformity with all the provisions of this section. Such existing establishments shall be subject to the aforesaid rules and regulations of the Board.

Section 4-A. Retail Districts. In a retail district the same regulations and restrictions shall apply as are provided for business districts except that no manufacturing or treatment of products shall be carried on other than such as are incidental to the conduct of a retail business conducted on the premises, or such other manufacturing as is now permitted in a business district, provided that in such other manufacturing not more than five per cent (5%) of the total floor space of the building is so used. However, any use or uses specifically authorized under the provisions of §3 (10) shall be permitted in a retail district. In addition, dry cleaning establishments conforming to the provisions of §4(a) (53) shall be permitted in a retail district, provided such establishments are for retail purposes where services are performed directly for consumers or for transient hotels, or as an accessory use in transient hotels and department stores.

Section 4-B. Restricted Retail Districts. In a restricted retail district, the same regulations and restrictions shall apply as are provided for retail districts except, that in a restricted retail district no building or premises shall be used

and no building shall be erected which is arranged, intended or designed to be used for any of the following purposes:

(j) Dry cleaning establishments, other than an establishment conforming to the provisions of §4-A, which is located in a passenger terminal, or as an accessory use in a transient hotel or a department store.

Section 4-C. Local Retail Districts. In a local retail district, the same regulations and restrictions shall apply below the level of that first story ceiling as are provided for restricted retail districts, except that no manufacturing of any kind shall be permitted; and no building shall be erected or structurally altered which is arranged, intended or designed to be used above the level of the first story ceiling for any use not permitted in a residence district. However, the provisions of this section shall not apply to projects authorized pursuant to §3 (10) of this resolution. In addition, the provisions of §4-B(j) shall not apply, and dry cleaning establishments conforming to the provisions of §4-A shall be permitted in local retail districts.

Rule 1. Definitions.

For the purpose of these Rules, the following definitions shall apply.

1.1. The term "dry cleaning establishment" shall mean any room, place or space in which dry cleaning is performed, as defined in the Zoning Resolution.

1.1.1. Dry Cleaning establishments to which these Rules shall apply shall be divided into two classes: Class A and Class B.

1.1.2. Class A dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall be non-inflammable and non-combustible when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.3. Class B dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall have a flashpoint of not lower than 138.2 F. when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.4. For other purposes a dry cleaning establishment shall be as defined in Chapter 19 of the Administrative Code.

1.2. For the purposes of Sections 4-A and 4-C of the Zoning Resolution the terms "retail", "retail purposes" and "retail business" shall refer only to those dry cleaning establishments which perform services on articles conveyed directly by a retail customer to such dry cleaning establishment or collected directly from and delivered to the retail customer by any vehicle or any other means of effecting the same and such dry cleaning establishment directly processes such articles for such customer.

1.3. The term "existing" shall mean those dry cleaning establishments established prior to January 1, 1953.

1.4. The term "heretofore established" shall mean those dry cleaning establishments established on or after January 1, 1953 up until the effective date of these Rules.

1.5. The term "hereafter established" shall mean those dry cleaning establishments established after the effective date of these Rules.

1.6. The term "inflammable liquid solvents" shall mean such as will emit an inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in a tagliabue open cup tester.

PUBLIC HEARING

- 1.7. The term "spotting" or "sponging" shall mean the local application of an "inflammable liquid solvent" to remove spots of dirt, grease, paint or stains from wear-apparel, textiles, fabrics or articles of any other sort.
- 1.8. All other terms used shall be as defined in the Zoning Resolution, Administrative Code, Multiple Dwelling Law, or Labor Law, when not inconsistent with the specific terms defined herein.

Rule 2. Approvals and Affidavits.

- 2.1. It shall be unlawful to use any premises for any hereafter established dry cleaning establishments without filing plans of that portion of the premises to be so used with the Department of Housing and Buildings by either the owner, lessee or agent of such premises on forms customarily furnished by the Department and an approval of the Department of Housing and Buildings obtained thereon.
 - 2.1.1. Before the Department of Housing and Buildings shall approve any plans of such hereafter established dry cleaning establishment which are Class B dry cleaning establishments the Fire Commissioner shall approve the plans submitted to the Department of Housing and Buildings as required by Rule 2.1.
- 2.2. The proprietors or agents of any heretofore established cleaning establishment shall file with the Department of Housing and Buildings statements under oath on forms furnished by the Department of Housing and Buildings as to the aggregate dry load capacity of the dry cleaning unit or units and the gross floor area of said establishment used in accordance with the Zoning Resolution, Sections 4(a), 53(b), and Rules 3.1 and 3.2.
- 2.3. The requirements of Rules 2.1, 2.1.1 and 2.2 shall not apply to existing dry cleaning establishments. The requirements of Rule 2.2 shall not apply to those heretofore established dry cleaning establishments which have previously obtained approvals on plans from the Department of Housing and Buildings where information substantially similar to that required to be furnished under said Rule 2.2. is on file with the said Department of Housing and Buildings.
- 2.4. All premises which contain existing dry cleaning establishments as well as all heretofore established and hereafter established dry cleaning establishments complying with the provisions of Rules 2.1, 2.1.1, 2.2 and 2.3 shall not be required to obtain a special certificate of occupancy relating to the use of the premises for a dry cleaning establishment.
- 2.5. No dry cleaning unit shall be installed six months after the effective date of these Rules unless such unit is approved by the Board of Standards and Appeals or unless an application for approval of the cleaning unit is filed with the Board of Standards and Appeals and a calendar number issued in connection therewith and a statement under oath is filed by the proprietor of the dry cleaning establishment or his agent that the dry load capacity of such dry cleaning unit is not greater than sixty pounds as defined below in Rule 2.6.
- 2.6. The dry load capacity of all dry cleaning units for the purpose of these rules and the Zoning Resolution shall be rated by the Board of Standards and Appeals on the basis of 2.8 pounds per cubic foot of the volume of the washing compartment for each washing cycle.
- 2.7. No dry cleaning solvent shall be used six months after the effective date of these Rules unless such solvent has been tested and rated by the Fire Commissioner or unless an application for such testing

and rating of such dry cleaning solvent is made with the Fire Commissioner.

- 2.7.1. It shall be unlawful to use any dry cleaning solvent in any dry cleaning unit having a flash-point other than that for which the dry cleaning unit is designed.

- 2.8. Except as otherwise expressly required by these Rules, nothing shall require any change in the construction, use of occupancy of any existing dry cleaning establishment or any change in the construction, use or occupancy in any heretofore established dry cleaning establishment which conforms with Sections 4(a), 53(a), (b) and (c), and Sections 4 (A), 4 (B) and 4 (C) of the Zoning Resolution adopted by the City Planning Commission on January 21, 1953.
- 2.9. No non-conforming existing dry cleaning establishment shall be enlarged or extended unless such extension or enlargement be made in a conforming manner.

Rule 3. Restrictions on Locations and Areas.

- 3.1. No dry cleaning establishment which is a heretofore established dry cleaning establishment or a hereafter established dry cleaning establishment shall have a gross floor area exceeding the aggregate of 2,000 square feet to be used for dry cleaning, pressing and incidental operations as well as space used for storage, service of customers and the convenience of employees. The square foot area limitation shall apply to the aggregate of all space so used on all floors and mezzanines of the premises involved above the cellar or basement thereof. Additional space may be used on a lower floor which is either a basement or cellar provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles. The use of such basement or cellar area may include the installation and use of a boiler, dead or cold storage, storage of supplies, storage and filtration of solvents and space utilized for specialized washing equipment.
 - 3.1.1. In calculating the gross floor area pursuant to Rule 3.1, the area restriction shall not include the area used by the non-dry cleaning operations of a multiple use type of service establishment where, in addition to dry cleaning, there may be a launderette, shirt laundering, shoe repairing, tailoring and alteration of garments, fur cleaning and glazing, and fur storage.
- 3.2. No Class B dry cleaning establishment hereafter established shall be permitted within any building:
 - 3.2.1. which is of wood frame construction;
 - 3.2.2. which is classified as a public building pursuant to Section C-26-235.0 of the Administrative Building Code;
 - 3.2.3. any part of which establishment is within 20 feet of any public building.

Rule 4. Egress.

- 4.1. The means of egress in all dry cleaning establishments shall be in conformity with the applicable provisions of the building laws and regulations governing such establishments. In addition thereto, all establishments shall conform to the following:
 - 4.1.1. A three foot (3 feet 0 inches) wide aisle providing access from the main work area to the required means of egress shall be provided. Such required aisle shall not be obstructed by any fixed obstruction in any manner whatsoever.

PUBLIC HEARING

4.1.2. In all hereafter established dry cleaning establishments all required exit doorways shall be arranged to swing outwardly in the direction of the egress.

Rule 5. Fire Prevention—Class B Establishments.

All hereafter established Class B dry cleaning establishments shall comply with the following:

5.1. No power or heating boiler shall be permitted in the same area or space where dry cleaning units are located, whether on the cleaning floor or floors or cellar or basement level unless either

(a) the boiler or boilers shall be enclosed in a 3-hour unpierced masonry enclosure and entered only from the outer air; or

(b) the boiler or boilers shall be enclosed in a 3-hour masonry enclosure with a one-hour fire proof self-closing door which opens into a ventilated vestibule similarly enclosed and entered by a one-hour fire proof self-closing door opening onto the interior of the premises or establishment.

5.1.2. The ceiling of all such boiler rooms as required in Rule 5.1 and the adjoining entrance vestibule referred to in Rule 5.1.(b) above shall be fire-retarded with one-hour fire resistive material.

5.2. Non-fire proof enclosing partitions and ceilings of any such dry cleaning establishment shall be fire-retarded with one-hour fire resistive materials and doors or in lieu thereof with one approved automatic one-inch wet pipe sprinkler head located over the cleaning unit which shall have its source of supply from the house water system.

5.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a one-hour fire proof self-closing door or fire-proof window assembly.

5.4. Except as provided in Rule 5.1, there shall not be employed in any such dry cleaning establishment any device or apparatus employing flame or fire which is likely to produce an exposed spark except electric apparatus placed at least five feet above the floor, or approved type of "explosion proof electric motors". In such establishments all lighting shall be fitted with keyless sockets and all switches and receptacles shall be placed at least four feet above the floor. Nothing contained in this rule or Rule 5.1 shall prohibit the installation of any gas, oil or electric heating device of a type approved by the Fire Commissioner under such conditions as he shall prescribe.

5.5. All solvent used in the dry cleaning unit shall be either (a) received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system, or (b) received and stored in a tank or tanks in accordance with the rules of the Board of Standards and Appeals relating to the receiving and storing of fuel oils and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 6. Fire Prevention—Class A Establishments.

All hereafter established Class A dry cleaning establishments shall comply with the following:

6.1. No power or heating boiler having a grate area in excess of 3 square feet shall be permitted in the same area or space where dry cleaning units are located

unless such boiler or boilers shall be enclosed in a one-hour fire proof partition and entered by a one-hour fireproof self-closing door whether from the interior of the premises or establishment or to the outer air.

6.2. All ceilings of all such boiler rooms as provided in Rule 6.1 shall be fire-retarded with one-hour fire resistive material.

6.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a fireproof self-closing door or fireproof window assembly.

Rule 7. Fire Prevention—All Dry Cleaning Establishments.

All existing, heretofore established or hereafter established dry cleaning establishments whether Class A or Class B shall comply with the following:

7.1. The provisions of Section C-19.161.0 of Chapter 19 of the Administrative Code.

7.2. No smoking shall be permitted in any such establishment except Class A establishments where fewer than six employees are employed. Approved signs shall be conspicuously posted to that effect as directed by the Fire Commissioner.

7.3. It shall be unlawful to store any inflammable liquids or solvents in quantities aggregating more than five gallons without a permit as provided in Article 9 of Chapter 19 of the Administrative Code.

7.4. All inflammable liquids and solvents used for spotting and sponging shall be contained in approved individual metal containers not exceeding two-quart capacity each.

7.5. All sludge or residue removed from a dry cleaning unit shall be placed in a metal container not exceeding 55 gallons of capacity with a tight fitting cover and shall be removed from the premises and disposed of in a lawful manner.

Rule 8. Ventilation.

8.1. All hereafter established dry cleaning establishments whether Class A or Class B shall be equipped with adequate ventilation to provide four complete changes of air volume an hour of such establishments during the operation of any dry cleaning units.

8.2. All Class A dry cleaning establishments whether existing, heretofore established or hereafter established shall have sufficient ventilation so as to prevent an excessive concentration of solvent vapors in the dry cleaning establishment. An excessive concentration of solvent vapors shall be that which exceeds the average of 200 parts of solvent vapors per one million parts of air during any working day.

8.3. The direct equipment exhausts or vents of any hereafter established dry cleaning establishment whether Class A or Class B shall terminate to the outer air in the following manner:

(1) At least 7 feet above the roof or legal street grade of the premises in which said establishment shall be located, and

(2) the exhaust shall be under static pressure by reason of a mechanical fan and the terminal of the exhaust, shall be at least five feet from any legal ventilating openings if said legal ventilating windows or legal ventilating openings lie on the

PAID

PUBLIC HEARING

same plane as the said exhaust terminal and when the said legal ventilating windows, or other legal ventilating openings lie on a plane which faces in the direction of the exhaust terminal the said terminal shall be at least 10 feet away from the same.

- 8.4. In all Class A dry cleaning establishments whether existing, heretofore established or hereafter established, all solvent used in the dry cleaning unit shall either (a) be received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system; or (b) be received and stored in a tank or tanks and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 9. Operating Precautions.

- 9.1. A printed notice embodying these Rules shall be posted in a conspicuous place in all dry cleaning establishments whether of Class A or Class B or whether existing, heretofore established or hereafter established.

- 9.2. The proprietor of any Class A establishment whether existing, heretofore established or hereafter established, shall furnish to any person cleaning out a dry cleaning unit containing any chlorinated hydrocarbon solvent an approved type respirator for his use during the process of cleaning out any such unit.

- 9.3. All equipment shall be installed in such manner as to minimize noise, vibration, smoke, and odors, and other forms of nuisances to the occupants of the premises in which such cleaning establishment may be located or to the occupants of any adjacent premises.

Rule 10. Penalties.

Any violation of these Rules shall be subject to the penalties prescribed in the Zoning Resolution therefor, in addition to other penalties prescribed by law.

Rule 11. Date of Rules.

The effective date of these rules is (the date of actual adoption).

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

CORRECTED

COURT DECISION

Matter of Conwall Corp'n. vs. Murdock:—On July 14, 1953, the Board denied an application under Sections 7e, 7f and 7i of the Zoning Resolution, to permit in a retail use district the erection and maintenance of a gasoline service station, lubritorium, auto laundry (non-automatic), storage and sale of accessories, motor vehicles and an office, and to permit the parking and storage of motor vehicles waiting to be serviced; Cal. No. 116-53-BZ; premises 162-11 to 162-29 Union Turnpike and 79-40 to 78-46—164th Street, northwest corner, Flushing, Borough of Queens.
At Special Term, Supreme Court, Mr. Justice Pette reversed the Board's decision on the following decision:

"In this proceeding brought pursuant to article 78 of the Civil Practice Act, to review a determination made by respondents, denying petitioner's application for a variance so as to use the subject property for a gasoline filling station and kindred uses, respondents move to vacate the order

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellant and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

72-54-BZ

APPLICANT—Degenhardt, Miller and Lindberg, for Flushing Hospital and Dispensary, owner.

SUBJECT—Application February 2, 1954—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles for use of doctors, nurses and other personnel of the hospital.

PREMISES AFFECTED—146-11 to 146-17 Elm avenue, west side, 211.5 ft. south of Parsons boulevard, Block 5198, Lot 39, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Eugene Miller.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn without prejudice, pending report from the hospital as to change of plans in the building so as to provide for parking within the proposed hospital extension.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

421-37-BZ—Vol. II

APPLICANT—Henry Nordheim, for Antonio Moccia, owner.

SUBJECT—Application August 26, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles (previously dismissed for lack of prosecution, for a larger plot).

PREMISES AFFECTED—1108 East 216th street, south side, 3.07 ft. west of Wilson avenue, Block 4710, Lots 22 and 23, Borough of The Bronx.

APPEARANCES—

For Applicant: H. Nordheim.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 28, 1954 subject to regular procedure; and

WHEREAS, a public hearing was held on this application on March 8, 1955, after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 216th street and Wilson avenue are in a residence use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 26, 1954 acting on amendment to Alt. Applic. 634-54, reads:

"1. In a Residence District the proposed parking and storage of motor vehicles is contrary to Art. II, Section 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 100 ft. in depth, presently vacant; that it is proposed to rent space for pleasure cars only; and

WHEREAS, the applicant contends that there are quite a number of small dwellings that were built before the requirement to provide car space was enacted and many of these owners have asked the privilege of storing on this lot, which presently has a chain link fence at the street front; that south of the site there are the 4-story apartment houses of the Hillside homes and many of the tenants would avail themselves of this facility; that the owner of this site is also the owner of the 2-story dwelling and store on lot 20, and he proposes to operate the site personally, thus insuring proper conduct and care of conditions on the site; that the site is now level with street grade and will require very little grading at rear; that it is proposed to enclose the lot on all sides except along the lot line between lot 22 and his lot 20, and since lot 20 and the site are all in one ownership, there seems no logical reason for a fence on that lot line; and

WHEREAS, the applicant states that the present owner has held title to the property since August 16, 1951 and that the assessed valuation of land is \$16,000; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of two years to permit the premises as proposed and indicated on plans filed with this application marked, "Received, August 26, 1954" (2 sheets) to be occupied for parking and storage of motor vehicles limited to the pleasure car type *on condition* that all uses shall be removed and that the premises shall be leveled substantially to the grade of Wilson avenue and shall be surfaced with clean gravel or steam cinders treated with a binder and properly rolled; that there shall be erected on the interior and rear lot lines a woven wire fence of the chain link type not less than five feet six inches in height; that a similar fence shall be erected on the street building line except for an entrance which shall be fitted with a gate of similar construction which

MINUTES

shall be kept closed when the parking lot is not in use; that opposite the entrance there may be a curb cut not more than fifteen feet in width; that the sidewalk and curbing in front of the premises shall be repaired to the satisfaction of the Borough President, and where no sidewalks and curbing exist such sidewalks and curbing shall be installed to his satisfaction; that such portable fire fighting appliances shall be maintained as the Fire Commissioner may direct; that signs shall be restricted to a permanent sign attached to the fence near the entrance advertising the type of cars parked and the rates charged and such other information as may be required by the Commissioner of Licenses; that a wooden bumper of suitable size and location shall be installed for the protection of the fence; that all permits shall be obtained and work completed and a certificate of occupancy obtained within six months from the date of this resolution.

303-49-BZ—Vol. II

APPLICANT—Norman Lederer and Leonard Joseph, for M. F. & S. Plumbing Supply Co., owner.

SUBJECT—Application reopened February 8, 1955 for consideration as to extension of term of variance and time to complete—re (decision of the borough superintendent), previously granted on condition under section 7h of the zoning resolution, permitting in a business use district, the extension in use and area of existing gasoline service station and the parking and storage of motor vehicles (previously granted by the Board for a term of fifteen years, expires September 1964), to include auto laundry, lubricatorium and office.

PREMISES AFFECTED—251 Beach 73rd street and 73-05 Beach Channel drive, southwest corner, Block 542, Lot 1, Arverne, Borough of Queens.

APPEARANCES—

For applicant: Norman Lederer.
For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Term of variance extended and time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, on September 20, 1949 this application (Vol. I) was granted by the Board on certain conditions under sections 7f and 7h of the zoning resolution, to permit in a business use district, for a term of 15 years, the erection and maintenance of a gasoline service station, auto laundry, lubricatorium, and the parking and storage of more than five motor vehicles; and

WHEREAS, the application was reopened as Vol. II on June 23, 1953 subject to the regular procedure, to consider extension of use; and

WHEREAS, on March 2, 1954, under Vol. II, the resolution was amended by adding: "that in event owner desires to extend area of gasoline service station, such extension may be permitted and to permit under 7h for a term of five years the parking and storage of motor vehicles waiting to be serviced or stored"; and

WHEREAS, the applicant requested reopening of this application and extension of time, to obtain permits and complete the work, which had expired by time limitation; and

WHEREAS, this application was reopened on February 8, 1955 and set for hearing on March 8, 1955 at 10 A. M., subject to the regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated February 3, 1955 acting on Alt. Applic. 123-53, reads:

"1. This amendment to renew application must be submitted to the B. S. & A. for its consideration. Cal. #303/49/BZ—Expired 9/2/54."

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on September 20, 1949, only so far as it has reference to the term of the variance and the time within which to obtain permits and complete the work, so that as amended this portion of the resolution shall read:

"that the term of the variance under Section 7h may be for a term of fifteen years, under the resolution adopted September 20, 1949; that all permits shall be obtained and all work completed and a new Certificate of Occupancy obtained within the requirements of Section 22A of the Zoning Resolution."

26-52-BZ—Vol. II

APPLICANT—Michael Levine, for Morris Hagel, owner.

SUBJECT—Application January 27, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles.

PREMISES AFFECTED—135 Herkimer street, north side, 192 ft. 3 in. east of Nostrand avenue, Block 1861, Lot 61, Borough of Brooklyn.

APPEARANCES—

For Applicant: Michael Levine.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on February 24, 1954 subject to regular procedure, previously withdrawn; and

WHEREAS, a public hearing was held on this application on February 8, 1955 after due notice by publication in the Bulletin; laid over to March 1, 1955 for applicant to file revised plans, and for inspection, hearing closed; then to March 8, 1955, for consideration by this Board; and

WHEREAS, the district maps accompanying the zoning resolution show that this site is in a residence use, C area, class 1¼ height district; Herkimer street is in residence and business use, C area, class 1¼ height districts; Nostrand avenue is in a business use, C area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated November 1, 1954, acting on Alt. Applic. 4133-54, reads:

"1. The proposed office, storage and parking of Motor Vehicles in a Residence use district is contrary to Art. II Sec. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 38.9 ft. frontage by 100 ft. in depth, presently vacant; that it is proposed to use the vacant lot for the parking and storage of motor vehicles; and

WHEREAS, the applicant contends that the property is in a heavily congested business area a short distance away from Nostrand avenue which is an important business street; that the 8th avenue subway is at Fulton street and Nostrand avenue, which is one block to the north of Herkimer street; that there is a vital need in this area for a parking lot and the owner has been informed by storekeepers along Nostrand avenue that such a lot would be a great convenience to them and to their customers and would assist in relieving the traffic congestion; and

MINUTES

WHEREAS, the applicant states that the present owner has held title to the property since May 28, 1945 and that the assessed valuation of land is \$3,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and also revised plans have been filed;

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of two years to permit the premises to be occupied substantially as proposed and as indicated on plans filed with this application marked, "Received, November 12, 1954" and "February 16, 1955" (one sheet), *on condition* that the premises shall be levelled substantially to the grade of Herkimer Street and shall be surfaced with clean gravel or steam cinders and treated with a binder, properly rolled; that on the interior lot lines there shall be erected a woven wire fence of the chain link type where walls of adjoining buildings do not occur to a total height of not less than five feet six inches; that a similar fence shall be erected on the building line except for entrances where shown; that such fence shall be fitted with gate of similar construction as the fence and kept normally closed except during business hours; that opposite the gate there may be a curb cut not over fifteen feet in width; that the use of this plot shall be limited to the owner, employees and patrons of the store building located on Block 1861, Lot No. 1, Fulton and Nostrand avenues, at the corner; that such portable fire fighting appliances shall be maintained and placed as the Fire Commissioner may direct; that sidewalks and curbing in front of the premises shall be repaved to the satisfaction of the Borough President; that no trees shall be removed except as may be necessary for the entrance; that signs shall be restricted to a sign attached to the fence at the entrance advertising the private use of these premises under the limitations as above stated with such other information as as may be required by the Commissioner of Licenses; and that all permits shall be obtained and a Certificate of Occupancy obtained within six months from the date of this resolution.

51-54-BZ

APPLICANT—Henry C. Brucker, for Ph. Dietz Coal Co., Inc., owner.

SUBJECT—Application January 28, 1954 decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district, the change in occupancy from storage garage and motor vehicle repair shop, to factory (light manufacturing).

PREMISES AFFECTED—70-01 to 70-09 65th street, southeast corner of Otto road, Block 3644, Lot 1, Glendale, Borough of Queens.

APPEARANCES—

For Applicant: Saul Godwin and Isaac Jacob.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 4, 1955 after due notice by publication in the Bulletin; laid over to February 8, 1955, for inspection and decision without further argument; hearing closed; then to February 23, 1955, applicant to file revised plans; then to March 8, 1955, for applicant to file revised plans; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, C area, class 1 height district; 65th street is in residence and business use, C area, class 1 height districts; Otto road is in residence and unrestricted use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated January 22, 1954 acting on Alt. Applic. 1418-53, reads:

"1. The proposed use of this building as a factory is contrary to Art. 2 Sec. 3 of Zone Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 102.47 ft. frontage by 100 ft. in depth, irregular, on which is located a building covering the entire lot, one story, 15 ft. in height, of class 3 construction, used as a garage and repair shop for owner's motor vehicles; that it is proposed to use the building for a newspaper printing plant and office; and

WHEREAS, the applicant contends that recently the owners reduced their coal deliveries to a point where the necessity for storing and repairing is no longer needed at these premises; that the coal trucks were put into dead storage at another location and in view of this it was decided to appeal to the Board for a change in use from the existing storage garage to the use of light manufacturing; that the existing five 550 gallon gasoline storage tanks will be emptied and properly sealed thereby reducing the fire hazard; that the proposed use is less offensive and less hazardous than the existing use and would be permitted in a business district, whereas the present use would not; that the public safety and general welfare of the surrounding neighborhood would be greatly enhanced by this change; that no structural changes are proposed; that the only change will be to the interior of the building such as ladies' and men's toilets, dressing rooms and offices; and

WHEREAS, the applicant states that the present owner has held title to the property since February 7, 1930; that the assessed valuation of land is \$13,500 and of the building \$36,500 making a total of \$50,000; that the building was erected 1924; and

WHEREAS, at the request of the Board, the applicant submitted the name and business of the proposed tenant; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7 e for a term of ten years to permit the occupancy of the building formerly approved for garage use for occupancy as a newspaper printing plant substantially as proposed and as indicated on plans filed with this application marked, "Received, January 28, 1954" (4 sheets), and revised plans showing proposed layout marked, "Received, March 3, 1955" (one sheet), *on condition* that the building shall not be increased in height or area, that such portable fire fighting equipment shall be maintained as the Fire Commissioner shall direct; that no trucks shall be loaded or unloaded except within the building through the existing entrance door, as shown, to 70th avenue, and a portion of such loading platform shall be left open for such purposes; that no windows shall be constructed in the interior lot line walls to the east and south and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and all work completed and a new Certificate of Occupancy shall be obtained within six months from the date of this resolution.

517-54-BZ

APPLICANT—Charles Abrahams, for John Hinke and Peter Breunig, owners.

MINUTES

SUBJECT—Application June 21, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in an unrestricted use, D area district the extension to existing structure, using more than the area permitted.

PREMISES AFFECTED—62-21 to 62-23 Metropolitan avenue, north side, 225 ft. east of 62nd street, Block 2771, Lot 52, Middle Village, Borough of Queens.

APPEARANCES—

For Applicant: Charles Abrahams and Andrew J. Todaro.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Metropolitan avenue and 62nd street are in an unrestricted use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 14, 1954 acting on Alt. Applic. 1240-54, reads:

"1. The proposed extension of existing structure in a D area district is in excess of the area occupancy permitted per Article IV, Section 14 of the Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 59.69 ft. frontage by 134.96 ft. in depth, irregular, on which is located one and two story frame buildings having a one story cement block extension which was erected in 1948, and which are occupied as a factory for the manufacture of small machine parts and novelties; that there is also a frame building along the east lot line which is not used; that the combined area of existing buildings is 3,605 sq. ft.; that it is proposed to demolish the frame buildings and to extend the existing one story cement block building to the street line; that the combined area of the existing and the new construction will be 4,912 sq. ft., therefore the area in excess will be 2,102 sq. ft.; and

WHEREAS, the applicant contends that the premises are owner occupied and they are in need of additional space; that approximately 30 people are employed and additional floor area is required for efficient use of equipment and labor; that the existing frame buildings, which are a fire hazard, will be demolished; that the extension will be of class 3 construction with an attractive brick facade, which will improve the appearance of the street; that a loading bay will be provided to eliminate off-street loading; that the neighborhood is developed primarily for industrial use; that the D area zone designation has existed since 1916 and was not intended to limit the percentage of construction of the lot in this area, which is in an unrestricted use zone; that a substantial number of premises in the affected area were developed in excess of the limitation of section 14(c) before the amendment of December 4, 1944; that the premises to the east and west of the site have non-residential uses, and no adjoining premises will be affected as to light and air; and

WHEREAS, the applicant states that the present owner has held title to the property since September 24, 1948 and October 16, 1952; that the assessed valuation of land is \$4,950 and of the buildings \$8,700 making a total of \$13,650; that the building was erected 1948; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, no street widening is proposed on this side of Metropolitan avenue; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 to permit the construction of a one story business building as an addition to the existing building on the rear of premises proposed to be retained, and as indicated on plans filed with this application marked, "Received, June 21, 1954" (4 sheets), and "January 27, 1955" (one sheet), *on condition* that the building shall not be increased in height or area beyond what is now proposed and including the existing building to which this is an addition; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the open space proposed to be maintained shall be maintained; and that there shall be no windows opening in the side lot lines, either east or west, to adjoining premises; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

642-54-BZ

APPLICANT—John F. Fitzsimons, for James P. Clark, owner.

SUBJECT—Application August 5, 1954 (decision of the borough superintendent), under section 7f of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, storage and sale of accessories and office.

PREMISES AFFECTED—130-15 14th avenue and 13-32 131st street, northeast corner, Block 4010, Lot 1, College Point, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons, James P. Clark and A. P. Thackaberry.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 8, 1955 after due notice by publication in the Bulletin; laid over to March 8, 1955, for inspection and decision without further argument; applicant to file corrected drawing with proper widening dimensions for 131st street and 14th avenue and a revised plot plan of proposed layout including the widening; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a business use, D area, class $\frac{3}{4}$ height district; 14th avenue and 131st street are in business and unrestricted use, D area, class $\frac{3}{4}$ height districts; and

WHEREAS, the decision of the borough superintendent, dated July 16, 1954 acting on N. B. Applic. 1202-52 and superseded by N. B. Applic. 1203-52 dated September 15, 1954, reads:

"1. Use of premises located in a business use district as gasoline service station, lubritorium, storage, sales and office is contrary to Art. II Sec. 4(a) (46) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. and 109.66 ft. frontage by 100 ft. in depth, irregular, on which is located a non-conforming advertising sign, which it is proposed to demolish; that it is proposed to erect a one story, class 3 structure, 48 ft. by 27 ft. as accessory building to proposed gasoline service station, to

MINUTES

house an office, sales room, lubritorium and car wash; that along the westerly lot line it is proposed to erect a 5 ft. iron picket fence, on 6 in. high concrete base and to continue along the northerly lot line and then southerly along 131st street frontage for approximately 50 ft.; that an area of planting and shrubbery will be maintained at all points adjacent to the fence; that one 30 ft. curb cut is proposed on the 131st street frontage and two 30 ft. cuts on the 14th avenue; that three dispensing pumps on a concrete island will be constructed, set back 15 ft. from the 14th avenue frontage, which pumps will be supplied from eight 550 gallon storage tanks; and

WHEREAS, the applicant further states that at the time N. B. application 1203-52 was filed the premises was in an unrestricted district; that plans for the erection of the proposed gas station were approved in August of 1952 and the owner thereafter, due to lack of financing, was unable to proceed with the construction; that in November of 1953, in a wide rezoning of this section of Queens, the premises was put into a business district, without actual notice to the owner of the property, and when the owner sought a permit to build, he learned of the zoning change and permit was denied; and

WHEREAS, the applicant contends that 14th avenue is presently a main highway between College Point and the more easterly and northerly sections of Queens county; that it crosses over the Whitestone parkway and eventually will be widened considerably; that the easterly side of 131st street and the southerly side of 14th avenue are zoned unrestricted; that opposite the premises on the east is the Columbia Furniture company building occupying the entire block front from 14th avenue northerly to 13th avenue; that immediately northerly of the premises is a frame dwelling, beyond which is a factory in course of construction, and diagonally across is a restaurant, bar and grill; that abutting the premises to the west and across 14th avenue to the south are a number of two story frame dwellings; that to the east in block 4011 and fronting on 14th avenue between 131st and 132nd streets is a small gas station and motor vehicle repair shop having a frontage of 60 ft. on 14th avenue; that this station is surrounded on three sides by the property occupied by the furniture company; and

WHEREAS, the applicant states that the present owner has held title to the property since March 28, 1952 and that the assessed valuation of land is \$6,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, applicant has filed revised plans as requested and the committee recommends that the application should be granted; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7f for a term of ten (10) years to permit the premises to be occupied as a gasoline service station as proposed and as indicated on plans filed with this application marked, "Received, August 5, 1954" (one sheet), "September 17, 1954" (2 sheets), and as amended by revised plans marked, "Received, February 25, 1955" (2 sheets), on condition that all uses on the premises shall be removed and the premises shall be levelled substantially to the grade of 14th Avenue; that the premises shall be arranged as indicated on such plans; that the accessory building shall be of a design and construction as indicated; that the ashlar facing proposed to be used shall be of a make approved by the Board; that there shall be no cellar under the accessory building; that the pumps shall be erected not nearer than fifteen (15) feet to the street building line of 14th Avenue; that the pumps shall be of a low approved type; that such portable fire fighting appliances shall be maintained as the Fire Commissioner may direct; that the number of gasoline storage tanks shall not exceed eight (8) approved 550-gallon tanks; that on the side and rear lot lines to the west and north there shall be erected

a masonry wall not less than two (2) feet in height with a steel picket fence above to a total height of not less than five feet six inches; that a similar fence shall be maintained along the easterly lot line on the proposed widening line of 131st street for the distance as shown approximately forty (40) feet and that such suitable terminating posts shall be constructed where fences terminate; that the balance of the premises shall be paved with concrete or asphaltic pavement; that curb cuts shall be restricted to two curb cuts to 14th avenue, each not greater than thirty (30) feet in width with no curb cut nearer than five (5) feet to a lot line as prolonged; that there may be one curb cut twenty (20) feet in width to 131st street located within the first twenty-five (25) feet from the intersection; that no construction shall be carried on beyond the proposed line of 131st street; that such space between the widening line and the present building line shall be paved as hereinbefore required for the station itself; that such planting shall be maintained in the areas as shown with suitable planting material; that such areas shall be protected with a concrete curb not less than six inches in width and six inches in height; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and all temporary signs but permitting with the building line at the intersection a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line of 14th avenue for a distance of not over four feet; that at such intersection there shall be a concrete island maintained which may be segmental in shape, not less than five feet along either building line and not less than twelve inches in height; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

859-54-BZ

APPLICANT—John F. Fitzsimons, for Diedrich and Anna M. Grube, owners.

SUBJECT—Application November 10, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, the change in occupancy from one family dwelling to two family dwelling, without the required side yard on northerly side of lot.

PREMISES AFFECTED—93-09 239th street, east side, 80 ft. north of 93rd road, Block 7999, Lot 9, Bellerose, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons, Diedrich Grube, Dorothea Froese and S/Sgt. Raymond Froese.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 239th street are in a residence use, E-1 area, class ½ height district; 43rd road is in residence and retail use, E-1 area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated November 5, 1954 acting on Alt. Applic. 2217-54; reads:

"1. Min 5'-0 wide yard required to convert to two family dwelling in E-1 area district. Art. IV Sec. 15-A Zoning Resolution."

MINUTES

and

WHEREAS, the applicant states that the premises consist of a plot, 40 ft. frontage by 100 ft. in depth, on which is located a class 4 structure, 24 ft. front by 48 ft. in depth, 2½ stories, 27 ft. in height, used as a one family dwelling; that it is proposed to convert the existing one-family dwelling to a two-family dwelling; and

WHEREAS, the applicant contends that the total width of the side yards (15.98 ft.) is in excess of the 15 ft. required for a two family dwelling in an E-1 area district; that however because of the shortage of 1.04 ft. in the width of the north side yard, the building is legally non-conforming as to area although it was legally conforming as to side yards at the time it was built in 1928, as a one-family dwelling in a D area district, and legally conforming on September 29, 1950, the date the present owners took title, at which time the zoning was E; that the present legal non-conformity eventuated as a result of the rezoning on June 30, 1952 to the present E-1 area designation; that in asking reconsideration by the building department of the objection which is the basis for this application, the attention of the building department was directed to the wording of section 15-A(b) which refers to construction of two-family dwellings as distinguished from an alteration to a two-family dwelling and also to section 19(g), reading as follows:

"In any area district, alterations to an existing building or structure shall be permitted notwithstanding that area coverage, distances from mapped street lines, rear yard or courts of such existing building or structure do not conform to the requirements of the respective district, provided such alterations do not further encroach upon any required open spaces nor involve changes in coverage or building height in excess of those permitted in the area and height districts within which the building or structure is located."

that despite these sections of the zoning resolution, the building department has proceeded on a ruling by the borough superintendents adopted in January of 1953 relating to E-1 area districts; that it is not proposed to extend the non-conformity; that the envelope of the building will not be enlarged in any way; that it is the desire of the owners to convert to a two-family dwelling, one apartment to be occupied by them and the other apartment to be occupied by their married daughter and her husband; that because of the conservative pay that the husband of the daughter receives in the service of the armed forces, he is unable to afford a house of his own; that the married daughter and her husband are already living in the premises as part of the owner's household and all that is necessary to complete the conversion to a two family dwelling is to construct a kitchen on the 2nd floor and a bathroom on the 1st floor; and

WHEREAS, the applicant states that the present owner has held title to the property since September 29, 1950; that the assessed valuation of land is \$1,200 and of the building \$5,500 making a total of \$6,700; that the building was erected 1928; and

WHEREAS, the building will be required to be so arranged that each family will have access to the public hall and stair to street without entering any part of the dwelling occupied by an apartment; and

WHEREAS, a proposed amendment to the Zoning Resolution, Section 15A relating to E-1 districts, which is set for hearing before the City Planning Commission for March 16, 1955, would not give relief as to this particular building even though the sum of the courts are in excess of what will be required for a two-family dwelling, if the amendment requiring only one side yard, whether the building is for one family or two families is approved by the Board of Estimate; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area dis-

trict regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 to permit the occupancy of the building for two families as proposed and as indicated on plans filed with this application marked, "Received, November 10, 1954", 3 sheets, showing existing side yards, which in total meet the requirement of fifteen feet, *on condition* that the building in all other respects shall comply with all laws, rules and regulations applicable thereto and that the interior of the building shall be constructed and maintained as required by the Building Code for a two family dwelling, and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

Adjourned: 1:10 P. M.

JOSEPH J. DOYLE, *Chief Clerk.*

REGULAR MEETING

TUESDAY AFTERNOON, MARCH 8, 1955, 2 P.M.

Present: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly.

520-48-SM

APPLICANT—Severud, Elstad and Krueger for Precast Building Sections, Inc., owner-manufacturer.

SUBJECT—Application reopened December 7, 1954, for amendment to resolution—re Precast Building Sections (Masonry Walls), previously approved.

APPEARANCES—

For Applicant: M. Fornerod.

ACTION OF BOARD—Resolution amended, in accordance with the Report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 520-48-SM

Subject: Amendment to resolution as to change in the process of manufacture and change in design mix.

Precast Building Sections, Inc., New York requested by letter dated November 26, 1954 that the resolution adopted December 12, 1950 under Cal. No. 520-48-SM be amended as to change in manufacture procedure and a change in the design mix. The application was reopened by a vote of the Board on December 7, 1954.

Purpose

The precast masonry units are to be used in panel, apron and spandrel wall construction.

Description

The Board by its action December 12, 1950 under Cal. No. 520-48-SM Approved the Precast Section when manufactured of a certain design mix in vertical heated moulds.

The design mix as approved by the Board was a 1:1.5 mix and included in the mix was 6 lbs. of calcium chloride and 3 lbs. of Pozzoloth. This mix was then poured in heated vertical moulds and heat in the form of steam was applied for the purpose of rapid curing of the concrete so that the vertical forms could be stripped more rapidly. The present application is still basically a 1:1.5 mix but the calcium chloride and Pozzoloth have been removed and the slabs are cast horizontally, cured in the forms for a day, then removed from the form and allowed to air cure.

MINUTES

The comparison of the mixes, approved and requested is as follows:

	Approved Mix	Requested Mix
Hi Early Cement	508 lbs	521 lbs
Waylite, Fine	240 lbs	367 lbs
“ Coarse	411 lbs	306 lbs
Sand	110 lbs	113.9 lbs
Calcium chloride	6 lbs	—
Pozzolith	3 lbs	—
Darex	0.2 lbs	0.3 lbs
Water	360 lbs	330 lbs
	1638.2 lbs	1638.2 lbs

Inspection and Test

The plant of the applicant was reinspected by Asst. Engr. J. A. Darts Committee on Test and compression test samples were made from both design mixes. Tests were conducted on seven day samples at the Gulick-Henderson Laboratories, Inc., in the presence of Asst. Engr. J. A. Darts and Mr. Fornerod representing the applicant.

Results were as follows:

Compressive Strength—Average of 5 cylinders.

Approved Mix—2009 psi.

Requested Mix—3130 psi.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted December 12, 1950 and as amended June 2, 1954 under Cal. No. 520-48-SM be amended so as to permit the use of the requested mix, and the revision in the process of manufacture, both as herein described, on condition that the requirements of the resolution adopted December 12, 1950 be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test,

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolutions of December 12, 1950 and June 2, 1954 in accordance with the above report.

539-53-SM

APPLICANT—E. I. DuPont de Nemours and Company, owner (Perma Dry Company, Inc., agent).

SUBJECT—Application reopened December 21, 1954 for amendment to resolution—re X-12 Flame Retardant (for flame retarding paper, textiles and cellulosic materials); previously approved.

APPEARANCES—

For Applicant: S. A. Esserman and D. R. English.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 539-53-SM

Subject: Amendment to resolution to extend the use of Flameproofing Compound X-12.

E. I. Du Pont de Nemours & Company, Wilmington, Delaware requested by letter dated December 14, 1954 that the resolution adopted November 4, 1953 under Cal. No. 539-53-SM be amended so as to include the approval of paper products when flameproofed with X-12. The application was reopened by a vote of the Board December 21, 1954.

Purpose

The material is a flameproofing compound for use in flameproofing paper products for use in places of public assembly.

Description

The material X-12 is the same material approved by the Board on November 4, 1953 under Cal. No. 539-53-SM which was approved as a flameproofing compound to flameproof various textiles.

Inspection and Test

Samples of tissue crepe paper, craft paper and bristol board, flameproofed with X-12 were tested at the Better Fabrics Testing Bureau in accordance with the requirements of the Flameproofing Rules of the Board in the presence of Asst. Engr. J. A. Darts, Committee on Test, D. A. English, F. T. Wolter and S. A. Esserman representing the applicant and W. H. Masterson representing the applicant.

Results were as follows:

Tissue crepe and craft paper. There was no flashing, flaming or glow.

Bristol Board. There was no flashing or flaming and the time of glow within the charred area was 5/6 seconds. The complete report is on file with and is part of the application.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted on November 4, 1953 under Cal. 539-53-SM be amended so as to include tissue crepe, craft paper and bristol board as flameproof material when flameproofed with the compound X-12 on condition that the requirements of the resolution adopted on November 4, 1953 under Cal. No. 539-53-SM be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of November 4, 1953 in accordance with the above report.

42-54-SA

APPLICANT—Ribelle V. Perotta, for Delta Heating Corporation, owner.

SUBJECT—Application reopened January 4, 1955, as to amendment of resolution—re Delta Oil Fired Unit Heater, Models UH-220, UH-196, UH-168, UH-140 and UH-112; previously approved.

APPEARANCES—

For Applicant: Ribelle Perotto.

ACTION OF BOARD—Resolution amended, in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

MINUTES

REPORT OF COMMITTEE ON TEST

Re: Cal. 42-54-SA

Subject: Amendment of resolution to permit the Delta Suspended Oil Fired Unit Heaters, Model UH220, UH196, UH168, UH140 and UH112 approved by the Board October 5, 1954 to be marketed also as the Certified Oil Fired Unit Heaters of the Certified Furnace Corporation, Trenton, New Jersey. The application was reopened as to report for additional listing January 4, 1955. There are no structural changes in the burners.

The Committee on Test has investigated these burners and recommends that the resolution of October 5, 1954 be amended so that as amended it will include approval of the Certified Oil Fired Unit Heaters, Models UH220, UH196, UH168, UH140 and UH112.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,

WHEREAS, the applicant requested an amendment of the resolution.

REPORT OF COMMITTEE ON TEST.

Re: Cal. 178-54-SM

Subject: Republic Brass Company, Ledge Type Sink Fitting with Swing Spout, Automatic Thumb Control, Spray Head, approval of.

The Republic Brass Company of Cleveland, Ohio, owner-manufacturer filed February 15, 1954 an application with the Board of Standards and Appeals for approval of the Republic Brass Company, Ledge Type Sink Fitting with Swing Spout Automatic Thumb Control Spray Head under the provisions of the Submerged Inlet Rules of the Board of Standards and Appeals and C26-178.0.b Administrative Building Code.

Purpose

A combination deck type sink fitting with hot and cold water inlets and diverter mechanism for diverting water from spout to spray or vice-versa.

Description

The principle of this unit is an arrangement of parts made of brass monel metal and synthetic rubber and built

to be inserted into a faucet having a spray hose to divert water from the faucet to the spray hose or vice-versa. When the transfer unit is installed in the unit it is compressed between the spout connection and the spray hose supply. The lower part has a metal to metal seat arrangement. The low portion has an O-ring which helps to prevent leakage. The upper side consists of a monel metal disc which has a series of three holes. These three holes act as an air inlet to the unit and make communication to the spout which is the main opening to atmosphere for protection of back flow from the spray hose.

The appliance has a Modern Faucet Manufactured Company #405 Diverter (approved by the Board on December 9, 1947 under Cal. No. 848-47-SM) incorporated in the appliance.

Inspection and Test

The details of construction were examined by Asst. Engr. J. A. Darts, Committee on Test and E. A. Bauman, Department of Water Supply, Gas and Electricity and it was found to operate as required.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Republic Brass Company Ledge Type Sink Fitting with Swing Spout Automatic Thumb Control and Spray Head for use in New York City when installed and operated in accordance with this report and the Submerged Inlet Rules of the Board provided that each bears a stamp or label device reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 178-54-SM."

The Committee further recommends that as the Diverter #405 (approved by the Board December 9, 1947 under Cal. No. 848-47-SM) is an integral part of the Ledge Type Sink Fitting with Swing Spout Automatic Thumb Control and Spray Head and this diverter acts as a vacuum breaker it is not necessary for an additional vacuum breaker be used in conjunction with this device.

The Committee further recommends, that since the Republic Brass Co. has since become an integral part of Briggs Manufacturing Co., that the appliance may also be known as the Briggs Manufacturing Co., Ledge Type Sink Fitting with Swing Spout, Automatic Thumb Control Spray Head.

REPORT OF COMMITTEE ON TEST

Re: Cal. 591-54-SM

Subject: Wolverine Brass Works, non-syphon Ball-cocks (with different shanks), No. 1871½ IL and 1872 SL, approval of.

The Wolverine Brass Works, owner-manufacturer filed July 12, 1954 an application with the Board of Standards and Appeals for approval of the Wolverine Brass Works, non-syphon Ball-cocks (with different shanks), No. 1871½ IL and 1872 SL under the provisions of C26-1277.o.h. Administrative Building Code and the Submerged Inlet Rules of the Board of Standards and Appeals.

Purpose

A non-syphon ball-cock for use with water closet tanks.

Description

The 1871½ IL and 1872 SL non-syphon ball cocks (with different shanks) have a vertical closing off plunger and are designed with vertical poppet type vacuum breaker adjacent to chamber for plunger. The smallest waterway in ball-cock is the orifice in porcelain seat equal in size and to about a #6 drill, 13/64 diameter. The opening to atmosphere is approximately 1". The casting material is #1 Red Brass. The tubing material is Hard Copper. The Stand Pipe is ½" O.D. X .049 wall, the Hush Tube is ¾" O.D. X .040 wall and the Refill Tube is 7/32" O.D. X .040 wall.

Inspection and Test

The device was inspected and tested at the test bench of the Department of Water Supply, Gas and Electricity and found to comply with the Submerged Inlet Rules. Present at the test were Chief Engr. L. V. Huber of the Committee on test and E. O. Bauman representing the Department of W. S. G. & E and Mr. Otto Deich representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Wolverine Brass Works, non-syphon Ball-Cocks for use in New York City when constructed and installed in accordance with this report and the provisions of C26-1277.o.h. Administrative Building Code, also provided that each ball-cock bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 591-54-SM."

Resolved, that the Board of Standards and Appeals does hereby approve this material in accordance with the above report.

876-54-SA

APPLICANT—R. A. Lundberg, Agent, for Youngstown Miller Corp., owner.

SUBJECT—Youngstown Miller Heat Transfer Systems, approval of.

APPEARANCES—

For Applicant: R. A. Lundberg.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 876-54-SA

Subject: Youngstown Miller Heat Transfer Systems, approval of.

The Youngstown Miller Corp., owner-manufacturer filed November 10, 1954 an application with the Board of Standards and Appeals for approval of the Youngstown Miller Heat Transfer System under the provisions of C26, Article 12 Administrative Building Code.

Purpose

A machine of open type design made to circulate a heat transfer material in the liquid state at elevated temperatures.

Description

The Youngstown Miller Heat Transfer System is an assembly of Heaters, Pumps, Motors, Relief valves, Gauges and all of the required electrical controls built into a common cabinet.

The machines are commonly used by laboratories and industries to circulate a heated liquid through rolls, platens, autoclaves, plastic extruders, mills and kettle jackets, in location where high temperature steam is not available or where the high pressure required using steam might be considered dangerous to the operating personnel. The only pressure involved when a Youngstown Miller machine is used is the 5 to 10 psi necessary to force the liquid through the device being heated.

The Youngstown Miller machines are of the open type design and are made to circulate a heat transfer material in the liquid state at elevated temperatures. Normally, special high flash heat transfer oil is used.

"Dowtherm" is not a suitable material to use in the Youngstown Miller machines, because it vaporizes at relatively low temperatures and requires the use of a closed boiler type system made for use with high pressures.

Electrically, the Youngstown Miller machine is designed, with a number of safety features built into it. A concealed non-adjustable limit thermostat is wired in series with the adjustable operating thermostat. This limit thermostat shuts the heaters down in the event of failure of the operating thermostat. A pressure switch installed in the pump discharge line prevents energizing the heaters unless and until the pump is operating and producing a liquid flow in the lines.

A surge or reservoir tank is installed on the top of the machine to handle the expansion of the liquid as it is being heated. This tank is provided with a closely fitted metal float, which operates a switch which energizes a pilot light and shuts down the entire system in the event of the loss of the heat transfer medium. Pilot lights indicate when the machine is electrically "hot."

All of the electrical control components such as the motor starters, heater contractors, thermostats, pressure switches, and terminal strips are in an enclosure covered with a metal panel. Only the knobs or handles protrude and are installed at a convenient height and are readily accessible for operation. All of the pipe joints are welded; and unions, where used, are of the 2000 pound forged steel type. All of the piping, heater columns, pumps, etc., is covered with magnesia pipe covering. Each heating column is provided with a normally inaccessible thermostat which acts if the adjustable temperature controller should fail. The entire unit is enclosed with sheet-metal shields. Every heating circuit is provided with a 4 positive rotary heat selector switch with the following switch positions: First: All Off, Second: Pump and ½ Heat "ON", Third: Pump and All the Heat "ON", and Fourth: Pump only "ON".

Inspection and Test

An installation of this machine was inspected and tested at the plant of the R. T. Vanderbilt Company, 33 Winfield Street, East Norwalk, Conn., and found to operate as designed, it was used in preparation of plastics, present at the test were Chief Engr. L. V. Huber of the Committee on Test and R. A. Lundberg representing the manufacturer.

MINUTES

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Youngstown Miller Heat Transfer System for use in New York City with a pressure of not more than 10 psi; when installed and operated in accordance with this report and the requirements of the Electrical Code of the City of New York and further, if the use of the equipment is proposed to heat materials that may have a volatile content, all such installations shall be in accordance with the Paint Spraying Rules of the Board, and each machine shall bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 876-54-SA", and further that the heat transfer medium be of the non-petroleum type having no ignition point; and the flash point shall not be less than 650°F, that the safety relief valve be set at 60 psi maximum and that all piping be made up of standard weight fittings rated at 800 psi working pressure welded to seamless steel pipe with 2000 psi forged steel unions and the equipment to which the heat transfer media is piped shall be designed to withstand 800 psi working pressure.

402-41-A—Vol. IV

APPLICANT—Robert Gottlieb, for Retta and Robert Pragnell, owners.

SUBJECT—Application reopened November 4, 1953 as Vol. IV, re Appeal from a decision of the borough superintendent, previously granted on condition.

PREMISES AFFECTED—2886-2892 Valentine avenue, east side, 380 ft. north of East 198th street, Block 3302, Lots 23, 24 and 25, Borough of The Bronx.

APPEARANCES—

For Applicant: Gerald Levy and Daniel Roth.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and Joseph Sweeney, Dep't of Hospitals.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated December 7, 1954, on Alt. App. 933/53, reads:

"Since the C.O. 8283-50 was granted under BSA 402-41-A, Vol. II (Bul. 3, Vol. 35), any proposed change in the number of beds should be referred back to the B.S.A. for approval."

and

WHEREAS, the applicant under date of December 10, 1954, requested the reopening of this appeal insofar as it related to 2886 Valentine avenue, so as to increase the number of beds from 18 to 21 as follows:

Basement—5 beds; 1st floor, 8 beds; 2nd floor, 8 beds; and

WHEREAS, the applicant contends there is no change contemplated in the construction of the building and the exits are adequate; and

WHEREAS, the applicant has filed revised plans marked "Received December 15, 1954, showing the conditions now proposed; and

WHEREAS, the Board has received a report dated February 18, 1955, from the General Inspector of the Department of Hospitals, stating that the proposed number of beds meets the approval of the Department and recommending that the building be equipped with a full automatic wet sprinkler system from cellar to top floor, inclusive; and

MINUTES

WHEREAS, on July 8, 1941, under Vol. I of this appeal, the Board modified a decision of the Borough Superintendent so as to permit the housing of patients on the first floor only, and on September 16, 1941, amended its resolution so as to permit the housing of patients on the 1st and 2nd floors with bedridden or chronic patients to be kept on the first floor only; and

WHEREAS, on January 10, 1950, under Vol. II of this appeal, the Board permitted the use of the nursing home to be extended to the basement space; and

WHEREAS, on October 16, 1951, under Vol. III of this appeal, the Board permitted the use of the adjoining building at 2892 Valentine avenue to be occupied as a nursing home in conjunction with the building now in question at 2886 Valentine avenue, as follows: Cellar—boiler room and storage; Basement—nursing home, 5 rooms, 10 persons; 1st floor—nursing home, 5 rooms, 9 persons; 2nd floor—6 rooms, 10 persons; and

WHEREAS, the Board on November 4, 1953, reopened this appeal as Vol. IV to consider a request for an increase in the number of beds at 2886 Valentine avenue and permitted the withdrawal of this application for amendment on March 9, 1954; and

WHEREAS, on January 4, 1955, this appeal was again reopened and restored to the docket as Vol. IV re new decision of the Borough Superintendent dated December 7, 1954, quoted above; and

WHEREAS, the applicant now requests amendment to resolution adopted by the Board July 8, 1941, under Vol. I of this appeal as amended by resolution adopted September 16, 1941 under Vol. I of this appeal, as further amended January 10, 1950 under Vol. II, relating to 2886 Valentine avenue, to permit the increase in occupancy of the building at 2886 Valentine avenue to —5 beds in the basement, 8 beds on the 1st floor, 8 beds on the 2nd floor or a total of 21 beds throughout the building.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted under Vol. I, as *amended* by resolutions adopted through January 10, 1950, under Vol. II, by adding thereto:

"that the number of beds as now proposed to be increased from 18 to 21, as shown on revised plans filed with this request for amendment, marked 'Received December 15, 1954' (3 sheets) may be permitted, *on condition* that in all other respects the resolutions above cited shall be complied with where not inconsistent with this *amended* resolution; and that the premises shall be maintained to the satisfaction of the Department of Hospitals; and that a wet sprinkler system complying with the requirements therefor shall be installed throughout the building."

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated January 8, 1954, on amendment to Alt. Appie. 858/53, reads:

"1. A fire escape as a second means of egress is contrary to Sec. 270 of the Labor Law.

2. Provide 2 exits from cellar and 2 exits from 1st floor as per Sec. 270 of the Labor Law.

3. Stairways must terminate at roof as per Rules of the Board for factory exits.

4. The floor construction for 2nd floor must be adequate for a minimum live load of 120 lbs. per sq. foot as per Sec. 7.3.2.3."

and

WHEREAS, the applicant states that the building is 2 stories, 27 ft. in height; 24.68 ft. by 69.71 ft. and 74.51 ft. in a rear at street level; 24.68 ft. by 59.71 ft. in depth at typical floor level; of class 3 construction; erected 1930; located on a lot 24.68 ft. front by 69.71 ft. and 74.51 ft. in depth, in a business use, B area, class 1½ height district and used and occupied since 1946—cellar, storage and boiler room, no persons; 1st floor, restaurant, 70 persons; 2nd floor, office, 15 persons; and proposed to be changed to the following use and occupancy: cellar, storage and boiler room, no persons; 1st floor, restaurant, 70 persons; 2nd floor, factory, 15 persons; that the building is provided with one 3 ft. 8 in. wide interior iron stairs, enclosed in partitions of wood studs, metal lath and cement plaster both sides, equipped with fireproof self-closing doors; stair hall leads direct to street and is provided with a ladder and scuttle to roof; and

WHEREAS, Certificate of Occupancy #615—issued August 11, 1930, upon completion of work under N.B. Applic. #124/30 permits the following use and occupancy: 1st floor, stores, 120 lb. live load, number of occupants not stated; 2nd floor, offices, 100 lb. live load, number of occupants not stated; and

WHEREAS, Violation No. #c-614 was issued June 2, 1953, for violation of Sections 270 and 272 of the Labor Law in

MINUTES

that the means of egress for employees of factory on 2nd floor does not comply with the Labor Law; and

WHEREAS, the applicant contends as to Item 1, issued by Borough Superintendent, that it is requested that a Labor Law type fire escape be accepted at the front of the building with counterbalanced ladder from the 2nd story as a secondary means of egress; that the net area of the 2nd floor factory is less than 1,500 sq. ft. and that the number of occupants will not exceed 15; that the factory occupancy has existed since prior to 1948; and

WHEREAS, the applicant contends as to Objection 2, that it is requested that the Board accept the existing cellar exit as the cellar is used for storage for the 1st floor restaurant with no occupancy and the exits from the 1st story restaurant will be made to comply with the Building Code; and contends as to Objection 3, that it is requested that the Board waive the requirement for extending the stairs to the roof as the building is only 2 stories in height and the adjoining building to the north is 3 stories and off the lot line and the building to the south is 4 stories in height; and contends as to Objection 4, that it is requested that a posted live load of 100 lbs. per sq. ft. be accepted as the 2nd floor will be used for light manufacturing; and

WHEREAS, the applicant further contends that it would constitute a hardship to be required to comply with the strict letter of the law and would cause practical difficulties and unnecessary hardship without benefitting the public health, safety and general welfare and it is therefore requested that a variance be granted; and

WHEREAS, under date of July 20, 1954, this appeal was withdrawn without prejudice to the applicant requesting reinstatement a tenant is selected for a type of manufacturing so that consideration can be given to the condition; and

WHEREAS, under date of February 1, 1955, this appeal was restored to the docket at the request of the applicant to consider the use of the second floor for garment manufacturing (dresses); and

WHEREAS, the applicant has advised the Board that the prospective tenant is Joseph Mazzella of 838 Courtland Avenue, The Bronx.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on Alt. App. 858/53, Objections 1, 2 and 3, to permit factory use of the second floor for a concern as proposed, manufacturing dresses, *on condition* that the means of exit shall be as proposed and as shown on plans filed with this appeal marked, "Received, February 1, 1954" (2 sheets); that the primary means of exit shall be enclosed as shown and that the secondary means of exit may be a fire escape with counterbalanced ladder to street, as indicated, and an exit ladder from the parapet of the rear extension to adjoining premises provided such access to adjoining premises is subject to a consent filed with the Borough Superintendent; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that such fire-fighting appliances shall be maintained as the Fire Commissioner shall direct; and that as to Objection 4 the existing live load on the second floor of 100 pounds per superficial foot may be permitted in view of the proposed occupancy as herein permitted *on condition* that such load shall be posted.

327-54-A

APPLICANT—Sidney Daub, for Morris Moskowitz, owner.
SUBJECT—Application April 26, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1117-1119 1st avenue, west side, 40 ft. north of East 61st street, Block 1436, Lots 124 and 25, Borough of Manhattan.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated November 12, 1952, on amendment to Alt. App. 765/49, reads:

"9. Means of egress should comply with Section 270 of the Labor Law."

and

WHEREAS, under date of April 26, 1954, by an amendment filed to Alt. App. 765/49, reconsideration of the above decision of the Borough Superintendent was requested on the grounds that the factory occupancy existed on July 1, 1948 and

WHEREAS, the decision of the Borough Superintendent dated April 26, 1954, on such amendment to Alt. App. 765/49 reads

"Objection 9 of 11-12-52 repeated."

and

WHEREAS, the applicant states the building is 4 stories, 43 and 45 ft. in height, 40 ft. front by 60 and 70 ft. in depth, Class 3 construction, in a business use, B area, Class 2 height district; used and occupied since 1915—#1117-1st Avenue—cellar—storage & boiler room; 1st floor—store and factory; 2nd, 3rd and 4th floors—dwelling, 1 family each; #1119—1st avenue—1st floor—automobile glass repairs, 5 persons; 2nd floor—printing, 5 persons; 3rd floor—office, 2 persons; 4th floor—club, 5 persons; now proposed to be used and occupied as follows: #1117 1st avenue—Cellar—storage and boiler room; 1st floor—auto glass repairs; 2nd floor—offices; 3rd floor—dwelling, 1 family; 4th floor—dwelling, 1 family; #1119 1st avenue: 1st floor—auto glass repair, 5 persons; 2nd floor—printing, 10 persons; 3rd floor—storage, 2 persons; 4th floor—furniture repairing, 10 persons. There are two 2 ft. 10 in. and 3 ft. 8 in. wide wood and steel stairs, enclosed in partitions of wood stud metal lath and p.c. plaster, equipped with fireproof, self-closing doors; the south stairs leads direct to street; the other stair leads direct to roof bulkhead; in addition there are two fire escapes extending to street by ladder; window and door openings on course thereof are not fireproof, self-closing; and

WHEREAS, Violation #7435 of 1951 was issued for occupying #1117 1st avenue for auto glass repairs and storage on the 1st floor, office and factory on the 2nd floor and apartment and office on the 3rd floor and for apartment and office on the 4th floor without obtaining a certificate of occupancy; and

WHEREAS, Certificate of Occupancy #7730 issued February 13, 1924, for premises No. 1117 First avenue as an existing building permitted the following use and occupancy: Cellar—storage; 1st floor—store and factory; 2nd floor—storage; 3rd floor—1 family; 4th floor—1 family; and Certificate of Occupancy #21269 issued May 14, 1936 to premises No. 1119 First avenue as an existing building permits the following use and occupancy: 1st story—auto repair shop; 2nd story—factory, 2 persons; 3rd floor—office, 2 persons; 4th floor—club, 15 persons; and

WHEREAS, the applicant states that Alt. App. 765/49 was filed to combine the two buildings by removing the brick wall at 1st story and removing the stairway from 1st to 2nd stories in No. 1119 First avenue; that the records on file with the Department of Housing and Buildings indicate that No. 1117 First avenue was erected prior to 1924 and Certificate of Occupancy #7730/24 was issued for factory on the 1st floor; that No. 1119 First avenue was erected in 1882 and Certificate of Occupancy 21269/36 was issued to conduct an automobile repair shop on the 1st story and manufacturing on the 2nd story; and

WHEREAS, the applicant states the proposed occupancy will be of a non-hazardous nature and will be small in number, those engaged at factory work being as follows:

MINUTES

- 1st story—replacing auto glass, 5 persons;
- 2nd story—printing, 10 persons
- 3rd story—storage, 2 persons;
- 4th story—furniture repair, 10 persons.

that the exits will consist of a steel 2 ft. 10 in. wide stairway at the south wall of No. 1117 First avenue with fire-retarded enclosure extending from street to roof; that No. 1119 First avenue has a 3 ft. 8 in. wide wood stair from 2nd to 4th story and a 4 in. wide fire-retarded hallway at the 2nd story connecting with stairway at No. 1117 First avenue, which stairway leads to street; and

WHEREAS, the applicant states it is now proposed to provide a stairway and bulkhead to the roof for the interior stairway of No. 1119; that at the front of each building there exists a 20 in. wide fire escape with 60 degree stairs from 2nd to 4th floors and it is proposed to connect these fire escapes at the 2nd story and provide a counterbalanced stairway to grade and to install automatic fireproof wire glass windows and doors on the course of the fire escapes at the 2nd floor of No. 1117 First avenue and at 2nd, 3rd and 4th stories of No. 1119 First avenue; and

WHEREAS, the applicant therefore requests that the exit facilities be accepted in lieu of compliance with Section 271 of the Labor Law; and

WHEREAS, under Cal. No. 749-49-A an appeal filed from Objection 1 issued by the Borough Superintendent October 25, 1949, on Alt. App. 765/49 pursuant to Section 60 of the Multiple Dwelling Law was withdrawn December 19, 1950, to comply; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on amendment to Alt. App. 765/49, Objection 9, and that the appeal be and it hereby is *granted on condition* that the means of exit shall be maintained, including openings between the two buildings and adjoining building as proposed and as indicated on plans filed with this appeal, marked "Received February 25, 1955". (6 sheets), *on condition* that the building shall not be increased in height or area; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the occupancy per floor shall be limited to the capacity of the primary means of exit; that a certificate of occupancy shall be obtained; and that such fire-fighting equipment shall be installed as the Fire Commissioner shall direct and that all protection as proposed shall be carried out.

378-54-A—Vol. II

APPLICANT—Maxfield Blaubeux, for Fulrock Realty Corp., owner.

SUBJECT—Application reopened February 8, 1955 as Vol. II—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—580-598 Fulton street and 63-81 Rockwell place, southeast corner, Block 2107, Lot 15, Borough of Brooklyn.

APPEARANCES—

For Applicant: Maxfield Blaubeux and Samuel Mosberg.
For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated January 4, 1955, on Alt. App. 5545/53, reads:

"1. Resubmit to the B. S. & A. proposed extension of 1st floor—which increases the area bldg. from that approved by the Board under Cal. #378-54-A."

and

WHEREAS, the applicant states the building is 3 stories, 40 feet in height, 202 ft. 4 in. by 133 ft. 5 in. in area at 1st floor; 174 ft. 4 in. by 124 ft. 3 in. in area at 2nd floor, Class 3 construction, erected in 1929 on a lot 202 ft. 4 in. by 133 ft. 5 in. in area, in a business use, B area, Class 2 height district; used and occupied since 1937: Cellar—ordinary; 1st floor—restaurant, cabaret, motion picture theatre and stores, 649 persons; 2nd and 3rd floors, showrooms—88 persons per floor; the building is now proposed to be increased in area at the first floor to 202 ft. 4 in. front by 173 ft. 5 in. front on a lot 202 ft. 4 in. front by 173 ft. 5 in. front, Class 3 construction, to be located in a business use, B area, Class 2 height district; and to be used and occupied as follows: Cellar—ordinary use; 1st floor—offices, stores, toilets and stockroom, 96 persons; 2nd floor—offices, 120 persons; 3rd floor—offices, 126 persons. The building is provided with an approved standpipe system. There are two 3 ft. 8 in. wide and 4 ft. 4 in. wide iron stairs with marble treads enclosed in 12 in. and 4 in. masonry, equipped with one-hour fireproof, self-closing doors; stairhall leads direct to roof bulkhead and to street; and

WHEREAS, on July 13, 1954, under Vol. I of this appeal, the Board modified Objection 1 issued by the Borough Superintendent May 15, 1954 on Alt. App. 5545/53 relating to protection of an opening in the fire wall of the 1st floor of the existing building and the rearrangement of the stairs and exits, on condition that the building be not increased in height or area; and

WHEREAS, the applicant states it is now proposed to construct a one-story Class 3 extension on the 1st floor only to be 40 ft. in width, 75 ft. 2 in. in depth and have an approximate area of 3040 square feet; that openings will be provided in the old lot line wall and lead into the new extension; that no increase in floor area and height for the balance of the building is proposed; that the proposed offices comprising area within the old motion picture theatre portion and extension will be a self-contained space having no connection with any other part on the building on the 1st floor and will be separated by its own unpierced masonry walls or other structural walls; that proper exits will be provided along Rockwell Place leading directly to the street and the number of occupants on the first floor will be reduced from 599 as formerly permitted when occupied as a theatre to 84 persons; and

WHEREAS, the applicant contends that the prospective tenant, the State Labor Department who are occupying the 2nd and 3rd floors require additional office space for their public services and the owner has purchased the adjoining lot (old lot 10) fronting on Rockwell place to erect the proposed extension so as to provide sufficient office space for this purpose; and

WHEREAS, the applicant therefore requests the Board to amend its resolution adopted July 13, 1954 under Vol. I of this appeal so as to release therefrom the limitation that the building not be increased in height or area; and

WHEREAS, the work permitted by the Board under resolution adopted on July 13, 1954, is reported by the applicant to be fully completed and the building is occupied for the new uses; and

WHEREAS, the applicant states that there is no zoning question involved as to extension to former lot 10.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on July 13, 1954, under Vol. I by adding thereto:

"that in the event the owner desires to extend the building to former lot 10, as proposed and as indicated on plans filed with this appeal, marked 'Received January 7, 1955', (6 sheets), such extension may be permitted with access to existing building as thereon proposed and for the use as permitted under the resolution above cited, *on condition* that the building shall not be further increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the windows proposed on the lot line of the new extension shall be approved fireproof

MINUTES

with wireglass and self-closing; and that in all respects where not inconsistent with this *amended* resolution, the requirements of the resolution above cited shall be complied with."

429-54-A

APPLICANT—Leonard F. Rothkrug, for Theresa E. Ferrara, owner.

SUBJECT—Application June 2, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—107 Roebling street, east side, 25 ft. south of North 6th street and 244 North 6th street, Block 2338, Lots 7 and 9, Borough of Brooklyn.

APPEARANCES—

For Applicant: Leonard F. Rothkrug.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 14, 1955, on Alt. App. 2486 of 1953, reads:

"(1) Proposed motor vehicle repair shop located on 1st floor of a Class 3 constructed bldg. 3 stories in height is contrary to Sect. 4-2-1 & 2-1-3-5 of the bldg. code.

(2) Exits from boiler room to comply with 6-1-2-5 of the bldg. code."

and

WHEREAS, the applicant states the building is 3 stories, 35 ft. in height, 25 ft. by 50 ft. in area, of class 3 construction erected 1922, now located on a lot 25 ft. by 75 ft. in area, in an unrestricted use, B area, Class 1½ height district, used and occupied since 1951—Cellar—ordinary use, 1st floor—motor vehicle repair shop, 3 persons, 2nd floor—dwelling, one family; 3rd floor—dwelling, one family; no change in use is proposed; the occupancy of the first floor will be increased to five; the building is provided with one 3 ft. wide interior wood stairs enclosed in partitions of wood stud, lath and plaster, equipped with wood doors which are not self closing; stair hall leads direct to street and is provided with a ladder and scuttle to roof; in addition there is a fire escape on the rear; it is now proposed to erect a new one story extension 25 ft. by 50 ft. in area facing on North 6th Street, and to occupy the entire first floor as a motor vehicle repair shop; and

WHEREAS, the applicant states the building was erected in 1922 and used and occupied in accordance with Certificate of Occupancy 15449, issued June 16, 1922, as follows: Cellar—boiler room, first story: garage for five cars; 2nd and 3rd floors: one family dwelling each floor; that in 1949 under Alt. App. 241 and Certificate of Occupancy #122932, issued March 9, 1949, the use was changed to the following—Cellar: Boiler room; first floor: beer distributing and storage; 2nd floor—dwelling, one family; 3rd floor, dwelling, one family; that this was changed in 1951 to the existing use which it is now sought to legalize; and

WHEREAS, the applicant states that it is also proposed to extend the first floor by adding thereto a Class one fireproof portion 25 ft. front on North 6th Street, and 50 ft. in depth to a height of 12 ft. 6 ins. to use the entire first floor as a motor vehicle repair shop in conjunction with the existing motor vehicle repair shop on the Roebling street front; that the existing ceiling under the dwelling portion will be provided with a protective covering of gypsum wall board and 26 gauge sheet metal; that the entrance hallway to the upper floors will be unpierced on the first floor in the repair shop area and the partitions and stairway soffit will be covered with metal lath and one half inch Portland Cement plaster and 26 gauge sheet metal cover; and

WHEREAS, the applicant states that there is an exterior fire escape serving the 2nd and 3rd floors and provided with a gooseneck ladder from the third floor balcony to the roof; that this fire escape will be maintained and a ladder provided on the fireproof extension roof leading to North 6th street sidewalk; that in addition a 2½ gal. fire extinguisher of an approved type will be provided and such other fire-fighting equipment as the Fire Commissioner may direct will be installed on the first floor; that the existing cellar will continue to be used as a boiler room for ordinary use as storage of household articles with access thereto only from the street; that there will be no occupancy in the cellar.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 2486 of 1953, Objections 1 and 2, be and it hereby is *modified*, and that the appeal be and it hereby is *granted on condition* that the fire protective ceiling in the proposed repair shop shall be as proposed and as shown on plans filed with this appeal marked "Received June 2, 1954" (5 sheets) and "February 9, 1955" (1 sheet), with no openings of any type through such ceiling to the residential occupancy above; that the hall partition and enclosure wall of stairs including soffit shall be fire retarded in the first story; that fire-fighting equipment shall be maintained as proposed to the satisfaction of the Fire Commissioner and as he may direct; that as to Objection 2 the boiler room shall be occupied for a boiler room only and not for the storage of household articles as proposed or for any other use with human occupancy; that exit from such cellar shall be maintained as proposed; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto.

421-54-A

APPLICANT—Sidney Daub, for 733 Broadway Corp., owner.

SUBJECT—Applicant May 21, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—733-735 Broadway, west side, 54 ft. north of Waverly place, Block 548, Lot 64, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated May 20, 1954, on BN Application 1407 of 1954, reads:

"Provide 2 legal means of egress for all tenants all floors including the cellar.

A fire escape is not acceptable as an exit in a factory bldg. over 5 stories high. Sect. 271 L.L."

Note: Because the Labor Law was amended as regards exits subsequent to its decision Cal. No. 115-16-S, this matter should be referred back to the Bd. of Stds. and Appeals for adjudication."

and

WHEREAS, the applicant states the building is ten stories, 137 ft. in height, 54 ft. 2 in. by 100 ft. in area at first floor, 54 ft. 2 in. by 90 ft. in area at typical floor level, of fireproof construction, erected 1895, located on a lot 54.2 ft. by 100 ft. in area, in an unrestricted use, B area, Class 2 height district, used and occupied since 1911 as follows:—Cellar—Boiler room and stock room, 2 persons; 1st floor—stores, 20 persons; 2nd floor—manufacturing artificial flowers, 30 persons; 3rd floor—stockroom and office, 5 persons; 4th floor—manufacturing lingerie, 20 persons; 5th floor—manufactur-

MINUTES

ing handbags, 50 persons; 6th floor: stockroom for wearing apparel, 5 persons; 7th floor, manufacturing sportswear, 20 persons; 8th floor, manufacturing undergarments, 30 persons; 9th floor: manufacturing headwear, 30 persons; 10th floor, manufacturing headwear, 30 persons; no change in use or occupancy is now proposed; the building is provided with an approved standpipe system and an approved one-source sprinkler system throughout; there is one interior 3 ft. wide fireproof stairs, equipped with fireproof self-closing doors extending from roof bulkhead direct to street, and one fire escape on the rear extending to roof by ladder with egress from its lower termination through the fireproof hallway at 3-5 Waverly place; window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, violation #1745 of 1954 was issued by the Borough Superintendent on March 16, 1954, for violation of Sections 271 and 272 of the Labor Law, and Section 643a-2.0 of the Administrative Code as to exits; and

WHEREAS, the applicant states that under Cal. No. 115-16-S a modification was granted by the Board accepting the bridges and fire escapes at the rear of the building as a second means of egress on condition that all windows within 30 ft. of the bridges be fireproof and that a bridge be provided at the second story similar to the existing bridges above and that the existing fire escape balconies at each story be connected to these bridges; and

WHEREAS, the applicant states that the fire escapes contain 4 ft. wide balconies at each story with 18 in. wide 60 degree stairways from second floor to tenth floor inclusive and a gooseneck ladder to the roof; that the openings on the course of the fire escape are fireproof, self-closing windows; fire escape rails on the outside of the balcony and stairs are 4 ft. 6 in. high, and on the inside 3 ft. high; that the fire escapes connect at each story with 7 ft. wide iron bridge connecting to No. 3-5 Waverly Place and have 3 ft. wide fireproof self-closing doors at each building; the bridge railings are 5 ft. high; that in addition to the fire escapes and the bridges the building contains a three foot wide steel stairway from first story to roof with fireproof bulkhead and fireproof enclosed hall at the first story leading to the street; that the partitions enclosing the stairs and halls are fireproof throughout with fireproof self-closing doors at all openings; that the first story is occupied by two tenants, one engaged in a retail sale of tobacco products and the other the sale of ladies wearing apparel; that the tenant of the wearing apparel store occupies the cellar space for the storage of merchandise; that the front portion of the cellar is used for the building's heating and mechanical equipment; that no manufacturing will be conducted on the first story or in the cellar; that exits from the cellar consist of a three foot wide fireproof stairway at the center portion of the south wall leading to the store at the first story used by the ladies wearing apparel occupant; that the owner is prepared to enclose the stairway with fireproof partitions equipped with fireproof self-closing door at the bottom, in addition there are three double hung windows opening upon the rear yard from which the owner is prepared to provide a two foot wide 60 degree steel stairway connecting with the fire escape at the first story of the adjoining building at No. 3-5 Waverly Place; that this fire escape now extends by a 70 degree stairway, 20 inches wide to the second story fire escape balcony from which egress is provided by a door to the interior 3 ft. wide fireproof stairway extending to the street; that this fire escape also connects by an iron bridge to the building in question; and

WHEREAS, the applicant states that the front portion of the cellar there is a fireproof enclosed boiler room from which egress can be had to the sidewalk by a wrought iron engineer's ladder leading to a 2 ft. by 2 ft. hinged metal trap door in the freight entrance fireproof enclosed hallway; that the owner will provide an actuated slip bolt arranged with pull chain located within 4 ft. of the floor and no locking device will be provided on either side of this trap door; and

WHEREAS, the applicant contends that the entire building is provided with a one-source automatic sprinkler system supplied by a 10,000 wood gravity tank above the roof and connected with ADT Central Office alarm, and there is a 4 inch standpipe in the building supplied by a 5,000 gallon

wood gravity house and standpipe supply tank located above the roof with 3,500 gallon standpipe reserve; and

WHEREAS, the applicant requests the Board to accept the existing exits and the proposed improvements to the cellar exits as the building is fireproof and provided with good fire protection, and in view of the fact that the existing exits were previously accepted by the Board; and

WHEREAS, the premises was inspected jointly with adjoining premises which are connected by bridges across court at each story and revised plans were filed indicating that bridges and fire escapes will be stopped off at the 2nd floor level and that the means of exit from the two buildings from the basement and first floor will be by means of fireproof passages, as indicated on such revised plans showing common means of exit with building at 3-5 Waverly place (Cal. No. 491-54-A).

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on BN App. 1407/54, and that the appeal be and it hereby is granted on condition that the means of exit as to the lower floors shall be maintained as indicated on revised plans marked "Received February 28, 1955" (3 sheets) and as to the upper floors, as indicated on plans marked "Received January 14, 1955" (4 sheets); that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the fire escapes and bridges shall be put in good repair and painted; that the sprinkler system with connection to fire headquarters through an approved central station and the standpipe system shall be maintained in accordance with requirements therefor; that this variance shall continue only so long as the exits are maintained jointly with the building at 3-5 Waverly place and the building is subject to the conditions imposed this day under Cal. No. 491-54-A; that the occupancy per floor shall be limited to the capacity of the primary means of exit; that the building shall not be increased in height or area; that exit lights shall be maintained in accordance with requirements therefor; that the construction of the bridge and fire escape shall be maintained in good condition and painted to the satisfaction of the Borough Superintendent and the Fire Commissioner.

491-54-A

APPLICANT—Sidney Daub, for Samuel Elkind, owner.

SUBJECT—Application June 17, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—3 and 5 Waverly place, north side, 100 ft. west of Broadway, Block 548, Lot 68, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 9, 1954, on Bldg. Notice App. 1406/54 reads:

"1. Provide 2 legal means of egress for all tenants all floors including the cellar.

A fire escape is not acceptable as an exit in a factory bldg. over 5 stories high. Sect. 271 L. L.

Note: Because the Labor Law was amended as regards exits subsequent to its decision Cal. No. 115-16-S, this matter should be referred back to the Bd. of Stds. and Appeals for adjudication."

and

WHEREAS, the applicant states the building is 9 stories, 121 feet in height, 50 ft. front by 108 ft. 3¼ in. deep, of fire-

MINUTES

proof construction, erected in 1894 on a lot 50 ft. front by 108 ft. 3 $\frac{3}{8}$ in. in depth in an unrestricted use, B area, Class 2 height district, used and occupied since 1916: Cellar—boiler room and hat storage, 2 persons; 1st floor—hat salesroom and office, 10 persons; 2nd floor—manufacturing caskets, 15 persons; 3rd floor—knitting mills, 20 persons; 4th floor—hat factory, 20 persons; 5th floor—jewelry box factory, 30 persons; 6th floor—manufacturing hats and vests, 20 persons; 7th floor—printing and pleating, 30 persons; 8th floor—manufacturing printers stencils, 10 persons; 9th floor—manufacturing plastic novelties, 30 persons; no change in use or occupancy is now proposed. The building is provided with approved standpipe and approved interior fire alarm systems; regular monthly fire drills are maintained. There is one 3 ft. wide fireproof stairs leading direct to street and provided with a ladder and scuttle to roof; and one fire escape on the east side leading to side yard, extending to roof by ladder with egress from its lowest termination through 2nd story interior stairhalls; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, Violation #8998/53 was issued October 29, 1953, for violation of Section 271 of the Labor Law and Section 643-A-2.0 of the Administrative Code as to exits; and

WHEREAS, the applicant states the exits consist of a 3 ft. wide fireproof stairway from 1st to 9th stories with fireproof hallway at 1st floor leading directly to street and a 70° double-rung iron ladder to scuttle in roof; that this stairway is fireproof enclosed, equipped with fireproof self-closing doors; that the second means of egress consists of a 7 ft. wide iron bridge at each story in the easterly side yard, connecting to adjacent building and fire escape at 733-735 Broadway; that these bridges and fire escapes were accepted by the Board under Cal. No. 115-16-S; that the bridges have 5 ft. high rails and 3 x 7 ft. fireproof self-closing doors at each end, equipped with steps from floor to sills; that in addition there is a supplementary substandard fire escape at easterly side yard with 65° stairs from 2nd to 9th floors and with gooseneck ladder to roof; that these fire escapes have a connection at 2nd floor to the fireproof enclosed interior stairhall of building in question by a fireproof door and also to a 4 ft. wide connecting bridge leading to fire escapes of 733-735 Broadway; and

WHEREAS, the applicant contends that no manufacturing will be conducted in the cellar or on first story; that the exits from cellar consist of a 3 ft. wide fireproof stairway at easterly side of building extending to the 1st floor store space occupied by the same tenant; that it is proposed to enclose this stairway at cellar with fireproof partitions, equipped with fireproof, self-closing doors and to erect a fireproof enclosure at the 1st story for direct connection to the public entrance hall which leads directly to the street; that in addition there are three double windows opening on the easterly side yard from the cellar; that egress can be had from this side yard by cutting a 3 ft. wide opening in the brick fence for egress to adjoining yard of #733 Broadway from which egress can be provided by the proposed 60° fire escape stairway leading to the 1st story of building in question and in turn connecting to both buildings at 2nd story by a 70° existing stairway on the fire escape from 1st to 2nd floor, from which fire egress is provided by a door to the interior stairway and the existing 4 ft. wide bridge leading to #733 Broadway; and

WHEREAS, the applicant states the front of cellar is used by the building engineer as an office; that there is a fireproof enclosed boiler room from which egress can be had direct to the street by a wrought iron ladder and a 2 ft. by 2 ft. hinged grating trap door in the sidewalk; that this grating will be provided with an easy-opening device consisting of torsion springs actuated by a slip bolt arrangement equipped with pull chain reaching to within 4 ft. of the cellar floor; that no locking device will be provided on either side of the door; that heating coils will be installed at sides of opening to prevent freezing of the door; that the cellar is equipped with perforated sprinklers connected to a Fire Department siamese at front of building; that the building has an interior fire

alarm system and monthly fire drills are maintained; that the building is also provided with a 4 in. standpipe supplied by a 3,500 gallon wood gravity tank on the roof; and

WHEREAS, the premises was inspected jointly with adjoining premises which are connected by bridges and revised plans were filed indicating that bridges and fire escapes will be stopped off at the 2nd floor level and that the means of exit from the two buildings from the basement and first floor will be by means of fireproof passages, as indicated on such revised plans showing common means of exit with building at 733-735 Broadway (Cal. No. 421-54-A).

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in a decision of the Borough Superintendent, acting on BN App. 1406/54, and that the appeal be and it hereby is granted on condition that the means of exit as to the lower floors shall be maintained as indicated on revised plans marked "Received February 28, 1955" (3 sheets) and as to the upper floors, as indicated on plans marked "Received January 14, 1955" (4 sheets); that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the fire escapes and bridges shall be put in good repair and painted; that the standpipe system, fire alarm system and fire drills shall be maintained in accordance with requirements therefor; that this variance shall continue only so long as the exits are maintained jointly with the building at 733-735 Broadway, and the building is subject to the conditions imposed this day under Cal. No. 421-54-A; that the occupancy per floor shall be limited to the capacity of the primary means of exit; that the building shall not be increased in height or area; that exit lights shall be maintained in accordance with requirements therefor; that the construction of the bridge and fire escape shall be maintained in good condition to the satisfaction of the borough superintendent and the Fire Commissioner.

527-54-A

APPLICANT—Herman E. Horwood, for 540 Pearl Street, a partnership.

SUBJECT—Application June 17, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—536-540 Pearl street, north side, 25 ft. west of Elk street, Block 157, Lot 22, Borough of Manhattan.

APPEARANCES—

For Applicant: H. E. Horwood.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 15, 1954, acting on Alt. App. 570/54, reads:

"1. Cellar exits to comply with Sec. 271 of Labor Law."

and

WHEREAS, the applicant states the building is 5 stories, 72 ft. 5 in. in height, 74 ft. 3 in. front by 90 ft. in depth. Class 3 construction; date of erection unknown; located on a lot 74 ft. 3 in. front by 100 ft. in depth, in a business use, B area, Class 2 $\frac{1}{2}$ height district; used and occupied since before 1869: Cellar—boiler room and storage, 0 persons; 1st floor—assembling lamps and manufacturing cosmetics.

MINUTES

20 persons; 2nd floor—printing and stationery sales, 20 persons; 3rd floor—manufacturing musical instruments, 15 persons; 4th floor—manufacturing loose leaf binders, 20 persons; 5th floor—manufacturing furniture frames, 45 persons. No change in use or occupancy is now proposed. The building is provided with an approved two-source sprinkler system throughout. There are two interior 45 in. wide wood stairs, enclosed with fire-retarded partitions, equipped with fireproof, self-closing doors, one of which stairs leads to roof and the other is provided with ladder and scuttle to roof; and

WHEREAS, Violation #1276/54 was issued March 1, 1954, for failing to provide proper egress as required by Section 271 of the Labor Law; and

WHEREAS, Certificate of Occupancy #9927/25 was issued upon completion of Alt. App. 846/25 and permits the following use and occupancy: Cellar—storage; 1st floor—storage and factory, 17 persons; 2nd to 5th floors—factory, 15 persons on the 2nd, 24 on 3rd, 46 on 4th and 44 on the 5th; and

WHEREAS, the applicant states the building is equipped with a sprinkler system consisting of a 10,000 gallon gravity tank on roof of adjoining building and a 7500 gallon pressure tank and is provided with central office supervisory alarm; and

WHEREAS, the applicant contends that the cellar exits have previously been acceptable to all departments having jurisdiction and it is only due to the amendment to the Labor Law that the objection which is the subject of this appeal has been issued; and

WHEREAS, the applicant contends there is no one regularly employed in either section of the cellar which is used by occupant of 1st floor store for storage of its stock and materials; that the present exits from cellar should be considered as adequate as there are openings in the fire wall between #540 and 542 Pearl street under same ownership and management; that the existing stairway east and west of the premises are enclosed in wood partitions from stair strings to the floor; that these stairs would not be necessary in case of fire in either section as the fire doors in the openings of the fire walls are never closed and all that would be necessary would be to pass from the one section involved to the other; and

WHEREAS, the applicant states there is a similar opening between #540 and 542 Pearl street which is always open and there is a fireproof enclosed stairway with fireproof door at bottom of same which leads to the 1st story store of #542 Pearl street; and

WHEREAS, the applicant states it is proposed to enclose the easterly stairway in cellar with 3" gypsum block partition with a fireproof self-closing door at bottom which would give two good means of exit from either section of the cellar, since there are no persons regularly employed therein; that the east section would have the enclosed stairway up to 1st floor and the horizontal opening; that the west section would have either of the two horizontal openings, thus affording access to stairway at east or west up to the first floor.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in Alt. App. 570/54, Objection 1, *on condition* that the construction as shown on plans filed with this appeal marked, "Received, June 17, 1954" (5 sheets), shall be complied with as to the cellar where such plans show proposed conditions except that the stairs from the cellar to the first floor in both buildings shall be enclosed in 3-inch gypsum block, or better, with fireproof self-closing door at the foot; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the two-source sprinkler system shall be maintained throughout to the satisfaction of the Fire Commissioner; and that all fire doors in walls between buildings in the cellars where

shown shall be maintained in workable condition and open at all times during business hours for exit purposes.

731-51-A—Vol. II

APPLICANT—Fred Weinstock, for Lorrain Woodworking Co., owner.

SUBJECT—Application for consideration—reopening as Vol. II to consider additional objections—re Appeal from a decision of the borough superintendent (under section 35 of the General City Law re bed of mapped street—proposed 100th street); previously granted on condition.

PREMISES AFFECTED—9902 Avenue D, southeast corner of East 99th street, Block 8132, Lot 36, Borough of Brooklyn.

APPEARANCES—

For Applicant: Fred Weinstock.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened as Vol. II, subject to the regular procedure, to consider additional objections.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

98-54-A—Vol. II

APPLICANT—Howard H. Snyder, for Erwin Constr. Corporation, owner.

SUBJECT—Application for consideration—reopening as Vol. II and to consider a new decision—re Appeal from a decision of the borough superintendent; previously granted on condition.

PREMISES AFFECTED—24 West 58th street, south side, 325 ft. west of 5th avenue, Block 1273, Lot 51, Borough of Manhattan.

APPEARANCES—

For Applicant: Howard H. Snyder.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal reopened as Vol. II, subject to the regular procedure, to consider a new decision.

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

32-54-A

APPLICANT—Sanford Tanning Corp., lessee (Eddy Silk Co., Inc., owner).

SUBJECT—Application January 18, 1954—Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—528-538 Park avenue, north side, from Walworth to Sanford streets, Block 1736, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Appeal dismissed for lack of prosecution.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating
and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

64-54-A

APPLICANT—H. Schaeffer, lessee, for Joseph Schwartz,
owner.

SUBJECT—Application January 28, 1954—Appeal from an
order and a decision of the fire commissioner.

PREMISES AFFECTED—631 Fulton street, north side, 75
ft. east of Hudson avenue (street floor), Block 2094, Lot 1,
Borough of Brooklyn.

APPEARANCES—

For Applicant: H. Schaeffer.

ACTION OF BOARD—Appeal dismissed for lack of
prosecution.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating
and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

351-51-A

APPLICANT—Spencer L. Eddy, for Esso Standard Oil
Company, owner.

SUBJECT—Application reopened September 14, 1954—re
Appeal from orders of the fire commissioner—re use of
an auxiliary gasoline engine to drive the discharge dump.

APPEARANCES—

For Applicant: Joseph B. Lynch and William R. Black.

For Administration: Lieut. John M. Manfredi, Fire Dep't.

ACTION OF BOARD—Laid over to March 29, 1955, at 2
P. M. for inspection and decision; hearing closed.

417-54-A

APPLICANT—Rudolph C. P. Boehler, for The Prudential
Insurance Company of America, owner.

SUBJECT—Application May 26, 1954—Appeal from a deci-
sion of the borough superintendent.

PREMISES AFFECTED—1407 Broadway, southwest cor-
ner of West 39th street and 533 7th avenue (23rd floor),
Block 814, Lot 15, Borough of Manhattan.

APPEARANCES—

For Applicant: E. Augustus Acker.

For Administration: Samuel L. Becker, Dep't of Housing
and Buildings.

ACTION OF BOARD—Laid over to March 15, 1955, at 2
P.M., applicant to furnish information as to manufacture of
tile in question.

854-54-A

APPLICANT—Lama, Proskauer and Prober, for Simon
Winograd and Mitchel Klaymen, owners.

SUBJECT—Application November 9, 1954—Appeal from a
decision of the borough superintendent.

PREMISES AFFECTED—1721 Avenue J, northwest cor-
ner of East 18th street, Block 6710, Lot 1, Borough of
Brooklyn.

Affirmative: Chairman Murdock, Commissioner Keat-
ing and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was amended by the Board as
Vol. III, on March 2, 1954, on certain conditions; and

WHEREAS, the applicant requested an extension of time to
obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does
hereby *amend* the resolution adopted on April 6, 1929, as
thereafter *amended* by resolutions adopted through March
2, 1954, only so far as it has reference to the time within
which to obtain permits and complete the work, so that
as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that
plans have been approved by the Department of Hous-
ing and Buildings and part of the foundation work is
in process, that all permits required shall be obtained

MINUTES

and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution." (Alt. 39/53)

700-41-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Millie Mayser, owner.

SUBJECT—Application for consideration—reopening as to amendment—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f and 7i of the zoning resolution, permitting in the business portion of a plot located in a residence and business use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, lubritorium, car washing, motor vehicle repairs, storage and sale of accessories and the parking and storage of motor vehicles.

PREMISES AFFECTED—9319-9333 3rd avenue and 301-311 94th street, northeast corner, Block 6107, Lots 1, 5 and 67, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on December 7, 1954, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on December 7, 1954, by adding thereto:

"that in the event the owner desires to relocate the proposed accessory building so as to be 20 feet south of the north lot line and to provide additional planting and relocate the pump islands so as to be parallel to the 3rd avenue building line, all as indicated on revised plans marked 'Received February 24, 1955' (1 sheet), such changes may be made *on condition* that the requirements of the resolution above cited shall be complied with in all other respects." (N.B. 741/54)

103-52-BZ—Vol. II

APPLICANT—Paul Friedman, for Duleff Realty Company, Inc., owner.

SUBJECT—Application for consideration—reopening as to extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f and 7e of the zoning resolution, permitting in the retail use district portion of a lot located in a residence and retail use district, the erection and maintenance of a gasoline service station, lubritorium, auto washing, storage and sale of accessories and office, for a term of years.

PREMISES AFFECTED—32-27 to 32-35 Francis Lewis boulevard and 198-02 to 198-08 32nd road, southeast corner, Block 6025, Lot 1, Bayside, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on March 9, 1954, on certain conditions; and

WHEREAS, the variance granted is subject to Court review; and

WHEREAS, the resolution was amended and working drawings, submitted as being in substantial compliance with the Board's requirements, were approved on May 11, 1954; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 9, 1954, as thereafter amended by resolutions adopted through May 11, 1954, only so far as it has reference to the time within which to obtain permits and complete the work, so that as amended this portion of the resolution shall read:

"that in view of court proceedings in which the Board's decision was sustained in Special Term, that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution." (N.B. 324/52)

913-38-BZ—Vol. II

APPLICANT—Theodore L. Soontup, for Kew Gardens Corp., owner (Kew Gardens General Hospital, lessee).

SUBJECT—Application for consideration—reopening and extension of term of variance—re Application (decision of the borough superintendent); previously granted on condition, under sections 7h and 21 of the zoning resolution, permitting in a residence and business use district, the parking of more than five motor vehicles for a term of years.

PREMISES AFFECTED—80-02 Kew Gardens road, south side, from 80th road to Union turnpike, Block 3348, Lot part of 37, Kew Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Theodore L. Soontup.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and set for hearing April 12, 1955, at 10 A.M., waiving all requirements except new plans and a decision of the borough superintendent and to permit two publications in the Bulletin; variance expired on June 3, 1954.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Kleinert 1

JOSEPH J. DOYLE, *Chief Clerk.*

COURT DECISION

(Continued from page 405)

of certiorari and to dismiss the petition. Petitioner acquired the property in 1946 and 1947; it is irregular in shape and dimension and is situated at the northwest corner of Union Turnpike and One Hundred and Sixty-fourth street, Jamaica, New York. It lies in a retail business district and is vacant, save for billboards thereon. While the board's determination, on its face, appears plausible, when one analyzes its memorandum dated November 6, 1953, at pages 3 and 4 of the return, their reconciliation is difficult. We find a gasoline station heretofore permitted by respondents located at the northwest corner of One Hundred and Sixty-fourth street and Union Turnpike, two at the corner of Parsons boulevard and Union Turnpike, one at Union Turnpike and One Hundred and Sixty-second street (180 feet from the subject property), and one at the southwest corner of Union Turnpike and One Hundred and Sixty-fourth street. Nevertheless, here we find the board denying petitioner's application on the ground that to grant it would "convert the area into a gasoline alley." If that be so, then it may properly be said that the respondents have contributed thereto, since all of the stations referred to heretofore are within a "stone's throw" of petitioner's property. Under these circumstances what is petitioner to do with its property? There is no need for stores at Union Turnpike in this area, in the foreseeable future, nor has the residential area surrounding petitioner's property been sufficiently developed to support it. By the granting of the variances aforesaid respondents, in truth and in fact, have placed the petitioner in a position where unnecessary hardship will be visited upon it, hemmed in as it is by gasoline stations. This raises the question of its adaptability for retail business. The motion to vacate the order of certiorari and to dismiss is denied and the determination of the respondents is annulled. Settle order on notice."

(New York Law Journal, August 4, 1954, p. 4.) (Bulletin of October 12, 1954, page 1517).

The Board has authorized an appeal to the Appellate Division to review the decision at Special Term, Supreme Court.

Upon further court review, the Appellate Division reversed the order at special term on the law and the facts with \$50.00 costs and disbursements. Dismissed the proceeding and reinstated and confirmed the determination of the Board of Standards and Appeals. The court stated in part, citing cases, "There was a reasonable basis for the action of the Board in harmony with the general purposes of the zoning resolution"—"Its determination has support in the evidence and is not arbitrary"—"The court may not substitute its judgment for that of the Board's"—"The mere fact that similar permits were granted to others in the same locality affords no valid reason for insisting on the issuance of a permit for a special exception use in this case." (New York Law Journal March 8, 1955).

This is a correction of the decision as printed in Bulletin No. 10, Vol. XL, dated March 8, 1955, which was printed incorrectly as to the decision at Special Term.

COURT DECISION

MATTER OF SCHMIDT vs. MURDOCK

Under Calendar Number 769-53-BZ the Board granted on July 7, 1954 a variance under section 7, subdivisions f and i and under section 7A to permit occupancy of premises at 102-25 Atlantic avenue, northwest corner, and 93-10 to 93-16 104th Street, Block 9310, Lot 19, Brooklyn, New York City to be occupied for a term of 21 years as a showroom for a sales car agency, with accessory sale of gasoline, repairing and parking for servicing cars dealt in by the sales agency under suitable conditions designed to protect the area and the adjoining owners.

An order of certiorari to review the decision of the Board under the provisions of section 668E-1.0 of the Administrative Code was served on the Board on August 16, 1954. Mr. Justice C. A. Johnson at special term Supreme Court dismissed the proceeding and upheld the decision of the Board stating in part: "An examination of the record and the hearing of oral argument fail to convince the court that the Board's determination was arbitrary or unreasonable, and the conditions imposed by the Board seem adequate to effect the safeguards intended."

RULES

RULES FOR APPROVAL AND USE OF AIR ENTRAINING PORTLAND CEMENTS

Adopted by The Board of Standards and Appeals,
March 11, 1955, Effective April 4, 1955.
Cal. No. 64-55-SR

Authority.

Pursuant to the powers vested in the Board by Section 666, Subdivision 2 of the New York City Charter, to adopt rules to carry into effect the provisions of Section C26-312.0(c)2 of the Administrative Building Code, which permits the use of cements of "other types" when approved by the Board and used in accordance with rules of the Board governing their use.

Definitions.

- 1.0 "Air Entraining Cement," shall mean Portland Cements Types IA, IIA, and IIIA, meeting the requirements of ASTM Designation C-175-53.
- 1.1 "Approved," for the purposes of these rules, shall mean approved by the Board of Standards and Appeals as "cements of other types" for use in New York City, pursuant to Section C26-312.0(c)2 of the Administrative Building Code.
- 2.0 "Air Entraining Cements," when approved may be used in New York City wherever the use of Portland Cement is permitted by the Administrative Code, under the following conditions:
- 2.1 Concrete containing air-entraining cement shall have a minimum air content of 3 percent and a maximum air content of 9 percent.
- 2.2 Mixing of concrete containing air-entraining cement shall conform to the provisions of Section C26-499.0 of the Administrative Code, except that the percentage of fine to coarse aggregates by weight shall be not less than 40 percent nor more than 100 percent.
- 2.3 When plain concrete containing air-entrained cement is used pursuant to Section C26-311.0 of the Administrative Code, the maximum allowable water cement ratio shall be $7\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.4 When average concrete containing air-entrained cement is used pursuant to Section C26-365.0 b-1 of the Administrative Code, the maximum allowable water cement ratio shall be $6\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.5 When average concrete containing air-entraining cement is used pursuant to Section C26-365.0 b-2 of the Administrative Code, the maximum allowable water cement ratio shall be 6 U. S. gallons per sack of cement.

The following statement is explanatory only of the reasons presented to the Board for adopting the rules, but in no way is any part of this statement to be considered as contravening any part of the rules adopted.

Statement.

Since 1946 the Board has received several applications for approval of air entraining cements but has not acted on such applications as it was felt that the use of such cements should not be permitted as Portland Cements under Sec. C26-312.0(a)1 of the Administrative Code.

The Engineering Division was assigned the task of examining the question whether air entraining cements should be approved under Sec. C26-312.0(a)2 of the Administrative Code, and determining what rules were necessary to govern their use.

ASTM Designation C175-53, as adopted by the American Society for Testing Materials, 1953, have been promulgated relating to types 1A, 2A and 3A cements when manufactured with air entraining additions interground with the clinker at the mill. Such additions are required to comply with ASTM Designation C226-51T.

Committee 613 of the American Concrete Institute met at Boston in February of 1953 and adopted "Recommended Practice for Selecting Proportions for Concrete", which include recommendations for the use of air entraining cements and the use of admixtures at the point of concrete mixing.

Studies of the effect entrained air on the strength and durability of concrete have been made by the Research and Development Division of the Portland Cement Association.

Federal Specification SS-C-192a, approved and promulgated April 22, 1952, covering Portland Cement, includes Types 1, 2, 3, 4, and 5 air-entraining cements for use by all Federal Agencies and limits the use of air-entraining agents to an amount less than 1 percent.

The use of air-entraining cements in concrete will result in an increase in workability and cohesiveness, a reduction in segregation and bleeding, increased resistance to the action of sulfate waters and will produce a more homogeneous and more durable concrete.

Air-entraining agents introduce into the concrete a larger amount of air than is usually found in concrete. Unlike the air usually found in concrete, intentionally entrained air exists in minute disconnected bubbles well distributed throughout the mass. These bubbles serve as reservoirs to accommodate expansion resulting from freezing of water within the concrete.

Thus, air-entrained concrete contains a larger amount of air and requires less water than normal concrete, and since each of these factors affect the yield and cement content of the mix, generally air-entrained concrete mixes should be designed by decreasing the sand volume by an amount equal to the net change in the volume of air plus water, as compared to a normal concrete mix designed to provide the same yield and cement content.

Although entrained air increases workability and durability, it tends to reduce strength of concrete except in very lean mixes. Bond strength ratios are influenced essentially in the same manner as compressive strength when the air content of the concrete is increased.

The reduction in compressive and bond strengths with increased air content is less for air-entrained concretes made with aggregates having a maximum size of $\frac{3}{8}$ " than for air-entrained concretes made with aggregates of $1\frac{1}{2}$ " to 2" maximum sizes.

Mixing time has a significant effect on the air content of concrete made with air-entraining cement. After ten minutes mixing there is a gradual decrease in air content of the mix.

As a result of studies made by H. W. Russell, Engineer of Materials, Illinois State Highway Division, and Eivind Hognestad of the University of Illinois, it was found that bond was reduced about 10 percent on vertically cast bars when 4.5 percent air was entrained and 5 to 15 percent on horizontally cast bars when the amount of air entrained exceeded 4 percent.

Report of W. A. Gordon, published in the proceedings of the American Concrete Institute, June 1946, Vol. 42, page 605, contains test data to show that entrained air in concrete has an effect on the modulus of elasticity similar to its effect on compressive strength. Moduli of elasticity are reduced from 2 to 3 percent for each percent of air entrained.

Test results reported by H. F. Gunnerson in the June 1944 proceedings of the American Concrete Institute (Vol. 40, page 477) indicate a reduction of modulus of rupture of up to 13 percent when up to 6 percent of air is entrained.

Report of R. F. Blanks and W. A. Gordon published in the Feb. 1949 proceedings of the American Concrete Institute (Vol. 45, page 469), describes test results that show that air-entrained concrete is more resistant to the passage of moisture and segregation than non-air entrained concrete.

The adoption of Rule 2.1 is necessary as resistance to freezing and thawing is not materially improved when air contents are below 3 percent and air contents above 9 percent cause excessive strength losses without materially increasing durability.

The adoption of Rule 2.2 is necessary as the use of high percentages of fine to coarse aggregates as permitted by Section C26-499.0 of the Administrative Code could lead to excessive strength losses due to high air content in general usage without considerable reduction in water cement ratios and rigid control of consistencies.

The adoption of Rules 2., 2.4 and 2.5 is recommended based on the report of Committee 613 of the American Concrete Institute as presented by the Committee to the American Concrete Institute convention held at Boston February of 1953, as published in the October 1953 issues of the Journal of the American Concrete Institute.

RULES

RULES FOR THE TESTING AND USE OF BLENDED CEMENTS

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, AUGUST 2, 1940. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, AUGUST 26, 1940.

(584-39-SR)

Authority:

Pursuant to the Authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, Charter of the City of New York, and C26-189.0, Administrative Building Code (2.2.1.1), and C26-312.0, paragraph c, subdivision 2, Administrative Building Code (7.1.1.7.3) reading: "Nothing herein contained shall be construed to prohibit the use of cements of other types which are approved by the board and are used in accordance with rules of the board governing their use."

1.0 Scope.

1.1 The intent of these rules is to provide a basis for the use of blended cements other than Portland Cement. Subject to the restrictions in the approval of the Board as to each brand, such blended cements may be used as substitutes for Portland Cement on an equivalent weight basis where Portland Cement is permitted.

2.0 Blended Cements.

2.1 Blended cements shall include an intimately interground mixture of approved Portland Cement with natural or artificial products composed of silica and alumina, which shall be mixed with Portland Cement in limited proportions, (except as may be otherwise provided for in the Administrative Code) and which will react in the presence of water to form a hydraulic cement.

2.2 Admixtures to Portland Cement shall have a previous record of satisfactory experience.

2.3 These rules shall not be applicable to harmless materials used as coloring, waterproofing, plasticizing, and freezing preventatives when used as admixtures to Portland Cement in quantities not in excess of 1%.

3.0 Manufacture and quality of Blended Cements.

3.1 A flow-sheet in duplicate showing the process of manufacture and blending shall be filed with the Board as part of any application for approval which shall include the origin and the amount of materials used and proof as to quality and uniformity.

4.0 Available supply of raw materials.

4.1 Evidence shall be filed with the Board showing the potential supply of raw material available to the manufacture.

5.0 Fineness.

5.1 The specific surface shall be not less than 1800 sq. cm. per gram, as determined by methods of test described in A.S.T.M. specifications C115-38T.

5.2 The residue shall not exceed 15% by weight on a No. 325 standard sieve.

6.0 Soundness.

6.1 A pat of neat cement of normal consistency shall be subjected to tests for soundness by the methods outlined in A.S.T.M. specifications C77-36, and when

so tested it shall show no signs of distortion, cracking, checking or disintegration when subjected to the steam test, nor shall the expansion of the pat be greater than 5mm, when molded in Le Chatelier tong- and stored in a standard moist closet for 24 hours.

6.2 In addition to these requirements, the expansion of three 1" x 1" x 10" bars of neat cement of normal consistency when subjected to the Autoclave test, A.S.T.M. tentative method, shall not have an expansion in excess of 0.75%.

7.0 Time of set.

7.1 Time of setting shall be determined by test described in A.S.T.M. Specification C77-36, and the mortar so tested shall not develop initial set in less than one hour and final set in more than 10 hours, as tested with Vicat or Gillmore needle.

8.0 Compressive strength for normal blended cements.

8.1 The average compressive strength of five 2-inch mortar cubes composed of one part of blended cement and 2.75 parts graded Ottawa sand by weight shall be not less than the following:

Age at Test	Storage of Cubes	*Compressive Strength
7 days	1 day in moist air, 6 days in water	2200 lbs. sq. in.
28 days	1 day in moist air, 27 days in water	3500 lbs. sq. in.

*When tested in accordance with Fed. Spec. SS-C-158.

8.2 Tensile Strength.

The average tensile strength in lbs. sq. in. of not less than 5 mortar briquets composed of one part cement and 3 parts of Ottawa sand, by weight, shall be equal to or greater than the following:

Age at Test	Storage of Briquets	Tensile Strength Lbs. Sq. In.
3 days	1 day in moist air, 2 days in water	175
7 days	1 day in moist air, 6 days in water	275
28 days	1 day in moist air, 27 days in water	350

The average tensile strength of the mortar at 7 and 28 days shall be higher than that at 3 and 7 days respectively.

9.0 Blended cements having other properties.

9.1 When approval of the board is requested for the use of Blended Cements having high early strength, sulfate resistance or low heat of hydration, application shall be made to the board for additional tests to develop these properties.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE RULES FOR ARC AND GAS WELDING AND OXYGEN CUTTING, COVERING THE SPECIFICATIONS FOR DESIGN, FABRICATION AND INSPECTION OF ARC AND GAS WELDED STRUCTURES AND THE QUALIFICATIONS OF WELDERS AND SUPERVISORS (CAL. NO. 1-38-SR—VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday morning, March 18, 1955*, at 10 A. M. in Room 1013, Municipal Building, Manhattan, on the following Proposed amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, Covering the Specifications for Design, Fabrication and Inspection of Arc and Gas Welded Structures and the Qualifications of Welders and Supervisors.

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS FEBRUARY 25, 1938.

EFFECTIVE MARCH 21, 1938. AMENDED MAY 17, 1940, EFFECTIVE JUNE 10, 1940; AND SEPTEMBER 17, 1954, EFFECTIVE OCTOBER 18, 1954.

Authority:

Pursuant to the authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, of the Charter of the City of New York and C26-514.0 of the Administrative Code (8.6.2.2).

These Proposed Amendments to the Rules for Arc and Gas Welding and Oxygen Cutting, as printed herein in *italics*, are as suggested by the Allied Building Metal Industries as to welding of light structural steel such as fire-escapes, railings, gratings, door-bucks, etc., which are generally shop welded.

Old matter, in brackets [], to be deleted; new matter, in *italics*, to be substituted therefor.

Rule 1. Application for Permits.

- 1.2 [The commencement of any structural welding work is forbidden until an application for a permit to perform such work is filed with and approved by the

Borough Superintendent. The Borough Superintendent shall be notified in writing at least 48 hours prior to the date when the structural welding work is to commence.]

Structural welding work shall be performed only by approved contractors employing certified welders.

Rule 9. Supervision and Inspection.

- 9.1 [Any welding to be done on a structure or any part thereof shall be performed under the supervision of a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect or licensed engineer. Such agency shall be acceptable to the Borough Superintendent.]

Any welding to be done on a structure or any part thereof, in the field, excluding bar joists, shall be performed under the supervision of a representative of the Department of Housing and Buildings, or a representative of a standard testing agency or an inspection agency responsible to the owner or licensed architect, or licensed engineer. Such agency shall be acceptable to the Borough Superintendent. Shop welding on structural steel performed by approved contractors shall be the responsibility of the approved contractor, and shall not require supervision or inspection.

Rule 11. Metal Chimneys, Tanks, Stairs and Fire-Escapes.

- 11.1 [Stairs and fire-escapes shall be considered as light structural steel and where shop welded, shall have attached thereto a tag or label, affixed by the standard Testing Agency, to the effect that these Rules have been complied with.]

Stairs, fire-escapes, railings, gratings, door-bucks and other miscellaneous and ornamental metal, ferrous and non-ferrous work, shall not be considered as structural steel and therefore when welded need not be inspected by a standard testing agency.

PROPOSED RULES COVERING DRY CLEANING ESTABLISHMENTS PURSUANT TO THE ZONING RESOLUTION OF THE CITY OF NEW YORK (CAL. 958-47-SR VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, March 25, 1955*, at 10 A.M., in Room 1013, Municipal Building, Manhattan, on the Proposed Rules Covering Dry Cleaning Establishments, Pursuant to the Zoning Resolution of The City of New York.

These Rules are proposed to supersede those previously proposed under Calendar No. 958-47-SR, Vol. II on which a hearing was held March 12, 1954.

Authority

Section 666, Subd. 2 of the Charter of the City of New York and Article V, Section 21 and Article II, Section 4(a), Subd. 53 of the Zoning Resolution of the City of New York.

Application of Rules.

These rules shall be deemed to apply only to those excepted dry cleaning establishments existing or hereafter established, pursuant to Article II, Sections 4(a), Subd. 53, 4-A, 4-B and 4-C of the Zoning Resolution.

These rules shall not be deemed to modify or repeal Chapter 19 of the Administrative Code of the City of New York.

Zoning Resolution.

ARTICLE I—DEFINITIONS

§1. Definitions. * * *

(cc) For the purpose of this resolution, "dry cleaning" includes cleaning textiles, fabrics, garments or other articles by the use of solvents other than water, extraction of the

PUBLIC HEARING

solvents therefrom, and drying the same. A "dry cleaning unit" is the machinery or equipment in which textiles, fabrics, garments or other articles are carried through a complete cleaning cycle. A "dry cleaning unit" may consist of one or more detached component machines.

ARTICLE II—USE DISTRICTS

§4. Business Districts. (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

(11) Dyeing establishments.

(53) Dry cleaning establishments, except for establishments which conform to the restrictions set forth below:

(a) Not more than two dry cleaning units shall be installed, and such units shall have an aggregate dry load capacity of not more than 60 pounds, as rated by the Board.

(b) The gross floor area of the dry cleaning establishment, including space used for dry cleaning, pressing and incidental operations, and space used for storage, service of customers and convenience of employees, shall not exceed 2,000 square feet. However, additional space may be used on a lower floor which is either a basement or a cellar, provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles.

(c) No solvent having a flash point less than 138.2 degrees Fahrenheit shall be used, except for incidental removal of spots.

To protect the public health, safety and welfare in accordance with the general purpose and intent of this resolution, to safeguard the character of the predominant types of uses located in the districts affected, and to protect the occupants of nearby residences and other premises from traffic congestion, fire, explosion, vibration, noise, heat, smoke, odors, toxic vapors and other forms of air pollution, the Board, after public notice and hearing, may adopt, and from time to time amend, rules and regulations for the operation and maintenance of dry cleaning establishments permitted under subsections (a), (b) and (c) above. Such rules and regulations may cover inter alia location of entrances to and exits from such establishments, installation of equipment and hours of operation of such establishments. Such rules and regulations may also prescribe the conditions under which such establishments may exist in buildings in which residences are located.

Any dry cleaning establishment which was in existence prior to January 1, 1953 in any use district to which the provisions of this section apply, may be continued, but no such establishment shall be enlarged or extended, nor shall the capacity of its dry cleaning units be enlarged, except in conformity with all the provisions of this section. Such existing establishments shall be subject to the aforesaid rules and regulations of the Board.

Section 4-A. Retail Districts. In a retail district the same regulations and restrictions shall apply as are provided for business districts except that no manufacturing or treatment of products shall be carried on other than such as are incidental to the conduct of a retail business conducted on the premises, or such other manufacturing as is now permitted in a business district, provided that in such other manufacturing not more than five per cent (5%) of the total floor space of the building is so used. However, any use or uses specifically authorized under the provisions of §3 (10) shall be permitted in a retail district. In addition, dry cleaning establishments conforming to the provisions of §4(a) (53) shall be permitted in a retail district, provided such establishments are for retail purposes where services are performed directly for consumers or for transient hotels, or as an accessory use in transient hotels and department stores.

Section 4-B. Restricted Retail Districts. In a restricted retail district, the same regulations and restrictions shall apply as are provided for retail districts except, that in a restricted retail district no building or premises shall be used

and no building shall be erected which is arranged, intended or designed to be used for any of the following purposes:

(j) Dry cleaning establishments, other than an establishment conforming to the provisions of §4-A, which is located in a passenger terminal, or as an accessory use in a transient hotel or a department store.

Section 4-C. Local Retail Districts. In a local retail district, the same regulations and restrictions shall apply below the level of that first story ceiling as are provided for restricted retail districts, except that no manufacturing of any kind shall be permitted; and no building shall be erected or structurally altered which is arranged, intended or designed to be used above the level of the first story ceiling for any use not permitted in a residence district. However, the provisions of this section shall not apply to projects authorized pursuant to §3 (10) of this resolution. In addition, the provisions of §4-B(j) shall not apply, and dry cleaning establishments conforming to the provisions of §4-A shall be permitted in local retail districts.

Rule 1. Definitions.

For the purpose of these Rules, the following definitions shall apply.

1.1. The term "dry cleaning establishment" shall mean any room, place or space in which dry cleaning is performed, as defined in the Zoning Resolution.

1.1.1. Dry Cleaning establishments to which these Rules shall apply shall be divided into two classes: Class A and Class B.

1.1.2. Class A dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall be non-inflammable and non-combustible when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.3. Class B dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall have a flashpoint of not lower than 138.2 F. when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.4. For other purposes a dry cleaning establishment shall be as defined in Chapter 19 of the Administrative Code.

1.2. For the purposes of Sections 4-A and 4-C of the Zoning Resolution the terms "retail", "retail purposes" and "retail business" shall refer only to those dry cleaning establishments which perform services on articles conveyed directly by a retail customer to such dry cleaning establishment or collected directly from and delivered to the retail customer by any vehicle or any other means of effecting the same and such dry cleaning establishment directly processes such articles for such customer.

1.3. The term "existing" shall mean those dry cleaning establishments established prior to January 1, 1953.

1.4. The term "heretofore established" shall mean those dry cleaning establishments established on or after January 1, 1953 up until the effective date of these Rules.

1.5. The term "hereafter established" shall mean those dry cleaning establishments established after the effective date of these Rules.

1.6. The term "inflammable liquid solvents" shall mean such as will emit an inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in a tagliabue open cup tester.

PUBLIC HEARING

- 1.7. The term "spotting" or "sponging" shall mean the local application of an "inflammable liquid solvent" to remove spots of dirt, grease, paint or stains from wear-apparel, textiles, fabrics or articles of any other sort.
- 1.8. All other terms used shall be as defined in the Zoning Resolution, Administrative Code, Multiple Dwelling Law, or Labor Law, when not inconsistent with the specific terms defined herein.

Rule 2. Approvals and Affidavits.

- 2.1. It shall be unlawful to use any premises for any hereafter established dry cleaning establishments without filing plans of that portion of the premises to be so used with the Department of Housing and Buildings by either the owner, lessee or agent of such premises on forms customarily furnished by the Department and an approval of the Department of Housing and Buildings obtained thereon.
 - 2.1.1. Before the Department of Housing and Buildings shall approve any plans of such hereafter established dry cleaning establishment which are Class B dry cleaning establishments the Fire Commissioner shall approve the plans submitted to the Department of Housing and Buildings as required by Rule 2.1.
- 2.2. The proprietors or agents of any heretofore established cleaning establishment shall file with the Department of Housing and Buildings statements under oath on forms furnished by the Department of Housing and Buildings as to the aggregate dry load capacity of the dry cleaning unit or units and the gross floor area of said establishment used in accordance with the Zoning Resolution, Sections 4(a), 53(b), and Rules 3.1 and 3.2.
- 2.3. The requirements of Rules 2.1, 2.1.1 and 2.2 shall not apply to existing dry cleaning establishments. The requirements of Rule 2.2 shall not apply to those heretofore established dry cleaning establishments which have previously obtained approvals on plans from the Department of Housing and Buildings where information substantially similar to that required to be furnished under said Rule 2.2. is on file with the said Department of Housing and Buildings.
- 2.4. All premises which contain existing dry cleaning establishments as well as all heretofore established and hereafter established dry cleaning establishments complying with the provisions of Rules 2.1, 2.1.1, 2.2 and 2.3 shall not be required to obtain a special certificate of occupancy relating to the use of the premises for a dry cleaning establishment.
- 2.5. No dry cleaning unit shall be installed six months after the effective date of these Rules unless such unit is approved by the Board of Standards and Appeals or unless an application for approval of the cleaning unit is filed with the Board of Standards and Appeals and a calendar number issued in connection therewith and a statement under oath is filed by the proprietor of the dry cleaning establishment or his agent that the dry load capacity of such dry cleaning unit is not greater than sixty pounds as defined below in Rule 2.6.
- 2.6. The dry load capacity of all dry cleaning units for the purpose of these rules and the Zoning Resolution shall be rated by the Board of Standards and Appeals on the basis of 2.8 pounds per cubic foot of the volume of the washing compartment for each washing cycle.
- 2.7. No dry cleaning solvent shall be used six months after the effective date of these Rules unless such solvent has been tested and rated by the Fire Commissioner or unless an application for such testing

and rating of such dry cleaning solvent is made with the Fire Commissioner.

- 2.7.1. It shall be unlawful to use any dry cleaning solvent in any dry cleaning unit having a flash-point other than that for which the dry cleaning unit is designed.

- 2.8. Except as otherwise expressly required by these Rules, nothing shall require any change in the construction, use of occupancy of any existing dry cleaning establishment or any change in the construction, use or occupancy in any heretofore established dry cleaning establishment which conforms with Sections 4(a), 53(a), (b) and (c), and Sections 4 (A), 4 (B) and 4 (C) of the Zoning Resolution adopted by the City Planning Commission on January 21, 1953.
- 2.9. No non-conforming existing dry cleaning establishment shall be enlarged or extended unless such extension or enlargement be made in a conforming manner.

Rule 3. Restrictions on Locations and Areas.

- 3.1. No dry cleaning establishment which is a heretofore established dry cleaning establishment or a hereafter established dry cleaning establishment shall have a gross floor area exceeding the aggregate of 2,000 square feet to be used for dry cleaning, pressing and incidental operations as well as space used for storage, service of customers and the convenience of employees. The square foot area limitation shall apply to the aggregate of all space so used on all floors and mezzanines of the premises involved above the cellar or basement thereof. Additional space may be used on a lower floor which is either a basement or cellar provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles. The use of such basement or cellar area may include the installation and use of a boiler, dead or cold storage, storage of supplies, storage and filtration of solvents and space utilized for specialized washing equipment.
 - 3.1.1. In calculating the gross floor area pursuant to Rule 3.1, the area restriction shall not include the area used by the non-dry cleaning operations of a multiple use type of service establishment where, in addition to dry cleaning, there may be a launderette, shirt laundering, shoe repairing, tailoring and alteration of garments, fur cleaning and glazing, and fur storage.
- 3.2. No Class B dry cleaning establishment hereafter established shall be permitted within any building:
 - 3.2.1. which is of wood frame construction;
 - 3.2.2. which is classified as a public building pursuant to Section C-26-235.0 of the Administrative Building Code;
 - 3.2.3. any part of which establishment is within 20 feet of any public building.

Rule 4. Egress.

- 4.1. The means of egress in all dry cleaning establishments shall be in conformity with the applicable provisions of the building laws and regulations governing such establishments. In addition thereto, all establishments shall conform to the following:
 - 4.1.1. A three foot (3 feet 0 inches) wide aisle providing access from the main work area to the required means of egress shall be provided. Such required aisle shall not be obstructed by any fixed obstruction in any manner whatsoever.

PUBLIC HEARING

4.1.2. In all hereafter established dry cleaning establishments all required exit doorways shall be arranged to swing outwardly in the direction of the egress.

Rule 5. Fire Prevention—Class B Establishments.

All hereafter established Class B dry cleaning establishments shall comply with the following:

5.1. No power or heating boiler shall be permitted in the same area or space where dry cleaning units are located, whether on the cleaning floor or floors or cellar or basement level unless either

(a) the boiler or boilers shall be enclosed in a 3-hour unpierced masonry enclosure and entered only from the outer air; or

(b) the boiler or boilers shall be enclosed in a 3-hour masonry enclosure with a one-hour fire proof self-closing door which opens into a ventilated vestibule similarly enclosed and entered by a one-hour fire proof self-closing door opening onto the interior of the premises or establishment.

5.1.2. The ceiling of all such boiler rooms as required in Rule 5.1 and the adjoining entrance vestibule referred to in Rule 5.1.(b) above shall be fire-retarded with one-hour fire resistive material.

5.2. Non-fire proof enclosing partitions and ceilings of any such dry cleaning establishment shall be fire-retarded with one-hour fire resistive materials and doors or in lieu thereof with one approved automatic one-inch wet pipe sprinkler head located over the cleaning unit which shall have its source of supply from the house water system.

5.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a one-hour fire proof self-closing door or fire-proof window assembly.

5.4. Except as provided in Rule 5.1, there shall not be employed in any such dry cleaning establishment any device or apparatus employing flame or fire which is likely to produce an exposed spark except electric apparatus placed at least five feet above the floor, or approved type of "explosion proof electric motors". In such establishments all lighting shall be fitted with keyless sockets and all switches and receptacles shall be placed at least four feet above the floor. Nothing contained in this rule or Rule 5.1 shall prohibit the installation of any gas, oil or electric heating device of a type approved by the Fire Commissioner under such conditions as he shall prescribe.

5.5. All solvent used in the dry cleaning unit shall be either (a) received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system, or (b) received and stored in a tank or tanks in accordance with the rules of the Board of Standards and Appeals relating to the receiving and storing of fuel oils and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 6. Fire Prevention—Class A Establishments.

All hereafter established Class A dry cleaning establishments shall comply with the following:

6.1. No power or heating boiler having a grate area in excess of 3 square feet shall be permitted in the same area or space where dry cleaning units are located

unless such boiler or boilers shall be enclosed in a one-hour fire proof partition and entered by a one-hour fireproof self-closing door whether from the interior of the premises or establishment or to the outer air.

6.2. All ceilings of all such boiler rooms as provided in Rule 6.1 shall be fire-retarded with one-hour fire resistive material.

6.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a fireproof self-closing door or fireproof window assembly.

Rule 7. Fire Prevention—All Dry Cleaning Establishments.

All existing, heretofore established or hereafter established dry cleaning establishments whether Class A or Class B shall comply with the following:

7.1. The provisions of Section C-19.161.0 of Chapter 19 of the Administrative Code.

7.2. No smoking shall be permitted in any such establishment except Class A establishments where fewer than six employees are employed. Approved signs shall be conspicuously posted to that effect as directed by the Fire Commissioner.

7.3. It shall be unlawful to store any inflammable liquids or solvents in quantities aggregating more than five gallons without a permit as provided in Article 9 of Chapter 19 of the Administrative Code.

7.4. All inflammable liquids and solvents used for spotting and sponging shall be contained in approved individual metal containers not exceeding two-quart capacity each.

7.5. All sludge or residue removed from a dry cleaning unit shall be placed in a metal container not exceeding 55 gallons of capacity with a tight fitting cover and shall be removed from the premises and disposed of in a lawful manner.

Rule 8. Ventilation.

8.1. All hereafter established dry cleaning establishments whether Class A or Class B shall be equipped with adequate ventilation to provide four complete changes of air volume an hour of such establishments during the operation of any dry cleaning units.

8.2. All Class A dry cleaning establishments whether existing, heretofore established or hereafter established shall have sufficient ventilation so as to prevent an excessive concentration of solvent vapors in the dry cleaning establishment. An excessive concentration of solvent vapors shall be that which exceeds the average of 200 parts of solvent vapors per one million parts of air during any working day.

8.3. The direct equipment exhausts or vents of any hereafter established dry cleaning establishment whether Class A or Class B shall terminate to the outer air in the following manner:

(1) At least 7 feet above the roof or legal street grade of the premises in which said establishment shall be located, and

(2) the exhaust shall be under static pressure by reason of a mechanical fan and the terminal of the exhaust, shall be at least five feet from any legal ventilating openings if said legal ventilating windows or legal ventilating openings lie on the

PAID

Permit No. 4875

Periodical Division
University of Illinois Library
Urbana, Ill.

PUBLIC HEARING

same plane as the said exhaust terminal and when the said legal ventilating windows, or other legal ventilating openings lie on a plane which faces in the direction of the exhaust terminal the said terminal shall be at least 10 feet away from the same.

8.4. In all Class A dry cleaning establishments whether existing, heretofore established or hereafter established, all solvent used in the dry cleaning unit shall either (a) be received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system; or (b) be received and stored in a tank or tanks and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 9. Operating Precautions.

9.1. A printed notice embodying these Rules shall be posted in a conspicuous place in all dry cleaning establishments whether of Class A or Class B or whether existing, heretofore established or hereafter established.

9.2. The proprietor of any Class A establishment whether existing, heretofore established or hereafter established, shall furnish to any person cleaning out a dry cleaning unit containing any chlorinated hydrocarbon solvent an approved type respirator for his use during the process of cleaning out any such unit.

9.3. All equipment shall be installed in such manner as to minimize noise, vibration, smoke, and odors, and other forms of nuisances to the occupants of the premises in which such cleaning establishment may be located or to the occupants of any adjacent premises.

Rule 10. Penalties.

Any violation of these Rules shall be subject to the penalties prescribed in the Zoning Resolution therefor, in addition to other penalties prescribed by law.

Rule 11. Effective Date of Rules.

The effective date of these rules will be twenty (20) days after date of publication of the rules as adopted.

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

Notice of Public Hearing on Proposed Rules Covering
Dry Cleaning Establishments Pursuant to the Zoning
Resolution of The City of New York.

COURT DECISION

Matter of Berger vs. Board of Standards and Appeals:—On May 24, 1949, the Board denied, under Sections 7e and 21 of the Building Zone Resolution, a variance to permit in a residence, G-1 area district the erection and maintenance of a business building (stores) using more than the permitted area; Cal. No. 863-48-BZ; premises 259-12 to 259-22 Union Turnpike, 77-02 to 77-06—260th Street, southwest corner, and 259-09 to 259-19—79th Avenue, Floral Park, Borough of Queens. Court proceedings were instituted for a review of the Board's decision by attorney of owner.

At Special Term, Part I, of the Supreme Court, Mr. Justice Hill, in his decision, stated, in part, that "in the court's opinion, petitioner has made out a case of practical hardship within the purview of OTTO V. STEINHILBER" and remitted the matter to the Board with direction to "pass upon the need, if any, for the imposing of any conditions with respect to the character of the structure proposed to be erected". (N. Y. Law Journal, March 7, 1950, page 822.)

The Appellate Division, Second Department, reversed Special Term on the law and facts and unanimously confirmed the Board's determination with \$50. costs and disbursements, stating, "The Special Term arrogated to itself the powers of the Board. The determination of the Board has support in the evidence; it is not arbitrary and it may not and should not be disturbed. (Matter of Ernest, Board of Appeals on Zoning of New Rochelle, 274 App. Div.) See Arverne Bay Construction Co. vs. Thatcher (278 N. Y. 222)". (N. Y. Law Journal, December 19, 1950.)

* * * * *

Matter of Berger vs. City of New York:—In an action for judgment to declare the zoning regulations applicable to the premises unconstitutional, Mr. Justice Pette, at Special Term, Supreme Court, declared such regulations unconstitutional. Upon review by the Appellate Division, Second Department, the Court, by a three to two vote, reversed the judgment at Special Term. Upon further appeal by the plaintiff to the Court of Appeals, the decision of the Appellate Division "was affirmed with cost without prejudice to plaintiff's taking such appropriate action as she may be advised in connection with setback and area restrictions as to a conforming use".

* * * * *

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection with which court proceedings are pending or in progress, unless exception is granted by the chairman, nor accepted which is not filed within thirty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal or application shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal or application.

At the time of filing an appeal or application, the appellant or applicant shall forward a signed notice of appeal addressed to the administrative official either borough superintendent of buildings or fire commissioner and file with this board a duplicate of said notice.

Appellant and applicants are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal or application.

Appeals and applications will be simplified and disposition of same expedited by conforming to these directions.

HARRIS H. MURDOCK, Chairman.

CALENDAR

DOCKET

New Cases filed up to March 15, 1955

Cal. No. Dept. Premises Affected

177-55-A—F.D.—59-02 Borden avenue, south side, 191.02 ft. west of Maurice avenue, Block 2657, Lot 40, Maspeth, Borough of Queens, Decision—re permit for smoking.

APPEARANCES—

For Applicant: R. S. Hardy and James Vassalotti.

For Opposition: J. Pinelas, R. Harold Paltrow, Herman Reich, Jack Paigoff, Samuel H. Baum, Alexander Humphries, Rosalind Leonard, Erna Rose, Eleanor Mazurowski, Vartkiss Tertzakian, Ralph J. Cecovaro, Cecelia Grabler, Elma T. Zsigalov, Celia Goldstein, Irma Young, Mary Miceli, Ellie Hofherr, Miriam Smoley, Elsie Klose and Hazel Brainard.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 26, 1955, at 10 A. M., for inspection and decision without further argument; hearing closed.

990-54-BZ

APPLICANT—Simeon Heller for Walter Daniels, owner.

SUBJECT—Application December 30, 1954—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, the relocation of a dwelling without the required setback from street line and without the required side yards.

PREMISES AFFECTED—53-31 Marathon parkway, northeast corner of Horace Harding boulevard, Block 8240, Lot 6, Little Neck, Borough of Queens.

APPEARANCES—

For Applicant: Simeon Heller.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 22, 1955, at 10 A. M., for applicant to file revised plans to meet requirements as stated; hearing previously closed.

534-47-BZ—Vol. II

APPLICANT—Joseph M. Longergan, for Avelyn F. Goldstein, owner (Packard, Jamaica, lessee).

SUBJECT—Application reopened October 14, 1953 as Vol. II—re (decision of the borough superintendent) under sections 7c and 7f of the zoning resolution, to permit in a residence and business use district, the change in occupancy from office, storage and shipping of tires, auto accessories, and incombustible materials, to office and

storage of more than five motor vehicles waiting to be serviced in adjoining building on Lot 31.

PREMISES AFFECTED—150-34 Hillside avenue, south side, 200 ft. west of 153rd street, Block 9697, Lot 26, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Joseph M. Longergan.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application withdrawn at request of the applicant as new tenant does not desire use of premises for purpose sought in subject application.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

741-21-BZ—Vol. II

APPLICANT—Frederick A. Ketcher, for Valentine Realty Corp., owner (Forack Corp., lessee).

SUBJECT—Application reopened November 3, 1954 as Vol. II—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a business use district, the change in use from ordinary storage in cellar to garage for motor vehicles.

PREMISES AFFECTED—250 East 187th street and 2400 Ryer avenue, southeast corner, Block 3152, part of Lot 11, Borough of The Bronx.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on November 3, 1954 subject to regular procedure, to consider change of use; and

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Ryer avenue are in a business use, B area, class 1¼ height district; East 187th street is in residence and business use, B area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated September 23, 1954 acting on Alt. Applic. 590-54, reads:

"1. A garage for more than 5 motor vehicles in a business use district is contrary to Art. II Sect. 4 of the Z.R." and

WHEREAS, the applicant states that the premises consist of a plot, 138.36 ft. frontage by 96 ft. in depth; that at the time the existing structure was erected it was located in a business district; that there has been no change in height, area and use districts since 1916; that the present building was erected in accordance with Cal. No. 741-21-BZ and completed in 1922 as a two-story and cellar fireproof storage garage for which certificate of occupancy No. 555-22 was issued; that on January 25, 1944 under Cal. 741-21-BZ change of use was granted by resolution of the Board for cellar, non-storage garage for more than 5 cars, street floor—for a conforming use, 2nd floor—non-storage garage for more than 5 cars; that under Cal. No. 564-43-S, heard the same day, the use of the 1st floor for store and men's clothing manufacturing, employing 65 persons, with no change in cellar and 2nd floor occupancy was granted by the Board; that the occupancy was changed in accordance with Alt. Applic. 629-45 to cellar—candy and ingredients storage, 1st floor—retail store and factory and

MINUTES

2nd floor, offices and light manufacturing for which certificate of occupancy No. 2611-46 was issued; that it is proposed to use the building throughout as a storage garage for more than 5 cars, as previously granted in 1921, with the following exceptions: that the use of the 1st floor will remain as retail store and factory for men's clothing as permitted by resolutions of January 25, 1944 and that the use of the 2nd floor will remain as offices and light manufacturing as permitted by Alt. Applic. No. 629-45; and

WHEREAS, the applicant contends that the 1st floor store tenant is the Simon Ackerman's Men's Shop, the majority of whose customers arrive by automobile; that the limited space for parking in the Fordham road and Grand concourse area has become a major traffic problem and this shortage of parking spaces has proved to be a detriment to local business; that inasmuch as this store is in the high rent district its business is seriously affected by this shortage of parking space; that the character of the building and district will not be changed; that the building was designed and used as a garage, the entrance door and ramp are existing and there will be no exterior physical changes made; that there is no violation of record for signs; and

WHEREAS, the applicant states that the present owner has held title to the property since May 29, 1906; that the assessed valuation of land is \$43,000 and of the building \$67,000 making a total of \$110,000; that the building was erected 1922; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the cellar, or lower story, of the building to be occupied for garage purposes, primarily for storing cars belonging to the occupants of this building employed on the first and second floors, and also for public use, *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board as to sign under Cal. No. 170-43-BZ; that all permits shall be obtained and all work completed within six months of the date of this resolution.

459-37-BZ—Vol. II

APPLICANT—Robert Teichman, for 56th and 7th Company, owner.

SUBJECT—Application August 20, 1954 (decision of the borough superintendent), under section 7f of the zoning resolution, to permit in a business, retail and retail-1 use district the erection and maintenance of an open type garage for the parking and storage of more than five motor vehicles (previously granted for a term of years and extended from time to time, the parking and storage of motor vehicles).

PREMISES AFFECTED—884-892 7th avenue and 201-209 West 56th street, northwest corner, Block 1028, Lot 29, Borough of Manhattan.

APPEARANCES—

For Applicant: Eugene M. Seccia.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Klei-
ert and Deputy Chief Connolly 3

Negative: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on September 21, 1954 subject to regular procedure, to consider new proposal for garage; and

WHEREAS, a public hearing was held on this application on February 1, 1955 after due notice by publication in the Bul-

letin; laid over to March 1, 1955, for inspection and decision, without further argument; hearing closed; then to March 15, 1955, for applicant to submit revised plans showing parapet wall not less than 5 ft. 6 in. high, properly reinforced on all sides where walls of adjoining buildings do not occur; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in business, retail and retail-1 use, B area, class 1½ height districts; West 56th street is in business and retail use, B area, class 1½ height districts; 7th avenue is in retail and retail-1 use B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated July 23, 1954 acting on N.B. Applic. 60-54, reads:

"1. Proposed use as garage for more than 5 motor vehicles in a business, retail, and retail-1 use district is contrary to Art. II, P. 4(a)(15) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. 5 in. frontage by 200 ft. in depth, on which is located the parking and storage of more than five motor vehicles; that it is proposed to erect a one story, fireproof, open type parking garage with parking roof of same; and

WHEREAS, the applicant contends that in 1937 Applic. 459-BZ was filed with the Board for a variance to permit the parking of more than five motor vehicles; that this variance was granted for a period of two years from November 9, 1938 and the department of housing and buildings issued temporary certificate of occupancy No. 24993 on August 9, 1939; that subsequently in July 1941 this application was reopened and amended to extend the two year period to July 22, 1943, further amended and extended to July 27, 1945, further amended and extended to July 10, 1947 and finally extended to July 1, 1949; that on July 23, 1949 Alt. Applic. No. 1117 was filed with the department of housing and buildings to obtain a permanent use for the parking and storage of more than five motor vehicles and certificate of occupancy No. 35836 was issued July 1, 1949 for this use; that this shows that the premises from the year 1937 to date have been entirely used for the parking and storage of more than five motor vehicles; that West 56th street and Seventh avenue were located in a business use district until November 13, 1936 when Seventh avenue was changed to a retail district for a distance 100 ft. east and west of Seventh avenue and the balance of the property under appeal extended further west 100 ft. on West 56th street, which still remained in a business district; and

WHEREAS, the applicant further contends that the building will be open on both street fronts with brick enclosure walls on the interior lot lines and the roof will be provided with brick parapets and pipe guard rails; that the immediate neighborhood lacks sufficient parking facilities, there being only several small garages located at 237 West 55th street and 137 West 56th street, together with a small parking lot located at 228 West 58th street, all within the 500 ft. radius; that the immediate neighborhood is built up with large buildings, consisting of apartments, hotels, office building and theatres, all requiring storage and parking space; that in order to provide the parking facilities and accommodations to meet the great demand for parking in this area, the owners are willing to invest a sum of over \$100,000 which in turn will enhance the city's revenue by additional taxes and help to relieve the parking situation; and

WHEREAS, the applicant states that the present owner has held title to the property since May 10, 1952; that the assessed valuation of land is \$700,000 and of the building \$1,000 making a total of \$701,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application

be and it hereby is *granted* under Section 7f for a term of ten years, to permit the premises to be occupied for the parking and storage of motor vehicles in a structure as proposed and as indicated on plans filed with this application marked "Received August 20, 1954", 3 sheets, as amended by revised plans marked "Received March 8, 1955", 2 sheets, *on condition* that the existing parking use as previously permitted by the Board under Vol. I of this calendar number and all other uses shall be removed and the premises constructed substantially as indicated on such plans above cited; that at the roof level the parapet shall be constructed as shown on such revised plans and reinforced in a manner which would support the parapet to the satisfaction of the Borough Superintendent; that signs shall be restricted to such signs permitted in a retail business district; that there shall be no sale of gasoline or repairing of cars or any other uses; that such signs shall state the rates charged for parking and storage and such other information as may be required by the Commissioner of Licenses; that such portable fire-fighting appliances shall be installed as the Fire Commissioner shall direct; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that curb cuts to the premises shall be as previously permitted under Vol. I; and that all permits, including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

66-38-BZ—Vol. I

APPLICANT—Unger and Unger, for Bankers Federal Savings and Loan Association, owner.

SUBJECT—Application reopened February 23, 1955 for consideration as to extension of term of variance—re (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a local retail use district, the change of location of curb cut for reduced parking lot.

PREMISES AFFECTED—340 Avenue of the Americas and 151 West 4th street, northeast corner, Block 552, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: Paul Feldman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution of June 22, 1954 affirmed.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on November 9, 1938 this application was granted by the Board on certain conditions under section 7h of the zoning resolution, to permit in a business use district, for a period of two years, the transient parking of more than five motor vehicles, of pleasure car type; and

WHEREAS, on November 6, 1940, November 10, 1942, October 24, 1944, October 22, 1946, November 30, 1948 and November 8, 1950 the term of variance was extended; and

WHEREAS, on June 22, 1954 the resolution was amended and time to complete extended; and

WHEREAS, the applicant requested reopening of this application and amendment of the resolution, to consider curb cut on reduced area and to extend term of variance; and

WHEREAS, this application was reopened on February 23, 1955 and set for hearing on March 15, 1955 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin, to consider extension of term of variance; and

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated June 17, 1954 acting on Alt. Applic. 208-54, reads:

"1. Due to the reduction in size of parking lot and necessary change in location of entrance and drop curb this application should be referred back to the Board of Standards and Appeals. Original approval was granted by the Board under Cal. #66-38-BZ."

Resolved, that the Board of Standards and Appeals does hereby *affirm* the resolution adopted by the Board on June 22, 1954, including permission for the curb cut as indicated on plans as previously submitted.

489-38-BZ—Vol. II

APPLICANT—Esso Standard Oil Company, owner.

SUBJECT—Application reopened February 8, 1955 for consideration as to extension of term of variance—re (decision of the borough superintendent), previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, the erection and maintenance of gasoline service station.

PREMISES AFFECTED—219-01 North Conduit boulevard and 144-01 to 144-09 Springfield boulevard, northeast corner, Block 3820, Lot 4, Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Joseph B. Lynch.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on January 17, 1939 this application (Vol. I) was denied by the Board under section 21 of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station; and

WHEREAS, on October 3, 1939 application was reopened subject to the regular procedure; and

WHEREAS, on December 3, 1940 application was granted on condition under section 21, for a term of ten years, for the erection and maintenance of a gasoline service station; and

WHEREAS, on January 21, 1941 copy of petition and order of certiorari was served on Board; and

WHEREAS, on June 4, 1941 Supreme Court, Queens County sustained the Board, certiorari dismissed; and

WHEREAS, on June 2, 1942 and from time to time up to June 7, 1948, the term of variance was extended and time to complete was extended; and

WHEREAS, on September 13, 1949, under Vol. II, time to complete was extended; and

WHEREAS, on October 3, 1951 resolution was amended and time to complete extended; and

WHEREAS, on April 21, 1953 application was reopened and resolution amended to permit number of gas tanks to be increased by two, making a total of ten; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation October 24, 1954; and

WHEREAS, this application was reopened on February 8, 1955 and set for hearing on March 15, 1955 at 10 A.M., subject to the regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin, new photographs, new plans to be filed if varying from original plans; and

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated March 3, 1955 acting on Alt. Applic. 488-55, reads:

"1. The erection and maintenance of a gasoline service station, lubritorium and auto laundry in a residence use district is contrary to Art. 2 Section 3 of the Zoning Resolution. Present gasoline service station, lubritorium,

MINUTES

auto laundry permitted by the Board of Standards & Appeals under Cal. No. 489-38-BZ for a term of ten (10) years. This term of variance expired on October 24th, 1954."

and

WHEREAS, the applicant states that in accordance with the requirements of the reopening proceeding on February 8, 1955 new photographs, showing present conditions, have been submitted; that plans were not filed inasmuch as there have been no changes from the original approval, other than the installation of two additional 550-gallon gasoline storage tanks; that the two additional tanks were approved by the Board under an amendment to Cal. No. 489-38-BZ, Vol. II.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on December 3, 1940, as thereafter amended by resolutions adopted through April 21, 1953, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"granted under section 7e for a term of ten (10) years from the date of this amended resolution, to permit * * *; that in all other respects the resolutions above cited shall be complied with; and that all permits, including a new certificate of occupancy shall be obtained and all work completed within six (6) months from the date of this amended resolution."

209-46-BZ—Vol. IV

APPLICANT—Edmund T. Mallory, for H. M. Williams Co., Inc., owner.

SUBJECT—Application reopened February 23, 1955 as Vol. IV—re (decision of the borough superintendent), under sections 7e and 7i of the zoning resolution, to permit in the business use portion of plot located in a residence and business use district, the addition of a fireproof canopy alongside building under construction and to provide a shelter at corner of auto showroom and to permit removal of old brick piers at present main entrance at corner of Northern boulevard and Junction boulevard and replace with glass and masonry.

PREMISES AFFECTED—93-01 to 94-05 Northern boulevard and 32-36 to 32-62 Junction boulevard, northwest corner and 32-57 to 32-63 93rd street, Block 1423, Lot 45, Jackson Heights, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on February 17, 1948 this application (Vol. I) was granted by the Board on certain conditions under sections 7i and 7c of the zoning resolution, to permit in the business use portion of the lot located in a residence and business use district, as a used car lot, and to permit the rear portion of the building to be occupied for greasing and washing, wheel alignment and minor repairs and to permit, within the building, one gasoline pump to be located near the door and one 550-gallon gasoline tank, for use by a Chevrolet sales agency; and

WHEREAS, on May 25, 1948, November 23, 1948, and June 14, 1949, time to complete was extended; and

WHEREAS, on February 15, 1950, under Vol. II, the resolution was amended re extension of building under section 7c; and

WHEREAS, on November 27, 1951, under Vol. III, the application was reopened subject to regular procedure to consider extension of use; and

WHEREAS, on June 17, 1952, the resolution was amended under sections 7e and 7i, for twenty years, to extend the building for uses in connection with auto agency as existing on plot; and

WHEREAS, on May 19, 1953 and May 23, 1954 time to complete was extended; and

WHEREAS, the applicant requested reopening of this application and amendment of the resolution; and

WHEREAS, this application was reopened on February 23, 1955 and set for hearing on March 15, 1955 at 10 A.M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated January 27, 1955, acting on Alt. Applic. 1808-51, reads:

"1. The proposed extension of the auto showroom, office, greasing, parts dept., minor repairs & welding incidental thereto, spray booth, washing a wheel alignment, open used car sales lot & parking of more than 5 cars waiting for service, is contrary to the decision of the B. S. & A. of 6/17/52, & therefore must be submitted to the B. S. & A. for its consideration."

and

WHEREAS, the applicant states that the subject premises are now under construction in accordance with the resolution of the Board and it is requested that the resolution be reopened and amended so as to permit changes as shown on revised plans filed with this application; that it is proposed to provide a fireproof canopy alongside the building now under construction, to be constructed of approved "Insulrock" on steel beams; that it is also proposed to provide a shelter at the corner of the auto showroom so that new cars and the entrance to the showroom can be protected from the weather; that the shelter will be constructed of "Insulrock" roof plank on steel beams and columns; that it is further proposed to remove the old brick piers at the present main entrance at the corner of Northern boulevard and Junction boulevard and replace the masonry with glass and aluminum, in a more modern manner.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on November 27, 1951, June 17, 1952, and through March 23, 1954, by adding thereto:

"that the enclosed addition consisting of a canopy to be erected on the northerly side of the building and a canopy on the southerly side at Northern Boulevard, and the change in the design and construction of the former entrance as indicated as items A, B and C on plans filed with this request for amendment marked, 'Received, January 31, 1955' (2 sheets) may be permitted on condition that such construction shall comply with the requirements of the Building Code and the Zoning Resolution therefor, and in all other respects shall comply with the resolution above cited; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

765-48-BZ

APPLICANT—Paul Friedman, for Sol and Ray Solomon, owners (Alvin M. Ziegler, lessee).

SUBJECT—Application reopened December 7, 1954 for consideration as to extension of term of variance—re (decision of the borough superintendent) previously granted on condition, under section 7e of the zoning resolution, permitting in a residence use district, for a term of years, the use of an open lot as a miniature golf course, with an office and store.

PREMISES AFFECTED—36-02 to 36-20 Ocean Boardwalk and 113 Beach 37th street, northeast corner of Ocean

Boardwalk, Block 308, part of Lot 1, Edgemere, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman and Alvin M. Ziegler.

For Opposition: Edward Hoffman for Park Dept.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Term of variance extended and time extended to complete the work.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on March 8, 1949 this application was granted by the Board on certain conditions, under section 7e of the zoning resolution, to permit in a residence use district, for a term of two years, to permit the use of open lot as a miniature golf course on condition that store building existing without permit along boardwalk shall be removed and no building shall be erected on entire plot, except existing one story frame office building; and

WHEREAS, on June 21, 1949 the application was reopened and resolution was amended to read, "* * * that a temporary certificate of occupancy to permit the operation of the miniature golf course with office incidental thereto as permitted, may be issued by the borough superintendent to permit its operation prior to removal of frame store building facing boardwalk, which is required to be removed by resolution adopted March 8, 1949"; and

WHEREAS, on October 10, 1950 and May 6, 1952 the term of variance was extended for terms of two years—expired October 1, 1954; and

WHEREAS, the applicant requested reopening of this application and extension of the term of variance, which had expired by time limitation; and

WHEREAS, this application was reopened on December 7, 1954 and set for hearing on January 18, 1954 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent, which has been filed, and two publications in the Bulletin; and

WHEREAS, a public hearing was held on this application on January 18, 1954 after due notice by publication in the Bulletin; laid over from January 18, 1955, for inspection; date to be set; then set for further hearing on February 23, 1955; then laid over to March 15, 1955, for inspection and decision; hearing closed; and

WHEREAS, the decision of the borough superintendent, dated October 4, 1954 acting on B. N. 5678-48, reads:

"1. The continued use of a miniature golf course beyond October 1, 1954 in a residence district is contrary to ruling of Board of Standards and Appeals under B. Z. 765/48."

and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on March 8, 1949, as thereafter amended by resolutions adopted through May 6, 1952, only so far as it has reference to the term of the variance, so that as amended this portion of the resolution shall read:

"granted under section 7e for a term of two years from the date of this amended resolution, to permit * * *; that other than as herein amended the resolutions above cited shall be complied with in all respects; and that all permits required, including a new certificate of occupancy shall be obtained and all work completed within three (3) months from the date of this amended resolution" (Misc. App. 5678/48 and B. N. 5678/48).

414-54-BZ

APPLICANT—Schrack and Harrington, for Lango Realty Corp., owner.

SUBJECT—Application May 25, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a residence use district, the parking and storage of motor vehicles for a term of five years.

PREMISES AFFECTED—33-37 29th street, east side, 265 ft. north of 34th avenue, Block 586, Lots 12 and 13, Astoria, Borough of Queens.

APPEARANCES—

For Applicant: John F. Fitzsimons and Charles Crisa.

For Opposition: Charles P. Yarcel, Mae Boyd, Erna Kimmer, Mary Ambruso, Louise Yarcel and Frank Lachsteiner.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 15, 1955, for inspection and decision; hearing closed; no further argument; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1½ height district; 29th street is in residence and business use, B area, class 1½ height districts; 34th avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated May 14, 1954 acting on Alt. Applic. 2364-53, reads:

"1. Parking and storage of motor vehicles in a residence use district is contrary to Art. II Sect. 3 of the Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 50.02 ft. frontage by 100.10 ft. in depth, presently vacant; that it is proposed to permit the parking and storage of motor vehicles on unbuilt upon plot; and

WHEREAS, the applicant contends that the surrounding neighborhood is rather completely developed and there is obviously not sufficient parking space, either garage-wise or on the streets, to take care of the needs; that the parking lot will be a benefit to the neighborhood and will in no way be detrimental to adjoining properties; and

WHEREAS, the applicant states that the present owner has held title to the property since September 28, 1953 and that the assessed valuation of land is \$6,300; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board which recommended the application be granted under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7h for a term of five years, to permit the premises to be occupied for the parking and storage of more than five motor vehicles, substantially as proposed and as indicated on plans filed with this application marked "Received May 25, 1954", 2 sheets, on condition that there shall be retaining walls, to height of adjoining grades, constructed on the side and rear lot lines at the expense of this owner, which shall be sufficient to retain and protect the adjoining banks and buildings; that this plot shall be leveled substantially to the grade of 29th street and surfaced with clean gravel or steam cinders treated with a binder and properly rolled; that there shall be erected on the interior and rear building lines a woven wire fence of the chain link type not less than 5 ft. 6 in. in height; that a similar fence shall be erected along the street line of 29th street with one opening for exit and entrance and with curb cut opposite not over 15 ft. in width; that such opening shall be fitted with a gate of similar construction as the fence, which shall be

MINUTES

kept closed when the parking lot is not in operation; that during the term of this variance the premises shall be occupied for no other use and no building shall be erected thereon; that signs shall be restricted to one sign attached to the fence, not extending beyond the building line and not illuminated, advertising only the parking and storage use, the rates charged and such other information as may be required by the Commissioner of Licenses; that such sign shall not exceed 15 sq. ft. in area; that such portable fire-fighting appliances shall be maintained in a convenient location as may be required by the Fire Commissioner; that the arrangement of the lot shall be as indicated on plans filed with this application, marked "Received May 25, 1954", 2 sheets; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

614-54-BZ

APPLICANT—Lama, Proskauer and Prober, for Jacob Nathanson, owner.

SUBJECT—Application July 26, 1954 (decision of the borough superintendent), under sections 7f, 7e, 7i and 7A of the zoning resolution, to permit in a residence and retail use district, for a term of twenty-one years, the erection and maintenance of more than one building on a lot, a super market and a gasoline service station, lubricatorium, car wash, motor vehicle repairs, storage and sale of accessories and office, with an entrance, show window and sign nearer the residence use district than is permitted.

PREMISES AFFECTED—1101-1111 63rd street and 6209-6223 11th avenue, northeast corner, Block 5731, Lot 2, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioners Kleinert and Keating 2

Negative: Chairman Murdock and Deputy Chief Conolly 2

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 21, 1954 after due notice by publication in the Bulletin; laid over to January 25, 1955, for inspection and decision without further argument; hearing closed; then to February 23, 1955, for inspection and decision; then to March 1, 1955, for further consideration; then to March 15, 1955, applicant to file revised plans; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 63rd street are in residence and retail use, C area, class 1 height districts; 11th avenue is in a retail use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated July 16, 1954 acting on N. B. Applic. 737-54, reads:

"1. The proposed construction of a supermarket partly within a residence use district is contrary to the Zoning Res. Art. II Sect. 3.

2. The proposed construction of a gasoline service station, lubricatorium, car washing, minor auto repairs, office and sales, storage, parking and storage of motor vehicles, loading and unloading within a retail use district is contrary to Art. II Sect. 4A of the Zoning Res.

3. The show window sign and entrance to the gas station on 63rd St. with curb cut is contrary to the Zoning Res. Art. II Sect. 7A."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. 4½ in. and 132 ft. 8 in. frontage by 125 ft. 4 in. in depth, irregular, presently vacant; that the property is in a class C area district and a class 1 height district; that the

portion of the premises within 100 ft. of 11th avenue is in a retail use district and the remainder is in a residence use district; that as of July 25, 1916 that portion of the premises within 100 ft. of 11th avenue was in a business use district and received its present use classification on May 20, 1952; that it is proposed to erect a modern supermarket and gasoline service station; that the contemplated supermarket and gas station accessory building will be one story in height, of class 3 construction, having a frontage of 62 ft. 8 in. on 11th avenue and 100 ft. on 63rd street; that the gas station accessory building will contain the conjunctive uses of lubricatorium, car wash, minor auto repairs, office and sales and storage on the gas station proper, ten 550 gallon gas tanks and six dispensing pumps; that the balance of the open area will be used for loading and unloading for the supermarket and parking and storage of motor vehicles; that the 100 ft. portion of the supermarket is a permissible use in the retail zone; and

WHEREAS, the applicant contends that the building as contemplated will be highly modern in design and will be entirely in accord with surrounding architecture; that the erection of the supermarket on the north end of the plot together with the two-family dwelling on the east side of the plot will completely isolate the gas station so that none of the adjoining properties can be affected; that the 10 ft. yard at the rear of the supermarket will afford additional permanent light and ventilation for the adjoining dwelling on lot 15 in block 5731; that as there is only one small gas station within the affected area in block 5717, lot 1, the erection of a modern supermarket together with a modern gas station with parking of cars is a much needed and vital service to the community; that 11th avenue and 63rd street are heavily trafficked streets and as such the proposal is entirely within keeping at this point; that the contemplated curb cuts on 63rd street are required for efficient operation of the gas station and will be buffered from the rest of the block by the dwelling to be erected to the east; that the proposed curb cuts will not affect the residential aspect of private garages on the said street; that the show window facing 63rd street sets 70 ft. back of the 63rd street building line; and

WHEREAS, the applicant states that the present owner has held title to the property since April 12, 1954 and that the assessed valuation of land is \$21,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant failed to file revised plans showing a reversed arrangement of the gasoline station and the supermarket, although requested to do so; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivisions f, e, i, and A of the zoning resolution, based on plans as submitted showing corner portion of premises proposed for gasoline station.

Resolved, that the decision of the borough superintendent, acting on N. B. App. 737/54 Objections 1, 2 and 3, be and it hereby is affirmed and that the application be and it hereby is denied.

684-54-BZ

APPLICANT—Ivan Pinsker, for Nicholas Salerno, owner, Hilgro Boat Yard, lessee.

SUBJECT—Application August 11, 1954 (decision of the Department of Marine and Aviation), under section 7f of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station for the storage and sale of marine white gasoline to boats.

PREMISES AFFECTED—161-45 Cross Bay boulevard, east side, 225 ft. south of 161st avenue, Block 14189, Lot 72, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Ivan Pinsker.

For Opposition: None.

MINUTES

ACTION OF BOARD—Application granted on condition. THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3
Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 25, 1955 after due notice by publication in the Bulletin; laid over to February 23, 1955, for inspection and decision; hearing closed; then to March 15, 1955, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Cross Bay boulevard and 161st avenue are in a business use, D area, class 1 height district; and

WHEREAS, the decision of the Department of Marine and Aviation dated July 26, 1954, acting on Applic. No. 540861, reads:

"The proposed installation violates the Zoning Resolution, Sec. 4a-(46)."

and
WHEREAS, the applicant states that the premises consist of a plot, 80 ft. frontage by 84.5 ft. in depth, presently used as a boat yard; that it is proposed to install two 550-gallon buried gasoline storage tanks and one approved dispensing pump; and

WHEREAS, the applicant contends that the present use of the boat yard is legal and permitted by the zoning resolution and the department of marine and aviation; that an average of 75 boats are regularly stored and docked at the subject premises by clients of the lessee; that the sale of gasoline is a usual service of the present day boat yard and such service is continually being requested by regular customers of lessee; that the Board has in the past, under section 7f permitted such storage and sale of gasoline by neighboring boat yards, which are to this day so operating and the lessee requests permission to be allowed to furnish the same basic services as his competitors in the immediate vicinity by being permitted to sell marine gasoline; that the brand of gasoline (Texaco) which lessee desires to sell is not at present being offered for sale in the vicinity of the subject premises and the Board's permission to install facilities for such storage and sale will allow the mariners who use Shell Bank basin a wider choice of products they may purchase, and those who prefer that brand, an opportunity to have same available on need; that the proposed installation will in no way alter the present appearance of premises at Cross Bay boulevard street front as the proposed tanks will be buried and proposed pump will be at the water end of the property approximately 85 ft. from the street side; that street traffic conditions will in no way be altered as product sale is proposed for boats only; that if proposed installation is permitted it will be made under plans approved by the Board, the department of marine and aviation and the fire department, and under the supervision of the two departments mentioned herein; that adequate fire extinguishing appliances as required by the fire department will be provided; and

WHEREAS, the applicant states that the present owner has held title to the property since October 25, 1948; that the assessed valuation of land is \$5,600 and that the building was erected in 1948; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under the original powers granted by the Legislature to this Board, to permit the sale of gasoline at the rear to boats, substantially as proposed and as indicated on plans filed with this application, marked "Received August 11, 1954", 5 sheets, *on condition* that the installation shall be substantially as proposed and maintained to the satisfaction of the fire commissioner and the Department of Marine and Aviation; that no signs shall be erected

in connection with such sale of gas except there may be a neat sign not exceeding 10 square feet in area attached to the float, advertising the sale of gasoline to boats; and that in all other respects the installation shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

771-54-BZ

APPLICANT—Burke, Green and Groh, for Edna Delmoor, owner.

SUBJECT—Application October 5, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence use, G-1 area district, the extension of existing building, without the required setback from mapped street.

PREMISES AFFECTED—132-10 Hook Creek boulevard, northwest corner of 132nd road, Block 12981, Lot 118, Rosedale, Borough of Queens.

APPEARANCES—

For Applicant: Arthur McGee.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; laid over to March 15, 1955, for decision after additional information has been obtained as to widening of Hook Creek boulevard; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, G-1 area, class ½ height district; Hook Creek boulevard and 132nd road are in residence and local retail use, G-1 area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated September 23, 1954 acting on Alt. Applic. 2715-53, reads:

"1. The extension of a building within a G-1 Area District without the required 15 ft. setback from a mapped street as laid out upon the City Map is contrary to Art. IV Sec. 16c of the Zoning Resolution."

and
WHEREAS, the applicant states that the premises consist of a plot, 110.21 ft. frontage by 199.15 ft. in depth, irregular, on which is located a structure of class 4 construction used as a dwelling; that the property referred to is presently in a residence use, G-1 area, ½ height district; that on July 25, 1916 the property was zoned as a residence use, one times height, D area district; that on October 26, 1934 it was rezoned to an E district and on June 30, 1952 the present height and area designations became effective; that there is no zoning amendment relating to this property pending at the present time; and

WHEREAS, the applicant contends that this case was first brought before the Board under Cal. No. 114-54-A, to permit reconstruction of that portion of the building which was in the bed of a mapped street; that the Board granted this variance, but it was pointed out that this building was also in a G-1 area district and would not set back the required number of feet if the proposed building line was taken into consideration and it therefore was decided that it was necessary for a zoning case to be filed to request a further variance to permit the existing building to remain without the required setback of a G-1 area district; that this case is therefore filed in conformance with the request of the Board and request is made that the Board favorably grant this variance to enable the reconstruction work on this old house to be completed; that the owner of these

MINUTES

premises is living in said house under severe hardship; that the house was erected prior to 1900 and was purchased by the present owner with the idea in mind to remodel and renovate the same to fit the modern mode of living; and

WHEREAS, the applicant states that the present owner has held title to the property since September 1, 1952; that the assessed valuation of land is \$2,000 and of the building \$6,000 making a total of \$8,000; that the building was erected 1900; and

WHEREAS, it has been ascertained that there is no current proposal to widen Hook Creek boulevard; and

WHEREAS, the Board found that the provisions of Section 7 subdivision c are inapplicable and that the application can be considered only under Section 21 as to variance of area requirements; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 to permit omission of front yard and to permit the location of an addition as proposed along the proposed widening line, as indicated on plans filed with this application, marked "Received October 5, 1954," 4 sheets, *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified by the Board under Cal. 114-54-A on July 27, 1954; and that all permits including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

914-54-BZ

APPLICANT—Edward B. Moebus, for Lockwood Greene Engineers, Inc. (Western Electric Co., Inc., owner).

SUBJECT—Application November 30, 1954—(decision of the borough superintendent) under section 9A of the zoning resolution, to permit in a business and manufacturing use district, the erection and maintenance of a structure to be used as a repair shop, warehouse, office, more than the permitted height within two miles from an airport.

PREMISES AFFECTED—135-02 Springfield boulevard, southwest corner of Merrick boulevard, Block 13007, Lot 31, Springfield Gardens, Borough of Queens.

APPEARANCES—

For Applicant: George F. Knapp and Edward B. Moebus.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in business and manufacturing use, B and D area, class ½ height districts; Springfield boulevard and Merrick boulevard are in local retail and business use, D area, class ½ height districts; and

WHEREAS, the decision of the borough superintendent, dated November 1, 1954 acting on N. B. Applic. 2469-54, reads:

"1. The erection of a structure within two miles from the boundary of any publicly owned or controlled airport must conform with Article III Sec. 9-A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 971.98 ft. frontage by 620 ft. in depth, irregular, on which are located three vacant stores, to be demolished; that it is proposed to construct two ventilation equipment penthouses and one stair penthouse to an elevation 4 ft. 9 in. above the legal height limit; and

WHEREAS, the applicant further states that the proposed building is located approximately 1¾ miles from the boundary of the New York International airport property and over two miles from the nearest runway; that under the provisions of section 9A no advantage may be taken of setbacks in increasing the height allowed above the base figure obtained by multiplying the width of the street (but not more than 100 ft.) by the height factor; that Springfield boulevard on which the building faces varies in width from 140 ft. to 180 ft. in front of the site; that the site is located in a class ½ height district and hence the maximum legal height above the legal curb is 50 ft.; that with the legal curb elevation of 20.72 ft. in front of the building, the maximum legal elevation for construction is 70.72 ft.; that the top of the penthouses which it is proposed to construct would be at elevation 75.46 ft. or 4 ft. 9 in. above the legal limit; and

WHEREAS, the applicant contends that the Civil Aeronautics Authority has been contacted and they have no objection to the construction of the penthouses at this elevation; that at the point where the Long Island railroad crosses Springfield boulevard approximately 600 ft. south of the building (which point lies between the building and the airport), there are two steel towers supporting a power line; that the top of these towers are at elevation 105.5 ft., which is approximately 30 ft. higher than the proposed construction; that as the power line runs towards the northwest it drops approximately 15 ft., but it is still 10 ft. to 15 ft. higher than the proposed construction; that public school No. 37, at Belknap avenue and 137th avenue, which is approximately 1,000 ft. south of the proposed building, has a top elevation of approximately 90 ft. which is approximately 14 ft. higher than the proposed construction; that the height district was changed from class 1 to class ½ on June 30, 1952; that if the height district was still class 1, it would be permitted to build to elevation 108.22 ft. or 32 ft. 9 in. higher than proposed; that the legal curb elevation of Merrick boulevard (100 ft. wide) opposite the northwest corner of the building is 27.2; that if they were permitted to use this as a basis, they would be able to build to elevation 77.20 ft. which is approximately 1 ft. 9 in. higher than the proposed construction; that the building is set back from Springfield boulevard 40 ft. and the penthouses are set back 51 ft. from the front of the building; that the stair penthouse is on the exterior of the building at the south, but the two ventilation equipment penthouses are located 99 ft. from each side of the building and are practically invisible, so that appearance-wise they cannot be considered objectionable; that the relocation of the ventilation equipment from penthouses on the roof to space on the 2nd floor of the building has been considered; that this however would cause a great hardship to the company as the building is a distributing warehouse which includes extensive repair shop facilities on the 2nd floor for the repair of telephone equipment; that the 2nd floor has been very carefully laid out to make the most economical use of the space and with an eye to proper flow for efficient operation; that to rearrange the equipment to provide approximately 2,000 sq. ft. of space for the ventilation equipment would necessitate extensive changes to the equipment layout and result in a much less efficient arrangement for flow of materials being repaired; that obviously a less efficient arrangement of repair facilities would increase the handling costs of the equipment being repaired thereby subjecting the company to the permanent hardship of higher production costs; and

WHEREAS, the applicant states that the present owner has held title to various lots since 1951, 1952, 1953 and 1954; that the assessed valuation of land is \$183,200 and of the building \$18,000 making a total of \$201,000; and

WHEREAS, the Board deemed that this was an appropriate case in which to exercise its discretion to grant a variance

MINUTES

under Section 9A of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the height district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 9A, to permit the height of the proposed building to be substantially as proposed and as indicated on plans filed with this application, marked "Received, November 30, 1954" (7 sheets), and "February 9, 1955" (one sheet), *on condition* that in all other respects the building shall comply with all laws, rules and regulations applicable thereto and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the zoning resolution.

Adjourned: 12:30 P. M.

JOSEPH J. DOYLE, *Chief Clerk*.

TUESDAY AFTERNOON, MARCH 15, 1955, 2 P.M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

915-51-SA

APPLICANT—The American Laundry Machinery Company, owner.

SUBJECT—Application reopened September 15, 1953—for amendment to resolution as to additional models—re American Truclean Dry Cleaning Unit complete or separate installation of the Washer, Extractor Unit, Filter or Service Unit; previously approved.

APPEARANCES—

For Applicant: Richard E. Lester.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 915-51-SA

Subject: Amendment to resolution as to additional models.

American Laundry Machine Company requested by letter dated July 20, 1953 that the resolution adopted March 17, 1953 under Cal. No. 915-51-SA to include the use of the approved unit with 140°F Solvent and the inclusion of additional models to be used with both 105°F and 140°F Solvent. The application was reopened by a vote of the Board September 15, 1953.

Purpose

The appliance is a dry cleaning unit using a solvent having a flash point of either 105°F or 140°F.

Description

The Truclean unit, approved by the Board March 17, 1953 under Cal. No. 915-51-SA consisted of the following: Washer Extractor; Filter and Still. The additional equipment requested consists mainly of tumblers of various sizes. The tumbler is designed for drying and deodorizing dry cleaned work. There is incorporated on the door, an electrically interlocked door latch and the latching or unlatching of the door automatically starts or stops the tumbler. The cylinder of the tumbler is galvanized steel and the speed of the cylinder is 33.6 rpm. The heating is done by multiple

fin-type continuous tube heater. The tumblers are also so designed that a safety relief door is located at the rear of the machine; a keeper bar, cast as part of the door, engages a latch on the arm of a counterweight. When the safety relief door is forced open, the keeper bar is disengaged from the latch allowing the counterweight to drop thereby automatically opening a steam valve. The opening of this steam valve admits live steam into the interior of the tumbler acting as a fire extinguisher. The steam fire extinguisher is also operated by a fusible link. A wire fastened to a second counterweight is connected to a fusible link mounted in the exhaust air duct; should the exhaust air reach a temperature great enough to melt the fusible link the wire is released; this allows the counterweight to drop, thereby opening the steam valve.

The tumblers are of a size of 36" x 30" drum size and 44" x 42" having a capacity of 47½ lbs. of wash and 103½ lbs. of wash respectively. All tumblers are equipped with explosion proof motors.

The applicant has also requested approval of the American 60 lbs. capacity Truclean, Two Bath unit with self contained solvent circulating tank. The washer extractor has a capacity of 60 lbs. The filters have a capacity of 3,000 gph each; the still is designed to operate with twenty to thirty lbs. steam pressure; one full automatic electro-pneumatic control; one service unit consisting of water separator tank; make-up and still feed tank, moisture absorber, still pump and service pump; base tank; auxiliary tank; two solvent heaters and all necessary piping and valves. An underground storage tank of 1,080 gal. or less capacity will be installed but is not an integral part of the appliance as submitted for approval.

Recommendation

The Committee on Test recommends that the resolution adopted March 17, 1953 under Cal. No. 915-51-SA be amended to include the tumblers herein described and the American 60 lb. capacity Truclean, Two Bath unit and that on condition that the motors are of the explosion proof type.

The Committee further recommends that the unit herein recommended for approval and those units approved March 17, 1953 under Cal. No. 915-51-SA may be used with solvents having a flash point of 105°F or 140°F on condition that all motors are explosion proof motors and that the requirements of the resolution adopted March 17, 1953 under Cal. No. 915-51-SA are complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of March 17, 1953 in accordance with the above report.

136-53-SA

APPLICANT—Ace Cabinet Corporation, owner.

SUBJECT—Application February 5, 1953—Ace Clothes Dryer (gas fired), Model 400, approval of.

APPEARANCES—

For Applicant: Milton Herzer.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

MINUTES

REPORT OF COMMITTEE ON TEST

Re: Cal. 136-53-SA

Subject: Ace Clothes Dryer, Model 400, approval of.

Ace Cabinet Corp., New Bedford, Mass., filed February 5, 1953 an application with the Board of Standards and Appeals for approval of the Ace Cabinet Dryer, Models 400 and D-14 under the provisions of C26-191.0 and Article 12, Chapter 26, Administrative Building Code.

Purpose

The appliance, a gas heated commercial drying tumbler is to be used for the drying of clothes by forcing hot air through the tumbling clothes.

Description

The clothes dryer consists of a cabinet with a 48½" over-all height, 34½" wide and 29¾" deep. Its shipping weight is approximately 375 lbs.

The cylinder in which the damp garments are placed is of perforated galvanized steel construction, spot welded and having the following dimensions. Inside diameter 31" and 19" deep front to back. There are four integral ribs in the basket for assisting in the tumbling action.

The clothes drying cylinder is driven through a compound "V" belt drive from a ¼ horse power capacitor type motor turning 1725 RPM. The drum rotates through this compound "V" belt drive at approximately 40 to 42 RPM.

The air is caused to move through the machine by a blower located at the lower left hand side of the machine at the rear. The blower is driven from the single ¼ horse power motor which also drives the main cylinder as described above. The blower is designed to move approximately 400 cubic feet of air per minute through the machine and discharges the air out of doors. The entire drive assembly is located at the rear of the machine and is completely housed in a solid sheet metal back panel.

The heat for drying is generated in upper right side of the machine within an aluminized steel burner chamber and the pipe burner assembly. This pipe burner is located in the combustion chamber. The pipe burner assembly comes as a complete packaged unit with the following safety controls:

1. Automatic pilot safety valve which will shut off all the gas in the event of pilot failure.
2. An automatic self-contained modulating temperature control valve.
3. A solenoid valve which is in series with the timer control, a door interlock switch, a high temperature limit control switch. The action of these switches being as follows:
 - (a) The time switch shuts off the gas, blower and motor drive at the completion of the drying cycle.
 - (b) The door interlock switches shut off the gas and drive motor in case either the main door or lint door is open while the machine is in operation.
 - (c) The high limit control switch located in the bonnet of the machine is of the automatic re-set type of switch. This switch as long as the blower is operating satisfactorily will be kept cool by the room temperature air flowing into the burner compartment. Should the air cease to move through the machine for any reason, all the heat from the burner will back up and cause the limit switch to operate, shutting off all the gas and keeping it off until the machine has cooled sufficiently to reset the switch.

There are no combustible parts to this appliance other than the wiring insulation.

The dryer is also equipped with a built-in lint trap located at the front base of the machine. This lint trap screens out all lint before the air passes into the blower and subsequently the exhaust duct.

Inspection and Test

The appliance was inspected and tested by Asst. Engr. J. A. Darts, Committee on Test and found to operate as designed. All safety features operated as required.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends that the Ace Tele-coin Tumble Dryer, Models 400 known as D-14 be approved under C26-191.0 for voluntary installations when installed in accordance with this report and the requirements of Article 12, Sub. Article I of the Administrative Building Code.

It is further recommended that each machine bear a label permanently affixed reading, "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 136-53-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

THE RESOLUTION—

WHEREAS, Order No. 4924-4 issued by the Fire Commissioner June 2, 1954, reads:

“1. Discontinue and remove the direct method of refrigeration from that part of the building prohibited by C19-98.0-b, Administrative Code.”

and

WHEREAS, the applicant states the building is two stories, 20 ft. in height, 20 ft. by 65 ft. in area, of Class 3 construction, erected on a lot 20 ft. by 65 ft. in area, prior to 1925, located

in a business use, D area, Class One height district, and used and occupied since 1925—1st floor meat and grocery store, 8 persons; 2nd floor—storage and locker rooms in conjunction with the first floor store for which use and occupancy the applicant states no Certificate of Occupancy has been issued; the building is provided with one 3 ft. wide interior wood stairs enclosed in partitions of wood studs, wood lath and plaster equipped with wood doors which are not self-closing; stair hall leads direct to street and is provided with a ladder and scuttle to roof; and

WHEREAS, the applicant states that a store occupies the entire first floor and second floor is used solely by the store employees as locker rooms, toilet and lunch room; that there are two one and one half ton freon compressors on the second floor using 12 pounds of refrigerant each; one is located in the front room and the other in the rear or former kitchen of the second floor; that this installation consists of a direct system, Class B, using a non-hazardous type of refrigerant; that both machines are within wire enclosures and there are no open flames in the vicinity of them; that both rooms have window ventilation in excess of the requirement of the Code; and

WHEREAS, the applicant contends buildings in this area have no cellars due to high tide conditions; that mechanical refrigeration has been maintained in these premises since 1925; that due to high tide conditions it has become necessary to build up the first floor level; that compressors formerly located on the first floor have been flooded; that with the increased business demand for space requirements on the first floor it became necessary to eliminate the residential occupancy on the second floor and use it for employees rest rooms and to locate the compressors on this floor to safeguard them from tidewater; that in view of the fact that there are no definite provisions in Section C19-98.0 of the Administrative Code regarding freon refrigerant and as it is free from harmful effects and since there are no fire hazards involved it is requested that the Board permit these two compressors to remain on the second floor.

Resolved, that the decision of the Fire Commissioner as expressed in Order No. 4924-4, be and it hereby is *modified*, and that the appeal be and it hereby is *granted* to permit the refrigeration machines to be located as proposed on the second floor as indicated on plans filed with this appeal marked, “Received, June 25, 1954” (2 sheets), *on condition* that such system shall be maintained to the satisfaction of the Fire Commissioner.

970-54-A

APPLICANT—Albert B. Bauer, for Department of Public Works, City of New York, owner.

SUBJECT—Application December 23, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—125-01 Queens boulevard, northwest corner of Hoover avenue, Block 9653, Lot 1, Kew Gardens, Borough of Queens.

APPEARANCES—

For Applicant: S. H. Greenhill, R. H. McKay and H. G. Collins.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated November 30, 1954, on N.B. App. 441-54, reads:

“3. Maximum distance to exits on other than ground floor must not exceed 125 ft.

4. Exits must be remote. Sec. 6.1.2.4-4 B.C.

6. Exits must not be obstructed or exit doors locked. Sec. 6.1.2.4. Sec. 6.1.11.d. Sec. 6.2.3. B.C.

9. Portions marked mezzanine do not comply with code requirements for mezzanines. Provide proper exits from same, treating each level as a separate floor.

MINUTES

10. Two means of egress must be provided from all portions of building.

11. Stair leading to floor below legal grade must be separated from portion of stair above grade as required by Sec. 6.4.1.8.2.d B.C."

and

WHEREAS, the applicant states the building will be 8 stories and penthouse, 100 feet in height, 357.6 feet front by 326 ft. 6 in. in depth at first floor, 234 feet by 313.6 feet in area at typical floor level, Class 1 construction, erected on a lot 510 feet by 663 feet, irregular in area, in a business and residence use, D area, Class 1 height district; used and occupied: Cellar—storage and utilities, 40 persons; Basement—Offices and courts, 980 persons; 1st floor—offices, court and kitchen, 1162 persons; 2nd floor—offices and prison cells, 283 persons; 3rd floor—offices, courts and cells, 620 persons; 4th floor—offices, cells and dayrooms, 200 persons; 5th floor—offices, cells and grand jury room, 240 persons; 6th floor—offices, cells and dayroom, 195 persons; 7th floor—offices, library, occupational therapy, 200 persons; 8th floor—offices, chapel and recreation roof, 150 persons. The building will be provided with an approved standpipe system and an approved interior fire alarm system and regular monthly fire drills be maintained. There will be six interior stairs, running up to the 4th floor and two additional stairs throughout the building; there will be two fire towers; six of the interior stairs extend to roof bulkhead; and

WHEREAS, the applicant states part of proposed building will be utilized as a prison and as such certain construction features are required that do not meet the normal requirements of the Administrative Building Code; that the design and plan of the building develop practical application of modern theories concerning custodial institutions and afford the maximum protection against fire as well as escapes and suicides; and

WHEREAS, the applicant contends as to Objection 3, that the cell-block lock construction proposed and the necessity for maintaining maximum control of prisoners, dictates the extended distance of 157 feet from the farthest cell to the exit stairs; that as there is no combustible material present and the area is under 24-hour control, it is requested the Board accept the 32 foot excess distance to exits; and

WHEREAS, the applicant contends as to Objection 4, that the location of stairs proposed provides maximum control of prisoners with a good concentration of guards; that fire drills will be held at regular intervals and orderly evacuation of floor areas could be quickly accomplished in event of emergency; and

WHEREAS, the applicant contends as to Objection 6, that locks on exit doors are necessary to minimize the possibility of escape of prisoners; that Section 6.2.3 of the Code permits locked doors in places or institutions of legal restraint; that the proposed prison is within this category; and

WHEREAS, the applicant contends as to Objection 9, that the areas marked "mezzanine" as shown on plans marked Nos. 22 and 27 filed with this appeal are a double tier cell block construction used to afford maximum security and allows a guard to view both tiers on one tour of duty; that there will be intra-floor stairs from the upper tier to the main floor of each story and exit facilities are provided from the main floors at each story at the control center; that the building could not be used as a prison if a variance of this provision is not permitted; and

WHEREAS, the applicant contends as to Objection 10, referring to the dead file space, women's toilet shown on sheets 19 and 20, the waiting room area shown on sheet 21 and the gymnasium and occupational activities area shown on sheet 25 of plans filed with this appeal, that in some of these areas necessity for control of prisoners and in other areas separation of prisoners from civil employees dictate the single means of egress; that the arrangement proposed affords the maximum control required throughout the prison portion of the building; that the areas in most cases are less than 2,500 square feet and will be occupied by less than the 75 persons allowed by the Building Code for an area with a single means of egress; and

WHEREAS, the applicant contends as to Objection 11, referring to stairs 2 and 3 as shown on sheet 2 of plans showing the court wing, that the legal grade is the mean of all grades of the total area covered by this building would be elevation 74.92 feet and the level of the ground floor in the court wing is elevation 73 to 68 feet; that this floor is at legal grade and should be treated in accordance with the Code which would not require the stairs at the southwest and southeast corners of the court wing to be separated; and

WHEREAS, the applicant contends that the provisions of the Building Code dealing with exit facilities on the basis of normal requirements for persons not held in restraint are inconsistent with the needs of a building in which the means of exit or escape must be minimized and if possible eliminated; and it is therefore requested a variation be granted from a decision of the Borough Superintendent, Objections 3, 4, 6, 9, 10 and 11 and such decision be modified to permit the approval of the filed plans.

Resolved, that the decision of the Borough Superintendent, acting on N. B. App. 441 of 1954, Objections 3, 4, 6, 9, 10 and 11, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto, and as shown on plans filed with this appeal marked, "Received, December 23, 1954" (33 sheets) and *on further condition* that under Section 6.2.3. of the Building Code the exemption shall apply only to the section having cell blocks and where persons are held under legal restraint.

848-52-A—Vol. II

APPLICANT—M. Martin Elkind, for 115 East 10th Street Corp., owner.

SUBJECT—Application reopened April 6, 1954 as Vol. II—re Appeal from a decision of the borough superintendent.
PREMISES AFFECTED—2-6 Montgomery street, west side, from East Broadway to Division street; 247 Division street and 258 East Broadway (2nd floor); Block 286, Lot 60, Borough of Manhattan.

APPEARANCES—

For Applicant: M. Martin Elkind.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal withdrawn. Applicant stated meeting room occupancy had been removed from second floor.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-ert and Keating and Deputy Chief Connolly 4
Negative 0

262-36-A—Vol. III

APPLICANT—Joseph A. Marck, for Rosemarie Millford, owner.

SUBJECT—Application reopened November 9, 1954 as Vol. III—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—154-34 Riverside drive, south side, 60 ft. east of Riverside drive, 3rd floor, Block 4543, Lots 5 and 7, Beechhurst, Borough of Queens.

APPEARANCES—

For Applicant: Joseph A. Marck.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and Joseph Sweeney, Dept. of Hospitals.

ACTION OF BOARD—Laid over to March 22, 1955, at 2 P.M., for further consideration and report from Dept. of Hospitals.

376-54-A

APPLICANT—Sidney Daub, for Cosmopolitan Corp., owner.

SUBJECT—Application May 11, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—19-21 West 57th street, north side, 350 ft. west of 5th avenue (Block 1273, Lot 22), Borough of Manhattan.

MINUTES

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 12, 1955, at 2 P.M., for inspection and decision; hearing closed.

405-54-A

APPLICANT—Henry G. Harris, for 247 Canal Street Corp., owner.

SUBJECT—Application May 21, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—247 Canal street and 119-121 Lafayette street, northeast corner, Block 208, Lot 1, Borough of Manhattan.

APPEARANCES—

For Applicant: Henry G. Harris.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 29, 1955, at 2 P. M., applicant to file further revised plans.

417-54-A

APPLICANT—Rudolf C. P. Boehler, for The Prudential Insurance Company of America, owner.

SUBJECT—Application May 26, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1407 Broadway, southwest corner of West 39th street and 533 7th avenue, 23rd floor; Block 814, Lot 15, Borough of Manhattan.

APPEARANCES—

For Applicant: E. Augustus Acker.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to March 22, 1955, at 2 P. M., applicant to report to Board.

675-54-A

APPLICANT—Lama, Proskaner and Prober, for Fedders Quigan Corp., owner.

SUBJECT—Application August 2, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—58-01 Grand avenue and 58-28 to 58-36 58th street, northwest corner, Block 2678, Lot 1, Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and E. A. Meyer, Fire Dept.

ACTION OF BOARD—Laid over to April 12, 1955, at 2 P. M., pending action by the Board as to approval under Application 88-54-SA.

773-54-A

APPLICANT—Henry G. Harris, for Murry Holding Corp., owner.

SUBJECT—Application October 11, 1954—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1832-1846 83rd street, south side, 240 ft. west of 19th avenue and 1835-1847 84th street, Block 6327, Lot 22, Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry G. Harris.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and Joseph A. Sweeney, Dept. of Hospitals.

ACTION OF BOARD—Laid over to April 12, 1955, at 2 P.M., for inspection by a committee of the Board and decision; hearing closed.

866-54-A

APPLICANT—John T. Kelleher, Borough Superintendent, Department of Housing and Buildings, Borough of Queens.

OWNER OF PREMISES—Bernard Isacowitz.

SUBJECT—Application November 16, 1954—re Revocation of Certificate of Occupancy Q-49684-48, issued re N.B. 6744-47.

PREMISES AFFECTED—138 Beach 149th street, east side, 596 ft. south of Rockaway Beach boulevard, Block 788, Lot 43, Neponsit, Borough of Queens.

APPEARANCES—

For Applicant: Aaron Halpern.

For Owner: Harriet Jacobs.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 12, 1955, at 2 P.M., at the request of applicant.

(Remaining Minutes of the Meeting of March 15, 1955 will be printed in the Bulletin of March 29, 1955.)

PUBLIC HEARING

PROPOSED RULES COVERING DRY CLEANING ESTABLISHMENTS PURSUANT TO THE ZONING RESOLUTION OF THE CITY OF NEW YORK (CAL. 958-47-SR VOL. II)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on *Friday, March 25, 1955*, at 10 A.M., in Room 1013, Municipal Building, Manhattan, on the Proposed Rules Covering Dry Cleaning Establishments, Pursuant to the Zoning Resolution of The City of New York.

These Rules are proposed to supersede those previously proposed under Calendar No. 958-47-SR, Vol. II on which a hearing was held March 12, 1954.

Authority

Section 666, Subd. 2 of the Charter of the City of New York and Article V, Section 21 and Article II, Section 4(a), Subd. 53 of the Zoning Resolution of the City of New York.

Application of Rules.

These rules shall be deemed to apply only to those excepted dry cleaning establishments existing or hereafter established, pursuant to Article II, Sections 4(a), Subd. 53, 4-A, 4-B and 4-C of the Zoning Resolution.

These rules shall not be deemed to modify or repeal Chapter 19 of the Administrative Code of the City of New York.

Zoning Resolution.

ARTICLE I—DEFINITIONS

§1. Definitions. * * *

(cc) For the purpose of this resolution, "dry cleaning" includes cleaning textiles, fabrics, garments or other articles by the use of solvents other than water, extraction of the

PUBLIC HEARING

solvents therefrom, and drying the same. A "dry cleaning unit" is the machinery or equipment in which textiles, fabrics, garments or other articles are carried through a complete cleaning cycle. A "dry cleaning unit" may consist of one or more detached component machines.

ARTICLE II—USE DISTRICTS

§4. Business Districts. (a) In a business district no building or premises shall be used, and no building shall be erected which is arranged, intended or designed to be used, for any of the following specified trades, industries or uses:

(11) Dyeing establishments.

(53) Dry cleaning establishments, except for establishments which conform to the restrictions set forth below:

(a) Not more than two dry cleaning units shall be installed, and such units shall have an aggregate dry load capacity of not more than 60 pounds, as rated by the Board.

(b) The gross floor area of the dry cleaning establishment, including space used for dry cleaning, pressing and incidental operations, and space used for storage, service of customers and convenience of employees, shall not exceed 2,000 square feet. However, additional space may be used on a lower floor which is either a basement or a cellar, provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles.

(c) No solvent having a flash point less than 138.2 degrees Fahrenheit shall be used, except for incidental removal of spots.

To protect the public health, safety and welfare in accordance with the general purpose and intent of this resolution, to safeguard the character of the predominant types of uses located in the districts affected, and to protect the occupants of nearby residences and other premises from traffic congestion, fire, explosion, vibration, noise, heat, smoke, odors, toxic vapors and other forms of air pollution, the Board, after public notice and hearing, may adopt, and from time to time amend, rules and regulations for the operation and maintenance of dry cleaning establishments permitted under subsections (a), (b) and (c) above. Such rules and regulations may cover inter alia location of entrances to and exits from such establishments, installation of equipment and hours of operation of such establishments. Such rules and regulations may also prescribe the conditions under which such establishments may exist in buildings in which residences are located.

Any dry cleaning establishment which was in existence prior to January 1, 1953 in any use district to which the provisions of this section apply, may be continued, but no such establishment shall be enlarged or extended, nor shall the capacity of its dry cleaning units be enlarged, except in conformity with all the provisions of this section. Such existing establishments shall be subject to the aforesaid rules and regulations of the Board.

Section 4-A. Retail Districts. In a retail district the same regulations and restrictions shall apply as are provided for business districts except that no manufacturing or treatment of products shall be carried on other than such as are incidental to the conduct of a retail business conducted on the premises, or such other manufacturing as is now permitted in a business district, provided that in such other manufacturing not more than five per cent (5%) of the total floor space of the building is so used. However, any use or uses specifically authorized under the provisions of §3 (10) shall be permitted in a retail district. In addition, dry cleaning establishments conforming to the provisions of §4(a) (53) shall be permitted in a retail district, provided such establishments are for retail purposes where services are performed directly for consumers or for transient hotels, or as an accessory use in transient hotels and department stores.

Section 4-B. Restricted Retail Districts. In a restricted retail district, the same regulations and restrictions shall apply as are provided for retail districts except, that in a restricted retail district no building or premises shall be used

and no building shall be erected which is arranged, intended or designed to be used for any of the following purposes:

(j) Dry cleaning establishments, other than an establishment conforming to the provisions of §4-A, which is located in a passenger terminal, or as an accessory use in a transient hotel or a department store.

Section 4-C. Local Retail Districts. In a local retail district, the same regulations and restrictions shall apply below the level of that first story ceiling as are provided for restricted retail districts, except that no manufacturing of any kind shall be permitted; and no building shall be erected or structurally altered which is arranged, intended or designed to be used above the level of the first story ceiling for any use not permitted in a residence district. However, the provisions of this section shall not apply to projects authorized pursuant to §3 (10) of this resolution. In addition, the provisions of §4-B(j) shall not apply, and dry cleaning establishments conforming to the provisions of §4-A shall be permitted in local retail districts.

Rule 1. Definitions.

For the purpose of these Rules, the following definitions shall apply.

1.1. The term "dry cleaning establishment" shall mean any room, place or space in which dry cleaning is performed, as defined in the Zoning Resolution.

1.1.1. Dry Cleaning establishments to which these Rules shall apply shall be divided into two classes: Class A and Class B.

1.1.2. Class A dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall be non-flammable and non-combustible when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.3. Class B dry cleaning establishments shall mean dry cleaning establishments in which the dry cleaning solvent used in the dry cleaning unit shall have a flashpoint of not lower than 138.2 F. when tested in a tagliabue open cup tester and as rated by the Fire Commissioner.

1.1.4. For other purposes a dry cleaning establishment shall be as defined in Chapter 19 of the Administrative Code.

1.2. For the purposes of Sections 4-A and 4-C of the Zoning Resolution the terms "retail", "retail purposes" and "retail business" shall refer only to those dry cleaning establishments which perform services on articles conveyed directly by a retail customer to such dry cleaning establishment or collected directly from and delivered to the retail customer by any vehicle or any other means of effecting the same and such dry cleaning establishment directly processes such articles for such customer.

1.3. The term "existing" shall mean those dry cleaning establishments established prior to January 1, 1953.

1.4. The term "heretofore established" shall mean those dry cleaning establishments established on or after January 1, 1953 up until the effective date of these Rules.

1.5. The term "hereafter established" shall mean those dry cleaning establishments established after the effective date of these Rules.

1.6. The term "flammable liquid solvents" shall mean such as will emit an inflammable vapor at a temperature below 100 degrees Fahrenheit when tested in a tagliabue open cup tester.

PUBLIC HEARING

- 1.7. The term "spotting" or "sponging" shall mean the local application of an "inflammable liquid solvent" to remove spots of dirt, grease, paint or stains from wear-apparel, textiles, fabrics or articles of any other sort.
- 1.8. All other terms used shall be as defined in the Zoning Resolution, Administrative Code, Multiple Dwelling Law, or Labor Law, when not inconsistent with the specific terms defined herein.

Rule 2. Approvals and Affidavits.

- 2.1. It shall be unlawful to use any premises for any hereafter established dry cleaning establishments without filing plans of that portion of the premises to be so used with the Department of Housing and Buildings by either the owner, lessee or agent of such premises on forms customarily furnished by the Department and an approval of the Department of Housing and Buildings obtained thereon.
 - 2.1.1. Before the Department of Housing and Buildings shall approve any plans of such hereafter established dry cleaning establishment which are Class B dry cleaning establishments the Fire Commissioner shall approve the plans submitted to the Department of Housing and Buildings as required by Rule 2.1.
- 2.2. The proprietors or agents of any heretofore established cleaning establishment shall file with the Department of Housing and Buildings statements under oath on forms furnished by the Department of Housing and Buildings as to the aggregate dry load capacity of the dry cleaning unit or units and the gross floor area of said establishment used in accordance with the Zoning Resolution, Sections 4(a), 53(b), and Rules 3.1 and 3.2.
- 2.3. The requirements of Rules 2.1, 2.1.1 and 2.2 shall not apply to existing dry cleaning establishments. The requirements of Rule 2.2 shall not apply to those heretofore established dry cleaning establishments which have previously obtained approvals on plans from the Department of Housing and Buildings where information substantially similar to that required to be furnished under said Rule 2.2. is on file with the said Department of Housing and Buildings.
- 2.4. All premises which contain existing dry cleaning establishments as well as all heretofore established and hereafter established dry cleaning establishments complying with the provisions of Rules 2.1, 2.1.1, 2.2 and 2.3 shall not be required to obtain a special certificate of occupancy relating to the use of the premises for a dry cleaning establishment.
- 2.5. No dry cleaning unit shall be installed six months after the effective date of these Rules unless such unit is approved by the Board of Standards and Appeals or unless an application for approval of the cleaning unit is filed with the Board of Standards and Appeals and a calendar number issued in connection therewith and a statement under oath is filed by the proprietor of the dry cleaning establishment or his agent that the dry load capacity of such dry cleaning unit is not greater than sixty pounds as defined below in Rule 2.6.
- 2.6. The dry load capacity of all dry cleaning units for the purpose of these rules and the Zoning Resolution shall be rated by the Board of Standards and Appeals on the basis of 2.8 pounds per cubic foot of the volume of the washing compartment for each washing cycle.
- 2.7. No dry cleaning solvent shall be used six months after the effective date of these Rules unless such solvent has been tested and rated by the Fire Commissioner or unless an application for such testing

and rating of such dry cleaning solvent is made with the Fire Commissioner.

- 2.7.1. It shall be unlawful to use any dry cleaning solvent in any dry cleaning unit having a flash-point other than that for which the dry cleaning unit is designed.
- 2.8. Except as otherwise expressly required by these Rules, nothing shall require any change in the construction, use of occupancy of any existing dry cleaning establishment or any change in the construction, use or occupancy in any heretofore established dry cleaning establishment which conforms with Sections 4(a), 53(a), (b) and (c), and Sections 4 (A), 4 (B) and 4 (C) of the Zoning Resolution adopted by the City Planning Commission on January 21, 1953.
- 2.9. No non-conforming existing dry cleaning establishment shall be enlarged or extended unless such extension or enlargement be made in a conforming manner.

Rule 3. Restrictions on Locations and Areas.

- 3.1. No dry cleaning establishment which is a heretofore established dry cleaning establishment or a hereafter established dry cleaning establishment shall have a gross floor area exceeding the aggregate of 2,000 square feet to be used for dry cleaning, pressing and incidental operations as well as space used for storage, service of customers and the convenience of employees. The square foot area limitation shall apply to the aggregate of all space so used on all floors and mezzanines of the premises involved above the cellar or basement thereof. Additional space may be used on a lower floor which is either a basement or cellar provided that on such floor there shall be no dry cleaning and no storage of recently cleaned articles. The use of such basement or cellar area may include the installation and use of a boiler, dead or cold storage, storage of supplies, storage and filtration of solvents and space utilized for specialized washing equipment.
 - 3.1.1. In calculating the gross floor area pursuant to Rule 3.1, the area restriction shall not include the area used by the non-dry cleaning operations of a multiple use type of service establishment where, in addition to dry cleaning, there may be a launderette, shirt laundering, shoe repairing, tailoring and alteration of garments, fur cleaning and glazing, and fur storage.
- 3.2. No Class B dry cleaning establishment hereafter established shall be permitted within any building:
 - 3.2.1. which is of wood frame construction;
 - 3.2.2. which is classified as a public building pursuant to Section C-26-235.0 of the Administrative Building Code;
 - 3.2.3. any part of which establishment is within 20 feet of any public building.

Rule 4. Egress.

- 4.1. The means of egress in all dry cleaning establishments shall be in conformity with the applicable provisions of the building laws and regulations governing such establishments. In addition thereto, all establishments shall conform to the following:
 - 4.1.1. A three foot (3 feet 0 inches) wide aisle providing access from the main work area to the required means of egress shall be provided. Such required aisle shall not be obstructed by any fixed obstruction in any manner whatsoever.

PUBLIC HEARING

4.1.2. In all hereafter established dry cleaning establishments all required exit doorways shall be arranged to swing outwardly in the direction of the egress.

Rule 5. Fire Prevention—Class B Establishments.

All hereafter established Class B dry cleaning establishments shall comply with the following:

5.1. No power or heating boiler shall be permitted in the same area or space where dry cleaning units are located, whether on the cleaning floor or floors or cellar or basement level unless either

(a) the boiler or boilers shall be enclosed in a 3-hour unpierced masonry enclosure and entered only from the outer air; or

(b) the boiler or boilers shall be enclosed in a 3-hour masonry enclosure with a one-hour fire proof self-closing door which opens into a ventilated vestibule similarly enclosed and entered by a one-hour fire proof self-closing door opening onto the interior of the premises or establishment.

5.1.2. The ceiling of all such boiler rooms as required in Rule 5.1 and the adjoining entrance vestibule referred to in Rule 5.1.(b) above shall be fire-retarded with one-hour fire resistive material.

5.2. Non-fire proof enclosing partitions and ceilings of any such dry cleaning establishment shall be fire-retarded with one-hour fire resistive materials and doors or in lieu thereof with one approved automatic one-inch wet pipe sprinkler head located over the cleaning unit which shall have its source of supply from the house water system.

5.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a one-hour fire proof self-closing door or fire-proof window assembly.

5.4. Except as provided in Rule 5.1, there shall not be employed in any such dry cleaning establishment any device or apparatus employing flame or fire which is likely to produce an exposed spark except electric apparatus placed at least five feet above the floor, or approved type of "explosion proof electric motors". In such establishments all lighting shall be fitted with keyless sockets and all switches and receptacles shall be placed at least four feet above the floor. Nothing contained in this rule or Rule 5.1 shall prohibit the installation of any gas, oil or electric heating device of a type approved by the Fire Commissioner under such conditions as he shall prescribe.

5.5. All solvent used in the dry cleaning unit shall be either (a) received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system, or (b) received and stored in a tank or tanks in accordance with the rules of the Board of Standards and Appeals relating to the receiving and storing of fuel oils and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 6. Fire Prevention—Class A Establishments.

All hereafter established Class A dry cleaning establishments shall comply with the following:

6.1. No power or heating boiler having a grate area in excess of 3 square feet shall be permitted in the same area or space where dry cleaning units are located

unless such boiler or boilers shall be enclosed in a one-hour fire proof partition and entered by a one-hour fireproof self-closing door whether from the interior of the premises or establishment or to the outer air.

6.2. All ceilings of all such boiler rooms as provided in Rule 6.1 shall be fire-retarded with one-hour fire resistive material.

6.3. All openings from any such dry cleaning establishment leading to a fire escape shall be equipped with a fireproof self-closing door or fireproof window assembly.

Rule 7. Fire Prevention—All Dry Cleaning Establishments.

All existing, heretofore established or hereafter established dry cleaning establishments whether Class A or Class B shall comply with the following:

7.1. The provisions of Section C-19.161.0 of Chapter 19 of the Administrative Code.

7.2. No smoking shall be permitted in any such establishment except Class A establishments where fewer than six employees are employed. Approved signs shall be conspicuously posted to that effect as directed by the Fire Commissioner.

7.3. It shall be unlawful to store any inflammable liquids or solvents in quantities aggregating more than five gallons without a permit as provided in Article 9 of Chapter 19 of the Administrative Code.

7.4. All inflammable liquids and solvents used for spotting and sponging shall be contained in approved individual metal containers not exceeding two-quart capacity each.

7.5. All sludge or residue removed from a dry cleaning unit shall be placed in a metal container not exceeding 55 gallons of capacity with a tight fitting cover and shall be removed from the premises and disposed of in a lawful manner.

Rule 8. Ventilation.

8.1. All hereafter established dry cleaning establishments whether Class A or Class B shall be equipped with adequate ventilation to provide four complete changes of air volume an hour of such establishments during the operation of any dry cleaning units.

8.2. All Class A dry cleaning establishments whether existing, heretofore established or hereafter established shall have sufficient ventilation so as to prevent an excessive concentration of solvent vapors in the dry cleaning establishment. An excessive concentration of solvent vapors shall be that which exceeds the average of 200 parts of solvent vapors per one million parts of air during any working day.

8.3. The direct equipment exhausts or vents of any hereafter established dry cleaning establishment whether Class A or Class B shall terminate to the outer air in the following manner:

(1) At least 7 feet above the roof or legal street grade of the premises in which said establishment shall be located, and

(2) the exhaust shall be under static pressure by reason of a mechanical fan and the terminal of the exhaust, shall be at least five feet from any legal ventilating openings if said legal ventilating windows or legal ventilating openings lie on the

PAID

University of Illinois Library
Urbana, Ill.

PUBLIC HEARING

same plane as the said exhaust terminal and when the said legal ventilating windows, or other legal ventilating openings lie on a plane which faces in the direction of the exhaust terminal the said terminal shall be at least 10 feet away from the same.

- 8.4. In all Class A dry cleaning establishments whether existing, heretofore established or hereafter established, all solvent used in the dry cleaning unit shall either (a) be received and stored in metal containers not exceeding 55 gallons each and pumped directly into a dry cleaning unit or units by means of a detachable leakproof pump and pipe system; or (b) be received and stored in a tank or tanks and pumped directly into a dry cleaning unit or units by means of a closed leakproof pipe and pump system.

Rule 9. Operating Precautions.

- 9.1. A printed notice embodying these Rules shall be posted in a conspicuous place in all dry cleaning establishments whether of Class A or Class B or whether existing, heretofore established or hereafter established.

- 9.2. The proprietor of any Class A establishment whether existing, heretofore established or hereafter established, shall furnish to any person cleaning out a dry cleaning unit containing any chlorinated hydrocarbon solvent an approved type respirator for his use during the process of cleaning out any such unit.

- 9.3. All equipment shall be installed in such manner as to minimize noise, vibration, smoke, and odors, and other forms of nuisances to the occupants of the premises in which such cleaning establishment may be located or to the occupants of any adjacent premises.

Rule 10. Penalties.

Any violation of these Rules shall be subject to the penalties prescribed in the Zoning Resolution therefor, in addition to other penalties prescribed by law.

Rule 11. Effective Date of Rules.

The effective date of these rules will be twenty (20) days after date of publication of the rules as adopted.

WARNING

Notice is hereby given to all appellants and applicants, and to all lawyers, architects and engineers representing owners or lessees in proceedings before the Board—

First, That if they do not appear in person or by representative at the hearing of their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of the Board, each case being set down by Calendar Number and the premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and of the posting of the calendars on the bulletin board in the offices of the Board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure

to receive such notice is no excuse for neglect to appear.

Fifth, That the business of the Board is to dispose of all cases promptly; therefore, no appeal or application will be held in abeyance by reason of failure of the appellant or applicant to file necessary data, or by any other method of delay.

Sixth, That no appeal or application will be accepted for filing unless, at the time of filing, all papers, plans and data required by law are supplied, as specified on the blank appeal or application forms.

Applicants, under the building zone resolution, are entitled to one copy of Form 7NO.

If they desire additional copies, for their own convenience in notifying proper owners, they may obtain such copies at the office of the Board of Standards and Appeals, Room 1014, Municipal Building, Manhattan, at five cents each—postage to be added if the forms are forwarded by mail.

COURT DECISION

Matter of Swire Building Corp'n. vs. Board:—On April 21, 1953, the Board denied an application to grant a variance under Section 21 of the Zoning Resolution, to permit in a residence use, E-1 area district, the maintenance of existing building without the required setback from building line; Cal. No. 796-52-BZ; premises 191-193 Irwin Street, northeast corner of Oriental Boulevard, Borough of Brooklyn.

At Special Term, Supreme Court, Mr. Justice Arkwright sustained the Board in the following decision:

Matter of Swire Building Corp'n (Board of Standards and Appeals of the City of N. Y.)—This is an application of the Board of Standards and Appeals of the City of New York to vacate an order of certiorari herein, to dismiss the petition upon which it was granted, and to affirm the determination of the board revoking a new building application and permit issued thereunder.

The premises affected by this proceeding are located at No. 191-193 Irwin street, Brooklyn, New York, and consist of a plot of 40 feet frontage by 112 feet in depth. The district maps which constitute a part of the building zone resolution show that the area in which petitioner's premises are located are in a business use, E-1 area and class 1 height district.

Prior to August 1, 1952, the petitioner filed plans for the erection upon the aforementioned property of a "Ranch House" type of dwelling. These plans were approved by the department of housing and buildings and a building permit was issued thereon. Petitioner then commenced the erection of the aforementioned dwelling upon said site. Thereafter, petitioner filed an amended plan which provided for an additional rear porch to the building. Upon examination of the amended plans, the department of housing and buildings discovered that the original plans previously submitted by the petitioners were in violation of the building zone resolutions, in that in an E-1 District, at the time the first plans were filed, the building resolution required a set-back of 15 feet to the street line.

Subsequently, the zoning resolution was amended to provide for a set-back of 10 feet.

An examination of the original plans led by the petitioner disclosed they provided for a set-back of only 7 feet. It was further ascertained that the building had been erected with a set-back of 6 feet, 2 inches, which was in violation of the plans previously submitted and the zoning resolution.

On the 10th day of October, 1952, the borough superintendent of Brooklyn advised the petitioner that the new building application was revoked since the same had been issued in error and was in violation of the Zoning Resolution of the City of New York.

On the 10th day of November, 1952, the petitioner appealed from the decision of the borough superintendent to the board of standards and appeals, pursuant to section 21 of the zoning resolution. After due notice, the aforementioned matter came on for a hearing before the board of standards and appeals, and all parties to the proceeding were afforded a full opportunity to present any and all evidence in this matter. Upon the hearing the petitioner's attorney admitted the plans submitted were in violation of law and that the same had been approved by the department of housing and buildings in error and claimed as the basis of its application for a variance of the area regulations that an innocent mistake had been made not only by the owner, its agents, servants and employees, but also by the department of housing and buildings. After a consideration of all the evidence and an inspection of the premises and the surrounding area, the board adopted a resolution denying petitioner's application.

The issuance of the permit by the building superintendent in the first instance was in direct violation of the provisions of the zoning resolution. It is clear that "no building permit by an administrative official could condone, or afford immunity for, a violation of law" (Marcus v. Village of Mamaroneck, 283 N. Y., 325, 330). Nor does a vested right flow from an illegally issued permit or certificate of occupancy notwithstanding that improvements or investments had been made in reliance thereon. Neither under such circumstances can the principle of estoppel and laches be invoked against the public interest (S. B. Garage Corp'n v. Murdock, 185 Misc., 55; Jacobson v. Murdock, N. Y. Law Journal, February 27, 1950, p. 710).

Approved appliances and materials are printed in the Supplement to the Bulletin of June 24, 1947, Vol. 32, No. 25A.

MARCH 29, 1955, 10 A. M.

NOTICE IS HEREBY GIVEN of a public hearing Tuesday morning, March 29, 1955, at 10 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

640-54-BZ

APPLICANT—Boris M. Dorfman, for 99 Ocean Avenue Corp., owner.

SUBJECT—Application August 5, 1954—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a residence and business use district the addition of catering use to existing dining room on first floor.

PREMISES AFFECTED—89-99 Ocean avenue, northeast corner of Lincoln road, Block 5024, Lots 1-4, Borough of Brooklyn.

Laid over from January 11, 1955, to February 1, 1955, for applicant to furnish statement from the Building Department as to public or private use of dining room; then to February 15, 1955, for applicant to submit statement from Department of Housing and Buildings as to whether certificate of occupancy permits present dining room to be used for general public or only for residents; hearing previously closed; then to March 1, 1955, for applicant to submit a letter from the Borough Superintendent as to whether existing dining room on premises is permitted under the existing certificate of occupancy to be used by non-residents of subject premises; then laid over from March 1, 1955, to March 29, 1955, for inspection and decision.

178-41-BZ—Vol. II

APPLICANT—Gustave Goldman, for Joseph Samet, owner.

SUBJECT—Application reopened May 11, 1954 as Vol. II—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a retail use district the erection and maintenance of a gasoline service station, lubritorium, car washing and office.

PREMISES AFFECTED—8-16 Reid avenue and 1097-1101 DeKalb avenue, northwest corner, Block 1599, Lots 39 and 40, Borough of Brooklyn.

Laid over from March 1, 1955, to March 29, 1955, for inspection and decision, without further argument; hearing closed.

319-54-BZ

APPLICANT—H. G. Savran, for Marguerite Blake, owner.

SUBJECT—Application April 20, 1954—re (decision of the borough superintendent) under sections 7c, 7e and 19A(j) of the zoning resolution, to permit in a residence use dis-

trict the change in occupancy on first floor from dwelling to undertaking establishment, without the required loading platform.

PREMISES AFFECTED—10 St. Nicholas place, northeast corner of West 150th street, Block 2054, Lot 44, Borough of Manhattan.

Laid over from March 1, 1955, to March 29, 1955, for inspection and decision, without further argument; hearing closed.

669-54-BZ

APPLICANT—Joseph A. McNamara, for Charles and John Deliberto, owners.

SUBJECT—Application July 27, 1954—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, car washing, brake service and office.

PREMISES AFFECTED—1105 60th street, northeast corner of 11th avenue, Block 5710, Lots 67 to 71 inclusive, Borough of Brooklyn.

Laid over from March 1, 1955, to March 29, 1955, for inspection and decision, without further argument; hearing closed.

691-54-BZ

APPLICANT—Kitzler and Nurick, for George Nyman, owner.

SUBJECT—Application September 9, 1954—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in the residence portion of a plot, located in a residence and business use district, the extension to accessory parking for patrons of the restaurant grill.

PREMISES AFFECTED—1870-1872 East 49th street, west side, 160 ft. north of Fillmore avenue, 2259-2271 Flatbush avenue, east side, 150 ft. north of Fillmore avenue and 1857-1859 East 48th street, Block 8488, Lots 8 and 63, Borough of Brooklyn.

Laid over from March 1, 1955, to March 29, 1955, for inspection and decision; hearing closed.

884-54-BZ

APPLICANT—Nathan L. Goldstein, for Dyre Boston Properties, Corp., owner (o/u/c Giamoca Mazzeo).

SUBJECT—Application November 23, 1954—re (decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs, storage and sale of accessories and office; and to permit the parking of more than five motor vehicles.

PREMISES AFFECTED—3227-3249 Boston road and 3271-3273 Yates avenue, northwest corner and 3264-3276 Laconia avenue, Block 4614, Lots 25, 27 and 59, Borough of The Bronx.

Laid over from March 1, 1955, to March 29, 1955, for inspection and decision; hearing closed.

581-54-BZ

APPLICANT—Joseph Cohen, for Jack and Ruth Feldman, owners.

SUBJECT—Application July 12, 1954—re (decision of the borough superintendent) under sections 7a and 21 of the zoning resolution, to permit in a residence use, E1 area district the existing occupancy as three family dwelling, formerly a two family dwelling, without the required side yard and nearer to the street line than is permitted.

PREMISES AFFECTED—1925 Hering avenue, west side, 243.76 ft. north of Rhinelander avenue, Block 4275, Lot 29, Borough of The Bronx.

Laid over from March 8, 1955, to March 29, 1955, for inspection and decision; hearing closed.

CALENDAR

779-54-BZ

APPLICANT—Jack Z. Cohen, for Richard Stritch and Abraham L. Jaffe, owners.

SUBJECT—Application October 14, 1954—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station, lubritorium, auto laundry, motor vehicle repairs, and office; and to permit the parking of motor vehicles.

PREMISES AFFECTED—10202-10224 Flatlands avenue, 901-911 East 102nd street, and 902-912 East 103rd street, southeast corner and southwest corner, Block 8210, Lot 37, Borough of Brooklyn.

Laid over from March 8, 1955, to March 29, 1955, for inspection and decision; hearing closed.

931-54-BZ

APPLICANT—Paul Friedman, for Reineking Family Co., Inc., owner (Harry Klein, lessee).

SUBJECT—Application December 8, 1954—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit for a term of fifteen years in a residence use district the change in occupancy from public garage for over five cars and motor vehicle repair shop, 43 one car garages, one family dwelling and private garage, and stores and one dwelling, to gasoline service station, motor vehicle repair shop (including body and fender work, welding and paint spraying) lubritorium, auto wash (non automatic), storage and sale of auto accessories and office; and the parking of cars waiting to be serviced.

PREMISES AFFECTED—3513-3527 Atlantic avenue and 308-316 Grant avenue, northwest corner, Block 4151, Lot 54, Borough of Brooklyn.

Laid over from March 8, 1955, to March 29, 1955, for inspection by a committee of the Board and for decision without further argument; hearing closed.

957-54-BZ

APPLICANT—Herman Horowitz, for Senville 35th Street Realty Corp., owner.

SUBJECT—Application December 16, 1954—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a business use, B area district, the extension on first story of proposed structure, using more than the area permitted.

PREMISES AFFECTED—524-532 3rd avenue and 163-167 East 35th street, northwest corner, Block 891, Lots 38, 39, 41, 42 and 43, Borough of Manhattan.

Laid over from March 8, 1955, to March 29, 1955, for inspection and decision; hearing closed.

592-54-BZ

APPLICANT—Lloyd Morgan and Eugene V. Meroni, for Equitable Life Assurance Society of the United States, owner.

SUBJECT—Application July 16, 1954—re (decision of the borough superintendent) under sections 7c and 7e of the zoning resolution, to permit in a residence and unrestricted use district the erection and maintenance of a gasoline service station, lubritorium, car-wash, storage and sale of accessories, with illuminated signs, and to permit the parking of motor vehicles.

PREMISES AFFECTED—205 West Fordham road, west side, 391.18 ft. east of Landing road and Major Deegan boulevard, Block 3236, Lot 220, Borough of The Bronx.

Laid over from February 8, 1955, to February 23, 1955, for information from Park Department and for applicant to file revised plans; hearing closed; then to March 1, 1955, Park Department to file development plan; then to March 15, 1955, for information from the Park Department; then to March 29, 1955, for applicant to file revised plans as suggested by the Board.

815-53-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Menashe Shekerdige, owner.

SUBJECT—Application reopened January 4, 1955 as Vol. II—re (decision of the borough superintendent) under sections 7f, 7i and 7h of the zoning resolution, to permit for a period of twenty years in a business use district the erection and maintenance of an auto-showroom, gasoline service station, lubritorium, car wash, motor vehicle repairs, storage and sale of accessories and office and to permit the parking and storage of motor vehicles.

PREMISES AFFECTED—2153-2159 8th avenue and 301 West 116th street, northwest corner, Block 1943, Lots 29, 30 and 31, Borough of Manhattan.

Laid over from March 15, 1955, to March 29, 1955, at request of the applicant, objector concurring; no further requests for adjournment to be considered.

814-54-BZ

APPLICANT—Leonard Lazarus, for Lindenwood Realty Corp., owner.

SUBJECT—Application October 27, 1954—re (decision of the borough superintendent) under sections 21 and 7h of the zoning resolution, to permit in a residence use, F area district more than one building on a lot by the erection of a two story garden apartment development not in conformity with area district requirements of the zoning resolution as to side and rear yards, and with parking and garage spaces as calculated for the development as a unit instead of individual buildings affecting premises and with the required open spaces, and to permit the calculation of height of building based on a grade within the plot.

PREMISES AFFECTED—152-02 to 152-04 Cross Bay boulevard, 150-17 to 150-39 89th street, 89-25 to 89-49 151st avenue and 90-01 to 92-03 153rd avenue, Block 11421, Lot 13, Ozone Park, Borough of Queens.

Laid over from February 23, 1955, to March 1, 1955, for applicant to file revised plans, hearing closed; no further argument; then laid over from March 1, 1955, to March 22, 1955, for inspection and for information as to approved grades of streets and sewers from the applicant; then to March 29, 1955, for decision by the Board.

815-54-A

APPLICANT—Leonard Lazarus, for Lindenwood Realty Corp., owner.

SUBJECT—Application October 27, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 33, subdivision 4 of the Multiple Dwelling Law re height and required open spaces also under section 36, General City Law re buildings not fronting on legal streets.

PREMISES AFFECTED—152-02 to 152-04 Cross Bay boulevard, 150-17 to 150-39 89th street, 89-25 to 89-49 151st avenue and 90-01 to 92-03 153rd avenue, Block 11421, Lot 13, Ozone Park, Borough of Queens.

38-42-BZ—Vol. II

APPLICANT—Paul Friedman, for Anna Sicilian and Laura Sicilian, owners (Sun Oil Company, lessee).

SUBJECT—Application reopened January 11, 1955 as Vol. II—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district for a term of fifteen years the erection and maintenance of a gasoline service station, lubritorium, auto wash (non automatic), storage and sale of accessories and office.

PREMISES AFFECTED—444 Sound View avenue and 445 Underhill avenue, northeast corner, Block 3498, Lot 51, Borough of The Bronx.

Laid over from March 22, 1955, to March 29, 1955, at request of objector, applicant concurring.

162-38-BZ—Vol. II

APPLICANT—John J. Tricarico, for Paul Nicolopoulos, owner.

CALENDAR

SUBJECT—Application reopened December 7, 1954 as Vol. II—re (decision of the borough superintendent) under section 21 of the zoning resolution, to permit in the business use portion of a plot located in a residence and business use, C area district the erection of an extension to existing structure, using more than the area permitted.

MINUTES

746-22-BZ—Vol. II

APPLICANT—Frederick A. Ketcher, for NWE 122nd St. Corp., owner.

SUBJECT—Application for consideration—reopening as to amendment—re Application (decision of the borough superintendent), previously granted on condition, under sections 7f, 7i and 7h of the zoning resolution, permitting in a business use district the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs and office, and permitting the parking of more than five motor vehicles (previously denied, the erection of a garage for more than five motor vehicles).

PREMISES AFFECTED—1760-1766 Park Avenue, northwest corner of East 122nd street, Block 1748, Lot 14, Borough of Manhattan.

APPEARANCES—

For Applicant: Frederick A. Ketcher.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on July 28, 1953, on certain conditions; and

WHEREAS, the applicant requested an amendment of the resolution.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on July 28, 1953, by adding thereto:

"that the above cited resolution was intended to include the accessory uses of parking and repairing, as proposed under section 7, subdivisions i and h for a similar term, as shown on working drawings as approved by the Board on March 9, 1954; that along the westerly lot line between the accessory building and the lot line of adjoining premises to the north in lieu of the 5 ft. 6 in. chain link fence there shall be a wall which may be of cement block masonry to a total height of not less than 5 ft. 6 inches; that such wall shall be stuccoed on both sides." (N.B. 10/53)

108-51-BZ

APPLICANT—Gabriel Nathan, for Hugh McNulty, owner.

SUBJECT—Application for consideration—reopening and extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition under section 7h of the zoning resolution permitting in a residence use district, for a term of years the parking and storage of motor vehicles.

PREMISES AFFECTED—108-10 to 108-14 Rockaway Beach boulevard, north side, 50.04 ft. east of Beach 109th street and 108-09 to 108-11 St. Marks avenue, Block 648, Lot 4, Rockaway Beach, Borough of Queens.

APPEARANCES—

For Applicant: Hugh McNulty.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and term of variance and time extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on June 5, 1951, on certain conditions; and

WHEREAS, the term of variance and time were extended on March 24, 1953; and

WHEREAS, the applicant requested a further extension of the term of variance and time to complete the work.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on June 5, 1951, as thereafter amended by resolutions adopted through March 24, 1953, only so far as it has reference to the term of variance, so that as amended this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision h for a term of two years from the date of this amended resolution, to permit * * *; that other than as herein amended the resolution above cited shall be complied with in all respects; and that all permits and a new Certificate of Occupancy shall be obtained and all work completed within three months from the date of this amended resolution." (Alt. 3/51)

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on June 22, 1954 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning reresolution show that the site is in a residence use, B area, class 1¼ height district; Reservoir avenue is in residence and business use, B area, class 1¼ height districts; West Kingsbridge road is in a business use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated May 5, 1954 acting on Alt Applic. 342-54, reads:

"1. The proposed gasoline selling station in front of the existing public garage for more than five (5) motor vehicles in a residence district is contrary to Sect. 3, Art. II of the Zoning Resolution and to Cal. No. 557-28-BZ of the Board of S. & A."

and

WHEREAS, the applicant states that the premises consist of a plot, 126.02 ft. frontage by 65.21 ft. in depth, irregular, on which is located a one story and part cellar 14 ft. 8 in. high garage building of class 3 construction, occupying the full area of the lot with the exception of a triangular area on the street front at the south; that in this open area there exists two gasoline dispensing pumps on the street side of the vehicular doorway of the garage; that the premises is located within a residence use district, the same as has existed since its development in 1929; and

WHEREAS, the applicant further states that the existing public garage was permitted under a zoning variance granted by the Board under Cal. No. 557-28-BZ on October 30, 1928; that this application proposed 16 one-car garages and a gas station on these premises; that in granting the application, the Board made the condition that the premises be developed with a one story public garage and excluded any reference to the proposed gas station; that subsequently, certain correspondence occurred between the then chairman of the Board and the superintendent of buildings in relation to the excluded gas station, which correspondence is on file with the Board's records; that dispensing pumps similar to those now existing have been in existence since 1929 and these pumps were apparently installed in the misconstrued belief that such pumps could be used under the original resolution of the Board; that subsequently violations were issued against maintaining these pumps in their outside location, although they would be permitted within the garage; that a copy of the last violation to that effect has been filed with this application; that there has been several magistrate court proceedings in which fines were imposed; and

WHEREAS, the applicant now states that it is proposed to legalize these existing exterior dispensing pumps and this application is submitted for that specific purpose and not for the creation of a new gas selling station with its incidental uses; and

WHEREAS, the applicant contends that the existing public garage is conducted by a tenant who relies on the existence of these exterior pumps for a great portion of his income and should these exterior pumps be discontinued, it would cause him unwarranted hardship resulting in a considerable loss of business which would make it impractical for him to continue as a tenant; that the existence of these exterior pumps in conjunction with the existing public garage on these premises can in no way adversely affect the neighborhood, since, for all practical purposes, they have been in

existence since 1929; that no additional hazards are created by the existence of these exterior pumps as the same driveway and curb cut is used for access to the garage as is used for these pumps; that it is requested the Board grant the necessary amendment to the existing variance in view of the special circumstances existing herein; and

WHEREAS, the applicant states that the present owner has held title to the property since August 25, 1924; that the assessed valuation of land is \$35,000 and of the building \$17,000 making a total of \$52,000; that the building was erected 1929.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted by the Board on October 30, 1928, by adding thereto:

"that the existing twin pumps as shown on the exterior of the building adjacent to doorway and as proposed to be maintained as indicated on plans filed with this application marked 'Received May 27, 1954', 4 sheets and 'February 14, 1955', 1 sheet, may be permitted to be continued in addition to the one gasoline pump within the garage toward the northerly end where shown, on condition that no further use of this open portion of the premises for a gasoline station shall be made; that the unbuilt upon portion of premises shall be maintained cement paved as at present and the sidewalks and curbing in front of site shall be maintained to the satisfaction of the Borough President; that no advertising signs other than those now existing attached flat to the garage building, as shown, shall be maintained on the premises; and that all permits required, including a certificate of occupancy, shall be obtained and all work completed within six (6) months from the date of this resolution."

801-46-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Teresa Romano, owner.

SUBJECT—Application November 30, 1954 (decision of the borough superintendent), under sections 7f and 7i of the zoning resolution, to permit in a business use district, for a term of fifteen years, the addition of motor vehicle repairs, brake testing, wheel alignment and the parking and storage of motor vehicles to existing gasoline service station, auto laundry, lubritorium, storage and sale of accessories and office (previously granted by the Board).
PREMISES AFFECTED—72-01 to 72-09 Eliot avenue and 60-71 to 60-77 72nd street, northeast corner, Block 2843, Lot 45, Maspeth, Borough of Queens.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider extension of uses; and

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Eliot avenue are in a business use, D area, class 1 height district; 72nd street is in residence and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated November 16, 1954 acting on Alt. Applic. 2463-54, reads:

"1. The proposed extension of use from gasoline station, auto laundry, lubritorium, office & sales, storage of

MINUTES

auto accessories to gasoline service station, auto laundry, lubritorium, minor auto repairs, brake testing, wheel alignment, parking of motor vehicles, office & sales, storage of auto accessories in a business zone is contrary to ruling of Bd. of Stand. & Appeals under 801/46 B.Z. and Art. II Sec. 4 of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 91 ft. 7 in. in depth; that as of July 25, 1916 the premises were in an unrestricted use district and received its present use designation on April 8, 1946; that the premises are now developed with a gasoline service station consisting of six gasoline tanks and four dispensing pumps; that the accessory building is one story in height, of class 3 construction, having a frontage of 71 ft. 4 in. and a depth of 28 ft., now being used for lubritorium, auto laundry, storage and auto accessories, office and sales; that it is proposed to maintain the present legal uses of gas station, auto laundry, lubritorium, office, sales and storage of auto accessories and add the uses of minor auto repairs, brake testing, wheel alignment and parking and storage of motor vehicles; that it is also proposed to remove part of the landscaped area adjoining the building on the west side and to use this space for parking and storage of motor vehicles; and

WHEREAS, the applicant further states that the existing gas station was erected under N.B. 8941-46 and a variance granted by the Board under Cal. No. 801-46-BZ; that certificate of occupancy No. 48812 was issued on August 19, 1948 for gas station, auto laundry, lubritorium, office and sales and storage of auto accessories; and

WHEREAS, the applicant contends that there are many non-conforming uses within the affected area and inasmuch as the present gas station is a legal use the additional uses requested will not adversely affect the community; that all services will be performed within the building; that immediately adjoining the premises in block 2843, lot 41 there is a gas station and block 2844, lot 46 and block 2927, lot 1 are also developed with gas stations; that the 10 ft. wide planted area at the rear of the accessory building will be maintained to protect and provide additional permanent light and ventilation to any future development at the rear of the site; that the public health, safety and general welfare will not be adversely affected by the additional uses; and

WHEREAS, the applicant states that the present owner has held title to the property since February 16, 1946; that the assessed valuation of land is \$8,700 and of the building \$7,800 making a total of \$16,500; that the building was erected 1946.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted by the Board on January 14, 1947, by adding thereto:

"that in the event the owner desires to maintain a portion of the premises for parking as now proposed and as indicated on plans filed with this request for amendment marked, 'Received, November 30, 1954' (4 sheets) such additional use may be permitted *on condition* that in all other respects the requirements of the resolution above cited shall be complied with; that under Section 7i there may also be motor vehicle repairing including brake testing and wheel aligning to be carried on in the premises as proposed with hand tools only for adjustments; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution."

845-50-BZ

APPLICANT—Herman Kron, for L. B. Oil Co., owner.
SUBJECT—Application October 26, 1954 (decision of the borough superintendent), under sections 7c, 7i and 7A of the zoning resolution, to permit in a residence and retail use district the reconstruction to existing gasoline service station, to include lubritorium, auto laundry, motor vehicle

repairs, and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot, with curb cuts nearer the residence use district than is permitted.

PREMISES AFFECTED—113-40 Merrick boulevard and 169-29 Linden boulevard, northwest corner, Block 12326, Lot 21, St. Albans, Borough of Queens.

APPEARANCES—

For Applicant: Herman Kron.

For Opposition: Edward Hoffman for Park Dep't.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened on October 26, 1954 subject to regular procedure and restored to the docket, for submission of revised plans; previously withdrawn; and

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and for investigation of lawful records of the occupancy of the area and for the Park Department to furnish the Board with further information as to the park conditions and area; hearing closed; no further argument; and

WHEREAS, because of entrance to park and playground on the same side of Merrick boulevard, and within 200 feet, the Board cannot increase the existing means of entrance from Merrick boulevard; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Linden boulevard are in residence and retail use, C area, class 1½ height districts; Merrick boulevard is in a retail use, C area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 15, 1950 acting on Alt. Applic. 2551-50 and superseded by N.B. Applic. 2504-54 dated November 19, 1954, reads:

"1. Use of premises located in a retail use and residence use district as gasoline service station, lubritorium, auto repair shop, auto laundry, parking and storage for more than 5 motor vehicles and sale of used cars is contrary to Art. II Sec. 3 and 4A of the Zoning Resolution.

2. Curb cuts on intersecting residence street are contrary to Sec. 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 117.85 ft. frontage by 126.5 ft. in depth, irregular, on which is located a gasoline service station and metal garages; that it is proposed to reconstruct present lubritorium by extending same to four bays, including new extension of showroom and toilets; that it is further proposed to relocate pumps and drop curbs; that the building will be constructed of face brick, stainless steel and permastone and will be of modern design; and

WHEREAS, the applicant contends that the proposed use of these premises will be in harmony with the existing development of the neighborhood and will not interfere with the welfare of the inhabitants; that the owner is willing to surround the premises with such safeguards as the Board may deem necessary to protect the surrounding area; that it is proposed to use the entire area; and

WHEREAS, the applicant states that on January 21, 1947 the premises, to a depth of 100 ft. on the Linden boulevard side, was changed from business to retail use; and

WHEREAS, the applicant states that the present owner has held title to the property since February 26, 1946; that the assessed valuation of land is \$20,000 and of the building \$24,500 making a total of \$44,500; that the building was erected 1921; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the record in the

MINUTES

Fire Department Folder No. 31358 has been examined and the question of the extension into the bed of the mapped 113th avenue has been considered; it is understood that that street is mapped for a width of 50 feet from 169th street to Merrick boulevard; that it is found that the portion of the property of this plot extending into such street has not been acquired by the City but belongs to this owner, is not now being used except for a building which apparently has been removed; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions c and A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7c to permit the lawfully existing gasoline service station to be reconstructed and rearranged substantially as proposed and as indicated on plans filed with this application marked, "Received, November 27, 1950" (one sheet) "September 28, 1954" (one sheet) "November 24, 1954" (one sheet) "January 18, 1955" (one sheet) and "March 18, 1955" (one sheet) on condition that all buildings and uses on the premises shall be removed and that the premises shall be levelled substantially to the grade of Merrick and Linden boulevards and shall be constructed, arranged and maintained as shown on such plans; that the accessory building shall be faced with face brick on three sides; that the rear wall may be of common brick; that the accessory building shall be arranged as indicated, and without cellar; that along the rear lot line of Linden boulevard to the building line of the proposed 113th avenue there shall be erected a masonry wall not less than five feet six inches in height; that there shall be on the lot lines in the portion of the premises encroaching on the proposed 113th avenue and on the side lot line to the north to Merrick boulevard a woven wire fence of the chain link type not less than five feet six inches in height with substantial terminating post on Merrick boulevard; that tanks shall be restricted to ten 550 gallon approved tanks; that pumps shall be of a low approved type with no pumps nearer than fifteen feet to the street building line; that curb cuts shall be restricted to the existing curb cuts to Merrick boulevard and under Section 7A, two curb cuts 30 feet in width to Linden boulevard located where shown; that there shall be erected at the intersection within the building line a block of concrete extending for a distance of not less than five feet along either building line and not less than twelve inches in height; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that repairing may be maintained on the premises as previously permitted within the accessory building with hand tools only and primarily for adjustments; that the balance of the premises shall be surfaced with concrete or asphaltic pavement; that sidewalks and curbing abutting the premises shall be constructed or repaired to the satisfaction of the Borough President; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all temporary signs and roof signs but permitting the erection of one post standard within the intersection for supporting a sign, which may be illuminated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four feet; that parking may be permitted for motor vehicles awaiting service provided such motor vehicles do not interfere with the servicing of the station; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

902-52-BZ—Vol. II

APPLICANT—Lama, Proskauer and Prober, for Sadie V. Siste, owner.

SUBJECT—Application November 16, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in the retail use portion of a

plot located in a retail and residence use district, the erection and maintenance of a modern automobile laundry (automatic) and to use the open portion of plot for parking of cars awaiting cleaning service, for a term of fifteen years.

PREMISES AFFECTED—164-15 to 164-25 (164-25 official) Union turnpike and 78-28 to 78-36 165th street, northwest corner, Block 6972, Lot 21, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on January 11, 1955 subject to regular procedure, to consider new proposal; and

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Union turnpike and 165th street are in residence and retail use, D and E-1 area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 22, 1954 acting on N.B. Applic. 3562-54, reads:

"1. The proposed erection of an automobile laundry and the parking of cars awaiting service in a retail zone extending into residence zone is contrary to Art. II Sec. 4A & Sec. 3 of Zoning Res."

and

WHEREAS, the applicant states that the premises consist of a plot, 106.32 ft. and 98.24 ft. frontage by 127.42 ft. in depth, irregular, presently vacant except for two billboards erected under Misc. Applic. 268-40; that the use district maps show that the premises are in a class 1 height district; that the part of the premises within 100 ft. of Union turnpike is in a retail use district and a class D area district, and the balance is in a residence use district and class E-1 area district; that as of July 25, 1916 that part of the premises within 100 ft. of Union turnpike was in a business use and received its present designation on September 18, 1947; that as of July 25, 1916 the entire premises were in a class D area district and received its present area designation on February 7, 1949; that it is proposed to erect a modern automobile laundry and use the open area for parking of cars awaiting cleaning service; that the contemplated building will be one story in height, of class 3 construction and will have a frontage of 25 ft. 4 in. and a depth of 100 ft.; and

WHEREAS, the applicant contends that Union turnpike on the north side between 164th and 165th streets is unrestricted in character due to the gas station in block 6972, lot 29 and as such the proposal would be entirely within keeping at this point; that there is another non-conforming use of gas station in block 6875, lot 53; that the proposed auto laundry will not have any curb cuts on 165th street; that the feed line will be on the property and will help to keep cars off the street; that all drying of cars will be done within the building so that at no time will a car block the sidewalk; that the planted area as proposed along 165th street and along part of the northerly lot line will act as a screen for the residences along 165th street and help preserve the residential aspect of the street; that there are sufficient stores within the neighborhood to serve the needs of the community and it would not be economically feasible to erect more stores and this proposal is the only type of

MINUTES

building that would give the owner a normal return on her investment; and

WHEREAS, the applicant states that the present owner has held title to the property since December, 1950 and that the assessed valuation of land is \$5,400; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and the committee noted the grade conditions and other surrounding conditions and also considered the revised plans that were filed by the applicant and recommends that the application should not be granted; and

WHEREAS, the Board found that there was no justification for exercise of discretion to grant under Section 7, subdivision e of the Zoning Resolution.

Resolved, that the decision of the Borough Superintendent acting on N. B. App. 3562-54 be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

797-53-BZ

APPLICANT—Ferdinand Savignano, for Dorotea Favuzzi, owner.

SUBJECT—Application November 6, 1953 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a business use district the change of occupancy from auto glazing and lock repairs on first floor, to motor vehicle repairs, acetylene welding, spot spraying, body and fender works, with light manufacturing (dresses) to remain on second floor.

PREMISES AFFECTED—8140-8146 New Utrecht avenue, 1728-1732 82nd street, southwest corner and 8129-8133 Bay 16th street, Block 6314, Lot 12, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph Luca.

For Opposition: Eugene Ciblaro.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and New Utrecht avenue is in a business use, C area, class 2 height district; 82nd street is in residence and business use, C area, class 2 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 29, 1953, acting on Alt. Applic. 3917-53, reads:

"1. Proposed change of use in existing two story structure located in a business use district to 1st fl. automobile repairing, acetylene welding, spot spraying, body and fender repairs; 2nd fl. light mfg. (dresses) violates Art. II Sec. 4a, subdiv. 29 zoning resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 69 ft. $\frac{3}{8}$ in. frontage by 57 ft. $8\frac{1}{2}$ in. in depth, irregular, on which is located a building 39 ft. front by 57 ft. $8\frac{1}{2}$ in. in depth, irregular, two stories, 28 ft. in height, of class 3 construction, used for auto glazing and lock repairs on 1st floor and dress manufacturing on 2nd floor, for which certificate of occupancy No. 135753-53, has been filed; that in addition there is also a certificate of occupancy for the side land for storage of building supplies and equipment (no lumber) No. 135754-53, in conjunction with a one story structure on the same lot for which certificate of occupancy No. 135755-53 was issued for storage of one truck; that it is proposed to change the occupancy of the two story structure bearing certificate of occupancy No. 135753-53 to automobile

repairs, acetylene welding, lock repairs and glazing body and fender repairs and spot spraying on the 1st floor, with the 2nd floor to remain light manufacturing; and

WHEREAS, the applicant contends that the owner desires the use on the 1st floor due to the fact that it is a large area and is not a desirable renting space for auto glazing alone; that this building is located in the center of other gas stations, block 6314, lot 31 and lot 86 and block 6313, lot 31; that this use will in no way deteriorate the neighborhood and it will be a definite hardship on the owner if he cannot have the use of the 1st floor changed as requested; and

WHEREAS, the applicant states that the present owner has held title to the property since February 10, 1950; that the assessed valuation of land is \$5,500 and of the building \$11,000 making a total of \$16,500; that the building was erected 1952; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the area of the second floor to be occupied throughout the second floor for manufacturing and to permit the proposed use of motor vehicle repairing, acetylene welding, spot spraying and body and fender work on the first floor as proposed and as shown on plans marked "Received Nov. 6, 1953," 4 sheets and June 16, 1954, one sheet, and revised plans marked "Received March 18, 1955," 4 sheets, *on condition* that the building shall not be increased in height or area; that the additional building and enclosing wall on the side of the plot shall be maintained; that the former opening to Bay 16th street from the first floor of the corner building shall remain blocked up with an approved masonry; that the door for exit purposes to Bay 16th street shall be continued; that such fire fighting equipment and appliances shall be maintained as the Fire Commissioner shall require; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that all permits shall be obtained and all work completed and a new Certificate of Occupancy obtained within six months from the date of this resolution.

813-53-BZ

APPLICANT—Carl H. Salminen, for John Caciola, owner.

SUBJECT—Application November 13, 1953 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, E-1 area district, the change in occupancy of one family dwelling to two family dwelling (now existing), without required side yards.

PREMISES AFFECTED—149-59 21st avenue, north side, 95 ft. west of 150th street, Block 4671, Lot 28, Whitestone, Borough of Queens.

APPEARANCES—

For Applicant: Carl H. Salminen and John Caciola.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision; hearing closed; applicant to submit list of houses in area occupied as two family dwellings; and

WHEREAS, the district maps accompanying the zoning reso-

MINUTES

lution show that the site, 21st avenue and 150th street is in a residence use, E-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated November 9, 1953 acting on Alt. Applic. 1223-53 and superseded by Alt. Applic. 1223-53 dated November 18, 1954, reads:

"1. A two family dwelling in an E-1 area district should have two side yards and the minimum sum of the widths of such yards should be 15'. Art. IV Sec. 15A(b) Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 100 ft. in depth, on which is located a building 17 ft. front by 57 ft. 6 in. in depth on 1st floor, 43 ft. in depth on 2nd floor, two stories, 25 ft. in height, of class 3 construction, erected as a two family dwelling for which certificate of occupancy No. 46308-51 has been filed for one family dwelling; that it is proposed to permit the two family dwelling to remain; and

WHEREAS, the applicant states that this property is situated in a residence E-1 use district, class ½ height district; that there are no changes pending; that the area was changed from residence D to residence E-1 March 11, 1952; that the premises are improved with a two story solid masonry building erected under N. B. 301-31 and certificate of occupancy No. 46308-10 was issued for use as a one family dwelling, and further improved with a one story masonry garage erected in 1931 under permit No. 4643, for which no certificate of occupancy was issued; and

WHEREAS, the applicant contends that the present owner purchased the building with the understanding from the real estate agent that this could be converted into a multiple dwelling; that the owner is a veteran; that he found it extremely difficult to meet the carrying charges and without being acquainted with the provisions of the zoning resolution, administrative code and the multiple dwelling law, he converted this structure into a three family dwelling, including a basement apartment; that the owner was brought to court on June 15, 1954 to answer a summons in reference to a building violation against the premises; that the Magistrate's court adjourned decision until August 6, 1954 at which time the owner decided to do away with the basement apartment and leave the structure as a two family dwelling; that it is now requested that this structure be permitted to remain as a two family dwelling; and

WHEREAS, the applicant states that the present owner has held title to the property since June 23, 1952; that the assessed valuation of land is \$1,000 and of the building \$5,300 making a total of \$6,300; that the building was erected June 2, 1931; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant previously stated there had been three families in the building but one had moved and that at no time is it proposed to be occupied by more than two families; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution and that the application be and it hereby is granted under section 21 to permit the occupancy of the building for two families only, substantially as proposed and as indicated on plans filed marked "Received November 13, 1953", 2 sheets, and "December 2, 1954", 2 sheets, on condition that the building shall not be increased in height and shall be occupied by not more than two families and shall comply with the requirements of the Building Code as to separation; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits required shall be

obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

162-54-BZ

APPLICANT—Paul Friedman, for Kollman Realty Corp., owner.

SUBJECT—Application March 8, 1954 (decision of the borough superintendent), under sections 7f and 7e of the zoning resolution, to permit in the retail use district portion of a plot located in a residence and retail use district, for a term of fifteen years, the erection and maintenance of a gasoline service station, lubritorium, auto wash (non-automatic), storage and sale of accessories and office, and to permit the parking of cars waiting to be serviced.

PREMISES AFFECTED—250-02 to 250-14 Hillside avenue (250-04 official) and 84-01 to 84-09 250th street, southeast corner, Block 8604, Lot 85, Bellerose, Borough of Queens.

THE RESOLUTION—

WHEREAS, on July 27, 1954 this application was withdrawn at request of the applicant after full hearing and inspection by the Board; and

WHEREAS, on November 16, 1954 this application was reopened and restored to the docket, subject to the regular procedure; and

WHEREAS, a public hearing was held on this application on February 15, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 250th street are in residence and retail use, D and G-1 area, class ½ height districts; Hillside avenue is in a retail use, D area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated February 8, 1954 acting on N. B. Applic. 136-54 and superseded by N. B. Applic. 136-54 dated November 24, 1954, reads:

"1. The erection of gasoline service station, lubritorium, auto laundry (non-automatic), office, storage & sales of auto accessories and parking of cars waiting to be serviced in the retail portion of a plot located partially in a retail zone and partially in a residence zone is contrary to Art. II, Sec. 4A of the zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 140 ft. frontage by 100.2 ft. in depth, used as a parking lot, for which certificate of occupancy No. 774-51 has been filed; that the portion of the property within 100 ft. of Hillside avenue is in a retail district and a D area district and the remainder is zoned residence use and G-1 area; that as of July 25, 1916 the subject premises was zoned as a one times height district and a D area district; that the portion of the property within 100 ft. of Hillside avenue was then in a business use district and the remainder was zoned residence; that the present retail designation became effective on December 10, 1945; that the present height designation became effective on June 30, 1952 and the present G-1 district became effective on January 27, 1949; that there are no petitions pending to change the use, height or area designations affecting this plot; that it is proposed to erect and maintain for a term of 15 years, a parkway type gasoline service station, lubritorium, auto wash (non-automatic), of-

MINUTES

fice, storage and sales of auto accessories and parking of cars waiting to be serviced, entirely within the retail use district portion; and

WHEREAS, the applicant contends that the subject premises is presently being used for the free parking of cars of patrons and employees of Kollners Supermarket located at 249-10 Hillside avenue, in block 8603, lot 79; that when Kollners Inc. leased the supermarket space, its principal stockholder, Mac Kollner, purchased the subject premises in the name of Kollman Realty Corp., of which he is the sole stockholder, and leased it to Kollners Inc. in order to provide free parking space for the supermarket; that despite the availability of this free parking use, the plot is little used by patrons and employees of the supermarket, and the continuation of this service is unnecessary and economically unsound; that there is no economic demand for the development of the subject premises for stores because the existing store facilities adequately serve the neighborhood; that retail stores at the subject premises could not afford rentals sufficient to yield a reasonable return on the investment and would merely depreciate the value of existing retail stores in the area; that no increased support for additional stores may be anticipated in the foreseeable future, as the supporting area is now almost entirely developed; that there is no economic demand for development for residential use, as it is located on a busy thoroughfare, the balance of the block front is developed with stores and it is opposite stores on its westerly frontage; that there is an economic demand for the use of the premises as proposed because it is located on Hillside avenue which sustains a substantial volume of vehicular traffic and because no similar facilities exist for the convenience of the public in the immediate area; that a grant of this application would not adversely affect the neighborhood because the erection of a parkway type service station of attractive colonial design, one story in height, set back approximately 57 ft. from the Hillside avenue building line would enhance the appearance of the neighborhood; that the proposed structure will provide more light and ventilation to nearby occupancies than a conforming development which theoretically could be built at the subject premises; that there will be no curb cut entrances along 250th street; that a solid brick fence wall 5 ft. in height along the entire easterly and southerly lot lines and extending 72.20 ft. along the 250th street frontage will be constructed, and along the balance of the 250th street frontage, a 30 ft. sloped iron picket fence will be constructed; that there will be 1,625 sq. ft. of seeded and landscaped area to the rear of the proposed building and along the proposed fence walls, covering approximately 11.6% of the area of the plot; that night illumination will be provided at all times when the station is closed; that the proposed structure would be set back approximately 70 ft. from the intersection of Hillside avenue and 250th street and thus give clear visibility to traffic, while a conforming use structure, constructed on the building lines at the corner, would create a blind intersection and thereby endanger public safety; that the proposed use would not adversely affect real estate values in the area nor increase fire insurance rates, and would produce added revenue to the City by way of increased assessment and collectible taxes; and

WHEREAS, the applicant states that the present owner has held title to the property since August 2, 1951 and that the assessed valuation of land is \$11,250; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Sections 7e and 7f for a term of fifteen (15) years to permit the premises to be occupied as a gasoline service station substantially as proposed and as indicated on plans filed with this application marked "Received, March 8, 1954" (2 sheets), "June 25,

1954" (one sheet), and "December 17, 1954" (one sheet), on condition that the existing structures and uses shall be removed from the premises and that the plot shall be developed and arranged as indicated on such plans; that the plot shall be levelled substantially to the grade of the adjoining streets; that the accessory building shall be of the design and arrangement as proposed and located as indicated and faced with face brick; that there shall be no cellar under the accessory building; that along the rear and side lot lines to the east there shall be erected a masonry fence wall not less than five feet six inches in height; that such fence wall may be reduced to a height of four feet six inches within ten feet of the street building line of Hillside avenue; that a fence wall shall also be maintained along 250th street, except that the design shall be of masonry not less than two feet in height with steel picket fence thereon to a total height of five feet six inches which may be reduced to a height of four feet six inches within ten feet of the proposed termination; that terminating posts of substantial construction shall be erected and maintained adjacent to where the fences end at the building line; that pumps shall be of a low approved type and shall be erected not nearer than fifteen feet to the street building line; that gasoline storage tanks shall be restricted to ten 550 gallon approved tanks; that curb cuts shall be restricted to three curb cuts each thirty feet in width to Hillside avenue; that there shall be no curb cuts on 250th street; that curb cuts shall not be nearer than five feet to a side lot line as prolonged; that at the intersection of 250th street and Hillside avenue there shall be erected and maintained a block of concrete not less than twelve inches in height extending for a distance of not less than five feet along either street building line; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that within the intersection there may be a post standard for supporting a sign, which may be illuminated, advertising the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four feet; that there shall be no brand sign at the easterly end where shown; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs; that the sidewalks and curbing around the premises shall be constructed or repaired to the satisfaction of the Borough President; that parking of cars awaiting service may be permitted provided such parking does not interfere with the servicing of the station; where lighting is proposed at the rear of the accessory building along the lot line such lighting shall be so arranged as to reflect toward the accessory building and downwardly so as not to be objectionable to the adjoining owners; that where planting areas are proposed and shown such areas shall be planted with suitable material and shall be protected with a concrete curbing not less than six inches in height and width; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

349-54-BZ

APPLICANT—Felix J. Wasselle, for Rita Brue, owner.

SUBJECT—Application May 5, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district the erection and maintenance of a commercial building (luncheonette with living quarters in the rear).

PREMISES AFFECTED—226 Beach 88th street, southeast corner of Long Island Freeway, Block 572, Lot 13, Rockaway Beach, Borough of Queens.

APPEARANCES—

For Applicant: Felix J. Wasselle and Rita Brue.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

MINUTES

ACTION OF BOARD—Application granted on condition.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 25, 1955 after due notice by publication in the Bulletin; laid over to February 15, 1955; applicant to notify affected property owners by regular mail; then to March 22, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Long Island freeway are in a residence use, C area, class 1 height district; Beach 88th street is in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated April 8, 1954 acting on N. B. Applic. 900-53, reads:

"1. The use of the premises in a residence zone for store and living rooms in rear is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 112.77 ft. and 18 ft. frontage by 63.78 ft. in depth, irregular, presently vacant; that it is proposed to erect a one story brick building 15 ft. by 37 ft., to be used as a luncheonette, with living quarters in the rear; and

WHEREAS, the applicant states that on the east side of Beach 88th street, on the same side as the subject plot, are now existing one vacant lot used as a parking lot, two frame dwellings, one store and residence and one frame office building; that the west side of Beach 88th street now contains one brick garage with parking lot, one frame club house, one three story apartment house with stores and one vacant lot; and

WHEREAS, the applicant contends that when the owner purchased this plot from the City about two years ago, she was of the opinion that a luncheonette could be built on this site and that it would not be unharmonious with the types of buildings now existing; that the type of building to be erected will not be out of place or detrimental to the present neighborhood and it is therefore requested that a variance be granted permitting the use of said plot for a luncheonette with living quarters; and

WHEREAS, the applicant states that the present owner has held title to the property since November 6, 1952 and that the assessed valuation of land is \$1,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of ten (10) years to permit the premises to be occupied substantially as proposed and as indicated on plans filed with this application marked, "Received, May 5, 1954" (2 sheets), *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that all permits shall be obtained, including a certificate of occupancy and all work completed with the requirements of Section 22A of the Zoning Resolution.

599-54-BZ

APPLICANT—Burke, Green and Groh, for Carl and John Mangels, owners.

SUBJECT—Application July 22, 1954 (decision of the borough superintendent), under sections 7c, 7h and 7A of the zoning resolution, to permit in a residence and retail use district, the erection and maintenance of seven 1-car

garages, and to permit the parking and storage of patrons' and employees' cars (no fee to be charged) on unbuilt upon portion of plot, with curb cuts nearer the residence use district than is permitted.

PREMISES AFFECTED—255-13 Northern boulevard, north side, 55.05 ft. west of Glenwood street, Block 8139, Lot 41, Little Neck, Borough of Queens.

APPEARANCES—

For Applicant: Robert T. Groh.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.
THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 8, 1955 after due notice by publication in the Bulletin; laid over to February 15, 1955, at the request of objector, applicant agreeing; no further request for adjournment; hearing closed; then to March 22, 1955, for inspection and decision, without further argument; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Glenwood street are in residence and retail use, D area, class 1 height districts; Northern boulevard is in a retail use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated July 21, 1954 acting on N. B. Applic. 1255-54, reads:

"1. Proposed 7 private garages & parking & storage for more than 5 motor vehicles (patrons & employees cars, no fee to be charged) on a plot located partly in a retail use district & partly in a residence use district is contrary to Art. II Sec. 3 of the Zoning Resolution.

2. Entrance to and from a business located within 75'-0" of a residence use district is contrary to Sec. 7A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 20 ft., 40.91 ft. and 71.05 ft. frontage by 89.83 ft. and 200 ft. in depth, irregular, with a small portion having 20 ft. of frontage on Northern boulevard, which portion is developed with a store and dwelling; that the major portion of the plot is vacant, running through the block from Glenwood street to Morgan street; that it is proposed to develop this vacant portion for the parking of patrons' cars in conjunction with a number of retail stores on Northern boulevard; that it is also proposed to erect a one story masonry 7-car garage on a portion of the proposed parking lot; that this garage building will have face brick walls facing the parking lot, and facing Morgan street; that there will also be a shingled mansard roof along the front and along the Morgan street side of the garage building; that the vacant portion of the plot will be surfaced with steam cinders treated with a binder; that the lot lines will be fenced and shrubbery-protected by a concrete curb and will be provided along both building lines; that there will be one curb cut from each street into the parking lot to provide easy ingress and egress; that the parking use will be solely for patrons' and employees' cars, with no fee to be charged; and

WHEREAS, the applicant contends that the store fronts upon Northern boulevard, which is a very heavily trafficked thoroughfare; that directly in front of the store is a bus stop, which takes in the greater part of the block between Morgan and Glenwood street, thus making the parking of motor vehicles impossible in this section; that the owners of the store have felt that their business has decreased over the course of years due to the failure of patrons being able to park their cars anywhere within the vicinity of the store; that it is imperative to supply adequate parking for patrons and the parcel of land immediately to the rear of the store provides the answer to the parking problem; and

WHEREAS, the applicant states that the present owner has

MINUTES

held title to the property since March 16, 1942; that the assessed valuation of land is \$6,800 and of the building \$13,000 making a total of \$19,800; that the building was erected prior to 1916; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the applicant revised his application to omit private garages and to request open parking only; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions h and A of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h and Section 7A, for a term of five (5) years to permit the premises to be occupied for the parking of motor vehicles of the employees and patrons of the adjoining stores, with no fee to be charged, substantially as proposed and as indicated on plans filed with this application marked, "Received, December 22, 1954" (one sheet), and "July 22, 1954" (3 sheets), and in accordance with revised plans marked, "Received, March 3, 1955" (one sheet) *on condition* that the premises shall be levelled substantially as proposed to the grade of Glenwood street and Morgan street and surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that on the lot lines to the north, east and west there shall be a woven wire fence of the chain link type not less than five feet six inches in height; that against such fence there shall be a planting area protected with a curb and with suitable planting material as shown; that entrances may be to both Morgan street and Glenwood street; that such entrances shall be fitted with gates and shall be closed after business hours; that opposite such entrances there may be curb cuts to each street not over fifteen (15) feet in width; that during the term of this variance the premises shall be occupied or no other use than the open parking as herein permitted and no building shall be erected thereon; that there may be a sign on each street attached to the fence but not to extend beyond the building line, not illuminated and not exceeding five square feet in area, and advertising the parking use and limitations thereof, and such other information as may be required by the Commissioner of Licenses; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall require; that sidewalks and curbing in front of the premises on both streets shall be constructed or repaired to the satisfaction of the Borough President; and that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

654-54-BZ

APPLICANT—Charles M. Spindler, for Estate of William J. Hurley, owner.

SUBJECT—Application August 24, 1954 (decision of the borough superintendent), under sections 7c and 7i of the zoning resolution, to permit in a business use district the reconstruction and extension of existing gasoline service station and the change of occupancy of existing two, 2-car garages to motor vehicle repair shop and extension of garages to adjoining lot to enclose grease pits.

PREMISES AFFECTED—636-640 86th street and 2-12 Battery avenue, southwest corner, Block 6055, Lots 22 and 23, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on December 21, 1954 after due notice by publication in the Bulletin; laid over to January 25, 1955, for inspection and decision without further argument; hearing closed; then to February 23, 1955, for applicant to file revised plans with building arranged with opening on interior of site and not on Battery avenue and with pumps set back not less than 15 feet from street building line of 86th street; then to March 22, 1955, at the request of the applicant; nor further requests for adjournment; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 86th street are in a business use, C area, class 1 height district; Battery avenue is in residence and business use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated August 11, 1954 acting on Alt. Applic. 2742-54, reads:

"1. In a business use district the proposed reconstruction of the existing gasoline station and the change of occupancy of the existing two two-car garages to motor vehicle repair shop, and the extension of the gasoline station to the adjoining lot to enclose the illegally erected grease pits is contrary to Art. II Sec. 4(a) subdiv. 29 & 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 100 ft. in depth; that the site is a corner plot consisting of two tax lots; that the corner lot, No. 23, has a frontage of 25 ft. on 86th street and 100 ft. on Battery avenue; that this plot was approved for a gas station under N.B. No. 3548-25 and certificate of occupancy No. 33384 is now in force covering this use; that the garage portion of the present building was constructed under N.B. No. 10043-30; that the present owners have held title to lot 23 since July 8, 1908 and have owned lot 22 since October 20, 1925; that both lots have actually been used as part of the same gas station for more than 25 years, with the tanks and pumps confined to the corner lot; that it is proposed to legalize the entire plot as a gas station; that it is also proposed to construct a one-story masonry extension on lot 22 to enclose the lubrication facilities; that this proposed extension will confine the greasing activities to the interior of the building and eliminate the present unsightly outdoor facilities; that it is further proposed to include the use of minor repairs with hand tools only, within the existing building; that the present gas pumps are located approximately 5 ft. from both building lines and it is proposed to relocate this pump island 10 ft. back from both building lines to insure the serving of gas inside the property; that it is also proposed to reduce the size of the present curb cut on Battery avenue and to relocate the existing curb cut on 86th street so as to start 5 ft. from the lot line; that the proposed extension will have a face brick facade and a mechanical system of ventilation will be installed for the grease pit; and

WHEREAS, the applicant contends that in view of the fact that the proposed extension will eliminate the present outside greasing facilities and improve the appearance of the site, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to lot 22 since October 20, 1925 and to lot 23 since July 8, 1908; that the assessed valuation of land is \$16,000 and of the buildings \$7,000; making a total of \$23,000; that the buildings were erected 1925 and 1930; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the extension and rearrangement of area and to permit the continuance of the uses as now existing on Lot No. 23 to be extended to Lot No. 22 as now proposed and as indicated on plans filed with this application marked, "Received, August 24, 1954" (4

MINUTES

sheets) and as amended by revised plans marked, "Received, March 18, 1955" (2 sheets) *on condition* that the premises shall be reconstructed and rearranged as indicated on such revised plans marked, "received, March 18, 1955," 2 sheets; that there shall be no motor vehicle openings from the existing garages to Battery avenue; that existing openings therefrom shall be closed and curbing replaced at curb cuts; that the accessory building shall be arranged as proposed with entrance thereto only from the lot as shown; that there shall be no openings in the rear lot line wall to the northwest but there may be openings provided same are filled with glass block as approved for exterior wall construction; that the greasing equipment shall be of the hydraulic type, except one open grease pit where shown, provided such grease pit is ventilated to the roof by means of an exhaust fan and duct; that such exhaust fan shall be located at the bottom of the pit; that the balance of the premises shall be rearranged as indicated; that the pumps shall be of a low approved type and erected not nearer than fifteen feet to the street building line of 86th Street and not nearer than ten feet to the street building line of Battery Avenue; that the balance of the premises where not occupied with buildings and pumps shall be paved with concrete or bituminous paving; that along the westerly lot line there shall be a woven wire fence of the chain link type to a total height of not less than five feet six inches including a six inch high concrete base, and with a suitable terminating post at the building line of 86th Street; that curb cuts shall be restricted to one curb cut to 86th Street nor over 25 feet in width and one curb cut to Battery Avenue not over 28 feet in width, toward 86th Street as shown; that no part of either curb cut shall be nearer than five feet to a lot line as prolonged; that at the intersection of Battery Avenue and 86th Street there shall be installed and maintained a block of concrete extending not less than five feet along the building line and not less than twelve inches in height; that such fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and the illuminated globes of the pumps, excluding all roof signs and temporary signs but permitting a post standard which shall be erected at the intersection instead of at the northwesterly corner as shown, for supporting a sign which may be illuminated advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than four feet; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

657-54-BZ

APPLICANT—Robert Gottlieb, for Webster Auto Parts, Inc., owner.

SUBJECT—Application September 1, 1954 (decision of the borough superintendent), under sections 7e, 7f and 7i of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, car wash, storage and sale of accessories and office, for a term of fifteen years.

PREMISES AFFECTED—1363-1383 Webster avenue, west side, 647.4 ft. north of East 169th street, Block 2887, Lot 157, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 8, 1955 after due notice by publication in the Bulletin; laid over to March 8, 1955, for inspection and decision

without further argument; hearing closed; then to March 22, 1955, applicant to file revised plans; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 169th street are in residence and business use, B area, class 1½ height districts; Webster avenue is in a business use, B area, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated August 25, 1954 acting on N.B. Applic. 869-54, reads:

"1. In a business use district the proposed 'Gasoline Service Station, Office, Lubritorium and Sale of parts' is contrary to Sect. 4 of the Zoning Resolution.

and

WHEREAS, the decision of the borough superintendent, dated August 25, 1954, acting on N.B. Applic. 870-54, reads:

"1. In a Business use district the proposed 'Non storage garage, office and Motor Vehicle Repair Shop' is contrary to Sect. 4 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 125 ft. frontage by 90 ft. in depth, presently vacant; that it is proposed to erect a one story gas station at the south and central part and a small fireproof garage and motor vehicle repair shop, 45 ft. by 75 ft. on the rock ledge at north rear; and

WHEREAS, the applicant contends that Webster avenue is a 100 ft. wide heavily travelled major traffic artery; that the site, consisting of a large outcrop of rock, does not lend itself to erection of a building on the entire lot; that the owner, who runs a small fleet of taxicabs purchased this plot in 1951 with the sole thought of erecting a gas station and garage and repair shop for his taxicabs; that it is proposed to build one 24 ft. by 28 ft. fireproof building at the south line to be used for the office and lubritorium, with gas pumps in the center of lot and on the rock ledge to the north (about 7 ft. above grade), a fireproof building 45 ft. by 75 ft. one story, for use of the garage and motor vehicle repairing and servicing of his taxicabs; that the street now has quite a few non-conforming uses; that block 2887, lot 174 contains motor vehicle repair shop; that the one story 125 ft. building to the north on lot 151 contains four motor vehicle repair shops and across the street, block 2893, lot 62 there is a one story garage used in conjunction with the two 7-story warehouses adjoining; that the character of the street would not be materially changed by the proposed buildings; that Clay avenue, behind, is over 50 ft. above the grade of Webster avenue and the buildings overlooking the lot would in no way be affected by the proposed construction; that the erection of a gas station would not interfere with the present stations on Webster avenue as they are all quite a distance to the north and south; and

WHEREAS, the applicant states that the owner has held title to the property since February 1, 1951 and that the assessed valuation of land is \$17,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7f and 7i for a term of ten years, to permit the premises to be occupied as a garage and gasoline service station and repair shop substantially as proposed and as indicated on plans marked "Received September 1, 1954", 3 sheets, as amended by revised plans marked "Received March 1, 1955", 2 sheets, *on condition* that complete working drawings generally in accordance with such revised plans shall be submitted for further consideration by the Board and for imposition of conditions within thirty days from the date of this resolution; that such plans shall show proposed walls on the side and rear lot lines and arrangement for drainage from the rock condition at the rear; that pumps shall not be nearer than

MINUTES

15 feet to the street building line and brand sign shall not be closed to adjoining residential occupancies; that any existing uses shall be removed; that after approval of such working drawings, all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

676-54-BZ

APPLICANT—Robert Gottlieb, for William Schwartz, owner.

SUBJECT—Application August 3, 1954 (decision of the borough superintendent), under sections 7c and 7h of the zoning resolution, to permit in the residence use district portion of plot the extension of existing parking and storage of motor vehicles in business use district, and to permit the access to loading bays through the residence use portion of plot.

PREMISES AFFECTED—1014 East 180th street and 2087-2093 Boston road, southwest corner, Block 3137, Lot 20, Borough of The Bronx.

APPEARANCES—

For Applicant: Robert Gottlieb.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, under Cal. 1482-21-BZ, an application was granted by the Board on January 31, 1922, to permit in a business and residence use district, the erection of a theatre and stores, under certain conditions; and

WHEREAS, under Cal. 1482-21-BZ, Vol. II, on May 13, 1952, the resolution was amended to permit the change in occupancy of the entire building to business and factory use; and

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in residence and business use, B area, class 1¼ and 1½ height districts; Boston road and East 180th street are in a business use, B area, class 1¼ and 1½ height districts, and

WHEREAS, the decision of the borough superintendent, dated July 20, 1954 acting on Alt. Applic. 599-54, reads

"1. Proposed parking & storage of motor vehicles & access to loading bays to building on same lot in a business & residence district is contrary to Art. II Sect. 3 of the Z.R."

and

WHEREAS, the applicant states that the premises consist of a plot, 190.18 ft. frontage by 270.08 ft. in depth, on which is located a building of three wings, two containing stores and one large fireproof wing which was erected as a motion picture theatre; that there is a parking lot, under certificate of occupancy No. 64, for the 117 ft. by 100 ft. on Boston road, replacing the open air theatre on the entire vacant portion 237 ft. deep; that the stores and a large part of the theatre are located in a business zone and the southwest portion in a residence district; that the Board granted a variance under Cal. No. 1482-21-BZ to allow the erection of the rear theatre portion in a residence zone; that on May 13, 1952 the Board, under Vol. II of Cal. No. 1482-21, permitted the change from theatre to factory; that the existing parking lot in the business portion of Boston road was not affected by the change; that however, the loading unloading for the factory is done through the parking lot and the doors are in the residential portion of the lot; that it is proposed to permit the extension of the parking lot and to allow loading and unloading in the same portion for factory pre-

viously granted by the Board; and

WHEREAS, the applicant contends that the rear portion is vacant and the western half has a rock ledge; that the proposed extension of the parking lot would clean up this yard and allow space for about 30 additional cars; that the neighborhood would in no way be adversely affected by this change but would actually fill a need for more off street parking; that access to the two loading bays of the factory is necessary for the delivery and removal of products; that the new amendment to the zoning resolution actually requires off street loading space for all commercial buildings; that access through the rear residential portion of the lot proposed for parking would be during daylight hours and would not affect the parking of cars on the lot at night; and

WHEREAS, the applicant states that the present owner has held title to the property as an original corporation since December 4, 1944 and as an individual owner since December 26, 1952; that the assessed valuation of the land is \$120,000 and of the building \$80,000 making a total of \$200,000; that the building was erected 1921; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the extension of the parking use permitted by the borough superintendent into the more restricted district as proposed and as indicated on plans filed with this application, marked "Received August 3, 1954", 3 sheets, *on condition* that suitable fences shall be maintained along the rear and side lot lines for the operation of the portion proposed to be occupied up to the rock ledge, consisting of a woven wire fence not less than 5 ft. 6 in. in height, and to permit the additional use of crossing such parking lot to reach the shipping doors of the adjoining factory under the same ownership, as proposed and shown, *on condition* that the unbuilt upon portion of the plot shall be surfaced in accordance with the requirements thereof; that such portable fire-fighting appliances shall be maintained as the fire commissioner may require; that all curb cuts shall be restricted to existing curb cuts; and that all permits required shall be obtained and all work completed within six months from the date of this resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Stillwell avenue are in a business use, D area, class 1 height district; Quentin road is in residence and business use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated August 25, 1954 acting on Alt. Applic. 2649-54 and superseded by Alt. Applic. 2649-54 dated January 7, 1955, reads:

"1. Proposed extension of gasoline filling station for use as a gasoline filling station, lubritorium, office, minor auto repairs with hand tools only and parking and storage for more than 5 cars violates Art. II Sec. 4a subd. 15, 29 & 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 160 ft. frontage by 100 ft. in depth, on which is located a gasoline service station for which certificate of occupancy No. 51607-28 has been filed; that the property referred to is presently zoned as a business district, class 1 height district and a D area district; that these designations have not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; that it is proposed to reconstruct the existing gasoline service station and extend it in area; and

WHEREAS, the applicant further states that this gas station was erected prior to the enactment of the amended zoning resolution in 1925; that fire department records show that plan No. 1681-24 was approved for the installation of two 550 gallon gasoline tanks and the installation was inspected and approved on October 1, 1924; that the gas station and office, laundry and car storage was erected under permit No. 4412-28 and certificate of occupancy No. 51607 was issued July 14, 1928; that the station has been in continuous operation since that time; that the premises included under the above permits was lot 79, 40 ft. by 100 ft., purchased by Rudolph Rheinhold on July 30, 1924; that on April 10, 1928 adjoining lot No. 77, also 40 ft. by 100 ft., was purchased and used in connection with the gas station, and open grease pits were installed; that in 1943 the present owner leased the premises, 80 ft. by 100 ft., with option to buy and exercised his option on December 29, 1945; that on October 7, 1949, the present owner purchased lot No. 75, 40 ft. by 100 ft. from the city and on October 25, 1949 he purchased lot 73, 40 ft. by 100 ft., and used these two lots having a frontage of 80 ft. for the parking of cars in conjunction with the gas station; that it is now intended to alter and extend the existing gas station by removing the present office and open lubrication pits, provide modern equipment for indoor lubrication, provide an auto laundry, new office and storage room, toilet facilities and modernize the appearance of the station and the entire premises; that it is also intended to pave the entire area with black top and provide a brick and ornamental iron fence along the rear and side lot lines; that it is proposed to install nine additional gas tanks, relocate the present pumps and install six new pumps and to make minor auto repairs and adjustments with hand tools only; and

WHEREAS, the applicant contends that Stillwell avenue is a wide and busy thoroughfare and is one of the main thoroughfares leading to Coney island from Kings highway and Bay parkway areas; and that the alteration proposed will improve the appearance of the property and will not adversely affect neighboring property; and

WHEREAS, the applicant states that the present owner has held title to the property since July 19, 1943 and October 7, 1949; that the assessed valuation of land is \$23,600 and of the building \$6,000 making a total of \$29,600; that the building was erected 1928; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board finds that the enlargement of the gasoline station from the lot 40 ft. by 100 ft., as permitted in 1924, to the present frontage of 160 ft., described as used "in conjunction with the gasoline station", is an unlawful extension of the gasoline station, unless variances were granted by the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution to permit certain changes to the existing gasoline station and to permit existing parking area to be operated therewith.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the existing portion of the plot where parking has been permitted under a certificate of occupancy issued by the borough superintendent to be maintained under the same management as the balance of the premises where the gasoline service station exists and to permit the erection as an addition to such gasoline station an accessory building and the elimination of portion of present accessory building as now proposed and as indicated on plans marked "Received September 21, 1954", 4 sheets, and "January 17, 1955", 2 sheets, *on condition* that no additional curb cuts shall be constructed; that the sidewalks and curbing in front of the premises shall be maintained to the satisfaction of the borough president; that pumps shall be relocated so that none shall be nearer than 15 feet to the street building line; that pumps shall be of a low approved type; that nine additional approved gasoline storage tanks may be installed; that on the side lot line to the north from the accessory building to the street line of Stillwell avenue there shall be erected a woven wire fence of the chain link type, not less than 5 feet, 6 in. in height with substantial terminating posts at the building line; that along the rear lot line from the accessory building there shall be a similar fence where walls of adjoining buildings do not occur; that the fence shall be maintained along the street building line as required by the Borough superintendent where the parking has been permitted; that such portable fire-fighting appliances shall be maintained as the fire commissioner shall require; that repairing with hand tools only may be permitted within the accessory building for minor adjustments; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and temporary signs, but permitting the maintenance of a post standard for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not more than 4 feet; that such sign shall be erected substantially in the middle of the premises instead of at the extreme ends, as proposed; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 15, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision without further argument; hearing closed and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 92nd street and Avenue K are in a residence use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 20, 1954 acting on Alt. Appl. c. 2847-54, reads:

"1. The reconstruction of a gasoline service station and accessory store to be used as a gasoline service station, car washing, lubricatorium with minor auto repairs and accessory store, and signs on building, in a residence use district is contrary to the Zoning Res. Art. II Sect. 3."

and

WHEREAS, the applicant states that the premises consist of a plot, 17 ft. 11¼ in. frontage by 80 ft. in depth and that as of July 25, 1916 the premises were in a business use district and received its present use designation on August 14, 1943; that the premises are presently developed with a two story building of class 4 construction having a frontage of 17 ft. 11¼ in. and a depth of 80 ft. and now being used as follows: cellar—boiler room; 1st floor—gas station, car wash, lubricatorium, minor auto repairs and accessory store; 2nd floor—one family; that the original building was erected under permit No. 11141 of 1922 and certificate of occupancy No. 19035 was issued on May 25, 1923 for a two story building of class 4 construction having a frontage of 17 ft. 11¼ in. and a depth of 80 ft. on a plot having a frontage of 25 ft. 11 in. on Avenue K and a depth of 80.01 ft. on East 92nd street, to be used as follows: cellar—ordinary storage; 1st floor—store; 2nd floor—one family; that fire department records show that under permit No. 1387-1923 permission was granted to install one 550 gallon gasoline tank on the vacant portion of the lot; that under this permit the plot size was shown as 45 ft. 1 in. on Avenue K and 80.01 ft. on East 92nd street; that under permit No. 9823-1931 permission was granted to alter the 1st floor and install two additional 550 gallon gasoline tanks and certificate of occupancy No. 67082 was issued on March 31, 1932 for the building to be used as follows: cellar—ordinary use; 1st floor—gasoline selling station and accessory store; 2nd floor—one family; that this permit indicates a street frontage of 25 ft. 11 in. on Avenue K and 80.01 ft. on East 92nd street; that through a subsequent street widening the plot was reduced in size to 17 ft. 11¼ in. depth; and

WHEREAS, the applicant states that it is proposed to permit owner to maintain the present use as follows: cellar—boiler room; 1st floor—gas station, car wash, lubricatorium, minor auto repairs and accessory store; 2nd floor—one family; that it is also proposed to remove the pumps from the building line of East 92nd street and relocate them along the easterly wall of the building by removing the existing store partition and extending the gas station to the east wall of the building; that part of the cellar wall be filled in and the remaining boiler room will be made fireproof; and

WHEREAS, the applicant contends that inasmuch as the city has reduced the size of the plot from 25 ft. 11 in. frontage on Avenue K to 17 ft. 11¼ in. and has lowered the street grades, the station as it exists today is unusable and has caused the owner undue hardship by depriving him of his income; that inasmuch as all previous permits indicate the gas station as having greater metes and bounds than is now proposed, the community will not be affected; that the re-

location of the pumps from the building line will result in greater pedestrian safety; and

WHEREAS, the applicant states that the present owner has held title to the property since June 5, 1923; that the assessed valuation of land is \$5,000 and of the building \$10,000 making a total of \$15,000; that the building was erected 1923; and

WHEREAS, this building and the adjoining building appear to have a common party partition constructed of wood studs and metal sheets; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee has noted that the grade of the street has recently been changed so as to lower it and make the station practically inaccessible to use, and also noted the frame construction of the rear party wall and the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c to permit the reconstruction and rearrangement of the present legally existing gasoline service station substantially as proposed and as indicated on plans filed with this application marked, "Received, September 29, 1954" (5 sheets), *on condition* that the walls at the rear shall be made fireproof or fire retarded to protect the adjoining occupancy; that the curb cuts shall not exceed three: two curb cuts each 30 feet in width in place of the present continuous curb cut and one not over fifteen feet in width to Avenue K; that the sidewalks and curbing shall be reconstructed or repaired to the satisfaction of the Borough President; that gasoline storage tanks shall not exceed four 550 gallon approved tanks; that no pump shall be placed against a rear wall except against a wall of fireproof construction; that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto other than as modified this day under Cal. No. 765-54-A.

765-54-A

APPLICANT—Lama, Proskauer and Prober, for Silvio Loria, owner.

SUBJECT—Appeal filed September 29, 1954, from a decision of the Borough Superintendent.

PREMISES AFFECTED—1341 East 92nd street and 9202 Avenue K, southeast corner, Block 8238, Lot 35, Borough of Brooklyn.

APPEARANCES—

For Applicant: James E. Vassalotti.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated September 20, 1954, on Alt. App. 2847/54, reads:

"2. The change in use of portion of this frame bldg. from store to gasoline service station is contrary to Sect. 2.1.3.5 and Sect. 4.1.2 of the Bldg. Code."

and

WHEREAS, the applicant states the building is 2 stories, 22 ft. in height, 17 ft. 11¼ in. by 80 ft. in depth at first floor; 17 ft. 11¼ in. by 56 ft. in depth at 2nd floor, Class 4 construction, erected in 1923 on a lot 17 ft. 11¼ in. front by 80 ft. in depth, in a residence use, D area, Class I height district; used and occupied since 1932: cellar—boilerroom, 1st

MINUTES

floor, gasoline service station, car washing, lubritorium, minor auto repairs and accessory store; 2nd floor—dwelling, one family; that no change in use or occupancy is now proposed; that the building is provided with one interior 3 ft. wide wood stairs, enclosed with partitions of stud, wire lath and $\frac{3}{4}$ in. portland cement plaster; doors are wood not self-closing. Stairhall leads direct to street and is provided with ladder and scuttle to roof; and

WHEREAS, the applicant states the building was erected under Permit #11141/22 and Certificate of Occupancy #19035 issued May 25, 1923, for a two-story building, Class 4 construction, 17 ft. 11 $\frac{1}{4}$ in. by depth of 80 ft. on a plot having a frontage of 25 ft. 11 in. and a depth of 80.01 feet; used and occupied as follows: cellar—ordinary storage; 1st floor—store; 2nd floor—one family; that Fire Department records show that under Permit #1387/23 permission was granted to install one 550 gallon gasoline tank on the vacant portion of the lot; which was shown to be 45 ft. 1 in. on Avenue K and 80.01 feet on East 92nd street; that under Permit #9823/31 permission was granted by the Superintendent of Buildings to alter the first floor and install two additional 550 gallon gasoline tanks and Certificate of Occupancy #67082 was issued for the following use: cellar—ordinary use; 1st floor—gasoline selling station and accessory store; 2nd floor—one family; that this alteration permit indicates a street frontage of 25 ft. 11 in. on Avenue K and 80.01 feet on East 92nd street; that through a subsequent street widening the plot was reduced in size to 17 feet, 11 $\frac{1}{4}$ in. in depth; and

WHEREAS, the applicant states it is now proposed to remove the store front and extend the gasoline station to the easterly wall of the building; that this alteration has become necessary because of the reduction in size of the lot by the street widening; that the gasoline station as it now legally exists is in a frame building and its mere extension of 7 feet into the same building will not be hazardous; and

WHEREAS, the applicant contends that when the building was erected as a store and one family dwelling it was outside the fire limits and Class 4 construction was permitted; that the proposed extension of use will not be more hazardous than as now exists; the exposed walls and ceiling over the station will be fire-retarded with metal lath and 1 in. portland cement mortar having a one-hour fire rating; that all necessary fire fighting equipment as prescribed by the Fire Department will be maintained.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 2847 of 1954, Objection 2, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area and in all other respects shall comply with the requirements of the resolution adopted this day under Cal. No. 764-54-BZ; and that a new Certificate of Occupancy shall be obtained.

806-54-BZ

APPLICANT—Burke, Green and Groh, for Milton and Esther Mittel, owners.

SUBJECT—Application October 21, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, G-1 area district, the maintenance of existing dwelling, without the required setback from street line.

PREMISES AFFECTED—170-15 69th avenue, north side, 40 ft. west of 171st street, Block 6924, Lot 3, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Arthur J. McGee and Robert T. Groh.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 22, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, 69th avenue and 171st street are in a residence use, G-1 area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated September 22, 1954 acting on N.B. Applic. 1259-53, reads:

"1. The erection of a building within a G-1 area district less than 15 feet from a street as laid out upon the City Map is contrary to Art. IV Sec. 16-C(b) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 60 ft. frontage by 100 ft. in depth, on which is located a building 49 ft. 10 in. front by 40 ft. in depth, one story, 18 ft. 7 in. in height, of class 3 construction, to be used as a one family residence; that it is proposed to permit the existing structure to remain without the required setback from the street of 15 ft. but in lieu substitute a 13 ft. setback; and

WHEREAS, the applicant further states that as of July 25, 1916 the property in question was in a business district and a D district; that the present use designation became effective on September 18, 1947 and the area designation on February 7, 1949; that the height designation has not been changed since July 25, 1916 and no zoning amendment relating to this property is pending at the present time; and

WHEREAS, the applicant contends that when constructing this home the builder brought his building out as far as the other homes in the immediate neighborhood thinking that he was within the 15 ft. setback required in the G-1 area zone; that on his final survey he discovered that he was shy by 2 ft. of conforming with said requirement by having the front of his building less than 15 ft. from the street as laid out upon the city map; that this request to the Board is made solely to enable the owner of the property to obtain a variance so that he may receive a certificate of occupancy from the building department; and

WHEREAS, the applicant states that the present owner has held title to the property since November 19, 1953; that the assessed valuation of land is \$2,400 and of the building \$3,000 making a total of \$5,400; that the building was erected 1953; and

WHEREAS, the premises and surrounding area was inspected by a committee of the Board

WHEREAS, the existing front yard is in addition to the space as proposed for street widening; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 to permit the front yard as proposed and as indicated on plans filed with this application marked, "Received, October 21, 1954" (5 Sheets) *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and that all permits shall be obtained and all work completed within six months from the date of this resolution.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 15, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision without further argument; applicant to file information as to status of violation on the building; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Essex street are in residence and business use, C area, class 1 height districts; Atlantic avenue is in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated October 18, 1954 acting on Alt. Applic. 2699-54, reads:

"1. The change of Use and Extension from Public Garage, Garage for four (4) trucks, rag shop, repair shop and Garage, Store and two families to storage of baled paper, rags and metal scrap, garage for four (4) trucks, garage for two pleasure cars, sorting and baling of paper and rags, store and two (2) families, in a Business and Residential Use District is contrary to Art. II Sec. 3 and 4(a) paragraph 20 of the zoning resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 101 ft. 5 1/3 in. frontage by 91 ft. 11 in. in depth, presently developed with four 1-story buildings and one 3-story building designated as buildings A, B, C, D and E; that the use district maps show that the premises are located in a class C area district and a class one height district; that the part of the premises within 100 ft. of Atlantic avenue is in a business district and the remainder is in a residence use district; that as of July 25, 1916 that part of the premises within 100 ft. of Atlantic avenue was in an unrestricted use district and the remainder was in a residence use district; that the premises received their present use designation on May 14, 1941; and

WHEREAS, the applicant further states that building A was erected under N. B. 642-1892 and altered under Alt. 8501-1919 and no certificate of occupancy was issued; that it was occupied as follows: cellar—boiler room and storage; 1st floor—store; 2nd and 3rd floors—one family each floor; that building B was erected under permit No. 3212-1918 and certificate of occupancy No. 6174 was issued for use of the 1st floor as a rag shop; that department of licenses have issued permit No. B-14102 for junk shop; that building C was erected under B.N. 124-1950 and no certificate of occupancy was issued; that the 1st floor of this building was occupied as a garage for 4 trucks; that the present 550 gallon storage tank and dispensing pump now existing in this building was installed under fire department permit Misc. 115-20-48 issued for No. 3027 Atlantic avenue which is shown on plans as building D; that building D was erected under permit No. 8842-1922 and certified of occupancy No. 3030A was issued for the following uses: cellar—boiler room;

1st floor—public garage; that building E was erected under permit No. 11405-1919 and certificate of occupancy No. 1150 was issued for use of the 1st floor as repair shop and garage; that it is proposed to maintain present uses as follows: building A, 3 stories in height, of class 3 construction, having a frontage of 25 ft. 4 in. and a depth of 53 ft. 5 in., occupied as follows: cellar—boiler room; 1st floor—store; 2nd and 3rd floors—one family each floor; building B, one story in height, of class 3 construction, having a frontage of 25 ft. 4 in. and a depth of 56 ft. 4 in., occupied on the 1st floor for rag storage and paper baling; building C, one story, of class 3 construction, having a frontage of 25 ft. 4 in. and a depth of 119 ft. 6 in., occupied as follows: 1st floor—four truck garage and two pleasure car garage; one 550 gallon gasoline tank and gasoline pump for owner's use only; building D, one story, of class 3 construction, having a frontage of 25 ft. 4 in. and a depth of 125 ft. 10 in., occupied as follows: cellar—boiler room; 1st floor—storage of baled waste paper, rags and scrap iron; building E, one story, class 3 construction, having a frontage of 38 ft. 6 in. and a depth of 50 ft., occupied on the 1st floor for the storage of baled waste paper and rags; that therefore it is seen that buildings A and B will be continued with their present legal uses; that the use of building C will be changed from a legal four truck garage to a four truck and two pleasure car garage and it is proposed to legalize the present gasoline pumps and tank for owner's use only, in connection with owner's four trucks and two pleasure cars; that the use of building D will be changed from a legal public garage to storage of baled waste paper, rags and scrap iron and the use of building E will be changed from a legal repair shop and garage to the storage of baled waste paper and rags; that as buildings C, D, and E now have legal non-conforming uses, the replacement of said uses will not affect the community; and

WHEREAS, the applicant contends that there are many non-conforming uses within the affected area as follows: block 3956, lot 25—public garage; block 3938, lot 49—used car lot; block 3973, lot 24—foundry; block 3971, lot 21—public garage; that the premises have been owned since before the zone was changed from unrestricted to business in 1941 and as the owner has operated a junk shop on the premises since 1917 and acquired all of the property for future extension of the same business, it would be a hardship to deprive him of that right at this time by changing the zone; and

WHEREAS, the applicant states that the present owner has held title to lot 21 since October 18, 1917; lot 23 since June 7, 1920 and to lot 24 since March 21, 1938; that the assessed valuation of land is \$14,500 and of the buildings \$22,000 making a total of \$36,500; that the buildings were erected 1919; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the conditions proposed to be maintained are found to be substantially in use; the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution that the application be and it hereby is granted under Section 7e to permit the use of the buildings as proposed and as indicated on plans filed with this application marked, "Received, November 9, 1954" (4 sheets) and for the uses therein proposed and substantially as now existing, except to increase private garage from 4 trucks to 4 trucks and 2 pleasure cars all belonging to owner of the premises, on condition that the building shall not be increased in height or area; that such portable fire fighting equipment shall be maintained as the Fire Commissioner shall direct; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; and that all permits shall be obtained and all work completed within six months from the date of this resolution.

APPLICANT—Simeon Heller, for Walter Daniels, owner.
SUBJECT—Application December 30, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, E-1 area district the relocation of a dwelling without the required setback from street line and without the required side yards.

PREMISES AFFECTED—53-31 Marathon parkway, northeast corner of Horace Harding boulevard, Block 8240, Lot 6, Little Neck, Borough of Queens.

APPEARANCES—

For Applicant: Simeon Heller.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 15, 1955, for inspection, if necessary, and decision; hearing closed; then to March 22, 1955, for applicant to file revised plans to meet requirements as stated; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, E-1 area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated December 27, 1954 acting on Alt. Applic. 2974-54, reads:

"1. Proposed relocation of dwelling on the plot is to comply with Sec. 15-A(c) and (e) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 33.20 ft. frontage by 100 ft. in depth, irregular, on which is located a one and a half story frame residence and garage; that this is the remains of a parcel, a portion of which has been taken by condemnation by the City for the widening of Horace Harding boulevard; that it is proposed to relocate the existing residence on the remains of this property and place a garage in the cellar facing Horace Harding boulevard; that in so relocating the residence, the north side yard would become 4 ft., which is the minimum allowed for legal light and ventilation under the building code, and the setback from Horace Harding boulevard at its closest point will be approximately 2 ft.; and

WHEREAS, the applicant further states that on May 5, 1947 the zoning was changed from business to residence use and from E to E-1 area, ½ height; that the E-1 zoning would require a side yard of approximately 4 ft. 5¾ in., which is about 5¾ in. more than is proposed; that the setback from Marathon parkway will remain as at present, 18.97 ft., but the present garage would be converted into a porch and a new garage constructed in the cellar opening to Horace Harding boulevard; and

WHEREAS, the applicant contends that with the side yard and setback requirements of the zoning act, it would be impossible to make any use of the lot if the owner were forced to demolish the existing residence; that in addition, it would create a tremendous hardship on the owner as he would have to find a new home for himself and take the loss on the remainder of the land and building which is to remain on the property which would be left after condemnation; that Horace Harding boulevard will be a through arterial highway, 260 ft. wide, on which the setback provisions would not be of very great importance; that diagonally across the street from this property, on the southwest corner, there is presently in existence a large gas station which will remain and directly across the street, on the southeast corner, there is presently a large shopping center; that to the east, the existing residence, which is to remain, will not have legal setbacks either; that if this house were demolished no new

residence could be erected on this site and the property would be lost to the City as a tax paying entity; and

WHEREAS, the applicant states that the present owner has held title to the property since November 10, 1950; that the assessed valuation of the land is \$1,800 and of the building \$7,400 making a total of \$9,200; that the building was erected 1949; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution and that the application be and it hereby is granted under section 21 as to requirements for yards, to permit the relocation of the building required to be reconstructed in connection with the widening of Horace Harding boulevard, substantially as proposed and as indicated on plans filed with this application, marked "Received December 30, 1954", 7 sheets, "February 3, 1955", one sheet and "March 18, 1955", 1 sheet, on condition that the building proposed to be relocated shall be arranged substantially as indicated on revised plan marked "Received March 18, 1955" showing grades, on condition that the yards as proposed shall be maintained; that the overhanging eaves shall have proper gutter with snow guards on the southerly roof; that in all other respects the premises shall comply with all laws, rules and regulations applicable thereto; and that all permits, including a certificate of occupancy shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

119-47-SM

APPLICANT—The Cincerte Corporation, owner-manufacturer.

SUBJECT—Application for consideration—reopening as to amendment to resolution as to additional cinder block and cinder brick—re Durablock Cinder and Concrete Building Block; previously approved.

APPEARANCES—

For Applicant: Harold Lane.

ACTION OF BOARD—Resolution amended and material approved in accordance with the report of Committee on Test and that all blocks shall be manufactured at the factories of the applicant as have been inspected and approved by the Board.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 119-47-SM.

Subject: Amendment to resolution as to additional cinder block and cinder brick.

MINUTES

Cincrete Corp., requested by letter dated November 28, 1950 that the resolution adopted June 17, 1947 and as amended through November 28, 1950 under Cal. No. 119-47-SM be amended so as to include additional sizes of cinder block and cinder brick. The application was reopened by a vote of the Board January 16, 1951.

Purpose

The material are concrete masonry units.

Description

The blocks are manufactured of the same material, of the same mix and on the same machines as the blocks previously approved under Cal. No. 119-47-SM.

The bricks are made of a mix of 500 lbs. of cement and 3,200 lbs. of aggregate; the aggregate is 85% cinders and 15% sand.

Inspection and Test

Sample blocks and bricks were identified and marked, at the plant of the applicant, December 16, 1954 by Asst. Engr. J. A. Darts. Tests were made on these blocks and bricks in accordance with the Masonry Rules of the Board.

Results were as follows:

- Block. 1. 4" x 6" x 18" Solid Cinder
Compressive Strength = 1688 psi
Absorption = 11.7%
2. 4" x 9" x 18" Solid (Partition)
Compressive Strength = 745 psi
Absorption = 13.7%
3. 4" x 8" x 18" Cinder
Compressive Strength = 1280 psi
Absorption = 13%
4. 6" x 8" x 18" Cinder
Compressive Strength = 1251 psi
Absorption = 10%
5. 6" x 9" x 18" Cinder
Compressive Strength = 852 psi
Absorption = 13.5%
6. 10" x 8" x 8" Cinder
Compressive Strength = 1061 psi
Absorption = 11.8%
- Brick. 1. 2 3/4" x 3 5/8" x 7 3/4"
Compressive Strength = 3617 psi
Modulus of Rupture = 487 psi
Absorption = 10.5%
2. 2 1/4" x 3 5/8" x 7 3/4"
Compressive Strength = 3279 psi
Modulus of Rupture = 486 psi
Absorption = 12.8%

Recommendation

On the basis of the inspection and test and the data filed by the applicant the Committee on Test recommends that the resolution adopted on June 17, 1947 and amended November 28, 1950 under Cal. No. 119-47-SM be amended to include additional size cinder block so that the block and brick recommended for approval (including those previously approved) shall be as follows:

- Concrete Block
Hollow—4" x 8" x 18"; 8" x 12" x 16"; 8" x 8" x 18".
Solid—4" x 8" x 18"; 8" x 12" x 16".
- Cinder Block Brick Size
2 1/4" x 3 5/8" x 7 3/4"; 2 3/4" x 3 5/8" x 7 3/4".
- Cinder Block
Solid—2" x 8" x 18"; 4" x 6" x 16"; 4" x 9" x 18"
(partition) 8" x 12" x 16"; 8" x 8" x 18".
Hollow—3" x 8" x 18"; 4" x 8" x 18"; 6" x 8" x 18";
6" x 8" x 18" Header; 6" x 9" x 18" Header; 6" x
9" x 18"; 8" x 8" x 18" Header; 8" x 9" x 18";
10" x 8" x 18".

on condition that the following requirements shall be complied with:

- That these units be manufactured according to the specifications as herein set forth, at the applicants plant located at 26th Avenue and East River, Long Island, New York.

2. That these units be manufactured, cured, stored and used in accordance with the requirements of the Administrative Building Code and the Rules of the Board for the manufacture, testing and use of Concrete Masonry Units.

3. That these units be marked as required by Rules 8.1, 8.2 and 8.4.

4. That Rule 8.5 be complied with.

5. That quarterly test reports of compression for not less than three representative samples of each size of block described herein manufactured during the quarter be filed with the Board. Unless these tests are performed at a Laboratory approved by the Board, such reports shall be verified before a notary public or commissioner of deeds by the person performing the same.

6. That only approved aggregates shall be used.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engineer,

JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolutions of June 17, 1947 and November 28, 1950 in accordance with the above report and that all blocks shall be manufactured at the factories of the applicant, as have been inspected and approved by the Board.

395-54-SM

APPLICANT—Cincrete Corporation, owner.

SUBJECT—Application April 27, 1954—Durablock Cinder Cavity Wall Block (8x8x16 inch Hollow Load Bearing Cinder Cavity Wall Block), approval of.

APPEARANCES—

For Applicant: Harold Lane.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test and that all blocks shall be manufactured at the factories of the applicant as have been inspected and approved by the Board.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 395-54-SM

Subject: Durablock Cinder Block Cavity Wall Block, approval of.

Cincrete Corp., Long Island, New York filed April 27, 1954 an application with the Board of Standards and Appeals for approval of the material known as Durablock Cinder Block Cavity Wall Block under the provisions of the Administrative Building Code (C26-309.0) and The Masonry Rules of the Board.

Purpose

The material is used as an eight inch masonry unit to obtain cavity wall construction.

Description

The block is made in a size of 8" x 8" x 16" and may be compared to two three inch blocks joined with a two inch web; this web extends approximately three inches up into the block, leaving a "V" shaped void approximately 5" deep and 2" wide at the opening of the "V".

The units are made of either cinders or waylite and the design mix is as follows:

Cinders:—450 lbs. approved Hi-Early Cement. 2800 lbs. of cinders and 400 lbs. of sand.

MINUTES

Waylite:—400 lbs. of approved Hi-Early Cement, 3200 lbs. of Waylite and 800 lbs. of sand. The mix is then formed on the Besser machine equipped with a special mold. The formed blocks are steam cured then allowed to air cure.

Inspection and Test

The plants of the applicant at both Glen Cove, Long Island and Long Island City were inspected by Asst. Engr. J. A. Darts Committee on Test. Sample units of both cinder and waylite were identified and marked. Compression and absorption tests were conducted on the identified samples. Results were as follows:

Cinder —Average compressive strength	1463 psi
Absorption	11.2%
Waylite—Average compressive strength	1112 psi
Absorption	9.75%

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Durablock Cinder and/or Waylite Block Cavity Wall Block in sizes of 8" x 8" x 16" or the half block 8" x 8" x 8" as manufactured at the applicants plants located in Long Island City and Glen Cove Rd., Carle Placc, New York for use in New York City as a hollow load bearing masonry unit in cavity wall construction under the provisions of C26-309.0 Administrative Building Code on condition that the requirements of the Masonry Rules of the Board are complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engineer,
JOHN A. DARTS,
Assistant Engineer,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report and that all blocks shall be manufactured at the factories of the applicant, as have been inspected and approved by the Board.

485-49-A

APPLICANT—Olvany, Eisner and Donnelly, for Sanford Estates, Inc. (Detecto Scales, Inc., lessee).

SUBJECT—Application for consideration—reopening as to amendment—re Appeal from a decision of the fire commissioner; previously granted on condition.

PREMISES AFFECTED—544-560 Park avenue, south side, from Nostrand avenue to Sanford street (2nd floor), Block 1731, Lot 1, Borough of Brooklyn.

22-55-A

APPLICANT—Gabriel Nathan, for SKR Holding Corp., owner.

SUBJECT—Application January 19, 1955—filed pursuant to section 35, General City Law re construction partly in bed of mapped street—proposed widening of Rockaway Beach boulevard and a decision of the borough superintendent.

PREMISES AFFECTED—64-13 to 64-21 Rockaway Beach boulevard, south side, 80.86 ft. east of Beach 65th street, Block 396, Lot 5, Rockaway Beach, Borough of Queens.

APPEARANCES—

For Applicant: Gabriel Nathan and H. Licht.

For Opposition: Samuel Jacobson.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated January 6, 1955, on Alt. App. 911 of 1954, reads:

"1. Use of frame bldg. as factory is contrary to C26 254.0 (table) 4.1.5 & 4.1.3 B. C.

"2. No construction permitted in the bed of a mapped street without approval of the Board of Standards & Appeals. Sec. 35 Genl. City Law."

and
WHEREAS, the applicant states the premises consist of a lot 100.43 ft. by 135.40 ft. irreg. in depth, located in a business and residence use, D area, Class One height district upon which there exists a one story, fifteen foot high building of Class 4 construction 50 ft. front by 130 ft. irreg. in

MINUTES

area, used and occupied since approximately 1913 as follows: 1st floor—garage, gasoline service station, motor vehicle repair shop, automobile showroom and parking lot, for which no certificate of occupancy has been issued; and

WHEREAS, violation #31 of 1954, was issued February 27, 1954, for using and occupying a portion of the premises in a residence use district for the storage of plastic components and machine shop; and

WHEREAS, the applicant states that it is proposed to demolish the portion of the building located within the residence use district and to erect a new 8 in. masonry wall at the rear of the remaining portion of the structure and to use the existing frame building in the business use district for the manufacturing of plastics, for a machine shop and for open parking with an occupancy of 20 persons and the portion of the property located in a residence use district will remain vacant; and

WHEREAS, the applicant contends that the exterior walls are clad with galvanized iron, that the building was used as a gasoline service station, garage, motor vehicle repair shop and auto sales room and offices and the open area as a parking lot since 1913; that the gasoline service station use was discontinued about 1946; that the plastic material used on the premises consists of cellulose acetate, a non-inflammable product; that the new 8 inch concrete block wall to be erected at the rear of the building along the use district boundary line will extend to the underside of the roof boards and will confine the use of the building to the portion within the business use district; that the proposed factory use in the existing frame building is less hazardous than the previous use of gasoline service station, motor vehicle repair shop, etc. that existed for over 33 years; that the commercial uses in the frame building have never been abandoned since the building was erected in 1902, with the exception of the gasoline storage tanks which were emptied and sealed off in 1946; that the proposed street widening has been on the City map since March 28, 1912; that no new construction is contemplated within the bed of the mapped street widening and it is felt that the owners should be permitted to continue to enjoy the use of that portion of the existing structure located within such widening until such time as the City consummates condemnation proceedings; and

WHEREAS, the premises and building were inspected to view construction by a committee of the Board and the Committee found that the structures were unsuitable to permit use proposed.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 911 of 1954, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

APPEARANCES—

For Applicant: Alvin J. Sander.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on December 10, 1940, on certain conditions; and

WHEREAS, the resolution was amended on October 31, 1950; and

WHEREAS, time to obtain permits and complete the work was extended from time to time and last extended on October 20, 1953; and

MINUTES

WHEREAS, the applicant requested a further extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on October 31, 1950, only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that working drawings have been prepared and filed with the Department of Housing and Buildings, that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution." (Alt. 27644/50).

145-47-BZ—Vol. II

APPLICANT—Abraham Grossman, for G. L. G. Realty Corp., owner.

SUBJECT—Application for consideration—reopening and extension of term of variance—re Application (decision of the borough superintendent), previously granted on condition under section 7e of the zoning resolution, permitting in a residence use district, the change in occupancy from wagon storage and stable to store in cellar, garage for more than five motor vehicles on first floor, upper floors to remain vacant, for a term of ten years (previously denied under sections 7e and 21 for garage for more than five motor vehicles and factory).

PREMISES AFFECTED—19 Cornelia street, north side, 216 ft. 7½ in. west of West 4th street, Block 590, Lot 40, Borough of Manhattan.

APPEARANCES—

For Applicant: Abraham Grossman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and term of variance extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board as Vol. II, on March 21, 1950, on certain conditions; and

WHEREAS, time to obtain permits and complete the work was extended on November 27, 1951; and

WHEREAS, the applicant requested an extension of the term of variance.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 21, 1950, only so far as it has reference to the term of variance, so that as *amended* this portion of the resolution shall read:

"* * * granted under Section 7, Subdivision e for a term of five years from the date of this *amended* resolution to permit * * *; that other than as herein *amended* the resolution above cited shall be complied with in all respects and a new certificate of occupancy shall be obtained." (Alt. App. 1529/49).

parking and storage of more than five motor vehicles to remain, for a term of years.

APPLICANT—Lama, Proskaucr and Prober, for Bishop, McCormick and Bishop, owners.

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under section 7f of the zoning resolution, permitting in a retail use district, the erection and maintenance of a gasoline service station, car wash, lubritorium, motor vehicle repairs and office, and permitting the parking and storage of motor vehicles on unbuilt portion of plot for a term of years.

PREMISES AFFECTED—145-55 New York boulevard and 145-55 to 145-66 Farmers boulevard, northeast corner, Block 13313, Lot 40, Jamaica, Borough of Queens.

APPEARANCES—

For Applicant: Milton Bromberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened, resolution amended, time to complete work extended and working drawings approved.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on March 23, 1954, on certain conditions; and

WHEREAS, the resolution was amended extending time to file working drawings from time to time and last extended on January 25, 1955; and

WHEREAS, the applicant requested a further amendment of the resolution and extension of time.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 23, 1954, only so far as it has reference to the time within which to obtain permits and complete the work and approval of working drawings, so that as amended this portion of the resolution shall read:

"that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution."; and to *approve* working drawings, marked

'Received February 28, 1955' (3 sheets), as in substantial compliance with the resolution above cited, and permitting the use of Carrara glass in place of porcelain enamel on the front and sides and masonry on the rear facade." (NB 3529/53)

(Remaining Minutes of the Meeting of March 22, 1955 will be printed in the Bulletin of April 5, 1955.)

COURT DECISION

(Continued from page 481)

Under section 21 of the building zone resolution the Board of Standards and Appeals may, where it appears there are practical difficulties or unnecessary hardship in carrying out the strict letter of any provisions of the zoning resolution, vary such provision in harmony with the general purpose and intent of the law. Here the Board of Standards and Appeals exercised its discretionary powers and refused to grant a variance of the building zone resolution. Ample and sufficient reasons for the determination of the Board of Standards and Appeals in denying the application are set forth in the record.

The determination of the Board of Standards and Appeals is not arbitrary or capricious and, consequently, it may not be set aside. The application of the board to vacate the order of certiorari and to dismiss the petition is granted. The determination of the board is confirmed.

(N. Y. L. J. December 1, 1953, page 1281.)

Upon further review, the Appellate Division Second Department dismissed the appeal, affirmed the decision of Special Term and sustained the Board in the following decision, quoted in part:

"—In a proceeding to review the determination of respondents in denying petitioner's application for a variance, the appeal is from (1) an order, dated December 11, 1953, granting respondents' motion to vacate the order of certiorari, dismissing the petition and confirming said determination; (2) that portion of the decision, made on petitioner's motion for reargument of the said motion, as adheres to the original determination, and (3) that portion of the order on said reargument which adheres to the original decision. Order on reargument, in so far as appealed from, unanimously affirmed, with \$10 costs and disbursements. No opinion. Appeal from order, dated December 11, 1953, dismissed, without costs. Appeal from decision dismissed, without costs."

(N. Y. L. J. February 1, 1955, p. 10)

STIPULATION OF DISCONTINUANCE AND AGREEMENT.

Matter of Jules E. Perlman and Natshein Operating Corp.: vs. Harris H. Murdock et al.—On December 16, 1952, the Board granted under Section 7, subdivision h, of the Zoning Resolution for a term of two years, in a residence use district, the premises to be occupied for parking and storage of motor vehicles on certain conditions; Cal. No. 424-52-BZ; Premises 43-45 West 67th Street, north side, 100 ft. east of Columbus Avenue, Manhattan.

Petitioners, objecting property owners, sought a review of the Board's determination.

In Supreme Court, New York County, a stipulation was entered into between the attorneys for the respective parties hereto for a discontinuance of these proceedings without costs.

PETITIONS AND CERTIORARI ORDERS SERVED ON THE BOARD OF STANDARDS AND APPEALS.

On February 17, 1955, Copy of Order of Certiorari was served on the Board by Di Lorenzo & Algert, attorneys for petition and owner, Berk Bros. Realty Corporation, seeking a review of the Board's denial of their application on January 18, 1955, under Sections 7c and 7i of the Zoning Resolution, to permit in a business use district the addition of an automobile laundry (automatic type) to existing gasoline service station in portion of site where stores were permitted by the Board but never built; Cal. No. 872-39-BZ; Vol. VII; Premises 7001-7019 Bay Parkway, southwest corner of West 10th Street, and 1-21 Avenue O, Borough of Brooklyn.

On February 23, 1955, Copy of Petition and Order of Certiorari was served on the Board by Elias M. Schwarzbart, attorney for petitioner, Francis Miller, an objecting owner, seeking a review of the Board's determination on January 18, 1955, granting a variance, under Sections 7e and 7h of the Zoning Resolution, in a restricted retail use district, for a term of fifteen years, permitting the erection and maintenance of a gasoline service station, lubricatorium, car washing (non-automatic), motor vehicle repairs, storage and sale of accessories and office; and to permit the parking and storage of motor vehicles on unbuilt upon portion of plot; Cal. No. 1011-41-BZ, Vol. II; Premises 1702-1718 Bruckner Boulevard and 975-979 Noble Avenue, southwest corner, and 960-970 Soundview Avenue, Borough of The Bronx.

On March 4, 1955, Copy of Petition and Order of Certiorari was served on the Board by Anthony Trotta, owner, seeking a review of the Board's determination on February 1, 1955, denying, under Section 7, subdivision f, of the Zoning Resolution, permission in a business use district for the extension of existing garage for five cars and the change in occupancy from a five car garage and parking of more than five cars, to gasoline service station, lubricatorium, motor vehicle repairs, storage and sale of accessories and office, and to permit the parking of more than five motor vehicles on unbuilt upon portion of plot; Cal. No. 797-54-BZ; Premises 690-700 Utica Avenue, southwest corner of Clarkson Avenue, Borough of Brooklyn.

On March 24, 1955, Copy of Petition and Order of Certiorari was served on the Board by Harry Sand, attorney for Avenue P and East 19th Street, Inc., owner, seeking a review of the Board's determination on February 1, 1955 denying application under Sections 7c and 2i of the Zoning Resolution to permit in a residence and business use, E area district, the extension of existing structure, using more than the area permitted and without the required setback from street lines on Avenue P and East 19th Street; (previously denied as to erection and maintenance of stores and offices); Cal. No. 1228-40-BZ, Vol. II; premises 1816-1824 Avenue P and 1610-1620 East 19th Street, southwest corner, Borough of Brooklyn.

COURT DECISION.

Matter of Cromwell Ave. Garage Corporation vs. Board of Standards and Appeals:—On June 8, 1954, the Board denied an application under Section 7, subdivisions f and i, of the Zoning Resolution to permit in a business use district the erection and maintenance of a gasoline service station, lubricatorium and car washing, motor vehicle repairs, storage and sale of accessories and an office, and to permit parking and storage of more than five motor vehicles on the unbuilt-upon portion of plot; Cal. No. 739-39-BZ, Vol. II; Premises 1722-1730 Lexington Avenue, Borough of Manhattan.

At Special Term, Part III, of the Supreme Court, Mr. Justice Walter, sustained the Board in a decision reading, in part, as follows:

"Motion is dismissed as academic in view of the fact that the board's return has been filed and the sufficiency thereof and of the petition to review the board's action have been considered

SUBJECT—Application July 12, 1954—(decision of the borough superintendent) under sections 7a and 21 of the zoning resolution, to permit in a residence use, E1 area district, the existing occupancy as three family dwelling, formerly a two family dwelling, without the required side yard and nearer to the street line than is permitted.

PREMISES AFFECTED—1925 Hering avenue, west side, 243.76 ft. north of Rhineland avenue, Block 4275, Lot 29, Borough of The Bronx.

APPEARANCES—

For Applicant: Joseph Cohen, Jack Feldman and Ruth Feldman.

For Opposition: Francis X. Stephens, Jr.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 12, 1955, at 10 A. M. for applicant to file plans with the borough superintendent and obtain a complete examination and a new decision and to file an administrative appeal with the Board if necessary; hearing previously closed; the premises have been inspected by a committee of the Board.

592-54-BZ

APPLICANT—Lloyd Morgan and Eugene V. Meroni, for Equitable Life Assurance Society of the United States, owner.

SUBJECT—Application July 16, 1954—re (decision of the borough superintendent) under sections 7c and 7e of the zoning resolution, to permit in a residence and unrestricted use district the erection and maintenance of a gasoline service station, lubritorium, car-wash, storage and sale of accessories, with illuminated signs, and to permit the parking of motor vehicles.

MINUTES

PREMISES AFFECTED—205 West Fordham road, west side, 391.18 ft. east of Landing road and Major Deegan boulevard, Block 3236, Lot 220, Borough of The Bronx.

APPEARANCES—

For Applicant: A. S. Mongiello.

For Opposition: Edward Hoffman for Park Dept.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 12, 1955, at 10 A. M. at request of the applicant, to file revised plans; hearing previously closed.

648-54-BZ

APPLICANT—Raphael and Conlon, Rayjon Corp., owner (Seabreeze Restaurant, lessee).

SUBJECT—Application August 17, 1954—(decision of the borough superintendent) under sections 7c, 7e and 7h of the zoning resolution, to permit the extension of restaurant use, and the parking of patrons' cars in restricted retail use to extend into residence use portion of plot.

PREMISES AFFECTED—2 City Island avenue, southeast corner of Belden street, Block 5637, Lot 1, Borough of The Bronx.

APPEARANCES—

For Applicant: Thomas J. Burns and Raymond Cepallano.

For Opposition: Mrs. R. P. Miller, William McGuire, A. Donofrio and Austin D. Graham.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to May 3, 1955, at 10 A. M. for inspection and decision; hearing closed.

807-54-BZ

APPLICANT—Rubin Shapiro, for Parkwood Construction Corp., owner.

SUBJECT—Application October 25, 1954—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a residence use, G area district, the erection and maintenance of a Class A multiple dwelling.

PREMISES AFFECTED—115-76 Park Lane South northeast corner of Mayfair road, Block 3319, Lot 1, Kew Gardens, Borough of Queens.

APPEARANCES—

For Applicant: Bernard Segal, Rubin Shapiro, Harold Schneider and Fred E. Hertan.

For Opposition: Aaron H. Walowil, Sylvia Fuhrman, N. Peter Lekiseh, George J. Gross, Edward Hoffman for Park Dept., Charles F. Brush, Lloyd Espenschild, C. Martin, D. A. Fletcher, Evelyn Honig, Clara Aseh, Ruth Weiselberg, Joseph Aseh, George W. Ross, Carl Below, Edward Siegel, J. Auer, Agnes Siegel, Josephine F. Shaffer and Joseph E. Domenico.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 26, 1955, at 10 A. M., for inspection by a committee of the Board and for decision without further argument; hearing closed.

884-54-BZ

APPLICANT—Nathan L. Goldstein, for Dyre Boston Properties Corp., owner (o/u/e Giacomo Mazzeo).

SUBJECT—Application November 23, 1954—(decision of the borough superintendent) under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle, repairs, storage and sale of accessories and office; and to permit the parking of more than five motor vehicles.

PREMISES AFFECTED—3227-3249 Boston road, 3271-3273 Yates avenue, northwest corner and 3264-3276 Laconia

avenue, Block 4614, Lots 25, 27 and 59, Borough of The Bronx.

APPEARANCES—

For Applicant: Nathan L. Goldstein.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 12, 1955, at 10 A. M. for revised plans to be submitted by the applicant; hearing previously closed.

931-54-BZ

APPLICANT—Paul Friedman, for Reineking Family Co., Inc., owner. (Harry Klein, lessee).

SUBJECT—Application December 8, 1954—(decision of the borough superintendent) under section 7e of the zoning resolution, to permit for a term of fifteen years in a residence use district, the change in occupancy from public garage for over five cars and motor vehicle repair shop, 43 one car garages, one family dwelling and private garage, and stores and one dwelling, to gasoline service station, motor vehicle repair shop (including body and fender work, welding and paint spraying) lubritorium, auto wash (non automatic), storage and sale of auto accessories and office; and the parking of cars waiting to be serviced.

PREMISES AFFECTED—3513-3527 Atlantic avenue and 308-316 Grant avenue, northwest corner, Block 4151, Lot 54, Borough of Brooklyn.

APPEARANCES—

For Applicant: Paul Friedman.

For Opposition: Peter Deutsch, A. J. Irwin, Bertha Rudland, Edna Rusyn, Amanda Roeker, Martha B. Balfour, Helen Bickford, Andrew J. Cuneo, Charles S. McEntee, Joseph P. Lapointe, Mary Fazio, Stella Aekerina, Marie McEntee, Joseph Kirseh, S. Lessow and Cila Lessow.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 12, 1955, at 10 A. M. for inspection and decision; hearing closed; no further argument.

937-54-BZ

APPLICANT—Samuel Rosenblum, for 415 Madison Inc., owner.

SUBJECT—Application December 3, 1954—(decision of the borough superintendent) under section 19A(j) of the zoning resolution, to permit in a retail and restricted retail use district, the erection and maintenance of an office building and bank without the required loading berth.

PREMISES AFFECTED—413-417 Madison avenue and 29-31 East 48th street, northeast corner, Block 1284, Lot 21, Borough of Manhattan.

APPEARANCES—

For Opposition: L. P. Oberleder and R. C. Weinberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 12, 1955, at 10 A. M., for decision without further argument; hearing closed.

957-54-BZ

APPLICANT—Herman Horowitz, for Senville 35th Street Realty Corp., owner.

SUBJECT—Application December 16, 1954—(decision of the borough superintendent) under section 21 of the zoning resolution, to permit in a business use, B area district, the extension on first story of proposed structure, using more than the area permitted.

MINUTES

PREMISES AFFECTED—524-532 3rd avenue and 163-167 East 35th street, northwest corner, Block 891, Lots 38, 39, 41, 42 and 43, Borough of Manhattan.

APPEARANCES—

For Applicant: Herman Horowitz.

For Opposition: Philip O. Eisenberg and William J. Caldwell.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Laid over to April 12, 1955, at 10 A. M. for inspection and decision; hearing previously closed.

708-38-BZ—Vol. III

APPLICANT—Ribelle V. Perotto, for Bertha M. Carroll, owner (Gulf Oil Corporation, lessee).

SUBJECT—Application reopened February 8, 1955 as Vol. III—re amendment of resolution—re (decision of the borough superintendent), previously granted on condition under section 7c of the zoning resolution, permitting in a business use district, the parking and storage of more than five motor vehicles on an existing gasoline service station.

PREMISES AFFECTED—92-28 Horace Harding boulevard and 93-43 to 92-57 Queens boulevard, southeast corner, Block 2075, Lot 5, Elmhurst, Borough of Queens.

APPEARANCES—

For Applicant: Ribelle V. Perotto.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Resolution amended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on November 15, 1938 this application (Vol. I) was granted by the Board on certain conditions under section 7c of the zoning resolution, to permit in a business and unrestricted use district, the extension of a gasoline service station on certain conditions, resolution amended December 20, 1938 and March 21, 1939; and

WHEREAS, on December 1, 1942, under Vol. II, the Board amended resolution under section 7c to permit parking of not more than 25 cars; and

WHEREAS, the applicant requested reopening of this application and amendment of the resolution; and

WHEREAS, this application was reopened as Vol. III on February 8, 1955 and set for hearing on March 29, 1955 at 10 A. M., subject to regular procedure, waiving all requirements except a new decision of the borough superintendent and two publications in the Bulletin, new statement, new photographs and new plans; and

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the decision of the borough superintendent, dated March 10, 1955 acting on Misc. Applic. 1312-54, reads:

"1. Proposed relocation of pumps and tanks is contrary to requirements of Resolution of the Board of Standards and Appeals, Cal. No. 708-38-BZ, as amended December 1, 1942, which resolution stipulates in part that 'No gasoline pump or any of the foundation for pumps shall be nearer than 21 feet to the building line of Horace Harding Boulevard.'

2. The omission of required planting or landscaping is contrary to the Resolution of the Board."

and

WHEREAS, the applicant states that the City of New York has acquired by condemnation a portion of this station 40 ft. wide on the entire frontage of Horace Harding boulevard; that four 1000-gallon gasoline tanks, six pumps and the land-

scaping all located on this 40 ft. wide portion have already been removed by the city contractor in the process of widening Horace Harding boulevard; that it is proposed to relocate the four 1000-gallon gas tanks to a new location inside of the new building line and to relocate three of the pumps to a position on the east end of the property 10 ft. inside of the new building line; that it is also proposed to omit the landscaping along the Horace Harding boulevard side because the present service station building is now only approximately 8 ft. from the new building line; that the rest of the station will not be changed, including the building, pumps and tanks located on the Queens boulevard side, and the parking area not affected by the widening of Horace Harding boulevard.

Resolved, that the Board of Standards and Appeals does hereby amend the resolution adopted on November 15, 1938, as amended by approval of plans on December 20, 1938, and thereafter amended March 21, 1939 through December 1, 1942, only so far as it has reference to the proposed size of the plot and rearrangement as made necessary by the proposed widening of Horace Harding Boulevard, and by adding thereto:

"that a portion of the premises along Horace Harding Boulevard may be omitted and pumps may be relocated substantially as now proposed and as indicated on plans filed with this application marked, 'Receive, March 11, 1955' (2 sheets) on condition that in all other respects the requirements of the resolution above cited shall be complied with; that the pumps, as relocated, shall be of a low approved type and erected not nearer than the distance as indicated on such plans above cited; that all permits shall be obtained and work completed within the requirements of Section 22A of the Zoning Resolution; that the number of gasoline storage tanks shall not exceed the amount as previously permitted; that all other requirements, including planting where not affected by this amended resolution as to reduction of the area of the premises, shall be complied with as provided in resolutions above cited".

178-41-BZ—Vol. II

APPLICANT—Gustave Goldman, for Joseph Samet, owner.

SUBJECT—Application April 1, 1954 (decision of the borough superintendent), under sections 7f and 7i of the zoning resolution, to permit in a retail use district the erection and maintenance of a gasoline service station, lubricatorium, car washing and office (previously denied by the Board).

PREMISES AFFECTED—8-16 Reid avenue and 1097-1101 DeKalb avenue, northwest corner, Block 1599, Lots 39 and 40, Borough of Brooklyn.

APPEARANCES—

For Applicant: Gustave Goldman.

For Opposition: Hyman Thumen, Henry Lasky, T. Fabrizio.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was reopened as Vol. II on May 11, 1954 subject to regular procedure, to consider rehearing; and

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection and decision, without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and DeKalb avenue are in a retail use, C area, class 1 height district; Reid avenue is in retail and business use, C area, class 1 height districts; and

MINUTES

WHEREAS, the decision of the borough superintendent, dated March 31, 1954 acting on N.B. Applic. 1399-53 and superseded by N.B. Applic. 1399-53 dated January 24, 1955, reads:

"1. The proposed construction of a gasoline service station with lubrication, car wash, motor vehicle repairs and sale of new and used cars in a retail use district is contrary to the Zoning Res. Art. II Sect. 4-A."

and

WHEREAS, the applicant states that the premises consist of a plot, 118 ft. 7 in. and 75 ft. frontage by 100 ft. in depth, irregular, on which are stores, a parking lot and a frame shed; that it is proposed to demolish all buildings and erect a gasoline service station; and

WHEREAS, the applicant contends that the owner has been in possession of the subject property for the past eight years, during which time he has tried to use it for various types of business; that at no time did he receive sufficient income to pay for the upkeep of the premises; that in 1948 certificate of occupancy No. 121791 was issued for a parking lot and stores and has been used as such ever since and occupied about 15% to 20%; that during this period there have been many requests on the parking lot for washing, greasing and small hand tool work on cars; that the stores on the property are in a frame building which is very much run down and have never been fully occupied for any length of time; that the neighborhood has changed and is now in a poor and run-down condition; that there is no use for additional retail stores; that within the past two years the Board has granted permission for the sale of gasoline and minor auto repairs to the garage across the street, on Reid avenue; and

WHEREAS, the applicant states that the present owner has held title to the property since February 19, 1947; that the assessed valuation of land is \$20,000 and of the building \$1,200 making a total of \$21,200; that the building was erected prior to 1900; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions f and i of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten (10) years, to permit the premises to be occupied substantially as proposed as a gasoline service station, as indicated on plans filed with this application, marked "Received April 1, 1954" (6 sheets), *on condition* that all uses and buildings on the premises shall be removed and the premises leveled substantially to the grade of adjoining streets and constructed and arranged as indicated on plans above cited; that pumps shall be of a low approved type and erected not nearer than 15 feet to the street building lines; that curb cuts shall consist of two to Reid avenue, each 30 feet in width and two to DeKalb avenue, each 25 feet in width; that no portion of any curb cut shall be nearer than 5 feet to any lot line as prolonged; that the accessory building shall be of the design and arrangement proposed and shall comply with the requirements of the Building Code therefor; that there shall be no cellar under the building; that the front and sides shall be faced with face brick; that the balance of the premises shall be paved with concrete or asphaltic paving, including the portion at the rear part of the plot; that such portable fire-fighting appliances shall be installed as the fire commissioner shall direct; that on the interior lot lines where walls of adjoining buildings do not occur there shall be constructed and maintained a woven wire fence of the chain link type erected on a masonry base to a total height of not less than 5 ft. 6 inches; that planting areas shall be maintained along the northerly and westerly lot lines where shown, planted with suitable material and protected by concrete curbing not less than 6 inches in height and 6 inches in width; that the sidewalks and curbing around the premises shall be constructed or repaired to the satisfaction of the borough president; that signs shall be restricted to a perma-

nent sign attached to the facade of the accessory building and on the illuminated globes of the pumps, excluding all temporary signs and roof signs, but permitting the erection of one post standard within the intersection for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend over the building line for a distance of not more than 4 feet; that at such intersection there shall be maintained a block of concrete not less than 12 inches in height, extending for a distance of not less than 5 feet along the building lines in each direction; and that under section 7i there may be minor repairing maintained within the accessory building done with hand tools only for adjustments; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

319-54-BZ

APPLICANT—H. G. Savran, for Marguerite Blake, owner.
SUBJECT—Application April 20, 1954 (decision of the borough superintendent), under sections 7c, 7e and 19A(j) of the zoning resolution, to permit in a residence use district the change in occupancy on first floor, from dwelling to undertaking establishment, without the required loading platform.

PREMISES AFFECTED—10 St. Nicholas place, northeast corner of West 150th street, Block 2054, Lot 44, Borough of Manhattan.

APPEARANCES—

For Applicant: Harry G. Savran and Marguerite Marshall Blake.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection and decision, without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, St. Nicholas avenue and West 150th street are in a residence use, B arca, class 1½ height district; and

WHEREAS, the decision of the borough superintendent, dated April 8, 1954 acting on Alt. Applic. 541-54 and superseded by Alt. Applic. 541-54 dated November 30, 1954, reads:

"1. Undertaking establishment in a Residence Use District is contrary to Article II Section 3 of the Zoning Resolution.

2. Off street loading berth required in accordance with Section 19A of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 62.5 ft. frontage by 100 ft. in depth, on which is located a basement and 2½ story masonry structure 48 ft. by 55 ft.; and

WHEREAS, the applicant further states that the building was constructed as a dwelling in 1888; that the arca is zoned as residential and the surrounding areas are classified as business with numerous business establishments and stores; that directly across the street, west of the site, is a gas station; and

WHEREAS, the applicant contends that the present owner purchased the subject property more than two years ago and has noted that the trend of the neighborhood would lend itself to a mortician establishment, and the house itself is built with a stone exterior, towers, eaves, spacious porches

MINUTES

and large high rooms, favoring such proposed use; that since the owner, who resides there, is maintaining a house of large proportions and with room layout so arranged that it precludes the profitable conversion to a conforming use and since the owner is a registered mortician in her own right, it is her desire to convert only the 1st floor to a funeral parlor and continue use of the other floors as a dwelling; and

WHEREAS, the applicant states that the present owner has held title to the property since April 6, 1952; that the assessed valuation of land is \$34,000 and of the building \$31,000 making a total of \$65,000; that the building was erected 1890; and

WHEREAS, the premises and surrounding area were inspected by a committee of the record; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7 c for a term of ten (10) years, to permit the existing building on the premises to be used as proposed as an undertaking establishment and funeral parlor, as proposed and indicated on plans filed with this application, marked "Received April 20, 1954" (8 sheets) and "June 4, 1954" (1 sheet), *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall not be increased in height or area; that the use herein permitted shall not extend above the first floor; that the balance of the building shall be used as proposed for residence purposes for the manager in charge of the premises; and that under Section 19A, subdivision j, the loading berth may be omitted; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

413-54-BZ

APPLICANT—Leonard F. Rothkrug, for Philip Kaplan, owner.

SUBJECT—Application May 25, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district the maintenance of existing signs on front of building.

PREMISES AFFECTED—139 Schenectady avenue and 1120-1130 St. Marks avenue, southeast corner, Block 1360, Lot 14, Borough of Brooklyn.

APPEARANCES—

For Applicant—Leonard F. Rothkrug and Philip Kaplan.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Schenectady avenue and St. Marks avenue are in a residence use, C area, class 1 height district; and

WHEREAS, the decisions of the borough superintendent dated April 27, 1954 and May 24, 1954 acting on E.S. Applies. 495-52 and 496-52, reads:

"1. Proposed electric sign on the front of a bldg. located in a residence use district, violates Art. 2 Sect. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 23 ft. 3½ in. frontage by 90 ft. in depth, on which is located a building covering entire lot, three stories, 55 ft. in height, of class 3 construction, used as a drug store, two families and public garage for four cars; that it is proposed to permit the existing signs to remain; and

WHEREAS, the applicant further states that prior to November 4, 1940 the premises were in a business use district and on that date it was changed to the present designation; that the premises consist of a plot 23 ft. front on Schenectady avenue by 90 ft. in depth fronting on St. Marks avenue, on which is presently erected a three story building, 32 ft. in height, erected prior to 1912 under Alt. Applic. 3702-12, of class 3 construction, used and occupied since that date as a retail store on the 1st floor and dwellings for one family on each of the two upper floors; that a one story extension fronting on St. Marks avenue was erected in 1922 under Alt. Applic. 5296-19 and certificate of occupancy No. 2793-A was issued, which changed the occupancy of part of the store portion to public garage for four cars; that the present owner first entered into possession of the premises under a lease on October 15, 1926 and has occupied the 1st floor as a drug store for 28 years, and on April 29, 1947 the owner purchased the building; that it is proposed to continue the uses permitted and the owner proposes to continue to occupy the 1st floor as a retail drug store; and

WHEREAS, the applicant states that zoning violation No. 194-52 dated October 7, 1952 is for sign display to display two illuminated signs 2 ft. 6 in. by 19 ft. wording prescriptions and 2 ft. 6 in. by 10 ft. wording drugs-cosmetics; that no summons has been issued against the owner; and

WHEREAS, the applicant contends that the earliest record in the department of housing and buildings showing an illuminated sign at this location was on December 3, 1926 when a right angle illuminated sign was approved under I.S. 15741; Electric Sign Appl. 11065, dated October 8, 1936 approved a right angle sign 3 ft. 10 in. by 6 ft. and that permit was renewed every year until 1953; that in the early part of 1952 an automobile crashed into the building causing considerable damage and requiring that a new store front alteration be made; that incidental to the alteration a contract was entered into between the owner and the Higger Sign company for the erection of two neon signs advertising the occupancy of the 1st floor as a drug store; that the Higger Sign company was obligated to secure all permits and approvals; that the sign company filed E.S. 496-52 and although the application was denied because the use district had changed since the original sign was erected, they fraudulently failed to advise the owner of the situation and proceeded to erect the new signs; that the owner at the time of renewal of the former sign permit notified the department that the old sign had been removed and was advised for the first time of the true situation; that had the owner known the facts, he would have continued with the existing sign, which was a legal non-conforming use, but having been defrauded by the sign company he lost the right to have any illuminated sign; that the department of housing and buildings issued a summons against the Higger Sign company and fined them for doing work without a permit; that the owner has conducted his business at this building since 1926 and has continuously had an illuminated sign; that the public nature of the drug store business is such that it must be open in the evenings and it is essential that its location be advertised by illuminated signs; that the illuminated signs which the owner innocently had erected illegally, at considerable cost, are dignified non-flashing signs simply advertising the use as a drug store; and

WHEREAS, the applicant states that the present owner has held title to the property since April 29, 1947; that the assessed valuation of land is \$3,200 and of the building \$10,300 making a total of \$13,500; that the building was erected 1912; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7,

MINUTES

Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of five years, to permit the continuation of the existing illuminated but nonflashing signs, as proposed and as indicated on plans filed with this application, marked "Received May 25, 1954", 2 sheets, such signs being located on both Schenectady and St. Marks avenue; and that all permits required shall be obtained, including a certificate of occupancy and all work completed within six months from the date of this resolution.

640-54-BZ

APPLICANT—Boris W. Dorfman, for 99 Ocean Avenue Corporation, owner.

SUBJECT—Application August 5, 1954 (decision of the borough superintendent), under section 7c of the zoning resolution, to permit in a residence and business use district the addition of catering use to existing dining room on first floor.

PREMISES AFFECTED—89-99 Ocean avenue, northeast corner of Lincoln road, Block 5024, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Boris M. Dorfman.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 11, 1955 after due notice by publication in the Bulletin; laid over to February 1, 1955, for applicant to furnish statement from the Building Department as to public or private use of dining room; then to February 15, 1955, for applicant to submit statement from Department of Housing and Buildings as to whether certificate of occupancy permits present dining room to be used for general public or only for residents; hearing closed; then to March 1, 1955, for applicant to submit a letter from the Borough Superintendent as to whether existing dining room on premises is permitted under the existing certificate of occupancy to be used by non-residents of subject premises; then laid over to March 29, 1955, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in residence and business use, C area, class 1¼ height district; Ocean avenue is in a residence use, C area, class 1¼ height district and Lincoln road is in residence, retail and business use, C area, class 1¼ height districts; and

WHEREAS, the decision of the borough superintendent, dated July 20, 1954 acting on Alt. Applic. 2604-54, reads:

"1. The proposed occupancy on the 1st floor of an existing six story class A Multiple Dwelling located partly within a residence use district and partly within a business use district for use as catering violates Art. II Sec. 3 of Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 101 ft. 1¼ in. frontage by 110 ft. in depth, on which is located a building 101 ft. 1¼ in. front by 100 ft. in depth, irregular, six stories, 65 ft. in height, of class 3 construction, used as a multiple dwelling and dining room, for which certificate of occupancy No. 110251-44 has been filed; that it is proposed to use the present dining room for catering to 110 or less persons; and

WHEREAS, the applicant further states that adjoining this building, on the same block and on the same side of the street, are 16 stores; that abutting the rear yards of apart-

ment houses on Ocean avenue are four subway tracks of the B.M.T. line, both local and express; and

WHEREAS, the applicant contends that this building was erected in 1927; that it has 15 apartments with kitchens on every floor and only one bedroom on each floor; that to emulate fine apartment hotels in Manhattan, it also included a dining room; that the dining room proved to be a failure and in order to survive, it catered for many years to small parties; that the dining room, exclusive of the kitchen and lavatories, consists of one room 34 ft. by 39 ft. and cannot accommodate a party of over 100-110 persons; that when in 1943 the department of housing and buildings ordered that restaurants and other places of public assembly shall secure approval of their use, exits and seating capacity, this dining room, its use, exits and a seating for 154 persons was approved; that catering done on the premises is for small parties, attendance never exceeding 110 persons; that no alcoholic beverages of any kind are sold on the premises; that its appearance is modest and its activities are decorous, never extending beyond 1:00 A.M.; and

WHEREAS, the applicant states that the present owner has held title to the property since January 11, 1927; that the assessed valuation of land is \$50,000 and of the building \$200,000, making a total of \$250,000; that the building was erected 1927; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board, and it was found that the occupancy as proposed has been on the premises for some time; and

WHEREAS, the records indicate that the dining room on the first floor was limited by law to use by tenants only; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c, to permit the existing private restaurant on the first floor to be used as a public restaurant and also for catering to parties on the premises only; and that there shall be no alcoholic beverages served on the premises; that in all other respects the occupancy shall comply with all laws applicable thereto; that all permits, including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

669-54-BZ

APPLICANT—Joseph A. McNamara, for Charles and John Deliberto, owners.

SUBJECT—Application July 27, 1954 (decision of the borough superintendent), under sections 7f and 7i of the zoning resolution, to permit in a business use district, the erection and maintenance of a gasoline service station, lubricatorium, car washing, brake service and office.

PREMISES AFFECTED—1105 60th street, northeast corner of 11th avenue, Block 5710, Lots 67 to 71 inclusive, Borough of Brooklyn.

APPEARANCES—

For Applicant: J. A. McNamara.

For Opposition: Arthur Argiriou and Rocco Rago.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and Deputy Chief Connolly 3
Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection and decision, without further argument; hearing closed; and

MINUTES

WHEREAS, the district maps accompanying the zoning resolution show that the site, 60th street and 11th avenue are in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated June 30, 1954 acting on N. B. Applic. 29-54, reads:

"3. Proposed premises to be used for gasoline service station, lubritorium, office, toilets and utility rooms, car washing and brake service in a 'Business use' zone is contrary to Article II, P. 4a, subsections 29 & 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 120 ft. frontage by 100 ft. 2 in. in depth, on which is located a frame residence to be demolished; that it is proposed to erect and maintain a gasoline service station, with an accessory building 100 ft. front by 26 ft. 8 in. in depth, one story in height, of class 3 construction; and

WHEREAS, the applicant contends that the only structure on the premises is a small two story frame building at the southeasterly corner of the plot which has been treated with an external covering to resemble brick; that this building is rented for residential purposes to one family at \$75 per month and it is submitted that on the basis of an assessed value of \$15,700, this is a wholly inadequate improvement in a business area; that at the same time current construction costs preclude the erection of a modern business building if there was any demand therefor, which there is not; that present conditions in the vicinity constitute a use of old buildings for a chicken market, automobile repair shops, sewing of clothing, machine and by hand, etc.; that 60th street, running east and west, is a broad artery connecting the Bay Ridge and Flatbush sections of Brooklyn; that due to heavy automobile traffic, the construction of a service station would constitute an adequate improvement and inspection of the neighborhood would clearly show that the contemplated development would definitely improve the appearance of the neighborhood; and

WHEREAS, the applicant states that the present owner has held title to the property since January 20, 1949; that the assessed valuation of land is \$11,700 and of the building \$4,000 making a total of \$15,700; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten (10) years, to permit the premises to be occupied as proposed as a gasoline service station, as indicated on plans filed with this application, marked "Received July 27, 1954" (4 sheets), *on condition* that complete working drawings shall be submitted to the Board within two months from the date of this resolution for consideration and imposition of conditions before same are submitted to the borough superintendent and after such approval, all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

691-54-BZ

APPLICANT—Kitzler and Nurick, for George Hyman, owner.

SUBJECT—Application September 9, 1954 (decision of the borough superintendent), under Section 7h of the zoning resolution, to permit in the residence portion of a plot located in a residence and business use district, the extension to accessory parking for patrons of the restaurant grill.

PREMISES AFFECTED—1870-1872 East 49th street, west side, 160 ft. north of Fillmore avenue, 2259-2271 Flatbush avenue, east side, 150 ft. north of Fillmore

avenue and 1857-1859 East 48th street, Block 8488, Lots 8 and 63, Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry J. Nurick.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, East 48th street and Fillmore avenue are in residence and business use, D area, class 1 height districts; East 49th street is in residence, business and unrestricted use, D area, class 1 height districts; Flatbush avenue is in a business use, D area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated August 25, 1954 acting on Alt. Applic. 3182-54, reads:

"1. The extension of the premises into a residence use district for additional parking space to an existing parking area for cars of the patrons of the restaurant grill on the same plot with exit to E. 49th Street in the residence use district and with curb cut on E. 49th St. is contrary to the Zoning Res. Art. II Sect. 3."

and

WHEREAS, the applicant states that the premises consist of a plot, 161 ft. 1 in. and 40 ft. frontage by 100 ft. and 61 ft. 8 in. in depth, irregular, on which is located, on Lot No. 8, a drive-in restaurant 48 ft. 4 in. by 20 ft. 8 in., one story, 11 ft. in height, of class 3 construction, with vacant portion used for accessory parking, for which certificate of occupancy No. 133285-52 has been issued; that it is proposed to permit the parking to extend into lot No. 63 located in the residence portion of plot; and

WHEREAS, the applicant contends that the premises involved is lot 63 with a frontage of 40 ft. on East 49 street and a depth of 32 ft. 11½ in. and 61 ft. 8 in., irregular, in a residence use district; that the premises adjoins an existing drive-in restaurant grill which has a frontage on Flatbush avenue and on East 48th street, established under N.B. No. 499-54, and is developed with a one story restaurant building and necessary accessories, and parking for patrons; that the premises are graded and surfaced with broken stone and is enclosed with a wire fence on all sides; that it has parking facilities and two driveways, one on Flatbush avenue and one on East 48th street, and is totally in a business use district; that adjoining lot No. 63 to the south, on East 49th street, is a gas station extending to Fillmore avenue; that to the north is vacant land and further north there are dwellings and vacant lots; that on the east side of East 49th street, opposite lot No. 63, for the entire block from Fillmore avenue to Avenue O is a city bus garage, having two driveways on this street; that Flatbush avenue is a heavy automobile traffic thoroughfare and it is difficult and dangerous to drive off the existing premises; that Flatbush and Fillmore avenues do not intersect; that Fillmore avenue to the west of Flatbush avenue meets Flatbush avenue opposite the driveway of the subject premises, and the easterly portion of Fillmore and Flatbush avenues meet at the intersection of East 49th street; that there are two traffic lights, one at the southwest corner of Flatbush avenue and Fillmore avenue and the other on the east side of Flatbush avenue, at the driveway, directly opposite the north side of Fillmore avenue; that there is also a bus stop covering the driveway; that these conditions create confusion when driving off the premises at the Flatbush avenue driveway; that this lot is too small for any other development and it is furthermore imperative that this lot be used as a driveway because of

MINUTES

the danger involved to traffic in driving off on Flatbush avenue; that it is much safer to get off the premises through East 49th street as there is very little traffic and it is a two way street; and

WHEREAS, the applicant states that the present owner has held title to lot No. 8 since May 1, 1952 and to lot No. 63 since June 2, 1954; that the assessed valuation of land is \$13,700 and of the building \$7,500 making a total of \$21,200; that the building was erected in 1952; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions h and c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years, to permit the additional use of lot 63, as proposed and as indicated on plans filed with this application, marked "Received September 9, 1954" (3 sheets) to be occupied for the parking and storing of cars, but mainly as an exit for the existing parking on lot 8, which was permitted by the borough superintendent; and to permit under section 7c the extension of area of that portion of lot 8 within the residential district for parking purposes; that along the lot lines of lot 63 there shall be erected a woven wire fence of the chain link type, not less than 5 ft. 6 in. in height and a similar fence erected along the street building line of East 49th street, except for an entrance which shall not exceed 12 feet, with curb cut opposite of similar width; that lot 63 shall be leveled substantially to the grade of East 49th street and surfaced with steam cinders or clean gravel, treated with a binder and properly rolled; that no additional signs shall be erected other than those previously permitted for lot 8, except there may be a sign marked "Exit only" at the East 49th street opening; and that all permits required, including a certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

779-54-BZ

APPLICANT—Jack Z. Cohen, for Richard Stritch and Abraham L. Jaffe, owners.

SUBJECT—Application October 14, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution to permit in a residence use district the erection and maintenance of a gasoline service station, lubritorium, auto laundry, motor vehicle repairs and office; and to permit the parking of motor vehicles.

PREMISES AFFECTED—10202-10224 Flatlands avenue, 901-911 East 102nd street and 902-912 East 103rd street, southeast corner and southwest corner, Block 8210, Lot 37, Borough of Brooklyn.

APPEARANCES—

For Applicant: Jack Z. Cohen.

For Opposition: L. Sutschek and William P. Ludwig.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Commissioners Kleinert and Keating and Deputy Chief Connolly 3

Negative: Chairman Murdock 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, D area, class 1 height district; Flatlands avenue, East 102nd street and East 103rd street are in residence and retail use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 11, 1954 acting on N.B. Appl c. 503-54, reads:

"1. Gasoline service station, office, lubritorium, auto repair shop, auto laundry and auto parking for more than 5 motor vehicles in a residential use district is contrary to Art. II Sect. 3 of Zone Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 200 ft. frontage by 100 ft. in depth, presently vacant; that it is proposed to erect a building 100 ft. front by 30 ft. in depth, one story, 14 ft. in height, of class 3 construction to be used in conjunction with the proposed gas station, as office, lubritorium, auto repair shop, auto laundry and parking for motor vehicles; that it is further proposed to install ten 550 gallon gasoline tanks and to install three curb cuts on Flatlands avenue and one curb cut on East 102nd street and one on East 103rd street; and

WHEREAS, the applicant contends that this property has a natural depression approximately six or seven feet below the existing street grade of Flatlands avenue and it will be necessary to fill in the entire plot on all streets in order to bring it up to present grade level; that all construction of building foundations and all necessary retaining walls will comply fully with the requirements of the building code in all respects; that Flatlands avenue, which extends east and west, bears heavy traffic of passenger and truck type vehicles at all times, as well as additional traffic now created by the immediate neighborhood due to the completed housing project to the east of this property, and this requires additional service facilities in this area; that the property abutting this site at the south and to the west for several streets are vacant and a good portion of the land is marsh and undeveloped; that the use zone of this property was changed from undetermined to residence on August 14, 1943; that the height district was changed from 1½ to 1 and the area zone was changed from A to D, both on April 26, 1951; that the owners of this site own all of the entire block fronts of blocks 8189, 8190, 8208, 8209 and a good portion of land behind the proposed gas station site in block 8210; that the proposed station on this side of the street will be the only one in this vicinity as the nearest gas station is about six blocks in each direction, east and west from the proposed site, and the erection of the proposed gas station will be a definite improvement; that the granting of this application would not alter the essential character of the neighborhood nor adversely affect it; and

WHEREAS, the applicant states that the present owner has held title to the property since February 20, 1950 and that the assessed valuation of land is \$8,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision e of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7e for a term of ten years, to permit the premises to be occupied as a gasoline service station, substantially as proposed and as indicated on plans filed with this application, marked "Received October 14, 1954", 3 sheets, *on condition* that complete working drawings shall be submitted to the Board within two months from the date of this resolution for further consideration and imposition of conditions before same are filed with the borough superintendent; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

814-54-BZ

APPLICANT—Leonard Lazarus, for Lindenwood Realty Corp., owner.

SUBJECT—Application October 27, 1954 (decision of the borough superintendent), under sections 21 and 7h of the

MINUTES

zoning resolution, to permit in a residence use, F area district, more than one building on a lot by the erection of a two story garden apartment development not in conformity with the area district requirements of the zoning resolution as to side and rear yards and with parking and garage spaces as calculated for the development as a unit instead of individual buildings affecting premises, and with the required open spaces; and to permit the calculation of height of building based on grade within the plot.

PREMISES AFFECTED—152-02 to 152-04 Cross Bay boulevard, 150-17 to 150-39 89th street; 89-25 to 89-49 151st avenue and 90-01 to 92-03 153rd avenue, Block 11421, Lot 13, Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Leonard Lazarus.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 1, 1955, for applicant to file revised plans, hearing closed; no further argument; then laid over from March 1, 1955, to March 22, 1955, for inspection and for information from the applicant as to approved grades of streets and sewers; then to March 29, 1955, for decision by the Board; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Cross Bay boulevard, 89th street, 151st avenue and 153rd avenue are in a residence use, F area, class 3/4 height district; and

WHEREAS, objections 1M and 2M of the decision of the borough superintendent, dated October 21, 1954 acting on N.B. Applies. 2974 to 2982, inclusive, reads:

"1M. The erection of more than one building on a lot is contrary to Article 1, Sec. 1 (v), Zoning Resolution.

2M. Sideyard 15'0" in width not adequate as per Article IV, Sec. 16(b), Zoning Resolution."

and

WHEREAS, objections 3M and 4M issued by the borough superintendent October 21, 1954 on N.B. Applies. 2974 to 2976 of 1954 and 2978 to 2982 of 1954, read:

"3M. Parking areas located in required open spaces contrary to provisions of Article IV, Sec. 19-B, Zoning Resolution.

4M. Elected grade for measuring the height of the building does not agree with contours on topographical survey. Sec. 4, subdiv. 33, Multiple Dwelling Law and Article I, Sec. 1(f), Zoning Resolution."

and

WHEREAS, objection 3M issued by the borough superintendent October 21, 1954 on N.B. Applic. 2977-54 and objection 5M issued by the borough superintendent October 21, 1954 on N.B. Applies. 2974, 2976, 2980 and 2981 of 1954, read:

"Parking areas provided have capacity in excess of one per family which is contrary to provisions of Article II, Sec. 3(9)(b), Zoning Res. and Sec. 60 Subdiv. 2.a., Multiple Dwelling Law."

and

WHEREAS, objection 5M issued by the borough superintendent October 21, 1954 on N.B. Applic. 2975-54, reads:

"5M. Proposed buildings do not all front on a legal mapped street—contrary to provisions of Article I, Sec. 1 (v), Zoning Resolution."

and

WHEREAS, objection 5M issued by the borough superintendent October 21, 1954 on N.B. Applies. 2977 and 2979 of 1954 and objection 6M issued by the borough superintendent

October 21, 1954 on N.B. Applies. 2976, 2980 and 2981 of 1954, reads:

"Proposed buildings do not all front on a legal mapped street—contrary to provisions of Article I, Sec. 1 (v), Zoning Resolution and Article 3, Sec. 36, General City Law."

and

WHEREAS, objection 6M issued by the borough superintendent October 21, 1954 on N.B. Applic. 2979-54, reads:

"Depth of rear yard not adequate as per Article IV, Sec. 16(a), Zoning Resolution."

and

WHEREAS, objection 8M issued by the borough superintendent October 21, 1954 on N.B. Applies. 2980 and 2981 of 1954, reads:

"8M. Garage roof shall be designed for live load of 60# sq. ft., garage roof shall be not more than 6'0" above curb level; roof shall have a durable, dustless finish and be accessible for tenants use; provide 3'0" wide stair to roof and 3'6" parapet or guard-rail at roof. Sec. 19-B, Zoning Resolution and Dept. Rules & Regulations effective 2/1/51."

and

WHEREAS, the applicant states that the premises consist of a plot, 1141.11 ft. frontage by 287.30 ft. and 108.63 ft. in depth, irregular, presently vacant; and

WHEREAS, the applicant contends that this appeal involves a two-story garden type apartment project, non-subsidized, to be situated at the intersection of 153rd avenue, Cross Bay boulevard and Sunrise highway, consisting of nine building units; that it is designed to accommodate 132 families and is covered in its entirety by block 11421, lot 13; that in general the buildings comprising this development, which are of class 3 construction, comply with regulations, except insofar as several technical objections are concerned; that as to Item 1M, N.B. Applies. 2974-2982 inclusive, each lot contains only one single building, to be constructed of solid masonry and to be occupied as a multiple dwelling; that there is an unpierced party wall separating each part of each building in such manner that each group of four family units will have a separate entrance; that these four family unit groupings are separated from each other by an unpierced party wall on both 1st and 2nd floors; that the basement areas also are not connected by passageways; that each building has a central heating unit, a single sewer outlet and the water, gas and electricity services are supplied to the building as an entity; that as to Item 2M, side yards of adequate width have been provided and where such condition was otherwise unattainable, adequate light and air was nevertheless provided for all dwelling units in harmony with good zoning practice; that as to Item 3M, considerably more car storage space has been provided than the law requires—125 car spaces for 132 families—in order to insure the use of streets for normal vehicular traffic and fire fighting purposes; that the use of some of the required open space for car storage was thereby necessitated, not, however, at the sacrifice of adequate light and air conditions required for dwelling units; that this objection arises from the interpretation of the building department that the required open space is to be measured from the rear lot line; that if the garage buildings were situated closer to the dwelling units, this objection would not have been raised; that the proposed layout is superior with respect to the future occupants without any detriment to any neighboring property owner, and strict compliance with the zoning resolution would constitute an unnecessary hardship; that as to Item 4M, the curb level herein has been properly selected in accordance with the terms of the multiple dwelling law and the zoning regulation has been complied with; that as to Item 5M, N.B. 2974, 2976, 2980 and 2981 and Item 3M, N.B. 2977, the plans indicate a total of 125 car spaces for 132 families in the entire development, irrespective of the number of such spaces or families in each building unit thereof; that the project is a single development, the units of which together with their accessories and utilities, are used conjunctively; that the owner has filed

MINUTES

with the building department the required affidavit that the buildings will be held in one ownership; that as to Item 5M, N.B. 2975, 2977, 2979 and Item 6M, N.B. 2976, 2980, 2981, each lot has frontage on a legally mapped street; that taking each structure as a separate building, each building fronts on a legally mapped street; that because of the separate entrances for each group of 4 dwelling units, the building department apparently felt it necessary to raise this objection, which has technical validity only if each such group were considered as a separate building; that where this does occur, permanent private walks and roadways are provided, extending from fronts of buildings to the streets; that as to Item 6M, N.B. 2979, an adequate rear yard has been provided and proper layout of the building on this and adjacent lots was made to insure adequate light, air and ventilation for all living spaces; that as to Item 8M, N.B. 2980-81, the applicant states that this objection has been made because the garage building is within the required open spaces; that if the garage buildings were moved closer to the main building, in order to eliminate this objection, a less desirable result would be obtained for the occupants and no benefit would accrue to any neighboring properties; that proper planning and layout dictate this arrangement and technical compliance with the zoning resolution would constitute unnecessary hardship; that in any event, adequate play spaces have been provided for the project thereby rendering it unnecessary to utilize garage roof spaces for such purpose; that tenants refuse to permit their children to play on such roofs because it is hazardous and compliance with this objection would create a hazard without any advantage to the tenants; and

WHEREAS, the applicant states that the present owner has held title to the property for approximately one year— assembled from November 1953 to August 1954; and

WHEREAS, the premises and area were inspected by a committee of the Board; and

WHEREAS, the Board finds that the proposed development is designed and arranged to meet the spirit and intent of the Zoning Resolution and in many respects provides greater light, air and other facilities required for a housing development, including low coverage of approximately 21% of the gross area involved and has been approved by the Federal Housing Administration as proposed section 1, under section 213 of the National Housing Act as amended; and

WHEREAS, the Board finds that there is sufficient basis for unnecessary hardship, warranting a grant of variance under Sections 21 and 19B of the zoning resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21, as to Objection 1M on N.B. Applications 2974 to 2982 of October 21, 1954, inclusive, *on condition* that all buildings shall be under single ownership and each multiple dwelling shall be on its own zoning lot as indicated on sheet indicating such zoning lot comprised in drawings filed with this application, marked "Received October 27, 1954", 23 sheets, and "January 6, 1955", one sheet; and *granted* as to Objection 2M of N.B. Applications 2974 to 2982 of October 21, 1954, *on condition* that sideyards shall be not less in width than required under the Multiple Dwelling Law and that in addition, open spaces as shown on plans as above cited shall be maintained; and as to Objection 3M of N.B. Applications 2974 to 2976/54 and 2978 to 2982/54, *granted* under Section 19B, subdivision d, to permit the location and number of parking spaces as proposed and as shown on such plans above cited, *on condition* that driveways giving access thereto shall be maintained so as to alleviate traffic congestion and such parking spaces shall be graded and surfaced with suitable pavement and driveways thereto paved as required by the Code; as to Objection 4M of N.B. Application 2974/6 of 1954 and 2978 to 2982 of 1954, *granted* under Section 21, to permit each multiple dwelling on each zoning lot to be located as to established street grade in front of such zoning lot as established on City Map #3733 adopted by the Board of Estimate on May 27, 1954, and meeting the requirements relating to such zoning lot as provided under the Multiple

Dwelling Law, Section 4, subsection 33, paragraph 2 and under the Zoning Resolution Article I, Section 1, subsection f; and as to Objection 3M of N.B. Application 2977/54 and 5M on N.B. Applications 2974, 2976, 2980 and 2981, *granted* under section 21, *on condition* that the total capacity of parking spaces in the proposed parking areas for the entire project under single ownership and control shall meet the number of such spaces as required and may exceed such required number of parking spaces but not exceed the total number of apartments, as provided in Article II, Section 3, subsection 9b of the Zoning Resolution or Section 60, subdivision 2a of the Multiple Dwelling Law; and as to Objection 5M of N.B. Applications 2975, 2977 and 2979 of 1954 and 6M of N.B. Applications 2976, 2980 and 2981 of 1954, *granted on condition* that the provisions of the resolution as adopted this day under Cal. No. 815-54-A shall be complied with; as to Objection 6M of N.B. 2979 of 1954, *granted* under section 21, *on condition* that open spaces at rear and side of multiple dwellings shall be maintained open as proposed and shown on plans above cited; as to Objection 8M of N.B. 2980 and 2981 of 1954, *granted* under section 19B, subdivision d, *on condition* that the buildings in all other respects shall comply with the requirements therefor and that open recreation spaces as shown on plans above cited shall be maintained; and that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

815-54-A

APPLICANT—Leonard Lazarus, for Lindenwood Realty Corp., owner.

SUBJECT—Application October 27, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 33, subdivision 4 of the Multiple Dwelling Law re height and required open spaces also under section 36, General City Law re buildings not fronting on legal streets.

PREMISES AFFECTED—152-02 to 152-04 Cross Bay boulevard, 150-17 to 150-39 89th street, 89-25 to 89-49 151st avenue and 90-01 to 92-03 153rd avenue, Block 11421, Lot 13, Ozone Park, Borough of Queens.

APPEARANCES—

For Applicant: Leonard Lazarus.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, Objection 4M issued by the Borough Superintendent October 21, 1954, on N.B. 2974, 2975, 2976, 2978, 2979, 2980, 2981 and 2982 of 1954, reads:

"Elected grade for measuring the height of the building does not agree with contours on topographical survey. Sec. 4, subdiv. 33 Multiple Dwelling Law and Article 1, Sec. 1(f) Zoning Resolution."

and

WHEREAS, Objection 5M issued by the Borough Superintendent October 21, 1954, on N.B. App. 2974, 2976, 2980 and 2981 reads:

"Proposed buildings do not all front on a legal mapped street—contrary to provisions of Article 1, Sec. 1(v), Zoning Resolution and Article 3, Sec. 36, General City Law."

and

WHEREAS, Objection 7M issued by the Borough Superintendent October 21, 1954, on N.B. 2980 and 2981 of 1954 reads:

"Application and plot plan indicate garbage storage building on lot. File plan for this structure Sec. 300 M.D.L."

MINUTES

and

WHEREAS, the applicant states that the premises consist of acreage located in a residence use, F area, Class $\frac{3}{4}$ height district, as indicated on plan filed with application for a zoning variance under Cal. 814-54-BZ; and

New Bldg. No.	Area of Bldg.
2974/54	4,273.75 sq. ft.
2975/54	8,302 sq. ft.
2976/54	5,212.78 sq. ft.
2977/54	8,302 sq. ft.
2978/54	5,898.75 sq. ft.
2979/54	6,240 sq. ft.
2980/54	5,535.35 sq. ft.
2981/54	10,409.10 sq. ft.
2982/54	9,780.42 sq. ft.
TOTALS	63,954.15 sq. ft.

and

WHEREAS, the applicant contends that the buildings will generally comply with all laws and regulations applicable thereto insofar as technical objections justifiably raised by the borough superintendent have been made the subject of this appeal; and

WHEREAS, the applicant contends as to 4M of N.B. 2974 through 2982/54, inclusive, that Subdivision 33 of Section 4 of the Multiple Dwelling Law permits the owner to select any legitimate grade within the property for the purpose of measuring the height of the building where the building exclusive of garage spaces occupies 35% or less of the plot area; that the curb level has therefore been properly selected in accordance with the Multiple Dwelling Law and in compliance with the Zoning Resolution; and

WHEREAS, the applicant contends as to Objection 5M of N.B. 2974, 2976, 2980, 2981 of 1954 and as to Objection 3M of 2977/54 that since the occupants of all the multiple dwellings on the same block will be under common ownership and the required affidavit has been filed with the Borough Superintendent, compliance with Section 60, Subdivision 2(a) of the Multiple Dwelling Law has been achieved; that plans indicate a total of 125 car spaces for 132 families in the entire development; that the project is a single development and the units will be used conjunctively as will be the accessories and utilities; and

WHEREAS, the applicant contends as to Objection 7M of N.B. 2980/54 and 2981/54 that plans indicate a space to be used for temporary garbage storage until same is collected by sanitation trucks; that such use is not contrary to the section and is in keeping with sound building management practice; that these two temporary garbage storage units have been planned in a location as far from any dwelling unit as can possibly be achieved in the development; and

WHEREAS, the premises and area were inspected by a committee of the Board in conjunction with Cal. 814-54-BZ; and

WHEREAS, the Board finds that the proposed development is designed and arranged to meet the spirit and intent of the Multiple Dwelling Law and General City Law and in many respects provides greater light, air and other facilities required for a housing development including low coverage of approximately 21% of the gross area involved and has been approved by the Federal Housing Administration as this proposed section 1, under section 213 of the National Housing Act as amended; and

WHEREAS, the Board finds that there is sufficient basis for unnecessary hardship, warranting a grant of variance under Section 310 of the Multiple Dwelling Law; and

WHEREAS, in the opinion of the Board, the grades as elected comply with the spirit and intent of section 4, paragraph 33 of the Multiple Dwelling Law.

Resolved, that the decisions of the Borough Superintendent, acting on N.B. Applications 2974 to 2982/54, inclusive, Objection 4M and Objection 5M of N.B. Applications 2974, 2976, 2980 and 2981/54, be and they hereby are *modified* under the powers vested in the Board by Section 310 of the Multiple Dwelling Law and Section 36 of the General City Law, and that the appeal be and it hereby is *granted on*

WHEREAS, the applicant states proposed buildings will be of Class 3 construction and will comprise a two-story garden type apartment project; and

WHEREAS, the applicant has filed the following information as to dimensions involved:

Area of Lot	Percentage Occupied
21,700 sq. ft.	19% (152-02-04 Cross Bay
26,572 sq. ft.	31% (91-35-91-49 153rd Ave.
31,560 sq. ft.	16% (91-21-91-31 153rd Ave.
25,400 sq. ft.	32% (91-01 to 91-17 153rd Ave.
25,965 sq. ft.	22% (90-01 to 90-11 153rd Ave.
26,000 sq. ft.	24% (89-39 to 89-49 151st Ave.
56,768 sq. ft.	9% (89-25 to 89-35 151st Ave.
46,750 sq. ft.	21% (89-01 to 89-21 151st Ave.
38,400 sq. ft.	25% (150-17 to 150-39 89th St.
299,115 sq. ft.	Aver. 21%

condition that the relation of the buildings to the grades and street lines shall conform to the resolution adopted this day under Cal. No. 814-54-BZ; as to N.B. Applications 2980 and 2981/54, Objection 7M, that garbage storage buildings as shown on plans filed under Cal. No. 814-54-BZ shall be subject to a permit as an accessory building under Section 300 of the Multiple Dwelling Law and constructed to the satisfaction of the Borough Superintendent; that in all other respects the buildings and occupancies shall comply with all laws and rules applicable thereto.

Adjourned: 3:35 P. M.

JOSEPH J. DOYLE, *Chief Clerk*

REGULAR MEETING

TUESDAY AFTERNOON, MARCH 29, 1955, 2 P. M.

Present: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly.

34-51-SA

APPLICANT—Carrier Corporation, owner-manufacturer.
SUBJECT—Carrier 26B5 Automatic Ice Cube Maker, approval of.

APPEARANCES—

For Applicant: W. J. Linderman.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 34-51-SA

Subject: Carrier Corporation Automatic Ice Maker, 26 Series, approval of.

The Carrier Corporation of Syracuse, New York filed an application with the Board of Standards and Appeals for approval of the Carrier 26 Series, Automatic Ice Maker, under the provisions of C19-96 to C19-107 inclusive and Submerged Inlet Rules of the Board.

Purpose

The 26 Series Automatic Ice Maker provides a continuous supply of ice, cubed or crushed, automatically.

Description

These units consist of a machine section for forming ice cubes by mechanical refrigeration and a storage bin of vary-

MINUTES

ing size in which to store the ice. The mechanical section comes in two sizes with ice capacity of 220 and 450 pounds per twenty-four hours.

The freezing coils are soldered to copper bands and attached at different points to each of twenty-six stainless steel freezing tubes. In operation ice builds up on inside wall of tube at these eight separate points to form eight cubes in each tube. When freezing is completed, automatic controls reverse the cycle, releasing the cubes which simply gravity drop into a bin or crusher.

A rotary switch starts the machine; from then on it produces ice automatically. When the storage bin fills with cubes or crushed ice the machine shuts off automatically, starting again whenever some ice is used.

The cabinet panels are bonderized, baked-on gun metal gray or white finish, trimmed with stainless steel and chrome. The unit is equipped with a siphon interchanger which automatically siphons all but a small amount of ice water from the machine during each harvest cycle and stores it in a harvest cycle and stores it in a heat interchanger. This action reduces scaling to a minimum and simplifies the cleaning operation. Fresh make-up water passes through the interchanger and is pre-cooled by the siphoned-off ice water, thereby resulting in negligible capacity-loss from the siphoning operation.

The storage bin is available in three sizes, 100 pounds, 160 pounds and 240 pounds capacity. It has a baked on finish, stainless steel liner, 2 inches of Fiberglass insulation on the sides and 2 inches of cardboard on the bottom. A partition separates cubes and crushed ice.

These units are equipped with hermetic compressors with a capacitor-start, induction-run motor. The compressors used Freon-12 as a refrigerant. The refrigerant charge is 3¾ lbs. The condenser is the water-cooled, shell and finned copper coil type. The refrigerant is controlled by capillary tubes with no moving parts. The water pump has a stainless steel shaft bronze impeller. A thermally protected motor totally enclosed of the shaded pole type is directly connected to the water pump.

The switch has three positions for manual starting and stopping or for operating of the water pump for cleaning purposes. The ice crusher has a cast aluminum rotor, with stainless steel picks and sleeve bearings belt-driven by a 1/16 horsepower drip-proof, thermally protected motor, with adjustable drive-pulley.

Inspection and Test

These models were inspected and tested at the Thompson Road Plant of the Carrier Corporation in Syracuse, New York on November 12, 1952. Present at the test were Chief Engr. L. V. Huber of the Committee on Test; A. H. Moulton, District Service Supervisor; W. J. Linderman, Service Manager, Thermodyne Corporation; and Mr. W. F. Tyson, Carrier National Service Supervisor. Mr. Ferguson and Mr. Conklin of the Carrier Corporation Quality Control Department were also on hand to answer questions.

The inlet for the water supply is 1" above the flood level of the water tank as required by Rule 2 of the Submerged Inlet Rules.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant, the Committee on Test recommends the approval of the Carrier 26 Series, Automatic Ice Maker for use in New York City when installed and operated in accordance with this report and the requirements of the Submerged Inlet Rules of the Board of Standards and Appeals and the provisions of C19-96 to C19-107 Administrative Code on condition that each unit bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 34-51-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF THE COMMITTEE ON TEST

Re: Cal. 518-51-SA

Subject: Carrier Corporation Weathermakers, Models 50K4, 50K6, 50K8, 50K12, 50K16, approval of.

The Carrier Corporation of Syracuse, New York filed May 15, 1951 an application with the Board of Standards and Appeals for approval of the Carrier Weathermaker, Models 50K4, 50K6, 50K8, 50K12, 50K16 under provisions of C19-96 to C19-107 inclusive and Submerged Inlet Rules of the Board.

Purpose

These are water-cooled, electrically operated self-contained air conditioning units.

Description

These compact units include all the elements necessary for cooling, dehumidifying, cleaning, ventilating and circulating air.

Models differ as to dimensions and capacities. Model 50K4 is 41" wide, 22⅞" deep and the base unit is 58" high. When used with a plenum it is 80⅜" high. The unit is equipped with a 3 HP hermetic motor-compressor assembly available in a variety of current characteristics. Nominal cooling capacity is rated at 3 tons.

The 50K6 is the same width and depth as the 50K4, but the base unit is 64" high and with a plenum it is 90⅞" high. This unit has a 5 HP hermetic motor-compressor assembly and is nominally rated at 5 tons cooling capacity.

The 50K12 is 82" wide, 22⅞" deep and the base unit is 64" high. With plenum it is 90⅞" high. This unit is equipped with two of the 5 HP hermetic motor-compressors used on the 50K6 and has a nominal capacity of 10 tons. The two compressors are not interconnected and the refrigeration cycles are completely separate.

The 50K16 is 82" wide, 30" deep and with a plenum it is 107⅜" high. This unit is equipped with two of the 7½ HP hermetic motor-compressor assemblies used in the 50K8 and has a nominal capacity of 15 tons. Similar to the 50K12, both refrigerant circuits are separate.

Model 50K4 capacity is 3 tons refrigeration, 50K6 is 5 tons, 50K8 is 7½ tons, 50K12 is 10 tons, 50K16 is 15 tons, Model 50K4 6 lbs Freon F12, 50K6 12 lbs. Freon F22, 50K8 17 lbs. Freon F22, 50K12 12 lbs. Freon F22, 50K16 17 lbs. Freon F22.

Full cooling capacity is maintained by large area filters permitting rated air flow for longer periods without changing. Condensate is collected above filters so that filters are kept dry at all times eliminating re-evaporation experienced with wet filters. All air outside recirculated, which flows through the cooling coil is filtered. A Carrier multi-reflex muffler eliminates gas discharge pulsations.

There is a high pressure cut-out switch standard with each unit for protection in case of condenser water failure

MINUTES

or other abnormal conditions which may cause a discharge pressure to rise above a predetermined setting. The action of the switch is to stop the compressor.

The large area aerofin type cooling coil is drawn through type of all non-ferrous construction, with seamless tube and fins with the fins helically wound on the tubes and mechanically bonded. The large face area and spiral fins on the coil provide a lower velocity and more intimate contact between air and coil. This results in superior cooling and dehumidifying performance. All joints in the coil are brazed for strength and leak tightness. Drip pan under entire coil section rust protected, easily cleaned; drain protected by screen. Refrigerant flow to the cooling unit is controlled by the Carrier "F-M" (Flo-Modulating) Expansion Valve. This valve prevents "flood back" to the compressor and practically eliminates "cycling" of the suction pressure. This feature gives increased capacity and more reliable operation.

Double inlet centrifugal fans are used and construction is based on an entirely new concept of fan design. A change scroll and a polygonal discharge opening exposes a greater area of the wheel and eliminates the cut-off. More air is handled at a lower RPM and a lower noise level than with a conventional fan. Fan is statically and dynamically balanced for vibrationless operation. Fan shaft mounted in sleeve type self-aligning bearings. Drive is through a V-belt by a motor having overload protection. Motor pulley is adjustable to vary the fan speed, air quantity and air pressure.

Control panel located on the center of the unit just above the inlet air grille is concealed by a finger-lift plastic nameplate. Provides adjustable thermostat to control room temperature and a 3 position manual switch, marked "Off", "Fan", "Cool". Air circulating fan may be operated independently. Controls are illuminated.

A Humitrol is provided with each unit for diverting refrigeration capacity from temperature reduction to moisture removal. Normally manually operated.

A polygonal diffuser supplied with the plenum package makes the "Q-T" fan exceptionally suited for efficient plenum chamber air distribution. The louvers on the plenum grille are adjustable, permitting the flow of air to be directed, within limits, to any desired direction. Side and rear discharge grilles are also available as extras. The standard unit is sold less the plenum; the plenum and grille assembly may be attached to the top of the air conditioning compartment. The single fan together with a flange on the top plate greatly facilitates the use of the unit with duct work, when required in place of plenum. Provision is made for field installation of outside air duct for ventilation but if not used, an outside air cover plate may be obtained. A decorative cover is available for installation on either side of the unit to cover water and drain connections. A heating coil is available for installation in the plenum or duct. The heating coil is so designed that it is suitable for use with steam or hot water. A "Humidry" reheat package is available for using condensation water to obtain maximum dehumidification. A water regulating valve is available for use with city water.

Inspection and Test

These models were inspected and tested at the Carleton-Stuart Corporation equipment show at the Governor Clinton Hotel January 24th and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test; Mr. D. W. Hoppock, District Sales Manager, Carrier Corporation; Mr. A. H. Moulton, District Service Supervisor, Carrier Corporation; Mr. W. J. Linderman, Service Manager, Thermodyne Corporation; Mr. H. L. Hamilton, Service Supervisor, Carleton-Stuart Corporation.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Carrier Corporation Weather Maker, Models 50K4, 50K6, 50K8, 50K12, and 50K16 for use in New York City when installed and operated in accordance with this report and the provisions of C19-96 to C19-107

inclusive of the Administrative Code on condition that each device bear a label permanently affixed reading "Approved by the Board of Standards and Appeals for use in New York City Under Cal. No. 518-51-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 847-51-SA

Subject: Carrier Corporation Weathermakers, Models 38B4, 38B6, 38B8, approval of.

The Carrier Corporation of Syracuse, New York filed December 7, 1951 and application with the Board of Standards and Appeals for approval of the Carrier Weathermaker, Models 38B4, 38B6, 38B8 under provisions of C19-96 to C19-107 inclusive and Submerged Inlet Rules of the Board.

Purpose

These units are designed to provide year round air conditioning. They are equipped with a gas-fired heating section and an electrically operated water-cooled cooling section.

Description

This is a compact, self-contained unit which includes all of the elements for cleaning, cooling and dehumidifying or heating; ventilating and circulating air. Units are available for either 220 volt, 3 phase, 60 cycle, 230 volt, 1 phase, 60 cycle and 208 volt, 3 phase 60 cycle current.

Casing is constructed of cold rolled steel, bonderized, coated inside and out with a highly rust-resisting primer and finished on the exterior with stain, burn and mar-resisting baked enamel.

Front panels are removable. All parts are accessible for inspection, adjustment or service from front. Slide and rear panels may be removed if required.

Entire casing thermally and sound insulated. Air conditioning, heating and refrigeration compartments insulated against heat and sound transmission.

Hermetically sealed compressor is on spring mounted base. Freon compressors, V-type, direct by heavy duty refrigeration type motor. Motor and compressor are sealed in one casing against dirt, moisture and air. Entire assembly can be serviced on the job. Motor is protected from overload by thermal overload elements in the automatic starter and by a temperature controlled thermal element on the compressor.

Water cooled condenser is Shell and coil type using finned continuous copper tubing eliminating all internal joints. Two water connections are necessary for city water or cooling tower service. A rupture of frangible disc which automati-

MINUTES

cally relieves excess pressure is a standard safety device on the condenser. Condenser conforms to A.S.M.E. Unfired Pressure Vessel Code.

Full cooling and heating capacity is sustained by large area filters because they permit rated air flow for longer periods without changing.

High pressure cut-out switch is provided standard with each unit for protection in case of condenser water failure or other abnormal conditions which may cause discharge pressure to rise above a predetermined setting. The action of the switch is to stop the compressor.

Large area aerofin type cooling coil of all non-ferrous construction, with seamless tube and fins with the fins helically wound on the tubes and mechanically banded. The large face area and spiral fins on the coil provide a lower velocity and more intimate contact between air and coil. This results in superior cooling and dehumidifying performance. All joints in the coil are brazed for strength and leak tightness. Drip pan under entire coil section rust protected, easily cleaned, drain protected by screen.

Fan is single slow speed, double inlet centrifugal fan. Fan is dynamically balanced for vibrationless operation. Fan shaft is mounted in self aligning sleeve-type bearings with large oil reservoir capacity for lubrication. Driven by a resilient mounted standard fan motor with built-in overload protection. The entire fan and motor assembly is spring mounted. Drive is through a V-belt with the motor pulley being adjustable for efficient fan performance under a wide range of air quantities, and air pressures, which might be imposed by ductwork.

One thermostat controls the temperature for heating and cooling. A simple change-over switch transfers from summer to winter operation.

Gas Control consists of a brass gas cock with union connection, adjustable pressure regulator, safety pilot with automatic gas shut-off, high heat safety switch, two step gas valve and pilot burner.

Heat interchanger and combustion chamber. Constructed of heavy 16 gauge corrosion-resistant aluminized steel, completely electric welded to provide one piece, leak proof construction. Steel interchanger provides quick response to thermostatic control and eliminates overheating.

Draft diverters are available for top or side flue connections.

Inspection and Test

These models were inspected and tested at the Carleton-Stuart Corporation equipment show at the Governor Clinton Hotel January 24th and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test; Mr. D. W. Hoppock, District Sales Manager, Carrier Corporation; Mr. A. H. Moulton, District Service Supervisor, Carrier Corporation; Mr. W. J. Linderman, Service Manager, Thermodyne Corporation; Mr. H. L. Hamilton, Service Supervisor, Carleton-Stuart Corporation.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Carrier Corporation Weather Makers, Models 38B4, 38B6 and 38B8 for use in New York City when installed and operated in accordance with this report and the provisions of C19-96 to C19-107 inclusive, Administrative Code on condition that each unit bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 847-51-SA." It is further recommended that all installations meet the requirements of C26, Art. 12 Administrative Building Code.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 245-52-SM

Subject: Ferro Pipe & Foundry Company, Inc., Cast Iron Soil Pipe, approval of.

The Ferro Pipe & Foundry Company owner manufacturer filed April 7, 1952, an application with the Board of Standards and Appeals for approval of the Ferro Pipe & Foundry Co. cast iron soil pipe under the provisions of C26-178.0.b and C26-1229.0 Administrative Building Code.

Purpose

An uncoated cast iron soil pipe for drainage use. Sizes 4" to 15" Diameter.

Description

The Ferro Pipe & Foundry Company's plant covers an area of three acres with office and foundry buildings. The Cast Iron Soil Pipe manufactured by the Ferro Pipe & Foundry Company is made of good quality gray iron, cast centrifugally in a heavily insulated metal mold. This process produces a cast iron pipe of close grained structure, having a high tensile strength yet tough and tenacious, which can readily be machined or easily cut in the field with hammer and hardy or chisel. This cast iron pipe has the following characteristics true concentricity and uniformity or wall thickness through the action of centrifugal force, foreign matter and impurities in the molten metal are forced to the outer surface of the Pipe of Casting, eliminating the following defects: Sand holes, blow holes, scabs, shrinks, segregations. The pipe is cast with a compensating shoulder in the hub assuring self-centering of joint and ease of alignment, which also maintains the same amount of lead used in the joint regardless of whether full length or cut length pipe are assembled.

The company has been manufacturing cast iron pipe since 1933. Due to the demand for cast iron soil pipe after the war, the company added soil pipe to their manufacturing list.

The Cast Iron Soil Pipe have been in service since 1946 in various cities and towns of New Jersey, New York, Pennsylvania, Delaware, Maryland, the District of Columbia and for United States Government projects and for export. The applicant does not know of a single failure of this pipe in service and has not received a single complaint of their pipe after installation.

Inspection and Test

The plant of the applicant was inspected by the Committee on Test and found to be as above described. Present were Chief Engr. L. V. Huber of the Committee on Test, J. Scharff and C. A. Downs representing the applicant. Tests of the product were made by the Haller Testing Laboratories as follows: Physical and Chemical Test of extra heavy Cast Iron Soil Pipe Report #80338 Date December 24, 1951.

The weight of the 6 inch and 8 in. soil pipe conforms to the requirements of Sect. C26-1229.0 Administrative Building Code. Being for 6 inch single hub pipe 95 lbs. per laying length of 5 ft., and 100 lbs. for double hub and for 8 inch pipe 15 lbs. for single hub and 157 lbs. for double hub.

Recommendation

On the Basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Ferro Pipe & Foundry Company Cast Iron Soil Pipe in sizes 4" to 15" diameter inclusive for use in New York City under the provisions of C26-1229.0 Administrative Building Code when manufactured and used in accordance with this report provided each bill of lading for delivery of pipe be stamped, "Approved by the Board of Standards and Appeals for use in New York City, under Cal. No. 245-52-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engr.,

JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

41-54-SA

APPLICANT—Ribelle V. Perotto, for Delta Heating Corporation, owner.

SUBJECT—Application reopened January 4, 1955—as to amendment—re Delta Suspended Oil-fired Furnace Models SU-80, SU-110, SU-160 and SU-210, previously approved.

APPEARANCES—

For Applicant: Ribelle V. Perotto.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 41-54-SA

Subject: Amendment to resolution to permit the Delta Suspended Oil Fired Furnace, Models SU-210, SU-160, SU-110 and SU-80 approved by the Board on May 18, 1954 to be marketed as the Certified Suspended Oil Fired Furnace Models SU-210, SU-160, SU-110 and SU-80 of the Certified Furnace Corporation of Trenton, New Jersey.

The application was reopened for a report as to additional testing January 4, 1955. There are no structural changes in the burner. The Committee on Test has investigated the burner and recommends that the resolution of October 5, 1954 be amended so that it will include approval of the Certified Suspended Oil Fired Furnace, Models SU-210, SU-160, SU-110 and SU-80; on condition that the requirements of the resolution adopted on May 18, 1954 under Cal. No. 41-54-SA are complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of May 18, 1954 in accordance with the above report.

82-54-SM

APPLICANT—James B. Clow and Sons, owner.

SUBJECT—Application January 25, 1954—Clow I. P. S. Centrifugally Cast Iron Pipe (O.D.) (for suspended soil, waste, downspout and vent lines), approval of.

APPEARANCES—

For Applicant: Roderick O'Connor and Gerald R. Kinnally.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 82-54-SM

Subject: Clow I. P. S. Centrifugally Cast Iron Pipe (for suspended soil, waste, downspout and vent lines), approval of.

James B. Clow and Sons, Chicago, Illinois, filed January 25, 1954 and application with the Board of Standards and Appeals for approval of the material known as Clow IPS Centrifugally Cast Iron Pipe (for suspended soil, waste, downspout and vent lines) under the provisions of C26-1229.0 and C26-1236.0 Administrative Building Code.

MINUTES

Purpose

The material is to be used for soil, waste, downspout and vent lines.

Description

The pipe is centrifugally cast iron pipe made on a DeSavaud machine. The pipe is manufactured with bell and spigot and is cast in 18'0" lengths in 3", 4", 5", 6", 8" and 10" diameter. The pipe has the same outside diameter as steel pipe. To form a plain end pipe, the bell and spigot are cut off and the plain ends are threaded. The wall thickness of the pipe is greater than that accepted as minimum by the American Standards to compensate for the threading of the pipe so that the threaded section is still heavier than the accepted minimum.

The wall thickness is as follows:

Size	American Standards	Clow
3"	0.25"	0.35"
4"	0.25"	0.35"
5"	0.25"	0.37"
6"	0.25"	0.38"
8"	0.3125"	0.41"
10"	0.375"	0.44"

Inspection and Test

Specimens of the pipe were tested in conformance with the requirements of ASTM 74-42 and were found to comply. Additional Hydrostatic and transverse load tests were also conducted at the New York Testing Laboratory in the presence of Asst. Engr. J. A. Darts, Committee on Test and J. R. Kinnally and R. J. O'Connor representing the applicant. The tests were to check against the A.S.T.M. specification for cast iron soil pipe.

Results were as follows:

Load Test

Clow—6"—7720 Lbs. (failed in threads at coupling—.47" deflection).

Clow—3"—1540 Lbs. (failure in threads at coupling—5.71" deflection).

Hydrostatic Test

Clow—4"—2600 psi end cap blew off.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Clow I.P.S. Centrifugally Cast Iron Pipe under the provisions of C26-1240 for use under the provisions of C26-1229.0 and C26-1236.0 Administrative Building Code on condition that the pipe shall be stamped or tagged "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 82-54-SM" or in lieu thereof the shipping ticket or bill of lading or bill of material shall be similarly marked.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

546-54-SM

APPLICANT—U. S. Gypsum Co., owner.

SUBJECT—Application June 21, 1954—USG Demountable Partition (for office), approval of.

APPEARANCES—

For Applicant: William W. Bainbridge.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 546-54-SM

Subject: USG Demountable Office Partition, approval of.

U. S. Gypsum Company, New York, filed June 21, 1954 an application with the Board of Standards and Appeals for approval of the USG Demountable Office Partition under the provisions of C26-191.0 and C26-667.0.5 Administrative Building Code.

Purpose

The material is to be used as a subdividing partition wherein no fire resistive rating is required.

Description

The partition is a laminated gypsum board panel consisting of two sheets of 1/2" x 24" gypsum board laminated to form an offset panel; rolled metal studs; clips for attaching one edge of each gypsum panel to a stud; metal trim and accessories.

In erection, shoes are first attached on 2'-0" centers to the floor; corner post floor angle and corner post are then erected; caps are set and studs are erected, fitting into the shoe and cap; the laminated sheetrock is then placed on the stud, the second or closing panel is then placed on the opposite side of the stud and both panels are clipped in place. The remaining panels are erected in a similar manner. The studs are of 20 gauge; tracks, 22 gauge; caps 16 gauge; shoes 16 gauge.

Inspection and Test

Details of construction and the component parts of the panel were examined by Asst. Engr. J. A. Darts, Committee on Test and W. W. Bainbridge representing the applicant and all metal parts were found to be of thickness specified.

Recommendation

On the basis of the inspection and the data filed by the applicant, the Committee on Test recommends the approval of the USG Demountable Office Partition for voluntary installation where an incombustible and/or fire resistive partition is not required.

The Committee further recommends the use of this partition under the provisions of C26-667.0.5 Administrative Building Code, for use as a subdividing partition in places without combustible occupancies requiring a permit from the Fire Commissioner for use in area as limited by this section.

It is further recommended that all USG Demountable Office Partitions be identified as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 546-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

619-54-SA

APPLICANT—Bradley T. Sheridan, for Iron Fireman Manufacturing Co., owner.

MINUTES

SUBJECT—Application July 12, 1954—Iron Fireman Gas-Burner, Type RGF and Petro Gas Burner, Type FG, approval of.

APPEARANCES—

For Applicant: Bradley T. Sheridan.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 619-54-SA

Subject: Iron Fireman Gas Burner Type RGF and Petro Gas Burner Type FG, approval of.

The Iron Fireman Manufacturing Company filed July 12, 1954 an application with the Board of Standards and Appeals for approval of the Iron Fireman Gas Burner Type RGF and Petro Gas Burner Type FG under the provisions of C26, Art. 12 of the Administrative Building Code.

Purpose

Firing boilers and furnaces to produce heat and generate steam.

Description

The Iron Fireman Type RGF forced draft industrial gas burners and Petro Type FG forced draft industrial gas burners are completely packaged firing units for burning fuel gas. They consist essentially of a multiple jet ring type gas burner, automatic pilot, electronic safety combustion control, forced draft fan, plenum chamber, refractory combustion throat, gas control system linked to air volume control, electronic combustion control, air flow safety switch, electric wiring and gas piping, all factory assembled and tested. Gas controls consist of U. L. listed modulating valve, pressure regulating automatic shut-off valve and manual shut-off valve of lubricated plug valve type.

These burners provide a high degree of safety because of factory assembly which provides skilled erection under competent supervision and inspection. This eliminates the possibility of important safety components being omitted or improperly applied.

Two types of automatic combustion controls are used, model numbers ending in "M"—Iron Fireman RGFM and Petro FG-M which require manually closing a switch to start and model numbers ending in an "A", Iron Fireman RGFA and Petro FG-A which are automatically started by a thermostat or similar control. Manual start models are principally used in power plants for process steam generation and automatic start models are principally used in heating plants.

Model Numbers and capacities are as follows:

Iron Fireman		Petro		Input in BTU Per Hour
Automatic Start	Manual Start	Automatic Start	Manual Start	
RGFA-25	RGFM-25	FG-4A	FG-4M	3,750,000
RGFA-35	RGFM-35	FG-5A	FG-5M	5,250,000
RGFA-50	RGFM-50	FG-6A	FG-6M	7,500,000
RGFA-60	RGFM-60			9,000,000
RGFA-76	RGFM-76	FG-7A	FG-7M	11,250,000
RGFA-100	RGFM-100	FG-8A	FG-8M	15,000,000
RGFA-125	RGFM-125	FG-8½A	FG-8½M	18,750,000
RGFA-165	RGFM-165	FG-9A	FG-9M	24,750,000

The Petro Type FG Series Forced Draft Industrial Gas Burner and the Iron Fireman Forced Industrial Gas Burner is a complete gas burning system assembled, wired and tested at the factory. The Unit includes a gas burner forced draft fan, air volume control and an enclosed electrical control panel, all integrally mounted on a structural steel base.

Gas Burner—The gas burner is of the ring type with multiple machined tubular jets threaded into the accurately ring. Jets are available for pressure up to 10 psi maximum.

Forced Draft Fan—The integral forced draft fan furnishes a regulated supply of combustion air to the burner with sufficient additional pressure to allow ¾ inch W. C. pressure drop through the boiler passages and breeching. The fan, designed for forced draft use, is ruggedly built and easily accessible for service.

Air Volume Control—The air volume control is maintained by a cylindrical damper around the burner throat inlet assuring an even distribution of the air to the fire. Multiple "V" type ports facilitate modulation over wide range and provide accurate control even at very low firing rates.

Combustion Control—A modulating type automatically controlled actuator follows the load closely, supplying just the right amount of gas and combustion air to maintain the desired steam pressure of water temperature.

Safety controls shut down the burner immediately in the event of low water in the boiler, excessive pressure or temperature, or unsafe combustion.

Venturi Combustion Throat—Mixing of the gas with air and the shape of the flame is controlled within the refractory faced primary combustion zone. Adjustable inlet vanes control the rate of rotation of the flame, shaping the fire to match the requirements of the firebox or firetube. Controls are panel mounted with wiring concealed in steel conduit and ducts.

Gas Controls—A manual main shut-off valve is provided as a means of cutting off all gas to the main burner and other controls. This is a lubricated plug valve with lever handle, assuring free action at all times and positive leak proof shut off. A gas pressure regulator is used in assuring uniform gas pressure at the firing valve regardless of fluctuation in inlet pressure.

The automatic firing valve which is actuated by the combustion control system regulates the amount of gas supplied to the burner. This valve is synchronized with the air volume control to maintain the proper air-fuel ration at all firing rates.

The automatic shut-off valve stops the flow of gas to the burner in response to the automatic controls. This valve may be of the automatic opening type (standard on RGFA Models) which can operate itself to start the burner or it can be of the manual reset type (standard on RGFM Models) which must be manually operated by the fireman to start the burner.

Electric Ignition—These burners are equipped with intermittent type electrically ignited pilot burners. The pilot is mounted in a fixed position on the outside of the burner front where it is easily accessible for service.

The premix type burner is ignited by an electrical spark from a 5,000 volt ignition transformer which is located with the solenoid gas valve in a metal enclosed ignition bracket assembly on the burner front. In operation the automatic controls energize the pilot solenoid valve and ignition transformer. When the electronic controls detect the pilot flame the main burner is permitted to start. When the main flame is established the pilot flame is turned off.

Automatic Controls—The heavy duty, totally enclosed, control panel supplied with these units is completely assembled, wired and tested at the factory. This assures that the controls are properly installed and are protected from dirt and damage in service. The automatic electronic combustion control monitors the pilot and main burner flames assuring safe combustion at all times. This control immediately shuts down the burner in event of an abnormal or unsafe condition. This control also schedules the sequence of operations in starting and stopping the burner properly. An indicating meter on the panel door shows the condition of the control system at all times.

An automatic magnetic starter switch with current overload protection is provided for the forced draft motor. Optional starter is available for feed water pumps. Steam pressure limit and operating controls are installed within the cabinet. Indicating lights on the panel front show at a

MINUTES

distance the operating status of the burner with green lights indicating a safety lockout. An indicating draft gauge is also supplied.

All control circuit wires terminate at numbered dual terminals on a terminal strip within the panel enclosure. This arrangement, together with the open wiring coded with various colors of insulation, greatly facilitates circuit checking for service or future modifications.

Inspection and Test

These burners were inspected and tested at 184 W. 237th Street, New York and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test and Bradley T. Sheridan representing the applicant. The burner has been approved by the Underwriters Laboratories Ref. #MP810, Appl. #53C1343, Appl. #53C1344.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Iron Fireman Gas Burner Type RGF and Petro Gas Burner Type FG for use in New York City when installed and operated in accordance with this report and the provisions of C26, Art. 12 of the Administrative Building Code, provided each burner bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 619-54-SA", and further that all ports and orifices shall be of a type approved by the A.G.A. for the type of gas used.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engr.,

JOHN A. DARTS,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *approve* this appliance in accordance with the above report.

715-54-SA

APPLICANT—Gilbert and Barker Manufacturing Co., owner.

SUBJECT—Application September 14, 1954—Gilbarco Calcometer, Model M-101DE (gasoline dispensing pump), approval of.

APPEARANCES—

For Applicant: R. C. Beckman and William Keay.

ACTION OF BOARD—Appliance approved in accordance with the report of Committee on Test.

THE VOTE—

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 715-54-SA

Subject: Gilbert and Barker Model M101DE Dual Gasoline Dispensing Pump, approval of.

Gilbert and Barker Manufacturing Company of West Springfield, Mass. filed September 14, 1954 an application with the Board of Standards and Appeals for approval of the Gilbert and Barker Model M101DE dual gasoline dispensing pump under the provisions of C26-191 Administrative Building Code and C19-69.0.c Administrative Code.

Purpose

A dual gasoline dispensing pump; low type.

Description

The Model M101DE Dual Dispenser is two complete separate dispensers in one housing and will pump two products. It is equipped with two motors, two pump air separator

units, two air separator pumps, two meters, two computers and two interlock devices. Each product delivered passes through one of the dispensers. Each of the dispensers within the Model M101DE housing is an electrically driven metering pump with a computer-type of registering mechanism. Two $\frac{1}{3}$ H.P. explosion-proof electric motors drive two positive type rotary pumps to raise gasoline from the tank and furnish pressure just under 20 psi for proper metering. The motors are turned on and off separately by means of handles on each side of the dispensing unit. Each handle operates a rod which is directly connected to a switch in each motor.

The features of the Model M101DE Dual Dispenser is the combination pump, air unit-separator. The pump unit-air separator separates the air which would be admitted through a leaky suction line or through fraudulent manipulation. The air separator also has the important function of providing room for expansion of the liquid in the system due to a temperature rise. The meter is a four-piston positive displacement type of unusual accuracy, and meets the requirements of Weights and Measures authorities throughout the world.

A valve is incorporated between the meter and visible discharge indicator assembly to maintain the liquid under a slight pressure at all times, thus preventing vaporization while the unit is standing idle. This is a necessity, as vapor at this point would cause false measurements in hot weather. A very rugged visible discharge indicator is employed which would make immediately visible any air or vapor pockets should they occur. The flow is controlled at the nozzle. The unit has a maximum rate of flow of 16 gallons per minute. The entire mechanism complies with all the requirements of the Underwriter's Laboratories, Guide #60.03.4, File MH 1941.

Inspection and Test

The device was inspected and tested at the corner of Lock street and Central Avenue, Newark, New Jersey and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test and R. C. Beckman representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Gilbert and Barker Model M101DE Dual Gasoline Dispensing Pump for use in New York City when installed and operated in accordance with this report and the provisions of C19-69.0.c Administrative Code, on condition that each pump bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 715-54-SA."

REPORT OF COMMITTEE ON TEST

Re: Cal. 716-54-SA

Subject: Gilbert and Barker M101E Single Gasoline Dispensing Pump, approval of.

Gilbert and Barker Manufacturing Company of West Springfield, Mass. filed September 14, 1954 an application with the Board of Standards and Appeals for approval of the Gilbert and Barker Model M101E single gasoline dispensing pump under the provisions of C26-191.0 Administrative Building Code and C19-69.0c Administrative Code.

Purpose

A single gasoline dispensing pump, low type.

Description

A $\frac{1}{3}$ H.P. explosion-proof electric motor drives a positive type of rotary pump to raise the gasoline from the tank and furnish a pressure just under 20 pounds for proper metering.

The feature of this new pump is the combination pump unit-air separator. The pump unit-air separator separates the air which would be admitted through a leaky suction line or through fraudulent manipulation. The air separator also has the important function of providing room for expansion of the liquid in the system, due to a temperature rise. The meter is a four-piston displacement type of unusual accuracy and meets the requirements of Weights and Measures authorities throughout the world.

A valve is incorporated between the meter and visible discharge indicator assembly to maintain liquid on very slight pressure at all times, thus preventing vaporization while the unit is standing idle. This is a necessity as vapor at this point would cause false measurements in hot weather. A very rugged visible discharge indicator is employed which would make immediately visible, any air or vapor pockets should they occur. The flow is controlled at the nozzle and the unit has a maximum rate of flow of 16 gallons per minute.

The motor is turned on and off by means of a handle on the outside of the dispensing unit, the handle operating a rod which is directly connected to a switch in the motor. The model M101E Dispenser is equipped with an external hose connected directly to the visigage outlet, located at the side panel at the same level as the visigauge. The hose extends from the outlet thirteen feet to the tip of the nozzle. The entire mechanism complies with all the requirements of the Underwriter's Laboratories, Guide #60.4.34, File MH 1941.

Inspection and Test

The device was inspected and tested at the corner of Lock Street and Central Avenue, Newark, New Jersey and found to operate as designed. Present at the test were Chief Engr. L. V. Huber of the Committee on Test and R. C. Beckman representing the applicant.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Gilbert and Barker Model M101E Single Gasoline Dispensing Pump for use in New York City when installed and operated in accordance with this report and the provisions of C19-69.0C Administrative Code on condition that each pump bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 716-54-SA".

REPORT OF COMMITTEE ON TEST

Re: Cal. 820-54-SA

Subject: Century Engineering Corp., Oil Burner, Model 1P to be marketed also as Crane Company Oil Burner, Model 1P, approval of.

The Century Engineering Company, owner-manufacturer filed October 20, 1954 an application with the Board of Standards and Appeals for approval of the Century Engineering Corp., Oil Burner Model 1P also to be marketed as the Crane Company Oil Burner Model 1P under the provisions of C19-57.0 Administrative Code and the Oil Burner Rules of the Board of Standards and Appeals.

Purpose

A mechanical draft conversion oil burner for domestic installation.

Description

This is a gun type oil burner with a nose piece of gray cast iron, an electrode bracket, an air tube, a housing assembly, air damper, a conversion burner base, a $\frac{1}{8}$ HP Nema Standard motor, a 10,000 Volt center point, grounded ignition transformer, a Sundstrand or Webster fuel unit and a 6" Torrington fan. The burner is an assembly of approved parts suitable for use with each other for the service intended as approved and the burner is provided with suitable safeguard to prevent abnormal discharge of oil. The burner as assembled was tested for defects and proper functioning throughout its operating range and was found to function properly as designed with no flash backs or unusual carbon deposits. With the oil cut off the controls functioned in 40 seconds, all parts are so designed as to maintenance alignment and to permit interchangeability. With stack temperature of 485 degrees the CO₂ content of the flue gases was $8\frac{1}{4}$.

Recommendation

On the basis of the inspection and test and the data submitted by the applicant the Committee on Test recommends the approval of the Century Engineering Corp., Oil Burner, Model 1P for use in New York City with fuel oil not heavier than #2 when manufactured and installed as herein described.

The burner may also be marketed as the Crane Company Oil Burner, Model 1P under the same conditions provided each burner bear a label permanently affixed reading: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 820-54-SA."

ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated December 7, 1954, on N.B. App. 3109 of 1954 reads:

"The proposed extension of sprinkler system is contrary to the provisions of Cal. 878-48-A."

;and

WHEREAS, the applicant states that the premises consist of a lot 50 ft. front by 100.06 feet in depth located in an unrestricted use, C area, Class 1½ height district, upon which the building in question now under construction will be one story, 11 ft. 8 in. in height, 41 ft. by 62 ft. in area, of Class 1 construction, for use and occupancy for the manufacturing (finishing, packing and shipping) of celluloid products, 50 persons; and for the parking of employees' cars in the open unoccupied area; the building is proposed to be provided with a one-source sprinkler system; and

WHEREAS, the applicant states that this appeal has been filed to secure permission to extend an existing one-source sprinkler system into a new building which will be used for the manufacturing of optical frames containing nitro-cellulose; that these products will be finished, packaged and shipped within the new building; and

WHEREAS, the applicant states that the proposed new building will be approximately 2700 sq. ft. in area and connected to the existing one-story building on the adjoining lot to the east; that lot 14 which is the subject of this appeal and lot 19 adjoining on the east were originally known as lots 14, 15, 17 and 18 and comprise the site which was subject to appeal to the Board under Cal. No. 878-48-A, Vol. I, wherein the Board permitted the extension of one-source sprinkler system in that building used for nitro-cellulose products; and

WHEREAS, the applicant states that the proposed new building now in question will be separated from the existing building by a masonry wall containing one opening protected both sides by fire-doors; that this is not a required fire wall but is being provided voluntarily to minimize any hazard; that the new building will be used for packaging, shipping and storage of finished optical frames and for office purposes; that the only manufacturing will consist of polishing and ornamenting finished frames and this will occupy only a small portion of the new building; that no sheet celluloid cutting or stamping will be conducted in the new building and no raw material will be handled or stored therein; that the proposed new building will be constructed with a concrete plank roof on steel beams; that there will be no cellar; that the boiler room will be located in a corner of the building separated from the balance of the structure by an unpierced masonry wall with entrance from the ex-

terior only; that the major portion of the floor area will be used for storage, packing and shipping of finished products which does not in itself require a sprinkler system; that it is proposed to install a sprinkler system throughout the building complying in all respects with the requirements of the Administrative Code except that it will have only one source of supply and will be connected to Fire Headquarters through a central signal system; and

WHEREAS, this appeal was re-opened by a vote of the Board January 18, 1955, to consider the proposed extension herein involved.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 26, 1948, by adding thereto:

"that in the event the owner desires to construct a one-story fireproof, Class 1 constructed building, approximately 41 feet by 62 feet in area and one story in height, as proposed and shown on plans filed with this appeal, marked 'Received December 21, 1954' (3 sheets), the sprinkler system as heretofore permitted by resolution adopted April 26, 1948 in the adjoining building may be extended into such proposed extension of the building, *on condition* that the general requirements of the above cited resolution including the one-source sprinkler system and connection to fire headquarters through an approved central station shall be complied with."

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated May 12, 1954, on amendment to Alt. App. 115/54, reads:

“Objections numbers 1 and 2 and repeated and denied by the Chief Engineer.

Two means of egress are required from all floors including cellar.

Fire escapes are not permitted in a six story N.F.P. Class 3 factory building. Section 271 of the Labor Law.”

and

WHEREAS, the applicant states the building is 6 stories, 60 feet in height, 24 ft. 3½ in. front by 101 ft. 9 in. in depth at street level, 24 ft. 3½ in. by 95 ft. 8½ in. at typical floor level, of Class 3 construction erected in 1892 on a lot 24 ft. 3½ in. front by 101 ft. 9 in. in depth, in an unrestricted use, B area, Class 2 height district; used and occupied since 1931: Cellar—storage and heating plant, 2 persons; 1st floor—retail stores, 45 persons; 2nd floor—factory, 20 persons; 3rd, 4th, 5th, 6th floors—factory, 8 persons on the 3rd, 8 on the 4th, 7 on the 5th and 7 on the 6th; for which Certificate of Occu-

pancy #18668 was issued November 1, 1932, upon completion of work under Alt. App. 960/31 and indicates a liveload capacity from 2nd to 6th floors inclusive of 75 lbs. per square foot. The building is proposed to be used and occupied as follows: Cellar—storage and heating plant, 2 persons; 1st floor—retail stores, 45 persons; 2nd to 6th floors—furniture factory, 20 persons on the 2nd; 8 persons on the 3rd; 8 on the 4th, 7 on the 5th and 6 persons on the 6th. The building is provided with one 3 ft. wide existing interior wood stairs, enclosed in brick and studs covered with wire lath and cement plaster, equipped with fireproof, self-closing doors and leading from roof bulkhead direct to street and one Labor Law fire escape on the street front, extending to street by ladder; windows and doors on course thereof are fireproof, self-closing; and

WHEREAS, the owner was convicted and fined in Magistrates Court May 21, 1954, for violation of the Labor Law and the Administrative Code for failure to comply with Violation #9992 issued by the Borough Superintendent December 9, 1953; and

WHEREAS, the applicant requests the Board to accept the existing Labor Law fire escape and the existing stair from cellar to the stores approved as a second means of egress under Certificate of Occupancy #18668 of 1932; and

WHEREAS, the applicant contends that the lot is 3000 sq. ft. in area; that each factory floor has an area of 2500 sq. ft.; that the maximum number of occupants above the 2nd floor is 30; that any reasonable modification required by the Board to make the structure comply with the spirit of the Law will be accepted by the owner; and

WHEREAS, the premises were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the Borough Superintendent, acting on amendment to Alt. App. 115/54, Objections 1 and 2, and that the appeal be and it hereby is *granted on condition* that the primary means of exit shall be completely rebuilt by installing a steel stair from cellar to roof as now proposed and as indicated on plans filed marked “Received, March 25, 1955” (3 sheets); that such stair and the enclosing partitions shall comply with the requirements of the Code therefor; that the continuance of the fire escape on the front of the building may be permitted as a second means of exit, as proposed and indicated on plans filed with this appeal marked “Received February 9, 1955” (5 sheets); that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; and if there is no certificate of occupancy, one shall be obtained.

572-54-A

APPLICANT—Brooklyn Eastern District Terminal, lessee, for Havemeyers and Elder, Inc., owner.

SUBJECT—Application July 9, 1954—re Appeal from an order and a decision of the fire commissioner.

PREMISES AFFECTED—86-88 Kent avenue, west side, from North 8th to North 9th streets, Block 2308, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Samuel Rosenblum, B. Katz and J. D. Mead.

Negative 0

THE RESOLUTION—

WHEREAS, order No. 52033LC, issued by the Fire Commissioner July 22, 1953 and referred to in a decision of the Fire Commissioner dated June 11, 1954, reads:

“1. Discontinue the storage of #6 Fuel oil in tank cars since such storage is contrary to the Oil Burner

MINUTES

Rules of this Department and provide an approved storage system as specified in the Oil Burner Rules. C19-11.0. Administrative Code."

and

WHEREAS, the applicant states that the premises consist of a lot 200 ft. by 730 ft. in area, located in an unrestricted use, A area, class 2 height district, used and occupied since 1930 as a railroad yard for the transportation of freight and materials; that the premises are provided with a yard hydrant system and there is a fire brigade organization which can be actuated by an air whistle alarm system; and

WHEREAS, the applicant states that the premises consist of a portion of the entire premises which covers several blocks from North 3rd to North 12th streets between Wythe and Kent avenues extending to the East river; that the portion of the premises in question where the fuel oil is stored is at the waterfront between North 8th and North 9th streets between Kent avenue and the East river; and

WHEREAS, the applicant contends that the oil used is No. 6 fuel oil, having a flash point in excess of 220 degrees F.; that there are two tank cars of approximately 10,000 gallons capacity each stored near the machine shop; that these cars have bottom sections $\frac{7}{8}$ in. thick and the ends are $\frac{7}{8}$ in. thick and the sides are $\frac{1}{4}$ in. plate and the tanks are divided into five sections, all constructed of steel plate with riveted seams; that tanks are filled directly from steam tug boat which has a fire hose and pump attached; that the fuel oil is used to operate locomotives operating as a carrier and shifting the freight cars from one section of the yard to another; that supplementing the firepump on the tug there are fire hydrants distributed throughout the premises, there are fire extinguishers at focal points and ADT fire alarm stations located throughout the premises, one of which ADT fire alarm stations is located directly at the point where the tank cars are located; that the premises are operated on a 24 hour basis with constant supervision and watchman service; that the method of storage and fire protection provided is the equivalent of that required by regulations and that if a permit is required such permit should be issued for the present installation which has been in use for 24 years without any previous question being raised; and

WHEREAS, the applicant further contends that the premises in question is under the jurisdiction of the Interstate Commerce Commission; that the No. 6 fuel oil in question is used exclusively for firing locomotives owned and operated by the Terminal exclusively in the operation of the Terminal under the direct jurisdiction of the Interstate Commerce Commission and subject to its control and supervision; that it would appear therefore that these tank cars should be exempt from compliance with the fire department's requirements as to fuel oil storage and that the jurisdiction of the Fire Commissioner in the premises would appear to be open to question; that however, the lessee made an application for a permit for fuel oil storage and will continue full cooperation in the public interest; and

WHEREAS, the premises and tanks were inspected by a committee of the Board.

Resolved, that the decision of the Fire Commissioner, as expressed in Order #52033LC, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted*, to permit for a temporary term of two years, the use of the two railroad tank cars as proposed and as indicated on plans filed with this appeal, marked "Received July 9, 1954" (2 sheets), to be used for storage of No. 6 oil for servicing the locomotives used in switching cars in the yard, *on condition* that the filling of such tank cars at the river dock shall be subject to approval as to method by the Fire Commissioner and particularly to prevent any possible leakage of oil into the river.

APPEARANCES—

For Applicant: Edward J. Hurley.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 3, 1955, acting on Alt. App. 111/55, reads:

"1. Proposed use as 'Laboratory' in a Class III bldg, 4 stories and basement, 52' high, exceeds tabular height limits 4.2.1 B.C.

2. If B.S.A. should grant a variation, stair enclosure should be incombustible and have a 2 hour rating 6.4.1.8.1(b) and 6.4.1.7.1(l).

3. Elevator openings are not permitted in required stair enclosure 6.4.1.8.2 (a) B.C."

and

WHEREAS, the applicant states the building is 4 stories and basement, 52 feet in height, 22 ft. 6 in. by 55 feet in area at first story, 22 ft. 6 in. by 44 ft. in area at typical floor level, of Class 3 construction, erected prior to 1900 on a lot 22 ft. 6 in. by 103 ft. 9 in. in depth, in a retail use, B area, Class 1½ height district; used and occupied since 1945 as follows: Cellar—storage, 0 persons; Basement—research laboratory and library, 6 persons; 1st to 4th floors—residence for hospital help, 15 persons total; proposed to be used and occupied as follows: Cellar—storage, 0 persons; Basement—office and library; 1st to 4th floors, inclusive, research laboratory, a total of 20 persons throughout building. The building is provided with one 3 ft. wide interior steel stairs with cement treads, enclosed in partitions of wood studs and wire lath cement plaster, equipped with one-hour fireproof, self-closing doors; stairhall leads to roof bulkhead and to yard with egress from lower termination through fire passage in hospital to yard. There is one fire escape in rear yard, extending to roof by ladder and to yard by ladder; window and door openings on course thereof are not fireproof, self-closing; and

WHEREAS, the applicant states it is proposed to extend the research now in the rear basement of this building, so as to occupy the entire laboratory; that the occupancy will be a maximum of 20 persons, all regular employees using the building during business hours; that access will be through the rear yard and a fireproof passage in adjacent infirmary building leading to the street; that existing stair will be replaced by a new 3 ft. wide steel stair with cement treads and without winders, extending from cellar to roof; that the stair enclosure will consist of existing studs on two walls covered with wire lath and cement plaster both sides, fire-stopped at all tiers with gypsum blocks and equipped with fireproof self-closing, 1-hour test doors at all openings; that the other two walls of stair enclosure will be masonry; that the three buildings to the west are under the same ownership so that access can be had across these roofs for egress to street; that the present fire escapes will remain as a second exit on rear wall leading to yard which serves four adjacent buildings under the same ownership; that a new elevator with fireproof shafts equipped with 1½-hour test doors will be installed at front of the building; that stair to cellar will be enclosed with fireproof partitions at cellar level; that heat will be provided from a central steam plant; that the net usable floor area will be 800 feet in the basement, 968 sq. ft. on the 1st floor and 620 sq. ft. on the upper floors; that the 4th floor is needed as the radio isotrope laboratory; and

WHEREAS, the applicant contends that the research laboratory and infirmary are non-profit organizations; that the laboratory operates on grants from various hospitals and organizations for research projects; that all the space in the

MINUTES

building will be required for research work; that the infirmary cannot afford to give up the use of the top floor; that the hazard is small and the occupancy light; that no combustibles will be stored or used; that all occupants will be regular employees, familiar with exits and the building is too small to provide a separate hall to the elevator shaft.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 111/55, Objections 1, 2 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area; that it shall be arranged as to exits as indicated on plans filed with this appeal, marked "Received February 7, 1955" (4 sheets), "March 3, 1955" (1 sheet), and "March 28, 1955" (1 sheet), *on condition* that the stair enclosure shall meet the requirements for one (1) hour construction and to permit the elevator openings located as shown; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto including the fire escape on the rear of the building as shown on revised plan marked received March 28, 1955.

APPEARANCES—

For Applicant: J. Paul Frampton and Benjamin Bernstein.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated February 1, 1955, on Alt. App. 4475/52, reads:

"1. Class #3 structure over 50' in height changed from public to business use is contrary to sects. 2.1.3.5 & 4.2.1 of Bldg. Code.

"2. All exits to comply with sect. 270 of Labor Law."

and

WHEREAS, the applicant states the building is one story 75 ft. in height, 23 ft. front by 200 ft. in depth at the first floor; 145 ft. 9 in. front by 103 ft. 8 in. in depth at typical floor level, of Class 3 construction, erected in 1912 on a lot 23 ft. front by 200 feet irregular in depth, in a business use, C area, Class 1 height district; used and occupied since 1922; Cellar—ordinary use; 1st floor—theatre, 1252 persons; 2nd or intermediate floor; 3d or mezzanine and 4th or gallery floors combined, theatre, 960 persons, for which Certificate of Occupancy #60148 was issued April 17, 1930, upon completion of work under Permit #10487/29; and

WHEREAS, Violation #3354/53 was issued for occupying the first floor for factory, manufacturing metal products without obtaining a certificate of occupancy; and

WHEREAS, the building is proposed to be changed to the following use and occupancy: Cellar—storage, 0 persons; 1st floor, 2nd and 3rd floors, manufacturing metal products, 60 persons each floor; 4th floor (old gallery)—no occupancy; and

WHEREAS, the applicant states the building was constructed in 1912 and operated as a theatre for many years and has now been vacant for a number of years; that it is proposed to add two new floors to the building throughout sections B and C, as indicated on plans filed with this appeal; that these new floors will be of Class 3 construction; that the highest level at which any persons will be employed in the building is on the new 3rd floor, 30 feet above legal grade; and

WHEREAS, the applicant contends that although the building exceeds 50 feet in height, the occupancy will be within the 50 ft. tabular limit provided by the Code; that the building has a standpipe system and a partial sprinkler system in and under the existing stage; that it is proposed to discontinue the standpipe system and to extend the sprinkler system throughout the building, in compliance with the Administrative Building Code and the Labor Law; that all floor areas will have at least two means of egress complying with Section 270 of the Labor Law except the floor areas in the section of building marked "A" on plans, which section consists of rooms formerly used as dressing rooms and has a total gross floor area of 553 square feet on any floor; that it is proposed to use these rooms as private offices and there will be no manufacturing on these floors; that the present stairway is metal with a minimum clear width of 3 feet; that the stairway changes direction between floors and has winders; that all rooms of Section "A" as well as the stairs and halls will be completely sprinklered; that the 1st and 4th floors of Section A will have direct access to the balance of the building; that it is proposed to provide an open iron stairs and platform from the 3rd floor of Section A to the new 2nd floor level, a total rise of 3 feet; that this will leave only the 2nd floor offices of Section A without direct access to floor areas having the required two means of egress complying with Section 270 of the Labor Law; that in view of the fact the maximum number of occupants on any one floor in Section A will be four, it is requested that the indicated means of egress from Section "A" be accepted in lieu of compliance with Section 270 of the Labor Law; and

WHEREAS, the premises was inspected by a committee of the Board, which recommended the appeal be granted under certain conditions.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 4475/52, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the building shall not be increased in height or area and in all other respects shall comply with the use proposed; and does hereby *make a variance* of the Labor Law, as cited in the above decision as to Objection 2, to permit the exits as proposed and as indicated on plans filed with this appeal, marked "Received February 10, 1955" (15 sheets), and "March 10, 1955" (3 sheets), *on condition* that the second means of exit shall be provided for the spaces to be occupied for office work in Section A of the building.

ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on March 30, 1954, on certain conditions; and

WHEREAS, the resolution was amended on December 21, 1954; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 30, 1954, only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

“that in view of the statement by the applicant that plans have been approved by the Department of Housing and Buildings and the construction contract has been let, that all permits required shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution from the date of this *amended* resolution.” (NB 3474/53)

(Remaining Minutes of the Meeting of March 29, 1955 will be printed in the Bulletin of April 12, 1955.)

COURT DECISION

(Continued from page 521)

and decided upon the companion motion decided herewith * * *. It seems to me clear that petitioner has completely failed to show that the board's action was arbitrary, capricious, illegal or an abuse of discretion, and that is enough to justify a dismissal of the petition.

Motion to vacate order of certiorari and dismiss petition therefor is granted. In my opinion there is no showing that the refusal of the board to grant a variance was in any way arbitrary or capricious or illegal or an abuse of discretion.” (N.Y.L.J. January 27, 1955, page 7.)

BOARD OF STANDARDS AND APPEALS

HARRIS H. MURDOCK, Chairman

EDWIN W. KLEINERT

SEAN P. KEATING

DEPUTY CHIEF P. JOSEPH CONNOLLY

JOSEPH J. DOYLE, *Chief Clerk*

PUBLIC HEARINGS

Tuesdays at 10 a.m. to 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building,
Borough of Manhattan.

HOURS OF CONSULTATION

10. A. M. to 1 P. M.

Any person desiring to consult the chairman or the
engineers, pertaining to the work of the board, will be
seen only between the hours of ten in the morning and
one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellant and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

HARRIS H. MURDOCK, *Chairman*.

CALENDAR

SUBJECT—Application September 18, 1951—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a retail use district the manufacturing on all floors, not incidental to conduct of a retail business conducted on premises; using more than the permitted percentage of each floor.

PREMISES AFFECTED—171 Spring street, north side, 70 ft. 2 in. east of Thompson street, Block 502, Lot 41, Borough of Manhattan.

585-52-BZ—Vol. II

APPLICANT—Harry A. Yarish, for Joseph I. Lubin and Joseph Eisner, owners (Carl Spigel, lessee).

SUBJECT—Application reopened June 2, 1953 as Vol. II—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit in a restricted retail use district the parking and storage of motor vehicles, for a term of two years.

PREMISES AFFECTED—339-341 East 45th street, north side, 100 ft. west of 1st avenue, Block 1338, Lots 21 and 22, Borough of Manhattan.

147-52-BZ

APPLICANT—George Reichelmann, owner.

SUBJECT—Application February 23, 1952—re (decision of the borough superintendent) under section 7e of the zoning resolution, to permit in a residence use district the change in occupancy from restaurant and cabaret to existing factory use.

PREMISES AFFECTED—88-46 Linden boulevard and 90-06 Pitkin avenue, southeast corner, Block 11401, Lot 1, Ozone Park, Borough of Queens.

444-54-BZ

APPLICANT—Levy and Nevins, for Fred D. Robinson, owner (Herman Jacoby, lessee).

SUBJECT—Application June 3, 1954—re (decision of the borough superintendent) under sections 7c and 21 of the zoning resolution, to permit in a residence use district the maintenance of existing hand laundry in basement.

PREMISES AFFECTED—517 Manhattan avenue, west side, 84 ft. north of West 121st street, Block 1948, Lot 17, Borough of Manhattan.

672-54-BZ

APPLICANT—Michael A. Cardo, for Estate of John Capollaro, Rose Capollaro, Executrix, owner.

SUBJECT—Application September 13, 1954—re (decision of the borough superintendent) under section 7h of the zoning resolution, to permit the extension of existing legal parking and storage of motor vehicles in restricted retail use district to extend into the residence use district portion of plot.

PREMISES AFFECTED—26-34 City Island avenue, northeast corner of Belden street, Block 5637, Lots 61, 72, 75 and 139, Borough of The Bronx.

883-54-BZ

APPLICANT—Ingram S. Carner, for Shell Oil Co., owner.

SUBJECT—Application November 23, 1954—re (decision of the borough superintendent) under section 7A of the zoning resolution, to permit in an unrestricted use district the installation of a curb cut nearer the residence use district than is permitted.

PREMISES AFFECTED—933-941 Atlantic avenue and 504-516 Grand avenue, northwest corner, Block 2018, Lots 46, 49, 51, 52 and 53, Borough of Brooklyn.

41-55-BZ

APPLICANT—Lama, Proskauer and Prober, for 201-205 Park Row Corp., owner.

SUBJECT—Application January 14, 1955—re (decision of the borough superintendent) under section 7c of the zoning resolution, to permit in a retail use district the maintenance of existing use of more than permitted percentage of floor area for manufacturing.

PREMISES AFFECTED—201-203 Park Row, south side, 101 ft. 1 in. east of Roosevelt street, Block 117, Lot 21, Borough of Manhattan.

42-55-A

APPLICANT—Lama, Proskauer and Prober, for 201-205 Park Row Corp., owner.

SUBJECT—Application January 14, 1955—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—201-203 Park Row, south side, 101 ft. 1 in. east of Roosevelt street, Block 117, Lot 21, Borough of Manhattan.

HARRIS H. MURDOCK, *Chairman.*

MAY 3, 1955, 2 P. M.

NOTICE IS HEREBY GIVEN of a public hearing Tuesday afternoon, May 3, 1955, at 2 o'clock in Room 1013, Municipal Building, Manhattan, on the following matters:

50-55-SA

APPLICANT—Electric Pipe Line Inc., owner.

SUBJECT—Application January 14, 1955—Electric Pipe Line Inc., Electrical Pipe Line Equipment (fuel oil pre-heater), approval of.

93-54-SA

APPLICANT—Haughton Elevator Company, owner.

SUBJECT—Application January 15, 1954—Haughton Type L Interlock, approval of.

559-54-SA

APPLICANT—Liquidometer Corporation, owner.

SUBJECT—Application June 24, 1954—Liquidometer Remote and Direct Reading Float Type Gauges and Liquidometer Hydrostatic Type Gauges (for liquid level or volume of storage tanks), approval of.

480-54-SA

APPLICANT—Ohio Beverage Dispensers Inc., owner.

SUBJECT—Application May 27, 1954—Porto-Fill Unit (beverage dispenser), approval of.

960-54-SA

APPLICANT—Linde Air Products Company, Division of Union Carbide and Carbon Corporation, owner.

SUBJECT—Application December 8, 1954—Linde Driox Oxygen, Nitrogen and Argon Systems and Cold Converter Storage Units, Models M-50, M-90, M-100 and M-310, approval of.

498-54-SA

APPLICANT—Fulton Boiler Works Inc., owner.

SUBJECT—Application June 10, 1954—Fulton Gas-Fired Boiler Unit (to process steam and heating), approval of.

1137-40-SA—Vol. II

APPLICANT—The Silent Glow Oil Burner Corp., owner (A. R. Birkins, agent).

SUBJECT—Application reopened July 13, 1954, for reopening as to amendment—re Coronation Oil Burner, Model No. CRN; previously approved.

903-54-SM

APPLICANT—Liquid Plastics Corporation, owner.

SUBJECT—Application November 22, 1954—Plastispray (interior wall and ceiling covering—vencer), approval of.

790-42-SM—Vol. II

APPLICANT—United States Gypsum Company, owner.

SUBJECT—Application reopened February 8, 1955, for reopening as to amendment—re USG Rocklath and Diamond Liner (gypsum lath) Plasterboard with Aluminum Foil Backing; previously approved.

CALENDAR

388-48-SM—Vol. II

APPLICANT—The Bolta Company, owner.

SUBJECT—Application reopened January 18, 1955, for reopening as to approve—re Boltaflex Vinyle Sheeting; previously withdrawn.

203-54-A

APPLICANT—Elias K. Herzog, for Bert-Su-Realty Corp., owner.

SUBJECT—Application March 8, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—143-149 West 19th street, north side, 252 ft. east of 7th Avenue, Block 795, Lot 14, Borough of Manhattan.

204-54-A

APPLICANT—Elias K. Herzog, for Bert-Su-Realty Corp., owner.

SUBJECT—Application March 8, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—139-141 West 19th street, north side, 329 ft. 11 in. east of 7th avenue, Block 795, Lot 17, Borough of Manhattan.

319-52-A

APPLICANT—Simon Heller, for General Steel Products Corp., owner.

SUBJECT—Application May 7, 1952—re Appeal from a decision re orders of the fire commissioner, and a decision of the borough superintendent.

PREMISES AFFECTED—131-133 Avery avenue, north side, 185.82 ft. west of Lawrence street, Block 5066, Lot 622, Flushing, Borough of Queens.

390-54-A

APPLICANT—Frank Randazzo, for Thomas A. Franzo Corp., owner.

SUBJECT—Application May 17, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—606 Shepherd avenue, west side, 275 ft. north of Dumont avenue, Block 4068, Lot 31, Borough of Brooklyn.

552-52-A

APPLICANT—Lama, Proskauer and Prober, for Mary Vicario, owner (Ram Machine Co., lessee).

SUBJECT—Application July 16, 1952—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—57-13 59th street, east side, 24.75 ft. north of 57th road, Block 2692, Lot 2, Maspeth, Borough of Queens.

813-54-A

APPLICANT—Henry G. Harris, for Anna Sheinkin, owner.

SUBJECT—Application October 28, 1954—filed pursuant to section 310 of the Multiple Dwelling Law for variation of section 27 (2a) re minimum dimensions of legal yard.

PREMISES AFFECTED—616 East 17th street, west side, 182 ft. north of Foster avenue, Block 5237, Lot 22, Borough of Brooklyn.

985-54-A

APPLICANT—Charles M. Spindler, for Macon Operating Corp., owner.

SUBJECT—Application December 21, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—62-68 18th street, south side, 370 ft. west of Hamilton avenue, Block 632, Lot 4, Borough of Brooklyn.

HARRIS H. MURDOCK, *Chairman.*

MINUTES

BOARD OF STANDARDS AND APPEALS

(Remaining minutes of Meeting of March 29, 1955.)

737-53-BZ—Vol. II

APPLICANT—Ingram S. Carner, for Aquilino Brothers, Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II and consider construction of additional building, subject to regular procedure—re Application (decision of the borough superintendent), previously granted on condition, under sections 7c and 21 of the zoning resolution, permitting in a residence use district, the change in occupancy from non-storage garage for more than five motor vehicles and motor vehicle repair shop with storage of building materials in open area, to manufacturing use and storage of incombustible material in open area.

PREMISES AFFECTED—134-37 Dahlia avenue, north side, 100.63 ft. west of Main street, Block 5125, Lot 41, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Ingram S. Carner.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. II, subject to the regular procedure, to consider construction of additional building.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

532-41-BZ

APPLICANT—Lama, and Proskauer, for John H. Dair and Charles E. Smith, owners.

SUBJECT—Application (re decision of the borough superintendent) under section 21 of the zoning resolution to permit in a residence use district the erection and maintenance of a storage garage for more than three motor vehicles and an auto laundry.

PREMISES AFFECTED—45-12 to 45-20 79th street, northwest corner of Sixth avenue, Block 1530, Lot 42, Elmhurst, Borough of Queens.

APPEARANCES—

For Applicant: Milton Bromberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application dismissed. This application should have been withdrawn or dismissed at the time the companion A appeal was denied.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

816-53-BZ

APPLICANT—Paul Friedman, for Horace G. Fry, Frederick Doughty Wood and Maxwell R. Ginsberg, owners.

MINUTES

SUBJECT—Application for consideration—reopening and extension of time to complete—re Application (decision of the borough superintendent); previously granted on condition, under sections 7e, 7i, 7f, 7h and 21 of the zoning resolution, permitting in the local retail use, D area district portion of a plot located in a residence and local retail use, D and E-1 area district, the erection and maintenance of a structure to be used as an automobile showroom for authorized automobile dealer, office and storage of auto parts and accessories, including storage garage with gasoline tank and pump for dealer's use (no gaso" line to be sold) motor vehicle repair shop and paint spray booth, using more than the area permitted and permitting signs extending above top of roof beams and also on the side walls of pylon in the local retail use portion of plot and permitting the parking of patron's and employees motor vehicles on unbuilt upon portion of plot (no fee to be charged).

PREMISES AFFECTED—218-25 Hempstead avenue, north side, 185.25 ft. east of 218th street, Block 10766, Lots 53, 55 and 57, Queens Village, Borough of Queens.

APPEARANCES—

For Applicant: Paul Friedman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on March 30, 1954, on certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 30, 1954, as corrected, only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that work has not been commenced but work is proposed to be commenced that all permits required shall be obtained and all work completed within the requirements of Sections 22A of the Zoning Resolution from the date of this *amended* resolution." (NB App. 3042-53).

677-53-BZ

APPLICANT—Lama, Proskauer and Prober, for Marker Brothers Fresh Meadow Garage, Inc., owner.

SUBJECT—Application for consideration—reopening as to extension of time to complete—re Application (decision of the borough superintendent), previously granted on condition, under sections 7i and 7h of the zoning resolution, permitting in a business use district the erection and maintenance of a structure to be used for motor vehicle repairs, body and fender work, painting, spraying and welding and permitting the parking of cars waiting to be serviced.

PREMISES AFFECTED—61-26 to 61-30 Fresh Meadow lane, west side, 240.05 ft. south of Horace Harding boulevard, Block 6901, Lot 48, Flushing, Borough of Queens.

APPEARANCES—

For Applicant: Milton Bromberg.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened and time to complete work extended.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, this application was granted by the Board on March 2, 1954, on certain conditions; and

WHEREAS, the applicant requested an extension of time to obtain permits and complete the work.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on March 2, 1954, only so far as it has reference to the time within which to obtain permits and complete the work, so that as *amended* this portion of the resolution shall read:

"that in view of the statement by the applicant that plans have been approved by the Department of Housing and Buildings and the contract for construction has been let, that all permits required shall be obtained and all work completed within the requirements of Sections 22A of the Zoning Resolution from the date of this *amended* resolution." (NB 3367/53)

431-31-BZ—Vol. III

APPLICANT—Siegel and Green, for Land Properties Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. III—re Application (decision of the borough superintendent), previously denied, under section 21 of the building zone resolution, to permit in a business district the erection and maintenance of a gasoline service station.

PREMISES AFFECTED—2902-2912 Avenue U, south side, 2101-2113 E. 29th street and 2901-2911 Gravesend Neck road, Block 7362, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Volume III, to consider a new proposal; subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

184-37-BZ—Vol. II

APPLICANT—A. H. Salkowitz, for Cedarcroft Associates Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II to consider a new proposal—re Application (decision of the borough superintendent), previously denied, under section 21 of the building zone resolution, to permit in a residence use and "E" area district, the erection and maintenance of a multiple dwelling not conforming with the area requirements.

PREMISES AFFECTED—170-10 Cedarcroft road, southeast corner of Homelawn street, Block 9844, Lot 5, Jamaica Estates, Borough of Queens.

APPEARANCES—

For Applicant: A. H. Salkowitz.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application reopened as Vol. II to consider a new proposal subject to the regular procedure.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

1093-39-BZ—Vol. II

APPLICANT—William J. Heiser, for News Syndicate Company Inc., owner.

SUBJECT—Application for consideration—reopening as Vol. II as to extension in height of rear yard construction—re Application (decision of the borough superintendent of buildings), previously granted on condition, under section

(Continued on Page 584)

RULES

RULES FOR APPROVAL AND USE OF AIR ENTRAINING PORTLAND CEMENTS

Adopted by The Board of Standards and Appeals,
March 11, 1955, Effective April 4, 1955.
Cal. No. 64-55-SR

Authority.

Pursuant to the powers vested in the Board by Section 666, Subdivision 2 of the New York City Charter, to adopt rules to carry into effect the provisions of Section C26-312.0(c)2 of the Administrative Building Code, which permits the use of cements of "other types" when approved by the Board and used in accordance with rules of the Board governing their use.

Definitions.

- 1.0 "Air Entraining Cement," shall mean Portland Cements Types IA, IIA, and IIIA, meeting the requirements of ASTM Designation C-175-53.
- 1.1 "Approved," for the purposes of these rules, shall mean approved by the Board of Standards and Appeals as "cements of other types" for use in New York City, pursuant to Section C26-312.0(c)2 of the Administrative Building Code.
- 2.0 "Air Entraining Cements," when approved may be used in New York City wherever the use of Portland Cement is permitted by the Administrative Code, under the following conditions:
- 2.1 Concrete containing air-entraining cement shall have a minimum air content of 3 percent and a maximum air content of 9 percent.
- 2.2 Mixing of concrete containing air-entraining cement shall conform to the provisions of Section C26-499.0 of the Administrative Code, except that the percentage of fine to coarse aggregates by weight shall be not less than 40 percent nor more than 100 percent.
- 2.3 When plain concrete containing air-entrained cement is used pursuant to Section C26-311.0 of the Administrative Code, the maximum allowable water cement ratio shall be $7\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.4 When average concrete containing air-entrained cement is used pursuant to Section C26-365.0 b-1 of the Administrative Code, the maximum allowable water cement ratio shall be $6\frac{1}{2}$ U. S. gallons per sack of cement.
- 2.5 When average concrete containing air-entraining cement is used pursuant to Section C26-365.0 b-2 of the Administrative Code, the maximum allowable water cement ratio shall be 6 U. S. gallons per sack of cement.

The following statement is explanatory only of the reasons presented to the Board for adopting the rules, but in no way is any part of this statement to be considered as contravening any part of the rules adopted.

Statement.

Since 1946 the Board has received several applications for approval of air entraining cements but has not acted on such applications as it was felt that the use of such cements should not be permitted as Portland Cements under Sec. C26-312.0(a)1 of the Administrative Code.

The Engineering Division was assigned the task of examining the question whether air entraining cements should be approved under Sec. C26-312.0(a)2 of the Administrative Code, and determining what rules were necessary to govern their use.

ASTM Designation C175-53, as adopted by the American Society for Testing Materials, 1953, have been promulgated relating to types 1A, 2A and 3A cements when manufactured with air entraining additions interground with the clinker at the mill. Such additions are required to comply with ASTM Designation C226-51T.

Committee 613 of the American Concrete Institute met at Boston in February of 1953 and adopted "Recommended Practice for Selecting Proportions for Concrete", which include recommendations for the use of air entraining cements and the use of admixtures at the point of concrete mixing.

Studies of the effect entrained air on the strength and durability of concrete have been made by the Research and Development Division of the Portland Cement Association.

Federal Specification SS-C-192a, approved and promulgated April 22, 1952, covering Portland Cement, includes Types 1, 2, 3, 4, and 5 air-entraining cements for use by all Federal Agencies and limits the use of air-entraining agents to an amount less than 1 percent.

The use of air-entraining cements in concrete will result in an increase in workability and cohesiveness, a reduction in segregation and bleeding, increased resistance to the action of sulfate waters and will produce a more homogeneous and more durable concrete.

Air-entraining agents introduce into the concrete a larger amount of air than is usually found in concrete. Unlike the air usually found in concrete, intentionally entrained air exists in minute disconnected bubbles well distributed throughout the mass. These bubbles serve as reservoirs to accommodate expansion resulting from freezing of water within the concrete.

Thus, air-entrained concrete contains a larger amount of air and requires less water than normal concrete, and since each of these factors affect the yield and cement content of the mix, generally air-entrained concrete mixes should be designed by decreasing the sand volume by an amount equal to the net change in the volume of air plus water, as compared to a normal concrete mix designed to provide the same yield and cement content.

Although entrained air increases workability and durability, it tends to reduce strength of concrete except in very lean mixes. Bond strength ratios are influenced essentially in the same manner as compressive strength when the air content of the concrete is increased.

The reduction in compressive and bond strengths with increased air content is less for air-entrained concretes made with aggregates having a maximum size of $\frac{3}{8}$ " than for air-entrained concretes made with aggregates of $1\frac{1}{2}$ " to 2" maximum sizes.

Mixing time has a significant effect on the air content of concrete made with air-entraining cement. After ten minutes mixing there is a gradual decrease in air content of the mix.

As a result of studies made by H. W. Russell, Engineer of Materials, Illinois State Highway Division, and Eivind Hognestad of the University of Illinois, it was found that bond was reduced about 10 percent on vertically cast bars when 4.5 percent air was entrained and 5 to 15 percent on horizontally cast bars when the amount of air entrained exceeded 4 percent.

Report of W. A. Gordon, published in the proceedings of the American Concrete Institute, June 1946, Vol. 42, page 605, contains test data to show that entrained air in concrete has an effect on the modulus of elasticity similar to its effect on compressive strength. Moduli of elasticity are reduced from 2 to 3 percent for each percent of air entrained.

Test results reported by H. F. Gunnerson in the June 1944 proceedings of the American Concrete Institute (Vol. 40, page 477) indicate a reduction of modulus of rupture of up to 13 percent when up to 6 percent of air is entrained.

Report of R. F. Blanks and W. A. Gordon published in the Feb. 1949 proceedings of the American Concrete Institute (Vol. 45, page 469), describes test results that show that air-entrained concrete is more resistant to the passage of moisture and segregation than non-air entrained concrete.

The adoption of Rule 2.1 is necessary as resistance to freezing and thawing is not materially improved when air contents are below 3 percent and air contents above 9 percent cause excessive strength losses without materially increasing durability.

The adoption of Rule 2.2 is necessary as the use of high percentages of fine to coarse aggregates as permitted by Section C26-499.0 of the Administrative Code could lead to excessive strength losses due to high air content in general usage without considerable reduction in water cement ratios and rigid control of consistencies.

The adoption of Rules 2., 2.4 and 2.5 is recommended based on the report of Committee 613 of the American Concrete Institute as presented by the Committee to the American Concrete Institute convention held at Boston February of 1953, as published in the October 1953 issues of the Journal of the American Concrete Institute.

RULES

RULES FOR THE TESTING AND USE OF BLENDED CEMENTS

ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, AUGUST 2, 1940. EFFECTIVE, IN ACCORDANCE WITH SECTION 665, SUBDIVISION C, OF THE NEW YORK CITY CHARTER, AUGUST 26, 1940.

(584-39-SR)

Authority:

Pursuant to the Authority vested in the Board of Standards and Appeals by Section 666, paragraph 2, Charter of the City of New York, and C26-189.0, Administrative Building Code (2.2.1.1), and C26-312.0, paragraph c, subdivision 2, Administrative Building Code (7.1.1.7.3) reading: "Nothing herein contained shall be construed to prohibit the use of cements of other types which are approved by the board and are used in accordance with rules of the board governing their use."

1.0 Scope.

1.1 The intent of these rules is to provide a basis for the use of blended cements other than Portland Cement. Subject to the restrictions in the approval of the Board as to each brand, such blended cements may be used as substitutes for Portland Cement on an equivalent weight basis where Portland Cement is permitted.

2.0 Blended Cements.

2.1 Blended cements shall include an intimately interground mixture of approved Portland Cement with natural or artificial products composed of silica and alumina, which shall be mixed with Portland Cement in limited proportions, (except as may be otherwise provided for in the Administrative Code) and which will react in the presence of water to form a hydraulic cement.

2.2 Admixtures to Portland Cement shall have a previous record of satisfactory experience.

2.3 These rules shall not be applicable to harmless materials used as coloring, waterproofing, plasticizing, and freezing preventatives when used as admixtures to Portland Cement in quantities not in excess of 1%.

3.0 Manufacture and quality of Blended Cements.

3.1 A flow sheet in duplicate showing the process of manufacture and blending shall be filed with the Board as part of any application for approval which shall include the origin and the amount of materials used and proof as to quality and uniformity.

4.0 Available supply of raw materials.

4.1 Evidence shall be filed with the Board showing the potential supply of raw material available to the manufacture.

5.0 Fineness.

5.1 The specific surface shall be not less than 1800 sq. cm. per gram, as determined by methods of test described in A.S.T.M. specifications C115-38T.

5.2 The residue shall not exceed 15% by weight on a No. 325 standard sieve.

6.0 Soundness.

6.1 A pat of neat cement of normal consistency shall be subjected to tests for soundness by the methods outlined in A.S.T.M. specifications C77-36, and when

so tested it shall show no signs of distortion, cracking, checking or disintegration when subjected to the steam test, nor shall the expansion of the pat be greater than 5mm, when molded in Le Chatelier tong and stored in a standard moist closet for 24 hours.

6.2 In addition to these requirements, the expansion of three 1" x 1" x 10" bars of neat cement of normal consistency when subjected to the Autoclave test. A.S.T.M. tentative method, shall not have an expansion in excess of 0.75%.

7.0 Time of set.

7.1 Time of setting shall be determined by test described in A.S.T.M. Specification C77-36, and the mortar so tested shall not develop initial set in less than one hour and final set in more than 10 hours, as tested with Vicat or Gillmore needle.

8.0 Compressive strength for normal blended cements.

8.1 The average compressive strength of five 2-inch mortar cubes composed of one part of blended cement and 2.75 parts graded Ottawa sand by weight shall be not less than the following:

Age at Test	Storage of Cubes	*Compressive Strength
7 days	1 day in moist air, 6 days in water	2200 lbs. sq. in.
28 days	1 day in moist air, 27 days in water	3500 lbs. sq. in.

*When tested in accordance with Fed. Spec. SS-C-158

8.2 Tensile Strength.

The average tensile strength in lbs. sq. in. of not less than 5 mortar briquets composed of one part cement and 3 parts of Ottawa sand, by weight, shall be equal to or greater than the following:

Age at Test	Storage of Briquets	Tensile Strength Lbs. Sq. In.
3 days	1 day in moist air, 2 days in water	175
7 days	1 day in moist air, 6 days in water	275
28 days	1 day in moist air, 27 days in water	350

The average tensile strength of the mortar at 7 and 28 days shall be higher than that at 3 and 7 days respectively.

9.0 Blended cements having other properties.

9.1 When approval of the board is requested for the use of Blended Cements having high early strength, sulfate resistance or low heat of hydration, application shall be made to the board for additional tests to develop these properties.

PUBLIC HEARINGS

Tuesdays at 10 a.m. to 2 p.m.

Special meetings as published in this Bulletin.

All hearings are held in Room 1013, Municipal Building,
Borough of Manhattan.

HOURS OF CONSULTATION

10. A. M. to 1 P. M.

Any person desiring to consult the chairman or the
engineers, pertaining to the work of the board, will be
seen only between the hours of ten in the morning and
one in the afternoon—Saturdays excepted.

NOTICE TO APPELLANTS AND APPLICANTS

No appeal or application will be entertained in connection
with which court proceedings are pending or in progress,
unless exception is granted by the chairman, nor accepted
which is not filed within thirty days from the date of the
action of the Administrative Official.

Any communication purporting to be an appeal or appli-
cation shall be regarded as a mere notice of intention to seek
relief until it is filed on the form required by the rules of
this board.

Upon receipt of any such communication the writer will
be supplied with the official forms for presenting his appeal
or application.

At the time of filing an appeal or application, the appel-
lant or applicant shall forward a signed notice of appeal
addressed to the administrative official either borough super-
intendent of buildings or fire commissioner and file with
this board a duplicate of said notice.

Appellant and applicants are advised that their plans must
indicate the points of the compass so as to establish the true
location and position of the property, the subject of the
appeal or application.

Appeals and applications will be simplified and disposition
of same expedited by conforming to these directions.

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 25, 1955 after due notice by publication in the Bulletin; laid over to February 23, 1955, for inspection and decision, without further argument, and for consideration of any action taken by the Magistrate's Court; hearing closed; then to March 8, 1955, applicant to consult with the Park Department as to approved plans for 30 foot restriction, and for revised plans; then to March 15, 1955, applicant to file revised plans to meet the Park Department requirements; then to March 22, 1955, at request of applicant in order to file revised plans; then to April 12, 1955, for applicant to submit revised plans; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Sheepshead Bay road are in a retail use, C area, class 1 height district; Ocean parkway and West 1st street are in residence, local retail and retail use, C area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated October 29, 1952 acting on Alt. Applic. 946-52, reads:

"5. Proposed occupancy of a building, in a business use district, for lubritorium, car washing and minor auto repairs in conjunction with premises proposed to be occupied for office, and sales, storage, lubrication, gasoline service station and parking and storage of motor vehicles is contrary to Art. II, P. 4(a) subsections 29 and 46 of the Zoning Res."

and

WHEREAS, the decision of the borough superintendent, dated October 29, 1952 acting on Alt. Applic. 947-52, reads:

"9. Proposed changes to an existing gasoline service station in a business use district to office and sales, storage, lubrication, gasoline service station and parking and storage of motor vehicles in conjunction with building to be used for lubritorium, car washing and

minor auto repairs is contrary to Article II P. 4(a), subsections 29 & 46 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 232.79 ft. frontage by 47.42 ft. in depth, irregular; that the premises are presently being used as a gasoline service station consisting of seven 550 gallon storage tanks and one 1000 gallon gasoline tank and six dispensing pumps; that under Fire Department permit Alt. 129-1919 the part of the premises having a frontage of 40 ft. on Ocean parkway and 100 ft. on Sheepshead Bay road was developed as a gas station; that under Alt. 396-1925 the part of the premises having a frontage of 49 ft. 7 in. on West 1st street and 116 ft. on Sheepshead Bay road was developed as a gas station; that building No. 1 was erected under permit No. 9593/33 as an automobile showroom for which certificate of occupancy No. 75816 was issued, and later altered under 379-1944 and certificate of occupancy No. 112193 was issued for light manufacturing; that building No. 2 was originally erected under N.B. 3527-1928 for the sales of auto accessories and certificate of occupancy No. 54093 was issued for this use; that permit No. 3527-28 indicates the gasoline station as having a frontage of 232 ft. 9 in. on Sheepshead Bay road, 47 ft. 5 in. on Ocean parkway and 49 ft. 6 in. on West 1st street, although certificate of occupancy No. 54093 does not mention said gasoline station; that it is proposed to maintain the present gas station, to remove the present gasoline pumps and install four new approved type gasoline pumps; that building No. 1 having a frontage of 41 ft. 8½ in. on West 1st street and an irregular depth of 32 ft., of class 3 construction, is to be altered and used for minor auto repairs, car wash and lubritorium; that building No. 2 having a frontage of 40 ft. and a depth of 16 ft. 5¾ in., of class 3 construction, is to be used for its present use as office and sales room; that the present metal garage and open grease pits are to be removed; that the present curb cut on Ocean parkway and also on West 1st street is to be removed and all entrances and exits to the gas station are to be confined to Sheepshead Bay road; and

WHEREAS, the applicant contends that the rehabilitation of this present legal gas station will do much to improve the appearance of the community; that the removal of the curb cuts on Ocean parkway and West 1st street will create a safer pedestrian condition; that the present sign standard at the corner of Sheepshead Bay road and Ocean parkway is to be removed; and

WHEREAS, the applicant states that the present owner has held title to the property since April 7, 1946; that the assessed valuation of land is \$41,000 and of the buildings \$17,000 making a total of \$58,000; that the buildings were erected 1918 and 1919; and

WHEREAS, the premises and surrounding area were inspected by a Committee of the Board; and

WHEREAS, this was laid over for approval of the Park Department as to the area adjoining Ocean Parkway; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the application of the use district regulations of the zoning resolution and that the application be and it hereby is granted under Section 7c to permit reconstruction and rearrangement of the lawfully existing gasoline service station, substantially as proposed and as indicated on plans filed with this application marked, "Received, October 31, 1952" (one sheet), "October 14, 1954" (3 sheets), and revised plans marked, "Received, April 11, 1955" (2 sheets), on condition that all existing buildings and uses not proposed to be maintained shall be removed and the premises shall be reconstructed and rearranged as indicated on such revised plans; that pumps shall be a low approved type and erected not nearer than ten (10) feet to the street building line of Sheepshead Bay Road; that the number of tanks shall not exceed ten 550 gallon approved gasoline storage tanks; that the accessory building shall comply with the requirements of the Building

MINUTES

Code therefor; that there shall be no cellar under such building; that such building shall be faced with face brick; that the portion of the premises within 30 feet of Ocean Parkway shall be arranged and maintained as indicated on such revised plans marked, "Received, April 11, 1955", to the satisfaction of the Park Commissioner; that curb cuts shall be restricted to one curb cut to Ocean Parkway as shown, namely 27 feet, and three curb cuts to Sheepshead Bay Road located where shown and each not over 30 feet in width; that there shall be no curb cuts to West First Street; that on the lot line to the north, where walls of buildings do not occur there shall be either the existing brick wall or a new masonry wall not less than five feet six inches in height except that such wall may be reduced to a height of not less than four feet six inches within ten feet of the street building line of Ocean Parkway; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that where not occupied by buildings or pumps the premises shall be paved with concrete or asphaltic pavement; that sidewalks and curbing around the premises shall be reconstructed or restored to the satisfaction of the Borough President; that under Section 7i there may be minor repairs maintained within the accessory building for adjustments only and under Section 7c there may be parking and storage of motor vehicles provided such parking and storage does not interfere with the servicing of the station; that signs shall be restricted to a permanent sign attached to the facade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and all temporary signs but permitting the erection within the building line of West First Street and Sheepshead Bay Road of a post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four feet; that at the intersections of West First and Sheepshead Bay Road and also at Ocean Parkway and Sheepshead Bay Road there shall be a block of concrete extending for a distance of not less than five feet along either building line and not less than 12 inches in height; and that all permits shall be obtained and work completed within the requirements of Section 22A of the Zoning Resolution.

788-52-A

APPLICANT—Lama, Proskauer and Prober, for Brookboro Development Corp., owner.

SUBJECT—Application October 31, 1952—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—397-417 Sheepshead Bay road and 2916-2920 Ocean parkway, northwest corner and 2921-2925 West 1st street, Block 7276, Lot 1, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated December 3, 1954, on Alt. App. 947/52, reads:

"11. Curb cut within the 30 feet required setback from Ocean Parkway is in violation of Chapter 21, Para. 532-11.0 of Park Department regulations."

and

WHEREAS, the applicant states the premises consist of a lot 232.79 ft. front by 47.42 ft. irregular in area in a business use, C area, Class 1 height district, upon which there exists a one story building, 11 ft. 6 in. in height, Class 3 construction, 40 ft. front by 15 ft. ¼ in. in depth, used and

occupied since 1919 as a gasoline service station and for light metal manufacturing, office, sales and grease pits. The premises are now proposed to be used and occupied as follows: office, sales, storage, lubrication, gasoline service station, parking and storage of motor vehicles, car washing and minor repairs; and

WHEREAS, the applicant states that under Fire Department Permit #129 of 1919 the portion of the premises fronting 40 ft. on Ocean Parkway and 100 ft. on Sheepshead Bay Road was developed as a gasoline station; that under Fire Department Permit #396/25 part of premises fronting 49 ft. 7 in. on West 1st street and 116 ft. on Sheepshead Bay Road was developed as a gasoline service station; that Building #1 was erected under Permit #9523/33 as an automobile showroom and Certificate of Occupancy #75816 was issued for this use; that this building was altered under Alt. App. 379/44 and Certificate of Occupancy #112193 issued for manufacturing; that Building No. 2 was erected under N. B. App. 3527/28 for the sale of auto accessories and Certificate of Occupancy #54093 issued for this use; that Permit #3527/28 indicates the gasoline service station as having a frontage of 232 ft. 9 in. on Sheepshead Bay Road, 47 ft. 5 in. on Ocean Parkway and 49 ft. 6 in. on West 1st street, although Certificate of Occupancy #54093 does not mention the gasoline station; there are no permits for the existing metal garage on the premises; and

WHEREAS, the applicant contends that the proposed curb cut within the required 30 ft. setback from Ocean Parkway is required for the efficient operation of the gasoline service station; that this curb cut cannot be held to be construction work within the 30 ft. setback; that no work will be performed within this 30 ft. setback; this portion of site to be used merely as a driveway for the gasoline station; and

WHEREAS, the applicant states that Curb Cut Permit No. A-16270 was issued for a 15 ft. curb cut on Sheepshead Bay Road, 15 ft. from Ocean Parkway, so that the curb cut as proposed will only replace the present legal curb cut; and

WHEREAS, the applicant states that Curb Cut Permit No. 58904 was issued for an additional 10 ft. curb cut and a 15 ft. curb cut on Sheepshead Bay Road, that Curb Cut Permit No. A-95522 was issued for a curb cut on West 1st street.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 947 of 1952, Objection 11, be and it hereby is modified, and that the appeal be and it hereby is granted on condition that the requirements as to curb cuts as set forth in the resolution adopted this day under Calendar No. 787-52-BZ shall be complied with.

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 8, 1955 after due notice by publication in the

MINUTES

Bulletin; laid over to April 12, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and Clermont avenue are in a residence use, B area, class 1 height district; Park avenue is in residence and local retail use, B area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated April 15, 1954 acting on Alt. Applic. 4811-53, reads:

"1. In a residence use district the proposed 'Parking & Storage of more than 5 motor vehicles and Used Car Sales' is contrary to Art. II Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 12 ft. 7 in. frontage by 100 ft. in depth, irregular, presently vacant; that it is proposed to use vacant lot for the parking and storage of motor vehicles and the sale and display of used cars; and

WHEREAS, the applicant further states that this lot was formerly unrestricted and was changed to a restricted area (residential) in 1948; and

WHEREAS, the applicant further states that he is a veteran of World War II and is unemployed and that if permission is granted to use this lot as a parking lot and used car sales, he would be provided with a livelihood; that the lot is too small to erect a building; and

WHEREAS, the applicant contends that it is unjust to have to pay taxes and have absolutely no use of the property; that at the time the lot was purchased it was in an unrestricted zone, but during the time he was in the army it was changed to a restricted zone; and

WHEREAS, the applicant states that the present owner has held title to the property since June 12, 1946 and that the assessed valuation of land is \$2,600; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and the committee recommends that the application should be granted; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivisions e and h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Sections 7e and 7h for a term of five years to permit the premises to be occupied as proposed and as indicated on plans filed with this application marked, "Received, April 19, 1954" (2 sheets) for the sale of motor vehicles and parking of motor vehicles *on condition* that all buildings and uses on the premises shall be removed; that the premises shall be levelled substantially to the grade of Park Avenue and shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that sidewalks and curbing abutting the premises shall be maintained to the satisfaction of the Borough President; that openings to the premises shall not exceed one curb cut to Park Avenue not over 25 feet in width; and that in all other respects the premises shall be maintained in accordance with the requirements therefor; that suitable fences shall be maintained on the lot lines; that a certificate of occupancy shall be obtained and that all permits shall be obtained and all work completed within six months of the date of this resolution.

689-54-BZ

APPLICANT—Lama, Proskauer and Prober, for Lillian Kimmel, owner.

SUBJECT—Application August 19, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a residence use, E-1 area district the maintenance of two-family dwelling, without the required side yards.

PREMISES AFFECTED—1328 President street, south side, 100 ft. west of Brooklyn avenue, Block 1284, Lot 35, Borough of Brooklyn.

APPEARANCES—

For Applicant: Alfred A. Lama.

For Opposition: Joseph Krinsky.

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on January 4, 1955 after due notice by publication in the Bulletin; laid over to January 11, 1955 at the request of an objector; no further requests for adjournment; then to February 1, 1955, for applicant to report to the Board as to zoning change; then to March 1, 1955, for inspection and decision without further argument; hearing closed; then to March 22, 1955, for applicant to obtain an additional decision, from the Borough Superintendent, under Section 19g, and also as to whether the 3rd floor is occupied as a separate space complying with the requirements for a two-family building or is in the category of a single family house with rooms rented out; then to April 12, 1955, for further consideration by the Board; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, President street and Brooklyn avenue are in a residence use, E-1 area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated August 10, 1954 acting on Alt. Applic. 2846-54, reads:

"1. A dwelling for 2 families, located in an E-1 district requires two side yards as per Art. 4 Sect. 15(A) (b) of the zone resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 125 ft. 7 in. in depth; that as of July 25, 1916 the premises were in an E area district and on July 18, 1946 it received its present area designation; that the premises are occupied with a three story building of class 3 construction, having a frontage of 20 ft. and a depth of 63 ft. and as a two family dwelling, one family occupying the first and second floors and one family occupying the third floor; that no records are available in the department of housing and buildings showing the erection of the original building; that the records show that on December 9, 1946 Alt. Applic. 5043-1946 was to convert this building from a one family dwelling to a two family dwelling and in this application it was erroneously stated that the premises were in an E area district; that it is proposed to permit this dwelling to remain as a two family dwelling; that it is also proposed to maintain the present 28 ft. 8 in. by 23 ft. garage, of Class 3 construction, as an accessory use for three cars; and

WHEREAS, the applicant contends that the building in question was erected as a one family dwelling simultaneously with the building on adjoining lot No. 34; that at that time the lot had a frontage of 25 ft. and the building had only a side yard of 5 ft., the same as now exists on the adjoining building on lot 34; that under this application the owner has added an additional 30 ft. to this plot, said 30 ft. having been owned by her also, and the site in question now has a frontage of 55 ft.; that the owner, by adding one family to the present occupancy, has also created a 35 ft. side yard in lieu of a 15 ft. side yard; that although two side yards are required to legally convert this building to a two family dwelling in an E-1 zone, the 35 ft. side yard as proposed is 20 ft. greater in width than the 15 ft. required under section 15A(b) of the zoning ordinance; that the layout of the building is such that only one side yard is required for proper ventilation of all rooms as the building is built with

MINUTES

a party wall on the easterly lot line and an additional side court would not give any more light and ventilation than if this building with a blank wall would be located 5 ft. from the lot line in lieu of being on the lot line; that the 35 ft. side court as proposed will give more light and ventilation to the adjoining building on lot No. 38; that it is therefore clearly shown that a greater benefit is rendered to the only affected property owner on lot 38 by having more than the required side yards all on one side for the site in question; that this house complies in all respects to the administrative code of New York City; that in view of the above facts and as this 12 room house is over average in size for the normal needs of only one family and the house being high in assessed valuation, it would be an undue hardship upon the owner to be relieved of an income that she requires to pay city taxes and maintain the house in a livable condition, it is requested that this application be granted; and

WHEREAS, the applicant states that the present owner has held title to the property since November 20, 1945; that the assessed valuation of land is \$5,500 and of the building \$12,500 making a total of \$18,000; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; the new amendment to the Zoning Resolution, to Section E-1, apparently will take care of this; the Board has not been informed whether this has been adopted by the Board of Estimate; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 to permit the building as proposed to be occupied for two families in accordance with plans filed with this application marked, "Received, August 19, 1954" (4 sheets) and "January 27, 1955" (3 sheets), *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that the building shall be arranged as required by the Building Code so that the quarters occupied by the two families are separated one from the other; that all permits and a new certificate of occupancy shall be obtained and all work completed within six months from the date of this resolution.

699-54-BZ

APPLICANT—Henry Nordheim, for Angelo Sangiorgio, owner.

SUBJECT—Application September 14, 1954 (decision of the borough superintendent), under section 7h of the zoning resolution, to permit in a residence use district the parking and storage of motor vehicles on unbuilt upon portion of lot.

PREMISES AFFECTED—2231 Belmont avenue, west side, 150 ft. south of East 183rd street, Block 3086, Lot 36, Borough of the Bronx.

APPEARANCES—

For Applicant: H. Nordheim.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF Board—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative 0

Absent: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 15, 1955 after due notice by publication in the

Bulletin; laid over to April 12, 1955, for inspection and decision without further argument; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, B area, class 1¼ height district; Belmont avenue is in residence and business use, B area, class 1¼ height districts; East 183rd street is in a business use, B area, class 1¼ height district; and

WHEREAS, the decision of the borough superintendent, dated September 8, 1954 acting on Alt. Applic. 766-54, reads:

"1. Parking and storage in a residence district is contrary to Sec. 3 of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 50 ft. frontage by 100 ft. in depth, on which is located a frame dwelling in which the owner resides; that it is proposed to use unbuilt upon lot for the parking and storage of motor vehicles; that the site could accommodate only 14 cars at most; and

WHEREAS, the applicant contends that the site is on level with street grade and is now surfaced with trap rock; that to guard the property at the rear lot line, there now exists a 2 ft. high by 12 in. thick concrete wall which serves to protect the safety of property and persons; that the parking of cars on this plot, located in a residence district, could not possibly be of any more disturbance to the neighborhood than what is caused by the fire engines leaving the fire house that exactly adjoins the plot on its south lot line; that Belmont avenue is only 50 ft. wide so that if fewer cars were parked in the street it would be an advantage to traffic and also reduce the fire hazard; and

WHEREAS, the applicant states that the present owner has held title to the property since July 25, 1951; that the assessed valuation of land is \$7,000 and of the building \$2,500 making a total of \$9,500; that the building was erected 1904; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; the inspection has been made and due notice has been made of the fact that the surrounding area and also the premises have been used for the use now proposed without a permit and the Committee recommends that the application should be granted for a temporary term on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of two years to permit the premises to be occupied as proposed, where unbuilt upon, and as indicated on plans filed with this application marked, "Received, September 14, 1954" (2 sheets), for parking and storage of more than five motor vehicles *on condition* that the existing conditions shall be maintained and that no signs shall be erected on the premises except that there may be a small sign not over ten square feet in area attached to the fence not extending over the building line advertising the parking use and the rates charged and such other information as may be required by the Commissioner of Licences; that such portable fire fighting appliances shall be maintained as the Fire Commissioner shall direct; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

ert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; laid over to April 12, 1955, for inspection and decision; hearing closed; and

WHEREAS, the district maps accompanying the zoning resolution show that the site is in a residence use, D area, class 1 height district; Hermany avenue is in residence and business use, D area, class 1 height districts; Zerega avenue is in business and unrestricted use, D area, class 1 height districts; and

WHEREAS, the decision of the borough superintendent, dated September 15, 1954 acting on Alt. Applic. 797-54, reads:

"1. In a residence district the proposed change of use from a dwelling to offices is contrary to Section #3 of Art. II of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 25 ft. frontage by 103 ft. in depth, on which is located a two story and basement brick building, erected under N.B. 573-14 and completed in 1916 as a two family residence; that it is proposed to use this building as offices in conjunction with adjoining milk pasteurization and distribution plant 2334 Hermany avenue; that the property is located in a residence use, D area, class 1 height district; that this entire area was zoned as unrestricted when the zoning resolution was enacted and the zone was changed to residential on April 26, 1945; and

WHEREAS, the applicant contends that on May 2, 1952 an application for a variance was filed under Cal. No. 602-51-BZ, Vol. III to increase the height of the adjoining legally existing milk plant at 2334 Hermany avenue; that the main purpose of this extension was to supply added office space to the existing office space on the east portion of the 2nd floor; that the Board granted the application and the east extension on the 2nd floor was erected and is now in use; that the Board of Health recently passed new regulations requiring that unoccupied area around the pasteurization and bottling machinery and equipment be increased from 25% to 50%; that in order to comply with this regulation it will be necessary to remove the old existing offices on the original 2nd floor, leaving only those granted by the Board; that this condition puts the owners back to the same predicament as before, so they propose to alter the adjoining brick building to the east from two family residence to office space required for the milk plant; that it is proposed to alter the brick residence into offices used in conjunction with adjoining milk plant; that all requirements of the building code will be complied with in altering the building, which will have only one fire door on the 2nd floor connecting it to the remaining offices in the milk plant; that this section has always been undeveloped and except for about 20 private dwellings has been the same since the enactment of the zoning resolution; that most of these residences were erected while the zone was unrestricted and no new dwellings have been erected in the immediate area since 1945, when the district became residential; that the proposed office use would in no way affect the character of the neighborhood but would greatly increase the efficiency of the milk plant; that light or ventilation of the adjoining property to the east would in no way be affected; and

WHEREAS, the applicant states that the present owner has held title to the property since June 12, 1954; that the assessed valuation of land is \$800 and of the building \$7,300 making a total of \$8,100; that the building was erected 1914; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision c of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7c for a term of ten years to permit the existing building to be changed from residence to office use as proposed and for use in conjunction with the adjoining premises which were subject to action by the Board under Calendar No. 602-51-BZ, Vol. II and as indicated on plans filed with this application marked, "Received, October 13, 1954" (5 sheets), *on condition* that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto for the use proposed; that all permits shall be obtained, including a certificate of occupancy and all work completed within the requirements of Section 22A of the Zoning Resolution.

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 206 ft. in depth, presently vacant; that the premises also has a frontage of 150 ft. on Turnbull avenue (not yet cut through); that the plot is located primarily in a residence, D-1 district with 9 ft. at the east located in a business district; that the section was

MINUTES

zoned for unrestricted use until April 26, 1945 when it was changed to residence with the west 200 ft. frontage on Zerega avenue business, and the east side of Zerega avenue remaining unrestricted; that it is proposed to use this plot for parking of drivers' cars and small milk delivery trucks, used in conjunction with the milk pasteurization and bottling plant operated by the owners at 2334 Hermany avenue (50 ft. to the west; and

WHEREAS, the applicant contends that this section has always been undeveloped and Turnbull avenue has not even been graded or cut through to Zerega avenue, and except for about 20 private residences, has been the same since the zoning resolution was enacted; that all residences in the vicinity were erected while the section was unrestricted, some even before zoning laws; that no new residential buildings have been erected in the immediate area since 1945, when the zone was changed to residential; that the section is mainly vacant land, non-conforming uses and old residences, and the City of New York has erected a large garage and incinerator about 271 ft. east of the subject plot; that the owners need this additional parking space to keep the streets clear; that in 1952, the Board granted permission under Cal. No. 602-51-BZ to use the lot to the west of the milk plant for parking; that this plot is nearer to the unrestricted area and a small strip is in the business zone which it abuts to the east; that this land would never be used for the erection of homes and by permitting the owners to utilize it as proposed, for a period of five years, would not harm the neighborhood or adjoining owners in any way; that it is proposed to erect a chain link fence around the property, after leveling it off in a substantial manner; and

WHEREAS, the applicant states that the present owner has held title to the property since October 1954 and that the assessed valuation of land is \$5,200; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; this involves extension of a parking use in connection with a parking use which has been permitted for the adjoining milk establishment on adjoining lots which was subject to action by the Board under Calendar No. 602-51-BZ, Vol. II; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision h of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7h for a term of five years to permit the additional parking area to be used in conjunction with a similar use on the adjoining lots to the west which were subject to action by the Board under Calendar No. 602-51-BZ, Vol. II, *on condition* that all vehicles used in connection with such milk business and cars owned personally shall be parked in such lots and not on the street; that there shall be erected on the interior lot lines and on the street building line of Turnbull Avenue and Hermany Avenue a woven wire fence of the chain link type erected on a masonry foundation to a total height of five feet six inches; that there shall be no openings therein except two to Hermany Avenue not over fifteen feet in width with curb cuts of similar width; that such openings shall be fitted with gates of similar construction and normally kept closed; that the premises shall be surfaced with clean gravel or steam cinders and treated with a binder and properly rolled; that the fence between the proposed parking area and the adjoining existing parking area may be removed; that such other general conditions as are included in the resolution adopted under Calendar No. 602-51-BZ, of February 13, 1952 shall be complied with as to all parking areas; and that all permits shall be obtained, including a certificate of occupancy and all work completed within six months from the date of this resolution.

778-54-BZ

APPLICANT—Charles M. Spindler, for Tally-Ho Realty Corp., owner.

SUBJECT—Application October 14, 1954 (decision of the borough superintendent), under section 7e of the zoning resolution, to permit in a residence use district the erection and maintenance of a gasoline service station, auto washing, lubritorium, motor vehicle repairs, storage and sale of accessories and office, for a term of fifteen years.

PREMISES AFFECTED—1320-1342 Remsen avenue, west side, 263 ft. 10¾ in. north of Avenue K, Block 8041, Lot 56, Borough of Brooklyn.

APPEARANCES—

For Applicant: Joseph C. Haus.

For Opposition: M. Strart.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Commissioners Kleinert and Keating..... 2

Negative: Chairman Murdock and Deputy Chief Connolly 2

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on February 23, 1955 after due notice by publication in the Bulletin; laid over to March 22, 1955, for inspection and decision; hearing closed; then to April 12, 1955, for further inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Remsen avenue and Avenue K are in a residence use, D area, class ½ height district; and

WHEREAS, the decision of the borough superintendent, dated September 23, 1954 acting on N.B. Applic. 1150-54, reads:

"1. The proposed construction of a gasoline service station, auto washing, lubrication, office, accessory sales and minor repairs with hand tools only in a residence use district is contrary to the Zoning Res. Art. II Sect. 3."

and

WHEREAS, the applicant states that the premises consist of a plot, 175 ft. 5 in. frontage by 47 ft. 10½ in. in depth, irregular, presently vacant; that it is proposed to develop this site with a modern gasoline service station; that the service station building will be located at the south end of the plot and will have a face brick facade, and shrubbery and fencing will be provided along all interior lot lines; and

WHEREAS, the applicant contends that the rear lot line of the site adjoins Canarsie cemetery and the lot adjoining to the south in block 8041, lot 1 is fenced in and used in conjunction with the cemetery; that the lot adjoining to the north, lot 50, is developed with a large greenhouse and dwelling; that the property along Remsen avenue in this area is almost entirely undeveloped; that Avenue J and Avenue K, the two nearest intersecting city streets, are not physically opened; that there is an old street, known as "the road to Lott's house" and also known as Church lane, 153 ft. north of the site, and this road, which is not a legal city street, serves principally as the entrance to Canarsie cemetery; that since the site abuts the cemetery along its entire rear line, it is not a feasible site for residential development, and the extremely shallow depth of the lot presents a great practical difficulty in developing the site with a conforming use; that because of the large frontage on Remsen avenue, the site is readily adaptable to service station purposes; that Remsen avenue is a heavily travelled traffic artery and there is a real need for a service station in this area; that there are no gas stations on either side of Remsen avenue for more than half a mile to the north of the site and no service stations whatsoever to the south of the site for the entire length of Remsen avenue; that the height zoning was changed from 1 to ½ on July 22, 1954 and there have been no changes in use or area designations since 1916; and

WHEREAS, the applicant states that the present owner has held title to the property since September 23, 1954 and that the assessed valuation of land is \$3,400; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

MINUTES

WHEREAS, while this application is not based on Section 21, there was argument to attempt to prove that sufficient hardship exists to warrant a grant under Section 21 mainly as to the small depth of the lot and adjoining a cemetery; and

WHEREAS, the Board deemed that its power to vary under Section 21 should not be exercised as in its opinion the premises are not adapted for a practical gasoline station and should not be permitted adjoining a cemetery which is under the jurisdiction of the Borough President of Brooklyn and is held in respectful regard by the residents of the area; and

WHEREAS, the Board found that there was no justification for the exercise of discretion to grant a zoning variance under section 7, subdivision c of the zoning resolution.

Resolved, that the decision of the borough superintendent, acting on N.B. App. 1150/54 Objection 1, be and it hereby is *affirmed* and that the application be and it hereby is *denied*.

884-54-BZ

APPLICANT—Nathan L. Goldstein, for Dyre Boston Properties Corp., owner, Giacomo Mazzeo, owner under contract.

SUBJECT—Application November 23, 1954 (decision of the borough superintendent), under sections 7f, 7i of the zoning resolution, to permit in a business use district the erection and maintenance of a gasoline service station, lubritorium, car wash, motor vehicle repairs, storage and sale of accessories and office; and to permit the parking of more than five motor vehicles.

PREMISES AFFECTED—3227-3249 Boston road, 3271-3273 Yates avenue, northwest corner and 3264-3276 Laconia avenue, Block 4614, Lots 25, 27 and 59, Borough of the Bronx.

APPEARANCES—

For Applicant: Nathan L. Goldstein.

For Opposition: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 1, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection and decision; hearing closed; then to April 12, 1955, for revised plans to be submitted by the applicant; and

WHEREAS, the district maps accompanying the zoning resolution show that the site, Boston road, Yates avenue and Laconia avenue are in a business use, C area, class 1 height district; and

WHEREAS, the decision of the borough superintendent, dated November 5, 1954 acting on N.B. Applic. 1146-54, reads:

"1. In a business district the proposed gasoline service station, lubritorium, sales, storage, car wash, minor auto repair & parking of 5 motor vehicles is contrary to Section #4(29) & (46) of the Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 120.16 ft., 34.4 ft. and 100 ft. frontage by 200 ft. in depth, irregular, presently vacant; that the present zoning has existed since July 25, 1916; that it is proposed to erect a modern gasoline service station and accessory lubritorium, together with a car washing and auto repair shop; that the gas station is to contain ten 550 gallon tanks and ten dispensing pumps; that the building will be one story, of class 3 construction and will contain the accessory uses of lubritorium, office and sales, car washing, minor automobile repairs and storage, and a portion will be reserved for parking; and

WHEREAS, the applicant contends that Boston road serves as a main thoroughfare for all types of vehicular traffic and is heavily used; that automobile repair shops, parking lots, gas stations and other comparable uses are prevalent and in close proximity to the plot in question; that the plot immediately adjoining is used as an electric power station and immediately across Yates avenue there is a similar service station; that the general area is industrial and commercial in nature with very few residential dwellings; that it would therefore appear that this general area is not conducive for other types of uses yet the property in question must be developed in order to permit a better utilization so that an equitable return may be realized to warrant the continued payment of taxes and maintenance; that the proposed gas station will be in complete harmony with the affected area and the safety and general welfare will not be adversely affected; and

WHEREAS, the applicant states that the present owner has held title to the property since October 14, 1953 and that the assessed valuation of land is \$20,500; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, revised plans have been filed and the committee recommends that the application should be granted on condition; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 7, Subdivision f of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the use district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 7f for a term of ten years to permit the premises to be occupied as a gasoline service station substantially as proposed and as indicated on plans filed with this application marked, "Received, November 23, 1954" (3 sheets), and revised plans marked, "Received, April 5, 1955" (2 sheets), *on condition* that complete working drawings shall be submitted for further consideration by the Board as to arrangement of premises as now proposed on such revised plans marked, "April 5, 1955" (2 sheets), including the portion towards Laconia Avenue for parking only; that such working plans shall be furnished within two months from the date of this resolution; and that after approval all permits shall be obtained, including a certificate of occupancy and work completed within the requirements of Section 22A of the Zoning Resolution.

937-54-BZ

APPLICANT—Samuel Rosenblum, for 415 Madison Inc., owner.

SUBJECT—Application December 3, 1954 (decision of the borough superintendent), under section 19A(j) of the zoning resolution, to permit in a retail and restricted retail use district the erection and maintenance of an office building and bank, without the required loading berth.

PREMISES AFFECTED—413-417 Madison avenue and 29-31 East 48th street, northeast corner, Block 1284, Lot 21, Borough of Manhattan.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Opposition: Edward Hoffman for Park Dept.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 29, 1955 after due notice by publication in the Bulletin; hearing closed; laid over to April 12, 1955, for decision without further argument; and

MINUTES

WHEREAS, the district maps accompanying the zoning resolution show that the site and East 48th street are in restricted retail and retail use, B area, class 2 height districts; Madison avenue is in a restricted retail use, B area, class 2 height district; and

WHEREAS, the decision of the borough superintendent, dated November 15, 1954, acting on amendment to N. B. Applic. 117-54, reads:

"1. Omission of loading berth is contrary to Sec. 19A Art. IV Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 100 ft. frontage by 116 ft. 8 in. in depth, on which are located two-story stores to be demolished; that it is proposed to erect a 24-story office and bank building of class 1 construction; and

WHEREAS, the applicant contends that by virtue of its zoning, the use and occupancy is restricted; that there is to be no manufacturing and no stores, merely offices; that the grade floor is reserved for banking purposes; that there will be no constant loading and unloading of merchandise and no necessity for trucks to be provided for; that the district being restricted retail it cannot be compared with sections of the city devoted to the garment trade or west side sections where heavy trucking might prevail; that outside of the initial moving in of the tenancy, there would be no necessity for delivery of any material; that there would be no handling of any merchandise by any of the tenants as such; that in view of the character of the proposed occupancy, the nature of the district devoted to restricted retail use and the limitations to office occupancy, a variation is requested as to the elimination of a loading berth in this structure; and

WHEREAS, the applicant states that the present owner has held title to the property since August 31, 1954; that the assessed valuation of land is \$1,350,000 and of the buildings \$75,000 making a total of \$1,425,000; and

WHEREAS, the hearing was closed on March 29, 1955 and the matter has been considered by the Board, and the recommendation is to grant under certain conditions; and

WHEREAS, the Board found that this was an appropriate case in which to exercise discretion to grant under Section 19A, Subdivision j of the Zoning Resolution.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under Section 19A, Subdivision j, to permit the omission of the loading berth *on condition* that the building shall at all times be occupied only as proposed as offices; and that any furniture or other equipment shall be moved in or out after hours; and that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto; that all permits shall be obtained and work completed within the requirements of Section 22A of the Zoning Resolution.

957-54-BZ

APPLICANT—Herman Horowitz, for Senville 35th Street Realty Corp., owner.

SUBJECT—Application December 16, 1954 (decision of the borough superintendent), under section 21 of the zoning resolution, to permit in a business use, B area district, the extension on first story of proposed structure, using more than the area permitted.

PREMISES AFFECTED—524-532 3rd Avenue and 163-167 East 35th street, northwest corner, Block 891, Lots 38, 39, 41, 42 and 43, Borough of Manhattan.

APPEARANCES—

For Applicant: Herman Horowitz.

For Opposition: C. Himmelman.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Application granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-

ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, a public hearing was held on this application on March 8, 1955 after due notice by publication in the Bulletin; laid over to March 29, 1955, for inspection and decision; hearing closed; then to April 12, 1955, for inspection and decision; and

WHEREAS, the district maps accompanying the zoning resolution show that the site and 3rd avenue are in a business use, B area, class 1½ height district; East 35th street is in residence and business use, B area, class 1½ height districts; and

WHEREAS, the decision of the borough superintendent, dated November 17, 1954 acting on N.B. Applic. 67-53, reads:

"1. Proposed extension in first story of new building exceeds the permissive coverage as specified in Sec. 12B(b) Art. IV Zoning Resolution."

and

WHEREAS, the applicant states that the premises consist of a plot, 98 ft. 9 in. frontage by 99 ft. 11½ in. in depth, on which is located a building under construction; that it is proposed to erect a 14 story apartment house, with two stores; that the site has been excavated and foundation walls and footings are now being constructed; and

WHEREAS, the applicant requests a variation so that the store on the street floor, to be entered from Third avenue, may be extended to the rear lot line so as to add an area of 27 ft. 5½ in. by 74 ft.; and

WHEREAS, the applicant contends that practical difficulty and unnecessary hardship are present in this case because strict compliance with section 12B will require the owner herein to provide light and air, at street floor level, to adjoining properties without equality of privilege to the owner; that the existing building on lot 37, wholly devoted to business use, though originally constructed as a residence, covers the entire lot; that while the structure now on lot 44, used mainly for business purposes, does not quite cover the entire lot, the restrictions of section 12B will not apply to this lot if a new business structure is erected thereon; that it will not be possible to rent the store in question to a choice tenant unless the store has greater depth; that the presence of a store tenant of the highest type will be of advantage to the entire neighborhood as well as to the owner; and

WHEREAS, the applicant states that the present owner has held title to the property since April 7, 1953; that the assessed valuation of land is \$134,000 and of the building \$30,500 making a total of \$164,500; that the building is in course of construction; and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board and it was found that due to the grade that the proposed extension of the building, one story in height, would have a roof substantially below, or about at the grade of the premises facing on Sniffen Court, and that light and air would not be affected, the committee recommends that the application be granted on condition; and

WHEREAS, the Board found that the applicant had substantiated a basis to warrant exercise of discretion to grant under Section 21 of the zoning resolution, and is therefore entitled to relief as to area on the grounds of unnecessary hardship.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the application of the area district regulations of the zoning resolution and that the application be and it hereby is *granted* under section 21 to permit the extension of coverage as now proposed for the purpose of erecting a one story extension to the proposed building as indicated on plans filed with this application marked, "Received, December 16, 1954" (7 sheets) and "January 6, 1955" (one sheet), *on condition* that in all other respects the building shall comply with all laws, rules and regulations applicable thereto; and there shall be no windows opening from such proposed extension to the adjoining property to

MINUTES

the north; that the space proposed to be left as an open yard toward the west shall be maintained as proposed and shall be paved and drained; that any skylights in the proposed extension shall be not nearer than 15 feet to adjoining lot lines; and that all permits shall be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution.

91-40-SA—Vol. V

APPLICANT—Linde Air Products Company, Division of Union Carbide and Carbon Corporation, owner.

SUBJECT—Application reopened September 14, 1954—re amendment to resolution to include additional model welding and cutting Blowpipe—re Purox Welding Blowpipes, Prest-O-Weld Welding Blowpipes; Prest-O-Weld Cutting Attachment and Prest-O-Weld Cutting Blowpipe; previously approved.

APPEARANCES—

For Applicant: L. G. Matthews.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 9140-SA—Vol. V

Subject: Amendment to resolution to include additional model welding and cutting Blowpipe.

Linde Air Products Company, A Division of Union Carbide and Carbon Company, New York requested by filing an application dated July 23, 1954 that the resolution adopted February 20, 1940 and amended at various times through June 17, 1952 under Cal. No. 91-40-SA, Vol. I, II, III and IV be amended to include the Prest-O-Lite No. 420 Welding and Cutting Blowpipe. The application was reopened under Cal. 91-40-SA—Vol. V September 14, 1954.

Purpose

The appliance is a blowpipe for welding and cutting.

Description

The internal construction of the Prest-O-Lite No. 420 is similar to the Prest-O-Weld No. 122 (approved by the Board June 17, 1952 under Cal. No. 91-40-SA—Vol. IV) and differs only as to exterior appearances insofar as the No. 420 has a Bakelite handle instead of a brass handle.

Cutting nozzle and welding tip capacities of the Prest-O-Lite No. 420 are the same as Prest-O-Weld W-109 approved by the Board under Cal. No. 91-40-SA—Vol. I.

The Prest-O-Lite No. 420 has been approved by the Underwriters Laboratory under Sa-494. The complete report is on file with and is part of the record.

Recommendation

The Committee on Test recommends that the resolution adopted on February 20, 1940 and as amended through June 17, 1952 under Cal. No. 91-40-SA—Vol. I, II, III and IV be

amended to include Prest-O-Lite No. 420 Welding and Cutting Blowpipe on condition that the requirements of the resolution adopted February 20, 1940 under Cal. No. 91-40-SA—Vol. I be complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engr.,

JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standard and Appeals does hereby amend the resolutions of February 20, 1940 through June 17, 1952 in accordance with the above report.

707-40-SM—Vol. II

APPLICANT—The W. S. Tyler Company, owner.

SUBJECT—Application reopened December 7, 1954 as Vol. II for test and report due to change of insulation within the door; previously approved re Tyler One and One-Half Hour Hollow Metal Fire Door.

APPEARANCES—

For Applicant: John Haig.

ACTION OF BOARD—Resolution amended in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION:

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 707-40-SM—Vol. II

Subject: Amendment to resolution as to the use of cellular asbestos as insulation in the approved one and one-half hour opening protective assembly.

W. S. Tyler Co., Cleveland, Ohio requested by filing an application dated November 15, 1954 that the resolution adopted September 10, 1940 under Cal. No. 707-40-SM—Vol. I be amended so as to permit the use of cellular asbestos as the insulating medium in the approved door. The application was reopened December 7, 1954 under Cal. No. 707-40-SM—Vol. II.

Purpose

The material is a one and one-half hour opening protective assembly.

Description

The proposed door is constructed identically to the door approved by the Board September 10, 1940 under Cal. No. 707-40-SM—Vol. I except that the insulation was changed from "Bandrock" to "Cellular Asbestos".

Inspection and Test

Two panels, constructed identically to the door panel approved September 10, 1940 under Cal. No. 707-40-SM—Vol. I, were tested in accordance with the requirements of C26-610.0 Administrative Building Code. One panel was insulated with Bandrock, the other with Cellular Asbestos. The transmitted temperature through the Bandrock insulation, at the end of one-half hour was 350°F and through the asbestos was 527°F which is below the limiting transmission of 650°F.

Recommendation

On the basis of the test and the data filed by the applicant, the Committee on Test recommends that the resolution adopted September 10, 1940 under Cal. No. 707-40-SM Vol. I be amended so as to permit the use Cellular Asbestos as the insulating medium in the door approved September

MINUTES

10, 1940 under Cal. No. 707-40-SM—Vol. I on condition that the requirements of the resolution are complied with.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved that the Board of Standards and Appeals does hereby *amend* the resolution of September 10, 1940 in accordance with the above report.

542-44-SA—Vol. II

APPLICANT—James B. Anderson, Jr., for Servel Inc., owner.

SUBJECT—Application reopened January 5, 1954 as Vol. II re Servel Air Conditioners and Cooling Towers, Models DC-96-G; DE-96-FO; DE-144-G; DC-96-S; DE-96-S; DE-144-S; SDE-1; DUT; DC-96-FO; DE-96-OF; DE-144-FO; TE-10 and TE-15, approval of.

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 542-44-SA—Vol. II

Subject: Servel Air Conditioners and Cooling Towers; Models DC-96-G; DE-96-FO; DE-144-G; DE; DC-96-S; DE-96-S; DE-144-S; SDE-1; DUT; DC-96-FO; DE-96-OF; DE-144-FO; TE-10 and TE-15, approval of.

Servel Inc., filed September 22, 1944 an application with the Board of Standards and Appeals for approval of the Servel Air Conditioners and Cooling Towers, Models DC-96-G; DE-96-FO; DE-144-G; DE; DC-96-S; DE-96-S; DE-144-S; SDE-1; DUT; DC-96-FO; DE-96-OF; DE-144-FO; TE-10 and TE-15 under the provisions of C26-178.0 Article 12 Chapter 26 Administrative Building Code and Article 18 Chapter 19 Administrative Code. The application was dismissed for lack of prosecution and reopened under Cal. No. 542-44-SA—Vol. I, January 5, 1954.

Purpose

The appliances are air conditioners utilizing an absorption refrigeration and dehumidification system.

Description

Gas operated models—DC-96-G; DE-96-G and DE-144-G. The first model has a cooling capacity of 3.3 tons of refrigeration, coupled with a heating capacity of 120,000 BTU per hour. The second and third models have a cooling capacity of 5.4 tons each and a heating capacity of 120,000 and 180,000 BTU per hour respectively.

The chief component parts of the system are an indirect steam heating system, an absorption refrigeration unit, an air filtering system and a fan section.

The steam generator is of cast iron and has "H" shaped, ribbon type gas burners. The flow of gas to the burner manifold is regulated by a motorized gas valve. Ignition of the main gas burner is accomplished by a small flame of a constant burning pilot. One pilot is used with four burner assembly and two pilots for six burner assembly. Each pilot is equipped with an automatic shut-off to prevent gas entering

main burners if the pilot should be extinguished. The generator is also equipped with a low-water cutoff which shuts off the main burners if the water in the generator falls below a predetermined level.

The refrigeration is produced by the "absorption" principle, utilizing heat as the motivating force. The refrigeration unit is made up of the following principal parts: Refrigeration generator, condenser, cooling coil, absorber and liquid heat exchanger. All of the above parts and all interconnecting tubing are factory assembled as a hermetically sealed unit.

The cycle of operation is as follows: The system is charged with Lithium Bromide and water; the bromide being the absorbent and the water being the refrigerant. This solution is contained within the refrigeration generator. As steam heat is applied to the generator, part of the water is boiled out of the solution. As the water vapor is driven off, absorbent solution is raised, by vapor lift action to the separating chamber above the generator.

The refrigerant and absorbent separates in the vapor separating chamber, the refrigerant as a vapor rises to the condenser and the absorbent as a solution flows to a heat exchanger and then to the absorber.

The water vapor (refrigerant) passes to a condenser where it is condensed by means of cooling water flowing through the condenser coils. The condensed water then flows into a cooling coil and is vaporized due to the high vacuum. This high vacuum within the evaporator lowers the boiling temperature of the water sufficiently to produce refrigeration effect.

The absorbent after entering the separating chamber, flows to a heat exchanger and thence to the absorber.

Cooling Towers; TE-10; TE-15. The exterior of this equipment is asbestos cement panels and packing sheets in the interior are also of asbestos cement sheets.

In operation, the warm water from the air conditioner enters into a copper header in the top of the tower. This header distributes the water, in spray form, over the packing sheets. This water trickles down the sheets where evaporation and cooling take place and is then collected in a receiving basin at the bottom of the cooler. A pump then pumps this water to the conditioner.

Water Chiller—Model DUT. The basic system of operation is the same as the operation for the model DC and DE.

Inspection and Test

Various models were inspected by Asst. Engr. J. A. Darts, Committee on Test and J. Anderson representing the applicant. The units inspected ranged from those having a central heating system, which means that the steam was piped in from an outside source and a direct means heating wherein the steam was generated in the machine. The equipment functioned as designed and all controls functioned as required.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Servel Air Conditioners and Cooling Towers DC-96-G; DE-96-FO; DE-144-G; DE; DC-96-S; DE-96-S; DE-144-S; SDE-1; DUT; DC-96-FO; DE-96-OF; DE-144-FO; TE-10 and TE-15 for voluntary use in New York City on condition that the units shall be vented in accordance with the requirements of Article 12 Chapter 26 when gas fired and shall be connected to a legal chimney as required by Article 12 Chapter 26 when oil fired and further that the absorbent shall be lithium bromide and each unit shall bear a label reading as follows: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 542-44-SA—Vol. II".

REPORT OF COMMITTEE ON TEST

Re: 586-53-SA

Subject: Amendment to resolution as to additional model and change in construction of combustion chamber.

Airtherm Manufacturing Co., St. Louis, Missouri requested by letter dated September 7, 1954 that the resolution adopted December 8, 1953 be amended so as to include the Models SO-400, SO-500, SO-750, SO-1000, SO-1250, SO-1500, SO-1750 and SO-2000 and to include a change in the construction of the combustion chamber. The application was reopened by a vote of the Board on September 21, 1954.

Purpose

A direct fired oil burning heater for general space heating.

Description

The requested units are similar to the units approved by the Board December 8, 1953 under Cal. No. 586-53-SA differing only as to the combustion chamber. The approved heater has a refractory lined steel chamber and the requested chamber has a stainless steel combustion chamber, but in all other respects the units are similar.

Recommendation

On the basis of the data filed by the applicant the Committee on Test recommends that the resolution adopted December 8, 1953 under Cal. No. 586-53-SA be amended so as to include the Models SO-400, SO-500, SO-750, SO-1000, SO-1250, SO-1500, SO-1750 and SO-2000 on condition that the requirements of the resolution adopted December 8, 1953 under Cal. No. 586-53-SA be complied with; and further that these units shall not be installed in garages or places of explosive atmospheres.

(Sgd.) HARRIS H. MURDOCK,
Chairman,

LESLIE V. HUBER,
Chief Engr.,

JOHN A. DARTS,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standard and Appeals does hereby *amend* the resolution of December 8, 1953 in accordance with the above report.

REPORT OF COMMITTEE ON TEST

Re: Cal. 86-54-SA

Subject: Amendment to resolution as to additional models and change in construction of combustion chamber.

Airtherm Manufacturing Company, St. Louis, Missouri, requested by letter dated September 7, 1954 that the resolution adopted June 22, 1954 under Cal. No. 86-54-SA be amended so as to include the SG-400, SG-500, SG-750, SG-1000, SG-1250, SG-1500, SG-1750 and SG-2000 which is the designation for the heaters with a stainless steel combustion chamber. The application was reopened by a vote of the Board September 21, 1954.

Purpose

A complete gas fired self contained heating unit for large areas.

Description

The requested units are similar to the units approved by the Board June 12, 1954 under Cal. No. 86-54-SM differing only as to the combustion chamber. The approved heater has a refractory lined steel chamber and the requested heater has a stainless steel combustion chamber; but in all other respects the units are similar.

Recommendation

On the basis of the data filed by the applicant the Committee on Test recommends that the resolution adopted June 22, 1954 under Cal. No. 86-54-SM be amended so as to include the Models SG-400, SG-500, SG-750, SG-1000, SG-1250, SG-1500, SG-1750 and SG-2000 on condition that the requirements of the resolution adopted June 22, 1954 under Cal. Chief Engr.,

JOHN A. DARTS,
Asst. Engr.,
Committee on Test.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution of June 22, 1954 in accordance with the above report.

459-54-SM

APPLICANT—Duracote Corporation, owner.

SUBJECT—Application May 20, 1954—Dura-Decor (fiber-glas drapery and curtains for stage hanging, etc.), approval of.

APPEARANCES—

For Applicant: None.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

MINUTES

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 459-54-SM

Subject: Dura-Decor (Vinyl Coated Fiberglass, curtain and
drapery fabric), approval of.

Duracote Corporation, Ravenna, Ohio, filed May 20, 1954,
an application with the Board of Standards and Appeals for
approval of the material known as Dura-Decor (Vinyl
Coated Fiberglass, curtain and drapery fabric) under the
provisions of the Flameproofing Rules of the Board.

Purpose

The material is to be used as curtain or drapery fabric in
places of public assembly.

Description

The material consists of a base cloth of Fiberglass coated
with a vinyl facing. The facing is a vinyl resin dispersed
with a mixture of plasticizers, color pigments, flameproofing
compounds, stabilizers and solvents. The coating is applied
by both the knife coating method or the dip method, the
related heat process first drives off the solvents and then
fuses the vinyl coating to the base fabric.

Inspection and Test

Samples of both the 16 and 13 oz. material were tested at
the Better Fabrics Testing Bureau in the presence of Asst.
Engr. J. A. Darts, Committee on Test and W. H. Masterson
of the laboratory.

Results were as follows:

13 oz. material—There was no flashing. Average time of
flaming $\frac{1}{2}$ second. Average time of glow within charred
area $24\frac{1}{3}$ seconds. No glow outside of charred area.

16 oz. material—There was no flashing. Average time of
flaming $2\frac{1}{2}$ seconds. Average time of glow within charred
area $13\frac{1}{2}$ seconds. No glow outside of charred area.

The complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed
by the applicant, the Committee on Test recommends the
approval of the material known as Dura-Decor 13 oz. and
16 oz. weight for use in New York City under the provisions
of the Flameproofing Rules of the Board on condition that
the following requirements are complied with.

1. Tests for each specific installation or any retests thereof
shall be made by the Fire Commissioner or in a laboratory
approved by him in accordance with the requirements of the
Flameproofing Rules of the Board and further each carton
or container in which this material is marketed shall be
stamped or labeled, "Approved by the Board of Standards and
Appeals for use in New York City under Cal. No. 459-54-SM."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does
hereby approve this material in accordance with the above
report.

541-54-SA

APPLICANT—International Heater Co., owner (William
R. Landmesser, agent).
SUBJECT—Application May 27, 1954—Economy Gas-fired

Horizontal Forced Air Furnace, Models GS-60, GS-80 and
GS-100, approval of.

APPEARANCES—

For Applicant: Nonc.

ACTION OF BOARD—Appliance approved in accordance
with the report of Committee on Test.

THE VOTE—

ert and Deputy Chief Connolly 3
Negative 0

Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 541-54-SA

Subject: Economy Gas Fired Horizontal Forced Air Fur-
nace, Models GS-60, GS-80 and GS-100 approval
of.

International Heater Company, Utica, New York filed
May 27, 1954 an application with the Board of Standards and
Appeals for approval of the Economy Gas Fired Horizontal
Forced Air Furnace Models GS-60, GS-80 and GS-100
under the provisions of Article 12, Chapter 26 Administra-
tive Building Code.

Purpose

The appliance is a gas fired furnace to be used in domestic
and commercial installation but not to be used in garages or
places of explosive atmospheres.

Description

The models referred to differ only as to BTU input and
output. The three Models GS-60, GS-80 and GS-100 all
consist of the following parts: Steel Cabinet, Automatic Gas
Valve, Pilot Shut-off, Automatic Safety Pilot, Cast Iron
Milled Slot Burner, Gas Pressure Regulator, Manual Main
Shut Off Valve, Draft Diverter, Fan and Limit Control,
Thermostat, Motor and Blower and Steel Heating Element.
The safety pilot is fully automatic and prevents flow of
gas to the burner in the event the pilot is extinguished.

Inspection and Test

A model was inspected by Asst. Engr. J. A. Darts, Com-
mittee on Test and W. R. Landmesser representing the ap-
plicant. The appliance operated as designed and the controls
functioned as required. The furnaces have been approved
by the American Gas Association under 4-(972.1; 2.1 &
3.1).001-24, 4-972.201-24 and 4-(972.01 & 1.0).001-24.

Recommendation

On the basis of the inspection and test and the data filed
by the applicant, the Committee on Test recommends the
approval of the Economy Gas Fired Horizontal Forced Air
Furnace, Models GS-60, GS-80 and GS-100 for use in New
York City in domestic and commercial installations when
constructed as herein described and installed in accordance
with the requirements of Article 12, Chapter 26 Administra-
tive Building Code. The Committee further recommends
that this appliance shall not be installed in garages or places
of explosive atmosphere, that all ports and orifices shall be
of a type approved by the A.G.A. for the type of gas used
and that each appliance shall bear a label permanently affixed
reading as follows: "Approved by the Board of Standards
and Appeals for use in New York City under Cal. No. 541-
54-SA."

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does
hereby approve this appliance in accordance with the above
report.

Negative 0

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 788-54-SM

Subject: Hamico 1022B Flameproof (flameproofing compound), approval of.

Haas Miller Corp., Philadelphia, Pa., filed October 8, 1954 an application with the Board of Standards and Appeals for approval of the material known as Hamico 1022B Flameproof (flameproofing compound) under the provisions of the Flameproofing Rules of the Board.

Purpose

The material is to be used to flameproof materials used as draperies etc. in places of public assembly.

Description

The material is a white crystalline powder that is water soluble. The concentration is $1\frac{1}{2}$ lbs. of Hamico 1022B per gallon of water. The base of this powder is ammonium phosphate for the flameproofing to which is added a softener for handling purposes. The method of application is either by padding or immersion.

Inspection and Test

Samples of the compound were tested on four samples of cotton pile plush fabrics at the Better Fabrics Testing Bureau in the presence of Asst. Engr. J. A. Darts, Committee on Test, W. J. Thorn representing the applicant and W. H. Masterson of the Laboratory.

Results were as follows:

Sample A—Identified as Gibraltar Plush

No flashing, no flaming. Average time of glow in the charred area 1 minute 47 seconds. No glow outside of charred area.

Sample B—Identified as Cavalier Plush.

No flashing, average time of flaming $1\frac{1}{3}$ seconds. Average time of glow within charred area $\frac{1}{3}$ second. No glow outside of charred area.

Sample C—Identified as Reges Plaza Plush.

No flashing, no flaming. Time of glow within charred area 48 seconds. No glow outside of charred area.

Sample D—Identified as Imperial.

No flashing, no flaming. Time of glow within charred area 30 seconds. No glow outside of charred area.

The report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Hamico 1022B Flameproof (flameproofing compound) for use in New York City under the provision of the Flameproofing Rules on materials as herein described on condition that the following requirements are complied with.

Tests for each specific installation or any retests thereof shall be made by the Fire Commissioner or in a laboratory approved by him in accordance with the Flameproofing Rules of the Board and further that each container or package in which the material is shipped shall be stamped or labeled:

"Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 788-54-SM."

APPLICANT—Grays Ferry Brick Co., owner (Limestone Products Corp., Agent).

SUBJECT—Application October 13, 1954—Grays Ferry Brick Co., Silica Face Brick, approval of.

APPEARANCES—

For Applicant: Thomas R. Figensohn, Jr., and Drew Pearsall.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleinert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 789-54-SM

Subject: Grays Ferry Brick Company, Silica Face Brick, approval of.

Limestone Products Corp., New York City, for Grays Ferry Brick Co., Pennsylvania, filed October 13, 1954 an application with the Board of Standards and Appeals for approval of the material known as Grays Ferry Brick Co., Silica Face Brick under the provisions of C26-26.0 and C26-307.a Administrative Building Code.

Purpose

The brick is to be used in masonry construction as provided under C26-307.0.a Administrative Building Code.

Description

The brick is manufactured at the applicant's plant at Iona, New Jersey.

The mix is designed on the basis of volume—nine cubic feet of bank run washed sand, silica sand and fine silica to $1\frac{1}{2}$ cubic feet of lime.

The bricks are pressed in a forming machine, after forming, the bricks are put in a kiln where they are subject to high pressure steam, then placed in a humidity chamber. The bricks are then removed and stock piled.

Inspection and Test

The plant of the applicant at Iona, New Jersey was inspected by Asst. Engr. J. A. Darts, Committee on Test and D. Pearsall, T. Figenshu and N. Newell representing the applicant.

Sample bricks were identified and marked and the bricks were tested in accordance with the requirements of C26-307.0.a Administrative Building Code. In addition a 51 cycle of freeze-thaw was conducted.

Results were as follows: Size— $2\frac{1}{4}$ " x $3\frac{3}{4}$ " x 8"

Compressive Strength—5848 psi

Modulus of Rupture—1092 psi

Freeze-thaw—Loss of weight in percent—0.173%. In the freeze-thaw there was no evidence of cracking, breaking or disintegration. The loss was small amounts from the edges of the bricks.

MINUTES

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the Grays Ferry Brick Co., Silica Face Brick when manufactured as herein described as meeting the requirements of C26-307.0.a as a severe weather sand-lime brick on condition that each bill of material, bill of lading or invoice shall be stamped: "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 789-54-SM."

Asst. Engr.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

800-54-SM

APPLICANT—Carlyle Industrial Corp., owner.
SUBJECT—Application October 8, 1954—Graneer (faced masonry unit), approval of.

APPEARANCES—

For Applicant: Harold A. Wasserman.

ACTION OF BOARD—Material approved in accordance with the report of Committee on Test.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Kleintert and Deputy Chief Connolly 3
Negative 0
Absent: Commissioner Keating 1

THE RESOLUTION—

WHEREAS, the report of a Committee on Test reads:

REPORT OF COMMITTEE ON TEST

Re: Cal. 800-54-SM

Subject: Graneer (faced masonry units), approval of.

Carlyle Industrial Corp., Brooklyn, New York filed October 8, 1954 an application with the Board of Standards and Appeals for approval of the material known as Graneer (faced masonry units) under the provisions of the Masonry Rules of the Board.

Purpose

The material is a faced masonry unit to be used in masonry construction.

Description

The units are made from cinder, concrete or Waylite blocks to which is bonded the Graneer Facing. This facing is a thermosetting resin, with chlorinated resinous fireproofing agents added. Inorganic metallic oxides are added in order to attain the color required.

In the process of manufacture, the Graneer facing, as described above, is poured into preheated stainless steel forms to a depth of approximately $\frac{1}{8}$ inch, this facing is then vibrated to eliminate any air bubbles that may have formed during the pouring. Masonry units, approved by the Board (the manufacturer is using cinder and concrete units approved under Cal. No. 1268-39-SM and Waylite units approved under Cal. No. 475-51-SM) are then placed in the pan, on top of the facing and the composite unit is then conveyed through an oven heated to 350°F. where the facing is fused to the block.

Inspection and Test

The plant of the applicant was inspected by Asst. Engr. J. A. Darts, Committee on Test. The process of manufacture was witnessed and sample units were identified and marked. As the manufacturer is using approved blocks as herein described and as he does not cut back into the face thickness of the block, but rather added the facing to the

face, it was decided that a test to determine the bond of the facing to the block and a test to determine the combustibility of the composite unit as defined under C26-88.0 Administrative Building Code.

When tested, the facing of the block withstood crushing until the rest of the block disintegrated, there was no peeling of the facing material. The unit also successfully met the requirements of C26-88.0 Administrative Building Code, the complete report is on file with and is part of the record.

Recommendation

On the basis of the inspection and test and the data filed by the applicant, the Committee on Test recommends the approval of the material known as Graneer for use under the Masonry Rules of the Board as an incombustible masonry unit on condition that only approved masonry units as herein described, be used in the process of manufacture, that the facing shall not be considered as a substitute for plaster, where a plaster is required on the face of the masonry unit in order to give the required fire resistive ratings required under the Masonry Rules of the Board and under the requirements of C26-631.0 through C26-638.0 Administrative Building Code and that all bills of materials, bills of lading, invoices or shipping tickets shall be marked or stamped "Approved by the Board of Standards and Appeals for use in New York City under Cal. No. 800-54-SM", and further that all units shall be marked with the manufacturers mark as required by the Masonry Rules of the Board.

(Sgd.) HARRIS H. MURDOCK,
Chairman,
LESLIE V. HUBER,
Chief Engr.,
JOHN A. DARTS,
Asst. Engr.

Resolved, that the Board of Standards and Appeals does hereby *approve* this material in accordance with the above report.

WHEREAS, order #18023 LC issued by the Fire Com-
missioner December 9, 1948, reads:

"You are hereby notified that an inspection of the
above premises, used as a Private Oil Station, shows
that the following must be done before the permit
requested by you can be issued:

FORTHWITH

1—File with and have approved by the Department of
Marine and Aviation, plans for three additional 550
gallon buried gasoline tanks. C19-13.0 Administra-
tive Code.

2—Submit evidence to this department that the Depart-
ment of Marine and Aviation has no objection to
the sale of gasoline to airplanes other than those of
the above owners. C19-13.0 Administrative Code."

and

WHEREAS, the decision of the Fire Commissioner dated
November 29, 1950 relating to order #18023LC, reads:

"Receipt of your letter of November 24, 1950 is
acknowledged.

Supplementing our letter of November 20, 1950, you
are accordingly advised that unless subject order is
complied with, your application for a permit cannot be
approved.

Within thirty (30) days, this decision may be ap-
pealed to the Board of Standards and Appeals pur-
suant to the provisions of the New York City Charter"

and

WHEREAS, the applicant states that the premises consists
of a plot 200.03 feet by 96.65 feet, irregular in area, located

MINUTES

in a business use district since December 25, 1939 when it was changed from unrestricted use under C.P. No. 1080; that the premises is used as an airport for which no certificate of occupancy has been issued; and

WHEREAS, the applicant has filed with this appeal copy of order #2214LC issued by the Fire Commissioner March 29, 1948; order #16988LC issued by the Fire Commissioner September 23, 1948; decision of the Department of Marine and Aviation dated July 18, 1949 on Applic. No. 360-26; decision of the Fire Commissioner dated November 20, 1950, and a diagram of the Rockaway airport adjacent to the premises in question; and

WHEREAS, the applicant contends that this is an appeal from a decision of the Fire Commissioner dated November 29, 1950, denying an application for a permit to store gasoline, lubricating oil and kerosene for use in connection with a private airport and flying school; that the apparent ground for the refusal is that consent of the Department of Marine and Aviation has not been obtained; that since 1937 or prior thereto, premises has been operated as a private airport; that the airport has been under the supervision of the Civil Aeronautics administration; that operations have been maintained with the apparent consent of the Department of Marine and Aviation since 1939, when a decision was made in the Supreme Court, New York County, directing the issuance of a permit; that as late as 1946, by a letter of Commissioner Haslett, patent permission was given to operate the airport; that gasoline was stored pursuant to permits B79836 and B377742 issued by the Fire Department for 1946 and 1947 for a private oil filling station as follows: 1 buried tank, 550 gallons gasoline, 60 gallons lubricating oil and 5 gallons kerosene; that Alt. Applic. 3962/47 was made to install additional gasoline tanks, which application was approved and the installation made; that application was made to the Fire Department for a permit to store and sell gasoline to airplanes on the airport following an order dated March 29, 1946, directing the appellant to discontinue sale of gasoline to other than owner's airplanes; that an application was then filed for a permit to store and sell 2200 gallons of gasoline; that order #16988 was issued by the Fire Department September 23, 1948 requesting the appellant to file and have approved by the Department of Housing and Buildings plans for the installation of three additional tanks; that in addition the order requested evidence be filed that the Department of Marine and Aviation had no objection to the sale of gasoline to airplanes other than those of the owners; that on December 9, 1948 order #18023 followed, directing that appellant file plans for three additional 550 gallon tanks and submit evidence that the Department of Marine and Aviation had no objection to the sale of gasoline as in the previous order; that the appellant made an effort to obtain a permit from the Department of Marine and Aviation and the result was a statement of objections, by which the department asked for the permit from that department to operate an airport and to state under what authorization tanks were installed in 1940 and 1947; that in May 1950, the appellant gave up the attempt to obtain permission to store gasoline for sale and sought a permit to store gasoline, oil and kerosene for its own use; that nothing was done on this application until he wrote a letter November 8, 1950 requesting action on the application made in May; that a letter signed by the Deputy Fire Commissioner stated that the Department of Marine and Aviation sent a communication dated March 30, 1950 to the Fire Department, objecting to the occupancy and the issuance of a permit at the premises involved; that upon a request by the applicant the letter dated November 29, 1950 was sent granting an opportunity to appeal; that the appellant corporation is operated by a veteran who by reason of his military service for the years when the Department of Marine and Aviation was taking over actual control of airports, was unable to obtain the necessary permit; that his service should not mitigate against him and that he should not be required to suffer by reason of such service; that other private airports are being operated in the city without any objection by the Department of Marine and

Aviation because they were able to continue operation without interruption; that the appellant also conducts a school of aviation and to compel him to cease operations will entail great loss; that the acts of the Fire Department in refusing to grant the permit herein is a grave abuse of discretion and is contrary to the provisions of the Charter, the Administrative code and the constitutional rights of the appellant; that the Fire Department is the only bureau having jurisdiction over the issuance of permits to store and sell combustibles; that the only time the Fire Department is required to obtain approval is when structural safety is involved, and that otherwise, its jurisdiction is sole and exclusive; that in this case there is no question of structural safety; that the legislative intent is apparent upon reading the Charter and Code provisions applicable to the Fire Department; that the powers and duties imposed and granted to the Fire Department should not be usurped by any other body; that since the Fire Department has not been able to point out any violation of law, it follows that there exists no right to refuse the permit in this case; that the powers of the Commissioner of Marine and Aviation are limited when read in conjunction with those granted to the Fire Commissioner; that as to airports owned by the City, the Fire Commissioner has exclusive charge and control, but as to airports in the port of New York or the City, the following is the power:

Section 704 c. "The commissioner except as otherwise provided by this Charter or by statute, shall have exclusive power of regulation over

(1) * * *

(2) airports, airplane landing sites and seaplane bases in the port of New York or in the city not owned by the city."

that the power to regulate does not mean the power to destroy; that by the guise of regulation, the Department of Marine and Aviation seeks to destroy the business of the appellant, but the regulations promulgated by the Department of Marine and Aviation are silent as to the right to maintain gasoline tanks and store and sell gasoline and they should not be permitted to deny the rights of the appellant; that this appeal does not cover the question of a permit to operate an airport; that the property in question is privately owned and operated and has been so since 1937; that the appellant having shown a clear right to the permit applied for, the refusal to grant it is unreasonable, arbitrary, unfair, capricious and deprives the appellant of its constitutional rights to the permit sought; that the order of the Commissioner of the Fire Department denying the permit must be reversed and the permit directed to be issued; and

WHEREAS, the Board deemed that an application should be filed with the Borough Superintendent and a zoning application filed for consideration as to variance for a gasoline station for supplying planes owned by others.

Resolved, that the order of the Fire Commissioner, No. 18023-LC be and it hereby is reversed and that the appeal be and it hereby is granted.

351-51-A

APPLICANT—C. W. Fairbank, for Esso Standard Oil Company, owner.

SUBJECT—Application reopened September 14, 1954—re Appeal from orders of the fire commissioner—re use of an auxiliary gasoline engine to drive the discharge pump.

APPEARANCES—

For Applicant: Joseph B. Lynch and William R. Black.

For Administration: Lieut. John P. Manfredi, Fire Dep't.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Commissioner Keating 1

Negative: Chairman Murdock, Commissioner Kleinert

and Deputy Chief Connolly 3

THE RESOLUTION—

WHEREAS, Order Nos. 1121-4 to 1129-4, inclusive, issued

MINUTES

by the Fire Commissioner February 19, 1954, Order Nos. 4749-4 and 4750-4 issued by the Fire Commissioner August 3, 1954 and Order No. 5300-4 issued August 25, 1954, read:

"1. Discontinue the use of an auxiliary gasoline engine to drive the discharge pump, as the use of same is contrary to Section 11-1 of the Fire Department specifications for fuel oil tank trucks."

and

WHEREAS, the applicant states this appeal relates to the use of auxiliary gasoline engines to drive the discharge pumps of the trucks in question, used to transport No. 6 fuel oil; and

WHEREAS, the applicant states the orders in question refer to the following trucks owned by it and equipped with an auxiliary gasoline engine contrary to Section 11.1 of the Department's specifications for fuel oil tank trucks;

Trailer Truck #53402	Trailer 53403	Tractor 51303
Trailer 52410	Trailer 51402	Trailer 51403
Tractor 52301	Trailer 53401	Trailer 46406
Trailer 52401	Tractor 53304	Trailer 46407
Tractor 53303	Trailer 53404	Trailer 46408
	Trailer 51404	

and

WHEREAS, the applicant states the 12 trucks in question are equipped with 4,000 gallon fuel oil tanks, equipped with gasoline driven auxiliary pumping engines; and

WHEREAS, the applicant states this appeal was withdrawn July 24, 1951, by permission of the Board to permit the applicant to obtain a complete examination of the trucks in question by the Fire Department and to make the trucks in question comply with all requirements of the Fire Commissioner with the exception of the auxiliary engines now in question and that such trucks have now been made to comply and permission is therefore requested for the Board to consider these trucks on the basis of the orders now issued by the Fire Commissioner relating only to the gasoline engines in question; and

WHEREAS, this appeal was reopened and restored to the calendar, September 14, 1951, by vote of the Board to permit consideration of the orders now issued by the Fire Commissioner; and

WHEREAS, the applicant contends in his statement that the subject application was withdrawn without prejudice at the hearing on July 24th, 1951 with the understanding that the three units in question at that time be submitted to the Fire Department for conformance with the Fuel Oil Tank Specifications with the exception of the proposed auxiliary, gasoline driven, engine to be mounted in the trailer. The Board further directed that the Fire Department reconsider the use of a 5-gal. tank for driving the auxiliary engine instead of the permitted one gallon tank. At the time of the hearing in 1951 the units were in the process of construction. Accordingly the three original trailers identified as "ESSO" equipment Nos. 51402, 51403 and 51404 were completed together with nine (9) additional trailer units known as "ESSO" equipment Nos. 46406, 46407, 46408, 52401, 52410, 53401, 53402, 53403, 53404. An inspection was requested of the Fire Department for the twelve units for compliance with the Fuel Oil Tank Trucks for heavy Nos. 5 & 6 oils. Each unit was approved by the Department with the exception of the proposed gasoline driven auxiliary engine located in the trailer for discharging the oil from the tank.

The appeal is now solely for the use of twelve trailer units equipped with the auxiliary engines with a five gallon gasoline tank located within the trailer as indicated on the plan and photographs filed with the application. This is independent of the motor in the tractor for propulsion of the truck. A request is made to use this equipment for the life of the trailer or for a period of ten (10) years.

During December 1953 the Fire Department amended the Tank Truck specifications so as to prohibit the use of auxiliary engines. Accordingly the aforementioned twelve units equipped with auxiliary engines prior to the amended Tank Truck specifications; that by use of the auxiliary engine the

delivery of the Bunker C oil will be safer in that the power take-off from the Tractor engine will be eliminated and the Truck Operator permitted to shut-off the tractor motor and place the tractor in gear. This practice, with the application of the emergency brake, will eliminate the possibility of a runaway, particularly on a grade; and

WHEREAS, one tank truck was inspected by a committee of the Board; and

WHEREAS, the Board deemed that the proposal would cause an unsafe condition and that the orders of Fire Commissioner be upheld.

Resolved, that Orders Nos. 1121-4 to 1129-4, inclusive and Nos. 4749-4, 4750-4 and No. 5300-4 be and they hereby are affirmed and that the appeal be and it hereby is denied.

702-53-A

APPLICANT—Ferdinand Savignano, for 176 Grand St. Corp., owner.

SUBJECT—Application reopened and restored to docket February 1, 1955—re Appeal from a decision of the borough superintendent, previously withdrawn.

PREMISES AFFECTED—176-180 Grand street, north side, 24 ft. 9 in. east of Market place, Block 471, Lot 25, Borough of Manhattan.

APPEARANCES—

For Applicant: Joseph Luca.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated August 31, 1953, on Alt. Applic. 362/53, reads:

"1. Provide 2 means of egress from cellar as per section 271—Labor Law.

2. Provide second means of egress from all floors. (Existing fire escape illegal—bldg. more than five stories) Section 271 of the Labor Law."

and

WHEREAS, the applicant states the building is 6 stories, 60 ft. in height, 75 ft. 3 in. by 91 ft. 9½ in. and 72 ft. 4 in. irregular in area, Class 3 construction, erected 1891, in an unrestricted use, B area, Class 2 height district; used and occupied since 1936 as follows: Cellar—storage of machines; mezzanine—office, 1 person; 1st floor—sales and manufacturing of tools and dies, 17 persons; 2nd floor—manufacture of knitwear, 35 persons; 3rd floor—manufacturing knitwear and stuffed toys, 13 persons; 4th floor—electroplating, 4 persons; 5th floor—manufacturing shoes, 30 persons; 6th floor—manufacturing electrical equipment and fixtures, 11 persons. No change in use or occupancy is now proposed. The building is provided with a one-source sprinkler system throughout; there is one 3 ft. 10 in. wide interior wood stairs, enclosed in partitions of wood studs fire-retarded with metal lath and portland cement both sides, equipped with one-hour fireproof, self-closing doors, and leading direct to street and to roof bulkhead. There are two fire escapes, one on the front and one on the rear, extending to roof by ladder; the front fire escape extends to street by counterbalanced stairs; and

WHEREAS, the owner was convicted and fined in Municipal Term, Magistrate's Court July 22, 1953, on charge of violation of the Administrative Code and the Labor Law; and

WHEREAS, the applicant states the building was erected under N.B. 1891 of 1890 as store and warehouse; and used for storage in 1891; that Department records indicate in 1916 its use as lofts and warehouse, in 1912 as wholesale and factory and in 1936, stores and manufacturing, which use has been continued to date; that in January 1953 a

MINUTES

violation was issued in that the exits did not comply with Sec. 271 of the Labor Law due to the fact the building is more than 5 stories in height; that the exits consist of a Labor Law fire escape at the front provided with a counter-balanced ladder and gooseneck ladder to roof and a fire escape at the rear leading to rear yard and exit through adjacent building; that there is also an interior stairs from 1st to 6th floor with bulkhead to roof; all stair enclosures are fire-retarded with metal lath and $\frac{3}{4}$ " p.c. mortar; all doors leading to halls are 1 hr. fireproof self-closing; that the adjacent building at right is of the same height; that exits from the cellar consist of one interior stair and an engineer's ladder to the street at front of building; that the building has a sprinkler system throughout; and

WHEREAS, the applicant requests that the Board accept the exits as they exist in view of the fact the building was erected for commercial occupancy and the present owner purchased it as such; that it would be a great hardship and expense to comply with the requirements and install an additional stairway in accordance with Sec. 271 of the Labor Law, in that it would disrupt the function of the business now in the building and entail great expense to the present owner which was not foreseen at the time of purchase in 1942; and

WHEREAS, this appeal was withdrawn October 5, 1954, without prejudice, through an application for restoration upon receiving the approval of the Borough Superintendent for the removal of the rear sub-standard fire escape; and

WHEREAS, the applicant filed BN Applic. 33326 of 1954, to remove the rear fire escape and said application was approved by the Borough Superintendent November 29, 1954; and

WHEREAS, under date of December 9, 1954, amendment was filed to Alt. App. 362 of 1953, to remove the fire escape at the rear and obtain a new decision upon which to base an application for restoration of this appeal to the calendar; and

WHEREAS, the decision of the Borough Superintendent dated December 14, 1954, on said amendment to Alt. App. 362 of 1953, reads:

"1. Provide 2 means of egress from cellar as per Section 271—Labor Law.

2. Provide second means of egress from all floors. (Existing fire escape illegal—bldg. more than five stories) Section 271 L.L."

and

WHEREAS, the applicant has filed new plans marked, "Received, September 13, 1954," showing the revised conditions; and

WHEREAS, this appeal was restored to the docket by a vote of the Board on February 1, 1955, to consider the revised plans and the new decision of the Borough Superintendent.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the Borough Superintendent, acting on amendment to Alt. App. 362/53, Objections 1 and 2, and that the appeal be and it hereby is *granted, on condition* that the two existing means of exit, consisting of an interior enclosed stair and fire escape on the front of the building, shall be maintained as proposed and as indicated on plans filed with this appeal marked, "Received, September 13, 1954" (7 sheets); and that the existing sub-standard fire escape at the rear of the building exiting to an adjoining building, and marked to be removed, shall be removed; that a new certificate of occupancy shall be obtained; that the number of occupants per floor shall be limited to the capacity of the primary means of exit; that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that no factory work shall be maintained in the cellar; and that throughout the building there shall be an approved wet sprinkler system maintained.

98-54-A—Vol. II

APPLICANT—Howard H. Snyder, for Erwin Construction Corporation, owner.

SUBJECT—Application reopened March 8, 1955 as Vol. II —re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—24 West 58th street, south side, 325 ft. west of 5th avenue, Block 1273, Lot 51, Borough of Manhattan.

APPEARANCES—

For Applicant: Walter T. Koroshetz.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleiner and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, on April 27, 1954, the Board modified Objection 1 issued by the Borough Superintendent January 26, 1954, on Alt. App. 2151/53, to permit the building of nonfireproof construction to be used as offices, on condition that the apartment on the 5th floor be used only by owner of building, in conjunction with office space on the same floor; and

WHEREAS, this appeal was reopened by the Board on March 8, 1955, to consider a new decision of the Borough Superintendent dated February 14, 1955, on amendment to Alt. App. 2151/53, which decision reads:

"2. Bldg. may not be increased in size—height or area without approval of the Board of Standards and Appeals.

See Case No. 98-54-A Bul. No. 21, Vol. No. 9 approved 4/27/54."

and

WHEREAS, the applicant now states that since the action by the Board on April 27, 1954, on Vol. I of this appeal, the owners have been unable to obtain possession of the building due to tenant difficulties; and

WHEREAS, the applicant states it is now proposed to obtain additional space on the 3d and 4th floors by enlarging these floors by an extension in the rear to within 10 ft. of the rear lot line, as indicated on revised plans filed with this appeal; and

WHEREAS, the applicant states the stairway will be 3 ft. wide, of 2-hour construction, equipped with $1\frac{1}{2}$ -hour fireproof self-closing doors, leading from roof bulkhead direct to street; that the cellar will be used for storage, the 1st floor for store with an occupancy of 15 persons; 2nd, 3d and 4th floors as offices with occupancy of 12 persons on each floor and the 5th floor for offices and one apartment with a total occupancy of 10 persons; and

WHEREAS, the applicant states that the proposed plans for the 5th floor apartment has been changed slightly at the rear for architectural reasons and he now requests the Board to amend the resolution adopted April 27, 1954, to approve the plans now submitted and to include the use of the 5th floor as office and apartment as previously permitted.

Resolved, that the Board of Standards and Appeals does hereby *amend* the resolution adopted on April 27, 1954, by adding thereto:

"that in addition to the requirements of the resolution adopted by the Board on April 27, 1954, an additional extension may be permitted as now shown on revised plans marked "Received, February 17, 1955" (7 sheets), and "April 1, 1955" (1 sheet) and to permit the alteration as proposed for the fifth floor *on condition* that the requirements of the resolution above cited shall be complied with in all respects where not inconsistent with this *amended* resolution.

337-54-A

APPLICANT—Sidney Daub, for Mutnick Holding Corp., owner.

SUBJECT—Application April 27, 1954—re Appeal from a decision of the borough superintendent.

MINUTES

PREMISES AFFECTED—138-140 Greene street, east side, 226 ft. $\frac{1}{4}$ in. south of West Houston street, Block 513, Lot 6, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Klei-
ert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated April 26, 1954, on BN App. 507 of 1954 reads:

"1. Cellar exits should lead directly to street—section 271 of the Labor Law.

"2. A fire escape as a 2nd means of egress in a factory building over five (5) stories in height is contrary to section 271 of the Labor Law."

and

WHEREAS, the applicant states the building is six stories, 84 ft. in height, 38 ft. $1\frac{1}{2}$ in. by 96 ft. in depth at first floor, 38 ft. $1\frac{1}{2}$ in. by 92 ft. in depth at typical floor level, of Class 3 construction, erected 1884, located in an unrestricted use, B area, Class 2 height district, and used and occupied since 1920: Cellar—shipping lamp shades, 4 persons; 1st floor—storage of rayon, 2 persons; 2nd floor—mfg. of lamp shades, 25 persons; 3rd floor—storage of rayon, 2 persons; 4th floor—vacant; 5th floor—storage of lamp shades, 2 persons; 6th floor—vacant; and now proposed to be used and occupied as follows: Cellar—shipping lamp shades, 4 persons; 1st floor—storage of rayon, 2 persons; 2nd floor—mfg. lamp shades, 25 persons; 3rd, 4th, 5th, 6th floors—factory, 35 persons each floor; the building is provided with a non-automatic sprinkler system throughout, an interior fire alarm system has been installed; there is one 3 ft. 8 in. wide interior wood stairs enclosed in partitions of wood stud, metal lath and $\frac{3}{4}$ in. cement plaster equipped with fireproof self-closing doors and leading from roof bulkhead direct to street; there are two fire escapes, one front and one rear; front fire escape extends to roof by stair and to street by stair, rear fire escape extends to roof by ladder and to yard by ladder, windows and doors on the course of the front fire escape are fireproof self-closing; egress from the lower termination of the rear fire escape is through adjoining building; and

WHEREAS, Violation No. 9543 was issued November 19, 1953, for violation of Section 271 of the Labor Law in that all floors including cellar are not provided with two legal means of egress to street as required by the Labor Law; and

WHEREAS, Certificate of Occupancy No. 1592 was issued June 2, 1919, permitting the following use and occupancy: Cellar—storage; 1st floor—store, 35 persons; 2nd and all floors above—factory, 35 persons each floor; and

WHEREAS, the applicant states plans were filed under Alt. App. 2318 of 1919 to change the use of the building from storage to manufacturing and the exits were improved to comply with the Labor Law requirements and Certificate of Occupancy No. 1592 of 1920 was issued; and

WHEREAS, the applicant states that the fire escape at the front of the building has four foot wide balconies and 45 degree connecting stairs from second story to roof and 45 degree counterbalanced stair from second story balcony to grade; that balconies and stairways have 4 ft. 6 in. high railings on the outside and 3 ft. high railings on the inside of stairways and stair well openings; the openings on the course of the fire escape at front are provided with fireproof wire glass automatic closing windows and fireproof self-closing doors equipped with steel steps leading thereto; that the fire escape was erected and approved under Alt. App. 2318 of 1919; and

WHEREAS, the applicant states that in addition there is a 3 ft. wide party wall fire escape at the rear connecting to the adjoining building to the south, No. 132-6 Greene street provided with 60 degree stairs from second to sixth floor

and gooseneck ladder to roof and drop ladder from second story balcony to the adjoining rear yard; and

WHEREAS, the applicant states that the building has a 3 ft. 8 in. wide stairway from first story to roof enclosed with wood studs covered both sides with metal lath and cement plaster equipped with fireproof self-closing doors and a fire retarded hallway at the first floor leading directly to the street; that the cellar has a 4 ft. wide stairway from the first story with fire retarded enclosure at the first story and fireproof enclosure at the cellar equipped with fireproof self-closing doors, top and bottom; that in addition there is a 3 ft. 8 in. wide horizontal exit from the southerly wall connecting with 132-6 Greene street at the cellar level equipped with automatic fireproof sliding doors each side of the opening and cellars of both buildings are occupied by the same tenant; that in addition there is a double rung iron ladder leading to an engineer's exit to the street; that the building is equipped throughout with a non-automatic sprinkler system and an approved interior fire alarm system and monthly fire drills are maintained; and

WHEREAS, the applicant contends that the use is of a non-hazardous nature and the occupancy of the building is very light and has been greatly reduced since the issuance of the certificate of occupancy and the Board is therefore requested to vary the requirements of the Labor Law as the building is only one story in excess of the height for which fire escapes are acceptable; and

WHEREAS, under Cal. No. 1474-18-S the Board accepted egress by front fire escape at the sill level on condition that the building remain substantially unchanged; and

WHEREAS, the applicant stated in the petition for such variance that not more than 40 persons were employed in the building at the tenant factory; and

WHEREAS, under Cal. No. 793-25-A the Board modified an Order of the Fire Commissioner requiring the installation of standpipe system on condition that a one-source sprinkler system be installed in accordance with the Rules of the Board; and

WHEREAS, the premises was inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby make a variation of the requirements of the Labor Law, as cited in the decision of the Borough Superintendent, acting on B.N. App. 507/54, Objections 1 and 2, and that the appeal be and it hereby is *granted on condition* that the primary means of exit shall be maintained as proposed and as indicated on plans filed with this appeal marked "Received April 27, 1954" (3 sheets), and "February 25, 1955", (2 sheets); that the building shall not be increased in height or area and in all other respects shall comply with all laws, rules and regulations applicable thereto; that the interior fire alarm system shall be maintained in accordance with the requirements thereof; that the requirements of the resolution adopted by the Board on December 29, 1925, under Cal. No. 793-25-A as to the installation of a one-source wet sprinkler system shall be complied with in lieu of the non-automatic dry system improperly installed or that a standpipe system required by law shall be installed; and that a new certificate of occupancy shall be obtained and that the number of occupants per floor shall not exceed the number permitted for the primary means of exit.

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated, May 6, 1954, on Alt. App. 2042 of 1953; reads:

"4. Fire escape not acceptable as a legal means of egress from a factory bldg. more than five stories in height under Sec. 271 of labor law as amended 7-1-47.

5. Provide two lawful means of egress from each floor area, including cellar."

and

WHEREAS, the applicant states the building is 7 stories 75 ft. in height, 50 ft. by 100 ft. in area at street level, 50 ft. by 90 ft. in area at typical floor level, erected prior to 1920, located on a lot 56 ft. by 100 ft. 5 in. in area in a restricted retail use, B area, Class 1½ height district; used and occupied 1920—Cellar: storage and kitchen, 15 persons; 1st floor; restaurant, 180 persons; 2nd floor—manufacturing and sale of dresses, 20 persons; 3rd floor—manufacturing and sales of dresses and furs; 20 persons; 4th floor—manufacturing and sales of dresses and hats, 20 persons; 5th floor—manufacturing and sales of dresses and furs, 20 persons; 6th floor—manufacturing and sales of millinery goods, 20 persons; 7th floor—manufacturing hats and dresses, 20 persons; no change in use or occupancy is now proposed; the building is provided with an approved interior fire alarm system, and regular monthly fire drills are maintained; there is one interior 3 ft. 8 in. wide steel stairs enclosed in fireproof partitions at the first and second stories and in partitions of wood studs, metal lath and plaster above; equipped with fireproof self-closing doors; stairhall leads direct to street and to roof bulkhead; and in addition there is one fire escape on the rear extending to roof by stair with egress at second story balcony level to fireproof passage to street, window and door openings on the course of the fire escape are fireproof self-closing; and

WHEREAS, Certificate of Occupancy #18959 issued May 20, 1933, as an existing building permits the present use and occupancy and contains the limitation of 25 percent of manufacturing as the building was located in a business use district at the time of the issuance of the Certificate of Occupancy; and

WHEREAS, the applicant states that the building is of Class 3 construction that Alt. App. 483 of 1920 was approved for showrooms and 25 percent manufacturing; that the exits were improved to comply with the Labor Law requirements and Certificate of Occupancy #3120 of 1921 was issued; that in 1933 Certificate of Occupancy 18959 was issued to supersede Certificate #3120 of 1921; and

WHEREAS, the applicant states the fire escape in question is at the rear and has a 4 ft. wide balcony with 45 degree connecting stairway from second story to roof; that the balconies and stairways have five foot high guard rails; that the balconies are located at the floor levels and access thereto is by 2 ft. by 7 ft. fireproof self-closing doors; that these fire escapes were erected and approved under alteration application 483 of 1920, prior to the issuance of Certificate of Occupancy #3120; that egress from the termination of the fire escape at the second story is by a three foot wide fireproof enclosed passage at the second story level connecting to the fireproof enclosed 3 ft. 8 in. wide interior stairway which leads to first story hallway and to street; that in addition to the fire escape the building contains a 3 ft. 8 in. wide steel stairway from first story to roof enclosed from third story to roof with wood studs covered both sides with metal lath and cement plaster and with a fireproof enclosure at first and second story hallway and a fireproof hallway at first story leading direct to the street; that the occupancy of the cellar consists of a boiler room and superintendent's quarters and kitchen and locker room used in connection with the restaurant on the first story; and

WHEREAS, the applicant states that exit from the cellar consists of a 3 ft wide fireproof steel stairway at the center front of the building enclosed in fireproof partitions connecting with the primary interior stairway which leads to the first story entrance hall and thence to street that this stairway is provided with a fireproof self-closing door at the cellar superintendent's quarters; that it is proposed to provide an additional door from the remaining portion of the cellar to this stairway; that at the front wall of the cellar from the superintendent's quarters there is an iron ladder extending up to a 2 ft. by 2 ft. steel sidewalk hinged trap door upon which the owners will provide an easy opening device consisting of a torsion spring and a spring actuated slip bolt arranged with pull chain reaching to within four feet of the cellar floor; that no locking device will be provided on either side of this sidewalk door; that heating coils will be provided at the sides of the opening to prevent freezing of the door; that at the easterly wall of the cellar there is a 3 ft. 8 in. wide steel stairway leading to the first story restaurant pantry; it is proposed to provide a fireproof enclosure equipped with fireproof self-closing door at the cellar level for this stairway; that egress from the rear of the cellar is by a 3 ft. 6 in. opening in the fire wall leading to the adjoining building at the rear on West 58th Street equipped with automatic fireproof closing swing doors at each side of the opening; that the cellar in the West 58th St. Building is used by the same tenant and egress is provided from the adjoining cellar by a 3 ft. wide fireproof stairway equipped with fireproof enclosing partitions and fireproof self-closing door leading to the first story and in addition there is an engineer's exit at the West 58th St. front of that building; and

WHEREAS, the premises was inspected by a committee of the Board, which noted the means of exit, including the rear fire escape and the additional stair to the cellar.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law, as cited in the decision of the Borough Superintendent, acting on Alt. App. 2042/53, Objections 4 and 5, and that the appeal be and it hereby is granted on condition that the means of exit shall be as now proposed and as indicated on plans filed with this appeal, marked "Received May 11, 1954", (3 sheets) and "February 24, 1955", (3 sheets) and that alteration and conditions as proposed, shall be carried out; that the occupancy per floor shall not exceed the number of occupants permitted for the primary means of exit; that the interior fire alarm and fire drills shall be maintained in accordance with the requirements therefor.

417-54-A

APPLICANT—Rudolf C. P. Boehler, for The Prudential Insurance Company of America, owner.

SUBJECT—Application May 26, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1407 Broadway, southwest corner of West 39th street and 533 7th avenue, 23rd floor; Block 814, Lot 15, Borough of Manhattan.

APPEARANCES—

For Applicant: E. Augustus Acker.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: 0
Negative: Chairman Murdock, Commissioners Klein-
ert and Keating and Deputy Chief Connolly 4

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated May 20, 1954, on BN App. 1427/54, reads:

"1. Proposed to veneer the walls of the public corridor on the 23rd floor of this bldg. with a rubber tile is contrary to Sec. C26-667.0 Adm. Code."

and

MINUTES

WHEREAS, the applicant states the building is 41 stories, 512 ft. in height, 205 ft. by 301 ft. in area, Class 1 construction, erected in 1950, in a retail and retail-1 use, B area, Class 2 height district; used and occupied since erection: Cellar—bank, factory, store, building equipment, storage and kitchen, 300 persons; 1st floor—bank, stores, loading platform, 300 persons; mezzanine—bank, 25 persons and luncheonette, 74 persons; 2nd floor—offices, showrooms and manufacturing, 456 persons; 3d floor—same; 4th to 19th floors—offices, showrooms and manufacturing, 352 persons each floor; 20th floor—offices, 170 persons; 21st floor—offices, showrooms and manufacturing, 176 persons; 22nd to 40th floors—offices, showrooms and manufacturing, 108 persons per floor; 41st floor—offices, 100 persons. No change in use or occupancy is now proposed. The existing occupancy is in accordance with Certificate of Occupancy #37614 issued September 23, 1950, upon completion of work under N.B. 50/44; and

WHEREAS, the applicant requests the Board to grant a variation of the requirements of the Administrative Building Code as cited in the decision of the Borough Superintendent so as to permit the existing wall covering on the 23rd floor to remain; and

WHEREAS, the applicant contends that the building is provided with a 100% sprinkler system, standpipe with hose connection in each stairhall on each floor; that on the 23rd floor the public corridor walls have been covered with rubber tile solidly cemented to plastered walls in order to enhance the appearance and provide a good wearing surface finish; that the walls covered with rubber tile are composed of 6 in. and 4 in. cinder concrete blocks plastered on both sides; that the rubber tile has been solidly cemented to these plaster walls; and

WHEREAS, the applicant states that samples of the rubber tile have been tested by the United States Testing Company, Inc. and found to be "not exactly inflammable unless it is exposed to an open flame of very high temperature"; and

WHEREAS, the applicant contends that to be required to remove the violation would mean destroying the nice appearance of the corridors and cause a great financial hardship to the owners and inconvenience to the tenants on that floor; and

WHEREAS, the applicant has filed with this appeal a copy of report #E10711 and E19711 of the U. S. Testing Co., Inc., dated January 14, 1955, showing the results of tests conducted on rubber tile and adhesive samples and identified by its client as representative of materials used on walls at 1407 Broadway, New York City; and

WHEREAS, the premises was inspected by a committee of the Board; and

WHEREAS, the tile in question is subject to approval by the Board on an application filed by the American Builtite Rubber Company for use as rubber tile flooring; that approval of such flooring for use in hallways and stairs is not permissible under the Building Code nor on walls as wainscots on such parts of the building; and

WHEREAS, the applicant stated that to his knowledge there is no other portion of the building in which this tile has been unlawfully installed except on the 23rd floor in question in this appeal.

Resolved, that the decision of the Borough Superintendent acting on BN App. 1427/54, Objection 1, be and it hereby is *affirmed* and that the appeal be and it hereby is *denied*.

568-54-A

APPLICANT—Melvin E. Kessler, for Paul Tishman, trustee (Gene Tishman Harrison and Ellen Tishman Rosenthal, owners).

SUBJECT—Application July 7, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—21 East 70th street, north side, 21 ft. west of Madison avenue, 5th floor, Block 1385, Lot 16, Borough of Manhattan.

APPEARANCES—

For Applicant: Melvin E. Kessler.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleintert and Keating and Deputy Chief Connolly 4
Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated June 11, 1954, on Alt. App. 944/54 reads:

"1. Proposed occupancy of 5th floor as offices in a Class III bldg. exceeds tabular heights limits. 4.2.1. B.C.

2. Winders in required stairs are unacceptable. 6.4.1.4.d B.C.

3. Provide incombustible stair. 6.4.1.7.1. B.C.

4. Provide 2 hour enclosure. 6.4.1.8.1. B.C.

and

WHEREAS, the applicant states the building is 5 stories, 65 feet, in height, 22 ft. by 70 ft. 6 in. in area of Class 3 construction, erected in 1890 on a lot 22 ft. by 100 ft. 5 in in area, in a restricted retail use, B area, Class 1½ height district; used and occupied since November 1951 as follows: Cellar—storage; 1st floor—reception and office, 4 persons; 2nd floor, offices, 4 persons; 3rd and 4th floors—offices, 6 persons each; 5th floor—vacant, for which Certificate of Occupancy No. 39176 was issued November 28, 1951, upon completion of work under Alt. App. 342/51. It is now proposed to use and occupy the building without change except that the 5th floor will be used for offices with 6 persons. The applicant states the building is provided with a one-source sprinkler system throughout the stairhall; that there is one interior steel and wooden stairs, 3 to 4 feet in width, unenclosed, except at cellar and 1st floor; for the single run of stairs between cellar and 1st floor and fireproof self-closing doors are provided at top and bottom of this single run; and

WHEREAS, the applicant states the building will now be occupied in compliance with a Certificate of Occupancy issued by the Borough Superintendent and permission is requested also to occupy the now vacant 5th floor for office space; and

WHEREAS, the applicant contends as to Objection 1, that the cellar is used for office material storage; that there is no boiler room in the building; that part of the cellar is fireproof and the section of the cellar from the rear of the elevator is fire-retarded; that the iron stair between the cellar and first floor is enclosed with 4 in. blocks and equipped with fireproof, self-closing doors at top and bottom; that a large ornamental iron stair connects the first floor lobby to the second floor; that from 2nd floor to roof the stairs are wood; that all stairs are equipped with approved sprinklers; that the Paul Tishman Company, builders, occupy the entire building for their executive offices; that if the Board permits the use of the 5th floor for offices, it is proposed to erect a fire escape at the rear serving the 2nd, 3rd, 4th and 5th floors connected with 60° connecting stairs and provided with a gooseneck ladder from 5th floor balcony to the roof and a ladder stair to connect the 2nd floor balcony with an existing exterior stair at first floor level; that an existing exit door at first floor level leads to the street through the large reception hall on entrance story; and

WHEREAS, the applicant contends as to Objection 2, that the winders are existing and have been previously approved for use for four stories; that in view of the limited use of the building by one tenant, the small occupancy, the small area of the building, the sprinklers in stairhall and the proposed additional exit facilities, the existing winders should be accepted to include the fifth story occupancy; and

WHEREAS, the applicant contends as to Objection 3, that a wooden stairway is permitted in a 4-story building and has been accepted by the Department as is evidenced by the existing certificate of occupancy; that the wooden stairs above the 4th story leading to the roof is an existing condition and should be accepted in connection with the occu-

MINUTES

pancy of the 5th floor; that no more than six persons will work on the 5th floor; and

WHEREAS, the applicant contends as to Objection 4, that approval of existing conditions is requested inasmuch as the stairs are equipped with an approved sprinkler system; that the occupied area of each floor is 1,565 square feet; that the building is 56 ft. 10 in. above the 1st floor; that a new fire escape will be erected on the rear; and the entire building will be occupied by one tenant with a maximum total of occupancy of twenty-six persons; and

WHEREAS, the premises was inspected by a committee of the Board and it was found that the fifth floor was occupied throughout.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 944/54, Objections 1, 2, 3 and 4, be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the 5th floor to be occupied as proposed for offices, *on condition* that the building shall not be increased in height or area; that all other conditions shall be maintained as indicated on plans filed with this appeal, marked "Received January 20, 1955" (10 sheets), and as passed on by the Borough Superintendent, for which Certificate of Occupancy No. 39176 has been issued for the four lower stories and that the proposed fire escape shall be constructed and maintained.

763-54-A

APPLICANT—Elias K. Herzog, for Lynn Operating Corp., owner.

SUBJECT—Application September 28, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—112 Charlton street and 549 Greenwich street, southeast corner, Block 597, Lot 45, Borough of Manhattan.

APPEARANCES—

For Applicant: Elias K. Herzog.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating 3

Negative 0

Absent: Deputy Chief Connolly 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated September 1, 1954, on Alt. App. 2170/53 reads:

"3. Means of egress should comply with Section 271 of the Labor Law. 2 means of egress required from all floors including cellar; fire escape not acceptable."

and

WHEREAS, the applicant states the building is 6 stories, 60 feet in height, 75 ft. by 50 ft. in area, Class 3 construction, erected in 1909, in an unrestricted use, A area, Class 2 height district; used and occupied since 1920: Cellar—boiler room, storage, 1 persons; 1st floor—restaurant and electric supply house, 80 persons; 2nd floor—printing, 5 persons; 3d and 4th floors—vacant; 5th floor—printing labels, 10 persons; 6th floor—manufacturing electronics, 1 person; now proposed to be used and occupied as follows: Cellar—same; 1st floor—restaurant, electric supply house, 80 persons; 2nd floor—printing, 10 persons; 3d and 4th floors—factory, 10 persons per floor; 5th floor—printing labels, 10 persons; 6th floor—same. The building is provided with an interior fire alarm system and regular monthly fire drills are maintained; there is one 3 ft. 1 in. wide interior wood stairs, enclosed with fire-retarded partitions, equipped with fireproof, self-closing doors leading from roof bulkhead direct to street and one fire escape on the west side, extending to roof by ladder and to street by counterbalanced stairs; window and door openings on course thereof are fireproof, self-closing; and

WHEREAS, Violation No. 7177 was issued by the Borough Superintendent September 17, 1953, for violation of Section

271 of the Labor Law for failing to provide proper means of egress as required by said section; and

WHEREAS, the applicant states the building was erected in 1909 as a warehouse and changed to a factory in 1920 and has been so used since then; that the building is provided with a fire-retarded enclosed stairs leading to street and a Labor Law fire escape terminating on the street front; that such fire escape is constructed in accordance with requirements for fire escapes erected after 1913; and

WHEREAS, the applicant states it is proposed to provide an engineer's exit from the cellar and to enclose the stairs and stairhall at cellar level with fireproof partitions and fireproof doors, as indicated on plans filed with this appeal; and

WHEREAS, the applicant contends that the entire rentable area per floor is only about 3,000 square feet and the maximum number of persons employed on each floor above the first floor is only ten; that some floors are now vacant; that the floors which are occupied are covered by long term leases; that to be required to provide an additional stairs would not only cut the space required, but make it practically useless for rentable purpose and also involve the owner in litigations with his tenants; that the hardship involved is not warranted by the conditions; and

WHEREAS, the premises were inspected by a committee of the Board.

Resolved, that the Board of Standards and Appeals does hereby *make a variation* in the requirements of the Labor Law, as cited in the decision of the Borough Superintendent, acting on Alt. App. 2170/53, Objection 3, and that the appeal be and it hereby is *granted on condition* that the primary means of exit shall be maintained in accordance with the requirements therefor; that a second means of exit consisting of an exterior fire escape on Greenwich street shall be constructed with counterbalanced stair to street and maintained as proposed and indicated on plans filed with this appeal marked "Received March 1, 1955" (4 sheets); that this variance shall continue only so long as the building is occupied substantially as at present and the number of occupants per floor does not exceed the number shown; that the occupancy per floor shall however not exceed the capacity of the primary means of exit; that the interior fire alarm and fire drills shall be maintained; that the building shall not be increased in height or area and that the additional exit from the cellar and cellar stair enclosure shall be maintained as proposed.

773-54-A

APPLICANT—Henry G. Harris, for Murry Holding Corp., owner.

SUBJECT—Application October 11, 1954—re Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—1832-1846 83rd street, south side, 240 ft. west of 19th avenue, and 1835-1847 84th street, Block 6237, Lot 22, Borough of Brooklyn.

APPEARANCES—

For Applicant: Henry G. Harris.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings and Joseph A. Sweeney, Dep't of Hospitals.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioner Keating and Deputy Chief Connolly 3

Negative: Commissioner Kleinert 1

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated October 8, 1954, on Alt. App. 3554 of 1954 reads:

"1. Changing frame portion of Bldg. from a Multiple Dwelling to a Nursing home is contrary to Sects. 2-1-3-5 & 4-2-1 of Bldg. Code.

"2. All stairs to be enclosed in 3 hr. material as per Sect. 6-4-1-8 of B. C.

"3. Stairs below and above grade to be separated as per Sect. 6-4-1-8-2/d of Bldg. Code.

MINUTES

"4. Door from centre stairway & door from boiler room stairs not to overlap steps as per Sect. 6-7-2 Bldg. Code.

"5. Winders in cellar stairs is contrary to Sect. 6-4-1-4 Bldg. Code.

"6. Stairway at 84th St. to lead direct to street in a 3 hr. enclosure as per Sect. 6-4-11, Bldg. Code.

"7. Min. width of stairs to be 3' 8" as per Sect. 6-4-1-1, B. C.

"8. All stairs to extend to roof, including stairways in Fireproof portion of Bldg. Sect. 6-4-1-11 Bldg. Code.

"9. Closet under stairs of incombustible material is contrary to Sect. 6-4-1-13, par 2 of Bldg. Code."

and

WHEREAS, the applicant states the building is 2 and 3 stories, 38 ft. in height, 43 ft. 8 in front by 148 ft. in depth of Class One and Class 4 construction, erected prior to 1950, located on a lot 129 ft. 3 in front by 200 ft. in depth in a residence use, C area, Class One height district, proposed to be increased to 3 stories 38 ft. in height; that 1832 to 1846 83rd St. is a fireproof building used and occupied as follows: Cellar—locker room, bowling alley and exercise room, 50 persons; 1st floor—gymnasium, 125 persons; 2nd floor—17 Class B sleeping rooms, 17 persons; the building has no existing third story, and is proposed to be altered and used and occupied as follows: Cellar—kitchen, mortuary and storage, 6 persons; 1st floor—nursing home, 42 persons; 2nd floor, nursing home, 41 persons; new 3rd floor—nursing home, 36 persons, total 125 persons; that the frame building at 1835 to 1847 84th Street is used and occupied as follows: Cellar—maintenance and club rooms, 75 persons; 1st floor, offices, game room and powder room, 43 persons; 1st and 2nd floor combined—kitchen and one-family, conference room, 2 Class B sleeping rooms, 25 persons, 3rd floor—5 Class B sleeping rooms and one storage room, 6 persons; total 149 persons, and now proposed to be used and occupied as follows: Cellar—boiler room, staff room and storage, 10 persons; 1st floor—nursing home, 25 persons; 2nd floor—nursing home, 20 persons; 3rd floor—nursing home, 18 persons; total occupancy 73 persons; the combined building is provided with three interior stairs 2 ft. 6 in. and 3 ft. 8 in. wide of steel construction and of wood construction, stairs have brick enclosures or wood stud enclosures equipped with fireproof self-closing doors; and

WHEREAS, Certificate of Occupancy No. 126123 was issued April 25, 1950, to No. 1841 84th Street as a frame building at the front and a fireproof building at the rear classified as an heretofore existing Class B multiple dwelling and permitted the following uses and occupancy: Frame Building—Cellar, maintenance and club room, 75 persons; 1st floor—offices, game rooms, powder room, 43 persons; 1st and 2nd floor combined—kitchen and dwelling, one family; 2nd floor—conference room, two Class B sleeping rooms, 25 persons; 3rd floor—5 Class B sleeping rooms and one storage room, 6 persons; and the brick addition connected with the frame building under Alt. App. 7237 of 1925 is permitted to be used and occupied as follows: Cellar—locker room, bowling alley and exercise room, 50 persons; 1st floor gymnasium, 125 persons; 2nd floor 17 Class B sleeping rooms, 17 persons; and stated that the buildings were examined under Section 67 of the Multiple Dwelling Law and had been heretofore erected as a YMCA; and

WHEREAS, the applicant states that Alt. App. 3553 of 1954 proposing a change in use of the adjacent attached three story frame structure which is in the building subject to this appeal and is legally used as a dormitory by the YMCA under Certificate of Occupancy No. 126123 of 1950 as a Class B Multiple Dwelling; that Alt. App. 3553 of 1954 relating to the existing fireproof building at 1832-46 83rd Street has been approved and work almost completed to change this fireproof building to a nursing home; and

WHEREAS, the applicant contends as to the decision of the Borough Superintendent on Alt. App. 3554 of 1954 relating

to the frame building at 1835-47 84th Street that Objections 3, 4 and 5 issued by the Borough Superintendent will be complied with; that a new Certificate of Occupancy will be obtained; that the entire perimeter of the frame structure and the fore and aft bearing partitions will be fire stopped at the floor and roof construction with 3 in. gypsum blocks; that a sprinkler system, interior fire alarm system and watchman's time detector will be installed and the present stairs at the 84th Street end of the building will be extended direct to the street and the interior stair from the second to the first floor and the first floor to the cellar will be removed as indicated on plans filed with this appeal; and

WHEREAS, the Board is in receipt of a communication from the General Inspector of the Department of Hospitals stating that the following bed arrangement has the approval of the department: 1st floor—25 beds; 2nd floor—20 beds; 3rd floor—16 beds; total—61 beds; and recommending that the building be equipped with a full automatic wet sprinkler system throughout and an automatic fire alarm system; that only ambulatory patients be housed above the first floor; that blind patients and amputees be housed on the first floor only and that the bed capacity of the third floor be reduced from the 18 proposed to 16 beds; and

WHEREAS, the applicant has filed revised third floor plans marked, "Received, March 11, 1955" showing new bathroom and water closet compartment on the third floor in compliance with Hospital Department regulations; and

WHEREAS, the premises was inspected by a committee of the Board; and

WHEREAS, the applicant has amended his plans so as to eliminate the use of the attic space in the frame building for patients and to use the attic instead as an apartment for the superintendent and for restroom and lounge for the nursing home attendants.

Resolved, that the decision of the Borough Superintendent, acting on Alt. App. 3354/54, Objection 1, be and it hereby is *modified* and that the appeal be and it hereby is *granted on condition* that the use of the frame building as a nursing home shall be as to the 1st and 2nd floors only, as indicated on plans filed with this appeal marked "Received October 11, 1954" (4 sheets), "February 2, 1955 (4 sheets), and "April 4, 1955" (1 sheet), *on condition* that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and maintained to the satisfaction of the Department of Hospitals; that the building shall not be increased in height or area; that there shall be installed throughout the frame building a new wet sprinkler system of at least one-source, complete from cellar to attic; that an automatic fire alarm system shall be installed throughout the frame building; that only ambulatory patients shall be housed above the first floor and no blind patients or amputees housed above the first floor; that the bed capacity of the 1st and 2nd floors shall be to the satisfaction of the Department of Hospitals; and to permit in connection with Objections 2 to 9, the existing stairways as shown on plans above cited, provided enclosures are maintained for at least one-hour fire test; that closets under the stairs shall be eliminated and the soffits of the stairs shall be fire-retarded and in all other respects shall comply with all laws and rules applicable and that the proposed fire-stopping, watchman's time detector and extension of stairs to the street shall be constructed and maintained.

APPEARANCES—

For Applicant: George Fuchs.

For Owner: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted revoking Certificate of Occupancy No. Q 49684/48.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the applicant contends that the part of Certificate of Occupancy Q-49684 referring to the detached one car garage is defective; and

WHEREAS, the applicant states that N. B. App. 6744/47 filed December 3, 1947, for the construction of a two story frame, one family dwelling and a detached one car masonry garage was approved January 13, 1948; that on the approved plans the garage was properly located five feet from the side lot line but was actually constructed approximately two feet eight inches from the south lot line as indicated on a survey dated July 13, 1948, drawn by Bartlett, Ludlam & Dill; and

WHEREAS, the applicant therefore requests that the Board revoke Certificate of Occupancy Q-49684; and

WHEREAS, this appeal was laid over to this hearing at the request of the representative of the owner of the premises, to file an application for a zoning variance; and

WHEREAS, there was no appearance for the owner at this meeting.

Resolved, that the appeal be and it hereby is *granted* revoking Certificate of Occupancy Q-49684/48, issued on N. B. Application 6744/47.

APPEARANCES—

For Applicant: George Fuchs.

For Owner: None.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted revoking Certificate of Occupancy Q-49685/48.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the applicant states the premises are located in a residence use, G area, Class one height district; and

WHEREAS, the applicant contends that the portion of Certificate of Occupancy Q-49685 referring to the detached one car garage is defective; and

WHEREAS, the applicant states that N. B. App. 6745/47 filed December 3, 1947, for the construction of the two story frame dwelling and a detached one car masonry garage was approved January 13, 1948; that on the approved plans the garage was properly located five feet from the side lot line but was actually constructed approximately two feet five inches from the south lot line as indicated on a survey dated July 13, 1948, drawn by Bartlett, Ludlam & Dill; and

WHEREAS, the applicant therefore requests the Board to revoke Certificate of Occupancy Q-49685; and

WHEREAS, this appeal was laid over to this hearing at the request of the representative of the owner of the premises, to file an application for a zoning variance; and

WHEREAS, there was no appearance for the owner at this meeting.

Resolved, that the appeal be and it hereby is *granted* revoking Certificate of Occupancy #Q-49685/48, issued on N. B. Application 6745/47.

57-55-A

APPLICANT—Sidney Daub, for 132 West 31st Street Corp., owner.

SUBJECT—Application January 21, 1955—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—127-133 West 30th street, south side, 320.2 ft. west of Avenue of the Americas (6th), Block 806, Lot 58, Borough of Manhattan.

APPEARANCES—

For Applicant: Sidney Daub.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinert and Keating and Deputy Chief Connolly 4

Negative 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent dated January 17, 1955, on BN App. 1008 of 1954, reads:

"1. Provide 2 means of egress from each sub-cellar (exceeds 1000 sq. ft. in area)—Section 270 of the Labor Law."

and

WHEREAS, the applicant states the building is 17 stories 207 ft. 6 in. in height, 99 and 125 ft. front by 197 ft. 6 in. in depth, of fireproof construction erected 1924, located on a lot 99 ft. and 125 ft. front by 197 ft. 6 in. in depth in an unrestricted and retail use, B area Class 2 height district and used and occupied since 1924; subcellar—boiler room and building equipment, 2 persons; cellar—storage in connection with the first floor stores, 10 persons; 1st floors, stores, 60 persons; 2nd to 17th floors—offices and factory, 300 persons each floor; no change in use or occupancy is now proposed; the building with a two-source sprinkler system; two interior 3 ft. 8 in. wide fireproof stairs from roof bulkhead direct to street; and

WHEREAS, certificate of occupancy No. 9440 was issued April 9, 1925, upon completion of work under NB Appl. 179 of 1924 permits the existing use and occupancy and contains a note that not more than 25% of floor area of building is to be used for manufacturing; and

WHEREAS, Violation No. 5164 issued by the Borough Superintendent July 21, 1953, was for failing to provide two legal means of egress from the subcellar contrary to Section 270 of the Labor Law; and

WHEREAS, the applicant states the subcellar is used for building maintenance equipment consisting of heating equipment, fuel oil storage tanks, electric water and sprinkler supply pumps, etc.; that no materials are stored in the subcellar; that the occupancy of the subcellar is not more than two persons at any given time consisting of the engineer and his helper; that the subcellar has two levels, the front portion is 40 ft. below West 30th street, and the rear approximately 29 ft. below street grade; that there is a three ft. eight inch wide interior fireproof stair with fireproof enclosure extending from the higher level of the subcellar fireproof enclosed corridor to the first story public hallway; that from the high level of the subcellar there is a two foot wide steel stairway down to the lower level; that this stairway is centrally located and can be reached from all portions of the subcellar; that it is proposed to provide an additional means of egress at the West 30th street side of the building by using a discontinued fireproof enclosed elevator shaft and installing therein a 70 degree, double rung iron ladder with intermediate landing extending to the sidewalk

MINUTES

where a 2 ft. by 3 ft. trap door will be installed at sidewalk level to be equipped with an approved type steel hinged trap door provided with an easy opening device consisting of a torsion spring and a spring actuated slip bolt arranged with pull chain to open from the under side and no locking devices will be provided on the street side of the trap door; that heating coils will be provided at the sides of the door opening to prevent any freezing of the door; and

WHEREAS, the applicant contends that the entire building including the subcellar is equipped with an approved two-source sprinkler system with central office connection.

Resolved, that the Board of Standards and Appeals does hereby make a variation in the requirements of the Labor Law as cited in a decision of the Borough Superintendent, acting on BN App. 1008 of 1954, Objection 1, and that the appeal be and it hereby is *granted on condition* that the exits from the subcellar shall be maintained as proposed and as indicated on plans filed with this appeal marked, "Received, January 21, 1955" (4 sheets), and that the building shall in all other respects comply with all laws, rules and regulations applicable thereto; that the occupancy shall not exceed the capacity of the primary means of exit; that the sprinkler system shall be maintained with central office connection and that all other alterations as proposed shall be constructed and maintained.

103-55-A

APPLICANT—Rogers and Butler, for Trustees of Columbia University of the City of New York, owner.

SUBJECT—Application February 7, 1955—Appeal from a decision of the borough superintendent.

PREMISES AFFECTED—605-607 West 115th street, north side, 125 ft. west of Broadway, Block 1896, Lot 61, Borough of Manhattan.

APPEARANCES—

For Applicant: W. J. Whiteside, Jonathan F. Butler and Charles A. Brown.

For Administration: Samuel L. Becker, Dep't of Housing and Buildings.

ACTION OF BOARD—Appeal granted on condition.

THE VOTE—

Affirmative: Chairman Murdock, Commissioners Kleinfert and Keating and Deputy Chief Connolly 4

Negative: 0

THE RESOLUTION—

WHEREAS, the decision of the Borough Superintendent, dated January 14, 1955, acting on Alt. App. 1003/54, reads:

"1. The proposed use of entire building for Faculty offices of Columbia University would require it to be of fireproof construction as per Sec. 4.2.1 B.C.

2. Provide two means of egress as per Sec. 6.1.2.2.3 B.C.

3. The minimum width of stairways should be 3'-8" as per Sec. 6.4.1.1 B.C."

and

WHEREAS, the applicant states the building is 6 stories, 69 feet in height, 50 ft. by 87 ft. 11. in area, Class 3 construction, erected in 1903 on a lot 50 ft. by 100 ft. 11 in. in area in a residence use, B Area, Class 1½ height district; used and occupied since 1920: Cellar—boiler room, storage and 1 apartment, 3 persons; 1st floor—5 single rooms, office and restaurant, 35 persons; 2nd floor—5 apartments, 10 persons; 3d, 4th and 5th floors—each with 10 single rooms, 16 persons per floor; 6th floor—15 single rooms and laundry, 15 persons; and proposed to be used and occupied as follows: Cellar—boiler room, storage and superintendent's apartment, 3 persons; 1st floor—offices and lounge, 24 persons; 2nd to 6th floors, offices, 17 persons per floor. The building is provided with a partial one-source sprinkler system, an approved interior fire alarm system; there is one 3 ft. 3 in. wide interior fireproof stairs, fireproof enclosed, equipped with fireproof self-closing doors, leading from room bulkhead direct to street, and three fire escapes, lead

ing to roof by stair and to street by stair and to yard by stair and ladder, egress from rear fire escape through fire passage to street, and;

WHEREAS, the applicant contends as to Objection 1 that the proposed use as office space for the Dean and Professors of the School of General Studies of Columbia University is less hazardous than the existing use; that the first tier of beams and stairhalls and public hall on first floor are fireproof and elevator is enclosed; that fireproof, self-closing doors are installed at stairhalls; that sprinklers were installed in 1940, fed by a 3 in. connection to city main, in accordance with the Paek Law, in cellar, 1st, 3d, 4th, 5th and 6th floors and will be extended to the 2nd floor and a new siamese installed to supplement supply of water; that an approved fire alarm system is now installed and will be maintained; that in addition to existing fireproof stair enclosure within building there now exists three fire escapes, two of which (rear and east) extend from roof level to court and yard and one at front elevation, extending from 6th floor to street; there is also a fire escape from 2nd floor to court on west side and a set of steel stairs on west side between 1st floor (with exit from 1st floor public hall) to court; that all fire escapes and stairs have egress to street, one direct and the other via courts and yard and fireproof passage; that there is egress from court and yard to adjoining yard at west with egress to street; and

WHEREAS, applicant contends as to objection 2 issued by the Borough Superintendent that the net area of each floor is 2,600 sq. ft.; that egress from 1st floor is by fireproof hall to street and from public hall via steel stairs to court; that the proposed occupancy is 17 on each of upper floors, which is less than the 26 persons permitted under Sect. 6.1.2.3.c; that there are 3 fire escapes, two of which extend from roof to courtyard and one from 6th floor to 1st floor; and

WHEREAS, the applicant contends as to objection 3 that the existing 3 ft. 3 in. wide stair, enclosed in 8 and 12 in. brick walls and fireproof floors provides a greater capacity than required for the proposed occupancy; that supplementing the stairs are three existing fire escapes; and

WHEREAS, the applicant states the proposed work is as follows:

(a) partition changes, including removal of kitchenettes and some pantries and bathrooms;

(b) installation of sprinklers on 2nd floor and siamese on front of building;

(c) installation of fireproof, self-closing doors as required;

(d) installation of lally columns and steel beams for reinforcing floors to insure 50 lbs. live load.

Resolved, that the decision of the Borough Superintendent acting on Alt. App. 1003 of 1954, Objections 1, 2 and 3, be and it hereby is *modified* and that the appeal be and it hereby is *granted* to permit the existing building to be occupied substantially as proposed and as indicated on plans filed with this appeal marked, "Received, February 7, 1955" (10 sheets), *on condition* that the changes in fire protection devices and systems as proposed shall be maintained to the satisfaction of the Fire Commissioner; that the proposed and existing means of exit shall be maintained; that this variance shall continue only so long as the building is occupied as proposed; that in all other respects the building and occupancy shall comply with all laws, rules and regulations applicable thereto and is not increased in height or area.
